VALUABLE Residential Properties FOR SALE In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Containing ten rooms. House is good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containing seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 108 feet square.

Parcel No. 4. Brick residence, corner Wellesley and Benson streets. Two storeys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 108 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases.

Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

A Sudden Drop.

This the time of year to look for a sudden drop in the price of Furs at ALEX MELVILLE & CO'S.

It is not because we have charged too much, here-to-before or because our Furs are out-of-date or any less stylish, but because we are willing to let the remainder of our stock go for less than they are really worth. The end of the season approaches.

At the prices we name they are an investment—none better for your spare money.

Melville & Co.

Successors to Mills Bros.

SPECIAL THIS WEEK.

We are selling the balance of our Children's Hoods and Caps regardless of cost. Also Fur Goods in Children's Ruffs, Collarettes and Muffs below cost.

New Goods just arrived in Corsets—a special line of Corsets at 50c.

New Belt Pins and Belts, hemstitched Initial Handkerchiefs, at 5c.

We are still giving free lessons in Art Embroidery at

LOSS ABOUT $175,000.

Gowans, Kent & Co.'s Toronto Wholesale Destroyed by Fire.

HALIFAX CITADEL SCORCHED.

At Toronto as at Halifax the Frost King Made the Work of the Fire Fighters Doubly Hard—The Toronto Fire Was One of the Worst for a Long Time—The List of Losses and Insurances.

Toronto, Feb. 11.—The extensive premises occupied by Messrs. Gowans, Kent & Co., at 10-16 East Front street, was the scene yesterday of one of the most destructive fires that have taken place in Toronto for some time. The building was totally destroyed and the stock and plant of the company is ruined. The fire burned several hours and at times reached such great proportions that the whole block bounded by Front, Scott, Wellington and Yonge streets was threatened with destruction. The flames were first observed on the wall at the rear of the building, where several electric light wires enter the premises.

When the firemen arrived they found the flames in complete possession of the building. Fighting the fire on all sides, Chief Graham prevented any danger of its spreading, but failed for some time to subdue the persistent flames between the roof and top floor. The second floor fell about an hour after the fire started and scattered burning timber in all directions. Several firemen had narrow escapes in getting to places of safety. The walls of the building were not able to sustain the heavy mansard roof and it dropped shortly after 1 o'clock. In its fall it brought with it a mass of crockery from the second floor and the crash could be heard some distance away. It was not long before the firemen looked like huge icicles. As soon as the water dropped on their clothing it quickly froze, in some cases about an inch thick. The building was of three storeys, with a mansard roof. It was owned partly by the Kent estate and Crombie estate.

The company's stock of crockery and china was a valuable one. Mr. John G. Kent estimated its value at about $150,000, and it is said that the loss will be complete.

The losses and insurance are tabulated as follows:

Loss on contents owned by Gowans, Kent & Co.	$150,000
Insurance	
Liverpool and London and Globe	20,000
Lancashire	10,000
North British and Mercantile	3,333
National	2,500
Western	20,000
North America	5,000
Scottish Union	5,000
London Assurance	2,500
Phoenix of Hartford	5,000
Perth Mutual	2,500
Equity	2,500
Waterloo Mutual	2,500
Gore Mutual	3,000
Atlas	4,500
Total insurance on stock	$86,333
Loss on building owned by Crombie and Kent estates	$ 25,000
Insurance on building.	
Liverpool and London and Globe	$ 3,000
Lancashire	4,000
North British and Mercantile	6,500
Total insurance on building	$13,500

Between 80 and 90 employes are thrown out of work by the fire. Some of the female employes had a narrow escape from being suffocated until assisted from the burning building by Assistant Chief Davis and several of the firemen.

The firm intends to resume business at once. Mr. J. S. Kent, a partner, was looking around for suitable premises yesterday afternoon. Mr. Kent says there is a large quantity of goods in the custom house, and he expects the firm will be able to fulfill orders on Monday.

THE CITADEL ON FIRE.

Much Damage Done That the Soldiers at Halifax Could Not Avert—Couldn't Get Engine Up Hill.

Halifax, N.S., Feb. 11.—Early yesterday morning fire broke out in the Citadel. Word was at once telephoned by the military to the fire department, asking them to send the apparatus to the scene, in the hope that prompt work might avoid destruction. The people in the Citadel were themselves helpless. There is a hydrant there connected with the city water service, but that was frozen solid. A tank is also within the Citadel enclosure, but that was of no avail, because the primitive hand engine intended to draw water from it would not work. All that the soldiers could do, therefore, was to chafe impatiently as they awaited the arrival of succor from the city. This was slow in coming, on account of the steep ascent and the tremendous difficulty in hauling the heavy engine up the steep grades to the Citadel gate. Engine after engine was sent for, and they tried the hill from the north approach and the southern. This consumed much time.

The fire was below the earth-covered quarters, and though it burned fiercely, shooting in sharp tongues into the moat—for the fire started 20 feet below the upper level of the Citadel—the blaze could not be seen above.

The flames were in complete control of the offices of the district officers, the canteen and the reception room.

It was a most peculiar conflagration, from a spectacular point of view. Though the interior was a veritable furnace, there were no sheets of flames leaping upward. The place is roofed over with solid masonry, and above that again is thick earth.

At 8 o'clock the flames were under control. The damage will be considerable, though it is difficult to estimate it in dollars. The whole of the regimental papers contained in the office are burned, canteen accounts, sheets containing an account of offences are gone. The orderly room furniture is all destroyed, as well as everything that was in the offices.

The location of the fire was far removed from the magazines.

General Lord William Seymour and the leading officers were all on hand.

Another Manitoba Fire.

Roland, Man., Feb. 11.—A serious fire occurred here last night, and many merchants lost their places of business and the principal part of their stocks. The fire started at 7 o'clock, by a gasoline explosion in the hardware store of J. E. Birch & Sons. In the residences over the stores all the household goods were lost.

THE COUNTESS SENT FOR TRIAL.

Frau Webenau and Her Nephew Committed at Berlin.

Perth, Ont., Feb. 11.—Frau Webenau, the Austrian Countess, appeared before Magistrate Mackie yesterday afternoon to answer to a charge of conspiracy by deceit and falsehood to defraud the Merchants' Fire Insurance Company of Toronto, in whose company she had an insurance of $2,000 on household and personal effects. It will be remembered that the house in which she lived was mysteriously destroyed by fire a week ago. In filing her claim after the fire several articles entered as having been burned were found in some dozen odd cases which had been taken to Waterloo, and from there were to be shipped to Buffalo.

Mr. Bowman, insurance agent, who took the risk, was sworn, and said he visited the house and noticed several boxes unpacked, which defendant wished insured, as well as household furniture. He took a risk for $2,000 on statement of value given by plaintiff in the Merchants' Insurance Company. He identified some of the cases seized at Waterloo as being part of those insured, and which were in the house at the time.

Defendants set up the plea that these boxes were not in the risk. Further evidence was then submitted by several witnesses, and Mr. Mackie, the magistrate, ruled that sufficient evidence was submitted and the prisoners were committed for trial. Her nephew, Herman von Bolderhausen, was included as an accomplice, the risk being made out in his name.

U. S. OFFICIALS ARRESTED.

Canadians Found Them on Our Territory and Took Them In.

Skaguay, Feb. 4.—(Via Victoria, B.C. Feb 11.)—The United States Custom House Officers P. M. Hoyt and Hector McLean, while convoying liquors from here to Log Cabin, were arrested last Monday charged with crossing into British Columbia while serving in an official capacity.

The two men were held 24 hours and taken before Acting Magistrate Captain Cartwright, who told them that it was a violation of the British Columbia law for American officers to convoy goods through to Log Cabin, and that the boundry line was at the summit, and not at Log Cabin. He released them after threatening to arrest every American officer coming beyond the summit line while convoying liquors, and if necessary said he would place officers at the summit to stop them.

It is reported that Canadian officials have decided to order the American officials now stationed at Log Cabin to move across the summit line. This will greatly cripple the collection of American customs duties.

Deputy Collector of Customs C. L. Andrews of Skaguay has written to Deputy Collector Peele of Canada that he would hereafter hold all liquors and forbid any further convoys until the official boundary was settled. He has also sent to Washington and Sitka for instructions in the matter.

THE LEGISLATURE

Members Obtain Information About a Contract.

MANY PETITIONS WERE FILED.

The Returning Officers Will Be Asked to Furnish Certain Information Concerning Bye-Elections Asked for by Members—Inaugural Meeting of the Standing Orders Committee.

Toronto, Feb. 11.—As is usually the case on Fridays, the attendance of members at the sitting of the Legislature yesterday afternoon was very small, and but little business was transacted. It was private members' day, and private members were anxious to get away home by the afternoon trains and spend Sunday with their families, hence the brevity of the proceedings.

Petitions Presented.

Mr. German—From Fort Erie, wanting free markets.

Mr. Kribs—Waterloo, asking the provincial road instructor's supervision of road construction, providing provincial aid be obtained for payment of such work.

Mr. Pettypiece, Lambton—From medical men of the county, requesting an infirmary for the better treatment of women at London Asylum.

Mr. German—From County Council of Welland and from Fort Erie, for the beautifying of the old fort land at Fort Erie and making it a public park.

Mr. German—To reduce the number of members of township councils from five to three.

Mr. German—From County of Welland, to amend the Jurors' Act; to regulate wheelmen; for free markets; regarding fees of pupils attending high schools.

Just before the House rose, Mr. German handed in petitions from the Village Councils of Chippewa, Township of Stamford, Village of Niagara, Town of Niagara Falls and County Council from Welland, asking for immediate power from Niagara Falls.

Questions by Members.

Col. Matheson asked regarding the contract for public printing, and was informed by Mr. Harcourt that the lowest tender had been accepted, but the contract had not been let, as the conditions had not been complied with.

Mr. Marter put Mr. Whitney's question regarding the recent bye-election in West Huron, and the Attorney-General replied that the returning officer would be asked to furnish the information. In response to a further question, Mr. Hardy said he expected to hear from the returning officer in West Elgin on Monday.

Mr. German (Welland) had given notice of an inquiry whether the Canadian Niagara Power Company had proceeded with the work of development of power in accordance with the agreement with the Queen Victoria Niagara Falls Park Commissioners, but at the request of the Attorney-General the inquiry was allowed to stand over until Wednesday next.

The House adjourned until 8 p.m. Monday.

ASSEMBLY NOTES.

The inaugural meeting of the standing orders committee was held this morning and organization effected. Dr McKay, South Oxford, was elected chairman, and the principal item of business was the extension of the time for receiving petitions from February 13 to February 20.

Mr. J. J. Kelso has been asked by the Government to give an address to the members of the House on the Ontario system of caring for neglected and dependent children. The lecture will be given on Wednesday evening next at 8.30 in the members' reception room, and will be illustrated by limelight views. The affair will be entirely non-political and the lecture is given because of the general interest being taken in this work and the fact that the Ontario system has been copied in Manitoba and a number of the States in the Union.

Drs. Macdonald, Bryce, Barrick, Playter and Oldright, and Mr. W. D. Alexander, waited upon Hon. Mr. Davis, Provincial Secretary, yesterday, to request aid for the construction of a Toronto sanitarium for consumptives. They were asked to get the thing into concrete form, and then bring in their request.

Mr. Marter will introduce a bill to amend chapter 213 of the Revised Statutes, entitled, "An Act Respecting Cemetery Companies." The added section is: "No cemetery or burial ground, whether owned by a company, church, vestry, trustees or otherwise, shall be established, extended or enlarged within the limits of a city."

A report of the new vaccination scheme has come from Dr. Hodgetts, inspector Provincial Board, giving particulars of the vaccination of 938 navvies in two days along the canal works of the St. Lawrence at Iroquois and Edwardsburg County. The laborers took to it quite good-naturedly. Seven of them had smallpox previously and three absolutely refused to undergo the operation. However, they will be compelled to submit to it.

Hospital Patient Killed.

Kingston, Ont., Feb. 11.—Thursday night Joseph Bailey, aged 69 years, a patient at Rockwood Hospital, fell down the dumb waiter, a distance of 40 feet, and was so badly injured that he died yesterday. The theory is that the old man was attempting to escape. Deceased came from Marmora, where he leaves a widow and a family of six. His disease was of a nervous nature.

FRIENDS PREVAILED

A Nervous Toronto Woman Walked the Floor During the Night for Hours at a Time—She Makes a Statement.

TORONTO, ONT.—"I was troubled with nervousness. It was impossible for me to keep still and if the spells came over me during the night I had to get up and walk the floor for hours at a time. My blood was very poor and I was subject to bilious attacks. My feet would swell and I was not able to do my own housework. I treated with two of the best physicians here but only received relief for a time. I became discouraged. One day a friend called and advised me to try Hood's Sarsaparilla. I laughed at the advice but I was prevailed upon and procured one bottle. Before I used it all I began to feel better. I took several bottles and also several boxes of Hood's Pills. Now I can eat and drink heartily and sleep soundly. Hood's Sarsaparilla has entirely cured me and also strengthened me so that I now do all my own work. I cheerfully recommend Hood's Sarsaparilla to all sufferers from nervousness, weakness or general debility." MRS. H. F. PARM, Degrassi Street.

Hood's Pills cure Liver Ills: easy to take, easy to operate. 25 cents.

ONTARIO'S FINANCIAL POSITION.

The Provincial treasurer has delivered his budget speech, and it shows that we are in good shape financially. It shows that the province has a surplus of assets over current liabilities of nearly five millions—$4,988,079.63. Besides the province has a credit balance of nearly half a million in cold cash in the bank—$450,000. This is a comfortable state of things which Mr. Mathieson, the financial critic of the Opposition patriotically attempted to disturb. This gentleman renewed his old time attack, repeating the same dreary catalogue of figures that he has given with industrious iteration from session to session. In fact Mr. Mathiesons's budget speeches are in the main as like to any other as two peas. He waves his hand and, in his mind, the surplus disappears, and he declares we are gone millions in debt. Yet we draw a comfortable income from our surplus capital, something that is not usually derived from a debt. He declares we have a shortage of over $300,000 on the current year's operations, and if we add enough this shortage is half a million. Yet, against Mr. Mathieson's assertion in this regard Hon. Mr. Harcourt opens the Provincial bank book and shows a credit balance of $450,000. The Opposition may dream financial dreams and summon up spectres of financial ruin, but against them are hard facts that show anyone endowed with ordinary business common sense, that our financial condition is sound, with large income-producing assets, and with cash in the bank amounting to nearly half a million.

THE Hamilton Herald says: Canadians may well wish that the new policy of expansion will receive no check in the Philippines. They may well hope that Uncle Sam will hold those islands. So long as he does, he gives hostages to Britain for his good behavior towards this country." Great Britain doesn't need any hostages to insure Uncle Sam's good behaviour. Great Britain does her own insurance. Possession of the Philippines and Cuba while it may modify the aggressiveness of Uncle Sam's military strut, or rather slouch, won't eliminate any of the tariff hog from his nature or make him any more a civil civilian.

YOUNG'S POINT.

From our Own Correspondent.

Mr. S. Henton, of Utica, Montana, paid us a visit here last week. Mr. Henton was interested in the lumbering business some years ago, but is now running a large stock farm in the west.

Mr. Frank McPherson, of Peterborough, is visiting friends here.

Rev. Mr. Hartley visited the Point this week and in company with the Rev. Mr. Crisick, of this place, went up to Haultain and delivered a lecture.

Mr. W. J. Young has a number of men employed on his place in Harvey, taking out wood and logs. He reports having about 350 cords of wood and 2,000 logs out already.

The epidemic of la grippe is still raging and a number of our villagers are confined to their homes.

A number of the boys cleaned off the ice at South Beach and made an open air skating rink. They build a fire on the shore at nights to illuminate the place.

The sleighing is excellent now and the wood haulers are taking advantage of it.

NEW INVENTIONS.

Below will be found the report of patents recently granted to Canadian inventors by the Canadian Government. This report is prepared especially for this paper by Messrs. Marion & Marion, solicitors of patents and experts, New York Life Build ing, Montreal.

62 439—J. Ricketts and Michael Riley, Peterborough, Ont., locks.

62,440—Wm. James Walsh, Hamilton, Ont., telephone address annunciator.

62,446—Neil McDougald and Thomas Longhead, Allenford, Ont., cattle feed beaters.

62 463—Geo. D Pearson, Montreal, P.Q., acetylene gas lamp.

62 481—John Heyden, Brantford, Ont., new method of securing a crank to its axle.

62 401—Daniel Wilhelm, New Hamburg, Ont., weaving machine.

62 408—Harry Mitchell, Neepawa, Man., saw horses.

62 410—Jas. Hardill, Stratford, Ont., steam engine.

62 362—Wm. McCloskey, Essex, Ont., machine for making fences.

62 388—Alfred Rowley Heyland and John Hamilton, Kaslo, B.C., mineral lobe tracers.

LIVE STOCK NOTES.

Prices of good cattle are a shade lower this week, but the demand is good and prices firm at the decline, choice steers bringing from 4 to 4¼, with good butcher cattle selling at 3½ to 3¾c. Choice feeders, weighing from 1,000 up, are worth from 3½ to 3¾c.

The demand for stockers for Buffalo and west is again active and prices firm.

The hog market is a shade firmer this week, selling at 4¼ for strictly select off cars. Light fats 4¼; thick and heavy fats, 3¾. This week Mr. H. P. Kennedy has handled several loads of stock, shipping from Tweed, Frankford, Brighton, Cobourg, Hastings, Norwood and Pontypool, besides local shipments.

ONE HAPPY WOMEN.

Got Health and Happiness From Dodd's Kidney Pills.

London, Feb. 6.—This city can claim one of the happiest, healthiest women in Canada.

Her name is Mrs. J. Osborne. She lives at 524 Grey street, and she has this to say to her sisters throughout Canada.

"For eight years my life was made miserable by Female Weakness. I used many different medicines, but none did me any good till I started to take Dodd's Kidney Pills.

"The first dose of this wonderful remedy gave me relief. I grew better with every dose, till, when I had taken three boxes, I was totally cured."

Dodd's Kidney Pills are the only medicine on which women can confidently rely for a positive cure.

For Canadian Creditors Alone.

Toronto, Feb. 10.—The master-in-ordinary gave judgment yesterday that the Canadian policy-holders and creditors of the defunct Massachusetts Benefit Life Insurance Company are alone entitled to that company's deposit of $112,000 at Ottawa. He dismissed the claim of the American receivers.

The Old Man and His Cow.

Newcastle, Ont., Feb. 1.—Mr. Andrew Dickson, an old man, undertook to drive a cow, and, to make sure the animal would not get away, he tied the rope around his waist. The cow started to run and he was thrown to the ground and dragged. He has a broken arm and a dislocated shoulder.

Is Carnahan Crazy?

Shelburne, Feb. 11.—Charles Carnahan, who hails from Lanark and who has been living for a couple of weeks with Mr. Joseph Hannah of Melancthon Township, has been arrested by Constable Gallagher on a charge of insanity and threatening to kill. Carnahan talks to himself, and Mr. Hannah heard him talking loudly saying that he was going up to his neighbor's house to kill them all. The neighbor, James Hack, was called in to hear the crazy man talk and Carnahan was arrested and taken to Orangeville jail.

Raised . . . From a Bed of Sickness . . .

SIMCOE, Jan. 18th, 1897.

Messrs. Edmanson, Bates & Co., Toronto.

Gentlemen—For over five months I was confined to my bed, not being able to move. The best medical skill was called in, all treating me for catarrh of the stomach, but to no avail. I could not eat the most simple food without being in dreadful misery, and found no relief until same was vomited up. After spending a large sum in medical advice, I was advised to try a box of Dr. Chase's Catarrh Cure. I purchased a box from J. Austin and Company, Simcoe, and to my surprise found great relief. Not being able to eat I tried a box of Dr. Chase's Kidney-Liver Pills; the pains left me the third day. My appetite has been fully restored. I consider myself perfectly cured, and feel as well as when a young woman, although I am 65 years old at present. I was almost a shadow, now I am as fleshy as before my sickness. Have used only three boxes of Dr. Chase's Kidney-Liver Pills, and two boxes of Dr. Chase's Catarrh Cure. I can do my house work as usual. I am positive that my marvellous cure (which I think it is) is due purely to Dr. Chase's remedies, which I have used. I can honestly recommend the same to any persons suffering from symptoms similar to mine. Wishing you every success,

Yours truly,

MRS. ANN CHURCHILL, Sr.

MARKET REPORTS.

Chicago Wheat Dropped a Cent—Liverpool Went Down a Penny—Live Stock Markets—The Latest Prices.

Liverpool, Feb 11.—Spot wheat yesterday declined ½d per cental, and futures closed ¾d to 7-8d lower than Thursday's final figures.

Chicago, Feb. 11.—The heaviness of the trans-Atlantic markets caused wheat prices to drop again yesterday. The May option declined 1c and the July option 1⅛c per bushel, and the close was near the bottom figures for the day. There is much talk of damage by the present extremely cold wave to the American wheat belt, which is almost bare of snow in some States

Toronto Live Stock.

Toronto, Feb. 11.—The run of live stock at the Cattle Market was not very large yesterday, 42 carloads, composed of 1,000 cattle, 500 sheeps and lambs, 85 calves and about 1,100 hogs.

The quality of fat cattle was only middling, not enough of the good class to supply the demand.

Trade was fairly brisk in all the different classes of live stock, at Thursday's quotations, excepting stockers, which were a shade easier.

Export cattle, choice	$4 50	to	$4 75
Export cattle, light	4 30		4 50
Bulls, medium export	3 25		3 50

East Buffalo Cattle Market.

East Buffalo, Feb. 11.—Cattle—There was only one load of sale cattle yesterday, and no particular change in the positions of the market. Calves were in moderate supply, fair demand and a quarter higher. Choice to extra were quotable $7.75 to $8, good to choice $7 to $7.75.

Sheep and Lambs—The market was fairly active, with a total of 24 loads on sale, and prices generally quite firm. Lambs, choice to extra were quotable $5.15 to $5.25, good to choice $5 to $5.15, common to fair $4.75 to $5. Sheep, choice to extra $4.25 to $4.50, good to choice $4 to $4.25, common to fair $3.75 to $3.75. The offerings were pretty well cleaned up

Hogs—In the early market the offerings were seven loads and the demand active Yorkers sold $4 10 to $4.20, medium and heavy $4.15 to $4.20, light Yorkers $4 to $4.05, pigs $3 90 to $4, roughs $3.40 to $3.60, stags $2.75 to $3.25. These were cleared up, and towards the close about 15 loads were received, which sold about steady.

British Markets.

Liverpool, Feb. 11.—The following were the quotations at 12.30 yesterday: No. 1 Nor., spring wheat, 5s 10½d; No. 1 Cal., 6s 7½d to 6s 8d; red winter, 6s; corn, new, 3s 7½d; old, 3s 3¾d; peas, 5s 9½d; pork, 50s; lard, 28s 9d; tallow; 23s; bacon, long cut, heavy, 27s 6d, light, 27s; s.c., light, 28s; cheese, both white and colored, 49s.

At the close—Spot wheat, steady; red winter, 6s; Walla, 6s 2d; No. 1 North, 5s 10½d; No. 1 Cal., 6s 7d; futures, red winter, 5s 7 3-8d for March and 5s 7¼d for May. Maize steady, 3s 7¼d for new, and 3s 7¾d for old; futures quiet, 3s ¾d for March and May. Flour 19s.

Thousands of cattle have perished in Texas as the result of the storms, and it is said the wheat has been ruined by the frost. There is five feet of snow along the line of the Panhandle Railroad. It is feared many people have been frozen to death.

RINGING THE KNELL OF BILIOUSNESS.

Dodd's Dyspepsia Tablets are an Absolute Cure.

They Remove the Cause of the Complaint—Regulate the Action of the Liver and the Secretion of Bile and Thus Prevent and Cure the Disease.

The Bilious person is easily known. Biliousness places its mark on its victim as soon as it attacks him.

The sallow, sickly complexion, the yellowish tint of the eyeballs, and the haggard, almost consumptive appearance, mark the sufferer from too much bile.

It is strange that so many thousands suffer from this complaint, when a cure can be so easily obtained.

Dodd's Dyspepsia Tablets will cure Biliousness in a remarkably short time. Their effect on the liver is instantaneous. The very first dose taken has an appreciable effect.

The effect of Dodd's Dyspepsia Tablets on the Liver, is to restrain its action to natural bounds, and thus cause the secretion of just as much bile as is needed for the perfect working of the digestive system.

When the Liver works too rapidly, too much bile is secreted. The surplus quantity overflows into the blood, and this condition is known as Biliousness.

It will be seen that, by curtailing and regulating the formation of bile, Dodd's Dyspepsia Tablets positively and absolutely prevent, and cure this distressing complaint.

The cure is permanent, too. It is not necessary to use Dodd's Dyspepsia Tablets for ever, nor for a year, to get rid of Biliousness permanently. A short treatment will cure it for all time.

The use of a single box of Dodd's Dyspepsia Tablets will prove the truth of these claims.

Dodd's Dyspepsia Tablets are sold by all druggists at 50c a box, six boxes $2 50, or sent on receipt of price by the Dodd's Medicine Co., Limited, Toronto.

HOWARD'S
Heart Relief

For Palpitation, Pain about the Heart, Pressure in the Head

is the best medicine known. Not a failure has been reported.

It causes the blood to flow naturally, perfectly, unnoticed, through every part, bringing nourishment and health to every nerve and muscle.

It promptly relieves brain pressure, heart-pain, heated swelling feet, of heart disease.

Prepaid by mail with full directions, at 50c. per box, 5 boxes for $2.00.

SINCLAIR WAS A SPORT.

He Is Alleged to Have Led W. D. Brewster Into Crooked Ways.

Rossland, B. C., Feb. 11—W. D. Brewster, agent for the Columbia & Western Railway since 1896, is now under arrest for felonious embezzlement. The cause of Mr. Brewster's downfall is said to be J. H. Sinclair, who came from Nelson to act as Brewster's assistant. Sinclair, who was a sport by nature, is said to have gambled with the company's funds, and Brewster, with a laudable feeling of fidelity to a colleague, tried to help him, even when he knew that $1,500 had been squandered. The result is, Brewster is in jail.

YOU NEED IT

If You Would Avoid the Troubles and Dangers that Stomach Derangements Bring On.

Paine's Celery Compound Banishes Every Difficulty and Restores Perfect Health.

Stomach troubles are exceedingly common and varied in character. To day thousands complain of stomach derangement. Stomach difficulties are usually manifested by poor appetite, foul tongue and breath, putrid or bitter taste in the mouth, a desire for acids; some have headaches, sleepy feelings, constipation, inactive bowels and vomiting of food and bile.

Victims of stomach troubles manifest low spirits, despondent mind, and have fears of impending danger. It matters not what the symptoms are: any of them indicate low nerve force, and point to the fact that the digestive system is out of gear and the blood is in an unhealthy condition.

In order to avoid the many dangers of indigestion, dyspepsia and general stomach derangements, Paine's Celery Compound should be used when any of the many unpleasant symptoms that lead to trouble are experienced. A few doses of nature's health restorer will quickly set the digestive machinery of the body in perfect running order, and good health will be maintained.

If it be that you have long neglected the troubles that have become deep-seated and chronic, do not despair. The faithful use of Paine's Celery Compound for a few weeks will, without fail, banish all your sufferings. Your appetite will become natural, your rest and sleep will be refreshing, and your food will enrich your blood, making bone and muscle, and your health will be as rugged as ever before.

Milburn's Rheumatic Pills are the only reliable and satisfactory remedy for Rheumatism, Sciatica, Lumbago, Gout and Neuralgia. Price 50c., all druggists.

No. and No. 2 Sold in Peterborough by John Nugent Druggist.

CALOOCAN CAPTURED.

A Brief and Decisive Action in the Philippines.

THE U. S. AGAIN VICTORIOUS.

A Series of Brilliant Combats Have Advanced the American Arms Four Times During the Past Week—How Gen. Otis Drove the Insurgents From Their Stronghold—News by Cable.

Manila, Feb. 11.—The United States forces attacked and carried Caloocan yesterday afternoon. The action was short and decisive, the enemy being driven out with great loss.

To reach its present position the brigades have advanced four times since Sunday, in a series of brilliant combats on different parts of the line of action, especially on the fourth, fifth and seventh. The last advance was the most sanguinary, the American loss being one killed and six wounded, while the Filipinos suffered a loss of 44 killed, and were utterly routed. The brigade lost to date six killed and 55 wounded. All the dead were buried.

Gen. Otis' Official Despatch.

Washington, Feb. 11.—The following despatch from Gen. Otis has been received at the War Department: "Adjutant-General: Insurgents collected in considerable force between Manila and Caloocan, where Aguinaldo was reported to be, and threatened attack and uprising in the city. Yesterday afternoon swung the left of MoArthur's division, which is north of the Pasig River, into Caloocan, driving the enemy easily. Our left is now at Caloocan. Our loss was slight, that of the insurgents considerable, a half hour's firing from Admiral Dewey's vessels."

Up to the close of office hours yesterday General Otis sent no news to the War Department indicating any further conflicts with the natives.

IS IT ANDREE?

Siberians Find a Hut Made Apparently From Balloon Wreckage.

Krasnovarsk, Siberia, Feb. 11.—A gold mine owner here named Monastyrschian has received a letter saying that a tribe of Tunguses, inhabiting the Timur Peninsula, North Siberia, recently informed the Russian police chief of the district that on Jan. 7 last, between Komo and Piet, in the Province of Yeniseisk, they found a cabin constructed of cloth and cordage, apparently belonging to a balloon. Close by were the bodies of three men, the head of one badly crushed. Around them were a number of instruments, the uses of which were not understood by the Tunguses. The police chief has started for the spot to investigate, as it is believed that the bodies are those of Andree and his companions, Strindberg and Fraenkel. Prof. Andree's ascent was made from Tromsoe Island at the northern extremity of Norway, on July 11, 1897, at 2.30 p.m., in the midst of a strong wind. After the narrow escape from being driven against the rock in Sweerinburg Sound the balloon was seen moving northward easily, as Andree wished, over the flat peninsula of Hollaenderaes.

GRAND TRUNK IS BOOMING.

First Dividend on First Preference Shares in Ten Years Declared.

London, Feb. 11.—Yesterday the Grand Trunk Railway Company directors announced a dividend of four per cent. on guaranteed stock and of three per cent. on first preference shares. In addition the gratifying announcement is made that the company is able to carry forward £4,000, and an increase of £10,000 in traffic returns is reported. All this gave Grand Trunk securities a buoyancy in the stock markets, and the stock rose from 5-8 to 1¼. The reported desire of Canadian and American railroad managers to maintain rates was another factor that tended to strengthen.

This is the first dividend declared on the first preference shares for about ten years. The dividend has not come as a great surprise to the financial world, as, of course, something of the sort was expected by reason of the vastly improved business of the year.

Mr. Charles M. Have, the general manager of the road, was present at the meeting.

A Holy War in the Balkans.

London, Feb. 11.—A despatch yesterday afternoon from Vienna says: The situation in the Balkans is becoming alarming. It is reported that the Albanian chiefs have decided to declare a holy war on the Bulgarians. The situation of the Christians in Macedonia grows precarious, and the Sultan's envoys find it constantly more difficult to prevent a Mohammedan revolt against them. English newspapers in the Balkans express much alarm.

The Dreyfus Affair.

Paris Feb. 11.—There was a stormy debate in the French Chamber yesterday over the revision bill. There was disorder in the streets here and scuffles between the mob and police, but nothing serious happened. Premier Duputy believes the Dreyfus affair will be finally settled before April.

30 Horses Washed Overboard.

London, Feb. 11.—The British steamer Sedgmore, Captain West, from Boston, Jan. 24, for this port, has arrived at Gravesend and reports loss of a boat and 38 horses washed overboard, had cattle fittings damaged and suffered other injuries.

LAMPMAN DEAD.

One of Canada's Sweetest and Strongest Singers Passes Away.

Ottawa, Feb. 11.—Yesterday morning Mr. Archibald Lampman, the poet, an employe of the Postoffice Department, died here after a short illness from pneumonia. He was a member of the Social Science Club of this city, and had just finished correcting proofs of a new book of poems, "Alcyone." He was 38 years of age, and leaves a widow and two children.

Archibald Lampman was born at Morpeth, Kent County, Ont., on November 17, 1861, and was, therefore, in his 38th year. He was the son of the late Rev. Arch. Lampman, a Church of England clergyman. His forefathers were U.E. Loyalists of German extraction on both sides. He was educated at Trinity College School, Port Hope, and at Trinity University, Toronto, and graduated with the B.A. degree with honors in 1882. He began to write verse when he was yet at school, but it was not until 1887 that his verse began to appear in the large magazines. Since then Harper's, Scribner's and Century have received much of his choicest efforts. In 1888 he published a volume, "Among the Millet, and other Poems," and in 1896 a second work, "Lyrics on Earth." His work has received much praise from the critics. Mr. Howells ranking him with the strongest American singers. High praise has also been given his work by The New York Independent, The London Saturday Review, The London Spectator, and The London Academy, the latter pronouncing his verse "sensuous in sentiment, rich in color and delicate in harmony." Mr. Lampman was elected a Fellow of the Royal Society of Canada in 1895. In 1897 he married Maud, daughter of Dr. Edward Playter, Ottawa. Mr. Lampman has described himself as a Socialist.

She Used the Reliable Diamond Dyes.

Results Were Satisfactory and Pleasing.

For Carpet and Rug Makers Diamond Dyes Mean Success and Profit.

Having a Carpet to make and a good deal of colouring to do, I thought I would give the Diamond Dyes a trial. I used them, and they produced the most beautiful colours, and I was pleased with the effects in the Carpet. I am a farmer's wife and after this will use only the Diamond Dyes.

MRS. NELSON WOOD.
Campbellford, Ont.

Gold in Red River.

Ottawa, Feb. 11.—Mr. J. B. Rogers of Winnipeg is in the city to seek a charter for a company to search for the source of the gold found on the bars in the Red River, south of Winnipeg. Miners are washing out the sand on these bars, and there is said to be about $10 a day in gold.

The United States Government has received information officially from Samoa, and it is said the position taken by Chief Justice Chambers at Apia was correct and will be backed up. It is said the Germans will recall Agent Raffael and Consul Rose, who released a German who had been confined against the law.

A CARD.

Mr. Ed. Heintzman, 208 Monroe Ave., N. J., advises all men who are weak and who desire a speedy and perfect cure to write to Dr. Gustav H. Boberts, 252 Woodward Ave., Detroit, Mich

Montreal Live Stock.

Montreal, Que., Feb. 10—The receipts of cattle at the East End abattoir yesterday morning were 500 head of cattle, 25 calves, 25 sheep and 50 lambs. The demand was not very brisk in the morning and prices were unchanged. Good cattle sold at from 4c to 4½c per lb.; lower grade from 2c to 3c per lb. Calves were sold from $2 to $10, according to size. Sheep brought from 3c to 3½c per lb. for choice and culls from 2c to 2½c per lb. Lambs sold from 4½c to 5c per lb. Hogs were sold at from $4.10 to $4.30.

INSOMNIA.

SOUTH AMERICAN NERVINE RESTORES REST AND HEALTH.

If the digestive organs refuse to do their work, indigestion and dyspepsia follow like lightning's flash—the nerves are shattered and then insomnia runs riot, and the patient is on the road to the mad-house or insane asylum. A well known Toronto newspaper man was a victim of nervous prostration and insomnia through overwork—retiring at night was more of a dread than a welcome to rest—prejudiced against medicines and remedies, he spurned the thought of resorting to what he called nostrums—he became almost incapacitated for work—he was recommended to try South American Nervine, procured a bottle and when half of it had been taken, he found himself improving—sleep was induced, the nerves grew quieter, the appetite returned—he continued to take the remedy until he had used six bottles, and at the end of that time the twenty pounds he had lost in worry and for want of rest was put on again—to-day he says, "I feel strong enough to do two days' work in one."

South American Nervine is without a peer in the cure of nervousness, indigestion and insomnia. A few doses will convince the most sceptical. It gives immediate relief and effects a cure in every case. Strong as this statement may seem it is absolutely true.

South American Rheumatic Cure is never baffled—relieves in six hours and cures after years of agony have been suffered.

South American Kidney Cure cures Bright's disease, diabetes and bladder troubles. A few doses will convince. 11

THE ODORLESS CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,

JAMES CONWAY.

Shedden, February 28th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long felt want and I believe it will become very popular especially in rural districts, towns and villages where we are so frequently contaminated by the ordinary closets. I am, yours, etc.

W. H. MORRISON.

Medical Superintendent's Office, Sept. 30th, 1897, Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 30 minutes I was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once before it has a chance to vitiate the surrounding atmosphere.

Yours truly. JAMES RUSSELL, M.D.

Elmbrook, Sept. 30 h. 1897.

Dear Sirs—Having seen proof at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents could I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands of rural towns, villages and country homes. Yours truly,

M. J. MULLOCK, M.D.

ADAM HALL.

STOP THAT COUGH, with EDMISON'S CELEBRATED AMERICAN COUGH CURE

Will never Fail to Check the most Stubborn Cough and relieve all Irritations of the Throat, Etc. For Loss of Voice, Hoarseness Bronchitis and other inflamed conditions of the lungs and air passages it cannot be beaten. Try a bottle and be convinced—25c.

A NEW INVENTION

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used, Upright and Square Pianos of the various makes taken in part exchange for the famous NEWCOMBE PIANOS. Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

A Word About Pianos.

It is only a question of price that arises when selecting the best piano.

Sixty years of experience tells us that the public more than ever, is tired of the common thump box and wants musical quality in piano tone.

Whilst the NORDHEIMER is the highest grade piano manufactured in Canada, remember it is the cheapest in the long run. Its tone is the sweetest, retaining always that peculiar vocal quality combined with great endurance, which strong reasons have made it the choice of all lovers of the beautiful in music.

Easy terms arranged.

Illustrated booklet mailed free on application.

A Card of Thanks.

Mrs. Nathan Nicholls wishes to express her gratitude to the Independent Order of Oddfellows for their kindness and sympathy to her in her time of trouble.

Tea and Concert.

The Daughters of England intend holding one of their very delightful entertainments on the evening of the 14th. The affair will take the form of a tea and concert. A good programme is promised.

Cricketers Meeting.

A meeting of the cricketers will be held in the Oriental parlours this evening at eight o'clock, when statements for 1898 will be submitted and prospects for the coming year discussed.

Entertained the Men.

The Men's Union of All Saint's church entertained the men of the congregation last evening and a very pleasant evening was spent, an entertaining programme having been prepared.

Anniversary Services.

The anniversary services of the Charlotte street church takes place on Sunday. Rev Mr. Roberts, well known here, will conduct the services, morning and evening. Mr. W. Graham Hodsdon, tenor, will assist in the musical portion of the services.

Worth Hearing.

A most interesting lecture on "India's Needs" will be given in the Murray street Baptist church on Monday, February 20th, by Rev. A P. McDiarmid, secretary of the Baptist Foreign Mission Board. The lecture is beautifully illustrated by limelight views and was greatly appreciated when recently delivered in Toronto. 1d

A Hop at Keene.

Last evening the Keene hockey club held a grand ball in the village hall, which proved a success in every particular. There was a large number present from town, as well as from Hastings, Norwood and Toronto. Butcher's orchestra of four pieces supplied music, and Mr. Archie Moore acted as Master of Ceremonies.

Daughters of England Night.

The annual tea and concert of the Daughters of England comes off Tuesday night, February 14th, (St. Valentine's Day) in the Sons of England hall. Tea served from 5 30 to 8 o'clock, followed by an excellent musical and literary programme by local talent. Sons and daughters, for your life don't miss it! Costs you only 20c. admission, and the children 10c. You know what a good time you get at this annual event. 3d

Have You Had La Grippe?

If so, nature wants a helping hand out of the trouble. Convalescing men and women need a suitable stimulant or tonic to put back the snap that has been taken out of them. For some, a good bodied ale or porter, like Copeland's, is highly recommended. Others are advised to use a fine rich port or sherry wine. While for elderly men pure whiskey is the best. Messrs. Henry & Co, Wine and Liquor Merchants, can supply any of these in well matured condition for medical purposes at moderate rates. HENRY & Co.

YOUTHFUL DEPRAVITY.

Six Juveniles in Court This Morning With Bad Records.

That Peterborough possesses a troop of incorrigible youths, who are fast paving the way for a life of crime was clearly shown at the police court this morning, when six youngsters faced the magistrate charged with all manners of theft.

To say these boys are bad is but expressing it mildly. They are simply youthful criminals, and are guilty of such a series of theft that would almost make a veteran crook look to his laurels. They are even accused of robbing their Sunday school teacher at the Grace street school. Five of the youngsters were so small that they could hardly be seen when they entered the witness box, and their history as revealed in court this morning, is truly a sad one. Their parents are not altogether free from censure in this matter, on account of the carelessness manifested by them in looking after their boys.

The young culprits are certainly candidates for the reformatory, but the magistrate, after giving them a severe lecture, allowed them to go on suspended sentence for one month. If within that time they still continue their life of crime, the authorities will take action.

One of the youths, who, it appears, was led into the gang and had not become initiated, was allowed to go.

PERSONAL

Mr. Fred W. Williamson, of Barrie, is visiting friends in Ashburnham.

Miss Bertha Doughty returned from Warsaw to day, after making a pleasant visit with friends.

Mrs. G. Stephens, of Lindsay, is spending a few days in town as the guest of Mrs. (Dr.) King, Charlotte street.

Mrs. Harry LeBrun has been visiting her sister, Mrs. R G. Gough, in Toronto, for the last few days.

Rev. F. Hartley paid a visit to his late mission at Burleigh this week, where the work is now being energetically carried on by Rev. W. Creswick.

Mr. Jos. Walton, of Lakefield, is eighty-seven years old to day, but his friends will regret to learn is so dangerously ill that his recovery is despaired of.

Rev. S. J. Shorey will occupy his own pulpit to-morrow instead of going to Port Perry as announced. The anniversary services at the latter place have been postponed.

Mr. J. C. Turnbull and Mr. F. J. Might have returned from Montreal after attending the big fire sale of dry goods of McIntyre, Son & Co. Turnbulls are always alive to the interests of their customers and secured many bargains, and it will pay you to watch for their sale, which will commence as soon as the goods arrive west next week.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Owing to the depression of the thermometer this morning there was barely a quorum on the market.

—The choir of St. Paul's church were entertained last evening at the residence of Rev. E F. Torrance, D.D.

—Mr. J. Crane will sing, by request, Ambrose's "Our Sweetly Solemn Thought" at St. Paul's to-morrow morning.

—No services will be held this week in the Mark street church, owing to the union services in George street church.

—You are invited to come in to the Peterborough Bookstore this evening and see the snaps we have to offer you in books. Read our advertisement for particulars. All the latest Books, Periodicals and Magazines on sale this evening.

SOME CLIMATIC CONTRASTS.

In contrast with the present Arctic weather we are experiencing, it may prove interesting as a contrast to learn that primroses, scollies, violets, snow drops, crocuses and primulas are in bloom in the open air on Vancouver Island and other favoured portions of British Columbia.

White River, on the north shore of Lake Superior, has the unenviable reputation of being one of the coldest places in Canada. The minimum temperature of this place on January was 56 degrees below zero. No need to go outside Ontario to find cold equal to anything in the Klondyke.

Though all the towns and villages in the proximity of Georgian Bay have three to five feet of snow on the level, the southern half of the western peninsula is almost bare. The alternate thawing and freezing is said to have made the prospect for a good fall wheat crop not very favourable in that section.

Port Hope Boys at Manilla.

There are five Port Hope boys now quarted with the United States troops at Manilla, Messrs. F. Burton, S. Patterson, W. H. Hambly, W. Halliday and F. Johnston.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 23 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

A Favourite in Her Favourite Town.

Miss Ethel Webb has, for the third time, been engaged for the concert and recital to be held in Charlotte street church next Monday evening, February 13th. Miss Webb is, undoubtedly, a favourite in Peterborough, and Peterborough is one of her favourite towns. There can be no doubt about the success of the entertainment under such happy circumstances. She is to be assisted by Mr. Graham Hodsdon, the possessor of a fine tenor voice, of great power, large range, and of a silvery quality. The tickets are 15c. each, two for 25c. 3d

Educational Lecture.

Rev. G. F. Davidson, B. A., of Trinity University, has arranged to deliver an illustrated lecture in St. John's school house on Monday evening next, at eight o'clock, on "Trinity University and her Educational Work." The lecture will be illustrated by views of the University buildings, students' rooms, present and past professors and historical events. The object of the lecture is to diffuse information throughout the country in regard to this centre of learning and the true principles of education. No admission fee will be charged, but any contributions from those interested will be gladly accepted.

FROM MAKER TO WEARER

Grafton & Co. clothing stands at the head—we claim it, you can prove it—it is "away from the ordinary clothing"—it's attractiveness is backed by quality and it's tailored without a fault—better clothing you have never bought. See our clothing, no trouble to show goods. GRAFTON & CO, Manufacturers.

TRENT VALLEY CANAL CAMPAIGN IN BARRIE.

IMPORTANT MEETING AT BARRIE THURSDAY NIGHT.

Addresses by Messrs. Carnegie and Rogers—Lively Interest Aroused—The Canal Presented in a New Aspect—The County Council Interviewed.

A largely attended meeting was held in and the result of the addresses delivered the Barrie town hall, in Trent Valley Canal interests, on Thursday night, by Messrs Carnegie and Rogers were splendidly emphasized by stereopticon illustrations by Mr. R. M. Roy.

The addresses were listened to with the closest attention, and the interest aroused locally in the project is shown to a great extent by the fact that though the town hall, a large structure, was most uncomfortably cold, the majority of the large audience demonstrated that their interest in the canal was greater than their interest in personal comfort. The explanations made and the views of the route shown imparted important instruction to the Barrie people which they did not previously possess.

The county council adjourned to attend the meeting and that they were most favourably impressed with the project and the necessity of concerted action in pushing the campaign for further work, was evidenced by the fact of the cordial reception accorded to Mr. Carnegie when he waited upon the county council to ask for a grant to supplement the funds of the Trent Valley Canal Association. He received considerable encouragement of a fairly liberal grant being made by the county council.

The gentlemen who visited Barrie are indebted very greatly to the mayor, Dr. Wells, and Mr. Carnegie gratefully acknowledges the hearty services and help of Mr. County Councillor Jupp, of Orillia.

Volcanic Eruptions

Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them; also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains. Best Pile cure on earth. Drives out Pains and Aches. Only 25 cts. a box. Cure guaranteed. Sold by all druggists.

Valentines! Valentines!

Pretty, artistic and tender messages from Cupid's arrow, as well as comic and curious. New ideas in verse and prose. Come in and look through our interesting display of valentines for this year. All interested will be pleased and amused. A. H. STRATTON & Co.

Monthly Board Meeting.

On Thursday evening the Y.M.C.A. Board of Directors took tea together at the building. The monthly business meeting followed, at which Dr. W. D. Scott presided. Encouraging reports were received from all departments for the month. It was decided to make the use of the magazines a membership privilege in future, same to be placed in the members' parlour. Messrs. Stabler, Carton and Anderson were appointed a Visiting Committee for the month of March. The board unanimously decided to take tea together at the building each month.

A SOLID AND PROSPEROUS COMPANY.

The report of the fourteenth annual meeting of the Toronto Savings and Loan Company, appearing elsewhere in this issue, shows very gratifying features, indicating the stability of the company, and excellent management, yielding satisfactory financial results. The solid character of the company is shown by the fact that it passed through a period of great financial stress, not only unscathed, but with a steadily progressive onward movement, and it stands to-day with a more favourable balance sheet that at any period of its history and it also stands ready to share fully in the increased prosperity that has come to the country. It is gratifying to note that the operations of the past year have resulted in a substantial addition to the assets of the company. The company has been able to declare and pay two half-yearly dividends on its paid-up capital, amounting to six per cent. per annum, which does not however, represent its full earning power, because a little over one per cent. additional has been devoted to strengthening the already strong reserve and contingent funds, which now respectively stand at $115,000 and $6,596.84. One feature of the company's business that commends it to Canadians, and residents especially, is that this company works exclusively with Canadian funds, presenting an extremely desirable—safe and profitable—medium of investment. The general tenor of the report indicates gratifying progress and prosperity, which will in the immediate future be greatly emphasized.

The reference of the president, in moving the adoption of the report, to the energy, courtesy and attention to business of the officials of the company has a special significance for Peterborough, because it includes Mr. W. G. Morrow, the popular, efficient and courteous local manager, and applies also to his able and attentive staff of assistants.

A BRIGHT MEETING.

A bright meeting for men at the Y. M. C. A. on Sunday at 4.15. Short address and hearty song service.

Usual Bible classes on Sunday.

To-night at the social parlour service Mr. Williamson will give notes on Dr. Gray's lecture "How to Master the English Bible," given at the Y. M. C. A. convention. The meeting last Saturday evening was large and interesting.

A Generous Offer.

We are authorized to offer our readers, prepared, a free sample of a never-failing cure for catarrh, bronchitis, irritable throat, influenza, and such throat and nasal diseases. There is no mystery about Catarrhozone though its effect is magical. Ointments and washes cannot reach the diseased parts, and have thus proved useless. But Catarrhozone is carried by air directly to the diseased parts, and is like a breeze from the pine woods. Write for free sample to N. C. Polson & Co., Kingston, Ont.

Everything Up-to-date at MRS. APPLEBY'S FANCY GOODS STORE, 426 Water Street.

RICHARD HALL & SON, DIRECT IMPORTERS, 130-134 SIMCOE ST.

Aggressive Merchandising.

We quote no prices to-day, but instead will speak of General Plans for the future. We have found our store as occupied for the fall—too small both for our **Stock for Spring** and for our **Increasing Business.** This has necessitated the taking down of the partition in rear of store, adding some twenty feet to our shelving and counter space. This will be converted into a **Ladies' Whitewear and Corset Department.**

Another improvement for Spring will be the **Opening Up of our Third Story** and the **Running of our Handsome Elevator.** This has become a necessity and will give us a very handsome room for **Carpets, Lace Curtains, Curtain Poles, Blinds, Mattings, Etc.** Our Lace Curtain stock alone will comprise **1,000 Pair,** bought direct from Old Country manufacturers.

In all departments stocks will be almost **Doubled** and in almost every case bought **Direct from the Makers.**

Our first **Whitewear Openiug** will take place next **Thursday Evening, Feb. 16th,** from 7 to 10. Please bear the date in mind.

Particulars in Tuesday's papers.

THE NEW STORE.

Daily Examiner.

SATURDAY, FEBRUARY, 11, 1899.

OBITUARY.

The Late William Hickey.

The many friends of Mr. Wm. Hickey, boat builder, Ashburnham, will sympathise with him in the death of his son, Wm. B., who passed away last evening in the twenty-sixth year of his age.

The deceased young man took ill about two weeks ago with a disease that baffled the skill of four local doctors, and his suffering during that time was intense. It is only a few months ago that Mr. Hickey suffered the loss of his daughter, Maggie.

The deceased young man, who was employed during the summer months on the City of Peterborough, was of excellent character, quiet and unassuming, and a general favourite with all who knew him.

The remains will be taken to Port Hope this evening, and the funeral will take place Monday morning.

Funeral of the Late Joseph D. Ackerman at Norwood.

Norwood Register.

The funeral of the late Joseph D. Ackerman, of Mexico, New York, took place on Saturday afternoon from the residence of his brother-in-law, Mr. A. R. Anderson, of Norwood.

The services at the house were conducted by Rev. J. A. McCamus, pastor of the Methodist church, and his remains were followed to the Norwood cemetery by many of his friends and neighbours of former days.

The deceased, a son of the venerable Mrs. Crothers, and a brother of our esteemed fellow-townsmen, Mr. I. N. Ackerman, formerly resided here, and for some years conducted a general store on Peterborough street. Some years ago he removed to the United States, securing a good situation with a railway company at Mexico, in Eastern New York. His death was the result of a severe attack of pneumonia, following la grippe. He leaves a mother, nearly ninety years of age, three brothers, Mr. Samuel Ackerman, of Belleville, B. F. Ackerman, the well known wholesale harness manufacturer of Peterborough, I. N. Ackerman of this village, a wife and one son, Whitford Ackerman, to mourn his loss.

MARK STREET LEAGUE SOCIAL.

The Valentine Social in Mark Street Church a Success.

A well pleased audience was present at Mark street church last evening at the Valentine social of Mark street League. The programme was excellent, but the cold weather interfered somewhat with the attendance. Mr. M. Carton acted as chairman. After the programme refreshments were served and a few very pleasant hours were spent.

The programme consisted of a duet by Miss L. Kindred and Mr. Trusler, and by Misses Edna Armstrong and Effie Agnew. Recitations were given by Misses Doyell and Primeau and Mr. Anderson. Solos by Miss K. Hooper, and Misses Bell, Brown and Kindred were very pleasing. Several graphophone selections also added to the evening's enjoyment. Many numbers on the programme were deservedly encored.

Mark street League is prospering and the attendance is increasing at each meeting. Meetings are held every Monday evening at eight o'clock.

Thin Blood

Is bound to follow the ravages of disease the outcome of the stomach disorders—thin blood shakes hands with the undertaker—ward off that possibility—Dr. Von Stan's Pineapple Tablets make and keep the stomach healthy—they're Nature's antidote—pleasant and positive. 35 cents. Sold by H. S. Macdonald, and Ormond & Walsh.

FIRST SIGN OF SPRING!

An advance shipment of the Newest Neckwear just arrived at our store this morning.

THEY ARE BEAUTIES—We have them in four shapes, viz., Puffs, Ascots, Lombards and Derbys.

If you see them you will purchase one. Good colours for cold weather and very suggestive of spring.

A. Mercer & Co.

A COLUMN OF SPORTS.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Going on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

HOCKEY.

Secretary Kerr has returned from Toronto well pleased with the result of his labours in connection with lodging a petition against the Peterboroughs being considered out of the race for the senior championship of the O. H. A. He had no difficulty whatever in procuring a large number of affidavits backing up the contention that Peterborough scored a goal which was not allowed and also that Varsity did not score the last one which they were given credit for. It seems, too, that Mr. Beaton, secretary of the O. H. A., posted himself behind one of the goals and was, himself, an observer when Peterborough secured the disputed goal. It is not probable that Peterborough and Varsity will play again, but Rule XI in the constitution of the O. H. A. provides for just such a case, when it gives the Executive power to order any club to play in the finals. The local management have been assured that they will receive justice in the matter and have been given to understand that Peterborough will be ordered to play the winners of the Queen's-Varsity match for the championship.

A telegram was received by Secretary Kerr this afternoon, from W. A. Buchanan, stating that Referee Gauthier had given an affidavit stating his belief that the Peterborough's scored a goal with which they were not credited, and also stating that, in his opinion, Varsity did not score the goal which was disputed but which they were allowed to count. This will in all probability clinch the matter of Peterborough's petition being allowed, and the local club will doubtless be ordered to play the winner of the Varsity-Queen's game.

The Seniors are called out for practice Monday evening.

The Wellington's will probably play here on Wednesday of next week as the boys need a hard game to put them in condition for the final games.

The Toronto Telegram refers to the big game as follows:—"Into the finals go 'Varsity, for last night they beat Peterborough on the round by one goal. That is the bright side of the argument, but there is also another side not quite so radiant. Peterborough beat 'Varsity last night 5 to 3, in one of the hardest fought matches that ever happened, one in which there was warmth from start to finish. It was very warm in spots and kept Gauthier, the Frenchman, quite busy refereeing. Neither Peterborough nor 'Varsity is the kind to play dirty hockey, and last night, save in one or two spots, the game was free from bad work.

"Lionel King never put up a better game in his natural life, and is a credit to Peterborough's team. His shooting was splendid, and he never missed an opportunity to outwit his opponent when he had the rubber.

"That man Hollingshead was terrible, stopping the playful 'Varsity rushes with ease and precision. He got in the way all the time, and interfered without giving cause.

What was the mater with 'Varsity? Had some wily Peterboroughite chloroformed them, or where they only joking? They didn't seem able to do anything. Even Percy Darling couldn't purr a little bit, and their inability to score was simply marvellous.

Wasson was impregnable, and did the cleverest goal keeping ever seen in Toronto. That is saying a good deal, but it is so, nevertheless. He stopped what seemed impossible shots, one after the other, without any trouble whatever.

It was a grand game and full of excitement throughout. The teams were the best of friends and shook hands after all was over.

Peterborough has entered a protest over last night's game on the ground that the last goal never went through and that they put one through that was not counted. They have some 'Varsity supporters who bear them out on this.

Roger Davidson has his broken nose all plastered up, and it will be some time before that member will be of much use. It was done unintentionally by Snell with his little stick.

Frank D Kerr, secretary of the Peterborough Club, came into town yesterday on a load of fine weather to see the game. He was disappointed over the match and they say his sobs could be heard in his native hamlet. He has made a splendid secretary, and has put aside everything else in the interest of the hockey club. He says Peterborough had all the best of last night's play, and can whip 'Varsity and win the round if given another chance. When asked if he thought the sub-committee would look favourably on the protest, a smile scintillated through his inch-long whiskers and he remarked: "I'll tell you better after they meet."

The Toronto Evening News has the following to say:—Wasson was easily the most conspicuous man on the ice. King, of the same team was the most effective forward. Hollingshead exhibited his usual fine defence. Belleghem plays his position admirably and is a great scorer. Varsity did not play to form. Snell was by far the best forward. Darling rendered valiant service.

Peterborough jumped into the game in prime good shape and all times the red and black forced the play. Varsity's defence was away off. Darling's effective lifting was seen only at times, while McKenzie was none too sure. The work was even up in the first half, though Peterborough finished in front 3 games to 2. Varsity's forwards individually were faster and better stick handlers and shots. Peterborough seemed deficient in the latter respect. Captain Snell and Sheppard were the best, but King and Davidson, the Peterborough forwards, about equalized the student's speedy pair.

Lindsay say they will have a very strong team next year, and will get Rayner, of this year's Frontenac Kingston people say there are a lot of ringers up around Lindsay.

Up to date the Frontenac seniors and juniors have travelled 975 miles in playing schedule matches, and Kingston men ask is there any club in the Union that can equal the record? The Frontenacs must be going to ask for a single game at home to decide the championship.

During a game at Guelph the other night between the druggists and jewellers, an unfortunate accident occurred to one of the players. Kenneth Chowen, formerly of Peterborough, fell in a scrimmage, the back of his head striking the boards heavily. He was carried to the general hospital, where he lay unconscious for several hours. Word from Guelph says he is doing very nicely.

A despatch from Barrie says:—The trial of the Midland hockey player, English before Judge Ardagh at Barrie, for aggravated assault, was concluded to day at noon, it having lasted three days. The charge was for deliberately disabling Labatt, a Collingwood player by striking him from behind over the head with a hockey stick, knocking him senseless. Fifty six witnesses were examined in the case. The court found the prisoner guilty of assult with intent to disable, and gave the prisoner English the option of paying a fine of $5 and $121 65 costs, or two months in the common jail at hard labor. In passing sentence, his Honor animadverted severely upon the rough play which characterized some of our Canadian sports, and evidently accounted for it by the appearance of professionals in sport and betting of large sums of money upon the result of any game. He characterized the action of English as most cowardly and brutal, and hoped that his prosecution would act as a wholesome deterrent in restraining rough play.

Arrangements are being made to take a junior team to Millbrook for a game next week. Millbrook hockeyists are just getting into shape and wish to create an interest in the game.

CURLIANA.

The contest for the Kendry cup amongst the Thistles is gradually narrowing down. Last night the following draws were played off:

RINK NO. 1.

Dr Moher,		C LeBrun,	
Herb Snowden,		Alf Terrill,	
C Rutherford,		Sam Hay,	
T Rutherford, sk...	11	C N Brown, sk.....	8

RINK NO. 2.

W J McCallum,		Dr. Neil,	
F H Dixon,		Geo Kerr,	
A McNeil,		Gus Hay,	
J Conual, sk.....	15	D Bellingham, sk.....	8

Millbrook is anxious for a couple of rinks to go down and curl there some time next week.

ALL HAIL TO THE GRANITES!

The Granites have returned from Toronto after spending nearly the entire week in the city, curling first in the Tankard series and then for the Governor-General's Cup.

Although they were unsuccessful in bringing back either of the trophies, yet, by the game fight which they put up, they are entitled to the greatest credit. In the Governor-General's trophy contest the local rinks had great odds to contend against, one man on each rink having to play two pair of stones, owing to the fact that neither Messrs. T. E Bradburn or W. G. Morrow were able to remain in the city. On Thursday they played for almost twelve consecutive hours. The game with Stratford was won by only one point, gained through a grand raise by Skip Myles Hamilton. At one time the Granites were fifteen points behind on the two rinks, but pulled up and won. Oshawa was too much for them yesterday, considering the adverse conditions under which they played. The game resulted as follows:

Oshawa.	*Peterborough Granites.*
H Cornwell.	Geo Gilmour,
A G Lambert,	———
T Paxton,	R P Boucher,

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this morning, as well as the highest and lowest yesterday—shade temperature:—

To-day, 7 a. m..... 18° below zero

	Highest	*Lowest,*
Yesterday.....	5° below	18° below

The lowest reading last night was the same as the previous night. At noon the index marked 2° below.

Maj. Gen. Schuyler Hamilton

ENDORSES

"77"

FOR

GRIP

SUNNY SIDE, THOMASVILLE, GA., January 17, 1899.

F. HUMPHREYS, M. D.,

MY DEAR DOCTOR:

I cannot sufficiently thank you for the grateful and immediate relief your Specific No. 77 gave to me.

I was really very ill Sunday evening. I had a fierce Chill and what we used to call "The Rigors" in the Army, followed by a very heavy fever.

The pains, *pericarditis* and *osteritis*, arising from the Cable Car injury, as well as the Grip, are at this moment, Tuesday morning, almost entirely abated.

Sincerely yours,

SCHUYLER HAMILTON,

Maj. Gen. Vols., U. S. A.

"77" cures Grip, Coughs, Influenza and "breaks up" Hard Colds that "hang on". All druggists or sent prepaid; 25c., 50c. & $1.00

Good Time for Fur Buying!

Although taxed to our utmost capacity in making up special Ordered Fur Garments, we are offering many special chances for economical buyers in our General Store Stock of High-class Furs.

The Attractive Values which we hold out in Ready-to-wear Fur Novelites are not of the class that are thrown out on the market for indiscriminate slaughter. They are selected from a stock that has found high favour among those who wish to get dependable Furs at the smallest outlay.

Our Home-made Furs afford more opportunties for profitable buying in up-to-date styles and qualities than you are likely to find outside this Store. Being leaders in the Fur Trade we must lead all competition with lowest prices. Stock-taking begins in about thirty days, and before that date we must of necessity make the greatest Reductions of the year.

Perfect-Fitting EYE-GLASSES, SPECTACLES.

The importance of Perfect-Fitting Spectacles and Eye Glasses is seldom realized until after an experience with a badly-fitting pair.

Your lenses should be carefully tested and selected and mounted in a frame that is especially adapted to your eyes and the shape of the face.

We give particular attention to this important part of the Optician's business.

YOUR HEALTH AND YOUR EYES.

Madill's Emulsion of Cod Liver Oil is recommended as a safe remedy for failing health. It increases flesh and weight, makes richer blood, brings colour to the cheeks and stronger muscles to the limbs. **40c. and 75c. a Bottle.** Prepared only by—

WM. MADILL, CHEMIST AND OPTICIAN.

DR. WORKMAN'S TRIAL.

The Famous Case to be Tried at Belleville.

The heresy trial of Rev. Dr. Workman has been postponed from February 14th to April 17th. It will then be held at the Bridge street church, Belleville, instead of Toronto.

Bridge street church, already famous as the cradle of Methodist union, will be rendered still more prominent in the history of the denomination by this famous trial.

A Narrow Escape.

Thankful words written by Mrs. Ada E Hart, of Croton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My Husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Sold by all druggists. 50 cts. and $1.00. Guaranteed or price refunded.

The Band at the Rink.

The management are arranging to secure the services of the band for the season, one evening each week. Skating tickets for the season, gentlemen $3, ladies $2, boys, 12 to 16, $2, children under 12, $1 50. Family tickets, first two full price, all over two half price. Tickets can be had at the rink. J. Crane, Secy. Treas.

DIED.

O'BRIEN—At the family residence, Ennismore, Patrick O'Brien, on Friday, Feb. 10th, 1899.

The funeral will take place to the Ennismore cemetery on Sunday, Feb. 12th.

ASSESSMENT SYSTEM.

A SAD HOME

The home is sad, the flags are at half-mast. A good man has gone to his long home. Was he wise as well as good? That question is answered by the amount of his insurance. If he had a policy in the

Canadian Order of Foresters

for $500, $1000, $1500 or $2000 his widow and children or relations are sure of that amount, debt-free and absolute. And the price of protection is so cheap in this best of Canadian Societies that one never misses the little money that makes the loved ones safe.

For further particulars, enquire of any of the Officers or Members of the Order, or address

R. ELLIOTT, M. C. R., Ingersoll. THOS. WHITE, High Sec'y, Brantford

ERNST GARTUNG, S. O., Brantford.

ONE KIND OF COURAGE.

The Act That Gained Two Enemies For a Confederate Lieutenant.

"Courage on the battlefield is not the only thing that makes a soldier," said an ex-Confederate officer to a correspondent. "It is very easy for a man to be brave when he is shoulder to shoulder with his comrades, but it is different on other occasions. It reminds me of an incident that came under my notice during the late war. One day the captain of a company received word that the Union soldiers had taken possession of a big mansion, and it was thought that some of the soldiers had been left behind concealed in the building. A lieutenant and two privates were immediately detailed to make an investigation. They reached the place easily. The lower floor was examined, but nothing appeared to be wrong further than the removal of a few valuables. The family had fled at the approach of the enemy. The men crept up the stairs and looked over the second story. It was the same as on the first. In the hall, however, there was a ladder leading to a trapdoor in the garret. The door was swinging down and it was evident that some one had climbed up to the ceiling. The lieutenant said that the garret would have to be searched. He told a private to go first.

"The private refused absolutely. He said it was certain death and that if he was a soldier he did not expect to have his head smashed open simply to look for a Union spy. He said he would take his punishment at the camp, but he would not stick his head through the trapdoor. The second private was told to close the swinging door. He refused. His reason was that he had a wife and children at home, and it was not bravery to stick his head in the fire.

"Without a word the lieutenant climbed the ladder and poked his head in the doorway. It was very dark, and he shut his eyes, expecting every moment to have a big ax slash out his brains. He remained there a half minute and then came down, closing the door after him. He told the privates that he would not report their cowardice to the captain, but during the remainder of the war those two privates were the bitterest enemies the lieutenant ever had. It was human nature, I suppose, for them to hate him."—New York Sun.

Montague, of Dunnville, Cured Ulcerated Itching Piles.

Mr. Robert Montague, of Dunnville, Ont., writes:—"Was troubled with itching piles for five years and was so badly ulcerated, they were very painful, so much so that I could not sleep I tried almost every medicine known when I was recommended to use Dr. Chase's Ointment. I purchased a box and from the first application got relief. Have used two boxes and am now completely cured."

Lee On Yaon, Burglar.

Vancouver, B C, Feb. 10.—For many weeks Vancouver was troubled with burglars, who used an auger to make holes in doors to secure admission. The auger man turned out to be a Chinaman named Lee On Yaon. His trial came on yesterday, when he pleaded guilty and got four years.

South Perth Election.

Toronto, Feb. 10.—The nominations for the South Perth bye-election will take place on Feb. 21, and the election on Feb. 28. The candidates will probably be Nelson Montcith (Conservative) and Valentine Stock (Reform).

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring use Dr. Kings New Life Pills. They develop every power of the brain and body. Only 25 cents at any Drug Store.

Before. After. **Wood's Phosphodine,**

Six packages guaranteed to cure all forms of Sexual Weakness, all effects of abuse or excess, Mental Worry, Excessive use of Tobacco, Opium or Stimulants. Mailed on receipt of price, one package $1, six, $5. One will please, six will cure. Pamphlets free to any address. The Wood Company, Windsor, Ont.

Wood's Phosphodine is sold in Peterborough by John Nugent, druggist.

OUR DOOM PRONOUNCED.

French Statesman Foresees the Extinction of Native Americans.

Surely a Frenchman ought to be recognized as an authority on the question of a declining birth rate. France is the one nation where the birth rate has steadily decreased until at last the deaths outnumber the births. Since 1890 there has been an annual loss of something like 20,000 population in France. It is a Frenchman of science, Arsene Dumont, who predicts the destruction of the American people. In the journal of the Paris Statistical society he reports the result of his study of the vital statistics of Massachusetts. In spite of the efforts made in New York and other states, it is an exasperating fact that Massachusetts alone collects trustworthy and comprehensive vital statistics, and it is on these that foreign statisticians rely for information as to the tendencies of American life. Yet Massachusetts is hardly representative. She has an uncommon proportion of foreign born people, and they are more absorbed in the manufactures than the people of other states. The proportion of the two sexes in that state is unlike the proportion of the west and south, and many important conditions are peculiar.

Mr. Dumont's study of the birth rate in Massachusetts is not encouraging as to the future of Americans. He says that marriages among "American born" reveal a steady diminution of the birth rate. The cause of this he finds in the principle of democracy. This develops individualism—the desire of each person to live his own life for himself, to obtain all the pleasure there is in life, whether intellectual or material. He maintains that as they do not propose to miss the chances of personal development Americans or any republican people will not burden themselves with children. He says there is a poison in republican civilization, and the more intense republicanism becomes the more acute individualism is. Eventually, he asserts, this must destroy the race and its culture. He says republics might escape this fate if they would submit to the rule of science.

Perhaps it is this determination not to sacrifice any of the pleasures of life for the pleasure of children that is the cause of the decline of the birth rate in France. It is more reasonable than the explanation commonly given—that in the absence of a law of entail French parents are led to limit the number of their children. The code Napoleon does not allow a man to leave the bulk of his fortune to his oldest child, as in England. It is hardly reasonable to think that in order to bestow an estate on a single child a man would deny himself the pleasure of rearing a number of children. But in order to find a larger amount of liberty and pleasure for himself he might be willing to go childless.

It is strange that a French scientist should dwell on the declining birth rate of Massachusetts and make no reference to that of his own country. At the beginning of the century there were 33 births for each 1,000 of population in France. In 1850 it had declined to 27, and in 1895 to 22. At the same time the birth rate of Germany and Austria remained at 38, that of England at 33 and that of Italy had increased from 37 to 38. The decrease is general throughout France, and Mr. Bertillon says it means the disappearance of the French people.—Washington Star.

TRUTH WILL OUT.

The Merits of Dodd's Kidney Pills Can't be Hidden.

Mr. C. S. Griggs, of Hamilton, Tells of his Experience—He Suffered With Bright's Disease for Eight Years—Dodd's Kidney Pills Cured Him.

HAMILTON, Feb. 10.—"Mr. Griggs, is it true that you were cured of Bright's Disease, by Dodd's Kidney Pills, after eight years' suffering, and when no other medicine could do you any good?"

This question was asked, a few days ago, by a gentleman who wished to investigate for himself the statement made in last week's papers to the above effect.

"It is true," answered Mr. Griggs, emphatically, "I was cured by Dodd's Kidney Pills when every other medicine I had tried had utterly failed to do me any good."

"When I was advised to try Dodd's Kidney Pills, I did not think they would help me any more than other medicines had. I was so sick that I was willing to try any means, if it gave a hope, or a chance of cure.

"Well, soon after I started using the Pills, I began to feel different. I found, in a week or so, that I was actually getting better. I kept on taking the medicine until I had used three boxes. After that I didn't need any more. I was cured, completely and permanently. You may know what I think of Dodd's Kidney Pills, when I tell you that I never let my house be without them."

Dodd's Kidney Pills are the only known positive cure for Bright's Disease, Diabetes, Rheumatism, Lumbago, Gout, Sciatica, Gravel, Stone in the Bladder, Diseases of Women, and other Kidney Diseases.

Dodd's Kidney Pills are sold by all druggists at fifty cents a box, six boxes $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto.

Thresher Crushed to Death.

Elora, Ont., Feb. 10.—John Beam of Garafraxa, living about four miles from Elora, was instantly killed by a threshing machine falling on him, while moving it along the gravel road. He was on the lower side of the road, to keep the machine from upsetting, and being unable to do so, he was crushed to death He was about 30 years of age, and leaves a wife and one child to mourn his loss.

To Protest Against Willis' Bill.

Albany, N.Y., Feb. 10.—An important committee of the Live Stock Association arrived here from Buffalo yesterday for the purpose of making a protest against the passage of Senator Willis' bill for a tuberculin test of all cattle imported into this State. The stock yards business of Buffalo would be seriously affected if this bill should pass.

MUMPS.

How to Treat This Painful but Not Usually Dangerous Disease.

This is a very painful but usually not dangerous contagious disease affecting chiefly the young, though not sparing the middle aged or even the old who may have escaped exposure in earlier life.

Usually one who has had the disease is safe from another attack, but this is not always so, and medical books tell us of unfortunate individuals who have suffered four or five attacks at intervals of a few years, seeming to catch the disease every time they were exposed to it.

Mumps is very contagious, and one who has never had it is almost sure to contract it on the first opportunity. A short time spent with a patient suffering from it will generally suffice, but at the same time the contagion does not extend far from the sick, so that it is easy to prevent the spread of the disease by keeping the other members of the family away.

Mumps usually occurs in small epidemics in schools, armies, factories and wherever many persons are brought into close relations with each other daily.

Mumps is a general disease, similar in its nature to scarlet fever or measles, but the swelling of the salivary glands is such a striking feature that the other symptoms, mild fever, loss of appetite, etc., are apt to be forced into the background and overlooked.

The glands affected are generally the parotid glands, and the swelling appears beneath the ear just behind the jaw. The enlargement may be very great, and when both sides are affected the poor sufferer is so transformed as hardly to be recognizable. At the same time the glands are exceedingly painful. The other salivary glands may be affected together with the parotids or alone.

A peculiarity of mumps is that it is very prone to leave the parts attacked and invade other glands in the body. This is a serious danger, almost the only one, and can be prevented best by keeping the patient in bed or at least in the room, even if he feels perfectly well, for several days after the swelling has gone down.

This is about the only treatment called for, except perhaps soothing applications, such as soap liniment, for instance, to the skin over the swelling. The diet should be liquid, and indeed it must be, for chewing is so painful that solids are out of the question.—Youth's Companion.

A Wonderful Man.

There was a man in England named George Muller, now dead, who used to read the Bible quite through every four years. Mr. Muller was a remarkable man. Besides preaching constantly in English, German and French he distributed over 250,000 Bibles and 100,000,000 religious books and tracts. He built in Bristol orphan homes costing $575,000 and maintained 2,000 orphans in them at an annual cost of $130,000—cheap and practical, by the way. He dealt in his long career with 125,000 orphans and spent on them in all nearly $7,000,000, yet he never directly asked any man for a penny. All the money that came in for the support of his work he prayed for. If he didn't get as much as he needed, he made what he had answer. It was simple and it worked. —New York World.

Children should always increase in weight. Not to grow, not to increase in flesh, belongs to old age.

Present and future health demands that this increase in weight should be steady and never failing.

To delicate children, Scott's Emulsion brings richer blood and firmer flesh. Better color comes to the cheeks and stronger muscles to the limbs. The gain in weight is substantial; it comes to stay.

TOMORROW'S BIRTHPLACE.

The Line In the Pacific Where It Shakes Hands With Yesterday.

Most people who have read Jules Verne's "Around the World In Eighty Days" will remember how narrowly the traveler missed his bet, having forgotten that, in following the sun from east to west, he had gained one day.

When one crosses the Atlantic from London to New York, he gains rather more than half an hour each day. From New York to Chicago another hour is gained, another to Denver, another to San Francisco, which is reckoning time eight hours later than London, and of course the best part of a day later than Shanghai and Yokohama. In crossing the Pacific there comes a time when the day begins, where yesterday and tomorrow shake hands, and where the traveler is cheated out of a day in his life.

In mid-Pacific, going west, one skips from Sunday to Tuesday. Going east he has one day of the week repeated—two Sundays or Tuesdays, as the case may be.

The line of the changing day is not a straight one. The islands in the Pacific take their time from the continent with which they trade and from which they were discovered. Thus the line of the change zigzags down the Pacific from south to north, dodging between the islands.

Hence it might easily happen that a ship which has already skipped a day would reach an island which clings to San Francisco time. In such a case it would be Monday on shore and Tuesday on the ship.

If the ship's jolly boat were lying at a wharf, it would be Monday on the wharf and Tuesday on the boat.

And if a person lives somewhere near the line he can get a sailboat and visit yesterday and tomorrow in the most delightful fashion.—New York World.

When you are nervous and sleepless, take Hood' Sarsaparilla. It makes the nerves strong and gives refreshing sleep.

The sycamore has been called the Egyptian fig tree. The date of its being planted in England is not known, but it was very early. Mary, queen of Scots, brought over from France a young sycamore, which she planted in the gardens of Holyrood, and from this have sprung all the beautiful groves of sycamores now to be seen in Scotland.

White men are said to bear up better against intense cold than against intense heat, the principal reason given being that the cold air is less tainted with the seeds of disease.

Too Weak To Work.

Two years ago Mrs. A. Walton, Sunny Brae, N.S., was so weak she couldn't do her housework. B. B. B. restored her health and strength, and she's been perfectly well since.

The record of permanent cures B. B. B. is rolling up is one of the marvels of modern medicine. Case after case is being presented where Burdock Blood Bitters cured, and cured permanently, some of the severest and most malignant diseases, after everything else failed. There is nothing like it for driving all poisons and impurities, which are the cause of disease, from the system, and building up the health on the foundation of pure, rich blood.

Mrs. A. Walton, of Sunny Brae, Pictou Co., N.S., is one of those who have been permanently cured by B.B.B. Recently she wrote the following account of her case:

"Two years ago I was completely run down. I remember on one occasion, when I arrived home from the gold mines at Fifteen Mile Creek, I was so weak I could scarcely sweep a room. At any rate in doing my housework I would have to sit down and rest every few minutes. I had no appetite and began to be alarmed at my condition. I was not only weak but very short of breath. Finally I tried Burdock Blood Bitters. I took two bottles, and soon my appetite improved, and I became strong and well. It is now two years since I took the B.B.B., and I have remained in good health since. I hope that all who feel weak and worn out will try B.B.B., as I am convinced it will not fail to effect a cure."

Test the KIDNEYS

They are the Great Feeders of our Bodies

The Purity of the Blood is Dependent on their Cleansing Powers

There's a time to all, old and young, man or woman, when poor health brings trouble, anxiety, and burdens hard to stand up under, and one's efforts to rid himself or herself seem only to be baffled at every turn, and we are prone to grow discouraged.

That is not the time to give up—but the time for action, the time to seek out the seat of the trouble, and act as your best judgment and the experience of others will help you, guarding against mistakes in the treatment adopted for your particular ailment.

MR. GEORGE BENNER,

Wiarton, Ontario, says:—

As a life saver to mankind, I hereby state what Dr. A. W. Chase's K.-L. Pills did for me. For nearly four years I was greatly troubled with Constipation and general weakness in the Kidneys, and in my perilous position was strongly advised to use Chase's Pills, and to-day I can safely and truthfully state that they have saved my life.

DR. CHASE'S KIDNEY-LIVER PILLS

are the only Combined Kidney and Liver Pill—What they have Accomplished is but a guarantee of what they will do . . . . .

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

Dear Sir,—Your official notice came duly to hand, appraising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000 which matured on the 5th inst. Of the various options you have given me viz.:

Cash value	$1,564 96
Paid-up Policy, payable at my death, for	2,560 00
Yearly Income for life of	166 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4½ per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the low ing rates of interest which have been obtainable during the latter portion of the period, it would be hard to show this excellent result could have been surpassed.

Yours sincerely,

(Rev.) J. Thompson, D. D.

A Woman's Crime.

A THRILLING STORY OF LOVE AND ADVENTURE.

By LAWRENCE M. LYNCH.

Author of "John Arthur's Ward," "The Diamond Goblet," "Against Odds," Etc., Etc.

With sudden fury, she wrenches herself from the grasp of Rob Jocelyn, who has kept a detaining hand upon her, fearing lest she do herself injury. Her eyes flash defiance; some thought seems goading her to madness.

"Yes," she cried. "You shall have the statement you so much desire. My career is closed. I see that; I feel it, and I am so young yet. I am Elise Schwartz, you say. Can you tell me who I was before that? What could you expect from a child flung to a band of gypsies; left to grow wild among them, with no mother, no father, no name? For years I knew no other life; but I knew I was not a gypsy. I envied every richly-dressed woman I saw. I longed to dwell in houses, and tarry in cities; not to move on, and on, and on. One day a fine lady saw me, and she took me with her to be her maid. She had wealth and many lovers. We lived in gay Paris, and I nearly went mad with delight at the life we led. I watched, I listened, I copied, I learned fast—fast. One day, when I was barely fifteen, My Lady discovered that I was a rival to be feared, and she sent me away. We were in London then, and I was at a loss. Well, I met that old Jew, and he fell in love with my face; in spite of his sister's entreaties, he married me. I knew that he was rich, but I did not know how mean he was.

"I expected dresses, jewels; I had nothing, just nothing, and I was watched like a prisoner by that ugly old woman. Life was terrible to me then, terrible! I longed for Paris, for the old life; for music, and laughter, and light. I endured it for two long years, and then—I killed them. In the city lived an old gypsy fortune-teller, who had done so many evil things that she had been banished from her tribe, the same tribe that I left; she knew me, when we met in London. She was skilled in many dark ways; she would do anything for a little money; she taught me the use of the little stiletto. It was to her I fled after the thing was done. She dyed my hair, she procured me cosmetics, she sheltered me for a time, but I feared her and I fled. I fled to Paris, and there I disguised myself more effectually. My dark hair was made yellow, my almost swarthy complexion blonde; I sacrificed my long eyelashes, and dyed them light; I partially shaved my dark brows, and changed their shape; and my teeth, that were large, and too easy of identification, I had drawn out, every one, and a false set of an entirely different shape and size made. Then I was ready to defy detection.

"Fortune seemed to smile upon me. Mr. and Mrs. Durand met me; they had buried their daughter in a strange land. I told a most pathetic story, and they adopted me. You know the rest; I came here; in New York I met Clarence Arteveldt. I was young, and in all my changeful life I had never loved. But I loved him, madly, unto death. When I learned of his falsity, of his coming marriage, I went mad. I appealed to him. It was useless. I visited Miss Armyn by stealth, and she swore that nothing but death should separate her from my lover. I had my dagger in my bosom: for a moment I was tempted to spring upon her and bury it in her heart. Then another thought came. I would wait, and be revenged on both. I bowed my head and went out from her presence; but I was thinking, thinking.

"I knew nothing of her hatred for Clarence. I thought she loved him. I laid my plans—you know what they were—I did not attend the wedding; I could not, and so—I knew nothing of the bride's flight. When I stole into that still house, with my dagger in my hand, I was as firm as adamant."

She moves a step forward, her eyes are fixed on vacancy, she seems to be re-acting that horrible scene.

"I went on with firm, still tread, and nerves like steel. I reached the bridal chamber; I had prepared myself to force an entrance, but the door was unlocked. Softly I stole in, the lights were very dim. I could just see two forms lying side by side. I drew near to the bride's pillow; beside it was a dainty stand with a basket of snowy flowers upon it. I bent down—ah, how calm I was—I put one finger on the forehead, for I could not see clearly where to strike; I felt the vein of the temple, and there I drove my dagger home. Then I went back as I came. Nothing but death could part them, she had said. Death had parted them; death from my hand. Now who would dare take Clarence from me? Oh, God! Oh, God!"

She throws her arms aloft; again, as on the night when Nina Annin broke to her the news, she writhes in agony. When she speaks again it is in a strange, hollow half whisper, horrible to hear.

"All the next day I kept my room. I saw no one, heard nothing. Then she came, that hated woman. Oh! how I wish I had killed her then! She told me that Clarence Arteveldt had been murdered. How did I live? How did I? Hear me, men! I feel now as I did then, as if I were going mad! I had meant to kill Lenore Armyn. His wife! By the memory of the man who died in her stead, I swear it; Take me where you will; do with me as you will. I have been guilty, but I regret nothing save that blow."

Again she flings her arms aloft, and then falls heavily forward, to be caught by Rob Jocelyn, while the others stand horror-stricken by her last words. What perils had not Lenore Armyn escaped! They raise the prostrate form, and lay her upon the bed, where now a corpse might have been; and then Mrs. Richards glides forward; she has been near at hand from the very first. When Aura is at last restored to consciousness, all her fierceness, all her courage, all her strength has deserted her. Cool, audacious Nina Annin might well despise her now. But vile though she be, Nina Annin is no murderess. She who was known to the gay world as Aura Durand goes forth from the mansion where she has reigned a queen, never to be known as Aura Durand again; nevermore to cross, or desecrate that threshold. In the grey of morning Rob Jocelyn takes her away. Abject, sullen, hopeless, she goes, to be known only as "Elise Schwartz, the murderess," until death shall claim her.

CHAPTER LI.

A REUNION AT GENTLEMAN JEFF'S.

Once again, and for the last time, let us visit the rooms of Gentleman Jeff. When, as the result of Francis Ferrars' strategic entrance into the gambler's holy of holies, Lenore Armyn had become fully convinced that she was not the helpless, hunted, friendless being she had believed herself to be, she became all at once a model of meekness, and declared herself willing and ready to be guided by the advice of her friends. What should she do now? To which Francis Ferrars had replied:—

"Miss Armyn—Lady Lenore—you are safe—from all save annoyance; but until the real murderess is found, it will not be prudent to appear in public. For a little longer you must remain in seclusion. I will find you a safe and pleasant abiding place for the few days that must intervene, before you may stand in the highest places, and face the world; unless you can name a place that will not be new and strange, and that you would prefer."

Then Lenore had turned to Gentleman Jeff, saying:—

"Sir, are you tired of me? Have I wearied your good mother? Will my absence be a relief to you?"

"Miss Armyn!" said the gambler, in amazement. "The protection I have offered you is not of the best, but it is as freely yours as the best should be. As for my mother, let her speak for herself."

"It is a pleasure to me to be with you, Miss Armyn," said the old lady, earnestly. "I almost regret your good fortune."

Lenore turned to Ferrars.

"I will stay here, Mr. Ferrars," she said, quietly.

"Here!" exclaimed the Englishman, in some surprise. "But——"

"I shall stay here," interrupted Lenore, suddenly forgetting her meekness. "When I came to this gentleman as a fugitive, with a price set on my head, he never hesitated for one moment; his house had brought my trouble upon me, he said, although he took an involuntary part in that shameful deed, and now his house should shelter me so long as his doors stood intact, and he had strength to or arm to defend me. That afternoon he went straight and brought his mother to me. He might have given me up to the law, and claimed a rich reward; instead he has treated me as if I were an empress. You say that I am no longer the hunted, friendless fugitive who sought his protection; that I am heiress to a vast fortune and lofty name. You call me the Lady Lenore. Well, Lady Lenore will remain the guest of Gentleman Jeff, and if she should live to dine at the table of princes and kings she will never have a host that she will honour more."

The Englishman felt the rebuke her words implied.

"You are right," he said. "And—you are a true aristocrat."

So while the net had been closing about Aura Durand, Lenore remained the guest of the prince of gamblers. Francis Ferrars came from time to time, and they talked of her future. Finally, Lenore wrote a letter to Doctor Austin, instructing him to be ready to come to her at any moment; and upon receipt of a telegram from a certain Francis Ferrars, to come to the city, bringing her mother's papers with him. It must be confessed that Lenore's meekness was of short duration; her courage was too high, and her heart too strong to be kept long under a cloud that had so much of brightness behind it; she began to feel glad to be alive once more; to rejoice because of her youth, and her health, with the unreasoning exultation that youth and health and innocence brings. She sent a half penitent, wholly characteristic message to Neil Bathurst, and his reply was equally characteristic. Until there remained not the shadow of an excuse for a flitting, he should obstinately refuse to give Miss Armyn the flying impetus his presence always seemed to furnish. He should hold himself aloof.

And Lenore had laughed and frowned, and began to think a great deal about this independent young detective, and to look forward with some eagerness to a meeting with him.

The morning that followed the arrest of Elise Schwartz saw Doctor Austin and Francis Ferrars in close conversation with Lenore; after which the girl was left alone to read some papers of her mother's. Mr. Hale had reported that Mrs. Arteveldt had driven out of the city for the day; and so the next step, the last step to be taken before Lenore should be finally and fully cleared in the eyes of the world, must be postponed until evening. Upon being informed of this, Lenore said:—

"I have no wish to see Mrs. Arteveldt: she can hardly care to see me. But to you who have been, who are, my best and truest friends, everything is due. I will read my mother's papers, and then I will tell you all that I know of my own, all that I can of my mother's history. Bring Mrs. Arteveldt's lawyer, too. Mr. Hale can make such notes as he chooses for her enlightenment."

So to-day, a little after the hour of noon, Lenore, Doctor Austin, Gentleman Jeff, and his mother sat in the gambler's splendid parlour, chatting quietly and waiting. Presently steps were heard without, and then the door opened, admitting Rob Jocelyn, Charles Ruthven, and two veiled ladies, who, at sight of Lenore, sprang forward with little ecstatic cries, and throwing back their veils revealed the faces of Mrs. Ruthven and Kate Seaton.

After their greeting was over, which was not for some moments, Kate presented Robert Jocelyn, and Lenore frankly extended her hand, saying:—

"Oh, I know a great deal about you, Mr. Jocelyn, and I intend to appropriate all the friendship you have to spare. Mr. Ferrars has told me how you have kept your hand upon my enemy, Jason Bradwardine. Oh, how little I dreamed what strong friends, what brave defenders I might have had long ago."

Then she introduced the new-comers to Doctor Austin, Gentleman Jeff, and his mother. A few moments more, and Francis Ferrars, Neil Bathurst, and Mr. Hale appeared. As Neil Bathurst approached Lenore, she looked up in his face, saying gravely, but with a mirthful gleam in her eyes:—

"Mr. Bathurst, are you prepared to shake hands—and bury the hatchet?"

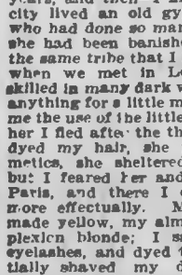
"I don't know," retorted Neil, with even more solemnity. "I have no faith in you—not a particle. In a few moments we shall be staring blankly at each other, and you will have gone down through the floor, or up through the ceiling, or out at the keyhole. Have you got seven-leagues boots, or an enchanted carpet?"

"No," laughed Lenore; "but I have a very active pair of feet. I feel quite proud to have so dodged Bathurst, the detective. I shall boast of it as something worth having done."

"Of course you will," with a comical glance at Doctor Austin, who stood near, laughing at this badinage. "You and Doctor Austin will chuckle over it together. But I'll have nothing more to do with you. If you run away I will laugh at the folly of the man who tries to catch you. I won't cope with an ignis fatuus."

(To be continued.)

The cut is after an old painting of a man gambling with Death with his life as a stake. Behind the man stands his good angel striving to save him.



This game with life as the stake is the every-day game of men and women. Behind the player stands the good angel Nature, striving to preserve the life. Even when the game is almost in Death's hands, the man who turns to Nature and lets her help him may yet save himself. Medical science knows this, and its highest authorities affirm that the utmost medical skill can do is to help Nature.

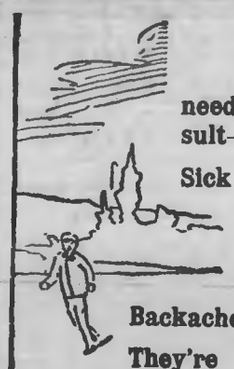
The great success of Dr. Pierce's Golden Medical Discovery in curing wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of this fundamental scientific truth. "Golden Medical Discovery" supplies Nature with body building, tissue repairing, muscle making materials, in condensed and concentrated form. With this help Nature supplies the strength to throw off diseases of the lungs, heal the sick stomach, re-establish the digestive and nutritive organs in sound health, purify and enrich the blood, and nourish the nerves.

If your dealer offers something "just as good," it is probably better *for him*; it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

In a letter received from A. D. Weller, Esq., of Pensacola, Escambia Co., Fla. (Box 544), he states: "I have, since receiving your diagnosis of my case as stomach trouble and liver complaint, taken eight bottles of the 'Golden Medical Discovery,' and must say that I am transformed from a walking shadow (as my friends called me), to perfect health. I value your remedies very highly and take pleasure in recommending them to any and all who suffer as I did. Four months ago I did not think to be in shape to assist our 'Uncle Samuel' in case of hostilities, but thanks to you, I am now ready for the Dons!"

Dr. Pierce's Common Sense Medical Adviser, In Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, paper-bound, sent for 21 one-cent stamps, to cover cost of customs and mailing *only*. Cloth-bound 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Drowning Man



needs help—and needs it at once—delay can have but one result—Death—

Sick kidneys are very much like a drowning man—their cry for help is just as imperative—their need just as vital—

May be simply a case of backache first—but backache is the warning note of the more serious trouble to follow.—

Backache is the cry of the sick kidneys for help—

They're not able to do the work demanded of them—system is getting clogged up with poison—

There's only one way out of it—only one never-failing cure that reaches out after sick kidneys, as the life-line reaches for the drowning man—

Doan's Kidney Pills—

They've cured thousands of people—are curing others every day—

Take a London citizen's word for it:

MR. JAMES JACKSON, the well-known carpenter, lives at 646 Maitland Street, London, Ont. He says: "I had a bad attack of la grippe four years ago. Since that time I have suffered severely from pain in my back, so that I could scarcely walk across the room. My sleep was fitful and uncertain, and gave me no rest. I had other pronounced and painful symptoms of kidney disease, and until I commenced taking Doan's Kidney Pills had almost despaired of a cure. It was a happy day for me when I got these pills, because they removed all my distressing kidney troubles, drove out the pain in my back, restored restful sleep, and have made me a strong, healthy man."

Doan's Kidney Pills are for sale by all druggists at 50c. a box or 3 for $1.25.

The Doan Kidney Pill Co., Toronto. Remember the name Doan's, and refuse all others.

Medical Treatment on Trial to Any Honest Man.

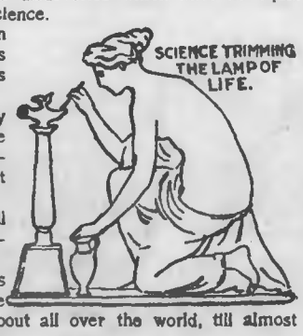
THE FOREMOST MEDICAL COMPANY IN THE WORLD IN THE CURE OF WEAK MEN MAKES THIS OFFER.

Health and Energy Assured; Happy Marriage, Good Temper, Long Life.

IN all the world no doctor or institution has treated and restored so many "weak men" as has the famed Erie Medical Company of Buffalo, N. Y.

This is due to the fact that the company controls some inventions and discoveries which have no equal in the whole realm of medical science.

So much deception has been practiced in advertising that this grand old company now makes this startling offer.



They will send their magically effective appliance and a whole month's course of restorative remedies, positively on trial without expense, to any honest man.

Not a dollar need be paid till results are known to and acknowledged by the patient.

The Erie Medical Company's appliance and remedies have been talked about and written about all over the world, till almost every man has heard of them.

They create strength, vigor, healthy tissue and new life.

They repair drains on the system that sap the energy.

They cure nervousness, despondency and all the effects of evil habits, excesses, overwork, etc.

They give full strength, development and tone to every portion and organ of the body. Failure is impossible and age is no barrier.

No C. O. D. scheme, no bogus philanthropy nor deception, no exposure—a clean business proposition by a company of high financial and professional standing. Little book giving full information mailed free in plain sealed envelope.

ERIE MEDICAL CO., 64 Niagara St., Buffalo, N. Y.

A Money Saver

The Mechanics' Time Book and Note Book is sent free by addressing Adams & Sons Co., 11 & 13 Jarvis Street, Toronto, Ont., and sending one wrapper from Adams' Tutti Frutti Gum.

Avoid those dealers who try to palm off imitations and substitutes in order to make a great big profit.

HIS NARROW ESCAPE.

How Dodd's Kidney Pills Saved Mr. C. S. Griggs.

Hamilton, Jan. 30.—A startling story is told by Mr. C. S. Griggs, carpenter, living at 151 Queen street south. Reputable citizens vouch for the strict truth of every detail.

Mr. Griggs endured the most agonizing pains for eight years. He was a victim of Bright's disease, and the best doctors could not help him.

Finally he tried Dodd's Kidney Pills. Three boxes cured him. To-day he is sound and well in every way.

It is wonderful how many Hamilton people have been cured of Bright's Disease by Dodd's Kidney Pills. They have never been known to fail in a single

TETTERON HANDS

Troubled for years. Sore All Over. Could not use them. Spread over Arms, Neck, and Face. Smarted Like Fire. Physicians no Benefit. Tried CUTICURA. Immediate Relief. Permanent Cure.

I had been troubled with tetter for several years. At times my hands would be sore all over, so that I could not use them at all, and were so tender that clear water, even, smarted like fire, and it spread over arms, neck, and face. I had been treated by physicians, but without benefit, when I began the CUTICURA remedies. *I found relief before I had taken the first bottle.* I used three or four bottles of CUTICURA RESOLVENT, one cake of CUTICURA SOAP, and one box of CUTICURA (ointment), and it has never troubled me since. ELLA CURZON,
March 10, 1898. Eppingham, Ill.

BLOOD POISON CURED

By Cuticura Resolvent

One of my children ran a rusty nail into his foot, which was most painful. His blood got out of order, and sores broke out on his hands and feet. I gave him one bottle of CUTICURA RESOLVENT and used one cake of CUTICURA SOAP, principally as a salve, and the child recovered. MRS. J. S. FUREN,
March 15, 1898. Markham, Ills.

CUTICURA RESOLVENT

Begins with the Blood and Ends with The Skin and Scalp.

That is to say, it purifies the blood and circulating fluids of HUMOR GERMS, and thus removes the causes, while warm baths with CUTICURA SOAP, and gentle anointings with CUTICURA (ointment), greatest of emollient skin cures, cleanse the skin and scalp of crusts and scales, allay itching, burning, and inflammation, soothe and heal. Thus are speedily, permanently, and economically cured the most torturing, disfiguring humors of the skin, scalp, and blood, with loss of hair, when the best physicians and all other remedies fail.

Sold throughout the world. POTTER D. AND C. CORP., Sole Props., Boston. "How to Cure Every Humor," free.

SAVE YOUR SKIN Hands and Hair by using CUTICURA SOAP.

FROM THE SEVERN.

ORILLIA'S NEW ELECTRICAL POWER ENTERPRISE.

The Bylaw Adopted For the Installation of a Transmission Plant of 800 Horsepower.

By a vote of 399 to 61, on Monday, Orillia passed a bylaw authorising the council to raise by debentures the sum of $75,000 for the purpose of installing an electric transmission power plant. With this sum it is proposed to bring 800 horsepower from the Ragged Rapids on the Severn River, a distance of 19 miles overland. The scheme has been under way upwards of a year. The contract has already been awarded to the Central Construction Company of Buffalo, whose tender of $67,200 for the complete plant, electric and hydraulic, was the most satisfactory of those submitted. The machinery will all be of the most substantial and up to date description. The power will be transmitted at 20,000 volts. It will be used for running the electric light and and waterworks plants, which are owned by the town, and for supplying private power users, while the surplus will be devoted to inducing manufacturers to locate here, with a view to making Orillia a manufacturing centre. The capacity of the plant can easily be increased should necessity arise, as only 800 horse-power is to be developed at present, while there are several thousand horse-power available at the rapids. Orillia seems determined to take the lead in the matter of municipal enterprise. The corporation secured control of its waterworks years ago. It was the first municipality in Ontario to put in an arc lighting system, and one of the first to instal the incandescent light. It was the first to apply to the Ontario Goverment for leave to develop a waterpower under the new law. It will be the first municipality on the continent to instal an electric power plant of its own. It will then sell electrical power cheaper than any other place in America, as low as $13 50 per horse-power per annum which is lower than the rate at Niagara Falls. It will also have one of the lowest electric light tariffs known and will get its street lights cheaper than any other place in the provinces.

No Right To Ugliness

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at any Drug Store,

New York Will Have a Building.

Albany, N.Y., Feb. 8.—A bill was introduced in the House and Senate to-day making an appropriation of $300,000 for a state building and exhibit at the Pan-American Exposition to be held in Buffalo in 1901. There was no opposition offered and the bill was ordered to a third reading. It will undoubtedly pass next week and be signed by the Governor.

Gratifying Improvement.

"My face was covered with pimples and blackheads when I began taking Hood's Sarsaparilla, but after the use of this medicine a short time I was entirely cured. I cannot recommend it too highly since it has done so much for me." MAY RYAN, North Street, Ongah, Ontario.

Hood's Pills are the only pills to take with Hood's Sarsaparilla. 25c.

TORONTO SAVINGS AND LOAN COMPANY.

A Successful Year Has Just Been Completed.

ANNUAL MEETING ON FEB. 9th.

Although the Country has Just Emerged from a Severe Financial Depression the Company Presents a Satisfactory Balance Sheet.

The annual meeting of the shareholders of the "Toronto Savings and Loan Company" was held at the head office of the company, No. 437 George street, Peterborough, on Thursday, Feb. 9th, 1899, at 2 o clock, p.m.

The President, Hon. Geo. A. Cox, having taken the chair, the Manager, Mr. W. G. Morrow, was requested to act as Secretary to the meeting. After reading the notice convening the meeting, the Secretary read the fourteenth annual report and the accompanying financial statement.

The Directors beg to submit herewith their fourteenth annual report for the year ending December 31st, 1898.

The earnings for the year amounted to $91,237 79, an increase over the year 1897 of $2 493 03. This enabled the Directors, after providing for interest on deposits and debentures, expenses in connection with money borrowed or loaned, and the expenses of management, to declare two half-yearly dividends at the rate of 6 per cent. per annum on the paid up capital of $600 000 00, amounting to $36,000, to transfer to the Reserve Fund $5,000 00, and to the Contingent Fund $1,403.31

The Reserve Fund now stands at $115,000.00, and the Contingent Fund at $6 596 84, the two being a fraction over 20 per cent. of the paid up capital.

On the 31st December, 1897, the total amount due depositors and debenture holders was $885,518.06. By reference to the financial statement it will be observed that this amount was increased during the year by $48,274.86, and now stands at $933.792.92.

The interest payments which matured on the real estate mortgages have been satisfactorily met, and the rentals of the company's properties have also been promptly paid.

The books, accounts and securities of the company have been carefully examined by the auditors, and their report is appended to the Financial Statement.

Respectfully submitted on behalf of the Directors.

GEO. A. COX,
President.

Financial Statement for the year ending 31st December, 1898 :

Assets.

Net value of mortgages and other securities		$1,646,682 92

AUDITORS' CERTIFICATE.

We hereby certify that we have carefully audited the Books and Accounts of the Toronto Savings and Loan Company, for the year ending 31st December, 1898. All disbursements have been properly vouched for and the postings and balances of the Company's ledgers have been checked and found correct.

The above Statement of Assets and Liabilities shows the position of the Company on 31st December, 1898, and the Profit and Loss Account is a correct showing of the operations of the Company for the year ending on that day.

We have also examined the securities and find everything in order.

JAS. A. HALL,
E. R. WOOD, } Auditors

Peterborough, 19th January, 1899.

The President in moving the adoption of the report said :

"Gentlemen,—For the fourteenth consecutive year I again have the pleasure of submitting for your approval the annual balance sheet of this company, and I am much gratified at being able to state that it is one that will, I am sure, meet with your approval.

The country has but recently emerged from one of the most severe depressions through which it ever passed. Financial, commercial and agricultural interests suffered, and the progress of every monetary institution was more or less retarded. It is therefore very satisfactory to know that, although the growth has not been very rapid, this Company has passed through the ordeal with a slow but solid onward movement and presents to-day a better balance sheet than it ever had before, and is in every particular well equipped to take advantage of the new era of prosperity upon which the country has entered. The business of the year now under review shows a substantial increase in assets, and an earning power of somewhat over seven per cent. upon its paid up capital, six per cent. of which has been paid to the shareholders and the balance carried to the credit of the reserve and contingent funds, which now amount to over twenty per cent. of the cash capital, a result that I venture to think will not only be satisfactory to all concerned but affords good reason to hope for a still more prosperous future.

It is also gratifying to know that the Company is doing a good work and filling a useful place in this community to which it more particularly belongs. Unlike most of the loan companies that borrow their money in Great Britain, this company is working exclusively upon Canadian capital, thus becoming a safe medium through which our more prosperous and fortunate citizens may deposit their earnings for investment in our own county.

I have much satisfaction in testifying to the fact that the manager and officers of the Company continue to merit by their courteous and energetic attention to business the cordial approval and thanks of the Shareholders and Directors of the Company.

I now move, seconded by the Vice-President, the adoption of the report and statement herewith submitted, and that the same be printed for distribution amongst the Shareholders, Depositors and Debenture Holders of the Company, but before asking you to accept this resolution I shall be glad to answer any question or furnish any information that may be desired.

The report was unanimously adopted.

On motion of Mr. P. Hamilton, seconded by Wm. Cluxton, Messrs. James A. Hall and E. R. Wood were re-appointed auditors for the year 1899.

The election of directors was then proceeded with, and the following gentlemen were declared elected for the ensuing year : Hon. Geo. A. Cox, Richard Hall, William Cluxton, Peter Hamilton, A. L. Davis, F. J. LeFevre, D. W. Dumble, A A Cox and Jas. Stevenson.

At a subsequent meeting of the directors Hon. Geo. A Cox was re-elected President and Mr. Richard Hall and A. A. Cox Vice-Presidents.

His Life Was Saved

M. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medince is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1 00, at any Drug Store, every bottle guaranteed.

CHURCH CHIMES.

VALUABLE

Residential Properties FOR SALE

In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Containing ten rooms. House in good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containing seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 108 feet square.

Parcel No. 4. Brick residence, corner Wolseley and Benson streets. Two storeys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 108 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases. Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

A Sudden Drop.

This the time of year to look for a sudden drop in the price of Furs at ALEX MELVILLE & CO'S.

It is not because we have charged too much, here-to-before or because our Furs are out-of-date or any less stylish, but because we are willing to let the remainder of our stock go for less than they are really worth. The end of the season approaches.

At the prices we name they are an investment—none better for your spare money.

Melville & Co.

Successors to Mills Bros.

SPECIAL THIS WEEK.

We are selling the balance, of our Children's Hoods and Caps regardless of cost. Also Fur Goods in Children's Ruffs, Collarettes and Muffs below cost.

New Goods just arrived in Corsets—a special line of Corsets at 50c.

WILL PACK THE COURT

The French Chamber Deals a Deadly Blow at Revision.

NAVAL FORCES OF BRITAIN.

A Subject That Will Occupy Much of the Attention of Parliament This Session—Troubles With France Likely to Be Settled Amicably—Peace Treaty in Spain—Cable News.

London, Feb. 13.—The adoption of the trial revision bill by the French Chamber of Deputies is the greatest blow the revision of the Dreyfus trial has yet received. The revisionist organs declare it is a violation of all republican principles. The Chamber by the vote practically consented to pack the higher court rather than to have it pass an unpopular verdict. Its action attacks the very foundation of justice in France. The anti-revisionists are naturally jubilant.

THE BRITISH NAVY.

A Proposition to Fix the Personnel at 110,000 Men.

London, Feb. 13.—Among the questions before Parliament, the increase of the naval force will occupy the greater part of the session. A proposition will be made to fix the personnel of the fleet at 110,000 men. The Admiralty is reported in naval circles as making ready to propose an immense increase in the naval reserves, which are now limited to 27,000 men. The number will be doubled.

The Outlook, in dealing with this subject, says: "The Admiralty will be compelled to offer additional inducements in order to get men to serve. The success of the U. S. naval personnel bill now in the Senate, will give the British naval engineers the courage to insist on an improved status of their pay."

If the affairs of the Government continue in their present state of quiescence, Lord Salisbury will go to the Riviera in March.

ON EVE OF SETTLEMENT.

Britain and France Said to Have Come to Terms Regarding the Nile Question.

Paris, Feb. 13.—This morning's papers assert that the negotiations which have been in progress between the French and British Government regarding the Bahr-el-Ghazal Basin, west of the White Nile, are on the eve of satisfactory settlement. Great Britain has admitted the legality of the French claim to a commercial outlet on the Nile, and negotiations are now proceeding for the delimitation of boundaries.

The Queen Will Sign.

Madrid, Feb. 13.—Premier Sagasta, after leaving the Palace yesterday, declared that the Queen Regent would sign the peace treaty before the convening of the Cortes, this being the prerogative of the Crown, according to the constitution. Senor Sagasta will consult the leaders of the minority groups on the subject and hot debates are expected when the Chambers meet.

AN INDIAN PLOT.

Chapekar, Son of the Murderer of Lieut. Ayerst, Arrested.

Bombay, Feb. 13.—Chapekar, son of Damadhar Chapekar, who was hanged for participation in the murder of Lieut. Ayerst and Plague Commissioner Rand at Poonah during the Jubilee fetes in 1897, has been arrested. His arrest has created a great sensation, particularly in view of the circumstances attending it. Chapekar entered the room where the police authorities were preparing evidence to be used in the trial of other natives implicated in the murders, and, without warning, drew a revolver, and fired at the superintendent of police. Fortunately, he missed his mark, and was seized before he could fire a second shot. He has confessed that he was the ringleader in the assassination of the two native brothers who were shot Wednesday evening in order to prevent them appearing as witnesses in the trial of the remaining Jubilee murderers. The murder of the two natives indicates a widespread native plot against the Government.

London Graveyards Are Full.

London, Feb. 13.—Sir Arthur Arnold is trying to wake up London to a serious state of affairs, which is that in the near future the present means of disposal of the dead will be exhausted. There is an average of 130 000 deaths in London annually, and only 200 acres of burial land remain within a reasonable distance of the metropolis. Already the poor people are bundled, to the number of 20, in one grave. An effort is now being made by the County Council to push a measure through Parliament for the establishment of crematories all round the outskirts of London.

The Noble Organ Grinder.

London, Feb. 13.—Lady Hinton, the wife of the viscount organ grinder, has stated in an interview that many of her husband's acquaintances, who would not lend him a shilling before the death of Earl Poulett, are now offering money and open cheques.

Viscount Hinton does not anticipate any opposition to his taking possession of the property of the late Earl Poulett, and he will go to Minton St. George in a few days to take charge of the property.

Rhodes Makes a Change.

London, Feb. 13.—Hon. Cecil Rhodes has resolved not to take his Cape-to-Cairo Railway through German territory, but through the Congo Free State, under a personal arrangement in the first instance with the King of the Belgians. He secures right of way through the Congo Free State, and British diplomacy will convert it into a freehold of the British Government.

Italy Wants a Slice.

Rome Feb. 13.—Several of the leading newspapers say that Italy has taken steps to learn the views of the London, Paris and St. Petersburg Governments upon the project of Italian occupation of a Chinese port, and that all three are favorable to the idea.

Bannerman Is a Success.

London, Feb. 13.—The close of Sir Henry Campbell-Bannerman's first week of leadership of the Liberals has left his party in the House of Common abundantly satisfied with their choice. Not alone his public appearance in the House, but also his tact and his quiet energy in the private councils have given convincing proofs that he is the best man they could have selected.

MAY BE A DERELICT.

Fears That the Bulgaria, of the Hamburg-American Line, Is a Wreck Far From Harbor of Refuge.

Ponta del Gada, Azore Islands, Feb. 13.—The British tank steamer Weehawken, Capt. Casey, from Philadelphia, Jan. 27, for Hull, has arrived here with 25 passengers from the Hamburg-American Liner Bulgaria, Capt. Schmidt, from New York, Jan. 28, for Hamburg. The Weehawken reports the Bulgaria drifting helplessly 80 miles from the Azores. Nothing is known here as to the fate of the other passengers. The Bulgaria had 47 passengers aboard. Her crew numbered 75, under command of Capt. Schmidt. She had on board 17 horses and 5,000 tons of freight, most of it being grain.

A GREEK CANARD.

Large Barracks to Be Constructed at Candia, British Stamps Used, British J. P.'s Sworn In.

London, Feb. 13.—A Central News despatch from Vienna says despatches have been received there from Athens saying that large military barracks for the accommodation of British troops have been ordered constructed at Candia, Crete. The same advices say that British stamps are to be used in the Cretan postal service, and British justices of the peace are to be installed in office.

Prince George, high commissioner of Crete, regards these innovations as encroachments upon his authority, and there is consequently much dissatisfaction, both in Crete and Athens.

Another French Pin Prick.

London, Feb. 13.—There is no thought at the Foreign Office that any serious trouble will be caused by the French deal with the Sultan of Oman at Muscat. The exact extent of the arrangement is not quite clear. It is not a new pin-prick, however, but one decided upon long ago, when it seemed that England rather liked to be pricked. A French coaling station in that particular part of the world will not be tolerated by this country. The Foreign Office believes that the Sultan must have been heavily bribed, and it will be necessary to call him sharply to account.

Sinclair Caught at Spokane.

Vancouver, B.C., Feb. 13.—J. H. Sinclair has been arrested at Spokane for being implicated in the Dominion Express robbery at Trail. It is expected extradition papers will then be taken out for his return to Canada.

Prince Napoleon Charles Gregoire Jacques Phillippe Bonaparte, third son of Prince Lucien Bonaparte, Prince of Canino and chief of the elder branch of the Bonaparte family, is dead at Rome.

FIREMAN WAS KILLED

Wall at a Montreal Fire Falls With Fatal Results.

ST. JOHN'S CHURCH BURNED.

One of the Finest of Brockville's Presbyterian Churches Falls a Prey to the Flames on Sunday—17 Lives Lost Through the Burning of an Insane Asylum—Other Fires.

Montreal, Feb. 13.—Edward Smith is dead and Joe Mooney badly injured as the result of a $30,000 fire, which took place yesterday in Mr. H. Lamb's building, corner of Chaboilles street and Chaboilles square. A fire broke out in the lower part of the building, which was occupied by a grocery store in the lower floor and the Banque Ville Marie in the second, and while Smith and Mooney were on a ladder, the west wall fell out, killing Smith instantly, and injuring his companion. The damage to the building will be about $35,000, and the hospital authorities say Mooney will recover. Smith had only been on the force about a year.

Dr. McNiven a Loser.

Comber, Ont., Feb. 13.—Dr. Sifton's residence was entirely consumed by fire shortly before 11 o'clock yesterday. The fire started between the inner walls, and had its origin from one of the heater pipes of the furnace. The fire made great headway, and only part of the furniture was saved. The building was valued at $1,200; insurance, $800. There is an insurance of $600 on the furniture. Dr. Sifton disposed of his practice and residence to Dr. McNiven of Alvinston a couple of weeks ago, and the transfer has been made, so that Dr. McNiven will be the loser. Dr. McNiven was to have taken possession of the house Monday or Tuesday.

Presbyterian Church Burned.

Brockville, Ont., Feb. 13.—About 5 o'clock yesterday morning fire was discovered in St. John's Presbyterian Church on King street. The firemen responded to the call promptly, and though they worked hard to save the building their efforts were fruitless. Nothing remains but the stone walls and one of Brockville's finest buildings is now a total wreck. Cause of fire unknown.

Chicago Suffers Heavily.

Chicago, Feb. 13.—The five-story brick building at the northwest corner of Wabash avenue and Madison street, occupied by the book and stationery firm of A. C. McClurg & Co., was, with its contents, totally destroyed by fire yesterday, entailing a loss of nearly $650,000, of which $500,000 was on the stock.

Fire at Owen Sound.

Owen Sound, Feb. 13.—The hardware store of T. T. Thompson was discovered to be on fire about 9 p.m. yesterday. After an hour's hard work the fire was gotten under control, but not before half the stock was badly damaged. The loss will be in the neighborhood of $5,000; insured.

Firemen Frost Bitten.

Sault Ste. Marie, Ont., Feb. 13.—At 6.40 Saturday morning fire was discovered in Dunn's lumber mill here. The mill is a total loss; dry kiln and lumber in yard saved. Loss about $4,000; small insurance. Several of the firemen had ears and noses frozen, the temperature being 40 below zero.

Serious Blaze at Albany.

Albany, N.Y., Feb. 13.—One and hundred feet of the business portion of South Pearl street was destroyed by fire yesterday. Eight firms doing a prosperous business had their stock totally destroyed. The loss will reach $250,000.

St. Catharines Visited.

St. Catharines, Ont., Feb. 13.—The Fitzgerald block on St. Paul street was discovered to be on fire on Saturday morning. The flames badly damaged the offices and clubrooms in the building.

17 Insane People Burned.

Omaha, Feb. 13.—The State Asylum for the Insane at Yankton, S.D., was destroyed by fire yesterday morning. Seventeen of the inmates are reported to have perished.

THE GASPESIA'S DANGER.

Another Gale Raging and There Are Fears for the Vessel.

St. John's, Nfld., Feb. 13.—A frightful northwest gale raged over the whole island on Saturday night. The coast mail steamer Virginia Lake was unable to round Cape Race in the teeth of the wind, and had to enter the harbor to avoid foundering. The storm will seriously endanger the new Canadian liner Gaspesia, which, when last heard from, was fast in an ice floe in the Gulf of St. Lawrence. The gale will probably break up the ice, and it would be almost impossible for the vessel to escape.

Historic Canes and Jewelry.

Montreal, Feb. 13.—An interesting feature of the banquet to Mr. Tarte was the presentation to that gentleman and to Hon. Dr. Borden of canes made from the wood of the sunken British gunboat Royal Savage, which went down in the Richelieu during the war of the revolution.

A fine jewel case had also been made of the same historic material, and Hon. Mr. Tarte said he would give this beautiful souvenir to Lady Minto.

Well Made and Makes Well

Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It entirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1; six for $5.

Hood's Pills cure all Liver Ills and Sick Headache. 25c.

HEROISM AND HEROISM.

The shoddy heroes created by thousands during the Spanish-American war—heroes by virtue of being in the way of a bullet or a mule's heels—are as nothing compared with the heroism developed at every big fire, and many a small one, by the unpretending fireman. No one who saw the great fire on Front street, Toronto, on Friday, will find any difficulty in giving the standing of heroes to the firemen who stood to their work under difficulties that would have appalled and repulsed the members of almost any other organization—civil or military. With the thermometer below zero, with a fierce, keen wind cutting like an invisible knife, with the intense cold turning the water to ice almost as it left the nozzle, and enveloped in blinding smoke, the firemen stood manfully and unflinchingly to their work. With hands so chilled that they automatically clung to the nozzles, with icicles hanging from their helmets, with clothing crusted deep with ice, with their feet benumbed, with their ears frozen, with their faces frost-bitten, with all these things to contend with they mannfully plied their work; heedless of all their suffering, discomfort and inconveniences, they fought the fire as persistently, as heroically, as if they had been working under the bland sunshine or tepid air of May. Such men, and, as a class they are generally alike, earn the title of hero far more deservedly than thousands whose names are blasoned in print, or whose effigies pitifully masquerade in public places as those of heroes. The lot of the fireman is not a happy one; he works in a humble sphere for niggardly pay—that is, comparatively, to the risk of life and limb he runs—impossibilities are demanded of him, and because they are not performed he is blamed and abused. He risks his life to save some ricketty tenement, and because it burns the fireman becomes anathema. The honour roll of heroes would be crowded if one-half of the deeds of daring, risk of life and unselfish devotion to duty incidental to a fireman's calling, which are common experiences of his life, were accepted as titles to enrolment as readily as the comparatively petty deeds of very common-place military characters. The world's standard of moral values sadly needs revision.

THE Mail and Empire calls Provincial Treasurer Harcourt's financial statement "a tale of woe." Of course it is. If it had showed the Province bankrupt, plunged into debt instead of having a big surplus of assets over liabilities and cash in the bank to the amount of $450,000, the Mail and Empire should have called it a "tale of joy"—from its point of view. The point of view makes a great difference.

VACCINATION, ITS IMPORTANCE SHOWN.

Late London papers report great growth in the movement having for its object the withdrawal of the so-called conscience clause inserted in the British vaccination act. There has been no uncertain sound in the expression of public opinion, and, as knowledge of the risk of permitting the conscientious objectors to evade vaccination is now disseminated among the masses, pressure is being brought to bear upon the Government. The City Press states that several metropolitan boards of guardians have passed resolutions calling upon the Government to take steps to release themselves from the grave responsibility assumed by their foolish concession to the fads of a few noisy agitators. The same paper adds:

"Possibly the clause will remain in force for a while, but it is very certain that before more than two or three years have passed we shall see the repeal of what ought never to have been placed on the Statute book. It remains to be seen whether the Government are wise enough to admit their mistake at once, or whether they will wait until the folly of the clause has been made apparent in a manner that even the agitators will be compelled to appreciate."

While dwelling upon this subject of vaccination, we take occasion to note that at a recent meeting of the Liverpool (Eng.) Health Committee, the medical officer of that city pointed to two exceptional circumstances justifying an order under the Vaccination Act authorising the vestry to keep open the vaccination stations. The first was that Liverpool had always been one of the best vaccinnated communities in the country, to which was due the remarkable immunity of the people from small-pox. The second exceptional circumstance was that Liverpool communicated with every quarter of the globe, and the possible introduction of the dread disease from any foreign port rendered the protection of the population by vaccination of vital importance. The Liverpool Health Officer expressed a belief that the freedom of that city from any serious ravages by smallpox is the outcome of the carefully organized system of maintaining vaccination stations to which the people had become accustomed, and the doctor further expressed the opinion that these stations were superior to any system of domiciliary vaccination. At the same meeting another speaker said that if the experience of Gloucester, where an outbreak of smallpox cost that city of 31,000 inhabitants $75,000, were duplicated in Liverpool, it would cost something like $1,500,000.

The doctrine of Cobden and Bright evidently does not extend to free trade in small-pox, against which, in Liverpool as elsewhere, no means of protection should ever be neglected.—Insurance and Finance Chronicle.

FEEDING PIGS.

It is impossible to raise swine successfully in large numbers without giving them skim-milk or butter-milk, or a good run of clover pasture when the young pigs are growing. During the winter time a quantity of clover hay, cut, steamed and soaked for three hours, is an admirable addition to the feed of growing swine. Where pigs are put in pens and fed on grain only from the time they are weaned, a large proportion of them will become sick and go off their feet before they are fully fattened.

Hogs should never be given more feed at one time than they will eat clean, and still have an appetite for more. Overfeeding keep the hogs from being active in taking exercise; and that causes them to grow too fat and soft. It is a good plan to feed as much as they will consume and digest to advantage. That will keep them hungry for every meal. Experienced feeders claim that regularity in the time of feeding will cause more rapid gain in weight than when there is irregularity even to the extent of one hour in the meal time.

THE NEW REGULATIONS.

The Cortege Was a Sumptuous One and the Crowds Were Great.

Havana, Feb. 13.—The funeral of the late General Calixto Garcia took place on Saturday, the entire population of the city turning out to do honor to the dead commander. For the first time since the American occupation of Havana, armed Cuban troops were permitted to enter the city in a body. The participation in the funeral by the American military and naval authorities added importance and dignity to the occasion, making a deep impression upon the populace. In the procession was the band of the Seventh Calvary Regiment, mounted, playing dirges. It was followed by four troops of the Seventh Calvary and six batteries of the Second Artillery.

Cuban Generals Are Hufed.

Havana, Feb. 13.—The Cuban generals and soldiers who were to take part in the funeral procession of Gen. Garcia withdrew on Saturday because they were not allowed to march between Governor-General Brooke and his staff. The incident has caused intense feeling among the Cubans, who, it is said, will probably appeal to the President.

Bott's Family in Distress.

Windsor, Feb. 13.—Nicholas Bott of Walkerville was sentenced by Magistrate Bartlett to 18 months in the Central Prison last September for embezzling about $900 from Walker & Sons. Since his incarceration, it is said, his family has been in destitute circumstances. For this reason a petition asking for his release is being circulated in Walkerville. It has been signed by the Walkers and many other prominent citizens.

Six Negroes Lynched.

Atlanta, Ga., Feb. 13.—A telephone message at midnight from Leesburg, Ga., says a mob took six negroes from the jail there late Saturday night and lynched them.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets All druggists refund the money if it fails to cure. 25c.

Beecher's Retort.

When Henry Ward Beecher was in Indianapolis, says The Sentinel, there was a store where the different ministers used to drop in to hear the news and try each other's metal with a joke. No matter how sharp the hit was, it was always given and taken in a friendly spirit.

On one occasion Mr. Beecher, while riding to one of the stations of his mission, was thrown over his horse's head in crossing a river and was thoroughly soaked. The incident, of course, furnished talk for the habitues of the store, and when he made his appearance the next day he was greeted by his good friend, the Baptist minister:

"Oh, ho, Beecher! Glad to see you. I thought you'd have come into our ways at last. You've been immersed, I hear. You are as good as any of us now."

A general laugh followed this sally.

"Pooh, pooh!" was the ready response. "My immersion was a different thing from that of your converts. You see, I was immersed by a horse, not by an ass."

A chorus proclaimed that Beecher got the best of the joke after all.

The Methodist preacher once said to him:

"Well, now, Brother Beecher, what have you against Methodist doctrines?"

"Nothing, only that your converts will practice them."

"Practice them?"

"Yes; you preach falling from grace, and your converts are always doing it with a vengeance."

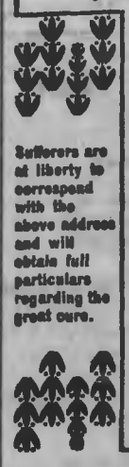
Rev. J. N. Vanatter, of Albion, Wis.

WRITES A LETTER ON DR. CHASE'S OINTMENT.



Sufferers are at liberty to correspond with the above address and will obtain full particulars regarding the great cure.

He says: My wife was most terribly afflicted with protruding piles, and contemplated a surgical operation. A friend of ours recommended the use of Dr. Chase's Ointment, and less than one box effected a complete cure. We were so pleased with the ointment that I tried it myself, as I have been troubled with an unsightly skin affliction which covered the lower part of my face.

For 25 years I suffered untold agony, and was treated by the best medical skill in the United States. I consider Dr. Chase's Ointment worth its weight in gold for piles and skin disease.

Dr. Chase's large-size recipe book, cloth-bound, sent to any address on receipt of 50 cents, by addressing Dr. Chase's Company, Toronto or Buffalo, N.Y.

MR. CHARLTON IN THE WEST.

He Spoke of Canadian and United States Trade Relations and Pleaded for Simple Justice.

Chicago, Feb. 13.—Mr. John Charlton, of the Canadian Parliament, and one of the Anglo-American commissioners, was the guest of honor at the annual banquet of the Merchants' Club of Chicago, which was held at the Grand Pacific Hotel on Saturday night. About 60 of the leading merchants and business men of the city were present, and Mr. Charlton's talk was greeted with much warmth. He spoke about "United States and Canadian trade relations." He concluded his speech with these words, which show the gist of the points he amplified in his address:

It is surely important that the two Anglo-Saxon states upon this continent should develop and grow side by side under conditions of absolute friendship and good feeling, and it is needless to claim that the greater of the two can afford to deal not only justly, but generously, with the smaller commonwealth at the north. I do not venture to suggest trade concessions, except to an extent far within the limits of what Canada might reasonably ask, as a recognition of our free, or lightly-burdened, admission of a great volume of American products, but I assert that the free admission of forest products and a reasonably important list of agricultural products, would be a simple bit of justice to Canada, would promote good relations between the two countries, and would not be injurious to any interest in the United States, and would, on the contrary, effectually promote the interests of both in the same manner that trade between the various States of the American Union, unhampered by restrictions, has been found, in the experience of more than a century, to be in the highest degree advantageous to the interests of all sections and classes.

MR. SIFTON TAKES POWER.

The Minister of the Interior Will Grant Copper Mining Locations.

Ottawa, Feb. 13.—The Minister of the Interior has taken power to grant copper mining locations in the Yukon District. Each location will be 160 acres, and a fee of $30 will have to be paid to the gold commissioner or recorder for making entry of the same. In regard to the regulations to search for gold in submerged rivers, it is now provided that the lessee shall have at least one dredge in operation upon the five miles of river leased to him within one season from date of his lease, or the Minister can cancel the same. In the case of a company who have more than one lease there must be a dredge for every 15 miles. A rental of $1 per annum for each mile will be charged.

ALARM AT BLUEFIELDS.

British Cruiser Intrepid Despatched in Hot Haste From Jamaica.

Kingston, Jamaica, Feb. 13.—In response to a very alarming appeal from Bluefields, Nicaragua, by cable, via Colon, Colombia, the Governor of Jamaica on Saturday despatched the British second-class cruiser Intrepid at full speed to Bluefields, with instructions to protect British interests there. The report received here says that General Reyes, the Governor of that part of Nicaragua, has started a revolution along the whole department of the Atlantic, which involves practically all the foreign merchants and residents. The situation is said to have developed alarming complications, needing the presence of warships to protect foreigners and their property.

His Life Was Saved

M. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1.00, at any Drug Store; every bottle guaranteed.

WHO WANTS A HOME

The undersigned has some Building Lots in a desirable location, within 100 yards of the South Central School; near churches and close to the Canadian General Electric Works He is prepared to build a house and sell it on the monthly payment principle. Call on or address R. SHERRY, 223 Perry St. dw

RAPS FROM THE TELEGRAPH.

Many Minor and Some Important Matters of Interest.

The nominations for the New Brunswick provincial elections took place on Saturday.

Leo XIII. will enter upon the ninetieth year of his age on March 2, and the 22nd of his supreme pontificate Feb. 20.

William J. McHarg, a clerk in the London, Ont., postoffice, is under arrest, charged with stealing money letters.

The steamer Moran, caught in the ice in Lake Michigan, is believed to have been wrecked. The crew, it is hoped, were taken off by the steamer Naomi. The vessel was valued at $35,000.

Mrs. Daniel O'Hearn of London, Ont., was severely burned in her home on Saturday. Her clothes caught from the coal stove. Her condition is critical from the fact that she is past 70 years of age.

Eighteen magnificent specimens of wild Canadian trout have been added to the New York Aquarium. They are the gift of H. J. Beemer of St. John's, and were caught several weeks ago in Lake Edward, 100 miles north of Quebec.

Andree's brother does not believe the bones found in Siberia were those of Prof. Andree and his companions. He says the locality is cultivated and that under such circumstances it is incredible that they should have lain there a year and a half without discovery.

At Albany, N.Y., Saturday night a $70,000 fire occurred, at which one life was probably lost and a solid block of buildings gutted. The Hudson River Garment Company, employing 150 girls, and Anthony & Gledhill, manufacturers of mattresses, lose $40,000. E. E. Mack slept in one of the buildings and is believed to have perished in the flames.

Mr. Hugh Ryan, the well-known contractor, died at his residence in Toronto Monday morning at 1 o'clock. Though Mr. Ryan had been ill for some time his demise was unexpected. Mrs. Ryan and her daughter were the only members of the family present when the end came. Mr. M. J. Haney, who was associated with deceased in many contracts, was present also.

According to Mr. Conmee, M.P.P., an effort will be made to induce 1,000 of the Russian Doukhobors who are coming over in the spring to settle in the valley of the Kaministiquia and White Fish Rivers. The Ontario Government is willing to build shelter huts and roads for the immigrants and the country is well timbered. There will be a chance for those without money to earn some by working on the Ontario & Rainy River Railway.

The Department of Agriculture has published a bulletin on fruit pulp. A careful investigation has been made by the department during the past year and the fruit men are expected to benefit by it and to ship to Britain large quantities of the fruit pulp from which jam is made. The bulletin concludes that there might be a good opening for black currants, green gages, apricots and strawberry pulp. Rosberry pulp brought as high as £50 to £60 per ton last year.

PECULIAR POISONS

GENERATED IN THE HUMAN BODY.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of death (called by scientists Ptomaines.) are usually the result of imperfect digestion of food, the result of indigestion or dyspepsia.

The stomach, from abuse, weakens, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay), poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain, causing headaches, and pain in the eyes.

Bad digestion weakens the heart, causing palpitation, and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's Disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products: the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure any form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first. A little book on stomach disease mailed free. Address Stuart Co., Marshall, Mich.

How Old She Looks

Poor clothes cannot make you look old. Even pale cheeks won't do it.

Your household cares may be heavy and disappointments may be deep, but they cannot make you look old.

One thing does it and never fails.

It is impossible to look young with the color of seventy years in your hair.

Ayer's Hair Vigor

permanently postpones the tell-tale signs of age. Used according to directions it gradually brings back the color of youth. At fifty your hair may look as it did at fifteen. It thickens the hair also; stops it from falling out; and cleanses the scalp from dandruff. Shall we send you our book on the Hair and its Diseases?

The Best Advice Free.

If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system, which may be easily removed. Address,

DR. J. C. AYER, Lowell, Mass.

DRIVE OUT AMERICANS

Is Said to Have Been Gist of Agoncillo's Cable to Aguinaldo.

FILIPINOS' SIDE OF THE STORY.

They Allege Treachery on the Part of Gen. Otis and the Americans in the Philippines—The Insurgent General Said to Have Been Always for Peace — Agoncillo's Argument.

Washington, Feb. 13.—A despatch from General Otis, received at the War Department from Manila, dated yesterday says:

Adjt.-General, Washington:

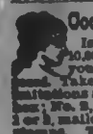
Reported that insurgent representatives at Washington telegraphed Aguinaldo to drive out Americans before arrival of reinforcements. The despatch was received at Hongkong and mailed to Malolos, which decided on an attack to be made about the 7th instant. Eagerness of the insurgent troops to engage precipitated a battle. Very quiet to-day on line from Caloocan on the north to Panay, on the south. Yesterday a small reconnoitering party 12 miles south of the city was fired on and two men were slightly wounded. Two insurgents with arms were captured. The affair of the 10th, by MacArthur division, was very successful. Enemy's loss considerable; have collected 70 dead Bossetis. More not yet discovered. Insurgents reported to be gathering in force 12 miles north on railway, but evidently perplexed.

THE FILIPINOS' SIDE.

The Other Side of the Story of the Fight Between the Americans and the Filipinos at Manila.

London, Feb. 13.—The European Filipino Junta has received a long telegram from Agoncillo, the agent of Aguinaldo, dated from Montreal, and declaring that he left Washington in consequence of a telegram which he received on Feb. 4 from Aguinaldo, urging him to cable the Malolos Government the result of the vote of the U.S. Senate on the peace treaty. Aguinaldo, it appears, added: "It is of the most urgent importance that we should at once be acquainted with the decision as we are negotiating with Gen. Otis, and the vote will vitally affect the negotiations." Agoncillo also says he was persuaded the treaty would not be ratified, and pointed out that "the three votes by which it was passed were only obtained at the last moment, as the result of the outbreak of hostilities." The telegram concludes: "The Filipinos were anxious to maintain friendship with the Americans, and had formally decided never to be the aggressors."

Several despatches have also been received here from Filipino sources, dated from Manila, via Hongkong, and giving the rebel version of the outbreak of hostilities. One of these says:



Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other, as all Mixtures, pills and imitations are dangerous. Price, No. 1, $1 per box; No. 2, 10 degrees stronger, $3 per box. No. 1 or 2, mailed on receipt of price and two 3-cent stamps. The Cook Company, Windsor, Ont. No. 1 and 2 sold and recommended by all responsible Druggists in Canada.

No. 1 and No. 2 Sold in Peterborough by John Nugent Druggist.

"On Sunday a force of Americans attacked simultaneously Caloocan and Santa Mesa. Two American warships were off Malabon and Malate, and a smaller gunboat was in the Pasig River to protect the American flank.

"For several days previously the Americans had been endeavoring to provoke hostilities, and peace was maintained only by the rigorous order of Aguinaldo, who was negotiating with Gen. Otis for an honorable understanding. The American attack was unexpected. The ships destroyed all the villages between the shore and the Pasig River, within an area between Malate, Paranaque, San Pedro and Mocati.

"Crossing the river the Americans advanced to San Juan del Monte, capturing the waterworks after a severe fight. Then they proceeded to Singalon, and established themselves on the river dam. They tore up a mile of the rails of the Caloocan-Malolos line, and cut the telegraph in order to stop communication with Aguinaldo.

"The Filipino forces engaged only numbered 7,000, including 1,000 Ygorotes. Acting upon instructions from Malolos, the Filipinos remained strictly on the defensive and finally retired in good order, without any loss of arms, artillery or ammunition. Two old Kruppe of an obsolete pattern, mounted on the fortress of San Antonio, were captured. The fighting was very stubborn and lasted continuously from Saturday to Tuesday.

"General indignation has been occasioned by the treachery of the American surprise. The Filipinos believe that the Yankee Administration is only favored by a minority of Americans, and only abstain from taking the offensive in order to show their gratitude to the American nation for helping them to get rid of Spanish rule. Hence, they will only fight when attacked, and their future action depends upon the decision of the United States.

"Aguinaldo declares that the real enemies of peace are the American officers in the Philippine Islands.

"The Filipino loss to date is 1,050 killed and wounded, including 600 Ygorotes, who were barbarously mowed down, even when the Americans saw they were only armed with bows and arrows. They fought with heroic courage. The American dead includes one colonel, 46 other officers and 195 rank and file, over 500 wounded, and 300 prisoners. Gen. Otis proposed an exchange of prisoners, and to this the Filipinos agreed, paroling the prisoners.

"The Filipino forces south of Manila are concentrating at San Mateo, Antiope and Cainta, whence they will besiege Manila. The Americans are now fixing the limits of their sphere of occupation. It will extend all along the coast, from Paranaque to Malabon, on the shore, and from Caloocan to Mainbunga and Malate.

"Inform the American Senate and Congress of these events, and tell them the Filipinos are friends of the Americans, but will fight against military despotism.

"Agoncillo, the Filipino delegate, will ask for European intervention in the interests of peace. In the meantime the Filipinos will fight.

"Aguinaldo is on his way here. He will reoccupy the lost positions, organize a guerilla warfare and commence a general attack.

"The Government and Congress of Malolos are acting as usual, and have passed a vote of confidence in Aguinaldo."

Notes From the Philippines.

By the dropping of shells from the monitor Monadnock and the cruiser Charleston into the rebel camp between Caloocan and Malabon on Saturday 50 Filipinos were killed. The Americans had one killed and ten wounded.

The heat on Saturday knocked out more Americans at Malabon than the Filipino bullets.

John F. Ross, Harper's Weekly's artist, was shot in the arm during the fighting near Manila.

The Filipino Junta at Hongkong has issued a statement which says that the American version of the fight is utterly false, and that the hostilities were commenced through the treachery of Gen. Otis. They further say that 4,000 defenceless women and children were killed by the bombardment of the defenceless towns of Malate, Santa Ana and Malabon.

ARGUMENT OF AGONCILLO.

He Reasons in Favor of Aguinaldo Because Commissioners Arrived.

Montreal, Feb. 13.—Being interviewed on Saturday in reference to the San Francisco despatch announcing the arrival at that city on Friday of Gen. T. Riego da Dios and Senor M. Riveira, Aguinaldo's commissioners to Washington, Agoncillo said that their presence on this side of the water was another proof that the Filipinos desired honorable dealings with the United States in the present crisis. It was another indication that Aguinaldo never intended to harass or embarrass the American army at Manila or provoke a conflict with the American forces. It was another proof that the trouble of the past week has not been precipitated by Aguinaldo, who all along has desired to treat with the Americans on a fair and honorable basis.

FROM ENGLISH SOURCES.

10,000 Filipinos Put to Flight in the Capture of Caloocan.

London, Feb. 13.—A despatch to the Reuter Telegram Co. on Saturday, describing the capture of Caloocan, says: "The rebels, estimated to have numbered 10,000 men, were demoralized by the shells. The Americans advanced in open order. At 500 yards there was a halt and then a charge, and the rebels stampeded from their trenches, which were admirably constructed. The Americans refrained from wasting ammunition, but rushed on without firing, and used their bayonets and the butts of their rifles. There was heavy slaughter.

"The Filipino agents say the Americans plied vessels along the shores of the bay and commenced hostilities unexpectedly at midnight on Saturday, simultaneously bombarding the defenceless towns of Pendo, Malate and Malabon.

Women Were Killed.

"The agents of the rebels also say: 'The slaughter of women and children was frightful, the Americans burning and devastating all before them, conducting a war of extermination and shooting every Filipino.' Finally, the agents of the Filipinos declare their intention of 'appealing to Christendom,' and their indignation against the Americans is intense."

SOME WORD ORIGINS.

Curious Customs and Notions Embalmed In Current Terms.

The "hypocrite" once was only an actor, the player of a part on the stage. So the orator, who was a consummate actor, was also a hypocrite. The word, even in old Greek, soon was applied to any dissembler because the life of such person was found to resemble the histrionic art in striving to appear different from what it really was. The English language took it up and the moral judgment of the English speaking people makes it carry the heaviest weight of odium that can be attached to personal character. "Pretend" was once an innocent word, and "counterfeit" simply meant imitation, conveying no suggestion that the imitation was to be fraudulently substituted for the original.

The "boor" was originally a husbandman, and the "villain" was only a laborer or peasant attached to the villa or farm. "Heathen" meant merely a dweller on the heath, and a "pagan" was a dweller in the open country. "Idiot," a Greek word, meant only a private person as distinguished from one clothed with office, and in this primary sense it was often used in English of two centuries ago, as when Jeremy Taylor said, "Humility is a duty in great ones as well as in idiots." "Obsequious" was used formerly only in relation to funerals. Shakespeare has many examples of the word applied in this sense. It does not seem formerly to have conveyed any idea of cringing or insincerity. For the curious in the matter of the origin of words we present a few of another class. A "milliner" was originally a man and was so called from Milan, whence he imported female finery. Shakespeare says, "He was perfumed like a milliner," and Ben Jonson settles the question of the sex of the original milliners in the words, "To conceal such real ornaments as these and shadow their finery as a milliner's wife does her rough stomacher with a smoky lawn or black cyprus."

"Nicotine" is derived from the name of John Nicot, who introduced tobacco into France in 1560. "Paraffin" was so named from the Latin words "parvum" (little) and "affins" (kin), because it had little affinity with any known substance. "Poltroon" is from the Latin "pollex truncato" (deprived of the thumb), it having been a common practice among the Romans to avoid service in the wars; hence our word poltroon for coward. The "turkey" is an American bird, not from Turkey at all, though it was said to be from Turkey when it was first seen in London.—Pittsburg Dispatch.

MR. HOUSE, OF BERLIN

Cured of Lumbago by Dodd's Kidney Pills.

Berlin Feb. 13.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past. Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Back-ache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

THE ODORLESS
CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,

JAMES CONWAY.

Shedden, February 28th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long felt want and I believe it will become very popular especially in rural districts, towns and villages where wells are so frequently contaminated by the ordinary closets. I am, yours, etc.

W. H. MORRISON.

Medical Superintendent's Office, Sept. 30th, 1897. Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 30 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once, before it has a chance to vitiate the surrounding atmosphere.

Yours truly. JAMES RUSSELL, M.D.

Elmbrook, Sept. 30th, 1897.

Dear Sirs—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country homes. Yours truly,

M. J. MULLOCK, M. D.

WANTS

More wants are supplied, and supplied more quickly by means of THE EXAMINER want columns than in all other ways combined. THE EXAMINER is the popular paper read by all. It is the recognized medium for the supply of wants.

A Word About Pianos.

It is only a question of price that arises when selecting the best piano.

Sixty years of experience tells us that the public more than ever, is tired of the common thump box and wants musical quality in piano tone.

Whilst the NORDHEIMER is the highest grade piano manufactured in Canada, remember it is the cheapest in the long run. Its tone is the sweetest, retaining always that peculiar vocal quality combined with great endurance, which strong reasons have made it the choice of all lovers of the beautiful in music.

Easy terms arranged.

Illustrated booklet mailed free on application.

Caught By The Wheels

Mr. John McDonald is suffering from the effects of an accident recieved in the C.P.R yards on Thursday whereby his heel was caught under the wheels and badly crushed.

The Money Was Found.

On Saturday last a newsboy lost a two dollar bill, representing to him quite a fortune. He told his loss to the EXAMINER, and that evening an advertisement was inserted regarding it. The money was found and promptly returned by Miss Aileen Donoghue, daughter of Mr. Daniel Donoghue, Simcoe street.

Lecture on Old Trinity.

The travelling secretary of Trinity University will give an illustrated lecture this evening in St. John's school house at 8 p. m. The lecture will be illustrated by splendid limelight views under the direction of Mr. R. M. Roy and will be open to the public free of all charge, a collection being made to meet the expenses incurred.

The C.L.A. Minstrels.

The Catholic Association instead of holding a literary evening this Monday night will branch out into minstrelsy, and have prepared an evening's programme of solid fun, which is guaranteed to drive away la grippe and all manner of blues. Six end men will crack jokes fresh from the oven, and the solos and choruses are the very latest—in fact, later than the latest. Everything will be clean, bright and sparkling, and you won't require a telescope to see through the jokes. Don't forget Monday night in Catholic Association rooms. Admission 15 cents. ws

Daughters of England Night.

The annual tea and concert of the Daughters of England comes off Tuesday night, February 14th, (St. Valentine's Day) in the Sons of England hall. Tea served from 5.30 to 8 o'clock, followed by an excellent musical and literary programme by local talent. Sons and daughters, for your life don't miss it! Costs you only 20c. admission, and the children 10c. You know what a good time you get at this annual event. 3d

A Favourite in Her Favourite Town.

Miss Ethel Webb has, for the third time, been engaged for the concert and recital to be held in Charlotte street church next Monday evening, February 13th. Miss Webb is, undoubtedly, a favourite in Peterborough, and Peterborough is one of her favourite towns. There can be no doubt about the success of the entertainment under such happy circumstances. She is to be assisted by Mr. Graham Hodgson, the possessor of a fine tenor voice, of great power, large range, and of a silvery quality. The tickets are 15c. each, two for 25c. 3d

Have You Had La Grippe?

If so, nature wants a helping hand out of the trouble. Convalescing men and women need a suitable stimulant or tonic to put back the snap that has been taken out of them. For some, a good bodied ale or porter, like Copeland's, is highly recommended. Others are advised to use a fine rich port or sherry wine. While for elderly men pure whiskey is the best. Messrs. Henry & Co, Wine and Liquor Merchants, can supply any of these in well matured condition for medical purposes at moderate rates. HENRY & Co.

CHARLOTTE ST. CHURCH ANNIVERSARY SERVICES.

SERMONS BY REV. E. ROBERTS, FORMERLY OF TOWN

The Evening Sermon Addressed Especially to the Young—The Services Were Supplemented by Special Music.

Anniversary services were conducted in the Charlotte street church yesterday by Rev. E. Roberts, Omemee, who formerly was in charge of the Bible Christian church on Murray street before the union with the Methodist bodies.

Mr. Roberts is still possessed of the earnestness and fluency which marked his sermons years ago, and his address yesterday commanded the closest attention.

In the evening he spoke from the text, "And that from a child thou hast known the Holy Scriptures, which are able to make thee wise unto salvation through faith, which is in Christ Jesus."—II Timothy, iii ch., 15 v. In opening the speaker stated that when a man attained celebrity for nobility or usefulness in any department of human life, people generally became deeply interested in seeking information as to his birth, the efforts he had put forth to aid himself and all other details of a similar nature.

Especially were the young interested in such inquiries, knowing that what man has done man can do. Biographies unfold to us the possibilities of human life.

IN ST. PAUL'S EPISTLE

we find something said about Timothy and something said about his life, which is worthy of consideration.

St. Paul was at Antioch in Syria, having been set apart to go into Asia Minor on his first great missionary journey. The boy Timothy was found and made a convert to Christianity. Seven years later St. Paul, now on his second missionary journey, finds the young man still faithful to the trust and chose him to be an associate in the great work, regarding him thenceforth as his son. He gives Timothy much excellent advice, a portion of which is contained in the evening's text.

Just in proportion as advice is given to the young people we are conferring upon them the highest possible good.

There are some great truths contained in the text, the first of which is that of all the knowledge a man can acquire that which makes him wise unto salvation is the most important and the most valuable. An individual cannot possess too much knowledge, no matter to what department of life it may refer. Of all the knowledge an individual can possess, that which enables him to procure his own salvation must be the most valuable.

The natural tendency of man is towards evil and we have all come

UNDER THE CONDEMNATION

of the Almighty. If there is a way to escape this condemnation is not that knowledge of the greatest possible importance? Of all the sources from which this knowledge can be obtained none can be compared to the Holy Scriptures, although the tendency of the press of the day is to raise the moral tone of the community and much good can be accomplished through this medium.

Of all the periods in human life in which this knowledge may be acquired most easily is when we know it in our early youth. God's arrangement for everything is for the best. Whilst He is desirous of saving everyone, still He is more anxious to save those who will do the most good, and the Scriptures, therefore, contain much counsel for the young. Jesus, the teacher of the world, meets the young with these words: "Seek ye first the Kingdom of Heaven and His righteousness and all these things shall be added unto you."

Special music was rendered at both services, Mr. W. Graham Hodgson assisting. Mr. Hodgson has a mellow tenor voice containing many pleasing qualities and his numbers were quietly enjoyed. In the morning he sang "He Wipes the Tear from Every Eye," and at night again "Fear Ye Not O Israel" and "Wandering Child, Come Home." The morning anthem by the Choir was entitled "Give Thanks, O be Joyful" the duet even well taken by Miss Florence Hall and Miss Stevens. In the evening Mr. Skitch took the bass solo in the anthem, "The King of Love my Shepherd Is." The tenor soprano and alto voices sang a trio part in this anthem in a manner which is especially worthy of favourable mention.

STRETCHING WESTWARD.

Boundary Creek to the Front.

The William Hamilton Manufacturing Company, manufacturers of mining machinery, etc., is showing a good deal of enterprise in opening a branch office at Greenwood, B. C., in order to be right on the ground to take advantage of the big development now begun in the Boundary Creek country.

LAID AT REST.

Funeral of the Late Bridget Cronin.

The funeral of the late Bridget Cronin, daughter of Mr. John Cronin, who passed away on Wednesday, took place on Saturday, and, considering the intensely cold weather, was very largely attended. Solemn requiem high mass was sung at St. Peter's cathedral by Rev. Father O'Sullivan. An evidence of the high esteem in which the deceased young lady was held was afforded by the many offerings of flowers made on the occasion, including a beautiful basket of white roses and smilax, contributed by the staff of Miss Mercier's dressmaking establishment.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this morning, as well as the highest and lowest yesterday—shade temperature:—

To-day, 7 a. m. .... 13° below zero

	Highest.	Lowest.
Yesterday	5° above	16° below

Up-to-Date Photos.

FROM MAKER TO WEARER

Grafton & Co. clothing stands at the head—we claim it, you can prove it—it is "away from the ordinary clothing"—it's attractiveness is backed by quality and it's tailored without a fault—better clothing you have never bought. See our clothing, no trouble to show goods. GRAFTON & CO, Manufacturers.

GOING TO MONTREAL.

The Co-operation of the Board of Trade and Chamber of Commerce to be Enlisted, if Possible.

Mr. John Carnegie, Mr. D. W. Dumble, Mr. Wm. Boyd, Mr. R. B. Rogers and Mr. J. R. Stratton, M.P.P., will, on Friday evening, address the members of the Montreal Board of Trade and the Chamber of Commerce, pointing out the advantages accruing to Montreal from the completion of the Trent Valley Canal.

The deputation will leave for Montreal on Wednesday. The Minister of Public Works and the Minister of Railways and Canals have been invited to be present and hear the arguments advanced.

THE COLD "SPELL."

A Phenomenal Period of Continued Low Temperature — A Break in Sight, However—Mild Weather by Wednesday.

People are shiveringly saying, "How long is thing to last?" and many are wondering how long the present series of cold snaps has been at work. The usual continuance of previous cold spells has been three days, but for almost three times three on the present chilly occasion the thermometer has been below zero, especially during the night. Since, and including, Monday February 6th, the thermometer has been below zero every night, and the highest it has risen during any day was on Monday, when it reached as high as nineteen. Friday was our champion cold day, the thermometer never rising higher than 5 degrees below zero during the day, and falling to 18 degrees below at night. The following table since Monday, Feb. 6th, inclusive, will be of interest:

	Highest.	Lowest.
Monday	19 above	4 below
Tuesday	12 "	9 "
Wednesday	16 "	1 "
Thursday	9 "	3 "
Friday	5 below	18 "
Saturday	1 "	15 "
Sunday	3 above	16 "
Monday		13 "

But a break in the procession of cold days is in sight. At noon to-day the thermometer had risen to 3 degrees above zero and the probabilities are that Tuesday will have a still higher temperature and that Wednesday will be mild—so mote it be.

The sufferings of the poor must have been intense the past ten days, with rickety buildings, with the blistering cold piercing through a thousand crannies, with insufficient fuel, with lack of bed and other clothing, their suffering has been beyond computation. And possession of fuel has not been an unmixed blessing. Fires have been so forced as to set buildings ablaze and the record of fires over the country has kept pace pretty closely as compared to other periods with unusual prolongation of intense cold.

Volcanic Eruptions

Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them; also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains, Best Pile cure on earth. Drives out Pains and Aches. Only 25 cts. a box. Cure guaranteed. Sold by all druggists.

Valentines! Valentines!

Pretty, artistic and tender messages from Cupid's arrow, as well as comic and curious. New ideas in verse and prose. Come in and look through our interesting display of valentines for this year. All interested will be pleased and amused. A. H. STRATTON & Co.

OFFICERS ELECTED OF THE Y. W. C. A.

THE BOARD DECIDES TO TAKE A STEP FORWARD.

A General Secretary Will be Engaged to Take Charge of the Work Amongst Young Girls.

The regular meeting of the Board of Management of the Young Women's Christian Association was held on Saturday evening and was very largely attended.

A great deal of interest was manifested in the proceedings and the members decided to take a step forward by engaging a general secretary to do the outside work amongst the girls, for which the Association was primarily organized, it being found that the matron could not possibly undertake this work and also discharge her duties in the Home.

The election of the Board for 1899 resulted as follows:—Mrs. (Dr.) Hunter, Mrs. Stewart, Mrs. Beck, Mrs. Walsh, Mrs. (Dr.) Ball, Mrs. C. McGill, Mrs. (Dr.) Scott, Mrs. McPherson, Mrs. (Dr.) Barnham, Mrs. A. L. Davis, Mrs. (Dr.) Young, Mrs. Jory, Mrs. Deanistoun, Mrs. H. P. Kennedy, Miss Nicholls, Miss Forsythe, Miss Morrow and Miss Halliday.

The following officers were then elected for the term:

President—Mrs. (Dr.) Hunter.
1st Vice-President—Mrs. Stewart.
2nd Vice-President—Mrs. Beck.
Secretary—Mrs. H. P. Kennedy.
Treasurer—Miss Halliday.
Devotional Committee—Miss Forsythe, Miss Roberts and Mrs. H. P. Kennedy.
House Committee — Mrs. McPherson (convenor), Madames Walsh, Stewart, Beck, Innes, Jory, Miss Forsythe.

It was decided that regular meetings be held on the second Thursday in each month, and that punctuality be observed in the opening and closing of all meetings.

The meeting closed with prayer.

A Narrow Escape.

Thankful words written by Mrs. Ada E Hart, of Croton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My Husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Sold by all druggists. 50 cts. and $1.00. Guaranteed or price refunded.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 26 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

The Band at the Rink.

RICHARD HALL & SON, DIRECT IMPORTERS, 130-134 SIMCOE ST.

Aggressive Merchandising.

We quote no prices to-day, but instead will speak of General Plans for the future. We have found our store as occupied for the fall—too small both for our **Stock for Spring** and for our **Increasing Business.** This has necessitated the taking down of the partition in rear of store, adding some twenty feet to our shelving and counter space. This will be converted into a **Ladies' Whitewear and Corset Department.**

Another improvement for Spring will be the **Opening Up of our Third Story** and the **Running of our Handsome Elevator.** This has become a necessity and will give us a very handsome room for **Carpets, Lace Curtains, Curtain Poles, Blinds, Mattings, Etc.** Our Lace Curtain stock alone will comprise **1,000 Pair,** bought direct from Old Country manufacturers.

In all departments stocks will be almost **Doubled** and in almost every case bought **Direct from the Makers.**

Our first **Whitewear Openiug** will take place next **Thursday Evening, Feb. 16th,** from 7 to 10. Please bear the date in mind.

Particulars in Tuesday's papers.

MONDAY, FEBRUARY 13, 1899.

PERSONAL

Miss Needler, of Lindsay, is visiting friends in town.

Mr. Ed. Knowles spent Sunday in town with his parents.

Mr. J. R. Stratton, M.P.P., went to Toronto this afternoon.

Mr. Dickson Davidson is still confined to his home through an attack of pleurisy.

Mr. J. M. White left for Pontypool this afternoon on a business trip. He will return to-night.

Mr. Roland Waddell has been visiting friends in Lindsay for the past few days.

Mr. John McKee was in town over Sunday renewing old acquaintances. He leaves for Ottawa to-night.

Mr. and Mrs. Daniel O'Connel will be at home Thursday and Friday, Feb. 16th and 17th, at 15 Gilmour street.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The Chief of Police has a door key which was picked up yesterday on Hunter street.

—Chief Bell and Constable Reeves have been asked to resign their positions on the Lindsay police force.

—A runaway from the corner of Hunter and George streets created quite an amount of excitement this morning.

—An official of the Grace Church Sunday School makes the statement that that Sunday school lost nothing by bad boys as stated in Saturday's Police Court reports, and that the parties accused do not belong to the school.

RESOLUTION OF CONDOLENCE.

The County Orange Lodge Condoles With the Widow and Family of the Late Richard Waram.

At the annual meeting of the County Orange Lodge for West Peterborough, held on Tuesday last, the following resolution of condolance, moved by Bro. Christopher Quinn, seconded by Bro. Robt. Weir, was unanimously adopted:—

Whereas it has pleased Divine Providence to remove from our midst, by death, our late venerable and esteemed Past County Master, Bro. Waram:

Be it therefore resolved that this County Orange Lodge take advantage of this—the first—opportunity to convey to the sorrowing members of his bereaved family our heartfelt condolence in the hour of sore trial.

That having been so long associated with and known by us, we can bear testimony to his many excellent qualities of head and heart, and realize tha in this dispensation our Order has lost the benefit of a mature and well-seasoned judgment, and of a consistent brother, who thought not lightly of his obligations, but endeavoured to live them in his daily walk in life. It is, therefore, with the more intense feelings of sympathy we are able to join with his bereaved relatives in what is our common loss, and we trust that the consistent life he led may become a pattern to us and a great solace to his family in their sad bereavement.

And that this resolution be engrossed and forwarded to our late brother's widow.

UNANIMOUS INVITATION

To Rev. J. E. Moore to Remain a Third Year at the Mark street Church.

At the regular Quarterly meeting of the Quarterly Board of the Mark street Circuit held on Saturday afternoon at the Mark street church, it was unanimously decided by the representatives of the three appointments to invite Rev. Mr. Moore to remain a third year with them. Mr. Moore has been very faithful and successful in his work on this circuit, and the unanimous invitation to remain shows that his efforts are appreciated. Many decided improvements have been made since the present popular pastor took charge.

FIRST SIGN OF SPRING!

An advance shipment of the Newest Neckwear just arrived at our store this morning.

THEY ARE BEAUTIES—We have them in four shapes, viz., Puffs, Ascots, Lombards and Derbys.

If you see them you will purchase one. Good colours for cold weather and very suggestive of spring.

A. Mercer & Co.

CHURCH CHIMES FROM ALL SOURCES.

NOTES OF INTEREST ON THE SUNDAY SERVICES.

Items Gathered From the Various Local Places of Worship.

Mr. J. Crane gave a very fine rendering of "One Sweetly Solemn Thought," in St. Paul's yesterday.

Mrs. Hunter's solo in the evening anthem in the Murray street church last evening was very sweetly sung.

During the offertory in the George street church last evening the unaccompanied chorus, "Follow Me," was rendered with much expression by the choir.

A trio composed of Mrs. Dr. Scott, Miss Hutchinson and Mr. Martin sang "My Saviour comfort me" in good voice last night in the Murray street Baptist church.

In the evening at St. John's the sermon was preached by Rev. Jos. Fennell, who has been a visitor at Peterborough for the last fortnight, on "Sin and its Forgiveness."

The anthem "Saviour breathe an evening blessing" was very nicely rendered by the choir of All Saints last evening, Miss Brundrette taking the alto solo in good voice.

"Saviour, Whom I Fain Would Love," was the title of a pleasing anthem given last evening in St. Paul's church. Miss Mary Patterson and Mr. Jas. Dawson took the solos in a most acceptable manner.

A sermon delivered on the subject of "The Lost Silver Pieces" by Rev. Dr. Torrance yesterday was greatly appreciated by the congregation. It was one of a series, the first being on "The Lost Sheep."

"Lead me gently Home" was excellently sung by Mr. Ed. Knowles in St. Andrew's church last evening. Mr. Knowles is always heard with pleasure in Peterborough, as his voice is particularly pleasing.

Rev. O. C. Elliott has returned from Belleville, where he has been conducting most successful evangelistic services for the last two weeks. He occupied his own pulpit yesterday, and towards the close of the month will begin a series of special meetings in connection with the Park street church.

The pew ordinarily occupied by the late Mrs. W. D. Parker was appropriately draped and bore a handsome floral cross yesterday, and an appropriate hymn expressed the sorrow of the congregation among whom she had worshipped only the Sunday previous. Mrs. Parker was a devoted worker in St. John's congregation, and will be greatly missed.

Rev. J. E. Bastow, pastor of Murray street Baptist church, spoke last evening from the text "My yoke is easy and my burden is light," being the same as formed the basis for his discourse of a week ago. On that occasion he pointed out how easy it was to become a servant of Christ, whilst last evening, continuing along the same line of thought, he dwelt on how easy it was to remain in the service, illustrating his remarks by many instances which had come under his personal observation.

ST. JOHN'S CHURCH.

At St. John's church yesterday the sermon in the morning was preached by Rev. G. F. Davidson, travelling secretary of Trinity University, on the subject of the observance of Lent, which he spoke of as a valuable time for asserting the supremacy of man's higher nature and acquiring spiritual strength. A systematic effort should also be made to acquire religious knowledge, which is often pushed out by secular activities. In connection with this the speaker dwelt on the position and claims of Trinity University, which had been established to keep up a healthy union between secular and religious training. After all the religious knowledge necessary for the battle of life could not be satisfactorily obtained in the Sunday school room, and it had been eliminated from our school system. Trinity was established to remove this defect. It was not a mere divinity school or in any sense a party institution, but was controlled by the Church of England in Ontario. As such it had a claim upon every churchmen and all who believed in the cardinal principle—the union of secular and religious education.

Yesterday afternoon Rev. E. V. Stevenson discussed Christianity and Socialism: In view of the many schemes for the benefitting and uplifting of the classes it is well that we should consider some of the principles of the systems. All differed in their ideas as to what course was to be pursued, but all went to indicate the extremes and inequalities in society as at present constituted. The church should be a leader in such movements because primarily that was the purpose of the kingdom of God. To better times the Jews looked forward to the establishment of the ideal kingdom. Jesus, quoting the words of Isaiah, announced that the fulfilment of the ideal was at hand.

And then again, if the Christian Church offers no salvation for existing social evils there will come a salvation from another source, which will not be to the advantage, but to the danger, of society.

Communism was a theory advanced to remedy extant evils. It was claimed by the supporters of Communism that the Church was once communistic. This was a mistake. Then again Nihilism and Socialism advanced their theories for the solution of the difficulty. and people have been in the habit of confusing the Socialist with the Anarchist. He is the big opposite. The Anarchist says freedom means no law—human or Divine. Man in his perfection is be a law unto himself. The Socialist says control and direction for the best interest not of the individual—but of the race. The Socialist regards himself not as an isolated unit; but as an intricate portion of the great human family. We cannot do without one another in life. Our interests are common interests. Welfare of one means the welfare of the whole. If you consider the conditions of life to which Jesus addressed His principles, you will realize that Jesus was not only a social reformer but a social revolutionist. Yet he never spoke a word against the acquisition of wealth in itself. He did speak against the hoarding of wealth for wealth's sake—for selfish gratification and in forgetfulness of others—e.g. Dives and Lazarus. And he did emphasize the fact that all wealth was a sacred trust from God, for the use of which men must answer. Its principle Christianity and Socialism agree on two essential points—they are both democratic and socialistic. And they differ in their application of principals.

Socialism says, first improve the environment of man and you will improve his character. Christianity says, improve man's character and you will thereby indirectly improve his condition. Socialism says environment first and character second. Christianity says character first and environment after. There should be no difficulty in harmonizing these views. We must all be interested in the education, edification and uplifting of our fellow men. But until we get the principles and spirit of Jesus Christ into the hearts of business men and controllers of labour, not less into the hearts of the employes himself shall we see a harmonious and equitable readjustment of the difficulties of the world of labour. God speed the coming of that day. As says Mr. Lyman Abbott:—"The bird is in the shell. Conservatism would leave it alone. It would get an addled egg. Radicalism would burst the shell. It will get a dead bird. Christianity broods the egg, and anon the bird will break its own shell."

ST. LUKE'S CHURCH, ASHBURNHAM.

The Men's Chapter of St. Luke's Guild will meet at Mr. Adam Dawson's residence on Tuesday evening. All men of the Congregation are invited to attend.

Rev. H. Symond's will take part in a theological conference to be held at Queens College, Kingston, this week.

There will be two services in St. Luke's next Wednesday. The first at 11 a. m., and the second with an address at 8 p. m.

The special Wednesday evening services in St. Luke's during Lent will take the form of a series of studies on Foreign Missionary Work throughout the world. The first address will be given in the church on Wednesday Feb. 22nd, by Rev. C H. Marsh of Lindsay, on "China."

Beginning on Sunday Feb. 26th, a special course of Lenten sermons to Young Men and Young Women will be given on Sunday evenings by Rev. H. Symonds in St. Luke's Church. The subjects will be as follows:

Feb. 26th.—The Advantages and Disadvantages of Youth.
March 5th,—Ideals.
" 12th,—Temptations.
" 19th,—The Building of Character.
" 26th,—The Following of Christ.

OBITUARY.

The Late Mrs. Geo. Davidson.

Mrs. George Davidson passed away at the family residence, 265 McDonel street, last night, after an illness of about four months. The deceased lady, who was about 45 years of age, was born in the parish of Canisbay, Caithnesshire, Scotland, and came to Canada in 1886. She has two sisters in Canada, at Warkworth, Mrs. Alex. Mowat and Mrs. Young. She leaves a husband and one son, William. Funeral to-morrow at 2.30.

A PURELY CANADIAN JOURNAL.

It is always with pleasure we draw attention to the Canadian Home Journal, published every month in the interests of Canadian Homes and Women, because we believe Canadians should support such publications printed and published in Canada, in preference to those published in other countries. The February issue is well up to the standard of the marked improvement so apparent in this paper the last few months, and the feast of literary merit provided, with a copy of that popular song and music, entitled "A Little Rag Doll, cannot fail to satisfy all who secure a copy. Send ten cents for sample copy to the Canadian Home Journal Office at Toronto, or order of your news agent, and you will learn how you will secure this paper free for one year.

Everything Up-to-date at MRS. APPLEBY'S FANCY GOODS STORE, 426 Water Street.

SEED DISTRIBUTION.

To the Editor of The Examiner:

For the past ten years systematic efforts have been made to increase the average returns and to improve the quality of the cereals and other important farm crops grown in Canada by an annual distribution from the Experimental Farm, at Ottawa, of samples of seed of the best and most promising sorts. These varieties have been first tested at the experimental farms and only those which have proven to be the very best have been chosen for this distribution. The samples sent out have contained three pounds each, and every precaution has been taken to have the seed in every instance thoroughly clean and true to name, and the packages have been sent free, through the mails. Those who have received such samples and grown them with care have usually had at the end of the year enough seed to sow a large area, and in this manner careful farmers all over the Dominion have been gradually replacing any inferior and less productive sorts which they have been growing in the past, with superior varieties possessing greater vigour.

By instruction of the Hon. Minister of Agriculture, another such distribution is being made this season, consisting of samples of oats, barley, spring wheat, field pease, Indian corn and potatoes. These samples will be sent only to those who apply personally. Lists of names from societies or individuals cannot be considered, and only one sample in all can be sent to each applicant. Applications should be addressed to the Director of Experimental Farms, and may be sent any time before the 15th of March, after which the lists will be closed, so that all samples asked for may be sent out in good time for sowing. Parties writing will kindly mention the sort or variety they would prefer, and should the available stock of the sort asked for be exhausted, some other good variety will be sent in its place.

WM. SAUNDERS,
Director.

Central Experimental Farm, Ottawa, February 9th, 1899.

How Japanese Catarrh Cure Cures Nasal Catarrh.

Japanese Catarrh Cure is a penetrating, soothing, and healing pomade, which is inserted up the nostrils by a small camel's hair pencil. The heat of the body melts this pomade and the patient breathes the soothing medication through the nostrils, and the nasal channels open up. The stuffed-up feeling in the head leaves, and the person can breathe naturally through the nose. The dull pains across the head cease. Continual use for a short time soothes the mucous membrane until the soreness and inflammation are all gone. The bad order of the breath passes away, and the lost senses of smell and hearing return. The Dropping in the throat is permanently checked, and the nose does not stop up towards night. The discharge from the nose grows less and less, and finally stops altogether. It does not drive the disease into the throat or lungs or into the ears, as so often is done by washes, douches, and the temporary relief catarrh powders and snuffs which obtain cocaine and other fatal alkaloids, which relieve at the time, but give rise to false security. Japanese Catarrh Cure is a thorough antiseptic, is cleansing and healing in its action, and soothes the minute applied. Six boxes are absolutely guaranteed to cure any case of nasal catarrh, or money will be refunded. A free sample will be sent to any person suffering from this most dangerous disease. Enclose 2 cent stamp. Sold by Ormond & Walsh, druggists, Peterborough. 50 cents. Six boxes for $2.50, or by mail. Address, The Griffiths & Macpherson Co., 121 Church street, Toronto.

HIS NARROW ESCAPE.

How Dodd's Kidney Pills Saved Mr. O. B. Griggs.

Hamilton, Jan. 30.—A startling story is told by Mr. C. S. Griggs, carpenter, living at 151 Queen street south. Reputable citizens vouch for the strict truth of every detail.

Mr. Griggs endured the most agonising pains for eight years. He was a victim of Bright's disease, and the best doctors could not help him.

Finally he tried Dodd's Kidney Pills. Three boxes cured him. To-day he is sound and well in every way.

It is wonderful how many Hamilton people have been cured of Bright's Disease by Dodd's Kidney Pills. They have never been known to fail in a single

TO CURE TOOTHACHE IN A MINUTE

Darwin's Theory.

Neither Darwin nor any other responsible naturalist ever said that "men were descended from monkeys." He merely pointed out that it was probable that man and monkey might be descended from the same ancestral stock, which is quite a different thing from saying that one is descended from the other.

Orchids are found in almost all parts of the world, except in extremely dry climates and on the borders of the frozen regions. Over 5,000 species are now known to botanists.

A Generous Offer.

We are authorized to offer our readers, prepared, a free sample of a never-failing cure for catarrh, bronchitis, irritable throat, influenza, and such throat and nasal diseases. There is no mystery about Catarrhozone though its effect is magical. Ointments and washes cannot reach the diseased parts, and have thus proved useless. But Catarrhozone is carried by air directly to the diseased parts, and is like a breeze from the pine woods. Write for free sample to

N. C. Polson & Co., Kingston, Ont.

ATTON & HALL,
Vendor's Solicitors.

Dr. A. W. CHASE

COMES TO THE AID OF

Catarrh Sufferers

SUCCESS in life is almost impossible for a man with bad breath. Nobody wants to do business with him. Nobody wants to associate with him. He is handicapped everywhere. Offensive breath comes from Catarrh; sometimes from Catarrh of the Stomach, sometimes of the lungs, sometimes of the head, nose, and throat. It is from Catarrh somewhere, and Catarrh is another name for uncleanness.

Many men understand this, and make every effort to cure it, but it is beyond the reach of ordinary practice.

No self-respecting man can ignore Catarrh. If he has it in any form he makes constant effort to be rid of it.

There is something about the manner of life and the climate of Canada that seems to breed diseases of the mucous membeane. Medical science ordinarily doesn't try to cure Catarrh; it "relieves" it; but Dr. Chase has been curing Catarrh for over thirty years, and his name is blessed by thousands who have shaken off the grasp of this insidious disease.

Sold by all dealers, price 25 cents per box, blower free.

FRENCH STREET CRIES.

The National Fickleness Is Shown by Quick Variations.

A writer in The Contemporary Review gives a long list of the things the French have first cried up and then cried down in the course of a century. Thus in 1870, in May, it was "Long live the constitution! Long live the imperial dynasty!" In July, "To Berlin, to Berlin!" In September: "Down with the empire! Long live the republic! Long live Trochu!" In October: "Down with Trochu! Long live the commune! Long live Gambetta!" In 1871: "Long live Thiers! Down with Gambetta!" In March: "Long live the commune! Down with Thiers!" And so on for the better part of a page. It makes good reading, but it is hardly fair play.

What nation has not been in a hundred different minds about its fetiches in that long span! And, after all, the compiler has missed his best example. The fickleness of the public mind was most strikingly exhibited during the siege of Strassburg. General Uhrich held the place for the French, and while he held it successfully nothing was too good for him in mouth honor. Every other cafe became a Cafe Uhrich, and "Vive Uhrich!" resounded through the street that bore his name. He was on his way to the titular patronage of a whole boulevard and to a public statue when the report came that he had lost a bastion. His boulevard was at once stopped, his statue was left in the clay, and when the news was confirmed he was deprived of his street. The tough old soldier went on doing his best, but the German concentration was too much for him, and finally he had to surrender his keys. Then "A bas Uhrich!" was the cry, and he became bankrupt alike of public thoroughfares and of the Paris crowd, but the latter have somehow contrived to get the advertisement all to themselves.—London News.

When you are nervous and sleepless, take Hood' Sarsaparilla. It makes the nerves strong and gives refreshing sleep.

Have Helped Thousands.

Few people realize the volume of business transacted through the want columns of a newspaper. It is to the great public what the exchange is to the financial world. Thousands obtain employment annually, find business chances, meet men with whom they afterward engage in lucrative business, and in a thousand other ways benefit themselves through the expenditure of a very small sum. The little ads. are tireless toilers for every department of life. Some poor man or woman out of employment searches in vain for it. A little want ad. is inserted in the paper, it meets the eye of some one who is seeking just such a person, and as a result employment follows.

The little three lines or more of print talks to thousands. Perhaps the business man desires to employ a man or woman. He has no other method of reaching them except through the medium of the little ad. He puts it in, and soon the place is filled, usually by a competent person, as there are always many to select from.

Thousands of people owe their place in life to these little creations of type. Because they are seen every day the world has not come to realize their importance, but the past has proved them to be a friend of rich and poor alike—a herald of happiness to hundreds. John Wanamaker, this country's closest student of advertising, is quoted as saying that the best position for a display advertisement in a newspaper is always closest to the want ad. page, for all the people read them.—Denver Times.

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring use Dr. Kings New Life Pills. They develop every power of the brain and body. Only 25 cents at any Drug Store.

Believed Himself Invisible.

The first Lord Lytton was certainly daft. One morning while he was entertaining a large company at his country seat the guests were assembled at breakfast in the great hall, when their host came in in an old dressing gown, poured out a cup of tea and disappeared without uttering a word to any one. Arthur Russell expressed his surprise to his next neighbor, who said:

"He believes himself to be invisible."

And, sure enough, in a little time he appeared in his usual dress and saluted his friends as if he had not seen them since the previous night.—Argonaut.

Before After

Wood's Phosphodine is sold in Peterborough by John Ferguson, Druggist.

THE HAMILTON PATRICIDE.

Coroner's Jury in Hamilton Finds Ben Parrott Guilty.

Hamilton, Feb. 11.—The inquest on the death of Mrs. Parrott, Steven street, who was killed by her son Benjamin, was continued at No. 3 Police Station last night before Coroner Griffin. Arthur Jackson and John Dorman testified to having seen Ben fell his mother with an ax on Wednesday evening. Parrott ran away at once and no person went near the woman till the police arrived and conveyed her to the General Hospital, where she died.

Important testimony was given by a colored man named Robert Richardson. He said about 5.30 Parrott ran into his yard and said to him, "Don't tell any person; I've killed my mother. I chopped her head off with an ax." He asked permission to hide in the barn and wanted another man present to go to get $1 worth of whiskey. Witness ordered him away.

P. C. Cruickshanks testified that he arrested Parrott on information given him by a woman. He asked Parrott what happened at his house. Parrott replied he had not been home, that he had been away moving furniture. Later he admitted killing his mother, and said he would likely get the rope. He said he did not care, however, as he'd have to die sometime.

The jury returned a verdict to the effect that Benjamin Parrott did murder Bridget Parrott, his mother.

FAT STOCK AND DAIRY SHOW.

Officers Elected at the Annual Meeting in Toronto.

Toronto, Feb. 11.—A meeting of the directors of the Provincial Fat Stock and Dairy Show was held yesterday morning at the Palmer House. The place of meeting was not decided upon, but the dates were fixed for Dec. 5, 6, 7 and 8.

A committee was appointed to make an effort to secure railway tickets at single fare without the issue of certificates. The officers elected were:

President, John I. Hobson, Guelph; vice-president, J. C. Snell, London; secretary-treasurer, F. W. Hodson, Toronto. Executive and program committee—President, vice-president, secretary, Messrs. J. E. Brethour, Burford; James Tolton, Walkerton; H. Wade, Toronto; G. W. Clemons, St. George. Committee on Cattle—John I. Hobson, G. W. Clemons, R. Gibson. Committee on Sheep—R. H. Harding, A. W. Smith, James Tolton. Committee on Swine—G. B. Hood, Guelph; J. E. Brethour, George Green, Fairview. Dairy Committee—G. E. Day, Guelph; H. Wade, G. W. Clemons, R. G. Murphy, Elgin; D. Drummond. Poultry Committee—J. E. Meyer, Robert Essen. Reception Committee—John I. Hobson, J. C. Snell, F. W. Hodgson, Arthur Johnston, Henry Wade. Superintendent of building—D. G. Hanmer, Burford. Official reporter—G. W. Green. Cattle judges—James Smith, Thomas Crawford, M.P.P.; reserve, T. O. Rolson, St. Mary's; referee, J. T. Gibson, Enfield. Dairy—G. E. Day, D. Drummond and A. C. Holman. Sheep and swine judges appointed at previous meeting were confirmed.

French-Canadians Have Done Well.

Montreal, Feb. 11.—Rev. Abbe Morin, the head of the French-Canadian movement to the Saskatchewan country, gives some very interesting figures regarding the settlers in the Edmonton district. In 1896 there were 406 families, numbering 1,987 souls, which had been increased in 1898 to 620 families, numbering 2,479 souls, all of whom would have been dispersed throughout the different States of the Union had they not been directed to the Canadian Northwest. These people had 1,969 horses in 1896, and 2,148 in 1898. Their cattle had increased in these two years from 2,591 head to 5,252, and the grain raised from 180,888 to 516,097 bushels.

No Right To Ugliness

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at any Drug Store,

G.T.R. Settled for $6,000.

Toronto, Feb. 10.—The Grand Trunk Railway Company has settled with the widow of Fireman Michael Cleary, Belleville, who was killed in the railway accident at Murray Hill. Mrs. Cleary sued the company for $10,000, and the settlement was effected at $6,000. Costs of the proceedings, amounting to $400, are also allowed the widow.

Had Been Buried Alive.

North Tonawanda, N.Y., Feb. 11.—When the body of James Rigley was exhumed to discover the cause of death yesterday, the glass covering of the casket was found broken, and the distorted features and the position of the hands and feet showed that the deceased had been buried alive.

Engine and Plow Ditched.

Owen Sound, Feb. 10.—A peculiar break happened here yesterday. A water tank burst, and the water covering the tracks froze and barred traffic. An engine and a snowplough hit the ice, but were thrown into the ditch. This freezing occurred twice. The train due at Toronto at 9.30 had not arrived at 1.30 a.m.

Wages of 36,000 Employes Advanced.

Chicago, Feb. 10.—The American Steel & Wire Company has decided to advance the wages of its 36,000 employes from five to ten per cent., the increase to take effect on March 1. It will mean an increased distribution in wages amounting to between $750,000 and $1,000,000 per annum.

DON'T TELL ANYBODY.

If no one should tell you about it, you would hardly know there was cod-liver oil in Scott's Emulsion, the taste is so nicely covered. Children like it, and parents don't object.

Early Accidents

Cause Lifelong Suffering.

A Case that is Causing Talk.

When a lad about eight years of age I fell into a cellar a distance of ten feet, striking on my head, and causing concussion of the brain. I was taken to a London, Eng., Hospital, the first seven days not recovering consciousness. I am now 35 years old and from the time of my accident until I began taking Dr. Ward's Pills five months ago I had been subject to fainting spells, never being more than two weeks without an attack of fainting. As I grew older these spells became more frequent, lasted longer, and left me with less vitality. I was weak, had no strength or stamina, always very low-spirited and down-hearted; imagined that every thing and every person was going against me, and life only had a dark side for me. My appetite was poor most of the time, but I am now happy to say that, since taking Dr. Ward's Blood and Nerve Pills, I have only had one fainting spell, shortly after I began taking them, so I have no hesitation in saying that Dr. Ward's Pills cured me. Before taking these pills I always looked for a fainting spell not more than two weeks apart; now, I would be greatly surprised at a recurrence of these spells. Life is now bright—the constant, morbid, down-hearted feeling is gone, being replaced by a contented, hopeful feeling. I feel like working. My appetite is good, and in every respect I have experienced the health and strength restoring properties of Dr. Ward's Blood and Nerve Pills. They certainly have proved a great blessing to me. Yours truly, (Signed), Thomas Stanton, Brighton, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00 at druggists, or mailed on receipt of price by The Doctor Ward Co., Limited, Toronto.

THE CYNIC.

When people become good to you, look out.

A woman's favorite criticism of a man is that he is "coarse."

A woman seldom discovers the good points of her husband until after he is dead.

Don't call a man's attention to the fact that he has gray hairs in his head; he knows about them.

The average man makes it a point to hear every new minister once, in order to be in position to state his opinion of the man.

A traveling man's honeymoon lasts four times as long as that of the average man, for the reason that he is not at home so often.

We have noticed that when it is announced that a singer's voice is failing the neighbors are not as sorry as they should be.

After a woman gets literary notions she has her picture taken with her head resting on one hand, to give the impression that her brain is heavy and needs support. —Atchison Globe.

EDUCATIONAL NOTES.

There were $7,000,000 given to colleges last year.

Judson college, Marion, Ala., has had the largest opening in the history of the institution.

Barnard college has succeeded in paying a debt of $125,000. At the opening of the fall term 308 young women entered.

German university students have increased in number from about 10,000 25 years ago to 32,241 last year. The increase is out of proportion to the population.

It has been legally decided in Illinois that children may enter school at any time after reaching the proper age, regardless of local regulations requiring attendance to begin at the opening of a school term.

A few weeks ago Briggs S. Cunningham of Cincinnati gave $60,000 to the University of Cincinnati for the erection of a building, and now Asa Van Wormer of Cincinnati has given to the university stock valued at $60,000 for a library hall.

Seemed Incomprehensible.

Mrs. Somer—What delicately constructed things these big steamships are!

Mr. Somer—Why do you say that?

Mrs. Somer—Just think of the breaking of a screw disabling the whole ship.—Philadelphia North American.

Among the numerous superstitions of the Cossacks there is none stronger than the belief that they will enter heaven in a better state if they are personally clean at the time they are killed.

PERT PERSONALS.

It may even become necessary to hold annual elections in order to satisfy the appetite for voting for Pingree.—Detroit News.

As soon as Tod Sloane realized that he had to take second place to General Kitchener as a popular hero he sailed for America.—New York Times.

Weyler says he will now treat the United States with silent contempt. That will be a refreshing change from his usual noisy arrogance.—Denver Post.

Commissioner Peck may not speak French, but he has made the Paris exposition managers understand clearly the magnitude of the interests that the United States will represent in 1900 A. D.—Boston Journal.

By the time Ann Odelia Diss de Bar gets through with her latest aggregation of followers they'll certainly be in appropriate financial condition to carry out her system of open air living on fruits and nuts.—St. Louis Republic.

Admiral Dewey stands today confessed by his own and other countries as the first naval officer of the world, and his ability as a commander and a diplomat is exquisitely blended with the modesty that ever gives the chief adornment to heroism.—Philadelphia Times.

Athletics ought to flourish up in Canada as never before under the new governor general, who has won renown as a gentleman jockey, as a varsity oarsman and as a good man to hounds. As to his qualifications for the governor generalship—well, those are yet to be demonstrated.—Boston Herald.

A Superb Animal.

During a fierce charge of Confederate cavalry at Murfreesboro an officer was killed and the cavalry driven back. The horse the officer had ridden was a magnificent animal, and he had not been taught to retreat. Riderless he kept on his way, and as he dashed through our battery the sight of him was indescribably grand. His nostrils were extended wide, his eyes fairly blazed, and he clutched the bit determinedly with his teeth as he came on like the wind, with his saddle flaps flying until he looked as if he were himself flying instead of wildly running. Every one gave him room as he dashed toward us. An officer shouted that he would give $100 to any one who would capture that superb animal, but all seemed too much bound up in admiration of the noble beast to make the effort, and he sped on and disappeared in the blue distance.—New York Sun.

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR,—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000, which matured on the 5th inst. Of the various options you have given me via:

Cash value	$1,566 66
Paid-up Policy, payable at my death, for	2,560 00
Yearly Income for life of—	162 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4½ per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the lowering rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,
(REV.) J. THOMPSON, D. D.
Barnia, Ont.

A Woman's Crime.

A THRILLING STORY OF LOVE AND ADVENTURE.

By LAWRENCE M. LYNDE.

Author of "John Arthur's Word," "The Diamond Colonel," "Against Odds," Etc., Etc.

There were more jests, and then some sober conversation. The detectives told of the manner in which they arrested the counterfeiters. And then Francis Ferrars described the scene of the previous night, when Elise Schwartz was stopped in her career of crime. After this there ensued a long, awesome silence, which was broken at last by Lenore.

"How strangely fate has worked," she said, in low, grave tones. "My life has been sought again and again. Yes, I believe she did intend that deathblow for me. If Miss Annin has told you of Aura Durand's visit to me, then, of course, I may speak of it; may feel released from my promise. What she, this murderess, said of that visit was true. I did say that only death could interfere with my marriage to Clarence Arteveldt. Now I understand the look she gave me; and then the sudden drooping of the form as she turned and went out. The look was intended for my death-warrant, and then her sudden change of manner was inspired by prudence. She wished to deceive me into thinking her simply crushed and hopeless; and I did think so. She looked very lovely and very pathetic that day; but I was too bitter to pity any one, least of all myself; and she has committed so many crimes. Heavens, how horrible! While her hand was stained with the blood of the son, she has been the chosen friend of the mother."

"Yes," said Kate Seaton, with a sudden flash of the eyes, "I call it retribution upon Mrs. Arteveldt. I have heard those two talk of finding and dealing with Lenore, until my blood has fairly boiled. And I hated Aura Durand from the very first. I promise you a scene, Mr. Hale, when you come to tell Mrs. Arteveldt to-night that she cannot wreak her vengeance upon Lenore Armyn"; then turning suddenly to Ferrars, "do you know any more concerning that strange meddler?" she asked.

"He is well watched, Miss Seaton; that man was Bradwardine," replied the English detective.

And this made it necessary to tell Lenore, Mr. Hale, and the other uninitiated, the last piece of rascality attempted by Bradwardine.

Suddenly Lenore turned to Neil Bathurst. "I have made you an enemy," she said, regretfully. "Mr. Bathurst, that man will harm you if he can. Why did you spare him that day?"

"Miss Armyn," replied Neil, gravely, "I spared him because if arrested he might have set officers on your track. I did not expect that you would leave me as you did, for I tried to make my manner convey to you the truth that I was not, and would not be, your jailer."

Lenore flushed hotly, and sat in silence for a *moment*, then she said, almost hesitatingly:—

"I will do you and myself justice, Mr. Bathurst, and tell you what I thought that day. When I learned who you were, I said to myself, this detective is in search of me, and has traced me in time to save me from Jason Bradwardine, and death; nevertheless it is his duty to arrest me, and his manner implies that he does not wish to do this. If he lets me go it will injure him, and I shall only escape to fall into other hands. While I was thinking this, we crossed the street just below. Suddenly I thought of this gentleman," nodding toward Gentleman Jeff, "and I remembered how kind and honourable he had looked on that day, that was the beginning of my troubles. Then I thought of escaping; if I could get out of the carriage, I could dodge behind that green door very soon. I acted upon this impulse, and Gentleman Jeff more than verified my good opinion of him. You had rescued me, Mr. Bathurst, and I could not have permitted you to compromise yourself because of me. Of course I did not dream that you or any one could remove the charge against me by placing the guilt where it belonged."

STOP WOMEN

from exercising common sense? You can't do it. As the old rhyme runs:

"The man's a fool who tries by force or skill
To turn the current of a woman's will
For if she will, she will, you may depend on't
And if she won't she won't, so there's an end on't."

Common sense tells a woman that when she's sick she needs a doctor.

Common sense tells a woman that in disease the first question is not of man or woman, but of recognized medical ability.

Common sense applied to advertisements which invite women to "write to a woman because she is a woman and understands women," will show the women so appealed to, that it's *no use to write to any woman* about disease unless that woman is a physician.

Common sense used in the reading of advertisements will discover that no claim is made in them to a physician's knowledge or diploma. And that is not because the claim would be morally culpable as a lie, but because it would be legally punishable as a fraud. The law permits you to masquerade as a doctor in an advertisement, just so long as you don't actually claim to be a doctor, or put M. D. after your name. That's why the advertisement is worded "write to a woman" instead of write to a doctor.

Common sense has brought more than half-a-million women, afflicted with some form of female disease, to Dr. R. V. Pierce as one of the most expert physicians in the United States in the treatment of female diseases. Dr. Pierce is a specialist. He has given more than thirty years of active practice to the treatment of female diseases. Dr. Pierce is not a "physician" by courtesy. He is a physician regularly graduated, legally empowered to practice and with thirty years of experience in the treatment of diseases of women, which he has made his specialty.

The offer of free consultation by letter made by Dr. Pierce is a real offer, an honest offer. It is an offer backed by a medical institution, with a world-wide reputation, a staff of nearly a score of regularly graduated physicians, a practice which reaches every state in the Union and a record of more than half-a-million women treated and ninety-eight out of every hundred perfectly cured.

Write to a doctor. That's the first thing. Write to *the* doctor. That's the next thing. *The* woman's doctor, is Dr. R. V. Pierce, of the Invalids' Hotel, Buffalo, N. Y.

She paused for a moment and then resumed:—

"I may as well tell you, or those of you who have not yet learned it, how I arranged my flight after that mockery of a marriage. I will not now or hereafter speak of Clarence Arteveldt; I have not a forgiving spirit, and although he has expiated his sin, I have not forgotten, and cannot forget my wrong, and the suffering it has brought upon me. From the time the idea first seized me, of marrying him, and abandoning him at the altar, I never faltered in my purpose once. I wrote to Dr. Austin, and he came to the city; I met him privately, and told him a small part of the truth. He knew that there was a mystery in the life of my mother; he knew that she had lived and died, haunted by a great fear. He knew that I did not know all this mystery, but that my knowledge extended beyond his. He had promised my mother to act for me without question. And when I put him to the test he kept his word. I told him that there was a person in the city who had some power over me, and who would use it to my injury; that I feared that I had not acted in accordance with my mother's wishes; that I had not kept myself in the seclusion she had advised. That there was another strong reason why I wished to vanish suddenly from among my friends, a reason which I could not then confide to him. If he would aid me and ask no question, he should always know where I was, and all of my movements. Of course my obstinacy gained me my point. Doctor Austin arranged that I was to be received at Doctor Burton's asylum. That was my idea; I thought I could not have a safer retreat. When I left the supper-room, clad in all my bridal white, chance favoured me; not one of the servants or waiting coachmen saw me as I ran to the nearest corner and sprang into the carriage. Doctor Austin himself sat on the box, and within he had placed a valise containing a dark, plain dress. Before we reached the asylum I had exchanged my bridal dress for the dark one, and Dr. Austin himself hardly knew that I had made an exchange. I had previously sent a small trunk to my new retreat, and as soon as I could do so I burned my bridal finery. I lived a very quiet life there for three months. I had drawn on the doctor for enough money to carry me through, should an emergency make it necessary for me to go elsewhere; and when Mr. Bathurst appeared, and I fled to the protection of the ballet mistress, I found that money was a friend indeed.

"I had such perfect liberty there," resumed Lenore, after a moment's pause, "that I doubt if I could have proved myself to have been in an asylum all night. It was easy enough for anyone, not locked in their rooms, to go in and out at Doctor Burton's at all hours."

CHAPTER LII.

LADY LENORE.

"And now," said Lenore, drawing her chair closer to that occupied by Kate Seaton, "I must tell you, as briefly as I can, a little about myself, and something of what is contained in my mother's journal and letters, especially the letters written shortly before her death, and separately entrusted to Doctor Austin."

She paused for a moment, as if considering, and then resumed:—

"I will only say of my childhood, that it has, as it now dwells in my memory, many strange and distinct lights and shades. I can remember, what seems now like fragments of dreams, the accents of foreign tongues, the vivacious French, the gutturral German, the musical Italian, and always, almost, the stately English. I remember having wakened, oh! so many, many nights, to find my mother sobbing over my pillow, and murmuring, in broken accents, words that conveyed to my mind the idea that she was a deeply wronged and persecuted woman, and that in some way I was connected with the cause of all her woe.

"I am told that in my veins flows a mixture of the blood of Italian and English nobility, and the French common people. And I have lived long enough in America to be very glad and proud of that admixture of common-place blood, especially when I reflect upon what the blue blood has done for my mother and father. However, I presume that to this mixture of races I owe my peculiarities of temper and disposition. I think I must have been a very uncomfortable child. I was constantly looking about us for the cause of my mother's sorrow, for my little mind was unable to comprehend a woe the cause for which was hidden, or buried, from sight. I used to clench my baby fists in wrath, and I waged a continuous warfare upon servants, and strangers, and friends; although of the latter I can remember very few. I can recall what seemed to me a most wonderful experience, a long, long voyage over an interminable waste of waters, during which my poor mamma was unaccountably ill, and I was the most active, energetic, and healthful of small tribulations.

"Next I can recall a sojourn in a place where everything was strange, very strange, and where our charming English was very oddly accented. I think my mother must have been very ill there. Then one day she snatched me in her arms as if to shelter me from some terrible danger; and there was a sudden flitting, another journey that seemed to me tedious and interminable, and then came Fairlie.

"As I grew older, my mother taught me never to speak of the voyage across the ocean, and of the foreign lands that seemed like the recollections of a dream. I must be an American. I was never permitted to speak of that other home we had known for a little time. I was by nature fearless, curious, and difficult to deal with; and I know that my poor mother's wrongs had made her morbidly sensitive. She had the Italian exaggeration of language, and in exhorting me to prudence, to caution, and to obedience, in my younger days, she alluded to her past in such vague, mysterious language, and with such a look in her eyes that I became possessed: haunted, by a vague terror. Ann there is no terror like that which we cannot comprehend. I knew that we were exiles from some other land, and I began to believe, as I grew up, that because of some crime or treason on the part of my father we had been compelled to flee the country. My mother taught me that we were in constant danger, and she described to me the man Jason Bradwardine, imploring me to be ever watchful, ever cautious, and to fear this man always, because he sought my life.

"When she believed herself dying, my mother called me to her, and told me that I would soon be alone, and surrounded by danger; that men, strong and high in power, sought my destruction; that I stood between one of these men and the position that he longed for, and that my life would be sacrificed if I ever fell into his hands. That I was, to the other of these men, a hated thing, a symbol of his own misery and future downfall. She told me that, to escape from these men, and from dangers to both of us, she had brought me across the sea. She said that even then, these enemies might be aware of our hiding-place, and waiting only for a suitable time to spring upon us, or upon me. 'Fear curiosity; shun strangers,' my mother said. 'If they set out to find you they will move earth and Heaven. One of these men, Jason Bradwardine, crossed the ocean once to destroy you; you are growing to womanhood now, and will be doubly dangerous in his eyes. Live retired; baffle all enquirers; shun large public assemblies, and beware of detectives; they are the means often employed by bad men to hunt down their victims.'

"I implored her to tell me all, not to leave me in the dark, concerning this shadow upon my life, and she replied that to tell me would only increase my danger, that ignorance was my best and only safeguard.

"As her last hour drew near, she exacted from me a vow of the most solemn nature. I was to conceal all that I knew of my past; never to examine the papers she left behind, unless some movement on the part of my enemies revealed to me my identity, and made further enlightment necessary. I was never to leave America, unless the time should come when I was assured that my foes were powerless to harm me, and ever and always I was to avoid enquiry, to shun and flee from anyone suspected of being a detective, or investigator of any sort, and never, by any act, to bring myself forward conspicuously so as to become a marked personage in any community. She wished that I should leave Fairlie, after her death; she believed that I would be safer among strangers.

"Last, she had left all her papers, and the control of her little fortune, in the hands of Doctor Austin. He is the only being my mother fully trusted. She left with him, too, a letter, which was to be placed in my hands on my twenty-fifth birthday; but, if I ever stood in peril, if any great danger menaced me, or fell upon me—any danger which I could not avert or avoid, because I could not comprehend it—then I was to have the letter sooner; have it at the time of need.

(To be continued.)

How it Hurts

Rheumatism, with its sharp twinges, aches and pains. Do you know the cause? Acid in the blood has accumulated in your joints. The cure is found in Hood's Sarsaparilla which neutralizes this acid. Thousands write that they have been completely cured of rheumatism by Hood's Sarsaparilla.

Hood's Pills cure nausea, sick headache biliousness, indigestion. Price 25 cents.

The tunnels of the world are estimated to number about 1,142, with a total length of 514 miles. There are about 1,000 railroad tunnels, 13 subaqueous tunnels, 90 canal tunnels and 40 conduit tunnels, with aggregate lengths of about 350 miles.

Some Hindoos wear mustaches and beards, but all wear whiskers, which are shaved off at once when an adult relation dies. The shaving off of whiskers is thus a sign of mourning.

ERIE MEDICAL CO., 64 Niagara St., Buffalo, N. Y.

A NEW INVENTION

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Upright and Square Pianos of the various makes taken in part exchange for the famous NEWCOOMBE PIANOS. Every NEWCOOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

THE MARIA TERESA.

By declining to sink the second time the Maria Teresa shows she is become somewhat Americanized. — Washington Post.

The British talk of picking up the Maria Teresa as a derelict. Have a care, John Bull. She's no horseshoe. —St. Paul Globe.

Cat Island is the last resting place of the Maria Teresa. It was thought she had gone to the demnition bowwows.—Syracuse Standard.

After its recent experiences the Maria Teresa is, in spite of all assurances, somewhat shy about getting mixed up with this country's naval organization.—Washington Star.

If the Maria Teresa crew really forsook it on the old ground of even rats leaving a sinking ship, her going to Cat Island is quite a commentary on their action.—Philadelphia Times.

ONE HAPPY WOMAN.

Got Health and Happiness From Dodd's Kidney Pills.

London, Feb. 6.—This city can claim one of the happiest, healthiest women in Canada.

Her name is Mrs. J. Osborne. She lives at 524 Grey street, and she has this to say to her sisters throughout Canada.

"For eight years my life was made miserable by Female Weakness. I used many different medicines, but none did me any good till I started to take Dodd's Kidney Pills.

"The first dose of this wonderful remedy gave me relief. I grew better with every dose, till, when I had taken three boxes, I was totally cured."

Dodd's Kidney Pills are the only medicine on which women can confidently rely for a positive cure.

Bubble Investment Companies.

In the train of the real estate craze during the eighties came a great number of *loan* and investment companies. Many of them were conducted by honest men, who lent the money of eastern clients in immense quantities, their estimate of value being, of course, affected by the prevailing exaggeration. Many more institutions were organized to burst, and after flourishing a few years in the hot atmosphere of speculation fulfilled their destiny and spread ruin among thousands of innocent victims. No large western town has been exempt from these two classes of concerns, and their collapse justly aroused in the east a deep feeling of distrust and insecurity and led to a condemnation of western investments and western business methods in which good and bad were confounded. —Henry J. Fletcher in Atlantic For May.

A Humane Woman.

The Cabman—Gimme your bag, lady, and I'll put it on top of the cab.

Mrs. Oatcake (as she gets in)—No; that poor horse of yours has got enough to pull. I'll carry it on my lap.—London Tit-Bits.

Could Only Whisper.

Often Colds settle on the Throat and Bronchial Tubes, and make the voice hoarse and husky, and an effort to speak, distressing. It may be reduced to a whisper or lost entirely for a while.

In cases of this kind nothing will so soon give relief and restore the voice as

Dr. Wood's Norway Pine Syrup.

This is what Thos. J. Smith, Caledonia, Ont., writes: "A year ago I had a very severe Cold which settled on my lungs and throat. It got so bad I could scarcely speak louder than a whisper. I tried several Cough medicines but got very little relief until I used two and one-half bottles of Dr. Wood's Norway Pine Syrup, which completely cured me."

Price 25c. All dealers.

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR.—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000, which matured on the 5th inst. Of the various options you have given me viz.:

Cash value	$1,564 96
Paid-up Policy, payable at my death, for	2,500 00
Yearly Income for life of—	186 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4 per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the lowering rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,
(REV.) J. THOMPSON, D. D.
Barnia, Ont.

A Woman's Crime.

A THRILLING STORY OF LOVE AND ADVENTURE.

By LAWRENCE M. LYNDE.

Author of "John Arthur's Word," "The Diamond Orlando," "Against Odds," Etc., Etc.

There were more jests, and then some sober conversation. The detectives told of the manner in which they arrested the counterfeiters. And then Francis Ferrars described the scene of the previous night, when Elise Schwartz was stopped in her career of crime. After this there ensued a long, awesome silence, which was broken at last by Lenore.

"How strangely fate has worked," she said, in low, grave tones. "My life has been sought again and again. Yes, I believe she did intend that deathblow for me. If Miss Annin has told you of Aura Durand's visit to me, then, of course, I may speak of it; may feel released from my promise. What she, this murderess, said of that visit was true. I did say that only death could interfere with my marriage to Clarence Arteveldt. Now I understand the look she gave me; and then the sudden drooping of the form as she turned and went out. The look was intended for my death-warrant, and then her sudden change of manner was inspired by prudence. She wished to deceive me into thinking her simply crushed and hopeless; and I did think so. She looked very lovely and very pathetic that day; but I was too bitter to pity any one, least of all myself; and she has committed so many crimes. Heavens, how horrible! While her hand was stained with the blood of the son, she has been the chosen friend of the mother."

"Yes," said Kate Seaton, with a sudden flash of the eyes, "I call it retribution upon Mrs. Arteveldt. I have heard those two talk of finding and dealing with Lenore, until my blood has fairly boiled. And I hated Aura Durand from the very first. I promise you a scene, Mr. Hale, when you come to tell Mrs. Arteveldt to-night that she cannot wreak her vengeance upon Lenore Armyn"; then turning suddenly to Ferrars, "do you know any more concerning that strange meddler?" she asked.

"He is well watched, Miss Seaton; that man was Bradwardine," replied the English detective.

And this made it necessary to tell Lenore, Mr. Hale, and the other uninitiated, the last piece of rascality attempted by Bradwardine.

Suddenly Lenore turned to Neil Bathurst. "I have made you an enemy," she said, regretfully. "Mr. Bathurst, that man will harm you if he can. Why did you spare him that day?"

"Miss Armyn," replied Neil, gravely, "I spared him because if arrested he might have set officers on your track. I did not expect that you would leave me as you did, for I tried to make my manner convey to you the truth that I was not, and would not be, your goaler."

Lenore flushed hotly, and sat in silence for a moment, then she said, almost hesitatingly:—

"I will do you and myself justice, Mr. Bathurst, and tell you what I thought that day. When I learned who you were, I said to myself, this detective is in search of me, and has traced me in time to save me from Jason Bradwardine, and death; nevertheless it is his duty to arrest me, and his manner implies that he does not wish to do this. If he lets me go it will injure him, and I shall only escape to fall into other hands. While I was thinking this, we crossed the street just below. Suddenly I thought of this gentleman," nodding toward Gentleman Jeff, "and I remembered how kind and honourable he had looked on that day, that was the beginning of my troubles. Then I thought of escaping; if I could get out of the carriage, I could dodge behind that green door very soon. I acted upon this impulse, and Gentleman Jeff more than verified my good opinion of him. You had rescued me, Mr. Bathurst, and I could not have permitted you to compromise yourself because of me. Of course I did not dream that you or any one could remove the charge against me by placing the guilt where it belonged."

She paused for a moment and then resumed:—

"I may as well tell you, or those of you who have not yet learned it, how I arranged my flight after that mockery of a marriage. I will not now or hereafter speak of Clarence Arteveldt; I have not a forgiving spirit, and although he has expiated his sin, I have not forgotten, and cannot forget my wrong, and the suffering it has brought upon me. From the time the idea first seized me, of marrying him, and abandoning him at the altar, I never faltered in my purpose once. I wrote to Dr. Austin, and he came to the city; I met him privately, and told him a small part of the truth. He knew that there was a mystery in the life of my mother; he knew that she had lived and died, haunted by a great fear. He knew that I did not know all this mystery, but that my knowledge extended beyond his. He had promised my mother to act for me without question. And when I put him to the test he kept his word. I told him that there was a person in the city who had some power over me, and who would use it to my injury; that I feared that I had not acted in accordance with my mother's wishes; that I had not kept myself in the seclusion she had advised. That there was another strong reason why I wished to vanish suddenly from among my friends, a reason which I could not then confide to him. If he would aid me and ask no question, he should always know where I was, and all of my movements. Of course my obstinacy gained me my point. Doctor Austin arranged that I was to be received at Doctor Burton's asylum. That was my idea; I thought I could not have a safer retreat. When I left the supper-room, clad in all my bridal white, chance favoured me; not one of the servants or waiting coachmen saw me as I ran to the nearest corner and sprang into the carriage. Doctor Austin himself sat on the box, and within he had placed a valise containing a dark, plain dress. Before we reached the asylum I had exchanged my bridal dress for the dark one, and Dr. Austin himself hardly knew that I had made an exchange. I had previously sent a small trunk to my new retreat, and as soon as I could do so I burned my bridal finery. I lived a very quiet life there for three months. I had drawn on the doctor for enough money to carry me through, should an emergency make it necessary for me to go elsewhere; and when Mr. Bathurst appeared, and I fled to the protection of the ballet mistress, I found that money was a friend indeed.

"I had such perfect liberty there," resumed Lenore, after a moment's pause, "that I doubt if I could have proved myself to have been in an asylum all night. It was easy enough for anyone, not locked in their rooms, to go in and out at Doctor Burton's at all hours."

CHAPTER LII.

LADY LENORE.

"And now," said Lenore, drawing her chair closer to that occupied by Kate Seaton, "I must tell you, as briefly as I can, a little about myself, and something of what is contained in my mother's journal and letters, especially the letters written shortly before her death, and separately entrusted to Doctor Austin."

She paused for a moment, as if considering, and then resumed:—

"I will only say of my childhood, that it has, as it now dwells in my memory, many strange and distinct lights and shades. I can remember, what seems now like fragments of dreams, the accents of foreign tongues, the vivacious French, the guttural German, the musical Italian, and always, almost, the stately English. I remember having wakened, oh! so many, many nights, to find my mother sobbing over my pillow, and murmuring, in broken accents, words that conveyed to my mind the idea that she was a deeply wronged and persecuted woman, and that in some way I was connected with the cause of all her woe.

"I am told that in my veins flows a mixture of the blood of Italian and English nobility, and the French common people. And I have lived long enough in America to be very glad and proud of that admixture of common-place blood, especially when I reflect upon what the blue blood has done for my mother and father. However, I presume that to this mixture of races I owe my peculiarities of temper and disposition. I think I must have been a very uncomfortable child. I was constantly looking about us for the cause of my mother's sorrow, for my little mind was unable to comprehend a woe the cause for which was hidden, or buried, from sight. I used to clench my baby fists in wrath, and I waged a continuous warfare upon servants, and strangers, and friends; although of the latter I can remember very few. I can recall what seemed to me a most wonderful experience, a long, long voyage over an interminable waste of waters, during which my poor mamma was unaccountably ill, and I was the most active, energetic, and healthful of small tribulations.

"Next I can recall a sojourn in a place where everything was strange, very strange, and where our charming English was very oddly accented. I think my mother must have been very ill there. Then one day she snatched me in her arms as if to shelter me from some terrible danger; and there was a sudden flitting, another journey that seemed to me tedious and interminable, and then came Fairlie.

"As I grew older, my mother taught me never to speak of the voyage across the ocean, and of the foreign lands that seemed like the recollections of a dream. I must be an American. I was never permitted to speak of that other home we had known for a little time. I was by nature fearless, curious, and difficult to deal with; and I know that my poor mother's wrongs had made her morbidly sensitive. She had the Italian exaggeration of language, and in exhorting me to prudence, to caution, and to obedience, in my younger days, she alluded to her past in such vague, mysterious language, and with such a look in her eyes that I became possessed: haunted, by a vague terror. Ann there is no terror like that which we cannot comprehend. I knew that we were exiles from some other land, and I began to believe, as I grew up, that because of some crime or treason on the part of my father we had been compelled to flee the country. My mother taught me that we were in constant danger, and she described to me the man Jason Bradwardine, imploring me to be ever watchful, ever cautious, and to fear this man always, because he sought my life.

"When she believed herself dying, my mother called me to her, and told me that I would soon be alone, and surrounded by danger; that men, strong and high in power, sought my destruction; that I stood between one of these men and the position that he longed for, and that my life would be sacrificed if I ever fell into his hands. That I was, to the other of these men, a hated thing, a symbol of his own misery and future downfall. She told me that, to escape from these men, and from dangers to both of us, she had brought me across the sea. She said that even then, these enemies might be aware of our hiding-place, and waiting only for a suitable time to spring upon us, or upon me. 'Fear curiosity; shun strangers,' my mother said. 'If they set out to find you they will move earth and Heaven. One of these men, Jason Bradwardine, crossed the ocean once to destroy you; you are growing to womanhood now, and will be doubly dangerous in his eyes. Live retired; baffle all enquirers; shun large public assemblies, and beware of detectives; they are the means often employed by bad men to hunt down their victims.'

"I implored her to tell me all, not to leave me in the dark, concerning this shadow upon my life, and she replied that to tell me would only increase my danger, that ignorance was my best and only safeguard.

"As her last hour drew near, she exacted from me a vow of the most solemn nature. I was to conceal all that I knew of my past; never to examine the papers she left behind, unless some movement on the part of my enemies revealed to me my identity, and made further enlightment necessary. I was never to leave America, unless the time should come when I was assured that my foes were powerless to harm me, and ever and always I was to avoid enquiry, to shun and flee from anyone suspected of being a detective, or investigator of any sort, and never, by any act, to bring myself forward conspicuously so as to become a marked personage in any community. She wished that I should leave Fairlie, after her death; she believed that I would be safer among strangers.

"Last, she had left all her papers, and the control of her little fortune, in the hands of Doctor Austin. He is the only being my mother fully trusted. She left with him, too, a letter, which was to be placed in my hands on my twenty-fifth birthday; but, if I ever stood in peril, if any great danger menaced me, or fell upon me—any danger which I could not avert or avoid, because I could not comprehend it—then I was to have the letter sooner; have it at the time of need.

(To be continued.)

STOP WOMEN

from exercising common sense? You can't do it. As the old rhyme runs:

"The man's a fool who tries by force or skill
To turn the current of a woman's will
For if she will, she will, you may depend on't
And if she won't she won't, so there's an end on't."

Common sense tells a woman that when she's sick she needs a doctor.

Common sense tells a woman that in disease the first question is not of man or woman, but of recognized medical ability.

Common sense applied to advertisements which invite women to "write to a woman because she is a woman and understands women," will show the women so appealed to, that it's no use to write to any woman about disease unless that woman is a physician.

Common sense used in the reading of advertisements will discover that no claim is made in them to a physician's knowledge or diploma. And that is not because the claim would be morally culpable as a lie, but because it would be legally punishable as a fraud. The law permits you to masquerade as a doctor in an advertisement, just so long as you don't actually claim to be a doctor, or put M. D. after your name. That's why the advertisement is worded "write to a woman" instead of write to a doctor.

Common sense has brought more than half-a-million women, afflicted with some form of female disease, to Dr. R. V. Pierce as one of the most expert physicians in the United States in the treatment of female diseases. Dr. Pierce is a specialist. He has given more than thirty years of active practice to the treatment of female diseases. Dr. Pierce is not a "physician" by courtesy. He is a physician regularly graduated, legally empowered to practice and with thirty years of experience in the treatment of diseases of women, which he has made his specialty.

The offer of free consultation by letter made by Dr. Pierce is a real offer, an honest offer. It is an offer backed by a medical institution, with a world-wide reputation, a staff of nearly a score of regularly graduated physicians, a practice which reaches every state in the Union and a record of more than half-a-million women treated and ninety-eight out of every hundred perfectly cured.

Write to a doctor. That's the first thing. Write to *the* doctor. That's the next thing. *The* woman's doctor, is Dr. R. V. Pierce, of the Invalids' Hotel, Buffalo, N. Y.

EASY QUICK WORK
SNOWY WHITE CLOTHES.

SURPRISE SOAP

MAKES CHILD'S PLAY OF WASH DAY

Rheumatism, with its sharp twinges, ache and pains. Do you know the cause? Acid in the blood has accumulated in your joints. The cure is found in Hood's Sarsaparilla which neutralizes this acid. Thousands write that they have been completely cured of rheumatism by Hood's Sarsaparilla.

Hood's Pills cure nausea, sick headache biliousness, indigestion. Price 25 cents.

The tunnels of the world are estimated to number about 1,142, with a total length of 514 miles. There are about 1,000 railroad tunnels, 12 subaqueous tunnels, 90 canal tunnels and 40 conduit tunnels, with aggregate lengths of about 350 miles.

Some Hindoos wear mustaches and beards, but all wear whiskers, which are shaved off at once when an adult relation dies. The shaving off of whiskers is thus sign of mourning.

FREE TRIAL

To any Reliable Man.

MEN WHO ARE WEAK, BROKEN DOWN, DISCOURAGED, men who suffer from the effects of disease, overwork, worry, from the follies of youth or excesses of manhood, failure of vital forces, unfitness for marriage—all such men should "come to the fountain head" for a scientific method of marvelous power to vitalize, develop, restore and sustain. On request we will send description and particulars, with testimonials, in plain sealed envelope. (No C. O. D. imposition or other deception) Address

ERIE MEDICAL CO., 64 Niagara St., Buffalo, N. Y.

A NEW INVENTION

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Upright and Square Pianos of the various makes taken in part exchange for the famous NEWCOMBE PIANOS. Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

THE MARIA TERESA.

By declining to sink the second time the Maria Teresa shows she is become somewhat Americanized. — Washington Post.

The British talk of picking up the Maria Teresa as a derelict. Have a care, John Bull. She's no horseshoe. — St. Paul Globe.

Cat island is the last resting place of the Maria Teresa. It was thought she had gone to the demnition bowwows.—Syracuse Standard.

After its recent experiences the Maria Teresa is, in spite of all assurances, somewhat shy about getting mixed up with this country's naval organization.—Washington Star.

If the Maria Teresa crew really forsook it on the old ground of even rats leaving a sinking ship, her going to Cat island is quite a commentary on their action.—Philadelphia Times.

ONE HAPPY WOMEN.

Got Health and Happiness From Dodd's Kidney Pills.

London, Feb. 6.—This city can claim one of the happiest, healthiest women in Canada.

Her name is Mrs. J. Osborne. She lives at 524 Grey street, and she has this to say to her sisters throughout Canada.

"For eight years my life was made miserable by Female Weakness. I used many different medicines, but none did me any good till I started to take Dodd's Kidney Pills.

"The first dose of this wonderful remedy gave me relief. I grew better with every dose, till, when I had taken three boxes, I was totally cured."

Dodd's Kidney Pills are the only medicine on which women can confidently rely for a positive cure.

Bubble Investment Companies.

In the train of the real estate craze during the eighties came a great number of loan and investment companies. Many of them were conducted by honest men, who lent the money of eastern clients in immense quantities, their estimate of value being, of course, affected by the prevailing exaggeration. Many more institutions were organized to burst, and after flourishing a few years in the hot atmosphere of speculation fulfilled their destiny and spread ruin among thousands of innocent victims. No large western town has been exempt from these two classes of concerns, and their collapse justly aroused in the east a deep feeling of distrust and insecurity and led to a condemnation of western investments and western business methods in which good and bad were confounded. —Henry J. Fletcher in Atlantic For May.

A Humane Woman.

The Cabman—Gimme your bag, lady, and I'll put it on top of the cab.

Mrs. Oatcake (as she gets in)—No; that poor horse of yours has got enough to pull. I'll carry it on my lap.—London Tit-Bits.

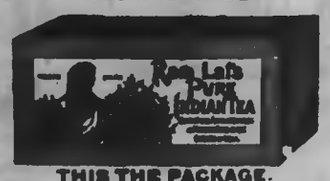
THIS THE NAME.



THIS THE PACKAGE.

A COLUMN OF SPORTS.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Going on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

HOCKEY.

The seniors pratice to-night from seven to eight o'clock.

The matter of the Peterborough petition in regard to playing in the finals will not be taken up until the end of the week by the O. H. A. Execution.

The Rockwood Review makes some remarks about the Colts recent game in Kingston, which are worth consideration, as they come from the pen of one who would not allow his feelings to run away with his judgment in such a case. The writer is none other than Dr. Clarke, of Kingston, whose name has always been associated with the purer and more elevated standard of sport. He says: "Peterborough boys showed a poor spirit in complaining about the roughness of the game in Kingston, a game so clean and devoid of roughness that it was remarked upon by a large audience. Of course hockey is not a mariour game, nor can it be made so if it is to preserve its manly character. It will always happen that if a man of 120 lbs. attempts to body check one of 190 lbs. he will come to grief, and in this case the Peterborough Colts did nearly all of the body checking. A game that would suit their delicate nerves would be one such as lawn tennis on ice. As the Frontenacs treated the Peterborough boys with great kindness, both on and off the ice, they feel the unkind and untrue criticism. Peterborough has a gentlemanly lot of hockey players, who can play a good game characterized by hard checking and clever stick handling—there great defect is lack of combination."

While there may be some weight in Dr. Clarke's foregoing remarks, yet his views on the matter of Referee Wasson's rulings in Peterborough will bear scrutiny. He says:

"The Junior Frontenac Hockey team is out of it, not through any fault of their own, but owing to the unfortunate fact that they were the victims of some unfortunate decisions. In Peterborough they played under rulings quite new in the East, where hockey developed, and as a result had men sitting on the fence most of the time. These rulings were childish and absurd, and calculated to destroy much of the beauty of the game, and were founded on legal technicalities so hazy that it took a Toronto law student to develop them. In Kingston the Peterborough boys played a clean fast game but were completely outclassed, and were defeated in an extremely good game by five goals. Alas, but it was one goal too few, and the inferior team goes into the semi-finals. Competent referees, goal nets and proper rinks are required for the best hockey."

The unfortunate decisions to which the Doctor refers were the ruling off of the Frontenacs for stopping the puck in the air with the sticks. Now, while this is the custom in the Eastern Leagues, yet the Junior Frontenacs never played in the Eastern League, having been identified with the O. H. A. since their organization. They could not have learned the trick from the Senior Frontenacs either, as they have also always been connected with the O.H.A. Queen's and R.M.C. are also O. H.A. clubs, so the Junior Frontenacs have really no excuse for persistently violating a rule which was formed with the object of forcing hockeyists to keep their sticks down, and so avoid accidents which might otherwise occur.

It is said that Whitby rink is so dimly lighted that one has to employ a torch to locate the electric lights.

Roger Davidson, who had his nose broken in the game on Thursday night, is most unlucky. He has had his nose broken twice, each arm broken once and his collar bone cracked.

The Oshawa Vindicator says that in the Port Perry-Bowmanville game four of the former team's players were badly injured, that one had his arm broken, another his nose broken, a third his kneecap knocked off, while a fourth got the worst of it generally. This is denied by the Port Perry Standard, it stating that Bowmanville boys are a decent, gentlemanly lot of players.

The Kingston Whig says: At the opening of the season the Peterborough hockeyists saw three championships going their way. Strange, strange, that their hopes have faded so quickly! Peterborough Colts are out of the race for the junior trophy. Doubtless the tender youths are whining over their defeat in the same manner as they abused the team they last won from. The Toronto Telegram replies as follows: From what Toronto can make out of the Colts, they are a first-class lot of sports, who play to win by good honest hockey.

A citizen to-day received confidential word to the effect that the Lindsay hockey team intended bringing three or four of the famous Waterloo team to assist in defeating the Frontenacs in the championship game here Monday night. The management of the Lindsay club are reminded of the fact that Frontenacs defeated the entire Waterloo team here last season by a score of seven to two, and there is no question of the home team's ability to successfully compete with any outfit of "ringers" that may come here. Besides, Lindsay must remember that, although apparently sleeping, the O. H. A. Executive has its "weather eye" open, and knows how to deal with transgressors of the rules.—Kingston Whig.

CURLIANA.

As there is every indication that the curling will continue for several weeks longer, the local enthusiasts are talking "bonspiel." A day's sport on the ice is wanted before the season closes. Whether it would be a purely local affair or include Bobcaygeon, Lakefield, Norwood and Millbrook, it would prove most interesting in either event. The joint committee should get together and talk over this matter immediately.

A joint meeting of the two Curling Clubs is called this evening.

Jack McMillan, the well known third man in Flavelle's rink, says the only time a man feels perfectly at ease in curling is when he is nine points up and playing the last end.

AMATEUR CHAMPIONSHIP.

The Argonaut Rowing Club, having obtained the sanction of the Amateur Athletic Association of Canada, will hold the third annual boxing tournament to decide the amateur championships of Canada, on March 9th, 10th and 11th. The competition embraces seven classes, namely, special, 105 lbs. and under; bantam, 115 lbs. and under; featherweight, 125 lbs. and under; lightweight, 135 lbs. and under; Welterweight, 145 lbs. and under; middleweight, 160 lbs. and under, and heavyweight, no limit. It is open to Canadian amateurs only, who are members of a regularly organized athletic or sporting club. As the object of these contests is to encourage manly, scientific boxing, no slugging or prize-ring tactics will be tolerated. The winner in each class will receive a handsome gold medal, representing the Canadian Amateur Boxing championship of his class. Entry forms and all other particulars may be obtained from the secretary, 235 Yonge street, Toronto.

THE KENNEL.

The Kennel Club Gazette has the following kind remarks to make regarding the Peterborough Bench Show:

The new Peterborough Kennel Club can certainly be congratulated on giving a really creditable little show. The management this year was of a superior order. The building is an excellent one for the purpose, and considering that the mercury fell several degrees below zero, the building was fairly comfortable. Mr. Alf. Terrill, the secretary-treasurer, is a well-known literary man; his attention to his duties and his kindness and courtesy to exhibitors will long be remembered. Dr. Poole occupied the responsible position of Superintendent and "Vet."—all will agree, I am sure, in saying that he was "the right man in the right place." Mr. C. B. McAllister, chairman of the committee, is a thorough sportsman, and together with his excellent co-workers, who represent the "brains" of Peterborough, nothing but success could possibly follow anything they undertook to "push." The show was patronized by Peterborough's "smart set"—the pretty girl's being a show in themselves—naturally. The judge, Mr. H. W. Lacy, is too well and favourably known for comment. He discharged his duties in a masterly fashion, which inspired confidence, even to the novice.

The dogs were remarkably good, the quality being up to any show in Collies, Fox Terriers and Cockers. Many well known exhibitors attended the show in person, a flattering compliment in these days. Messrs. J. G. Kent, President of the C.K.C.; A. A. Macdonald, W. P. Fraser, H. Parker Thomas, H. L. Jeffrey, Jos. Reid (President Canadian Collie Club), H. B. Hungerford, Wm. Carnew, H. G. Charlesworth and many others.

CRICKET.

The annual meeting of the Cricket Club was held on Saturday evening. Owing to the intense cold the attendance was not large, but a very satisfactory financial statement was presented. The accounts were audited by Dr. Burnham and Mr. R. B. Rogers and found correct. The engagement of a professional was discussed, but the matter was left open, with a probability of an arrangement similar to that of last year, being made.

The British Foreign Office.

How many people are there who realise adequately how exhausting the work of a foreign secretary really is? It is the general impression that this minister is exercised only with great principles of policy and that he has little to do with the routine work of his department. This is a delusion, and in this connection the testimony of the late Lord Granville is interesting and to the point. "When," he said, "I first entered the foreign office in a subordinate capacity the dispatches were some 17,000 in the year. When I succeeded Lord Palmerston, they were 34,000; in 1870 they had risen to 70,000, and I believe they have now (1887) risen to more than 90,000. Lord Palmerston told us in 1859 that the routine work of the foreign office took him eight hours a day, and this exclusive of diplomatic conversations, parliamentary attendance and the performance of all court and social duties." It will thus be seen that the foreign secretaryship in ordinary times is the most arduous position under the crown. In extraordinary times its duties are overwhelming.—St. James Gazette.

Frozen Fog.

Spitsbergen is not an unbroken ice sheet, as many persons supposed it to be. Glaciers there are in plenty, but there is much open ground and fine mountain scenery. Fogs are prevalent, and Mr. Garwood described a peculiar effect due to this condition of the atmosphere which does not seem to have been ever noted by Alpine climbers. He has seen the face of a mountain covered with spicules of ice—a kind of exaggerated hoarfrost—some of the icicles standing out horizontally from the wall of rock and measuring as much as 18 inches in length. They are evidently generated by the action of fog and grow by the constant addition of moist particles. Fogs will often continue for many days together, and they are so dense that one cannot see a companion who is more than two or three yards away.—Chambers' Journal.

Incomes of British Families.

The number of families in the United Kingdom is just over 7,700,000. For the United Kingdom we get one income of $50,000 in every 2,500 families, one income of over $5,000 to every 130 families, one income of over $2,500 to every 75 families and one income of over $1,000 for every 14 families.—New York World.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box.

Silver Plating.

Silver plating neatly, promptly and cheaply done by the Peterborough Lock Manufacturing Company. Ladies' look over your silverware and when you have forks, knives, spoons or any pieces of silverware tarnished or plate worn off, bring it to us and have it nicely done over and made as good as new.—The Peterborough Lock Company. d

THE OLD BOWERY THEATER.

It Is the Most Interesting Theatrical Monument In America.

To thousands of Americans who travel in the east side elevated trains perhaps no sight is more familiar than the four cream colored Roman columns that uphold the entablature on which is written in letters of gold "Thalia Theater," but only a score or two of them, I suppose, are aware that the building is the most interesting theatrical monument in America.

The first theater on this site was opened in 1826, when, according to the records of Ireland, "the vast improvements made in the eastern section of the city * * * and its great increase of population, including many wealthy and fashionable citizens," led to the building of a theater in comparison with which, it was hoped, all other theaters "would sink subordinate." The opening of the theater was revolutionary enough. "The brilliant experiment of lighting the stage with gas, then first attempted, was hailed with the greatest satisfaction." The early history of the theater is curiously prophetic. The opening address proclaimed the high ambition of the managers:

At last, as Hope, bright, sandaled Hope, went by
She calls on Shakespeare, and her throne is won!
And ours is Shakespeare.

In the following year, however, the dominance of our classic drama was gravely threatened. "After a performance of 'Much Ado About Nothing,' a grand pas seul—'La Bergere Coquette'—was executed by Mme. Francisquy Hutin, her first appearance in America, and was the first introduction of the modern French school of dancing on the American stage.

"The house was crowded and an anxious look of curiosity and expectation dwelt in every face, but when the graceful danseuse came bounding like a startled fawn upon the stage, her light and scanty drapery floating in air, and her symmetrical proportions liberally displayed by the force of a bewildering pirouette, the cheeks of the greater portion of the audience were crimsoned with shame, and every lady in the lower tier of boxes immediately left the house. But time works wondrous changes, and though for a while Turkish trousers were adopted by the lady, they were finally discarded and the common ballet dresses, indecent though they be, were gradually endured."

Today the Americans who care for the classic English plays and can judge of them are a handful; the disciples of Mme. Hutin number hundreds of thousands, but by a curious trick of fate the Old Bowery has remained true for the most part to its traditions.—John Corbin in Harper's Magazine.

OAKEY HALL FOUND HIMSELF.

Woke Up Months After Leaving New York In London Lodgings.

Oakey Hall was once connected with an American paper in London. His aim was to achieve a high name at the English bar. He was the son of an Englishman, he told me once, and therefore he was in English law an Englishman whenever he chose to declare himself. He made no success because he lived wholly in the past and his mental inclinations were solely reminiscent.

From the day of his mysterious disappearance from New York he lost the power to utilize his brain in any way that could earn him a living. When he returned from Europe after that disappearance he and I were closeted for months together in the office of Mr. Hurlbert's New York World. Then it was that he told me the truth about his disappearance, and without knowing whether or not it has been published in America I will repeat it briefly.

He said that one morning he woke up in a hall bedroom in Mayfair, in the heart of London, and as he lay in bed looking with wonder at his surroundings a woman knocked and entered the room. She asked him if he would have his usual breakfast. He inquired what his usual breakfast was, and she, astonished in her turn, told him that he always had a pennyworth of tea, a penny roll, a penny pot of butter and an egg which cost a penny.

He asked her to sit down, and then, by eyes examining her, he found that he had lived a whole season in that house under a name he never knew, that he appeared to be "a city man" (English for a man in business), that he went out every morning, came back every evening, went very frequently to the theater, and was the quietest, most irreproachable, of all her lodgers. "In a word," he said, "I had lived the life of another man for months, unconscious of my own identity, unrecognized by any one, and fulfilling the well rounded half of a dual existence."—Julian Ralph in Providence Journal.

Growth of the Language.

"It seems to me, Henry," remarked the wife of a professor of English literature after the guests who had attended one of their "evenings" had gone, "that you treated Mr. Scollops with marked discourtesy."

"Oh, I did, did I?"

"Yes; you turned your back on him while he was talking to you and walked deliberately out of the room, muttering to yourself."

"I listened to him patiently enough," said the professor, "while he was telling me where he had 'Sundayed' the week before last. I stood it even when he observed that it always 'enthused' him to talk over old times, but when he asked me to come around some evening and 'reminisce' awhile"—and the professor walked to the window and cleared his throat vigorously—"it was all I could do, Hester, to keep from throwing him out of the house!"—Youth's Companion.

Her Admiration.

Big Brother—I should like to know what you have been flirting with that lunatic Saphead for?

Pretty Sister (indignantly)—I haven't.

"Yes, you have. He told a friend that you stood before him ten minutes as if entranced, and you looked straight into his eyes as if you could read his very soul, and he said if ever ardent admiration shone in a human face it did in yours."

"The idiot! I was looking at my own reflection in his eyeglasses."—London Standard.

So much depends on the purity of the blood that by taking Hood's Sarsaparilla many different diseases are cured.

Children Cry for
CASTORIA.

STOCK-TAKING HAS COMMENCED

Will take About Two Weeks to Complete.

As our stock is still heavy in certain lines of Fur Goods, we have decided to CONTINUE SALE DURING STOCK-TAKING TIME. This store will be open and help provided to show stock as usual. Prices on these "odd" and "heavy" lines of Furs will be reduced so as to ensure their certain disposal at once.

THE LEGISLATURE

Bills Introduced by Members and Given First Readings.

DEPUTATIONS WERE HEARD.

The Rumored Resignation of Hon. J. M. Gibson, Commissioner of Crown Lands, Denied—The Provisions of the San Jose Scale Bill—The Question of Labor Legislation Enforcement.

Toronto, Feb. 14.—The sitting of the Legislature yesterday would have been devoid of interest had it not been for the inquiry by Mr. Whitney respecting the statement which had received publicity that Hon. J. M. Gibson intended resigning his portfolio as Commissioner of Crown Lands. The Attorney-General promptly gave the story a denial, which Mr. Gibson afterwards corroborated in conversation.

Mr. Crawford (West Toronto), seconded by Mr. Foy (South Toronto), moved for leave to present his bill for an act to prevent the overcrowding of street cars. The bill passed its first reading.

The San Jose Scale.

Hon. Mr. Dryden (South Ontario) introduced his bill to prevent any further spread of the San Jose scale, and to extirpate the pest, if possible. The bill contains three main clauses. The first clause provides that in case of the discovery of a scale in nursery stock, the nurseryman is to be notified not to dispose of any of the stock till the inspector makes a full examination and reports it is safe to do so. A second provision permits the destruction of orchards, the trees of which are evidently infected, upon the report of the inspectors. The third provision, however, is the main one, and is directed not only against the scale, but also against all insect pests. It has been found that the nurseries are the breeding ground of these pests. Accordingly, the bill requires that all nursery stocks, whether grown in the country or imported, shall be fumigated with hydrocyanic acid gas. The bill was read the first time, and the second reading appointed for Thursday.

Mr. T. A. Wardell (North Wentworth) introduced bills to amend the Assessment Act and the Municipal Act, which passed their first reading.

Petitions Presented.

Mr. Crawford's bill for a Workman's Compensation Act is already beginning to make employers protest. Seven manufacturers or employers of labor in Tavistock have protested against it, and have sent in a petition praying that the act do not pass, alleging that it is unjust to the employer, a menace to the rights of the employer in his relation to the employed—more than any employe can reasonably ask for or justly claim—that it is not being urged as the solicitation of the employed and that the employed are already satisfied with the existing legislation safeguarding their rights, to which the proposed amendment is urged.

By Dr. Pyne, from George A. Cox and others, for an act to incorporate a railroad from a point at or near the present terminus of the G. T. R. at Haliburton to Whitney, on the Ottawa, Arnprior & Parry Sound Railway, thence in a northwesterly direction to Mattawa, on the Ottawa River, with power to equip and operate the same by steam.

By Mr. Conmee, from Edward V. Douglas and F. S. Lewis, Philadelphia; T. H. Clergne, New York; J. Clergne and H. C. Hamilton, Sault Ste. Marie, seeking incorporation of Algoma Central Railway Company, for the purpose of constructing and operating a railway from a point at or near Sault Ste. Marie to a point on the main line of the C. P. R., at or near Dalton Station, thence southwesterly to Michipicoton Harbor on Lake Superior.

By Mr. McNish, from 50 physicians, praying for better hospital accommodation and surgical appliances at the Asylum for the Insane, London.

By Mr. Foy, from Mayflower Association, K. of L., 6564, praying for an amendment to the Assessment Act to provide that no man will have his taxes increased because he improves his property. Petitions to this effect to equalize assessment were received from various organizations.

By Mr. Barr, from County Council of Dufferin, praying for amendment of the License Act, giving license commissioners power to grant extra licenses where they deem it necessary.

Mr. Gibson's Rumored Resignation.

The Attorney-General having moved the adjournment of the House, Mr. Whitney called attention to the rumor in an evening paper that Hon. J. M. Gibson was likely to retire from the Cabinet, and interrogated the Premier as to the bona fides of the statement.

The Attorney-General, in reply, said: "I have not heard it; but, then, I do not profess to be as far advanced with the news as the evening papers, or even the morning papers. I can but say, so far as the Cabinet is concerned, that it has not been made known to them that this is the intention of Mr. Gibson. I believe he is to arrive in town to-day. That is, this afternoon. I apprehend he will be found filling his chair in the Crown Lands Department, as heretofore."

ASSEMBLY NOTES.

The budget debate will be resumed by Mr. Conmee to-day.

T. D. Hodgins, member for East Middlesex, who has been prevented from attending the session owing to illness, is recovering.

The Hamilton, Chedoke & Ancaster Electric Railway wants its name changed to the Hamilton, Ancaster & Brantford Railway, and also an extension of running powers.

Whitby town will ask the Legislature to sanction a bonus of $10,000 to a leather factory. The Town of Winchester wants power to give a $10,000 bonus to a pork packing establishment.

A deputation from the Dominion Trades' Congress waited upon Premier Hardy yesterday, not to ask for new legislation, but to request that the laws regarding labor now on the statute book be enforced. Prison labor and the inefficiency of Factory Act inspection were dwelt upon most strongly. The Premier promised full consideration to the representations made.

To a single tax deputation yesterday, at the close, Premier Hardy said they had listened to a very interesting topic, one on which knowledge was increasing. They might not agree with a good deal of what had been said—certainly not with the definite way in which they stated the Almighty had done this or that. He thought it the highest justice to tax personal property. Although he could not agree with the deputation, many of their arguments he accepted. The amount of feeling they had thrown into the discussion of the subject was a sign of progress. But the question must be decided on pure business principles, not from a missionary or religious aspect.

An Emphatic Denial.

Toronto, Feb. 14.—Hon. Mr. Gibson arrived in town last night, and was present when the deputation waited on the Government. He looks much improved in health, and gave an emphatic denial to the rumor that he was contemplating resigning from the Cabinet.

CANADIANS DIVORCED.

Mrs. Sheldrake Went From Peterboro, Ont., to N. Dakota and Secured the Man of Her Choice.

Peterboro, Feb. 14.—Word has reached here that Mrs. Sheldrake, formerly of Lakefield, and well known in social circles here, has been granted a divorce in North Dakota from her husband, Mr. Sparham Sheldrake, at one time principal of the Lakefield preparatory school for boys, and known as a literary writer of some ability. Immediately after the divorce had been granted, Mrs. Sheldrake was married to J. M. Irwin, a former prominent resident of this town, having been engaged extensively in the lumber business for many years. Lately he has been connected with the mining business in Rat Portage. Mrs. Sheldrake went to North Dakota some months ago with her children and obtained the divorce on the grounds that her husband had not supported her or her children. Mr. Irwin also resided in the same State for a couple of months, and succeeded in securing a divorce from his wife, who resides in Toronto.

THE STEAMSHIP BULGARIA.

Only the Rudder Was Injured—An Assuring Statement.

London, Feb. 14.—The Hamburg-American Steamship Company has issued an assuring statement regarding the company's steamer Bulgaria. The company's statement is to the effect that they have been advised that the Bulgaria's rudder was injured, but that her commander, Capt. Schmidt, one of the oldest and most efficient ship masters, evidently considered the situation so free from danger that he declined the Wesbawken's offer to take the Bulgaria in tow. The company has taken steps to render assistance to the steamer.

Little Fellow Kicked to Death.

Leduc, N.W.T., Feb. 14.—Claude, the 10-year-old son of Mr. Featherston, has just met a horrible death. He was watering the horses a mile from his father's house, and, as the weather was cold, he tied the rope attached to the halters around his waist. The horses were chased by a dog, and the little fellow was dragged to the ground and kicked to death.

MAN BURNED TO DEATH

An Only Son Suffocated at the Gananoque Bolt Factory Fire.

MRS. O'HEARN DIED FROM BURNS

The Montreal Bank at Pieton the Scene of a Gasoline Explosion—Digby, N.S., Loses Most of Its Principal Business Blocks by Fire—The Loss Is Very Heavy.

Gananoque, Ont., Feb. 14.—Part of the George Gillies bolt factory was destroyed and part of the main bolt shop damaged by fire last evening at 6.30. It is impossible to estimate the damage at present, though it will possibly exceed $15,000. W. Ramsay, a machinist, employed in the factory, entered the shop to secure his tools, and was suffocated by the smoke. A fireman brought his body out. Three doctors worked over Ramsay without success, life being already extinct. His family are heartbroken with grief, he being the only son and eldest child.

DIGBY, N.S., BADLY SCORCHED.

Most of the Principal Business Blocks of the Town Destroyed.

Digby, N.S., Feb. 14.—A fire was discovered in Letteney & Bros.' drygoods store, about 10.30 last night. It spread very rapidly, burning the principal business portion of the town buildings. From Jenner's drug store to Shreve's block was all consumed at 12.45. The principal buildings burned are: Janner's drug store, G. F. Stone's drygoods and hardware establishment, Letteney Bros.' drygoods and general merchants; Burnham, grocery block; Waverley House, Lindstrom's jewelery store, Shreve's block, including law offices of T. C. Shrevet, town office and Short's boot and shoe store; Turnbull block, including postoffice and ten or 12 buildings and restaurants, small confectionery stores, etc. Great fears are entertained for the Dufferin Hotel and Bank of Nova Scotia building. The D. A. R. property, much damaged at first, is past all danger now (1.15 a.m.). The origin of the fire is not known as yet. The fire is not yet under control.

Mrs. O'Hearn Is Dead.

London, Ont., Feb. 14.—Mrs. O'Hearn died yesterday morning, after having lived a day in great suffering as a result of the terrible burns received on Saturday, when her dress caught fire from a stove. Deceased leaves a family of several grown-up sons and a daughter, besides her aged husband.

A Picton Bank Scorched.

Picton, Ont., Feb. 14.—A gasoline stove explosion yesterday in the Bank of Montreal badly damaged the office, but the firemen by their efforts confined the fire to the building. The business will be carried on in the Martin block nearby until repairs can be made. The building was fully insured.

WHO OWNS THE MONEY?

A Mixed-Up Criminal Case From Old Quebec.

Quebec, Feb. 14.—Two young men, between 17 and 18 years old, named Frank O'Brien and John Dixon, charged before the Police Court yesterday with shooting, were found in possession of over $2,200 in crisp bank notes, the former $245, and the later $1,976. Several different stories as to where they got the money are in circulation. The most probable theory or conjecture is very compromising for one of our best known citizens. The party who has been wounded by Frank Dixon, a young man named Peppin, is expected to recover. He underwent an operation in the afternoon to extract the ball, but it was not successful.

AN ANNEXATION SCHEME.

Montreal Will Try to Bring in All Outstanding Municipalities.

Montreal, Feb. 14.—Mayor Prefontaine says he will push through in the near future the annexation scheme, by which all of the outstanding municipalities are to be brought under the city government.

Mr. W. G. Reid, contractor for the Midland Railway of Nova Scotia, awarded yesterday to the Dominion Bridge Company all the steel superstructure required for the bridges on the line, amounting to 17 spans.

A Train Wrecked.

Pittsburg, Feb. 14.—An accommodation train of the Pittsburg & Lake Erie Railroad was wrecked yesterday afternoon near Fleming Park, opposite Davis Island. The fireman, W. A. Campbell, was injured so that he died, and 17 passengers were badly injured. The wreck was caused by a broken rail.

Miners Killed by Black Damp.

Diamondville, Wyo., Feb. 14.—John T. Russell and E. T. Wright were killed last night by black damp in the Diamondville mine. Ten others were overcome, but were rescued in time to save their lives.

Record Mile on Snowshoes.

New York, Feb. 14.—Charles Clinton Gladwin of Montreal created a new world's one-mile record for running on snowshoes in Central Park yesterday afternoon. In the face of the cutting snow and a strong wind, he ran 1,700 yards in the marvelous time of 4 minutes 59 seconds. His friends were prepared to see him create a new record, but they were utterly astounded when he reduced the old figures almost a minute.

Well Made and Makes Well

Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It entirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1; six for $5.

Hood's Pills cure all Liver Ills and Sick Headache. 25c.

Barristers, Etc.

Daily Examiner.

TUESDAY, FEBRUARY, 14, 1899.

LIGHT WANTED.

Sir Charles Tupper is going up into West Huron to take a hand in the bye-election contest in that constituency. Let us hope that he will give us some glimpse of the plans and purposes of the Conservative party. For the moment one cannot tell in what direction the party leaders are going.

One wing is cursing corporations and the other wing is nursing corporations.

One is for high protection of the old red-parlour brand, the other for a preferential tariff with Great Britain, or even the Fielding preference for British goods.

One voice declares that the Canadian commissioners at Washington are not earnestly seeking trade reciprocity, another shouts for non-intercourse with the United States.

Sir Charles Tupper himself is organising in Quebec; the Winnipeg organ founded by Mr. Hugh John Macdonald and his associates denounces the French-Canadians and wants Quebec to stew in its Laurier juice.

Mr. Foster is in New Brunswick violating the new Whitney doctrine of non-relationship between Provincial and Federal parties, and finding his justification probably in the compact made between Sir Charles and Mr. Whitney in the Mail building.

Upon one thing only are the leaders united. They are for the maintenance of the Senate as it is, and we do not forget that the Senate as it is is Tory.

It would be good, too, to have some assurrance that what Sir Charles Tupper may say will go, and that if he should endorse a Teslin railway contract or some other project of the Government designed to hold an enormous trade for the merchants and manufacturers of Canada he will not be forced to shift his ground at the demand of other leaders in his party.

It is a bad thing for a party to have too many leaders in Parliament; it is a bad thing for leaders to have too few votes in the constituencies.

The Conservative organization just now is labouring under both of these disabilities, and we cannot quite tell the voice from the echo, and do not quite know whether the party is crossing the fields or going round by the concession.

But, in any event, Sir Charles Tupper is a brave, spirited, astonishing old man, and we shall all listen with interest to what he may say in West Huron, and rejoice that he bears so well the weight of years and keeps so untamed the fighting spirit that has made him a conspicuous figure in so many fierce and memorable political contests.—Globe.

FARMERS' INSTITUTE.

The following is Clipped from Report of the Dominion Commissioner of Agriculture & Dairying.

What are called Farmers' Institutes are educators of exceedingly great values in rural communities. They are voluntary associations of men and women similar in organizations to Farmers' Clubs for the discussion of matters affecting the agricultural interests of the locality. One may be founded in every electoral district and receive a small annual grant—usually £10—from the Provincial Government. To entitle it to the grant there must be fifty members, and at least two public meetings annually. The institutes in the Province of Ontario may be taken as typical, although more advanced than those in the other provinces. There is now a Government officer who is Superintendent of Farmers' Institutes for the province. He arranges for several corps of speakers who attend meetings for one, two or three months. These men are expert authorities on some particular branch of farm practice. During one month each corps of speakers—and there are now, I think, ten or eleven of them, composed of from three to five speakers each—includes a representative of the Ontario Agricultural College, who may be one of the professors or head of a branch. The winter meeting of an Institute usually lasts two days. In addition to the lectures from the visiting speakers there are addresses and papers from men and women of the locality. By these means the best information of the best informed on the particular subject is put before the others. What was before the possession of only the few is made common property for all. Discussions clear away the indefinite and bring out the apt, practical and helpful points. These meetings are attended by men and women, and at a few of them there are demonstrations in cooking and papers on household economy. When the Institutes were begun in 1885 the questions asked in the discussions were often of a purposely puzzling sort. Now they are eager inquiries for information which can be turned to practical benefit. They carry useful information direct to the homes of the people, and we find that our people are exceedingly receptive of all information of that kind.

THE COLD SNAP

Causes Wide-Spread Suffering and Death as Far South as Alabama—Threatened Coal Famine at Pittsburg, Pa.

Pittsburg, Pa., Feb. 14.—A coal famine is threatened here. The total coal supply now in the Allegheny and Monongahela Rivers at Pittsburg does not exceed 1,000,000 bushels. The daily consumption is 200,000 bushels, and there are orders for instant delivery of at least 400,000 bushels. The rivers are frozen up tight and the railroad freights are not moving. Coal has advanced from 5½c to 10c a bushel, and in some cases is selling as high as 25c. Hundreds of wagons are waiting on the wharves to load and thousands of orders for fuel are being received that cannot be filled. The situation is the most critical in years. There are millions of bushels of coal in barges up the river, but there is no way to get it here. The situation has become so desperate that an effort is being made to break the ice on the Monongahela as far as locks No. 2 and 3, above which it is said there is coal enough to supply Pittsburg and Allegheny for a month, if all other sources of supply are cut off.

Mail Service Paralyzed.

Washington, Feb. 14.—The railway mail service is paralyzed by the storm and mails are at a standstill throughout the Atlantic regions. No through trains arrived from the west over the Pennsylvania road during the day, and only one over the Baltimore & Ohio. The only outbound train started on the Pennsylvania was an extra, pulling out at 4.30 yesterday afternoon for the east.

Fatalities at Philadelphia.

Philadelphia, Feb. 14.—Three fatalities incident to the storm were reported:

John W. Yeamens, aged 69, fell dead at 17th and Cherry streets, and Benjamin Zeeble, aged 70, became unconscious at 7th and Cherry streets, and died before he could be placed in the hospital ambulance, which was called. James Hall was found dead in the yard of the Patterson Club at 905 South Camac street.

Horses Are Starving to Death.

Long Creek, Oregon, Feb. 14.—Thousands of range horses are said to be starving to death in eastern Oregon. Cattle and sheep buyers who have recently visited this city, and who have also been in the counties of Crook, Gilliam, Morrow, Baker and many others, say that in every section they visited the owners of both horses and cattle had despaired of saving more than a small percentage of their stock.

Coldest Ever Known.

Louisville, Ky., Feb. 14.—The coldest weather ever known in Kentucky was recorded yesterday. At Louisville the thermometer only reached ten below, but the State suffered much more. Lebanon showed a temperature of 30 below, Carlisle 30, Princeton 30, and the highest recorded in reports from 25 stations was 13 below. At Paducah a negro woman and her child were frozen to death in the field. The Ohio River is fast freezing.

Frost Killed People in Alabama.

Montgomery, Ala., Feb. 14.—The weather yesterday was the coldest ever known here. The temperature at 5 a.m. was five below zero. The lowest previous record, in 1886, was five above zero. Two negroes were found in the morning frozen to death.

RHEUMATISM CURED.

Mr. F. H. Cole, Well-known in Windsor, Rejoices.

Because he Used Dodd's Kidney Pills and was Thoroughly and Permanently Cured of Rheumatism—Dodd's Kidney Pills always Cure Rheumatism.

Windsor, Feb. 13th.—Who hasn't felt the torturing twinges of rheumatism? It is safe to say that there are not one hundred families in Canada in which Rheumatism has not been an unwelcome visitor.

This being the case, the following statement given for publication must have a deep and abiding interest for the great majority of Canadians.

Every person who suffers from rheumatism will rejoice to find a medicine that will positively cure it; thoroughly and permanently root it out of the system entirely, as it has been shown thousands of times Dodd's Kidney Pills do.

Mr. F. H. Cole, whose permanent residence is in Detroit, Mich., but who is equally well-known in Windsor, Ont., had been a great sufferer from Rheumatism and Kidney Disease.

He gave fair and patient trial to a number of so-called "Rheumatism Cures," etc., but not one of them gave him more than even temporary relief.

Then a friend urged him to give Dodd's Kidney Pills a trial. Half reluctantly he did so, and he has been thankful ever since that he did so.

He used only four boxes, but that quantity was sufficient to clean the taint out of his blood thoroughly. To-day he is sound and well in every bone, muscle, sinew, nerve and organ in the body—thanks to Dodd's Kidney Pills.

Dodd's Kidney Pills, the only known unfailing cure for Kidney Complaints, are sold by all druggists, at fifty cents a box, six boxes $2.50; or sent, on receipt of price, by the Dodds Medicine Co., Limited, Toronto.

WARDE & HAMILTON

Stove and Hardware Merchants, George Street.

NEWS IN A NUTSHELL.

Winding-up proceedings have been begun in Hamilton in the case of the Royal Templar Publishing Co.

Mr. Bernard B. Hughes of the former drygoods firm that occupied The Globe building in Toronto, is dead.

Marquis Arguelles, it is publicly announced, is to be the official representative of Spain at Havana. His secretary is Jose Arrarte.

A petition is in circulation in Hawaii to grant an annuity to Princess Kaiulani, the daughter of the dethroned Queen Lilliuokalani.

Many vessels have been driven ashore, and reports of the stranding of others are being received from everywhere on the English coast.

Chief of Police Powell of Ottawa intends introducing a system of photography in connection with the police station there at an early date.

The steamship Gaspesia of the new Canadian Line, plying between Paspebiac, Que., and Milford Haven, is fast in ice among the Magdalen Islands, and may be held there all winter.

Of the 25 Italians buried in a snowslide at Silver Plume, Col., on Sunday, eight bodies have been recovered. The snow avalanche carried away a dozen cabins with all their inmates.

The White House at Washington was practically closed on Monday, owing to the severe weather. Speaker Reed was afraid to venture out, and sent word to cancel the sittings of Congress.

The range in Mrs. Bickerton's home on Wellington street, Woodstock, Ont., was blown to pieces on Saturday morning because a fire had been started while there was frost in the water front of the range. The kitchen was badly damaged by the flying pieces of the range.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets All druggists refund the money if it fails to cure. 25c.

The Mouth of the Horse.

It is to be regretted that the cavalry (mounted) could not have been used at the front in the war now closed, says a correspondent of The Breeder's Gazette. It would have demonstrated to the rising generation that horsemanship is an art not lost, but urgently needed in every young man's education. The First Ohio cavalry, in camp at Chickamauga and later Lakeland, Fla., gave to many of the young citizens of three of the largest cities in their state an experience they never thought necessary previous to enlistment. To be placed where one can and does study the disposition of a horse always broadens a growing mind. Undoubtedly the best place to do this is in the saddle. The mouth of a horse can be called the sea of learning, and the most instructive drill indulged in by the cavalry is the act of swimming horses, for here a rider is brought at once to a full realization of the horse's mouth as it should appear to him under all circumstances. With a viselike grip of the knees, that is hard to retain against the force of the water, any move against the mouth more than the slightest pressure in directing his course imperils the safety of the rider.

Those Tired Kidneys.

Dr. Chase's Kidney-Liver Pills help tired kidneys to do what they must do if you are be a healthy man or woman.

CIRCULATING MUSIC.

Is Proves a Popular Department of the Brooklyn Library.

The Brooklyn library established its department of music in the autumn of 1862. The idea of circulating music in the same manner as books was suggested by one of the directors of the library, who supplemented his suggestion in a most practical manner by supplying funds for the purchase of 400 volumes. The selection of this music was made by a competent man at that time connected with a large music importing house in New York and indeed in the several additions subsequently made the selection has been made by men of musical education and possessing a wide acquaintance with the works of the most noted composers and therefore better fitted for the requirements of the case than a librarian more closely acquainted with books than with music. The collection is largely for single piano (two hands) this being most in request, but there is much that is arranged under other headings, such as "Piano Duets" (four hands), "Two Pianos" (eight hands), "Violin and Piano," "Vocal Music," "Songs," "Oratorios," "Operas" and the like.

The rules for circulation are the same as with books. Readers who apply first for a work that is in demand get what they require without delay; others necessarily wait until later, as is usual in a circulating library. The collection now numbers 2,000 volumes, exclusive of works on the theory and practice of music and musical biographies. The annual circulation from this class is about 6,000 volumes. Two or three special bulletins have been issued devoted to music alone. The more recent additions are given under a separate heading in the book bulletins occasionally published. But for use at the library the collection is given in one complete list under the usual headings in a Rudolph indexer book, instead of with the book additions in the card catalogue.

On the whole, the musical department has been very much appreciated and has proved a satisfactory investment. Its use shows that there are among the members many who study music and who recognize the advantage of a large collection from which to make selections for home practice.—Brooklyn Eagle.

A Little Too Far.

"There is such a thing as overdoing your part," declared a man of the law who now has the knowledge gained by much experience.

"Shortly after I began practice in the west I was called upon to defend a man who had drawn a revolver on another and threatened to kill him. The accused did not have a character above reproach, but the prosecuting witness was also shady in reputation, and I made the most of this fact. I pictured him as a desperado of the most dangerous type, a man that was a constant menace to the community and one who would recognize no other law than that of force. Such men as he, I insisted, made necessary the organization of vigilance committees and injured the fair name of the west among the older communities of the country.

"The jury returned a verdict of guilty and my man was sentenced to a year's imprisonment. As soon as court adjourned the foreman of the jury came to me and said: 'Young feller, you spread it on too thick. After that there rip snortin speech of yourn we couldn't do nothin else 'an what we done.'

"'I don't understand you, sir.'

"'You don't? Why, we found the durned gerloot guilty 'cause he didn't shoot.'"—Detroit Free Press.

So much depends on the purity of the blood that by taking Hood's Sarsaparilla many different diseases are cured.

Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other, as all Mixtures, pills and imitations are dangerous. VALUABLE Residential Properties FOR SALE In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Containing ten rooms. House in good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containg seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 108 feet square.

Parcel No. 4. Brick residence, corner Wolseley and Benson streets. Two storeys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 108 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases.

Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

Broken Prices

[Sole Peterborough Agent—ALEX. ELLIOTT]

How Old She Looks

Poor clothes cannot make you look old. Even pale cheeks won't do it.

Your household cares may be heavy and disappointments may be deep, but they cannot make you look old.

One thing does it and never fails.

It is impossible to look young with the color of seventy years in your hair.

Ayer's Hair Vigor

permanently postpones the tell-tale signs of age. Used according to directions it gradually brings back the color of youth. At fifty your hair may look as it did at fifteen. It thickens the hair also; stops it from falling out; and cleanses the scalp from dandruff. Shall we send you our book on the Hair and its Diseases?

The Best Advice Free.

If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address, DR. J. C. AYER, Lowell, Mass.

CANADA AT PARIS.

The Exact Space the Dominion Is to Get Is at Last Fixed—Our Largest Display.

Ottawa, Feb. 14.—The result of recent negotiations between the Hon. Mr. Fisher, president of the Canadian board of commissioners, and Lord Strathcona, representative of Canada on the Imperial royal commission executive, is that Canada is to get 12,000 square feet of space in the general buildings at the Paris exhibition, instead of 15,000 feet as had been previously announced, and in lieu thereof 3,000 feet additional space is granted in the colonial building. This will make the total amount of space allotted to Canada in the colonial building 27,100 feet, the greater part of the 36,000 feet contained in this building. In the general and the colonial sections the space, as before, aggregates 39,100 square feet. It has been arranged that the Canadian exhibits in the colonial building will compete with the rest of the world, and receive awards just as if they were shown side by side with them in the general buildings. The largest display will be made in the following lines, indicated approximately in the order of their importance: Farinaceous products, general and their derivatives; preserved goods, including a small proportion of beverages; the working of mines, quarries and their products; agricultural implements, processes; raw agricultural products, animal and vegetable; textile fabrics, cottons and woollens, and clothing generally, together with the plants and processes; products of the forest, hunting and sporting equipments, game, etc., including fishing appliances, tackle products and fish culture; carriages, wheelwrights' work, bicycles, etc.; railway and tramway plant. Next in order of the distribution of space by the board of commissioners are: Horticultural products, plants and tree culture, nursery seeds and stock; the exhibit of pulp and paper; household and art furniture; ranges, furnaces and heating apparatus generally; education, musical instruments. There are smaller exhibits of photography, electricity, boats and canoes, fruits and fruit trees, metal working, carpentry and joinery, leather and skins, tobacco and matches. The board of commissioners met here yesterday in the office of the Minister of Agriculture, and have about completed the work of selecting the various classes and making a proportional allotment of the available space among them. Special work has been assigned to each commissioner, who will report to the board at their next meeting to be held about the 1st of March.

ONE HAPPY WOMEN.

Got Health and Happiness From Dodd's Kidney Pills.

London, Feb. 6.—This city can claim one of the happiest, healthiest women in Canada.

Her name is Mrs. J. Osborne. She lives at 324 Grey street, and she has this to say to her sisters throughout Canada.

"For eight years my life was made miserable by Female Weakness. I used many different medicines, but none did me any good till I started to take Dodd's Kidney Pills.

"The first dose of this wonderful remedy gave me relief. I grew better with every dose, till, when I had taken three boxes, I was totally cured."

Dodd's Kidney Pills are the only medicine on which women can confidently rely for a positive cure.

ENDING OR MENDING.

Two Positions Taken by Liberals in the Imperial Commons.

ATTACK ON THE HOUSE OF LORDS

Mr. Henry Labouchere Champion of the First—Sir H. Campbell-Bannerman, the New Leader, Takes the Second Position—Reply of Mr. Balfour and Defeat of the Proposed Amendment.

London, Feb. 14.—In the House of Commons yesterday Mr. Henry Labouchere, Liberal member for Northampton, made his annual attack on the House of Lords, with a view of limiting its veto power, from which, he said, Liberal measures invariably suffered. He moved an amendment to the address to the throne providing that bills adopted by the Commons in *one session* and *not* adopted by the Peers, should, if re-passed by the Commons at a subsequent session, become the law of the land.

After a discussion of Mr. Labouchere's amendment, Mr. John Lawson Walton, Liberal member for South Leeds, proposed an amendment to the address, declaring that the powers now possessed by the House of Lords of overruling the decision of the House of Commons demanded urgent attention of Parliament.

Sir Henry Campbell-Bannerman, the newly-elected leader of the Liberals in the Commons, supported the Walton amendment. In the course of a vigorous speech he denied that the Liberals were actuated by partisan spirit in raising the question, but the House of Lords, he declared, had always formed a continuous and stereotyped anti-Liberal majority. "On patriotic and constitutional grounds," said Sir Henry, "the situation is full of danger; and no dispassionate man can deny the anomally and absurdity of a House of Lords in the face of a representative system of Government. The Liberals desire to guard the rights of the representative chamber, while giving to the House of Peers a reasonable power or criticism and advice."

Mr Arthur J. Balfour, Government leader, said there was no middle course between the policy expressed in Mr. Labouchere's amendment and the policy of leaving the House of Peers in its present position. He declared it to be his firm conviction that the Liberals, in proposing constitutional reform, were really acting in the interests of the party.

The House then rejected both amendments—Mr. Walton's by 257 against 107, and Mr. Labouchere's by 283 against 105.

TAKING OF ILOILO.

Success Crowns Another Bombardment in the Philippines by the American Navy—News From General Miller.

Manila, Feb. 14.—(9.35 a.m.)—The United States forces, under Brigadier-General Miller, ca ptured Iloilo, capital of the Island of Panay and seat of the so-called Government of the Visayan Federal Convention, on Saturday last, after a bombardment.

The rebels set the town on fire before evacuation, but the American troops extinguished the flames. There were no casualties on the American side.

Despatches From Miller.

Manila, Feb. 14.—(9.45 a.m.)—The United States gunboat Petrel arrived late last evening with despatches from Brigadier-General Marcus P. Miller to Major-General Otis, announcing that Iloilo had been taken by the combined military and naval forces on Saturday morning.

General Miller, on receipt of his instructions from Manila, sent native commissioners ashore from the U.S. transport St. Paul with a communication for the rebel Governor of Iloilo, calling upon him to surrender within a time stated, and warning him not to make a demonstration in the interval. The rebels immediately moved their guns and prepared to defend their position. Thereupon the Petrel fired two warning guns, the rebels immediately opening fire upon her.

The Petrel and the Baltimore then bombarded the town, which the rebels, having set on fire, immediately evacuated.

American troops were promptly landed and extinguished the fires in all cases of foreign property, but not before considerable damage had been done. It is believed the enemy's loss during the bombardment was heavy, but no American casualties were reported.

Pte. Melsick of the Montana Regiment, who was shot in the lungs in the fighting Feb. 4 and 5, died in the hospital yesterday.

All the enemy's dead at Caloocan have been buried—127 last Sunday and 500 yesterday. The United States cruiser Charleston has moved up the coast and is now off Malolos, the seat of the so-called Filipino Government, at a distance estimated at about eight miles.

KIDNEY DISEASE

Being Driven out of

MONTREAL.

Doan's Kidney Pills Doing It.

It is a recognized fact that kidney troubles and Doan's Kidney Pills cannot remain together. Soon the kidney disease succumbs to the magic power of these marvellous pills. Whether it be a slight backache or an excruciating, knife-cutting pain, Doan's Kidney Pills bring prompt relief. Even in the severest cases of Diabetes, Dropsy, Bright's Disease, Gravel, Scalding of the Urine, Rheumatism or Lumbago, they are always effectual—never have they been known to fail.

Mr. J. Maguire, the well-known picture framer, 2322 Notre Dame St., Montreal, Que., says: "For two years I have suffered with pain in my back, headache, dizziness, poor appetite, hot flashes extending up to and over my shoulders, so much so that I sometimes could not work.

"At times I was almost blind from a film which seemed to come in front of my eyes, and I can assure you that I had little hopes of a cure, when I saw Doan's Kidney Pills advertised. However, I tried them, and obtained great relief almost immediately.

"Their good effects were felt from the first few doses, and to-day I am all right, thanks to Doan's Pills."

Doan's Kidney Pills are sold by all druggists at 50c. a box, or 3 for $1.25. The Doan Kidney Pill Co., Toronto.

Three Years in Bed.

From Kidney Disease—Although a Man of Three-Score and Ten, Dr. Chase's Kidney-Liver Pills gave him back perfect health.

This is to certify that I was sick in bed the most of the time for three years with kidney disease. I took several boxes of pills—different kinds—and a great many other kinds of patent medicines; besides that I was under treatment by four different doctors during the time and not able to work. I began to take Dr. Chase's Kidney-Liver Pills, and since that time have been working every day, although a man nearly 70 years of age. Dr. Chase's Kidney-Liver Pills have cured me.

JAMES SIMPSON,
Newcombe Mills, Ont.

If the Kidneys are not in a perfectly clean and healthy condition, the blood becomes impregnated with impurities, and a decay of the Kidneys soon takes place. Bright's Disease, Diabetes, Gravel, Stone in the Bladder, Inflammation of the Bladder, and a long list of Kidney diseases become seated, and sooner or later in so many instances end fatally. Dr. Chase's Kidney-Liver Pills cure all Kidney troubles. Sold by all dealers, price 25 cents per box.

RUSSIANS FLOODING CHINA.

A Full Army Corps Has Been Added to Garrisons Around Port Arthur.

Hongkong, Feb. 14.—The Russian Government is pouring troops into Port Arthur and Talienwan, on the ground that the force now garrisoning those places is too small in view of the apparent discontent of the inhabitants of Liaotung Peninsula, who have within the last two months risen up against the Russians in 13 towns and districts.

No less than 9,000 men have landed at Port Arthur within a month, and it is intended to add 25,000 more before the end of the Chinese first moon, making a full army corps of some 30,000, in addition to the garrisons of 15,000 men for Port Arthur and 8,000 for Talienwan.

$20,000 to Find Andree.

Stockholm, Feb. 14.—Leading citizens of Stockholm have subscribed $20,000 toward the fitting out of an expedition to search Greenland for some trace of Prof. Andree. It is believed that the expedition, whether or not it fails of its object, will add to the fund of knowledge regarding the little-explored interior of Danish America.

Divorces in England.

London, Feb. 14. — Baron Karl de Merck has secured a divorce on the ground of adultery committed by his wife with her maid's brother. The Baroness was formerly Miss Lillian Young, and is said to be an American woman.

Francis C. Baring was yesterday awarded a decree of divorce on the ground that his wife had been guilty of adultery with his cousin, the Hon. Reginald Thomas Dudley Brougham, brother of Baron Brougham. All the parties to the suit are well known in society.

ITALY AND FRANCE

Said to Have Agreed in a Position Antagonistic to Britain.

London, Feb. 14.—Italy and France, says the Rome correspondent of The Daily Mail, have agreed to share possession of Cape Dumeira, on the Raheita coast, at the southern extremity of the Red Sea. It is expected that France will fortify her portion of the Cape. In the opinion of the correspondent, the British fortifications at Perim, in the Straits of Bab-el-Mandeb, at the entrance to the Red Sea, opposite the Raheita coast, will lose much of their strategic value by this Italian concession to the French Government.

DREYFUS WILL NOT ANSWER.

Devil's Island Prisoner Claims His Statements Are Violated.

London, Feb. 14.—The Daily Telegraph publishes the following despatch from Cayenne, capital of French Guiana:

"The judicial officer who has just returned here from a visit to Dreyfus, on the Isle du Diable, informs me that the prisoner is in good health, but declines to reply to the written interrogations of the Court of Cassation, on the ground that his answers are inaccurately transmitted to Paris."

NERVES PARALYZED.

Nervous Prostration So Severe, Lost Power of Hands, Side and Limbs But South American Nervine Beat off Disease and Saved Her.

Minnie Stevens, daughter of T. A. Stevens, of the Stevens Manufacturing Co., of London, was stricken down with a very severe attack of nervous prostration, which resulted in her losing the power of her limbs. She could not lift or hold anything in her hands, and other complications showed themselves. Her parents had lost hope of her recovery. She began taking South American Nervine, and after taking twelve bottles she was perfectly restored, and enjoys good health to-day. Sold by H. S. Macdonald, and Ormand & Walsh.

Advertising in THE DAILY EXAMINER brings the best results.

THE ODORLESS CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,
JAMES CONWAY.

Shedden, February 28th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long left want and I believe it will become very popular especially in rural districts, towns and villages where we in are so frequently contaminated by the ordinary closets. I am, yours, etc.
W. H. MORRISON.

Medical Superintendent's Office, Sept. 20th, 1897
Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 20 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once, before it has a chance to vitiate the surrounding atmosphere.
Yours truly. JAMES RUSSELL, M.D.

Binbrook, Sept. 29th, 1897.

Dear Sirs—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country homes. Yours truly,
M. J. MULLOCK.

A NEW INVENTION

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practising. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Upright and Square Pianos of the various makes taken in part exchange for the famous NEWCOMBE PIANOS. Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

The Season of Lent.

To-morrow (Ash Wednesday) will be the beginning of the Lenten season. At St. Peter's Cathedral two masses will be celebrated in the morning, at 7 and 9 o'clock, and devotions in the evening at 7.30. Mass will be held every Wednesday and Friday evening during Lent. On Sunday the regulations for Lent were read by Very Rev. Archdeacon Casey. Owing to the anniversary of [illegible] a special discourse [illegible] Lenten regulations of former years have been somewhat modified.

CHARLOTTE STREET CONCERT.

A Most Pleasing Programme Furnished Last Evening in the Church.

Charlotte street Church is acquiring a very enviable reputation for the success which invariably attends the entertainments given during the last few years, caused no doubt by the fact that the public has never been disappointed in the programme, the greatest care being always exercised in this particular.

Last evening another delightful programme was given to a large audience, which fully appreciated the excellence of the various numbers.

Miss Ethel Webb, who won for herself some time ago, a warm place in the hearts of the lovers of the histronic art, was the star of the evening, an encore of her every number being insisted upon by the thoroughly pleased audience. The versatility of the talented elocutionists was shown by a wide range in her selections, but perhaps those which were the more enthusiastically received were the portions of "Idols of a King," which were given with great dramatic ability.

Miss Webb was assisted during the evening by Mr. W. Graham Hodgson, of Toronto, and Miss Florence Hall, of the Charlotte street choir. The former's numbers were "The Children's Home," "Hungarian Love Song," "Forever with the Lord" and "The Bloom is on the Rye." The last selection was particularly pleasing, although all of Mr. Hodgson's numbers proved most enjoyable. Miss Florence Hall's rendition of "The Carnival" was a most charming addition to the programme, her clear soprano voice being heard to great advantage.

A VALENTINE SOCIAL.

An Interesting Event in All Saints, Church Last Evening.

All Saints' school room was crowded to the doors last evening with an audience that thoroughly enjoyed itself with the evenings programme presented.

The entertainment was in the form of a valentine social, which created heaps of fun for the gathering. Half a valentine was handed each person on entering, and they were obliged to go in search for the owner of the other portion, with whom they were to spend the remainder of the evening.

Rev. Mr. Armitage acted as chairman and during the evening the following ladies and gentlemen contributed to the programme of the evening:—Misses Dark, Belleghem, M. Brown and G. King, and Messrs. Owens, Waldon and Frith.

GOOD ROADS.

The Provincial Road Instructor Spoke in Smith Last Evening.

Mr. A. W. Campbell, Provincial Road Instructor, passed through yesterday on his way to Smith Township, where he spoke last evening, in the Temperance Hall on the fourth line. He was accompanied from town by Mr. R. R. Hall.

The chair was taken by Reeve Armstrong and at the close of the address a number of questions were asked and an interesting discussion followed on the subject of road-making.

A cordial vote of thanks was passed to Mr. Campbell on motion of Mr. Wm. Graham and Mr. Andrew Young.

PERSONAL

Mrs. A. Barnet, of Renfrew, is in town, the guest of her daughter, Mrs. C. B. McAllister.

Miss Carrie Booth, of Trenton, is the guest of her friends, Miss Maud Brown, Rubidge street.

Rev. C. H. Marsh, of Lindsay, will deliver the first special Lenten address in St. Lukes' church to-morrow evening. His subject will be "China."

Messrs. G. W. Fitzgerald, George E. Elliott and T. M. Hunter of the West Peterborough Agricultural Society, and Messrs. Birdsall and O'Reilly of the East Peterborough Society, leave to-morrow for Toronto in connection with exhibition affairs.

THURSDAY, BARGAIN DAY, AT GRAFTON & CO.

CATHOLIC ASSOCIATION AMATEUR MINSTRELS.

A CREDITABLE PROGRAMME LAST EVENING.

The Minstrels Greeted With a Crowded House—Excellent Choruses—Witty Gags and Clever Specialties Introduced.

The members of the Catholic Literary Association evidently are firm believers in the truth of the old proverb that "A little nonsense now and then is relished by the wisest men," as last evening, instead of giving their friends a regular fortnightly literary treat, they branched out into genuine southern minstrelry, and introduced one of the best entertainments of the kind ever given by amateurs in Peterborough.

The concert hall was packed to suffocation, many being unable to obtain seating room, and it is safe to say that every one went away fully satisfied with the evenings fun afforded.

The jokes sprung during the evening were decidedly new and funny, and free from the slightest tinge of vulgarity or coarseness, and the society has on its membership roll some exceedingly clever members.

The curtain was rung up shortly after 8 o'clock, the minstrels opening the fun by the excellent rendition of a chorus, "Down on the Ohio." This was followed by a capitally executed number, (end man's overture) "The Banjo Twang" by the orchestra, consisting of Miss M McCabe, pianist, and Messrs Angus McPherson, James McPherson and Frank McPherson, (violin), Mr. Alphonse Picard, (flute,) and Messrs. Thomas J. Mahoney, M. Galvin and F. Dwyer, (banjos.) This was one of the best numbers of the evening, and was warmly received by the audience. Mr. Oscar O'Shea followed in a well sung vocal solo, "He Certainly was Good to Me," which caught the house. Mr. Myles McDonough in his "Warmest Gal in Town," sang the song in true minstrel style and received well merited applause. A capital number was "Hesitate, Mr. Nigger, Hesitate," sung by Messrs. Joe Guerin and Jack Connors. This was one of the catchy numbers and they handled it in true negro style. A beautiful sentimental song, "Lerline," was excellently sung by Mr. Frank Dwyer, and it proved one of the most pleasing numbers of the evening. Mr. Harry Halpin caught the crowd in "My Coal Black Lady," which was certainly well handled, the six end men performing several evolutions during the rendition of the chorus. This was a warm number. Messrs. Jack Connors and Joe Guerin here faced the footlights and gave an exceedingly clever exhibition of buck dancing, which was warmly encored. The artists responded with a bow. Mr. T. J. Begley followed with a pathetic solo—"Just as the Sun Went Down"—and Mr. James Mulligan sung in excellent voice "The Old Time Cake Walk," which concluded the first part.

Of course the end men supplied the fun, and between the choruses they kept the audience in roars of laughter by the gags and hits. There was just six of them—Messrs. Dick Simons, Jack Connors and Oscar O'Shea (tambos) and Messrs. Joe. Guerin, Harry Halpin and Miles McDonough (bones). They made exceedingly funny coons and the audience was sorry to see them leave the stage. Mr. Fred Lynch acted as interlocutor, and had his hands full, but he filled the position in a highly satisfactory manner.

The second part of the evening opened with a specialty entitled "A Jolly Time on the Plantation," which supplied barrels of fun. Mr. Harry Halpin made a hit in his excellent singing of Primrose & West's "I'm a Swell," one of the catchiest song of the day. This was followed by some clever buck and wing dancing by Mr. Joe Guerin, who certainly has few if any equal in town in this line. Messrs. Miles McDonough, Jack Connors and Harry Halpin also did some clever movements in the dancing line, the two latter gentlemen performing several feats in tumbling. This number was a corker.

The night's fun closed with a laughable farce entitled "Two Tricky Tramps," arranged by Mr. Oscar O'Shea.

The minstrels were a grand success in particular and the boys are to be congratulated on the result. Mr. Angus McPherson, who had the affair in hand, deserves special mention for the manner in which he handled the boys. Miss Maggie McCabe the accompanist of the evening who had charge of the singing, and trained the minstrels in the different choruses, should certainly feel gratified on the result of her labours, and it is to be hoped that the C. L. A. will repeat last evening's performance after the close of the Lenten season.

The following was the personnel of the company: Interlocutor, Mr. Fred Lynch; end men (bones), Messrs. Harry Halpin, Joe Guerin, Miles McDonough; tambos), Messrs. Dick Simons, Jack Connors and Oscar O'Shea; chorus, Messrs. Angus McPherson, T. Dineen, F. Dwyer, T. J. Begley, J. Simons, Ed. Lynch, Alphonse Picard, R. Mahoney, F. McPherson, J. Mulligan, W. Primeau, J. McPherson, J. Hanrahan, T. Mahoney, M. Galvin.

THIS MORNING'S FIRE.

The Dwelling of Wm. Saxby Entirely Destroyed.

The brigade was summoned at three o'clock this morning to the residence of Mr. Wm. Saxby, carpenter, on west Smith street, outside the corporation.

Eighteen hundred feet of hose had to be stretched before a stream could be played on the fire, the hydrant in front of the recently burned dwelling of Mr. Chas. Wynn being utilized.

Despite the energetic efforts of the firemen the dwelling could not be saved, and was entirely consumed, together with the contents. The fire was caused by a defective chimney, it is thought, and the family had a narrow escape from being cremated alive, the fire having attained great headway before being noticed.

Mr. Saxby's loss will be heavy, as the house was only insured for $900 in the Connecticut Fire Insurance Co. There was also $300 placed on the contents in the London Assurance. Mr. W. H. Hill is agent for both companies.

Daughters of England Night.

The annual tea and concert of the Daughters of England comes off Tuesday night, February 14th, (St. Valentine's Day) in the Sons of England hall. Tea served from 5 30 to 8 o'clock, followed by an excellent musical and literary programme by local talent. Sons and daughters, for your life don't miss it! Costs you only 20c. admission, and the children 10c. You know what a good time you get at this annual event. 3d

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 23 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Daily Examiner.

TUESDAY, FEBRUARY 14, 1899.

OBITUARY.

The Demise of the Late Thomas Collins, of Michigan.

Mr. Thos. Collins, at one time landlord of a Bobcaygeon hotel, and well known in Peterborough and Ennismore, passed to the other world on Sunday last, at his hotel in Cheboygan, Michigan. A few years ago he had an operation performed for a tumor on the hip, and while it gave him temporary relief, it did not prove to be an effectual cure. He leaves a widow and one daughter, Annie, who a few years ago took the veil as a nun. His mother, a lady over 80 years of age, is still living at Chicago with her daughter, Mrs. E. McNeil. Three brothers are left, Morgan, James and Peter. He was a jolly, good-hearted man, and his death will be regretted by a large circle of friends throughout the district.

The Late Agnes Roseborough at Lakefield.

On Sunday, February 12th, at Lakefield, the death took place of Agnes Roseborough, wife of the late Gerald Fitzgerald, of Smith, in the 68th year of her age.

The deceased, who was born in Ireland, is the last member of the Roseborough family, who settled in this county, and who were so widely known and highly respected. The late Mrs. Fitzgerald was one of the pioneer settlers of the township of Smith, and it was related by her of how her husband penetrated the wilds of this county with only an axe, and laid the foundation of one of the best homesteads in the township. Thirty years ago her husband passed away, and she resided on the farm, concession 6 and 7, until 26 years ago, when she removed to Lakefield, where she has since resided.

She leaves behind her a family of six boys and three daughters. The sons are Joseph Fitzgerald, of Lakefield; Edward, of Smith; Alexander, of Ashburnham; Thomas, who resides on the homestead in Smith; Gerald, of Lakefield, and George Fitzgerald, county councillor, of Smith; and the daughters, Mrs. H. A. Walker, of the township of Hope; Mrs. J. Murphy, Bobcaygeon; and Mrs. H. Denne, of Peterborough. Agnes Roseborough, wife of Mr. Henry Denne by his first marriage, died about 35 years ago.

The deceased lady was widely known and highly respected by a large circle of friends, and was in religion an adherent of the Methodist church.

The funeral took place to-day from the family residence, Lakefield, at 2.30 p.m., to the Lakefield cemetery.

See the Bargains in Pants for Thursday Bargain Day at GRAFTON & CO., Clothing Manufacturers.

Big Engines.

It was to be expected that the Grand Trunk Railway would have to move towards providing a supply of new engines, as quite a few have been disabled during the past year. An order has, therefore, been given to the Montreal shops to turn out twelve new engines of great power. The order includes six ten-wheel passenger engines. They are to be built on the best modern principles and will be equal to any ever put on a railway.

His Life Was Saved

M. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1.00, at any Drug Store; every bottle guaranteed.

FIRST SIGN OF SPRING!

An advance shipment of the Newest Neckwear just arrived at our store this morning.

THEY ARE BEAUTIES—We have them in four shapes, viz., Puffs, Ascots, Lombards and Derbys.

If you see them you will purchase one. Good colours for cold weather and very suggestive of spring.

HISTORY AND WORK OF TRINITY COLLEGE.

AN INTERESTING ADDRESS IN ST. JOHN'S SCHOOL ROOM.

The History of the Institution Traced From Its Foundation—Some Excellent Limelight Views Shown.

A good sized audience assembled in St. John's school room last evening to listen to the address of Rev. G. F. Davidson, travelling secretary of Trinity University, on "The History and Work of Trinity University."

Rev. J. C. Davidson, rector of St. John's, occupied the chair. The lecture was illustrated by some seventy limelight views, representing several parts of the building, several affiliated institutions, portraits of prominent men, who have been connected with the institution, and several pictures connected with the life of students of the University. The views were admirably displayed by Mr. R. M. Roy.

The speaker traced the history of Church University from the beginning, showing how it had come about that there were two entire distinct universities in Toronto, both of which owed their origin to Bishop Strachan, the first Bishop of Toronto. He then gave a brief outline of the work of this remarkable man, dwelling more especially with the efforts he had put forth in connection with educational matters. Brought to this country in 1799 to be President of a university, which was then contemplated, he never lost sight of this idea, and amidst many discouragements laboured persistently to bring about its realization. In 1842 it seemed as if his efforts were crowned with success, as in that year King's College was actually begun. It was a classic looking structure on the sight of the present Parliament buildings. Most of the work of the college was carried on in the old Parliament buildings on Front street.

After an existence of eight years the character of King's College was completely changed by Act of Parliament, when all religious teaching was forbidden, and the name changed to Toronto University. It was then proposed that the various divinity schools of the various religious bodies should affiliate with Toronto University, but Bishop Strachan would not hear to this, maintaining that religious instruction should be given to all and not only to candidates for holy orders. To secure this he established a second university, which should be distinctively a church university. At the age of 72 he went to England and collected a large sum, with which to supplement the generous offerings of the people of Upper Canada, and in 1852 Trinity University was opened.

During the 47 years that have elapsed since then Trinity has been gradually growing in size. The buildings have been greatly extended, and now can accommodate about 100 students. From time to time new professional classes have been added, and at the present time every subject is taught that forms any part of a University course. There are about 3,000 graduates of Trinity, and only 400 of these have become clergymen, so that the popular idea that Trinity University is only a theological institution is a mistaken one. Its graduates include many celebrated doctors and lawyers of to-day, and among the Trinity men may be named one who has just passed away—the well-known poet, Archibald Lampman. A considerable number of ladies have also graduated, and there is a woman's residence known as St. Hilda's College, which is rapidly increasing in popularity.

Trinity, then, is a church university, giving together with a most excellent secular education, a religious teaching of a practically useful character. It is not, however, the representation of any one party in the Church, but is founded on the same broad basis as the Church of England itself. It is constitutionally governed by the proper authorities of the Church—the six Bishops exercising jurisdiction in Ontario, each of whom not only has a seat on the corporation, but is entitled to nominate four members to represent his diocese. There is an impression abroad that a course at Trinity is very costly, but this need not be the case, for in the first place residence in the building, though greatly desired, is not compulsory, except in case of holders of scholarships, exhibitions and bursaries, and any man possessing brains and perseverance has an excellent chance of working his way through with very little expense.

No less than eight scholarships are offered for competition at matriculation. It will be seen, therefore, that in addition to its own peculiar privileges, Trinity offers very great advantages of every kind and is, therefore, well worthy of the support and sympathy and practical co-operation of Church people throughout the province.

At the conclusion of the interesting address Rev. J. C. Davidson added a few words, referring at the same time to the number of gentlemen in town who were graduates of Trinity, and also to the number of students in attendance from this section.

LECTURES IN LENT.

Which Will be Delivered in St. John's Church.

To-morrow (Ash Wednesday) there will be service in St. John's church at 11 a.m. On the Wednesday evenings of Lent a course of lectures will be delivered, as usual, in St. John's church. Last year the subject was "Studies in General Church History." This will be appropriately followed now by "Characters and Epochs of English Church History." The opening address will be delivered to-morrow evening, at 8 o'clock, by Rev. G. F. Davidson, M.A., of Trinity University, on "Sources of English Christianity." The public are invited.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this morning, as well as the highest and lowest yesterday—shade temperature:—

To-day, 7 a. m..... ..... 6° below zero

	Highest.	Lowest.
Yesterday.....	7° above	15° below

A Narrow Escape.

Thankful words written by Mrs. Ada E Hart, of Croton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My Husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Sold by all druggists. 50 cts. and $1.00. Guaranteed or price refunded.

Good Time for Fur Buying!

Although taxed to our utmost capacity in making up special Ordered Fur Garments, we are offering many special chances for economical buyers in our General Store Stock of High-class Furs.

The Attractive Values which we hold out in Ready-to-wear Fur Novelites are not of the class that are thrown out on the market for indiscriminate slaughter. They are selected from a stock that has found high favour among those who wish to get dependable Furs at the smallest outlay.

Our Home-made Furs afford more opportunties for profitable buying in up-to-date styles and qualities than you are likely to find outside this Store. Being leaders in the Fur Trade we must lead all competition with lowest prices. Stock-taking begins in about thirty days, and before that date we must of necessity make the greatest Reductions of the year.

A COLUMN OF SPORTS.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Going on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

CURLIANA.

At the rink last night Skip Knapman defeated Skip McClelland in a Kendry Cup match by the following score:—

W J McCallum,	Dr Neill,
Alf Terrill,	Geo Kerr,
J H Hall,	Robt Kerr,
J S Knapman, sk...17	Jno McClelland, sk..11

The contest now rests between Skips Knapman, Rutherford and Connal.

In a scratch match between Skips Belleghem and McNeil the former won out by fourteen shots, the rinks being composed as follows:—

J D Collins,	S Ray,
W J Thompson,	Gus Hay,
C Rutherford,	T Ferguson,
A McNeil, sk..... ..8	D Belleghem, sk.....22

Three rinks of Thistles will go to Lakefield for a friendly game this week.

It is hardly probable that the local clubs will send rinks to Toronto this week to contest the Davidson-Boucher series as the probabilities have it that the weather will be very mild to-morrow.

THE REQUEST REFUSED.

The O. H. A. has decided to refuse the request of the Peterborough club to meet the winner of the 'Varsity-Queen's games for the championship.—Mail and Empire. The Mail and Empire is talking through its hat. The matter does not come up for consideration until Friday.

HOCKEY.

A hardware hockey team, captained by "Putty" Connal, journey to Lakefield to-night to play the team of that village.

Whitby, though the Midland Hockey Association championship is the right and gift of Oshawa, claims to have the fastest seven in the championship series. The Whitby players did not work in unison early in the year, and at least one of their matches was lost because of ill condition. Burns, Birrell and Stewart in their positions are superior to any players in the M. H. A. championship series, so say the Whitby supporters.

George R. Gray, champion shot-putter of the world, leaves next Monday for British Columbia, where he will go into the lumbering business. The O.H.A. will lose a good committee man in Mr. Gray, he being a very active member of that association.

The Guelph Nationals are rather raw at having to play over their game with Listowel. The latter town is elated at the decision of the association, and are applauding the O. H. A. with both hands. It just depends on which side of the fence you're on. Had Listowel's protest been thrown out there would have been a cry go up from that town that could have been heard in the Institute for the Deaf. The game will be played over again in Guelph on Thursday, when "Doc" Stirton's pets will try and repeat the trick of last week and win the round. Walter Phelan says Listowel will prove themselves to be the superior team, and that while the Nationals are fast his aggregation is faster. There are quite a number of Toronto men going up for the match and will root for Guelph.

TO PLAY OVER AGAIN.

Listowel v. Nationals. The secretary of the Listowel Hockey Club has just received notice from the Executive of the O.H.A. that their protest has been allowed, and the game ordered to be played over in Petrie's rink, Guelph, on Tuesday night. Just before the game finished the Listowels scored a goal which was not allowed by the umpire, Mr. Petel, of Guelph. The referee not seeing the umpire's hand go up, the play continued a few minutes longer, when time was called, the referee deciding the game in favour of Nationals by 4 to 3, when it should have been decided a tie, and which was so declared by the Executive, making the round 7 goals each, namely, 3 goals each at Listowel, and 4 goals each at Guelph.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The coal consumption during the past two weeks was exceedingly large. Spring cannot come too soon for the majority of people.

—A Valentine social will be held this this evening, in the C.L.A. rooms, under joint auspices of the C.M.B.A. and Ladies' Aid of the Cathedral.

—Owing to the comparatively small amount of snow this winter and the steady cold weather, the ice harvest has been an abundant one, and the article supplied of a superior character.

—An advertisement inserted in a Toronto paper by the managers of the Port Hope Methodist church, brought nineteen answers from musicians in search of employment.

Remedy for Whooping Cough

If your children have whooping cough don't start dosing with Cough Mixtures. Griffiths' Menthol Liniment is the most successful remedy. Applied to the chest and throat and taken internally on sugar, it goes direct to the spot and gives ease and relief in a few minutes. FEWER BIG RANCHES.

Changes In the Cattle Industry of the Far West.

About a decade ago a good many big cattle companies in the west went out of the business. They were forced out by a combination of unfavorable circumstances—hard winters, overstocked ranges with no provision for winter feeding and a great decline in the price of beef cattle. Some of the companies weathered the storm, learned a lesson from their dead cattle and inaugurated a new policy of caution in stocking up and preparation for winter feeding. Haymaking became a part of the business of the ranges, much to the benefit of the cattle industry. Again we hear of several big cattle companies that are winding up their affairs, but this time under quite different conditions from those first mentioned. Then the prices for yearling to 3-year-old steers ranged from $8 to $18 per head, and cows with calves at $10 to $15. Now yearlings to 3-year-olds bring from $25 to $45 per head and cows with calves from $35 to $45. The big ranches are not being forced out by disasters, but they are passing away because of a new order of things in which they are at a disadvantage. The range is being occupied by small ranchmen, sheep have been crowding upon the cattle territory, and the element of farming is coming into the business to a greater extent in the growing of alfalfa and the making of hay for winter. All these are behind the changes now apparent in the cattle industry of the west. And the meaning of it all is that more cattle will be raised and better ones than under the old order. It is a step forward in the development of the cattle industry and the country of which it is the leading industry.—National Stockman.

Kidney-Bladder Trouble.

There is no more serious menaces to good health in the present age than kidney disorders, and it's appaling fact, but a true one, that four-fifths of the country's people have the taint of this insidious disease with them. Dr Chase's Kidney-Liver Pills cure all kidney diseases.

The Advance of the Heifer.

The position of the heifer in our fat stock markets has undergone quite a change of late years. Formerly fat heifers sold at a heavy discount, as compared with steers of corresponding quality, but the difference has constantly narrowed as their merits as beef yielders became better appreciated. There is no probability that they will sell on a parity with steers, because of a difference in value of their hides and as a rule in their shrink, but they are not far away. With the advancement of the heifer in the market she has gained favor in the eyes of the feeder. For the man who wants to make a quick turn heifers are peculiarly adapted, and they are selling at comparatively good prices in the market for stockers and feeders. —National Stockman.

ANIMAL ODDITIES.

The Ceylon yellow silk spider has a body that weighs nine ounces.

Fleas will never touch an epileptic, and will instantly leave a dead or dying person.

The goldfish is a great coward, and a tiny fish with the courage to attack it can frighten it almost to death.

The camel cannot swim. It is an extraordinary fact that the moment it loses its footing in a stream it turns over and makes no effort to save itself from drowning.

No Right To Ugliness

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at any Drug Store.

LONGHORN CATTLE.

Revival of Interest In an Old English Breed.

How the mention of the name "Longhorn" seems to awaken memories of the past, says the London Live Stock Journal, with the many pleasant associations that linger round our schoolboy and early farming days! Then we used to be delighted with the enormous, picturesque horns and the long, deep bodies of this famous breed and to hear the breeders and feeders of those days discussing the profits that had been drawn from the grazing. We learned of the weight of cheese that had been produced from the cows during the summer or the weekly yield of butter, or perchance it might be the merits of some renowned breeding animal that after 15 or 16 years in the herd had at last succumbed, when the thickness of flesh upon the loin formed the subject of great boasting, and most of these remarks applied at that time to the Longhorn. The improved Shorthorn, or Durham as it was more commonly called then, had only just begun to displace the old familiar

LONGHORN PRIZE BULL KENILWORTH.

Bakewell cattle. Among the many breeds in the British islands that for perfection of form and general contour as well as for the more practical purposes of producing meat and milk are the admiration of every foreigner that sets foot upon our shores, whose line of life is in any way connected with cattle breeding, it is very pleasing to find that the old Longhorn still finds a place, and that this, one of the oldest breeds in the country and at one time threatened with extinction, is still to be found in various parts of the country and in sufficient numbers to make a very creditable display.

At the recent Royal show, where owing to the exertions of several breeders of this variety classes were instituted with a view to the resuscitation of this at one time leading breed of the central midlands, but which had become so much reduced in numbers that it was thought by many to have been already entirely lost, the entry of some 22 animals in the three classes allotted to them at Four Oaks Park, however, proved very conclusively that considerable interest is still taken in their breeding, and the writer's experience is that there are many parts of England and many conditions obtaining for which the Longhorn will be found a more profitable animal than many of the other breeds.

The general characteristics of the Longhorn are undoubtedly an ability to combine beef with milk and also a hardihood of constitution that fits them for the greatest exposure. Indeed the breed are never happier than when out in the fields both winter and summer, their thick mellow hide and heavy coat of hair enabling them to endure cold or wet without feeling the slightest ill effects. This quality alone admirably fits them for the greatly increased amount of permanent pasture that has been created in England during the past decade, as well as for the increased labor difficulties connected with farming and which outlying cattle during the winter season reduce to a minimum. Then again, the rapidity with which the Longhorn becomes fit for the butcher is a very strong element in its favor, as is also its suitability for crossing purposes, crossbred steers attaining a great weight and good value at a very early age. As an instance of the latter it is within the knowledge of the writer that half horned steers, as the Longhorn crosses are usually termed, have very recently been sold to the butcher at as much as 30 guineas each at 2½ years old, while as instancing their great aptitude to fatten, it may be mentioned that during last month an offer of £27 was refused for a steer of the pure breed that was purchased lean immediately before last Christmas at half that sum. Then coming to the dairy, another very important point, the Longhorn for quality of milk and yield of butter occupies a position second only to those of the Channel island breed. Looking at these desirable characteristics many will naturally be led to ask why, if all this is true, did the breed so rapidly sink into comparative oblivion? To this question there are several answers. Doubtless the breed, as it formerly existed, was a little longer in coming to maturity than some of the newer breeds. Then there was the desire to try the Shorthorn, which tempted many to get rid of their old favorites. Then again, a great many herds had suffered from overbreeding, which had given an excess of fat in the flesh and a reduction of the milk giving properties, and, further, there is little doubt that the Longhorn, so to speak, hastened its own end by its rapid fattening properties.

Disease of Young Cattle.

A new disease, so far only affecting cattle less than a year old, has appeared in the herds of Messrs. Reed, Hamilton and Talbot in Harmon in northern New York. The disease makes itself known in the breeding in the throat of hundreds of white worms, which if not removed speedily eat their way into the flesh, making death certain.

Children Cry for CASTORIA.

Mr. M. T. Wigle

Of Kingsville, Essex Co.

CURED OF ITCHING PILES OF 23 YEARS STANDING

M. T. Wigle, better known to every one in the vicinity as "Uncle Mike," was troubled for over 23 years with itching piles. At times he was so bad he would have to quit work. The irritation became so intense with constant rubbing that they became ulcerated and would bleed. He had been treated by many physicians, but found nothing that gave him relief. Reading in the paper the cure of a friend who had suffered in a like manner, and been cured by Dr. Chase's Ointment, he procured a box. After the third application he got such relief that he had the first comfortable night's sleep he had enjoyed in years. The one box made a complete cure, and he says he would not be without it for $50 a box if it could not be replaced. Mr. Wigle is a wealthy farmer, well known in the community in which he resides. It is over two years since he was afflicted, and he has never been troubled since.

Physicians fail to make a cure when Dr. Chase's Ointment gave Immediate Relief. . . .

NOTHING THE MATTER.

Wrong Impression of a Manager Corrected by a Cool Customer.

A quietly dressed man whose smooth shaven, bluish jaw gave him the aspect of an actor walked into an up town restaurant a few evenings ago and ordered quite a substantial meal. He ate leisurely and at the end of the repast lit a cigarette. The waiter presented a check for $1.40. "I have no money," said the stranger, pushing aside the slip. "Sir!" said the astonished garcon. The other repeated his statement and went on smoking.

The waiter hesitated a moment, then scurried across to the manager and whispered in his ear. The latter strode over to the table. "What's the trouble, sir?" he asked politely enough. "Nothing," replied the diner placidly. "The waiter says you won't pay." "The waiter's wrong; I said I had no money." The manager began to lose his patience. "Do you mean you ain't going to pay this check?" he asked curtly. "I can't." There was a pause and the two men studied each other. "So you came in here," said the manager finally, "and ordered a big meal, knowing you were broke and couldn't settle?" "I did," replied the other, still perfectly cool. "Well, what made you do it?" exclaimed the manager in a burst of exasperation. "Because I wanted the meal." There was another pause. "I'll have you arrested," said the manager. "For what?" "For obtaining goods under false pretenses." "What pretense did I make?" asked the stranger calmly. "Oh, well, you can't come in and take our food that way!" "Yes, I can—I've just done it," said the other, removing the ash from his cigarette. The manager scratched his head. "Get out," he said abruptly, "and don't try this again."

The quiet man reached for his hat and walked away, puffing his cigarette. "I'd rather lose the amount than have a disturbance," said the manager, "but I must say he's the coolest hand I ever struck."

In the excitement nobody noticed that the stranger had carried off his check. Half an hour later it came back in an envelope with $1.40 in silver. "It was a bet," was scrawled in pencil on the back. —New Orleans Times-Democrat.

His Marks.

A commercial traveler entered the hall of a hotel, and, picking up a pen, proceeded to make several perpendicular lines upon the register. When he had made half a dozen, more or less, he threw down the pen, with some exclamation about it being unfit to write with. Then he took up another and began making more straight marks, like capital I's with the shoulders cut off.

By this time the clerk was angry and informed the stranger that the register was intended for signatures and must not be defaced in that manner.

"Oh, don't get angry about it!" said the man with the pen.

He made a few horizontal dashes and, giving the register a twirl, showed the angry clerk that he had only been writing his name, which was H. H. Hill.—Pearson's Weekly.

A Tip From the Back Seat.

A Sunday school teacher tells of a comical experience. He was invited to make an address at a Sunday school festival, and having nothing prepared to say he tried to picture to the children the dolefulness of his position and asked them the question, "What would you do if you were compelled to stand on a platform before so many bright boys and girls who expected a speech from you, and you had nothing to say?" "I'd keep quiet," said one small boy, and his answer immediately brought down the house and quickly brought down the speaker too.—New York World.

Sold in Peterborough by Ormond & Walsh

THE HORSE SHOW.

Bourbon Bonnell, 2:16¼, is a new 2:15 trotter for the same sire.

It cost nearly $600 to send Directina, 2:16¾, from Dublin, Cal., to New York.

Two hundred additional box stalls were built during the past summer at Salma, Ala.

Richard Curtis recently drove the 3-year-old pacing filly The Maid, 2:16¼, by Hal Index, a mile in 2:19.

The Iowa pacing mare Jeska, 2:14¼, won five out of eight races the past season and was never unplaced.

The pacing stallion Happy Coaster, 2:16¼, by Happy Wanderer, has been added to the list of geldings.

The Maine pacer A. E. S., 2:21¼, by Pickering, started in 15 races the past season, won ten, was twice second and three times third.

Lucy Gilbert, 2:25¼, record taken last year as a 2-year-old, goes into winter quarters with that record untouched. She started but twice this season.

The Jersey Wilkes pacing mare Colleen, 2:15¾, has won nine out of 16 races the past season and been unplaced but once. Her operations were mostly confined to New England half mile tracks.

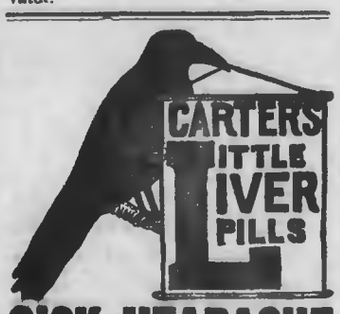
J. B. Haggin has purchased the farm of Thomas Muir, near the Elmendorf stud farm, now owned by Mr. Haggin, near Lexington, Ky. The Muir farm contains 600 acres, and the price paid was $60,000.

Captain S. S. Brown has decided to retire from breeding and will sell his entire stud, with the exception of the stallion Troubadour. He has a choice lot of mares, among them Mona, Senorita, Matinee and Performance.

Another winner of the English Derby is coming to America, J. B. Haggin having purchased St. Gatien, who ran a dead heat with Harvester for the Derby of 1884. He is the sire of imp. Meddler, to whom Nancy Hanks was bred last spring.

Disposing of Old Stock.

At this time of year all the stock should be inventoried and what will not probably gain enough or produce enough during the winter to pay for its keep should be sold or killed. No farmer can afford to keep stock that does not at all times not merely pay its way, but give him a profit besides. At this time of year such stock as is used for food will probably be in as good condition to kill as it can be made, and the sooner this disposal of it is made the better it will be. Young, growing stock will always pay a profit. So, too, will the best blooded stock, even if it is past the time for growing.—Boston Cultivator.



SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Says Laxa-Liver Pills made a new man of him.

Cured him of Indigestion and Pains in the Back.

We don't make absurd or extravagant claims for Laxa-Liver Pills.

Tell you in a plain, simple way what they will do, and prove what we say by the testimony of those who have used them. We say they cure dyspepsia, indigestion and all stomach disorders, and renew the health and strength.

Mr. Melville Miller, Bensfort, Ont., corroborates this in the following statements: "I have used two bottles of Laxa-Liver Pills and I must say they made a new man out of me, after taking them for three weeks. My trouble was indigestion, heart fluttering and pains in my back. Laxa-Liver Pills have completely cured me and I think they are the best medicine in the world to set a man up."

If you take a Laxa-Liver Pill before retiring, 'twill work while you sleep, without a gripe or pain, and make you feel better in the morning.

These pills never sicken or weaken, and leave no bad after-effects of any kind.

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR,—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000, which matured on the 5th inst. Of the various options you have given me vis.:

Cash value	$1,564 50
Paid-up Policy, payable at my death, for	2,560 00
Yearly Income for life of	166 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4½ per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the lowering rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,

(REV.) J. THOMPSON, D. D.

A Woman's Crime.

A THRILLING STORY OF LOVE AND ADVENTURE.

By LAWRENCE M. LYNCH.

Author of "John Arthur's Ward," "The Diamond Solitaire," "Against Odds," Etc., Etc.

"Well, I have learned through others who I am and what it was that my mother feared, and Mr. Ferrars tells me that all her life she had been laboring under a sad, sad delusion. She had married the only son of Sir Hillary Massinger; married him against the wishes and without the knowledge of Sir Hillary. Jason Bradwardine had pretended a warm friendship for my mother and father, and they trusted him; but he was the serpent of their Eden. My mother fled to America, believing that my father had deserted her at the command of Sir Hillary Massinger. She believed herself abandoned, and they, my father and grandfather, would seek to steal me from her. For years she trusted Jason Bradwardine; he was her only adviser, and, of course, he contrived to keep from her any knowledge of her husband, or how it fared with him. But after we came to America—which she did against his will—she found him out. He sent an emissary over from England to steal me away. Then my mother, who, from her husband, from Jason Bradwardine, from every one who knew Sir Hillary Massinger, had learned to think him stern, bitter, implacable, and always her enemy, believed that this old man so hated her and her child that he had bought over Jason Bradwardine. She knew that my father could not set himself free and marry again, if he would, and she knew that Jason Bradwardine was the next of kin, and she believed that he hoped to outlive my father, and succeed to the Massinger title and estates."

Her voice broke and she paused to regain her composure.

"From Mr. Ferrars I learned that my father died years ago," she resumed, in a tremulous tone. "That he was deluded and betrayed, not by his father, but by Jason Bradwardine. Sir Hillary received an anonymous letter telling him of his son's marriage; he went to the place where the letter informed him that he should find that son. He did not find him, but he found my mother, and they had a stormy interview. My father was absent; he did not return at the time appointed. And then came Jason Bradwardine with a false tale. My father had returned to Hillary hall, he said; he had deserted his wife and child. I suppose my mother nearly went mad then; she fled from her home, that had been so happy, and no one, save Jason Bradwardine, knew where she went. When my father came back we were gone; his wife, his child. He searched for us, fruitlessly; he would not be reconciled to his father—and—finally—he died. His life wasted; himself a victim. And my mother—she died, believing him false. Ah, heavens! to think of these two blighted lives, and then to think that Jason Bradwardine, the man who wrought all this misery, still walks the earth. Mr. Bathurst," turning suddenly toward Neil, and changing as suddenly her look and tone, "I wish he had moved that day when I held his pistol at his head." It was a startling climax to her sad recital, and it seemed to arouse her hearers from the sorrowful silence caused by this pitiful story of past wrongs and past mistakes. It brought that past straight down to the present, where action was possible.

"Miss Armyn," said Neil, earnestly, "now that you are safe, we have nothing to do, save to hunt this villain to his ruin."

"Oh! don't lose any time in doing it," broke in Kate Seaton; "he is dangerous to your safety and to Lenore's, Mr. Bathurst. How he must hate you both!"

They had all aroused themselves from their attitudes of listening, and now Mr. Hale arose and approached Lenore.

"My lady," he said, gravely, "these three detectives have done a grand work. They have crushed a strong case of circumstantial evidence, and cleared your name before the world. They have brought to justice the clever and most dangerous murderess that the annals of crime ever recorded. They have broken up a gang of counterfeiters, composed of the most difficult class of criminals that justice ever dealt with; men who hold reputable positions, and cloak their real trade under an honest outward seeming, and honest associations. I think you can safely trust them to deal with this one villain. As for yourself, from this hour you stand acquitted, you have nothing to fear from Mrs. Arteveldt, and you have a splendid future before you—the future of a peeress of England. I congratulate you."

Lenore looked up quickly.

"As Lenore Armyn, I thank you," she said. "As Lady Lenore Massinger, I have nothing to thank any one for; I am not proud of the title; I am not sure that I shall ever claim it. Sir Hillary Massinger was not so bad as my mother believed him. But I do not forget that his pride and hardness of heart caused the life-long misery of both my parents."

"But, Lady Lenore," interposed Neil Bathurst, "you will not render worse than useless the work of Mr. Ferrars; you will no longer conceal your identity?"

"No! Mr. Bathurst," replied Lenore, turning to him and then to Francis Ferrars. "Mr. Ferrars may tell Sir Hillary Massinger that his granddaughter is found; but he must tell him, too, how she was found, and that she knows the story of her mother's wrongs."

"Oh, Lenore," exclaimed Kate Seaton, "I can't call you Lady Lenore—not yet—we love you best; don't go back to England!"

"I won't—not yet, Katie," replied Lenore, "I would rather have you, and Mrs. Ruthven, and Dr. Austin, and Gentleman Jeff, all of you my friends in need, for friends for aye, than to go among those proud people across the water, and be Lady Lenore."

Gentleman Jeff moved forward, and bowed before her.

"Lady Lenore," he said, "this is an honour that never yet befell a gambler. Not only have I your regard, little as I deserve it, but here, where only gamblers came before, I have entertained ladies, and the men whom more than all others I respect and honour; these brother detectives who have extended to me a friendly hand; and these upright professional gentlemen who do not scorn a gambler."

With one of her old-time impulsive gestures, Lenore extended her hand to Gentleman Jeff, and said:—

"How dare you, sir? You, the peer of any man! Lawyers and doctors are very well" (with a whimsical glance toward Doctor Austin), "but when you write to my noble grandfather, Mr. Ferrars, tell him that Lady Lenore thinks that the best men are gamblers and detectives, and that there is no prouder title than that of Gentleman Jeff."

CHAPTER LIII.

BRADWARDINE'S FATE.

"Mrs. Arteveldt, we have found Lenore Armyn."

These words, spoken by Neil Bathurst, brought Mrs. Arteveldt to her feet as if startled by a bugle blast. She was sitting in the drawing-room, with Kate Seaton near her, and the detective and Mr. Hale had just presented themselves. She had been prepared for a visit from Mr. Hale, but she had not expected this news, for Kate Seaton had been mute on the subject, and there was no one else to enlighten her.

"At last!" she cried, her eyes flashing with excitement; "at last my poor boy will be avenged."

"At last," replied Neil Bathurst, gravely, "many wrongs will be righted. Mrs. Arteveldt, if it were discovered that another, and not Miss Armyn, had killed your son, would you hate that other as bitterly as you do her?"

"What do you mean, Neil Bathurst?" she exclaimed, almost fiercely. "Oh, is it true then? Are you seeking to screen—to save—that girl?"

"No, madame. What the man who has visited you of late would have you to believe is not true, except the one statement that I rescued Miss Armyn from him. That man is an assassin. He tried to murder Miss Armyn."

Mrs. Arteveldt started back in surprise, and some confusion.

"Who told you about him?" she asked. "How do you know?"

"I have many ways of finding out things," replied he, smiling slightly. "Are you ready to hear my statement now, madame?"

"Yes. Go on!"

"Mr. Hale here knows everything; he will give you all the particulars. My duty is simply to state the truth concerning Miss Armyn."

"The truth!" bitterly. "Well, tell me the truth about this murderess."

"The truth concerning Miss Armyn is briefly this," said Neil, not noticing her sarcasm. "She went from your son's house in the mysterious carriage that drove away just at the time of her disappearance, and that could never be traced, for the simple reason that it was driven by no hireling, but by Doctor Austin, the guardian of Miss Armyn. Doctor Austin took her straight to the asylum of Doctor Burton, and there, as you know, she remained until my visit scared her away. Now, there was a secret in her life, and in the life of her mother, and on her death-bed that mother had exacted a promise, a vow, that she, Lenore, would guard her own life carefully, and guard this secret as well; to this end she must promise to avoid all detectives and curious persons, and, most of all, this villain, who tells you that I rescued the girl from his hands. Your son pointed me out to her, and she knew that I was a detective. I believed myself unknown to her, and so visited the hospital without disguise, thus defeating myself. She saw me, recognized me, and fled from me. At this time, Mrs. Arteveldt, she did not even know that your son was dead."

"What!" cried Mrs. Arteveldt. "Dare you say that to me, sir? If you wish to be heard do not advocate the cause of my son's murderess. Ah, her witchlike beauty has turned your head, as it did the head of my poor boy."

The detective's fine face flushed hotly, and then the look came into his eyes that betokened an uprising of his strong will.

"Madame!" he said, sternly, and bending upon her a look that caused her to lower her own angry orbs, "allow me to say what I wish to say; after which I will listen to any comments you may choose to make. I repeat that Lenore Armyn's strange conduct, that looked so much like guilt, was not guilt. She fled from me because she had promised her mother to avoid all pursuers, and she had strong reason to fear pursuit. Innocent of any crime, she has been doubly hunted, doubly wronged. I repeat it, until after she fled from the asylum she did not know that your son was dead. She had feared me, and all detectives; she had feared your informer, Jason Bradwardine; and, most of all, she had feared your son. She is a woman in a thousand; or when she suddenly came upon the paper containing the account of the murder, publishing her as the murderess, and setting a price upon her head, she must have gone mad."

Mrs. Arteveldt had with difficulty controlled herself thus far; now she fairly shrieked:—

"So you are all combined against me. You would let this murderess go. Do you think I will permit it? No, my son shall be avenged; his murderess shall expiate her crime!"

"Mrs. Arteveldt." It was Mr. Hale's cool voice that interposed. "Your son's murderess will expiate her crime; she is now a prisoner."

Mrs. Arteveldt reeled as if about to fall, and finally sank back in her chair, murmuring, faintly: "What!—what are you telling me; why talk of her innocence?"

Kate Seaton came quietly to her side, and placed a cool hand on her throbbing forehead.

"Madame," she said, softly, "you do not understand; the murderess is found, but it is not Lenore Armyn."

Mrs. Arteveldt started. She turned her eyes again toward Neil Bathurst.

"What does it mean—what are you trying to do?" she gasped. "Oh, you said you would find the creature who killed my boy."

"And I have found her, madame," said Neil, more gently than he had previously spoken. "She was arrested last night. You must compose yourself; you must prepare yourself for a great shock. Your son's bride did not shed his blood. Shall I tell you who did?"

"Yes," faintly.

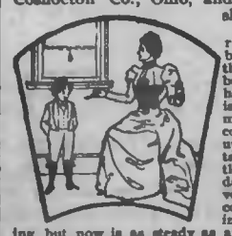
"Your son was murdered by the woman we have all known as Aura Durand."

"Hear him!" fairly shrieked the frantic woman, turning toward the lawyer. "Hear whom he accuses; ah, who will tell me the truth?"

"I will!" replied the lawyer, firmly. "Madame, if you do not listen and control yourself, we must leave you to find this out from the daily papers. I tell you that Aura Durand is the murderess—she has confessed her crime."

(To be continued.)

For more than four years Mrs. Bender has been using Dr. Pierce's Golden Medical Discovery as a family medicine. Mrs. E. A. Bender lives in Keene, Coshocton Co., Ohio, and from there she writes:



"As a cough remedy and blood purifier there is nothing better, and after having the grip is just the right medicine for a complete bracing up. Our boy has taken three bottles for St. Vitus's dance. He was very nervous and constantly jerking and twitching, but now is as steady as any one; in fact seems entirely cured."

The "Golden Medical Discovery" is a medicine that will help you no matter what ails you. This is true because it works directly at the roots of all disease—the digestive system, the blood, the nerves. Keep these in healthy condition and you cannot be sick.

Many of the cures of the "Golden Medical Discovery" seem almost miraculous. Its effect is almost immediate. It takes hold at once. It tones up the stomach, invigorates the liver, regulates the bowels.

It gets right into the blood and carries strength and comfort to every fiber of the body. It nourishes and invigorates the weakened, irritated nerves and puts the entire system in perfect tune.

It is a safe medicine. Safe for adults—safe for children. It contains no sugar, syrup, whisky, alcohol or dangerous opiates. Therefore, it does not create a craving for stimulants. It is distinctly a temperance medicine.

If a medicine dealer tries to substitute some other preparation when you ask for "Golden Medical Discovery"—look out for him. He is either ignorant or dishonest and you can't trust him.

"HARD COMMON SENSE"

Must be brought to bear, so that when substitutes are offered you in place of the genuine

—THE—

IMPERIAL LIFE INSURANCE CO.

OF CANADA.

Seven Cardinal Reasons for Insuring in the Imperial:

1. **It Affords Unquestionable Security** to policy-holders, by its large Capital Stock of $1,000,000, and its Dominion Government Deposit of $250,000, being the largest Government Deposit of any Canadian life insurance company.
2. **Its Policy Reserves** are held on the most stringent basis used in Canadian Actuarial calculation.
3. **Its Policies do not Restrict** the assured in respect to residence, travel or occupation, and are payable immediately on receipt of satisfactory proof of death.
4. **Its Policies cannot be Forfeited** after three annual premiums have been paid, but provide for surrender values by way of cash or paid-up insurance.
5. **The Premium Rates Compare** favorably with those of other insurance companies, and a grace of month is allowed in payment hereof, during which time the policy remains in full force and effect.
6. **Its Policies are Automatically Continued** in force after three years premiums have been paid, for such time as the whole reserve is sufficient to pay premiums.
7. **Liberal Cash Loans** are granted under policies after three annual premiums have been paid.

WANTS

More wants are supplied, and supplied more quickly by means of THE EXAMINER want columns than in all other ways combined. THE EXAMINER is the popular paper read by all. It is the recognized medium for the supply of wants.

Points About Horse Feeding.

There are a few important facts in horse feeding that every horse owner ought to know and that are frequently neglected, much to the injury of the animal. A horse should never be fed grain after heavy work until he has rested half an hour. Hay will do no harm at any time. Never water a horse just after eating. To drink freely at this time will wash a large portion of the food from the stomach to the intestines, dilute the gastric acid and irritate the bowels. Always water before feeding grain. Never permit a fatigued horse to drink freely of cold water. A warm mash will do no harm at any time, or wet hay and fodder may be fed, and afterward a full drink may be given. Never let a horse suffer from thirst when it can be avoided, nor food either, but the first is more injurious. A horse employed in regular work should have a full feed at night, with hay to nibble at will, a light feed in the morning and a bran mash with hay at noontime. A horse should never be required to do heavy work with his stomach full of grain or entirely empty. Study your horse and feed according to his individuality. A greedy horse should be restrained. Others may be given all they will eat. Each horse should be fed separately. Men, women and children should make their meals social occasions, but they are not horses.—Texas Farm and Ranch.

What She Believes.

"I believe Hood's Sarsaparilla is a good medicine, because I have seen its good effects in the case of my mother. She has taken it when she was weak and her health was poor and she says she knows of nothing better to build her up and make her feel strong." Bessie M Knowles, Upper Wood Harbor, N. S.

Hood's Pills cure all liver ills. Mailed for 25c. by C. I. Hood & Co., Lowell, Mass.

A Possibility.

Old Nancy Doane was noted for the striking originality of some of her expressions. One day she was talking about the utter inanity of another old woman in the neighborhood, and she said:

"I never see her beat! She'll lop down in a cheer, an there she'll set an set an set, doin absolutely nothin fer hours an hours day after day. 'Pon my soul, I sh'd think she'd mildew!"—Harper's Bazar.

Undecipherable.

Eminent Egyptologist—Have you deciphered that rare document we found in the pyramid?

Associate—No; it will never be deciphered, but we know what it is. It's a doctor's prescription, evidently dropped by an American tourist.—Philadelphia Record.

A Word About Pianos.

It is only a question of price that arises when selecting the best piano.

Sixty years of experience tells us that the public more than ever, is tired of the common thump box and wants musical quality in piano tone.

Whilst the NORDHEIMER is the highest grade piano manufactured in Canada, remember it is the cheapest in the long run. Its tone is the sweetest, retaining always that peculiar vocal quality combined with great endurance, which strong reasons have made it the choice of all lovers of the beautiful in music.

Easy terms arranged.

Illustrated booklet mailed free on application.

FACTORY AND WARE-ROOMS—Six storeys, King St., East, extending through the entire block to Colborne St.

Nordheimer Piano AND MUSIC CO., Limited.

TORONTO.

THIS MAKES IT CLEAR.

Exact Bearing of New Postal Rates—Many Persons Seem Still in Ignorance.

THE EXAMINER has received several requests for information as to the existing rates of letter postage. That the public is not yet fully aware of the bearing of the reforms which have been made in the Canadian postal service is apparent from the number of letters which still pass through the post prepaid at the old rates. The changes have been two in number. The domestic rate from one part of Canada to another and from Canada to the United States is two cents per ounce, instead of three cents as formerly. To the United Kingdom of Great Britain and Ireland and to the following British dependencies and colonies the rate is reduced to two cents per half ounce, instead of five cents: Aden, Ascension, Bahama Islands, Barbadoes, Bermuda, British Central Africa, British East Africa, British Guiana, British Honduras, British India, Ceylon, Cyprus, Falkland Islands, Fiji Islands, Gibraltar, Gold Coast Colony, Hong Kong, Jamaica, Johore, Leeward Islands, Lagos, Malay States, Natal, Newfoundland, Niger Coast Protectorate, Niger Company's Territory, Sarawak, Sierra Leone, Seychelles, St. Helena, Tobago, Trinidad, Turk's Island, Uganda, and Windward Islands.

To all other parts of the world coming within the confines of the postal union, the rate is five cents per half ounce.

The above applies solely to letters.

ELECTION OF OFFICERS.

Last Evening for Auburn Lodge, No. 280, Independent Order of Good Templars.

At the regular meeting of Auburn Lodge, I. O. G. T., last night the following officers were elected:

G W Powell	C T

Mabel McIntyre	D M
D Heaslip	Guard

CAREY'S CASE SETTLED.

G. T. R. Will Compromise Murray Hill Case For $6,000.

Andrew Carey was killed in the Grand Trunk Railway accident at Murray Hill. His widow and children commenced an action against the company, claiming $10,000 damages. A settlement has been effected. The Railway Company has agreed to pay Mrs. Carey and her children the sum of $5,000 and $400 costs. Mr. H. S. Osler appeared for Mrs. Carey and Mr. Hoskin, official guardian, for the infants. Mr. Justice Street, in Chambers, confirmed the settlement. Mr. Osler asked that the widow and another relative be appointed guardian of the fund, but the judge considered it advisable that the amount be paid into court.

A MAMMOTH ELEVATOR SCHEME.

Diverting the North-west Grain to the Midland Route.

Mr. Harry Corby, M. P., Belleville, has a scheme for building a mammoth elevator in that city, and of diverting the North-west grain to the Midland, which is the sole topic of conversation among the citizens.

Mr. George Wallbridge, one of Belleville's leading business men and a member of the Board of Harbor Commissioners, has expressed his enthusiastic approval of the scheme. It was one, he thought, in the furtherance of which every citizen should use his vest efforts. Mayor Johnson states there will be no difficulty as to loading if the large, flat-bottomed light draught barges in use at Prescott are utilized.

Mr. Corby yesterday was in conference with Mr. Geo. B. Reeves, General Traffic Manager of the Grand Trunk.

It is proposed to erect a large elevator in that city with a capacity of 500,000 or 1,000,000 bushels, if arrangements are made for Northwest grain to be carried via Midland and Peterborough.

COBOURG'S RAILWAY SCHEME.

Townships Opposing Extension of Time to the Promoters.

The Colborne Express remarks that "The townships voting bonuses to the proposed, but long-deferred Cobourg Pacific Railway are unwilling to renew their obligations—councils and ratepayers alike opposing extensions of time. Their conduct does seem strange when it is called to mind that they voted the bonuses with a great whoop, and that if they acted wisely then, seven or eight years ago, they must be acting very foolishly now. The same circumstances still exist, making the construction of the road necessary. A revival may, however, be necessary. Great undertakings are not accomplished in a day or a year."

A CARD.

We, the undersigned, do hereby agree to refund the money on a twenty five-cent bottle of Dr. Wills' English Pills, if, after using three-fourths of contents of bottle, they do not relieve Constipation and Headache. We also warrant that four bottles will permanently cure the most obstinate case of constiption. Satisfaction or no pay when Wills' English Pills are used.

PRAIRIE GREYHOUNDS.

C. P. R. Westbound—No. 1.

I swing to the sunset land,
The world of prairie, the world of plain,
The world of promise, and hope, and gain,
The world of gold, and the world of grain,
And the world of the willing hand.

I carry the brave and bold,
The one who works for the nation's bread,
The one whose past is a thing that's dead,
The one who battles and beats ahead,
And the one who goes for gold.

I swing to the land to be,
I am the power that laid its floors,
I am the guide to its western stores,
I am the key to its golden doors,
That open alone to me.

C. P. R. EASTBOUND—NO. 2.

I swing to the land of morn,
The grey old east, with its grey old seas,
The land of leisure, the land of ease,
The land of flowers, and fruits and trees,
And the place where we were born.

Freighted with wealth I come,
Food, and fortune and fellow that went
Far out west on adventure bent,
With well-worn pick and a folded tent,
Is bringing his bullion home.

I never will be renowned,
As my twin that swings to the western marts,
For I am she of the humbler parts,
For I am the joy of the waiting hearts,
For I am the homeward bound.

—E. Pauline Johnson, in the Manitoba Free Press.

SPRINGVILLE.

(From Our Own Correspondent.)

The anniversary services in connection with the Presbyterian church here will be held next Sunday, Feb. 19th. The Rev. Mr. Hunter, of Baltimore, will preach in the evening. On the evening following a tea and concert will be held in the church. A good time may be expected.

The Rev. M. E. Wilson, of Newtonville, spent a few days here visiting his mother, who has been seriously ill with an attack of la grippe.

Mr. Norval Baptie, the professional skater of Bathgate, South Dakota, stopped over for a few days to visit his uncle, Mr. Jas. Baptie, on his way back from the Montreal skating races.

REMORSE.

Arthur J. Stringer in Harper's Monthly.

Red lips that dumbly quiver for his kiss,
And now but fondly touch his graveyard stone,—
Ah! lips he loved of old, remember this:
He had not died, if he had only known.

BURGLARS AT HILLSBURG.

Thieves Were Traced to Guelph Where They Took Train.

Hillsburg, Ont., Feb. 14.—Thieves visited here Sunday morning and made a good haul from the general store of Donaldson & Carmichael. They secured a quantity of postage stamps, five gold watches, 12 silver watches, and a large number of chains and rings, $8 worth of coppers, and a little silver, a pair of boots and several other small articles. At the store of E. A. Patterson they secured $7 in coppers, a fine seal cap, a pair of overshoes and some underwear. They then went to the livery, hitched the best horse in the stable to a cutter, piled in three robes, and drove away. However, the horse and cutter were found near Guelph, and the thieves traced to that city, where it was found that they had taken an early train for the east.

CHEESE AND BUTTER MAKING.

Board of Directors Met in Brantford and Talked Over Matters.

Brantford, Feb. 14.—A fully attended meeting of the board of directors of the Cheese and Butter Association of western Ontario was held at Stratford on Saturday, the president, Harold Eagle, in the chair.

It was decided to expend the sum of $8,400 for instruction at such cheese factories and creameries in western Ontario as should apply for the services of the association's instructors. A number of instructors were appointed. The fees for the instructors' services were fixed, and a general discussion on points of interest closed the meeting.

Why the Train Ran Fast.

Binghampton, N.Y., Feb. 14.—Martin C. Sheehan, an engineer on the Lehigh Valley Railroad, was found dying in his cab near Alpine, Pa., yesterday, by his fireman, George F. Dodge. Sheehan was running a Mother Hubbard engine, which, drawing a freight, reached a rate of speed that aroused the suspicions of the firemen, and, going to the cab, he found Sheehan leaning partly out of the cab window, his head crushed in, and his hand grasping the lever with a vise-like grip. He was taken to the hospital at Sayre, where he died. His cap was found on the ice of a creek near an overhead bridge at the Cayuga curve, and it is supposed that his head came into contact with a truss while looking out of the cab window.

MR. HOUSE, OF BERLIN

Cured of Lumbago by Dodd's Kidney Pills.

Berlin Feb. 13.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past, Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Backache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

A $200,000,000 Trust.

New York, Feb. 14.—The latest consolidation scheme in the United States is a combination of capital to control the manufacture of men's, boys' and children's clothing. The scheme originated in this city, and the capital involved is estimated at $200,000,000.

King Is Appealing.

Toronto, Feb. 14.—The decision of the Walkerton judge, granting an order of extradition on Robert W. King, alias White, is being appealed before Justice Meredith. He is wanted for alleged forging a note for $850 in Java.

Grand Trunk Engineer Swears by Dr. Chase's Kidney-Liver Pills.

Mr. Geo. Cummings, for over twenty years engineer on Grand Trunk running between Toronto and Allandale, says:—"The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommend by my fireman, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me an I feel to-day a better man than ever. I recommend them to all my friends.

Oysters in B. C. Waters.

Vancouver, B.C., Feb. 14.—The people of British Columbia have lots of fish, but an oyster, except the canned product from the east, has been unheard of heretofore. However, it now looks as if the people would have plenty of oysters in future. A fine bed has been discovered at Seshelt, up the coast. They are of excellent quality. Being adjacent to Vancouver, they should provide a delicacy for the local market. Prof. Prince had planted oysters in the Gulf, but these discovered are in another quarter.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box.

Peru Pays Up.

Lima, Peru, via Galveston, Feb. 13.—Saturday afternoon the Government addressed a communication to Mr. Irving B. Dudley, the United States minister at Lima, inviting him to present himself on Feb. 24 at the Bank of Peru and London to receive the $40,000 awarded to Victor H. MacCord for damages sustained by reason of imprisonment during one of the revolutionary outbreaks in Peru.

Have You Had La Grippe?

If so, nature wants a helping hand out of the trouble. Convalescing men and women need a suitable stimulant or tonic to put back the snap that has been taken out of them. For some, a good bodied ale or porter, like Copeland's, is highly recommended. Others are advised to use a fine rich port or sherry wine. While for elderly men pure whiskey is the best. Messrs. Henry & Co, Wine and Liquor Merchants, can supply any of these in well matured condition for medical purposes at moderate rates, HENRY & Co.

STOCK-TAKING HAS COMMENCED

Will take About Two Weeks to Complete.

As our stock is still heavy in certain lines of Fur Goods, we have decided to **CONTINUE SALE DURING STOCK-TAKING TIME.** This store will be open and help provided to show stock as usual. CORSET COMFORT.

There are corsets and—corsets. Every lady knows that the mere appearance of a corset is no indication of its comfort. We claim for the

"D. & A." CORSET

that it is well made on a thoroughly natural principle. While supporting the chest it allows full play of the muscles, adapting itself to the form, yet adding to its grace and beauty. In addition to which it is the handsomest looking corset on the market.

PRICE: $1.00 TO $3.50 PAIR.

McWHINNIE'S

Society Footwear.

The social season demands a special pair of Shoes. Both Ladies and Gentleman will find our stock to be a model stock. Comfort and wear are not neglected but style is emphasized. Fit, beauty and durability are well represented in our Footwear. The best that money can buy.

ROBERT McWHINNIE, George Street

Perfect-Fitting EYE-GLASSES, SPECTACLES.

The importance of Perfect-Fitting Spectacles and Eye Glasses is seldom realized until after an experience with a badly-fitting pair.

Your lenses should be carefully tested and selected and mounted in a frame that is especially adapted to your eyes and the shape of the face.

We give particular attention to this important part of the Optician's business.

YOUR HEALTH AND YOUR EYES.

Madill's Emulsion of Cod Liver Oil is recommended as a safe remedy for failing health. It increases flesh and weight, makes richer blood, brings colour to the cheeks and stronger muscles to the limbs. **40c. and 75c. a Bottle.** Prepared only by—

WM. MADILL, CHEMIST AND OPTICIAN.

A Sudden Drop.

This the time of year to look for a sudden drop in the price of Furs at ALEX MELVILLE & CO'S.

It is not because we have charged too much, here-to-before or because our Furs are out-of-date or any less stylish, but because we are willing to let the remainder of our stock go for less than they are really worth. The end of the season approaches.

At the prices we name they are an investment—none better for your spare money.

Melville & Co.

Successors to Mills Bros.

SPECIAL THIS WEEK.

We are selling the balance of our Children's Hoods and Caps regardless of cost. Also Fur Goods in Children's Ruffs, Collarettes and Muffs below cost.

New Goods just arrived in Corsets—a special line of Corsets at 50c.

New Belt Pins and Belts, hemstitched Initial Handkerchiefs, at 5c.

We are still giving free lessons in Art Embroidery at

THE LEGISLATURE

Mr. James Conmee Resumes the Debate on the Budget.

CLAIMS OF THE NEW ONTARIO.

The Member for West Algoma Utters an Urgent Plea for Its Opening Up and Development — A Policy of Expansion in This Direction Would Pay—Hon. Mr. Gibson.

Toronto, Feb. 15.—As soon as the Speaker took the chair yesterday the Attorney-General, who was accompanied by Mr. Mutrie, introduced Hon. J. M. Gibson, Commissioner of Crown Lands, who, having subscribed to the oath, was invited by the Speaker to take his seat. Mr. Gibson, who appeared to be in excellent health and spirits, was received with enthusiastic applause from the Government benches. As soon as he was comfortably seated Mr. Whitney crossed the floor of the House and offered his congratulations. The budget debate was resumed by Mr. Conmee, who made an able and well-sustained argument in defence of the contention of the Provincial Treasurer with respect to the surplus and the healthy condition of the finances of the province. He traced the history of the trust funds held by the Dominion for the province from their creation, in corroboration of the assertion that they are available assets of the province. Mr. Hoyle replied on the Opposition side of the House and attacked the Government's financial policy.

Mr. Conmee said that the contention of Col. Matheson that the province had neither legal nor moral claim to deal with trust funds as part of the surplus was a mere lawyer's quibble. The sum of $2,800,000 in round numbers was a debt owing by the Dominion to the Province of Ontario, for which they could demand payment at any moment. This solid asset the Government had a perfect right to include in their surplus. The statement submitted by the Provincial Treasurer was eminently fair. He did not object to honest criticism, but he thought it time that these old trust funds were given a rest. After a reference to Opposition's hope of office, he said its railing at increased expenditure was unfair. It had all been met by the ordinary revenue. The opening up of the northern and western districts of Ontario was a better asset than a million dollars in the bank. It was only recently that the Government had assisted in mining development, and already the benefits were shown in the Treasurer's statement that $61,000 had been received for mining claims, and $42,000 from the sale of mining lands. Col. Matheson's plea for greater administrative economy meant that the Government should be more conservative. In his opinion the Government is already too conservative. I hope they will be more liberal.

"I know whereof I speak," said Mr. Conmee, "when I say the province has a much greater inheritance in her great western territory than is generally supposed. The Government are greatly to blame for not making greater progress in the survey of that great and rich district."

Mr. Conmee then eloquently described the large agricultural belt of New Ontario, its natural resources and mineral wealth—iron, nickel, gold, silver, copper and coal—and all this within as easy reach of Toronto as Chicago and Cleveland, and said it was the "duty of the Government to do more for the development of the country." Referring to Col. Matheson's allegations that colonization money had been misused for election purposes, he said there was no proof that such had been the case, and no public man could be condemned on mere suspicion; wrongdoing must be proved. In conclusion, Mr. Conmee said the time had come for a policy of expansion by the Government. Now that the Premier had got fairly settled in the saddle, he should see to it that brighter prospects were given to the people of this province by the opening up of its great resources. (Loud applause from both sides of the House.)

Mr. W. H. Hoyle, North Ontario, said he thought the criticisms of Col. Matheson on the Provincial Treasurer's statement fair. He quoted from Mr. Blake's speech before the Supreme Court that the Common Schools fund was not a fund but an obligation of Canada to herself. He said the finances of the province were presented in a misleading way. He considered the amount paid for the executive administration of Ontario, compared with the States of New York and Michigan, excessive. He argued for greater economy. Something was radically wrong in the principle on which the administration of justice is conducted in this province. He ventured to say that the Attorney-General would regret the day when he adopted the system whereby junior judges can be appointed in certain districts having a certain population. He then advocated the abolition of the County Court system and the expansion of that of the Division Courts. After the answer the Government had given respecting the devisee commission that body should not be allowed to exist another day. The time was opportune to divide the province into 45 judicial districts. He then endorsed Mr. Conmee's plea for greater development in New Ontario, and said the Government should give to the country more detailed information on the vast territory. "We do not on this side of the House object to the amounts expended on survey and colonization roads, but to the small results obtained from such expenditures." Mr. Hoyle proceeded to advocate the establishment of an advisory board of education; a reduction in the amounts granted to model schools, cheaper school books and the abolition of royalties thereon, and the making of agriculture a compulsory subject of teaching in the public schools. On principle, the speaker said he was opposed to the granting of gratuities to civil servants. He advocated full control by the municipalities of the franchises granted to them. Municipal interests should be conserved and preserved as far as possible.

Mr. J. R. Stratton (Peterboro, W.R.) moved the adjournment of the debate.

ASSEMBLY NOTES.

J. J. Kelso, secretary of the Department for Neglected Children, will deliver a lecture in the members' reception room at the buildings to-night. His subject will be the Ontario act respecting neglected children, and will be illustrated by lime-light views.

Hon. A. S. Hardy was waited upon yesterday afternoon by a deputation from Kingston and Frontenac County, asking for the appointment of J. Donaldson as sheriff of Frontenac.

A deputation from Owen Sound, consisting of Messrs. R. P. Butchard, J. M. Hilbourne and John Lucas, waited upon Hon. Mr. Davis, Provincial Secretary, yesterday, in reference to the letters patent of the Owen Sound Portland Cement Company, which is asking an enlargment of capital from $100,000 to $200,000. Mr. Doyle, a shareholder, was also present, and was opposed to the change being made, and the Provincial Secretary promised to consider the matter.

A deputation from the Ontario Colonization and Repatriation Society of Ontario waited on the Ontario Government yesterday morning and asked for the construction of colonization roads in the Townships of Kirkpatrick, Caldwell, Hagell, Badgerow and Gibbons. The deputation consisted of Rev. Father Paradis, general manager; Mr. L. O. Armstrong, colonization agent for the C.P.R.; F. Moffet, editor of Le Temps, secretary, and D. V. Ranger, Ottawa. John Loughrin, M.P.P. for Nipissing, was also present.

ICE PACK IN NIAGARA RIVER.

An Unprecedented Choking of the Gorge Below the Cataract.

Niagara Falls, N.Y., Feb. 15.—Above the falls in many places the ice is packed in the river in high piles, and extends many feet from the shore. Much dynamite has been exploded to drive it from the inlets leading to the different power plants. The jam in the gorge at the foot of the falls grows with the days. Some of the hills are nearly 50 feet high. One of them is called a mountain, and is said to be over 100 feet high.

Such a quantity of ice has not been in the Niagara River for years, and the situation is a decidedly serious one, and makes owners of property close to the banks of the river apprehensive for the future, when the river begins to free itself. Should mild weather set in, and the ice move, it would undoubtedly sweep everything before it.

The Nicaragua Canal Bill.

Washington, Feb. 15.—The Nicaragua Canal bill was offered in the House yesterday afternoon as an amendment to the Sundry Civil Appropriation bill, by Mr. Hepburn of Iowa, chairman of the committee that reported it, and the leaders on the respective sides are engaged in a struggle which involves the fate of the measure at this session of Congress. The realt test will come upon the question of overruling the chair. Should the chair be overruled there is no doubt that the amendment will command a majority of votes.

New York's Storm Siege.

New York, Feb. 15.—Last week eggs in this city cost 25 cents per dozen; today the price was 38 cents per dozen. Last week butter was 25 cents per pound, to-day 30 cents; chickens 15, now 20; milk 3 cents per quart, now 12 cents. All other provisions were correspondingly high.

A WAR WITH BRITAIN

M. Lockroy, French Minister of Marine, Expects It.

POURING TROOPS INTO AFRICA.

Extraordinary Activity at the Toulon Arsenal and Naval Works — War Material Being Despatched to All the Colonies—The Wild Open Boast of French Officers—Cable News.

London, Feb. 15.—The Toulon correspondent of The Daily Mail, remarking upon the extraordinary activity at the arsenal there and generally in the French naval works, says: It is believed that M. Lockroy, Minister of Marine, expects war with Great Britain within two years, and it is notorious that a war with England is being preached in official circles in Paris.

Troops are being poured into Tunis and Algeria, and war material is being despatched to all the colonies. French officers openly boast that they will sweep the British fleet out of the Mediterranean.

That Andree Balloon Story.

Stockholm, Feb. 15.—The Swedish minister at St. Petersburg is in receipt of a despatch from eastern Siberia, conveying the information given by tribesmen regarding the finding of what was apparently the car of Andree's balloon and the bodies of Andree and his two companions. The Governor added that he had sent a mining inspector to investigate.

The Organ Grinder Earl.

London, Feb. 15.—William Turnour Thomas Poulett, the organ-grinding claimant to the Earldom of Poulett, says that he has received offers of money with which to further his claim, from a gentleman in Massachusetts. He also asserts that other offers of a like character have come to him from Montreal and elsewhere in America.

Austrian Painter Dead.

Cracow, Austria, Feb. 15. — Julius Kossak, recognized as the greatest Austrian painter in water colors, died yesterday at the age of 74. He was especially famed for his studies of horses and his spirited battle scenes.

British Pacific Cable.

London, Feb. 15.—The Right Hon. Joseph Chamberlain, Secretary of State for the Colonies, announced in the House of Commons yesterday that no decision had been arrived at by the Ministry regarding the proposed Pacific cable.

Concessions to Britishers.

London, Feb. 15.—The Times says this morning: "We understand that Sir Claude Macdonald, British minister of Pekin, has obtained a concession for a British syndicate to construct a railway from Hankau to Canton, along the coast.

Settled Out of Court.

London, Feb. 15.—The suit brought by the owners of the British steamer Restormel to recover $20,000 of ocean marine insurance carried by the steamer at the time she was captured by the U.S. auxiliary cruiser St. Paul, as she was trying to enter the harbor of Santiago de Cuba, with coal for the fleet of Admiral Cervera, which at the time was "bottled" in that harbor by Rear-Admiral Sampson, has been settled out of court. The terms of settlement have not been divulged.

To Visit His Grandma.

London, Feb. 15.—Truth says in its issue to-day that Emperor William has written a letter to Queen Victoria announcing that he will arrive at Cowes, Isle of Wight, on board the Imperial yacht Hohenzollern, on July 29, and that he will remain at Cowes one week.

U. S. PHILIPPINE POLICY.

Senators Pass a Resolution Against Annexation of the Islands.

Washington, Feb. 15.—The resolution of Senator McEnerney (Democrat, Louisiana), declaring the policy of the United States Government in the Philippines, was adopted yesterday afternoon by a vote of 26 to 22. Several Democrats present in the Chamber declined to vote. The resolution is as follows:

"That by the ratification of the treaty of peace with Spain, it is not intended to incorporate the inhabitants or the Philippine Islands into citizenship of the United States, nor is it intended to permanently annex said islands as an integral part of the territory of the United States, but it is the intention of the United States to establish on said islands a government suitable to the wants and conditions of the inhabitants of said islands, to prepare them for local self-government, and in due time to make such disposition of said islands as will best promote the interests of the citizens of the United States and the inhabitants of said islands."

An Austrian Countess on Trial.

Berlin, Ont., Feb. 15.—Frau von Webenau, the Austrian countess, and her nephew, were arraigned before Judge Chisholm yesterday on charges of fraud and deception in connection with insurance on her property, which was destroyed by fire two weeks ago, and for which they were committed for trial. They pleaded not guilty and elected to be tried by the judge. Judge Chisholm, therefore, set Wednesday, Feb 22, as the date. Her counsel, Mr. C. Bitzer, asked the Crown to summon the witnesses for the defendants, as they had no funds to do so.

Left Prostrate

Weak and Run Down, With Heart and Kidneys in Bad Condition—Restored by Hood's Sarsaparilla.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have severe spells of coughing that would leave me prostrate. I was told that my lungs were affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done and my brother advised me to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. I continued its use and it has made me a new woman. I cannot praise it too highly." MRS. SUMMERVILLE, 217 Ossington Avenue, Toronto, Ontario. Get only Hood's, because

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1, six for $5.

WEDNESDAY, FEBRUARY, 15, 1899.

OUR OTTAWA LETTER.

From Our Own Correspondent.

AN OPINION FROM THOSE WHO KNOW.

The Canadian Press Association, which has just concluded its annual session in Toronto, is composed of men who are, necessarily, in closer touch with public opinion, and in a better position to judge of the condition and need of the country, than probably any other organization in the country. Moreover, having in its membership men of all political shades, and of no politics at all, its official utterances carry more than usual weight. Attention is therefore asked to the following resolutions carried by that body:

"That we rejoice in the remarkable expansion of trade throughout the Dominion, and the evidences of returning prosperity to be generally observed, and we beg to approve most heartily of the suggestion that a Canadian commissioner be conveniently located in some commercial centre of Great Britain, whose duties it will be to draw attention to the resources and products of this country, and the opportunities it affords for the investment of capital, as well as the attractions it presents to tourists.

"It is a matter for congratulation that the ties that bind the colonies to the Mother Country are strengthening and we give our approval to the preferential tariff and penny postage as influences that will operate in the extension of still closer commercial relations."

It may be observed in passing that the pressure on the columns of the Mail and Empire was apparently too great to allow of even a reference to these significant expressions of opinion.

THE FAST STEAMSHIP.

"Nil Desperandum" appears to be the motto of the Government in connection with the fast Atlantic steamship project. Hon. R. R. Dobell is on his way to England for the fourth time, in the endeavour to arrive at some satisfactory solution, and from the hopeful words he uttered in addressing his constituents before leaving, he evidently has not lost courage, but is even yet determined to bring the matter to a successful issue, in spite of obstacles and difficulties that would have disgusted most men long ago.

A CHANGE FOR THE BETTER.

In connection with the same meeting referred to above, the remarks of the chairman are worth quoting, for they apply with equal exactness to scores of constituencies throughout the country. He declared that Mr. Dobell was "the first representative of the constituency for a quarter of a century past who had the courage to come before his electors and explain his Parliamentary conduct." The record shows, that during that quarter of a century, in fact since Confederation, Quebec West has been represented by a Conservative member, and many another constituency has had a like experience, particularly when, as in Quebec West, the sitting member thought he had a sure thing. The member who is reluctant to come face to face with the electorate cannot, even under the most favourable circumstances, expect to represent them as faithfully and as thoroughly as he who is careful to remain in close touch with his constituency.

ALIKE AS TWO PEAS.

A leading journal in Vienna, Austria, delivers itself as follows: "England stands alone in the world hated or feared by many, loved by none. England is inevitably doomed to speedily share the fate of the mighty empires of the past, which have now almost disappeared from the earth."

For "England" read the "Federal Government," and you have Sir Charles Tupper, or his acknowledged first lieutenant in Ontario, Mr. J. P. Whitney, or his right and left bowers in journalism, the Montreal Star and the Winnipeg Telegram, discussing home politics. The similarity of style and expression is startling, and the Austrian prophet is evidently about as near the truth as our friends at home.

TALKING AT RANDOM.

When a political leader talks so at random that even his own faithful henchmen of the party press hesitate to place him on record, his remarks must be wild indeed; yet such was the case with Mr. Whitney and his speech on the Address in the Local Legislature. Speaking on the administration of the Educational Department, the leader declared that the school system of Ontario "was such that not a shadow of education was obtained under it." And such baby talk was received with Opposition cheers, the newspapers state, though it is significant that the Mail and Empire does not report the leader's remark at all.

The administration of the Education Department has always been a sore point with the Local Opposition because it has been conducted with such conspicuous ability and success, as to reflect the highest credit on the Government and the Ministers. Really it is a pity that the accredited and responsible leader of a large section of the Legislature should allow himself to patter such twaddle as this.

FIRES OF A DAY.

Oddfellows' Block in Chatham Suffered to a Considerable Extent—Severe Loss at Rat Portage.

Chatham, Ont., Feb. 15.—Fire broke out yesterday morning in the I.O.O.F. block, on King street, and in a short time devoured thousands of dollars' worth of property. The brigade worked continuously until after 11 o'clock before the flames were subdued. The losses are placed as follows: I.O.O.F. block, $500, insured; Mrs. Garner, on Royal Exchange Hotel block, $5,000, insured; R. Harrison, tenant of Royal Exchange Hotel, $2,000. insured; Thomas Maw, restaurant, $1,000, partially insured; William Bennett, cigar store and billiard parlor, loss $3,500, insured for $1,825; James Holmes, book store, loss heavy.

A Young Hero in Chicago.

Chicago, Feb. 15.—Frozen water plugs prevented the fire department getting a stream on flames that broke out in the seven storey brick warehouse at 10 to 24 West Water street. Owing to the heroic efforts of Eddie Lowe, an office boy, several people were saved from being burned to death. The lad spread the alarm from floor to floor, and not until he saw that everyone had made good his escape did he leave the structure. The building was owned by the Manufacturers' & Merchants' Warehouse Company, and much of its space was rented to bicycle firms, who will lose heavily. The damage to the building and contents is estimated at $350,000. Later it was reported five or six persons had perished.

Rat Portage Warmed Up.

Rat Portage, Feb. 15.—Fire broke out in the Scovill block last night, occupied on the lower floor by Rogers & Ray, general merchants, and J. Werner, druggist, and upstairs by the Crown Lands Offices, Kennedy's law office and others. The damage to the building was considerable, but the principal losers were: Rogers & Ray, $6,000 on their stock, insured in the Hartford for $1,500, the Union $1,000, National $1,000, North British & Mercantile $1,000. Werner's loss is about $500, fully insured. The occupants on the second floor were damaged, principally by water, and the insurance is unknown.

Loss at Sunderland.

Sunderland, Ont., Feb. 15.—About 2.30 yesterday afternoon fire was discovered in the roof of Joseph Saunders' wood-working and blacksmith shop, near the G.T.R. station here. The fire spread very rapidly, the frame building becoming a mass of flames in a very short time. The fire then spread north to the frame dwelling owned by Mr. Fitzgerald and occupied by Mr. Condy, and this was very quickly burned to the ground. The total loss will be in the neighborhood of $1,000.

A $500,000 Fire in Cincinnati.

Cincinnati, Ohio, Feb. 15.—A fire causing a loss of half a million dollars started mysteriously in the hat manufactory of Kethan, Feltheimer & Company yesterday and communicated to the clothing house of H. A. Zinsheimer & Company, 104 West Third. Sanford, Varner & Storr's valuable stock of clothing and material was practically ruined.

A $5,000 Loss at Cornwall.

Cornwall, Ont., Feb. 15.—Fire broke out in the store occupied by Thomas McDonald & Co., grocers, Water street east, about 10 o'clock last night, and spread to the residence of Hector McLean and James Tannehill, which was, together with McDonald's store, a total loss. The cause of the fire is unknown. The loss is about $5,000, partly covered by insurance.

Block Burned at Bathurst.

Bathurst, N.B., Feb. 15.—A bad fire occurred here yesterday, one of the finest blocks in town being destroyed. The burned block contained T. C. Smith & Sons' drug store, Adams, Burns & Co.'s store and Henry White's saloon and dwelling.

A School House Burned.

Embro, Ont., Feb. 15.—The school house at Cody's Corners, a brick building, was burned last night.

These Tired Kidneys.

Dr. Chase's Kidney-Liver Pills help tired kidneys to do what they must do if you are be a healthy man or woman.

A VANCOUVER LADY

Cured of Asthma After Eight Years of Almost Constant Suffering—She Says the Absolute Freedom From the Disease Seems Like a Dream—Clarke's Kola Compound Cures.

Mrs. J. Wise, Mt. Pleasant, Vancouver, B. C. writes: "I have been a great sufferer from bronchial asthma for the past eight years, many times having to sit up nearly all night. Through the advice of a friend who have been cured by Clarke's Kola Compound I received as a free sample bottle. The first bottle did not relieve me much, but before I had finished the third bottle the attacks ceased altogether, and during the past six months of damp and cold weather have not had a single attack. It seems something like a dream to be free from this disease of all others after so many years suffering. I have since my recovery recommended this remedy to others suffering as I was, and since many others in this city whom it has cured. I consider it a marvellous remedy, and would say that any person suffering from this disease (Bronchial Asthma) should give it a trial. Clarke's Kola Compound are guaranteed to cure. A free sample of Clarke's Kola Compound will be sent by mail to any person who has not used it. Manufactured by The Lyman Drug Co., Limited, 121 Church-street, Toronto, Ont.

Clarke's Kola Compound should not be confounded with the other Kola preparations on the market, as this is altogether a different preparation, guaranteed curative in the cure of asthma. For sale by druggists, Peterborough. Price $1.00 per bottle.

WEST HURON ELECTION.

Robert McLean and Robert Holmes Were Nominated.

Goderich, Feb. 15.—Messrs. Robert Holmes of Clinton, editor, and Robert McLean of Goderich were nominated for the Dominion House of Commons yesterday in the Reform and Conservative interests respectively.

At a meeting held after the nominations, the two candidates spoke to the large gathering of electors. Mr. Robert Holmes, the Liberal candidate, spoke at greater length than his opponent, and spoke, too, with a fluency and vigor which carried the audience with him. He was followed by Mr. George Taylor, M.P., on behalf of Mr. McLean. Hon. Mr. Mulock replied to Mr. Taylor. The other speakers were Mr. Bennett, M.P., and Dr. Landerkin, M.P.

Hon. William Paterson left Ottawa on Tuesday for Belleville, and will proceed to West Huron, where he will remain till after polling day.

Hon. J. I. Tarte will speak at Clinton on Friday.

Sir Charles Tupper has gone to take part in the West Huron election.

PECULIAR POISONS

GENERATED IN THE HUMAN BODY.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of death (called by scientists Ptomaines,) are usually the result of imperfect digestion of food, the result of indigestion or dyspepsia.

The stomach, from abuse, weakens, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay), poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain, causing headaches, and pain in the eyes.

Bad digestion weakens the heart, causing palpitation, and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's Disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products: the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure any form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first. A little book on stomach disease mailed free. Address Stuart Co., Marshall, Mich.

Children Cry for **CASTORIA.**

THE FILIPINOS OPENED FIRE.

Another Engagement in Which Uncle Sam's Soldiers Were Successful.

New York, Feb. 15.—A Manila special says: The insurgents at Pateros, ten miles from Manila, surrendered on Wednesday, but the place was not occupied by the American troops. Since their surrender the Filipinos have flown flags of truce indicating their submission, but yesterday afternoon they opened fire upon some detached troops of the 1st California Infantry stationed nearly north of the town. The Californians rallied with a hot fire, driving the rebels out of the town.

They moved to the south, where they made a stand, and an engagement followed, continuing until dark. The former Spanish river gunboat Laguna de Bay is now on her way to shell the enemy's rear.

Enough Arsenic to Kill.

Toronto, Feb. 15.—Prof. Ellis' analysis of the stomach of the late Mrs. Elizabeth Williamson of Melancthon showed the presence of sufficient arsenic to cause death. Inspector Greer will attend the inquest next Monday. Deceased died very suddenly several weeks ago. She was the wife of a farmer at Horning's Mills.

A Narrow Escape.

Thankful words written by Mrs. Ada E Hart, of Croton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My Husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Sold by all druggists. 50 cts. and $1.00. Guaranteed or price refunded.

Ottawa Society Ladies in Peril.

Ottawa, Feb. 15.—While Mrs. Lavergne, Miss Lavergne and Mrs. Hayter Reed were on their way driving in a cab to attend General and Mrs. Hutton's ball at Earnscliffe, a shying horse crashed into the rig containing the ladies. One of the shafts struck Mrs. Reed, rendering her unconscious, and Mrs. and Miss Lavergne were thrown on their faces. The doctor found upon examination that Mrs. Reed had sustained a severe nervous shock, and also that her side was slightly bruised. Although very weak from the shock, Mrs. and Miss Lavergne were not otherwise hurt.

Afloat on an Ice Floe.

Greenport, L.I., Feb. 15.—Daniel Brown, Edward Tuthill and Herman Keene, whose ages range from 17 to 20, and who belong to East Marion, were carried away on a large ice floe yesterday and probably perished at sea. The three boys were out duck hunting.

Grand Trunk Engineer Swears by Dr. Chase's Kidney-Liver Pills.

Mr. Geo. Cummings, for over twenty years engineer on Grand Trunk running between Toronto and Allandale, says:—"The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommend by my fireman, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me an I feel to-day a better man than ever. I recommend them to all my friends.

VALUABLE

Residential Properties FOR SALE

In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Containing ten rooms. House in good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containg seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 103 feet square.

Parcel No. 4. Brick residence, corner Wolfesley and Benson streets. Two storeys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 103 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases.

Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

Good Blood!

Your heart beats over one hundred thousand times each day. One hundred thousand supplies of good or bad blood to your brain.

Which is it?

If bad, impure blood, then your brain aches. You are troubled with drowsiness yet cannot sleep. You are as tired in the morning as at night. You have no nerve power. Your food does you but little good.

Stimulants, tonics, headache powders, cannot cure you; but

Ayer's Sarsaparilla

will. It makes the liver, kidneys, skin and bowels perform their proper work. It removes all impurities from the blood. And it makes the blood rich in its life-giving properties.

To Hasten Recovery.

You will be more rapidly cured if you will take a laxative dose of Ayer's pills each night. They arouse the sluggish liver and thus cure biliousness.

Write to our Doctors.

We have the exclusive services of some of the most eminent physicians in the United States. Write freely all the particulars in your case.

Address, DR. J. C. AYER, Lowell, Mass.

DOUKHOBORS TAKE A STAND.

They Refused to Allow Their Children to Take Chances of Contracting the Canadian Religion.

Winnipeg, Feb. 15.—It was decided to teach the Doukhobor children in the All People's Mission, as it is lighter and more roomy than in the Immigration Hall. However, when the parents went over to look at the building they came back and said the children could not go. Those anxious to get the children to the more roomy quarters enquired anxiously why, and were informed that the place was all covered with images, and evidently it was a scheme to bring the children into the Canadian religion. An examination proved that the evil complained of was a series of Sunday School pictures representing Scripture scenes. The Doukhobors thought these were idems or images, and would not have the children run any risk of being contaminated with what they considered a scheme to wean them from their religion. The offending pictures were removed, and the school went on.

DID NOT DEMAND SKAGUAY.

So Mr. Charlton Told an Interviewer at Chicago.

Chicago, Feb. 15.—Mr. John Charlton, one of the Canadian members of the joint high commission, who spoke before the Marquette Club last night, stated in an interview that the Canadian commissioners had not made the reported demand for the cession of Skaguay, in determining the Alaskan boundary line. "That is merely a newspaper surmise," he said, "and without any foundation. The Canadian commissioners had not made a demand for the cession of Skaguay. We hope to have the boundary question settled satisfactorily, but in what way I am not at liberty to state. I wish I were able to give some of the interesting material which we have, but the commission has made it a point to reserve all the details of its conferences until some definite result shall have been reached."

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets All druggists refund the money if it fails to cure. 25c.

$3,000 by a Broken Wheel.

St. Thomas, Feb. 14.—The breaking of a car wheel caused a $3,000 breakdown on the Wabash Railway, two miles west of Jarvis Station, yesterday noon. Eleven cars of freight and the van were derailed. The derailed cars consisted of two loads of cattle, one of sheep, two of provisions, and the balance of corn meal. Three head of cattle and 25 sheep were killed. The loss amounted to about $3,000.

National Council of Women.

Washington, Feb. 14.—A blinding snowstorm did not prevent the meeting of the National Council of Women at the Church of Our Father yesterday, though the members were late in arriving. About 50 ladies were present. The session was devoted exclusively to business matters, the report of President May Wright Sewall being the principal feature of the day's work.

So much depends on the purity of the blood that by taking Hood's Sarsaparilla many different diseases are cured.

CASTORIA.

THE STORM BLOCKADE

Now Raised in the States to the South of Canada.

PREPARING FOR SMALLPOX.

An Assassin Despatched to Kill the Emperor of Japan—The Headquarters of the Canada Life Assurance Company Changed From Hamilton to Toronto—Gales on the British Coasts.

Niagara district peach growers are anxious about their orchards in view of the hard frosts lately.

The report that M. Manu, Procureur-General of the Court of Cassation in Paris, has resigned, is untrue.

New York had sunshine on Tuesday for the first time since Friday. Business is being resumed, also railway traffic.

Kingston Board of Health is preparing for an epidemic of smallpox, and the old military hospital has been asked for to house patients in.

The gales of Sunday and Monday did immense damage to shipping on the British coasts, but not much loss of life has been reported.

Large bands of armed and mounted bandits are terrorizing Niuchwang Province, China. Numerous outrages have been committed.

Smallpox is raging among the Creek Indians at Muscogee, Indian Territory. Negroes are also among the victims, and deaths have been numerous.

At the annual meeting of the Canada Life Assurance Company, held on Tuesday in Hamilton, it was decided to remove the headquarters of the institution to Toronto.

A report has reached official circles at Pekin that an assassin was despatched to Japan to take the life of the Emperor of Japan. Great excitement was caused by the rumor, and a thorough investigation has been ordered.

Advices received from Samoa, under date of Feb. 8, report that anarchy and rebellion still prevail there. The provisional Government persists in interfering with the British subjects, and also with servants of British residents.

The White Star steamer Germanic, which went down at her pier in New York Harbor Monday night, owing to the weight of ice upon her, is lying easy on the bottom, and it is thought will be raised without having sustained any damage.

Toronto shipments to Europe on Tuesday were very large. Bacon valued at $4,000, agricultural implements at $3,000, cattle at $8,000 and sheep at $1,000 were forwarded to Great Britain, and $9,000 worth of agricultural implements to France.

The great 1899 storm and snow blockade in New England, eastern and some of the southern States, such as Texas and Alabama, has caused unprecedented suffering, and many lives have been lost. Stock, too, has died from the unwonted cold, against which their owners were not prepared. The railroads, which have been tied up for some days past, are now beginning to make connections on time.

ONE HAPPY WOMEN.

Got Health and Happiness From Dodd's Kidney Pills.

London, Feb. 6.—This city can claim one of the happiest, healthiest women in Canada.

Her name is Mrs. J. Osborne. She lives at 524 Grey street, and she has this to say to her sisters throughout Canada.

"For eight years my life was made miserable by Female Weakness. I used many different medicines, but none did me any good till I started to take Dodd's Kidney Pills.

"The first dose of this wonderful remedy gave me relief. I grew better with every dose, till, when I had taken three boxes, I was totally cured."

Dodd's Kidney Pills are the only medicine on which women can confidently rely for a positive cure.

DR. CHASE'S
Catarrh Cure

Cures Catarrh, Hay Fever, Rose Fever and all Head Colds. Give one blow with the Blower and the Powder is diffused, making a Sure and Permanent Cure.

PRICE WITH BLOWER 25 CENTS

MARKET REPORTS.

Chicago Wheat Futures Opened Firm, But Later Declined Steadily—Live Stock at Home and Abroad—Prices.

Liverpool, Feb. 15.—Wheat futures were little changed yesterday, closing 1-8d per cental higher than the day before.

Chicago, Feb. 15.—The wheat futures opened firm at an advance over the holiday, but later eased off on heavy selling by commission houses. Damage to crops by recent cold weather is said to have been small and other bearish news was the large increase in the visible supply, together with the good Northwest receipts. The May and July options closed about ½c per bush. lower than on Saturday.

Visible and Afloat.

As compared with a week ago, the visible supply of wheat in Canada and the United States has increased 1,177,000 bushels; that of corn has increased 2,416,000 bushels, and that of oats has increased 77,000 bushels. The visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 60,961,000 bushels, against 58,664,000 bushels a week ago, and 70,884,000 bushels a year ago.

Rheumatic Torture

South American Rheumatic Cure Cures in 1 to 3 Days.

Solomon Woodworth, of Hopewell Hill, N.B., is rescued from a deplorably helpless condition, induced by the agonies of rheumatism. Mr. Woodworth had contracted rheumatism of the severest form and in a very short time was incapacitated for work—for weeks he could get no rest—suffered the most violent pains in his arms and shoulders—grew worse and felt he could not live, so terrible were his sufferings—his arms became perfectly helpless. He began taking South American Rheumatic Cure—after the second dose he experienced great relief and at the end of three hours every vestige of the pain was gone—the use of his hand and arm returned gradually and he feels altogether like a new man and to-day rejoices in a cure which he proclaims almost a miracle. South American Rheumatic Cure cures in 1 to 3 days every form of rheumatism and neuralgia. Do not suffer longer—it will relieve in six hours.

South American Nervine soothes the nerves and cures all forms of nervousness.

South American Kidney Cure cures only kidney diseases—relieves in a few hours. 15

Sold by H. S. Macdonald and Ormond & Walsh.

THE ODORLESS
CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,
JAMES CONWAY.

Shedden, February 28th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long felt want and I believe it will become very popular especially in rural districts, towns and villages where we are so frequently contaminated by the ordinary closets. I am, yours, etc.
W. H. MORRISON.

Medical Superintendent's Office, Sept. 30th, 1897
Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 20 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once, before it has a chance to vitiate the surrounding atmosphere.
Yours truly. JAMES RUSSELL, M.D.

Binbrook, Sept. 30th, 1897.

Dear Sirs—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country homes. Yours truly,
M. J. MULLOCK,

ADAM HALL.

A NEW INVENTION

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Upright and Square Pianos of the various makes taken in part exchange for the famous **NEWCOMBE PIANOS.** Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

A Pleasant Evening.

The "At Home" which was held in the C. L. A. rooms last evening, under the auspices of the Ladies' Aid of St. Peter's Cathedral, proved most successful. A large number were present and several hours passed most pleasantly. Refreshments were served during the evening.

Brilliant Gas Display.

As considerable attention has recently been given to acetylene gas, it will be of interest to our readers to learn that Mr. F. Bryant is now in town representing the Forsyth Acetylene Generator. He is making a display every evening this week at Mr. Noble's store, on Simcoe street, where the machine can be seen in fine working order, as well as a brilliant illumination from the acetylene gas. The Forsyth generator has been inspected by Mr. Hewt, inspector of the Fire Underwriters Association, and pronounced safe and reliable. It possesses a number of special advantages for lighting private residences and public buildings, in town or country. It enables the consumer to control his own gas plant. One pound of the carbide which produces the gas will run one light of 16 candle power from seven to ten hours at a cost of 10 cents, or about 1 cent per hour. The generator is very compact and has no intricate or easily disarranged mechanism. It is safe, convenient, and guaranteed to cause no escape of gas.

PETERBOROUGH KLONDYKERS.

Copies of the Yukon Papers are Sent Home.

Mr. Fred S. Harstone, Warkworth, one of the Peterborough Klondyke party, sends copies of the Klondyke Miner and the Klondyke Nugget to his brother and sisters in Warkworth. The Klondyke Nugget is a small paper, about one-quarter the size of the EXAMINER. It is published semi-weekly and the subscription price is $24 per annum. The Klondyke Miner is a much larger sheet, is published weekly, and the subscription price is $10 per annum. The following are a few prices:—Cordword, $20 to $35 per cord; starching shirts, $1; collars, 25c.; cuffs per pair, 50c. The Klondyke Miner states that flour sold at $80 to $100 per sack last winter for a time.

OBITUARY.

Mrs. Barnabus Cain.

Mrs. William Cook, of Ashburnham, received the sad intelligence this morning of the death of her mother, Mrs. Barnabus Cain, of Remus, Michigan. The deceased lady was the daughter of the late Mr. Cacrahan, and was born in Ireland in the year 1820, and was consequently 79 years of age. She came to Canada when she was only three months old, and settled in Kingston, where she was married to Mr. Barnabus Cain. After the death of her husband, she came to Peterborough and lived with her daughter Mrs. Cook, for about ten years. She has since resided with her son, John Cain, in Remus, where she died. Her surviving family consist of Mrs. William Cook, of Ashburnham; Mr. James Cain, [of Kinmount; Miss Lucy Cain, of Mount Pleasant, Mich.; Mrs. J. H. Hamilton, of Mount Pleasant, Mich.; Mr. Barnabus Cain, of Remus; and Mr. John Cain, of Remus. Her remains were interred in the cemetery at Remus.

COLD SPRINGS LITERARY.

The meeting was held on Tuesday night this week, being postponed from Monday night. The following was the programme:—

Recitation.....Thomas Spears
Reading.....Mr. Wm. Hanbridge
Recitation.....Willie Huston
Journal.....Editor
Speeches for three minutes..Mr. W. Thompson, Miss E. Long, Mr. F. Stewart, Miss E. McAllister, Mrs. T. Slesion, Mr. M. Duffus,
Chorus.....By Children

Our society accepted an invitation to meet the Centerville Literary, on Feb. 27th, at Centerville, on a debate. Our debaters are Messrs. Munro (leader,) and Kindred.

The meeting closed with the National Anthem.

The Band at the Rink.

The management are arranging to secure the services of the band for the season, one evening each week. Skating tickets for the season, gentlemen $3, ladies $2, boys, 12 to 16, $2, children under 12, $1.50. Family tickets, first two full price, all over two half price. Tickets can be had at the rink. J. Crane, Secy.-Treas.

Have You Had La Grippe?

If so, nature wants a helping hand out of the trouble. Convalescing men and women need a suitable stimulant or tonic to put back the snap that has been taken out of them. For some, a good bodied ale or porter, ilk Copeland's, is highly recommended. Others are advised to use a fine rich port or sherry wine. While for elderly men pure whiskey is the best. Messrs. Henry & Co, Wine and Liquor Merchants, can supply any of these in well matured condition for medical purposes at moderate rates. HENRY & Co.

Who Were They?

The Hastings Star says: Two "cockerels" accompanied by a "jay" from Peterborough, arrived in town on Tuesday morning with a broken rig and two jaded horses. Drunk of course. A party in town 'phoned to Peterborough and instructions were sent to Constable Wright to arrest the two men and let the woman go. He at once acted on his instructions and secured the two "beauties" while driving around town accompanied by their "bird" and two others. We go to press too early to report trial which took place yesterday before Magistrate Thackeray.

Go to-night and witness the brilliant illumination by ACETYLENE GAS at Mr. Noble's Plumbing and Gas Fitting Store, Simcoe street. The Forsythe Acetylene Machine will be on exhibition and explained by Mr. Bryant an expert representative.

DAUGHTERS OF ENGLAND.

The Local Branch Hold a Pleasing Entertainment.

The Daughters of England held a very successful Entertainment last evening, in the S. O. E. Hall, Hunter st, there being a large number present.

The chair was most acceptably occupied by Rev. W. L. Armitage, who before introducing the programme mentioned the fact that since its organization in Peterboro five years ago, the local branch of the Daughters of England had expended some $500 in Charity.

The evening programme was contributed to by Miss Brown and Miss Lewis who furnished instrumental music; Miss M. Lewis, Messrs Trante Hawkins, Rev. W. L. Armitage, A. Kingscote, Walden and Geo. Mulligan, vocalists. Master Holden Blackwell and Miss Maude McCrae also recited most acceptably.

Altogether the programme proved to be a most pleasing one and the evening passed off in a manner highly satisfactory to all.

UNION SERVICES.

They are Being Held This Week in the George Street Church.

The special Union Services which are being held in George street church this week are being largely attended and are awakening widespread interest and deep religious feeling.

Rev. S. J. Shorey is conducting the meetings. Rev. D. O. Crossley, presided last night, and Rev. J. E. Moore will speak this evening. Mr. Walden has charge of the musical department and leads the union choir.

WEDDING BELLS.

Nuptials of Miss Maggie Lynch, of Asphodel, and Mr. John English, of Norwood.

A very pretty wedding took place on Wednesday morning at 9.30, in St. Mary's church, Hastings, when Miss Maggie Lynch, eldest daughter of Mr. John Lynch, of Asphodel, was united in marriage to Mr. John English, of Norwood.

The bride was assisted by her cousin, Miss Minnie McMartin, of Peterborough, and the groomsman was Mr. Wm. English, of Hastings, cousin of the groom.

The bride was handsomely attired in a plum coloured velvet costume, trimmed with white satin and pearls. The bridesmaid was attired in dove coloured cloth, trimmed with corn coloured satin and gimp.

The bride was given away by her father, and the nuptial knot was tied by Rev. Father O'Brien.

After the ceremony the wedding party repaired to the residence of the bride's father, where about 90 guests were present, and a sumptuous repast was partaken of. The happy couple left on the 8 o'clock G.T.R. express for Toronto.

The bride received many useful and handsome presents. The groom's present to the bride was a Persian lamb collarette, the groomsman a silver dinner cruet, and the bridesmaid to pair of lace curtains.

Bismark's Iron Nerve

Was the result of his splendid health, Indomitable will and tremendous energy are not found where stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. Kings New Life Pills. They develop every power of the brain and body. Only 25 cents at any Drug Store.

WAS STEALING A RIDE.

A Bootblack Who Likes to Ride Between Montreal and Toronto.

A little 12-year-old bootblack, giving the the name of Arthur Reymond, of Ottawa was put off the midnight C.P.R. express yesterday and taken to the cells. He was stealing a ride from Toronto to the east, and when brought before the magistrate this morning stated that he had taken many trips between Montreal and Toronto in the same manner.

The charge of vagrancy has been preferred against the boy, and he was remanded until the police can gain some information about him from Ottawa.

PERSONAL

Mr. Henry Denne has been confined to his residence for the past week through illness.

Mr. and Mrs. J. Londerville, of Hastings, are in town on their wedding trip. They proceed to Toronto on Thursday.

Mr. Linton, who has been connected with the local branch of the Ontario Bank for some months, has been recalled to Toronto.

Mr. Waldo Pousette, son of Mr. A. P. Pousette, Q. C., has received an appointment with the Imperial Bank, being called to Toronto on Monday. He will probably be located in Ingersoll.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this morning, as well as the highest and lowest yesterday—shade temperature:—

To-day, 7 a. m.....12° above zero
Highest. Lowest,
Yesterday.....18° above 4° below

This morning, for the first time since the 5th inst., the thermometer registered above zero, but during the night, however, it came close to it, being only 3 degrees above.

Daily Examiner.

WEDNESDAY, FEBRUARY 15, 1899.

REV. MR. SYMOND'S BIBLE CLASS.

To the Editor of the Examiner:

Dear Sir, as the Saturday afternoon Bible classes grow in popularity, and the attendance increases, I would like to say a few words in regard to them. Mr. Symonds has expressed a hope that the views he is bringing before us may not have a disturbing effect upon the minds of those of his hearers, whose preconceived ideas and habits of thought, have been upon quite different lines. Though his audience is a mixed one, as regards sects and denominations, and probably represents a great variety of opinions and ideas. I do not think there is reason to fear such a result. The happy and earnest manner in which Mr. Symonds presents his views,—the result of years of thought and study, obviates any danger of arousing distrust in the minds of the most sensitive, or antagonism in those least prepared to receive them. We are all seeking knowledge in a subject that is engrossing the attention of the deepest and most earnest thinkers of our time, but we want also the harmony of knowledge with reverence, and this Mr. Symonds' lectures are eminently qualified to give us. All those who, like myself, have found the study of the Bible a both difficult and involved undertaking, must welcome this hance of being guided by a safe hand into its mysteries, and of unravelling even partially, the tangled heart of things. Those who hesitate and doubt the advisability of pursuing this line of study, should strengthen their minds with the thought that "Truth is mighty and will prevail," through whatever medium, or in whatever form it is presented to us. I am sure I am voicing the feelings of all who have had the pleasure of hearing Mr. Symonds, when I say, that we hope he will go on with his lectures, perfectly confident of the sympathy and appreciation of his audience, and will believe that when we assemble on Saturday afternoons, it is with the laudable desire to learn; happy in this that we are neither to old but that we may learn, nor bred to dull but that we can learn, and happier than all, in the golden opportunity of increasing the knowledge that it is our privilege to enjoy.

Yours, etc.
A Member of the Bible Class.

IN MEMORIAM.

In loving remembrance of William Hickey, son of Mr. William Hickey, of Ashburnham, formerly of Port Hope, who died Feb. 10th, 1899:

A brother dear has left his home,
Who unexpected fled;
He's sleeping in the graveyard now,
Among the silent dead.

How short his pilgrimage on earth—
How brief his sojourn here—
Few years allowed him to prepare
For a brighter sphere.

Yes, he has gone; his presence here
Seemed but a passing wave;
But yesterday he walked about—
To-day he fills a grave.

Cut down in manhood's happy prime,
A brother kind and true;
Cut down in life's bright spring time,
'Twas hard to bid adieu.

Laid in the tomb, with its stillness and gloom,
His form once strong and brave—
Laid in the dust, but we hope and trust,
That his spirit is safe above.

In that bright land of sweetest rest,
Where Christ himself doth reign,
We'll strive to gain that happy land
And meet with him again.

Then lay your sorrows at His feet,
He will all your burdens bear;
And strive in faith and hope till called
To meet your dear Will there.

ONE IN SYMPATHY.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The name of Mr. W. Grady was inadvertantly omitted from the C.L.A. minstrels published yesterday.

FIRST SIGN OF SPRING!

An advance shipment of the Newest Neckwear just arrived at our store this morning.

THEY ARE BEAUTIES—We have them in four shapes, viz., Puffs, Ascots, Lombards and Derbys.

If you see them you will purchase one. Good colours for cold weather and very suggestive of spring.

A. Mercer & Co.

OUR COLUMN OF SPORTS.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Going on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

HOCKEY.

Everybody is interested in the result of Peterborough's petition to the O. H. A. to be allowed to play in the finals against the winner of the Queen-Varsity series. The matter does not come up before the Committee for discussion until Friday. Capt. Hollingshead has received assurances from various members of the Executive that Peterborough's prospects are bright.

A Peterborough team will probably go to Belleville next week.

The hockey club of New York defeated the Yale team by a score of 2 to 1. The game was well played, all three goals being made in the last half.

George Carruthers, the dinky cover-point of the T.R.C., is out of the game for the season. His strength to the team will be greatly missed, for he is a rattling good cover, and has few superiors.

The Buffalo Inquirer is just about right in the following paragraph: "Rough house" games are not wanted in any line of sport, and the sooner they are put down the better. If the law takes a hand in, as it did the other day, it will soon put a stop to them.

Campbellford lost their first match to Marmora on Monday evening by a score of 8 to 5. Campbellford played two light juniors, who were soon knocked out by Marmora's hard checking. Marmora team are all good checkers and work hard from start to finish. Walters, of Marmora, acted as referee, and allowed kicking and off sides whenever it was any advantage to his team. Billy Rockwell, captain of the Campbellford team, got a sprained ankle while playing in Deseronto last week, and will be out of the game for the season.

HARDWARES VS. LAKEFIELD.

Last night Chief Connal took the trail for Lakefield with his band of hockey braves, and as a result hair vigour is being used extensively to-day in the wigwams of the hardware men, for the Lakefield warriors took their scalps in fine style, the score being twelve to one in favour of the latter. It was after nine o'clock when Mr. T. Ridpath, who performed the duties of referee to the satisfaction of all, blew his whistle and the teams lined up as follows:—

Hardware Men.		*Lakefield.*
W Higgins	goal	G Newbury
W McAuliffe	point	J W Ridpath
John Brown	cover point	M L Strickland
T Burnham	forwards	A Mackenzie
P Isaacs		W Stabler
A Stethem		F Gray
M Comstock		R Blomfield

On the face-off the fun commenced, and it is doubtful if the spectators ever saw such hockey before. McAuliffe at point put up a game rarely seen, and if he failed to lift the puck when it came near it was because he was kept busy lifting himself. Notwithstanding the efforts put forth by the Hardware forwards they failed to get near the Lakefield goal in the first half, being kept busy defending their own goal when not sprawling on the ice. Although Higgins stopped shot after shot, yet the puck came in so frequently on him that at the end of the first half the score stood 9—0 in Lakefield's favour.

In the second half it soon became apparent that the Hardware boys had got their hockey legs under them, and the play was mostly around the Lakefield poles, a fact which caused Manager Connal's face to broaden into a smile that would have done justice to a South Sea Islander about to dine on stewed missionary. It was too late, however to start playing, and the game ended in favour of Lakefield by score of 12—1.

After the game the boys were banqueted at the Queen's, and they cannot speak too highly of the manner in which they were treated, special thanks being due Messrs. J. W. Ridpath and G. Newbury.

Dagger and Billy should not have worn those convict coats. Familiarity breeds contempt.

Isaacs and McAuliffe occasionally did some great combination work—in assisting each other to rise from the ice.

Burnham trained hard for the game, refusing a cigar before the match.

The Frontenacs are crowing loudly over being able to defeat the Lindsay team. If they find as much to boast of in licking a team which is in the O.H.A. for its first season, their finish must be in sight. They are a poor lot of sports, those Frontenacs. Without knowing the circumstances of the case, it can be guaranteed that Lindsay banquetted them and gave the Kingstonians a good time, but on going to the Limestone City did not even lay eyes on a Frontenac after the match. That was Peterborough's experience for years, and now the Frontenacs look in vain for the oyster supper, with which they used to be regaled in Peterborough.

"It makes little difference what branch of sport one is engaged in, a true sportsman can find little to criticise in it, as long as it is conducted fairly and with credit to all. There is no man living who roasts harder or hates a man more for fouling than the man who takes in all of the boxing bouts and believes in the fistic game. A true admirer of football will go hundreds of miles to witness a first-class game between rival colleges and will root hard for his favourites. He likes a little roughness, but when it goes beyond the limits of fair play he will howl for the removal of the man who did dirty work as quick as the veriest tyro. Racing men detest a foul-riding jockey; jockeys themselves will cut him; and so it is all the way down the line of sport, including that good old American national game of baseball. A rough-house individual, even on a local team, gets little sympathy from the men he wants to stand in with, and all kinds enmity from others. There are two games not very well known in the United States and especially in Buffalo, where rough tactics are used to more advantage than in any other kind of sport. They are hockey and lacrosse. Recently a hockey player in Barrie, a Canadian town, badly injured a rival player and was arrested."

CHALLENGE.

We, the Drygoods Hoopers, hereby challenge the Clothing Hustlers to a game of hockey on any date after Monday next.

CURLIANA.

Campbellford curling club are putting up a trophy costing $100 for annual competition at Campbellford, open to Kingston, Belleville, Napanee, Cobourg, Port Hope, Lindsay, Lakefield, Norwood, Bobcaygeon, Keene, Peterborough Granites and Thistles, Millbrook and Campbellford. First competition to start at 1.30 p.m. on Wednesday, Feb. 22nd.

The Midlothian bonspiel was decided last month at Cobbinshaw, near Edinburgh, with about 400 curlers taking part. The Balerno Club, with an average of 8¼ shots majority per rink, carried off the Midlothian Cup and Provincial Medal of the Royal Caledonian Club. Corstorphine was second with 3 shots up. A Penicuik rink won the President's prize for the greatest number of shots over their opponents.

The annual bonspell of the Royal Caledonian Curling Club of Scotland, renewed after the lapse of a year, was carried through at Carsebreck, near Blackford, the sides being North of Scotland vs. South. Two years ago the South won their seventeenth victory from twenty-one matches with a record majority of 906 points. This year the South again won by a reduced majority of 760 shots, the scores being South, 3,883; North, 3,113. Of an entry of 270 rinks, 230 competed, about 2,000 curlers being on the ice, including Lord Balfour of Burleigh, Secretary of Scotland.

THE KENNEL.

A meeting of the Executive of the Bench Show will be held on Friday evening in Dr. Poole's office, Water street, to decide on a point raised by an exhibitor.

Mr. Harry B. Hungerford, proprietor of the Mountaineer kennels, has imported from Scotland the celebrated rough collie "Rufford Ossory." He is sired by the great "Rufford Ormonde" now the property of the millionaire banker Pierpon Morgan of New York, who paid several thousand dollars for it. Mr. Hungerford's new dog is said to have been the heaviest coated collie in Scotland and he is certainly a beautiful animal.

CANOEING.

A report from the northern division says that Toronto, Kingston, Brockville and Ottawa canoe clubs are planning cruises for war canoe races at the annual camp, August 1899. Buffalo, Rochester, Boston, Auburndale, New York and Trenton will probably make entries. If a crew for the new western division can be formed, these races will be the best ever held on the St. Lawrence river, as every crew of fifteen men contains championship material. The races for club fours, tandems and singles will be very exciting. One Canadian firm of canoe builders has orders for seven 30-foot war canoes, and reports more enquiries for racing, paddling and sailing canoes than it has ever had before at this season of the year.

THE TURF.

At Hague, New York, the world's harness racing record on ice was broken by Sumnious, a pacer. The mile was covered in 2.16¼. Old Hutch held the old record at 2.18¼.

The races at New Orleans yesterday were postponed because the track was frozen.

CRICKET.

The cricket match at Sydney last month between New South Wales and Victoria was won by the former by 8 wickets. Going in first, N. S. W. scored 442, Noble making 100, Iredale 98 and Donnan 60. Victoria, at their first attempt, made only 215. Giller being the highest scorer, with 87. Following on, Victoria ran up a score of 396, Worrall making 68, Graham 124 and Giller 55. New South Wales required 169 to win, and accomplished the task for the loss of two wickets. Iredale being 49 (not out), and Mackenzie 62 (not out), at the close.

125 MEN ENTRENCHED.

From the Inroads of Dreaded Catarrh—What Dr. Agnew's Catarrhal Powder Did For Mr. LeBlanc He Proves Will Do For Others.

Alfred LeBlanc, of St. Jerome, Que., was a great sufferer for years with catarrh of a very severe type. Dr. Agnew's Catarrhal Powder rescued him when every thing else had failed. To-day when he goes to his lumber camp with his 125 men, this great remedy is considered as much a necessity to comfortable camp life as anything else. It relieves cold in the head in ten minutes; prevents the growing of catarrh germs, and when they are sown, it cures them. Sold by H. S. Macdonald, & Ormond & Walsh.

NORTH MONAGHAN.

Council Meeting.

The council met in the town hall on Monday, February 6th. The members present were the reeve, Mr. T. M. Hunter, and Councillors Hall, Brown and Madill. The minutes of the preceeding meeting were read and confirmed.

Communications were read from Robt. Eastland regarding the opening of a drain on the south end of his lot.—Received.

From Geo. Lockie, regarding the clearing of the creek at the corner of his lot.—Received.

From Dickson Bros., re the construction of steel bridges, etc.—Received.

Accounts were presented as follows:—Geo. H. May, account as presented at last meeting, $3.00; P. Hamilton, account as presented at last meeting, $5.80; John Trotter, cleaning culvert on 8th concession, $4.00; John Tully, ten yards gravel got by I. Moore, $1.00; J. McIntosh, 37 yards gravel on boundary, half cost, $1.85.

These accounts, with the exception of P. Hamilton's which was not certified properly, were passed and orders issued in payment therefor.

An application was received from Jos. Forster for refund of dog tax, 1898. This allowed, as the statutory declaration had been fyled.

Moved by Messrs. Hall and Brown that a committee consisting of Messrs. Bradburn and Hall take steps to inquire as to the advisability of making the assessment of the township in the summer, the committee to report at a special meeting to be held in Mr. Bradburn's office on Saturday, Feb. 11th.

The council then adjourned.

Saturday, Feb. 11.—In accordance with resolution of the last meeting, the council met at Mr. Bradburn's office, at 2 p.m. All the members were present. The Reeve presiding.

On motion, the reading of the minutes of last meeting was deferred until the next meeting.

Applications were made previously by R. Smith and Mr. O'Brien for an extension of time for payment of taxes for 1898. These were not allowed.

Mr. Cameron addressed the council with regard to making a map of the township.

Moved by Messrs. Hall and Brown, that Mr. Cameron's application be referred until next meeting.

The committee appointed at the last meeting as to the taking of the assessment in the summer, reports that after making enquiries and investigating the matter fully, they could not recommend that the time of taking the assessment be altered as as not sufficient gain would be made to warrant the extra cost. The report was adopted and the council adjourned until the first Monday in March.

His Life Was Saved

M. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1.00, at any Drug Store, every bottle guaranteed.

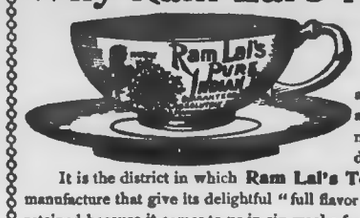
E. F. MASON & CO., 429 George St.

Why Ram Lal's Tea Makes Fast Friends.



Ram Lal's Tea is known to the trade as "full flavored" while Ceylon teas are designated "thin". Ram Lal's does not pall on the taste and become flat as do "thin flavored" teas.

It is the district in which **Ram Lal's Tea** is grown and the cleanly process of manufacture that give its delightful "full flavor" while all the boquet and aroma are retained because it comes to us in six weeks from the time the tea is first plucked.

THE OWL

Ain't much of a talker, but he is a deuce of a thinker. He is wondering now how we make Collars and Cuffs with smooth edges.

No Extra Charge. Phone 65 or Postal brings our Team.

PETERBORO' STEAM LAUNDRY

A. PARKER.

HAVELOCK.

From our Own Correspondent.

The hockey match at the Victoria skating rink here between the Hustlers of Havelock and the Invincibles of Norwood, was well patronized, and roars of laughter from the onlookers greeted the players from start to finish. The score was 6 to 3 in favour of Havelock. After the game our boys gave the Norwood team an oyster supper at the McDermid House. The return match will be played at Norwood next Monday night. Many of our citizens intend taking in the fun.

A deputation consisting of our council and Messrs. Dr. Jeffs, Dodds, McAuley and Knox waited on the council of Belmont at Belmont town hall on Saturday afternoon last for the purpose of endeavouring to get the Belmont township to unite with Havelock in erecting a union town hall. The matter by the above gentlemen was ably presented. Although taken by surprise, Belmont council promised to give the matter their sincere consideration, and it is to be hoped that at their next meeting they will submit a by-law to be voted upon by the people. If this is done we expect to see in the near future a handsome building erected in Havelock, which has been a long-felt want in this community.

The concert of the season will be held under the auspices of the Citizens' Band in Belmont town hall, on Friday evening, 24th inst. The programme will consist of solos, recitations, farces, vocal and instrumental music and selections from the band. Tickets 25c and 15c. Comfortable conveyances will be provided from Havelock to hall and return at 10c per round trip.

A number of the ladies of the Presbyterian church, Havelock, attended a missionary convention at Campbellford on Tuesday afternoon.

Many of our young people attended the ball at Mr. George Brown's Trent Bridge, and report having had a good time.

Many cords of hardwood are being brought into Havelock these days for shipment. Price $2 and $2.25 per cord for green wood.

Mr. Wm. Cooper, councillor, lies quite ill with la grippe. We wish him a speedy recovery.

MR. HOUSE, OF BERLIN

Cured of Lumbago by Dodd's Kidney Pills.

Berlin Feb. 13.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past. Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Back-ache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

D-O-D-D-'S

FASHION AND FABRIC.

Among the novelties in winter waists is a norfolk outaway with a deep yoke front.

Military effects continue to appear among winter basque bodices, jackets and coats.

Nearly all the long Russian circular capes are finished with a deep flounce at the edge.

Some of the latest French basque bodices have oddly scalloped, open fronts, with fancifully finished sleeve tops to match.

Fine velvety ladies' cloth in exquisite light and deep colors is imported. It is figured with small or medium sized dots in silk chenille.

One of the very popular winter skirt models is formed with five gores, sheath shaped at the top and a deep circular lower part, edged at the hem with two narrow ruffles.

Unlike those worn seasons ago, the new winter redingotes do not meet down the front; but, while reaching to the skirt hem at the back, they, with but few exceptions, have the rounded fronts which fashion so much affects.

Breitschwanz is one of the most fashionable, pliable and smart looking of the popular furs of the winter. From Grunwaldt's are sent over flchu shaped capes, sack coats and cutaway jackets formed of these rather short pelts.

Fashionable modistes are now closing many of their dress skirts at the back, or else they place the placket on the left side of the front breadth under a trimmed tab, a passementerie device or other decoration that conceals the means of egress and ingress.

A plain cloth dress of one becoming color, trimmed simply with narrow braid and small tailor buttons and silk lined, if possible, is by all means the first and best choice where the season's outfit is in any degree limited and no great variety of gowns possible.

All the new toques are much larger than they have been for several years, and the greater portion of them turn back from the face directly in front, with a sparkling gem set buckle holding a cluster of soft, erect plumes and a curved osprey feather in the center.—New York Post.

Kidney-Bladder Trouble.

There is no more serious menaces to good health in the present age than kidney disorders, and it's appaling fact, but a true one, that four-fifths of the country's people have the taint of this insidious disease with them. Dr. Chase's Kidney-Liver Pills cure all kidney diseases.

Water Horses Frequently.

It is not natural for the horse to go long without a drink of water. His stomach is small and cannot hold a water supply for a long time. Watering morning, noon and night when at work in summer time is none too often. If the work is very heavy two tablespoonfuls of oatmeal stirred in the pail will make the horse drink better, and will also prevent so much cold water from injuring his stomach. It is a mistake to suppose that a horse or any other domestic animal prefers to drink water only a few degrees above the freezing temperature. If it is lukewarm the horse will drink more freely and the water will be less apt to injure him.

Increased Egg Production.

Doubtless the largest profits from the farmers' poultry yard will always be those arising from the sale or use of eggs. The egg is nearly always cash. It comes nearer to a circulating medium than almost any other thing the farm produces. The demand for strictly fresh eggs seems never to be fully supplied, except in the immediate locality where the eggs are produced. The farmer that produces eggs knows that he can always sell them for cash, and that usually there is far more profit in the exchange than is the case with any kind of flesh. The production of eggs is increasing from year to year, but not more rapidly than the demand.

No Right To Ugliness

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at any Drug Store.

Wood's Phosphodine is sold in Peterborough by John Nugent, druggist

QUEER GHOST STORY.

A CREEPY EXPERIENCE IN THE ARCTIC REGIONS.

How the Uncanny Influence of Dead Men's Bones Made Itself Manifest on Board of Lieutenant Peary's Ship, the Kite.

A member of the Peary expedition writes: While reading The Graphic review of Lieutenant Peary's book it occurred to me that a curious experience resulting from sundry raids made on Greenland burying grounds in the scientific pursuit of Eskimo skulls and skeletons may be of present interest. I confess that my story has a distinctly Rougemont flavor, but its accuracy is vouched for by the scientists of the party. We know it really happened. We leave the explanation to the Psychical Research society.

The Greenland section of the Peary expedition was partly subsidized by several scientific societies on the understanding that skulls and skeletons and botanical and geological specimens should be secured for their various museums. Six Eskimo skeletons were promised to the Chicago World's fair authorities in return for a grant toward the Peary expedition. Eskimo skeletons are rare, especially of those types known as the "arctic highlanders," and it was a question of honor that the scientific branch of the expedition should not return without some of these coveted specimens. Now, the Eskimos are a superstitious people and hold a tradition that if a body belonging to one of their race be taken to a country where no walruses, seals or bears exist and where grass is plentiful the bones of such a transported Eskimo are chewed up by snakes, and the spirit perishes beyond redemption.

Consequently our endeavors to obtain skulls and skeletons by legitimate purchase failed utterly, though I must say in defense of our skeleton snatching action that we offered large prices and tempting prizes for their barter.

When the Kite landed at Ittiblu, the scientists went ashore on a skeleton hunting quest and, finding no bone market open to bribes or sales, determined to make a raid on the two century old burying ground, which contained several hundred graves. The Eskimos built a dome-like erection above their graves, the stones being so arranged as to cover the corpse without coming in contact with it. Snow falling between the crevices of the stones causes a firm kind of cement, so that the opening of such a grave is no easy task. We settled on the likeliest looking grave and after some hard work at night procured an admirable type of mummified Eskimo—a chief buried some two years previously, whom we found clad in a complete sealskin suit.

Wrapping the body in an ulster, we carried it down to the whaleboat, conveyed it on board the Kite and put it in a canvas gun bag, which we promptly sealed.

We had arranged that the affair was to be concealed from the crew, since had they known of the circumstance one and all would have refused to sail with so ghostly a burden aboard. Our plans fell out so well that even the captain of the Kite was for some time unaware of the presence on board of what one ethnologist called "a grand specimen." At Herbert Island we collected two skulls, each "find" being duly sealed in a canvas bag, and at several landing points we added to the skeletons in our bags, winding up at Godhavn, where 18 fine skulls and several bones were secured. By this time one of our bunks was converted into a regular graveyard, but each specimen was separately bagged, securely sealed and the cabin carefully locked.

After the shipping of 13 skulls we encountered terrible weather. The crew meanwhile had their suspicions as to "uncanny" influences aboard, and formed a deputation to the captain to assure him that there would be no luck about the ship till "something" was thrown overboard. The men at the wheel declared in turn that while in the act of steering some stronger hand than theirs was constantly turning the ship shoreward. One veteran helmsman ran us into a sand bank. He said he "couldn't help it—'somebody' seized the wheel and ran the ship aground." The superstitious sailors were firmly persuaded that ghostly "Huskies"—as they call the Eskimos—were piloting the ship landward to induce us to give up their chief's body for decent burial.

One morning at breakfast an officer told a strange yarn. He said he was on watch during the night, when he noticed a kayak paddled by an Eskimo alongside the vessel. It was bad weather, and he knew it must be a ghostly kayak, for no such craft could have been out 50 miles from the land on such a night. Added to which he stated that the kayaker had no difficulty in keeping up with the ship. The Eskimo hailed the watch and kept waving and beckoning with mysterious gestures and a threatening tone in his exclamations. Suddenly he vanished, to reappear alongside a few minutes later, hailing the ship with a mournful wail. The sky was lit up by the vivid northern lights, so the officer stated that he saw distinctly what subsequently took place.

Out of the hatchway came a procession of six Eskimos walking noiselessly along the poop deck. They passed through the bulwark—not over it—and vanished. The kayaker disappeared at the same time. The scientific party left the breakfast table and went to the locked graveyard bunk. Six of the skulls were missing from the bags. The seals were unbroken and were apparently the same that we had affixed. The remaining bones and skulls, with the chief's skeleton, are now the property of the Academy of Natural Sciences in Philadelphia. The six missing skulls have never been heard of. Most of the crew refused to go another voyage in the Kite, which they declared to be haunted by "Huskies" in search of their desecrated bones.

I give you the story just as it occurred. We cannot explain it. If the crew had conspired to steal the bones to "lay" the "Husky" ghosts, why did they take only six skulls and how did they manage not to disturb the seals? The abstraction of the skulls made no difference—so the sailors declared—to the "Husky" apparitions with which they said the ship was constantly haunted.—London Graphic.

Good health is worth more than anything else to you, and every bottle of Hood's Sarsaparilla contains good health.

Children Cry for

CASTORIA.

Women's Worst Enemy

Some hesitate before giving an answer, but those who know best will immediately say HEADACHE.

Thousands of women live in misery day after day, and week after week, suffering untold agony from these dreadful headaches. Husbands are disheartened, children neglected, and happy homes ruined. Most women strive to bear in patience the suffering which they consider part of life without looking into the cause or searching for relief. Food cannot digest without the bile which the liver supplies and hence the necessity of keeping the liver in good working order. To cure the headaches you must cure the liver and thus remove the cause of disease.

Dr. Chase spent years of his life in perfecting a medicine which acts directly on the kidneys and liver. Thousands of grateful women have testified during the past ten years to the effectiveness of this remedy for sick headaches. Many a home has been restored to happiness as a result.

Dr. Chase's Kidney-Liver Pills, the greatest discovery of this great scientist, are put up to sell 25 doses for 25c. All dealers.

ALL AROUND THE FARM.

Plants, like animals, need food, and, like animals, do best on a balanced ration.

It may be accepted as true that where corn is grown for the grain each plant should have opportunity for its fullest development.

Experimental work thus far conducted indicates that it makes but little difference, so far as yield is concerned, whether corn is grown in drills or in hills.

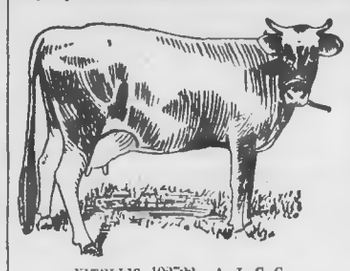
A man is worth something to himself, and the world, because he is greater than the brutes—greater in aspirations—and satisfaction with him means more.

The 490,000,000 people inhabiting Canada, the United States, Europe and Australia annually consume the product of 352,000,000 acres of rye and wheat, being at the rate of .06 of an acre per capita.

We hear of soil wearing out. This often means that the finest soil grains have been dissolved in the process of feeding the plants leaving, the soil mass with a coarser mechanical arrangement, which reduces its power to retain moisture.

A Veritable Butter Machine.

Hoard's Dairyman says a comparison of the several illustrations, with the record of the animals, shows how universally the pronounced dairy type is accompanied by the ability to assimilate large quantites of food, and to return a



NITELLIS 102732, A. J. C. C.

large percentage of it in the form of butter. The cow here illustrated, ate, in one week, 161 pounds of ground feed, together with grazing on orchard grass, clover and oats. The cost of the food consumed would not be over $1.10, and for this she returned 16 pounds of butter worth, at 16½ cents per pound, $2.64.

If the skim milk is assumed to pay for the labor, the net gain from this cow is $1.54 for the week; surely a large return for the amount invested in feed. She has the true dairy form one would expect from such a record. There are no straight lines about her; the back shows the high pelvic arch, while the large udder and milk vein, the large capacity for storing and digesting food, all show a machine especially adapted for the production of milk and butter.

Vim Vigor Vitality

D. WARD'S BLOOD & NERVE PILLS

VIM—to work and to win—to keep a sane mind in a sound body—to laugh at worry.

VIGOR—to ward off disease—to conquer obstacles—to transmit health and strength to your posterity.

VITALITY—to resist the fearful strain and tension of modern life—to make up for the constant drains of overwork. **Dr. Ward's Blood and Nerve Pills** confer all these essential qualities on the user.

THIS EVIDENCE IS AMPLE PROOF.

Before using Dr. Ward's Blood and Nerve Pills I felt weak, nervous and run down. I had lost weight steadily for some time; my circulation was poor; hands, feet and limbs were cold. I always felt weak and my muscles trembled. Now, after the use of one box of Dr. Ward's Pills, I feel like my old self. I have gained five pounds in weight and 100 per cent. in cheerfulness. I now walk firmly, my muscular system is strong and my blood circulates vigorously. I have more comfort than I have experienced in years. Dr. Ward's Pills have done more for me than any medicine I ever took.

QUARTERS FOR PIGS.

Should Never Be Where Other Stock Is Kept—Keep Them Warm.

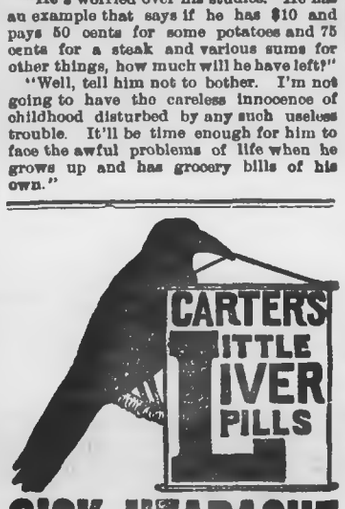
Whenever a barn has a barn basement, as all should have, in that should be fixed the winter quarters for the hog. As there is a strong, disagreeable smell from the pigpen, the basement should not be where other stock is kept, and of course not near the house. Not only horses and sheep, which are dainty in their feeding, but even the cow, which is less affected by foul odors, will refuse to eat food that has been where the stench from the hog-pen could get at it. Yet we have known farmers to allow hogs to run in the same stable with cattle and horses, and then wonder why the latter so often get "off their feed," and lose flesh. The hog alone will thrive under such circumstances, though even the hog in its effort to keep warm will crowd close around the larger animals to gather heat from their bodies. In this way the hog is apt to be stepped upon or kicked, so that the practice is not best even for him. The pigs' winter quarters should be made warm and also light, having a wall on the south side with large double windows in it through which the winter sunlight may stream. If all the other sides are walled tight, and a bunch of chopped straw is put in one corner, the pigs will make their nest in that and sleep at night, but in sunny days they will huddle together where the sunlight can fall upon them. This matter of sunlight has much to do with the healthfulness of breeding sows and the successful rearing of their litters, especially those farrowed in early spring.—American Cultivator.

Sympathy.

"What's the matter with Freddie?" asked the boy's father.

"He's worried over his studies. He has an example that says if he has $10 and pays 50 cents for some potatoes and 75 cents for a steak and various sums for other things, how much will he have left?"

"Well, tell him not to bother. I'm not going to have the careless innocence of childhood disturbed by any such useless trouble. It'll be time enough for him to face the awful problems of life when he grows up and has grocery bills of his own."



SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

The Winter Cough Of the Old.

Many old people are troubled with a distressing Cough which seizes on them as soon as the cold weather sets in, and renders them almost invalids for the entire winter.

Those subject to recurring colds of this kind, will find relief and cure by using Dr. Wood's Norway Pine Syrup.

It is wonderful the way it checks the Cough and so heals and gives strength and vitality to the lungs that they are able to resist an attack of cold.

Mr. S. Smith, Sidney P.O., Man., writes: "I had a very bad cold which lasted nine weeks. I tried various remedies but got no relief, I then bought six bottles of Dr. Wood's Norway Pine Syrup which made a complete cure."

Price 25c. a bottle. All dealers.

Permanent Cure of An Itching Eruption.

Burdock Blood bitters has long held the foremost position as a positive and permanent cure for rashes and eruptions of all descriptions.

It is wonderful the way it takes out the burning, smarting, itching and stinging when applied externally. It never fails to cure skin diseases—from the simplest to the severest. Eczema or Salt Rheum, Tetter, Psoriasis, Shingles, Scald Head, Ringworm, all yield to its beneficent action. The cure, too, is permanent, and the skin is left clear, soft and smooth as a babe's.

Miss Annie E. Rutter, Germania, Ont., writes as follows concerning her case:

"About a year ago I had an eruption on my face which was of a very itching and burning nature and greatly inclined to spread. I used two bottles of Burdock Blood Bitters, which cured me so completely and permanently that there has never been any sign of it returning."

Burdock Blood Bitters

STILL IN BUSINESS

AT THE OLD STAND,

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR.—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000, which matured on the 5th inst. Of the various options you have given me viz.:

Cash value	$1,564 90
Paid-up Policy, payable at my death, for	2,560 00
Yearly Income for life of	166 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 44 per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the low ing rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,
(REV.) J. THOMPSON, D. D.

A Woman's Crime.

A THRILLING STORY OF LOVE AND ADVENTURE.

By LAWRENCE M. LYNCH.

Author of "John Arthur's Ward," "The Diamond Colonist," "Against Odds," Etc., Etc.

Slowly, and with eyes that seemed starting from their sockets, Mrs. Arteveldt arose to her feet. Then with a sudden and piercing shriek, she threw out her hands, and fell at the very feet of the detective. He lifted her from the floor, and carried her to a soft couch in the rear drawing-room. Then Kate and the housekeeper applied restoratives, but when Mrs. Arteveldt recovered from her swoon, she turned her face toward Neil Bathurst, and then broke out into a violent fit of hysterics.

This was too much for the good lawyer. "Confusion!" he exclaimed, turning wrathfully away. "Was ever absurdity like the absurdity of woman? She is angry because this girl did not kill her son. I'll wager she would hang Lenore Armyn, and let Aura Durand go, to-morrow, if she had the power. Come along, Mr. Bathurst, we will leave her to come to her senses."

But Kate Seaton interposed.

"Don't go, I beg, Mr. Hale," she said, with a look half serious, half amused. "If you leave her now, you will have to begin from the foundation. You have said truly, her hatred for Lenore is intense. I don't know what she will do when she learns that Lenore is not only innocent, but an heirers and a lady of rank." Then turning to Bathurst; "Tell him to stay, Mr. Bathurst; see how obstinate he looks. He is in exactly the mood now to bring her to reason quickly."

Neil laughed involuntarily.

"I do think he should stay," he said, "and I think that I should go. Until she is convinced of the truth, my presence will only excite her; thanks, once more, to Jason Bradwardine. Don't you think I am right, Miss Seaton?"

"Yes; I think you are. If you stay she will only say bitter things to you, and have so much more to repent of when she comes to her senses."

"Exactly my idea, although, of course, I should not bear malice. But I want to see Mr. Durand this evening, and he needs my presence more than it is needed here."

Mr. Hale was somewhat inclined to take his hat and go too, but, after a little more low-toned discussion, he decided to remain and "have it out," as he expressed it, at the same moment flinging himself down upon a very forbidding-looking chair, to wait for the hysterics to abate.

Bathurst exchanged with him a few half-whispered words, in reference to their plans for the morrow, and then he turned to go, Kate Seaton accompanying him through the drawing-rooms and pausing at the door.

"Mr. Bathurst," she asked, looking up with a rosy flush on her face, "will they take Aura Durand to London?"

"Yes, Miss Seaton," looking down with a smile; "as soon as the necessary preliminary steps have been taken, Rob will sail for England with his prisoner."

Kate looked down. "I wonder if Mr. Ferrars will go too?" she said, as if she didn't feel so much interested in this question.

"No; not if I can prevent it."

"And when he does go, he will take Lenore, I suppose."

Neil flushed in his turn, and made no answer. He was almost startled to find himself mentally saying, "I wish I could prevent that."

"Lenore will go back to my sister, now," went on Kate; "she said so to-day. And I shall go home, too. Mrs. Arteveldt will not want me when she learns how, all along, I have been in sympathy with Lenore"—then veering suddenly, in true woman fashion—"how splendidly you all took those counterfeiters, Mr. Bathurst."

"Yes. That was Rob's work; I had little hand in it. Ferrars made the acquaintance of the cook, and so managed to let Rob in, you know. He got upstairs without being seen, and had the trap open and everything ready before the gang came up to begin work. Rob won't much fancy this trip across the water, just now. But I must go, Miss Seaton. Mr. Durand has a lonely house to-night, and for the present I have promised to take up my quarters there."

Kate gave him her hand, and said good-night, and then the young detective set out to walk to Mr. Durand's strangely deserted dwelling. The night was dark and windy, and Neil paused upon the doorstep to button up his coat, paused where the light from the street lamp fell full upon his face. Then he ran lightly down the steps and walked away, thinking of beautiful Lenore Armyn, as he had first seen her, holding the poison to her lips, and face to face with death.

On he paced, lost in thought, and through the darkness a stealthy shadow glided after, drawing silently nearer and nearer they approached the avenue where the stately dwellings of the rich stood in their own grounds, and wide apart, and where the leafless trunks and branches of great shade trees threw deepest shadow. Nearer and nearer draws the noiseless, stealthy, vengeful shadow, and still Neil Bathurst paces on, with buoyant step and thoughts far away.

And now the shadow is close upon him! He is midway between the street lamps, and passing a darkened dwelling, passing directly under the guarled branches of two great trees, that stretch their arms out over the pavement. Under these branches the shadow glides, and if it makes a sound, the howling wind bears that sound away.

Close! closer yet; there is not the length of an arm between the shadow and the unconscious Neil. And now something long, and slender, and bright gleams in an uplifted hand.

"Neil!"

Suddenly Neil Bathurst faces about; he sees the gleaming knife; he sees a form swiftly, with one bound, interposed between that knife and his heart. The knife descends; the form reels; there is a groan, a fall, and Neil Bathurst knows that some life has been offered to save his.

All this is a second of time. In the next second, with a panther-like spring, Bathurst is upon the assassin. There is a flash, a report, and Jason Bradwardine falls, his brains scattered upon the pavement, the bloody knife tightly clutched in his hand, his career of crime ended.

Flinging his smoking pistol down, Bathurst kneels beside his prostrate and bleeding good angel. Gently he lifts the head, and then a cry escapes his lips:—"My God! It is Ferrars!"

He hears voices and hurrying footsteps, but it seems an age to him before help comes; then he will give his place up to none other. They raise the prostrate, senseless form, and carry it, as Neil Bathurst directs, to the house of Mr. Durand, only a block away. When they have placed him upon a bed, and a physician has been summoned, Neil Bathurst turns to the officer who has accompanied them, and answers his questions.

"It is Francis Ferrars, a London detective. He came between me and that villain's knife. Did I kill him?"

"Spilled his brains all over," is the officer's answer.

"I am glad of it. I meant to. If he has killed Ferrars, I shall regret that he had not a dozen lives."

Then he turns again to the bedside, and Mr. Durand is left to explain to the officer the identity of Bathurst, and the character of the man who lies out on the pavement a block away, ghastly, mutilated, dead, and surrounded by a crowd of curious, unpitying sensation-hunters.

But Francis Ferrars did not die; the life so brave and useful was not destined to be blotted out by the dagger stroke of a coward. For days he hovered between life and death; and, day and night, Neil Bathurst was beside him, pale, anxious, sick at heart, until the danger was over. Francis Ferrars was a stranger in a strange land, but no wounded and suffering one was ever yet more tenderly cared for, more carefully guarded, or more anxiously watched over. This lonely, sad-eyed man found himself surrounded by father, brothers, sisters, and friends. Mr. Durand watched over him with the utmost solicitude, and could not do enough for the welfare of a guest he so honoured. No brotherly devotion could exceed that of Neil Bathurst and Rob Jocelyn; and every day came two fair girls, with sad and anxious faces, who whispered softly with Mrs. Richards, and hovered about the door of the sick-room like pitiful guardian angels. When the crisis was past, and they were allowed to enter the sick chamber, they came every day to sit beside the wounded hero, and minister to him with tender hands.

Since he had learned from Kate Seaton that Jason Bradwardine was on the watch for Neil Bathurst, Francis Ferrars had in turn watched Jason Bradwardine, especially when his brother detective paid a visit to the house of Mrs. Arteveldt. On this night, when Neil sallied forth alone, Ferrars had been, as usual, near at hand. He had not kept so near his game as he would have done had he known that Neil would come forth unaccompanied, and the would-be assassin had well-nigh accomplished his purpose before the Englishman could hurl himself between his friend and the murderous knife.

One day Lenore and Neil had been sitting beside the sick man; Lenore had been, as she ever was, wonderfully tender, and anxious for his comfort. "The doctor says you may eat fruit," she said, bending over Ferrars, "lots of fruit. There are grapes in the market; such luscious ones; think of them. I will have you some directly. Will you eat them? Promise, now."

He smiled feebly, and gave the required promise, and Lenore flitted from the room. Then Ferrars beckoned to Neil to come nearer, and that young man complied, and in his turn bent above the couch.

"I am going to tell you something," said Ferrars, feebly. "I have watched your face and hers, when you thought me asleep. You think Lenore cares for me a little, and so thinking, you would never tell your own secret. So, for your sake, and for hers, I must tell you mine. The secret that has set the shadow on my face, and made me what I shall be to my last day, a solitary, homeless man. Lenore does care for me a little, I think, for blood is thicker than water, after all; and the same blood, the blood of the Massingers, flows in her veins and in mine; but between us is the bar-sinister. My father was Sir Hillary Massinger's younger brother. My mother—an English peasant girl. No one knows my secret; as you may guess, I am not proud of my Massinger blood. I call myself a child of the people."

There was the sound of a stifled sob behind them, and, turning quickly, Neil saw Lenore standing near, with a basket of white grapes in her hand, and pitiful tears in her eyes. As he moved aside, she came quickly to the bed, and, sinking down in her old place, took the hand of Francis Ferrars in both her own.

"Forgive me," she murmured. "I have heard it, and I am so glad—so glad to have found a relative in you—one that I can respect and love. It makes me more resigned to my English blood."

Francis Ferrars closed his eyes for a moment, as if in pain. Then they opened and smiled into hers.

"Blood is thicker than water," he murmured. "I never meant this to come to your knowledge. But you know now how strong was my reason for wishing to see one wrong, done in part by a Massinger, righted, and why, too, I should so much desire to thwart Jason Bradwardine, and keep him from the succession. But Sir Hillary must not know. I do not desire his patronage, and he would never permit me to approach you as a friend."

"Would he not?" her eyes flashing. "Then Sir Hillary had better look for the next Bradwardine. If he accepts me as his heiress, he will take me on my own terms; and if you discard me, I'll have nothing whatever to do with Sir Hillary Massinger. I'll go back to Doctor Burton, or Doctor Austin, or," with a side glance at Neil, "Mrs. Harris; and Mr. Bathurst won't hunt me up again—he has said so."

"And I mean it, too," declared Neil, with such vigour that they both laughed.

"It's a fortunate thing for me that I found this out," went on Lenore, in a livelier tone. "You see that officious Mr. Bathurst had forestalled me, and Mrs. Richards had the grapes all ready; that's how I happened back. Doctor Austin wants to get rid of me; he says I am too uncertain to please him. I shall elect you my guardian. Your hair is not quite grey enough, but I think I can manage that; don't you, Mr. Bathurst?"

"Yes," retorted Neil, maliciously; "I am sure you can, if you don't give up those seven-league boots."

And the eyes of the sick man were a shade less sad, and there was a glad throb at his heart as he looked from one bright face to the other and thought:—

"They are my friends for always; in spite of the bar-sinister, I can keep Sir Hillary Massinger's heiress my friend."

To be Concluded Tomorrow.

DON'T TELL ANYBODY.

If no one should tell you about it, you would hardly know there was cod-liver oil in Scott's Emulsion, the taste is so nicely covered. Children like it, and parents don't object.

Doctors' Costly Visits.

Sickness in the family is hard enough to bear under the best of conditions. It almost always cuts off part of the regular income, and when on top of that it adds unreasonably to the expense it seems almost too great a burden for any family in moderate circumstances to endure.

But there is a way to avoid most of these unnecessary expenses besidea preventing a great deal of the sickness itself.

"Doctor's visits come high," says Mrs. Bela F. Howard, of Glen Ellen, Sonoma Co., Cal. "I have been in this place sixteen years and have only had a doctor once in my family since that time, thanks to Dr. Pierce's Common Sense Medical Adviser and his medicines. This book saves doctor's visits. I cannot do without it in the house. I have had two copies but cannot keep them. Enclosed I send one-cent stamps for another copy." Another lady, Mrs. Jennie Warren, of Clifton, Graham Co., Arizona, says: "With pleasure I write to you again to let you know that I feel as well and strong as I ever did. With your kind and good advice and Dr. Pierce's Favorite Prescription I have been entirely cured. I thank you a thousand times for your good advice. I think that if every person who is sick in any way will write to you for advice and will take the medicine you prescribe, according to directions, no other doctor's services will be needed."

The great thousand-page Medical Adviser will be sent free paper-bound for 21 one-cent stamps to pay the cost of customs and mailing only; or in cloth-binding 50 stamps. Address R. V. Pierce, M. D., Buffalo, N. Y. He will send professional advice (in a plain sealed envelope) free of charge. All letters are considered in sacred privacy, and never published except by the writer's permission.

Lasts long lathers free—a pure hard soap—low in price—highest in quality—the most economical for every use.

That Surprise way of washing—gives the sweetest, whitest, cleanest clothes with easy quick work. Follow the directions. Saves weary work—much wear and tear.

Surprise Soap is the name—don't forget.

FREE Medical Treatment for Weak Men who are Willing to Pay when Convinced of Cure.

A SCIENTIFIC combined medical and mechanical cure has been discovered for "Weakness of Men." Its success has been so startling that the proprietors now announce that they will send it on trial—remedies and appliance—**without advance payment**—to any honest man. If not all that is claimed—all you wish—send it back—that ends it—pay nothing.

This combined treatment creates health, strength, vitality, sustaining powers, and restores weak and undeveloped portions to natural dimensions and functions.

Write for particulars.—Mailed free under plain seal.

A Word About Pianos.

It is only a question of price that arises when selecting the best piano.

Sixty years of experience tells us that the public more than ever, is tired of the common thump box and wants musical quality in piano tone.

Whilst the NORDHEIMER is the highest grade piano manufactured in Canada, remember it is the cheapest in the long run. Its tone is the sweetest, retaining always that peculiar vocal quality combined with great endurance, which strong reasons have made it the choice of all lovers of the beautiful in music.

Easy terms arranged.

Illustrated booklet mailed free on application.

TORONTO.

UNSUITABLE HOGS.

To the Editor of The Examiner:

PETERBOROUGH, Feb. 14th, 1899.

Dear Sir,—The drovers are now bringing a large percentage of hogs that are too fat, also hogs that have heavy shoulders. Neither of those kinds will make sides of No. 1 Wiltshire cut bacon, consequently there are complaints among drovers and farmers about the packers being so particular in selecting the hogs they bring.

The question arises, "How can the packer avoid culling out hogs that will make only No. 2 bacon, which at the present time is being sold at fully two cents per pound less than the leanest selection sells for?" He has either to cull them out and pay for them according to the price he can realize for the bacon made from those hogs, or else put an average price on each car of hogs, paying the same price all around. This latter way would certainly be very unfair to the farmer who has used good judgment in breeding and feeding, and succeeded in getting hogs that are suitable for the English bacon trade.

Farmers have often said, "If the hogs you advise us to raise are worth more than the ordinary run of hogs, why don't you pay extra for them?" That is just what we are doing now, and we hope the farmers will see that it is to the interest of their pockets to turn out only first quality hogs and get the highest price. This is a more serious question for our farmers than it is generally considered. By sending, as we are now doing, a large proportion of No. 2 and stout bacon to Edgland we are overloading that market with that article (No. 2 and Stout) to such an extent that it actually depresses the market value of the No. 1 selections some shillings per cwt. under the price it would bring if it were not for the large quantity of unsaleable bacon (as it is called in Eegland) going there from Canada. This statement is corroborated by The Grocer, the leading provision paper in England, in its issue of January 21st, 1899. The following is the quotation: "The dealings in Canadian pea fed have been similar to those in most other cures, being of a halting and timid character, and with the railway depots fairly choked up with later arrivals, a pressure to sell has been attended by the acceptance of less money. Never has so unmanageable a quantity of Canadian bacon been put forward at one time, and worse than all, it consists of a greater percentage of unsuitable stuff that cannot be got rid of, and with both the weight and volume of the imports increased, importers have despaired of meeting with purchasers at rates satisfactory to themselves."

It rests with the farmers to change this "state of affairs" by having their hogs the right quality and weight to make the first selection of bacon. I notice some speakers referring to this subject, both on the platform and through the press, saying that the packers are always changing the selection so that farmers cannot understand what they really do want. I have been in the export bacon trade the last six years and I know of no change excepting that in the late summer and fall we can take the hogs up to 220 as first selection, for at that season the hogs are not penned up and by having plenty of exercise do not get as fat when weighing 220 lbs as they do in the winter when weighing only 200 lbs. A large number of the hogs that we are now receiving weighing 200 pounds each are altogether too fat to make first selection bacon from. Then there are the hogs with thick heavy shoulders, the reason the English dealers want sides with light shoulders is of only small value as compared with the rest of the side. In Smithfield market, London, the provision men have great stacks of smoked Wiltshire Cut Bacon, some stacks of whole sides, others of sides with the shoulders cut off, and others with shoulders alone cut from the sides after they have been smoked, if you enquire the prices they will offer you the shoulders for just about half the price they sell the remainder of the sides for, that is the reason that they will not pay the highest price for sides with heavy shoulders.

When farmers kill hogs for their own use, if Tamworths or Yorkshires, they will find the fat on the backs when the hogs are split from the tail to the head very even in thickness, that is the hog for No. 1 selection, and the hog we want, but after killing if they find the fat on the shoulder is from half an inch to one one and a half inches thicker than it is on the loin they can understand that is the hog that is not wanted.

There has been numerous articles written on this subject in our agricultural papers, some wise, some otherwise. A good deal of opposition to raising the right kind of bacon hogs comes from breeders of the class of hogs that are not suitable for that trade. You will also notice that a number of the articles on raising and feeding hogs are copied from American papers. The requirements of the United States market are quite different from ours, the heavy fat hogs generally selling at the highest price in Chicago and Buffalo, while lean hogs are the most valuable here, owing to the requirements of the market we supply with our bacon.

We would esteem it a favour if any farmer interested in this subject would call at our packing house either in Peterborough or Hull, when we would be pleased to show him the difference in the sides before and after they are cured. More can be learned in this way in five minutes than in a month's talking or writing.

Yours etc.,
The Geo Matthews Co. Limited.
GEO. MATTHEWS,
President.

What is It?

Catarrhozone is a liquid, fragrant and cleansing, which rapidly volatilizes when inhaled. What is it for? It is an absolute, never-failing cure for catarrh of the throat or nasal passages. Is this true? We are so sure that it will cure you that we will send you, prepaid, a free sample of Catarrhozone and an inhaler if you send your address within one week. Write us.

N. C. Polson & Co., Kingston, Ont.

LAKEFIELD.

From Our Own Correspondent.

Miss Trollope of Peterborough, is the guest of Mrs. Charles Grylls jr.

Miss Florence LeFevre has returned home from Montreal.

Mr. and Mrs. R. H. Braden are ill with la grippe.

Mrs. Jas. Ingram is very ill with pneumonia.

Mr. and Mrs. Isaac Watson, sr., are laid up with la grippe.

Mr. and Mrs. Wm. McKibbon are ill with la grippe.

Mr. and Mrs. Wm. Alford are very ill with la grippe.

Mr. and Mrs. Thos. Cox are confined to bed with la grippe.

Mrs. Wallace, sr., is ill with la grippe.

The churches were very poorly attended on Sunday, owing to the prevalence of la grippe. There are very few homes but have one or more members laid up with it. Death appears to be reaping a harvest among our older citizens.

Rev. Prof. M. A. Mackenzie, of Trinity University, will deliver a lecture in the town hall on Friday evening, the subject being "The Soudan."

A hockey match will be played on Friday night between Lakefield and Bobcaygeon at our skating rink.

R. Graham & Son are showing some handsome black and figured lustres. Dress skirts, ready to wear, at popular prices.

Rev. T. J. Edmison was at Apsley Sunday and reports that it was 40 degrees below zero up there.

We have been having a very severe cold snap here, the thermometer running from 18 to 24 below zero during the night for the past week. Firewood has suffered in consequence.

Dr. J. R. Fraser has secured a very fine pair of deer horns. They somewhat resemble the horns of a moose, although they are on the head of one of our common red deer. The doctor has secured a prize.

A hockey match was played between the Peterborough hardware hockey team and the Lakefield seniors on Tuesday evening, which resulted in a score of 12 to 1 in favour of our local team.

On Saturday the store of Mr. A. V. Hill was broken into. The burglar had broken one of the panes of glass at the side of the door and effected an entrance. On entering he went for the combination lock till, the front of which he whittled out with a knife and screw-driver, and was rewarded by securing about ten cents in coppers. At the back of the till there was about $35, but he was unable to reach it. He took a few nuts, raisins, etc. There is no clue as yet to the burglar. The parties sleeping overhead heard the breaking of glass but thought that Mr. Hill was in the store replenishing his fire and had broken a lamp glass.

The Bell Telephone Co. are putting in new poles on the street, a new and improved switchboard in the office and improving their system here generally.

COUNCIL MEETING.

A regular meeting of the village council was held in the Town Hall on Monday evening, Feb. 13.

Present, Reeve Hull in the chair, Councillors Fitzgerald, Trude, Burgis and Dr. J. R. Fraser.

After routine the auditors presented their report which after being read was referred back to them to correct a clerical error.

The finance committee presented a report recommending payment of the following accounts:—

John Hendren, teaming	$ 9 80
A. J. Kidd, repairs	4 35
Dr. J. A. Burgess, supplies	2 35
Municipal World, supplies	1 75
Dixon Co., lumber	5 16
Total	$23 41

Report was on motion adopted.

Moved by Messrs. Fitzgerald and Trude, that the complaint of Mr. J. Richardson, sr., re Strickland street, be laid over until the council can look over the street, and remedy it if possible.—Carried.

A by-law appointing Mr. Able Hendren, assessor for 1899, and one to borrow money for current expenditure were put through their stages passed sealed and signed.

Council then adjourned to meet at call of the reeve.

WARSAW.

(From Our Own Correspondent.

We regret to have to announce the death of the wife of Mr. Mansion McNutt, which took place at their residence, Dummer, on Monday February 13th. Although having resided but a short time in this vicinity, they have won the respect and esteem of all with whom they have came in contact. Funeral on Thursday at 2 o'clock p. m. to St. Marks Cemetery, Warsaw.

The Methodist Church here is holding a series of cottage prayer meetings this week.

There seems to be some misunderstanding here in regard to the Wardenship contest, as Mr. Crowe only received one vote. Some people here misconstrue it and try to make it appear that it was he himself who put this vote in. Mr. Crowe desires us to state emphatically that he had withdrawn from the contest before going into the County Council, in fact he informed your correspondent of his intention several days before. He had no expectation of receiving this vote, and marked his ballot for one of the other candidates. We say this simply in justice to Mr. Crowe that the question may be explained.

The Warsaw Hockey Club met on Friday evening last, and wound up business for the season. Needless to say the committee put the "little balance" on the rough to the evident satisfaction of all.

Mr. Fred Edwards has been home from Peterboro for the past few days. He has been suffering from a severe attack of tonsilitis, but we are pleased to say is recovering.

(From a Correspondent.)

Not seeing any correspondence from Warsaw of late, I thought I might write a few items so you would know that our little village was thriving yet, notwithstanding the severe cold and la grippe.

Mr. A. R. Kidd, has been seriously ill but we are glad to report that he is improving.

Our popular teacher, Mr. Walter Kidd, has been confined to his home for over a week from the effects of la grippe, but we are glad to say he is able to resume his duties at the school again.

Miss Bertha Doughty, of Peterborough, is renewing old acquaintenance in the village.

Miss Ethel Seawright, of Norwood, is a guest at Mr. Benj. James residence.

Miss H. McLaughlin, teacher, spent Sunday at her home in Norwood.

Mr. B. Kidd spent Sunday at Stony Lake.

Rev. Mr. Archibald, the new pastor of St. John's church, is meeting with success on his charge by an increase of the congregation. The church intends building at Hall's Glen.

Mr. and Mrs. S. R. Payne spent a few days last week visiting friends in Havelock and Norwood.

The special services which were conducted in the Baptist church, were brought to a close on Friday last with encouraging results, Miss Curry, evangelist, of Toronto, who has been assisting the pastor, has returned to her home.

The Presbyterians intend having a tea meeting on the 28th of this month. Now, boys, if you want to see lots of pretty girls and are fond of pie, come along. A good programme is expected, further particulars later.

AN AILSA CRAIG LADY

SUFFERING FROM WEAK HEART ACTION, DIZZINESS AND IMPOVERISHED BLOOD.

She took Milburn's Heart and Nerve Pills and is now enjoying perfect Health.

There are many persons in Ailsa Craig, Ont., who can say this year—"Thanks to Milburn's Heart and Nerve Pills—I now have good health,—better than I have had for years."

In this town alone, more people have been cured of such diseases as palpitation, skip beats, dizzy and faint spells, nervousness, sleeplessness, anæmia, dyspepsia, pale and sallow complexion, weakness, female complaints and general debility by Milburn's Heart and Nerve Pills, than by all other remedies combined.

One of those who owes her restoration to health to these little life savers is Mrs. Bella A. Ross.

This is what she has to say about it:

"For years I have suffered from weak action of the heart, and three years ago was attacked by La Grippe which served to intensify the trouble. As a result I became very weak, my nerves were treacherous, I was irritable, easily alarmed and worried.

I was troubled a great deal with dizzines and my blood was so thin that I suffered from the cold.

I had shortness of breath and frequently felt as though I would die.

Since taking Milburn's Heart and Nerve Pills, which I got at Dr. Stewart's Drug Store, I am a great deal better.

My nerves are toned up and my blood has become enriched and vitalized, so that it circulates freely

My heart is strong and I am free from the distress which arose from its former weakness.

I feel that I should give this information in order to benefit other sufferers from heart and nerve troubles."

Milburn's Heart and Nerve Pills are 50c. a box or three for $1 25, at all druggists or sent by mail. T. MILBURN & Co., Toronto, Ont.

Squared the Circle.

Arithmeticians have been vainly trying for centuries to solve the problem known as the "squaring of the circle." It has remained for the little city of Aiken, S. C., to accomplish what the mathematicians have failed to do, for no better term than "squaring the circle" could be found to exactly describe what it has done in the matter of fixing its boundaries.

Aiken became a city in 1890, and its charter specifies that "its corporate limits shall include all the area embraced in a circle whose center is the intersection of Park avenue and Union street, and whose radius is one mile." So here we have a circular city, the only one in modern times I have ever known. But in 1891 the city charter was amended by special act of the legislature, and here follows the exact language of the amended article: "The limits of said city shall be held and deemed to be in the form of a circle and a square upon that circle, with the sides of the square touching the circumference of that circle north, east, south and west, the said circle to describe a circumference one mile in all directions from the central point of the intersection of Park avenue and Union street, as the center of said city."

If this isn't "squaring the circle," what is it?—Boston Transcript.

CUTICURA

Begins with the Blood and Ends with The Skin and Scalp.

ULCERS FOR 35 YEARS

Eleven on One Limb at One Time With Excruciating Pain. All Remedies Tried, and Numberless Physicians Little Benefit. CUTICURA Speedily Cures.

My mother has been a victim to ulcers from varicose veins for thirty-five years. Eleven of those terrible sores have existed at one time on the limb affected. Excruciating pain and intense suffering were endured, with all sorts of remedies on trial and numberless physicians' calls and prescriptions applied, but all practically with but little benefit. However, at last the remedial agent was found in CUTICURA (ointment), which surely proved its weight in gold, alleviating pain and causing healing processes to commence and a cure speedily effected. She has, also, used CUTICURA with marked benefit in erysipelas of the face and eczema. The CUTICURA SOAP, also, has established a record only as the best cleansing, purifying, and healing in its nature, having proved itself a most excellent and valuable auxiliary to the CUTICURA (ointment).

I would remark that this testimonial is entirely unsolicited, being a voluntary contribution for humanity's sake, and the commendation of the CUTICURA REMEDIES to the fullest confidence, being satisfied of their purity, genuineness, and almost miracles wrought.

THE LEGISLATURE

Mr. J. R. Stratton's Vigorous Reply to Opposition Critics.

HE RESUMES BUDGET DEBATE.

The Attorney-General Answered Mr. German's Questions Respecting Niagara Falls Power Fully and Frankly—Government Will Insist Upon Development of Power According to Agreement.

Toronto, Feb. 16.—The presentation of the report of the committee on standing orders yesterday afternoon afforded an opportunity for members to introduce a large number of private bills, which was taken full advantage of. The material to engage the attention of the committee when they meet next week will be in readiness as a result. The reply of the Government to the inquiry by Mr. German respecting the agreement with the Canadian Niagara Power Company has been awaited with interest by the members on both sides. The Attorney-General gave full and clear answers to the series of questions propounded.

Niagara Falls Power Question.

The series of questions put by Mr. German regarding the Canadian Niagara Power Company were answered by the Attorney-General. Mr. Hardy said that the work performed by the company had been $2,000 or $3,000 for excavations, $5,000 for plans, $10,000 or $12,000 in acquiring lands, about $35,000 on electrical plant. They were now providing 1,600 horse-power, for only 600 of which could customers be procured, and $150,000 had been paid in rental to the park commissioners, in all about $195,000.

Plans were submitted in 1894 and approved in 1895, followed by supplementary plans in 1898, but pending the decision of the court as to whether the contract had been forfeited, they could not answer.

No promise had been given of extension of time; on the contrary, the commissioners had notified the company on April 23, 1897, that such could not be given, and that it was the intention of the Government to abide firmly by the contract.

However, should the company proceed to spend a million or half a million dollars, and the work be very near completion on Nov. 1, 1899, the Government would then decide on a course in the public's best interest.

In case of default the Government would declare the right of the company to the sole use of the waters of the parks forfeited.

The Government had received various propositions from the Canadian Power Company, one being an offer to pay 50c per horse-power in actual use. Another, made on Feb. 6, to pay $25,000 rent for the rights and privileges enabling the company to develop 150,000 horse-power, but no agreement could be entered into until the expiration of the present agreement.

Mr. Stratton on the Budget.

Mr. Stratton resumed the debate upon the budget. His first words were of congratulation to the province and the Government that after 20 years of Liberal government the condition of the finances of the province was so eminently satisfactory. The expenditure on account of the public institutions had been large, but not larger than the needs of the province demanded, and had not been extravagant. He complimented Mr. Matheson upon his sinuous adaptability for burrowing into figures, for which he had stood alone among the hon. gentlemen on that side of the House, but he warned him to look after his laurels as financial critic after the surprising capability for hair splitting which the hon. gentleman from North Ontario had developed. Speaking of the peculiar methods of figuring by which the hon. member for South Lanark arrived at conclusions respecting the financial affairs of the province, in which a whole regiment of the figures of Ananias stood out boldly, he said that the hon. gentleman's leader (Mr. Whitney) would probably describe the process as collateral gall and monumental cheek. The Opposition critics had been for 20 years endeavoring to square the circle, but mathematicians had proven this to be impossible, and, like Prof. Wiggins' figures when he claimed to have performed this feat, the figures of the hon. member had been proven fallacious and without foundation. The Opposition had failed in their effort to convince the province that it was bankrupt.

Referring to the complaint that the expenditure of last year exceeded the revenue, he reminded the House that when the Provincial Treasurer presented his budget he knew that his estimates called for a larger expenditure than the estimated revenue, but he also knew that he had a cash balance of $650,000 to draw upon, and the Government and House deliberately approved of the expenditure knowing that fact. A review of the expenditure as set out in the public accounts, however, clearly showed that exclusive of a number of unusual items of expenditure the revenue was sufficient to meet the ordinary expenditure (Cheers.) The financial critic of the Opposition figured out a deficit last year of $500,000, and demanded greater economy in the administration of the affairs of the province.

But the hon. gentlemen opposite were equally responsible with the Government for the expenditure of every dollar of the $5,803,000 last year, with the exception of $47,000, representing the total of the appropriations to which they took exception when the estimates were before the House. The hon. gentlemen must therefore take the responsibility for the $450,000 of the half million deficit if it really existed. (Cheers.) But the deficit did not exist. On the contrary, the accounts show that the province has a cash balance at its credit amounting to $450,000.

The question to be considered in dealing with the finances of the province was whether the money had been honestly, economically and properly expended by the Government, and whether the estimates were brought down with a view to economy. No one had questioned this. Instead, they had shown there was a decrease of expenditure in all departments but four. But the Conservatives objected if they increased the expenditure, and they complained if they decreased it. It was quite natural for them to complain, because they could not point to any Conservative Administration under the broad canopy of heaven to-day that ever reduced its expenditure anywhere, but the Ontario Government could point to the fact that they had built the public buildings of the province, and year by year had reduced the expenditure.

At 6 o'clock the debate was adjourned, Mr. Stratton still holding the floor.

First Readings.

Among the bills read a first time were:

Mr. Brower—To provide that three member of the educational council shall be public school teachers; to prevent the granting of permits and district certificates by inspectors.

Mr. German—To prohibit the practice of veterinary surgeons by all but members of the Ontario Veterinary College; to amend the law to enable municipalities in lieu of taxing personal property of merchants to tax the turn over based on the preceding year's business.

Mr. Marter's bills to do away with exemptions on lands held by universities and colleges, but not in actual use; on church sites and grounds used in connection therewith; on the sites of incorporated seminaries of learning; to vary the Toronto assessment roll by inserting in the second column the name of the occupant, or, if vacant, the words, "V. L.," and other particulars, in the roll; also to declare that the ways, rails, poles, wires, gas and other pipes, substructures, superstructures and other plant and appliances belonging to the street railways, telegraph, telephone, gas and electric light, water and other similar companies, are taxable in the municipalities in which they are situate, were read a first time. Clauses remove the exemption on personal property of companies, such as gas, water, plank or gravel roads, railway and tramway roads, harbors or other works requiring the investment of the capital of the company, in real estate; distress not to extend for Toronto taxes on any other property than the property taxed.

A. O. U. W. Transacts Business.

Toronto, Feb. 15.—The A.O.U.W. executive was in session all day yesterday. Many changes were suggested in the constitution—auditors to be elected yearly, a monthly audit, Grand Lodge to meet last Wednesday in February, officials holding Grand Lodge funds to give bonds, women to be admitted on the same basis as men, a member 70 years of age be given a paid-up policy, to found a total disability fund not to exceed ten per cent., the official organ be published in Toronto.

The recorder's report showed that there were 410 lodges. There is a balance of $57,210.79 in the beneficiary fund, a balance of $3,641.23 in the general fund, and a balance of $1,128.86 in the reserve fund.

Over 400 subordinate representatives were appointed.

Parrott Goes Up for Trial.

Hamilton, Feb. 15.—Benjamin Parrott, jr., came before Magistrate Jelfs yesterday, on the charge of murdering his mother last Wednesday afternoon. Crown-Attorney Crerar prosecuted, and George S. Lynch-Staunton defended the prisoner. Evidence was given by Walter Jackson, John Dornan, Arthur Goodale, Robert Richardson, P. C. Cruickshank and Canary and Constable Van Mere, which was a repetition of the evidence given at the inquest. Magistrate Jelfs committed Parrott for trial.

SITUATION SERIOUS.

The Fears of a Break in Negotiations Not Yet Realized.

WILL THEY FAIL OF A TREATY?

Supreme Question Seems to Be the Demand of a Canadian Port on Lynn Canal — Mr. Chamberlain Said to Have Used His Influence to Restore Harmony.

Washington, Feb. 16.—(Montreal Herald Special.)—Contrary to the fear expressed on Tuesday night the negotiations of the joint high commission were not broken off yesterday. The full commission met in the morning, but the Canadian members remained only about five minutes.

The American commissioners then went into conference, and remained until 12.15, when an adjournment was taken until 3 o'clock in the afternoon.

The full commission has adjourned until 10 o'clock to-day.

The supreme question now is the demand of the Canadian members for a port on Lynn Canal. It was feared that the negotiations might fail on account of this issue. Lord Herschell and the Canadian commissioners stand firm, and the Americans are almost equally decided that the demand shall not be granted.

The fact that the Canadian members met only a short time yesterday, and that the Americans will hold two sessions before the joint meeting to-day, gives some idea of the seriousness of the point at issue.

Mr. Chamberlain's Influence.

A despatch to The New York Herald makes it appear that the acute question was the British Columbia boundary. The Herald says: "The commission was perilously near a break yesterday, but a conciliatory memorandum presented by the American representatives and an instruction received by Baron Herschell from Mr. Joseph Chamberlain, England's Minister for the Colonies, directing the Canadian commissioners to exhaust every effort to reach an amicable agreement, have caused a decided change in the relations of the two commissions. The Canadians intimated to-day that they would be willing to accept certain rights at Skaguay not involving the surrender of territory by the United States. It is understood that these rights, with some limitations, this Government has agreed to give them. The Administration is not unwilling that Canada shall maintain a custom house at Skaguay for a period of years, and British ships will be given the right to carry from other than American ports goods destined for the Canadian Klondike for entry through the port of Skaguay."

First Check to the Unity Idea.

London, Feb. 16.—Yesterday's Washington cablegrams indicating the joint high commission's probable failure to secure a treaty of reciprocity with Canada is spoken of as the first check to an Anglo-American understanding. The Westminster Gazette last night devoted its chief editorial to the subject. Under the heading, "Hard Bargainers," it says: "Something we still hope of this commission, though we never hoped much. At best the process must be gradual, and where Canada is concerned we have to remember that she, too, is protectionist, with a great deal of the old Adam in her."

The Retaliatory Sign.

London, Feb. 16.—A despatch to The Daily Chronicle from Washington says: Great Britain is disposed to hold in abeyance the negotiations for the modification of the Clayton-Bulwer treaty until the result of the deliberations of the joint high commission is known.

RUN-OFF ON THE G.T.R.

Six Persons Slightly Hurt—Cause of the Mishap Unknown.

Sherbrooke, Que., Feb. 16.—Yesterday afternoon, near Lennoxville, on the Grand Trunk, there was an express run-off. Seven of the passengers out of 100 were more or less injured, but so far none have died. Ferdinand de Bellefeuille, news agent, is badly injured internally and will probably succumb. J. P. Burk, his wife and son of Cookshire were badly hurt, the father seriously. Express Messenger Dickson and Conductor N. J. MacFarlane of Montreal were likewise injured and the name of the seventh is unknown.

Yankees Refuse to Pay.

Detroit, Feb. 16.—A Washington special says the American corvette Yantic has at last become an international incident. This grows out of her collision with the La Canadienne in the lower St. Lawrence, when the Yantic was on her way from tide water to Detroit. Sir Julian Pauncefote has deposited a demand for $4,000 damages suffered by La Canadienne, and another for $9,000 for a damage to the business of the Canadian member of Parliament who had hired La Canadienne. Secretary Hay sent the bills to the Navy Department, where it was quickly decided that the claims were unwarranted, and he was advised not to pay anything, it being held that the Canadienne's pilot was to blame. There the matter stands at present.

National Council of Women.

Washington, Feb. 15.—The National Council of Women yesterday heard reports from State and local councils giving details of the work accomplished by the several organizations. Mrs. Adelaide Hoodless of Hamilton, Ont., spoke of manual training in public schools.

FACTS ABOUT HEALTH

It is Easy to Keep Well If We Know How—Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such a record of cures as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail to do any good whatever.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

TO ALL WHOM IT MAY CONCERN TAKE NOTICE.

THURSDAY, FEBRUARY, 16, 1899.

THE WEATHER.

Talk about the weather is usually hackneyed and common place. It is not unfrequently indulged in as a relief from an awkward pause by bashful young men and timid young ladies. But for the past few days the weather has thrust itself upon us as a live subject. It is possible indeed that despite the extreme cold it has sometimes been a hot subject; for it is more than probable that Old Probs has not been saying all about the weather that has been said. However this may be, there are several results of the cold spell that are patent and worthy of consideration.

The extreme cold of the past ten days has perceptibly increased the death rate. Reports from cities and towns throughout the country, as well as those from our own town and surrounding townships, announce an unusual number of deaths. This is especially true of old people, many of whom have succumbed from causes which were the immediate result of weather conditions.

The effect of the cold upon the fruit crop of the year is quite certain to be serious. Peaches and small fruits generally will suffer most, and peach-growers are already predicting great loss, not only in Ontario but throughout the fruit-growing States of the Union. This will probably be the most serious material result of our present cold snap.

Then the number of fires with destructive results has been unusually numerous during the past week. Fires are more likely to occur during very cold weather, because people are forced to use more fuel, and where there are defects in the heating apparatus, the result is frequently a conflagration. And when a fire begins in cold weather such as we have had, it is almost certain to be destructive. Fire brigades and fire appliances cannot be so effective when they have to fight cold and ice as well as fire. Hence the many disastrous conflagrations that have been recently reported.

Another result of the cold weather which has been brought home to everbody is the great increase in the quantity of coal and wood consumed. We can all speak feelingly on this subject and the poorer people, who find it difficult at all times to provide fuel for the winter, are entitled to special sympathy. The coal and wood bill for the past ten days has been a very heavy one and will sensibly increase the cost of the winter's living.

Take it all in all the cold snap has not been an unmixed blessing, though it may have destroyed many germs and fungi which would have proved a curse to us later on. Let us hope so, though the comfort of such hope seems to be of the nature of extracting sunbeams from cucumbers.

The rise in temperature will be welcomed by all.

THE New York Journal of Commerce, in an article denouncing "The Paper Trust in Legislation," points out that in 1898 no news printing paper was imported into the United States, while the paper makers of that country exported [illegible] tons of news and book paper. This exhibits [illegible] Trust that [illegible] from [illegible] paper makers [illegible] to England. Another [illegible] meet [illegible] to the [illegible] free, [illegible] guarantee [illegible] of importation [illegible] this [illegible] impossible [illegible] The law provides [illegible] shall be levied [illegible] upon pulp wood [illegible] shall be added to the duty [illegible] wood pulp, or for every [illegible] cord of export duty [illegible] wood, the duty on printing paper shall be increased one tenth of a cent a pound. The Paper Trust was capitalized at fifty-five million dollars. It is not denied that the twenty millions of common stock represented water, or as the Trust euphemistically called it, "good will"; the good will of congress in guaranteeing the Trust against competition, or an increased price of its raw material. That the remaining thirty-five million dollars was several times the value of all the paper making mills taken into the Trust is quite certain. This is the huge combination that has been seeking to block the negotiation of a reciprocity treaty with Canada, as regards the free admission of paper or pulp into the United States, and which the publishers of that country have been fighting in the hope of securing freedom from a gigantic monopoly. The issue of this great struggle will be awaited with considerable interest.

WHAT DEATH DUTIES YIELD IN ONTARIO.

There is imposed in Ontario by the Provincial Government what are known as death duties. Under the act imposing these duties a certain percentage of the value of great estates, at the death of the owner, is taken for public purposes. Nothing under ten thousand is touched, and such small estates are only taxed where the property goes to one who is not a direct heir. As a matter of fact the money almost entirely comes from vast estates. The estates in the county of York, said Provincial Treasurer Harcourt, in delivering his budget speech, including Toronto, have, since the act came into force, paid $383,000 of this tax, or more than one-third of the total amount. The county of Carleton, which includes Ottawa, has paid $226,000. The receipts from this source last year amounted to a little over $200,000, and the receipts since 1892, when the act first came into force, amount all told to a little over one million dollars.

NORWOOD.

From Our Own Correspondent.

The village council met on April 6, the reeve, H. G. Buck, in the chair and Councillors Drain, Ilee, Rork and Richardson present.

Minutes of adjourned add special meeting were then read and on motion confirmed.

Bylaw No. 223, appointing an assessor for the year 1899 received its several readings, was passed and signed.

Moved by Councillors Ilee and Drain, that Chas. O'Reilly be assessor for 1899.—Carried.

Moved by Councillors Drain and Rork, that Councillor Ilee procure three double cords of wood for town hall.—Carried.

Moved by Councillors Rork and Ilee, that the following accounts be paid and orders be drawn on the treasurer.—Carried.

W. C. Harrison, splitting cedar, $1 80; Roland Scriver, keeping two women over night and putting two tramps in lock-up, by order of reeve, $1.00.

Moved by Councillors Rork and Richardson, that the reeve and Councillors Drain and Ilee be a committee to examine Thos. Waller's plaad and, if found satisfactory, to have power to purchase.—Carried.

Moved by Councillors Richardson and Isles that Roland Scriver be constable for 1899 at the rate of $50 per annum and that he shall sign an agreement before entering on his duty to the satisfaction of the council.—Carried.

Moved by Councillors Richardson and Rork that W. H. Minaker get a rebate on his dog tax.—Carried.

Council adjourned.

Mrs. M. Gale, of Tweed, is spending a few days visiting the Misses Sherry of town.

Messrs. Geo. Bell and Ed. Eaton, of Campbellford, visited in town over Sunday.

Mr. K. B. Booth, of Enterprise, was in town on Friday visiting his brother, Mr. D. H. Booth.

Mr. Archie McLaughlin, of Reese, Mich., is visiting at the home of Mrs. J. McLaughlin, Peterborough street.

Mr. and Mrs. J. Watson and children, of Havelock, were the guests of Mr. and Mrs. A. Cunningham over Sunday.

Miss Nettie Sharp of Wellman's Corners, has been spending a few days with her cousin, Mrs. Thos. Stewart, Spring street.

Miss Broadworth of Dartforth, who has been visiting her sister, Mrs. J. Cumming, for the past few weeks, returned home last week.

Mr. J. S. Keefer, editor of the Register, received word on Friday that his father, who resides in Fiesherton, was very low. Mr. Keefer left on the early train on Saturday morning for that place.

On Friday evening last the Norwood curlers drove to Campbellford, where they played the Campbellford players. The rinks from Norwood were:

Geo E Sherry,	W Cuthbertson,
H McGregor,	C P Pearce,
J R McKelvie,	F B Finlay,
W McGregor, sk.	J Cumming, sk.

The game was a little rough on Cumming, who was defeated by Smith to the tune of 26 to 4. McGregor held his own and won by 8 shots.

The weather being so bitterly cold they decided to stay over and play the Campbellford sports the next day. This time Cumming got back at his man and won by 10 shots, while McGregor was three shots down. In the afternoon Cumming was 10 shots ahead and McGregor 4 down, thus leaving Norwood winners by two games out of three. The curlers came home on Saturday afternoon well pleased with their work.

The Norwood hockey team played in Marmora on Wednesday evening.

Captain M. McGregor's team of Shamrock hockey players played the Havelock Hustlers in Havelock on Monday evening. The captain not being present, his veterans did not work as well. Nevertheless it was a good game and very interesting. The teams lined up as follows:

Shamrocks.		*Hustlers.*
E Rountree	goal	D Wilson
G Sherry	point	P Lancaster
B McGregor	cover point	R Phillip
E P Cuffe	forwards	A Carey
J W Rork		C Williams
J Thompson		F J Boyce
W A Eaton		J Touram
R Richardson	umpire	Dr Jeffs

A Milne, referee; W Ross Cameron, timekeeper.

The score stood 6 to 3 in favour of the Hustlers.

Mr. Montague,

DUNNVILLE, Ont.

Has an Interesting Chat about

..Dr. Chase's Ointment..

His suffering from Ulcerating Piles Cured.

He says:—I was troubled with itching piles for five years, and was badly ulcerated. They were very painful, so much so that I could not sleep. I tried almost every remedy heard of, and was recommended to use Dr. Chase's Ointment. I purchased a box, and found the first application got much relief. I was satisfied a cure would be made. I used in all two boxes, and am now completely cured.

Every remedy given by Dr. Chase cost years of study and research, and with an eye single to its adaptation for the ailments for which it was intended. Dr. Chase defended cure-alls, and it has been proven ten thousand times that not one of his formulas leave a bad after-effect. Dr. Chase's Ointment is based on laholine, and the best physicians prescribe it.

Sold by all dealers. Dr. Chase's Cloth-Bound Recipe Book 1,000 pages, sent to any address in Canada, price 50 cents. Edmanson, Bates & Co., Toronto.

Attitude of British Buyers.

British retail merchants whom I met frequently said they heard a decided preference expressed by their customers for things Canadian and things colonial, says Prof. Robertson. However, when the retail buyer went to the wholesale warehouse of the importer to select goods for the week, I think he left his preferential sentiment outside of the warehouse and out of the bargain. As far as I could learn, he buys only what he considers the best value, no matter where the goods come from. However, when he did buy Canadian products, he added to his shop talk for his customers the fact that they were Canadian. That was accomplishing something, as it helped to establish a demand from the consumers for Canadian products, when they liked those which they had received. A preference for buying a product by a consumer may have a sentimental basis as well as a purely business one, and as far as a preference is expressed by those consumers, it will lead retail buyers to give a preference in the same direction when making their purchases.

When one analyses what is meant by the expression "a market," he discovers that it is usually a name for an exchange of commodities. Money is now used as the medium of exchange for facilitating the transactions of marketing. The great part of the population in Great Britain is interested in the exchange of manufactured products for food products. To accomplish that to their own advantage they are disposed to give a preference to the food products from those countries which take their manufactured goods in exchange. Further information on the benefits that would accrue to them, as consumers of food products and producers of manufactured articles, by giving a preference to the food products and from their own best customers, might be imparted to them to their own advantage. Their susceptibility to education is not always in proportion to their need.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any Drug Store. Regular size 50 cents and $1. Guaranteed to Cure or price refunded.

TREE-PLANTING PAYS.

Profitable Returns of a Larch Plantation 70 Years Old in Scotland.

Tree-planting, when conducted on proper lines, can, it seems, be made a very profitable business, judging from the result of an experiment begun 70 years ago in Peeblesshire, Scotland, as related in The Peeblesshire Advertiser of the 5th ult. The particulars are given in a report of the autumn excursion of the Royal Scottish Arboricultural Society. There was a large and influential representation of the members, and the party chose for their visiting place the woodlands on Haystoun estate, belonging to Sir Duncan R. Hay, Bart. The most important discussion during the outing occurred in reference to a larch plantation, its commercial value being principally considered. A large quantity of cut wood which had been exposed for sale two days previously was critically examined. It was about 70 years' growth, and it was interesting to hear that several workers on the estate could remember their fathers planting the young larch. The cut timber averaged 35 feet to 36 feet, and the price brought reached an average of about one shilling and three pence a foot. It was estimated that there would be about 240 trees to the acre, which meant, after making an allowance for planting, thinning, fencing and other necessary expenses, an average value of three pounds an acre for the 70 years, or a total of £210. This result was felt to be extremely encouraging. At a subsequent meeting of the society, Col. Bailey, the president, made a congratulatory reference to the success of the experiment. He pointed out that even putting the net profit at as low a figure as £210, they got a net profit per acre per annum of £3, realized on land which, if not stocked with trees, would not yield more than four shillings an acre per annum. The fact went far to disprove the commonly-held opinion that forestry in Scotland was not profitable. It was decided that on a future occasion the society would visit the other plantations on the south side of the river.

Barr Knapp's Farm Furrows.

Let the whole family pull together; that is the best kind of farm socialism.

Young farmers who would scorn to raise a scrub calf or a mongrel chicken, are fools enough to take a wife from a worthless family. Grapes are scarce on thorn bushes.

Strive to be a better farmer than your father, or you will never be as good.

In minding your own business ask help of no neighbor.

Ease is good for old men; hard work for young men—but laziness for neither.

Steady going secures success before spasms of speed.

Don't pickle your sorrows in whiskey; they only keep the longer.

Some men are like guideposts, good at sending but poor at going.

Fertilizing a sandy farm is like filling a well with dew.

You may know just how you want to plow, but even your horses have plans of their own.

The profits from a poor farm are as thin as turnip milk.—Orange Judd Farmer.

Good Blood!

Your heart beats over one hundred thousand times each day. One hundred thousand supplies of good or bad blood to your brain.

Which is it?

If bad, impure blood, then your brain aches. You are troubled with drowsiness yet cannot sleep. You are as tired in the morning as at night. You have no nerve power. Your food does you but little good.

Stimulants, tonics, headache powders, cannot cure you; but

Ayer's Sarsaparilla

will. It makes the liver, kidneys, skin and bowels perform their proper work. It removes all impurities from the blood. And it makes the blood rich in its life-giving properties.

To Hasten Recovery.

You will be more rapidly cured if you will take a laxative dose of Ayer's pills each night. They arouse the sluggish liver and thus cure biliousness.

Write to our Doctors.

We have the exclusive services of some of the most eminent physicians in the United States. Write freely all the particulars in your case.

Address, DR. J. C. AYER, Lowell, Mass.

NEWS IN A NUTSHELL.

President Zelaya of Nicaragua has issued a decree declaring the Republic of Nicaragua to be in a state of siege.

In Toronto on Wednesday Judge McDougall fined Mrs. Mandon and "Prof." Edward O'Brien $10 each and costs for fortune telling.

Gowans, Kent & Co., recently burned out in Toronto, will rebuild on their own premises. Architect W. L. Symons has been engaged to prepare plans.

In the Turner-Pooley-Nichol libel suit, just tried at Victoria, B.C., in which Walter C. Nichol, editor of The Province, was tried for criminal libel, the jury disagreed.

Judge McDougall has fined Neil McLean, who sold "Regal" beer at Woodbridge Fair, $50 and costs. This means that he has again decided that such beer is an intoxicant.

The election of Dr. C. L. Cotton, local member for Missisquoi (Liberal), will be protested in the courts. The usual charges are made in the petition, and the disqualification of Dr. Cotton is also asked for.

The Crescent Athletic Club on Wednesday matched Luke Burke of Lowell, Mass., vs. Jimmy Smith of Toronto, and Joe Youngs of Buffalo vs. Andy Ward of Sarnia, each pair to box 15 rounds at the Pavilion, Toronto, Saturday night, Feb. 25.

An immense concourse of citizens followed the hearse at the funeral of the late Mr. Hugh Ryan at Toronto on Wednesday. Among the telegrams of condolence received were two from Sir Wilfrid Laurier and Sir Richard Cartwright, now at Washington.

At Ruthven, Ont., on Wednesday, the wood shop, blacksmith and carriage shop and brick residence of Frank McCharles, the residence of Michael A. Wigle, George Grant, John Griffith and Mrs. McDaniels were destroyed by fire. Total loss about $7,000; no insurance.

The latest news from Manila tells of the capture by the United States troops of Jaro, after a stiff fight. The 18th Infantry was engaged. Lieut. Frank Bowles of the Light Artillery and three other Americans were wounded. Baldomero Aguinaldo, a cousin of Gen. Aguinaldo, is reported to have been killed at Caloocan.

The two boys named Cook skating on the ice opposite Port Ryerse the other day, who were thought to have been drowned, are safe. When the lads started to return they found that the ice had parted and they had been carried out into Lake Erie on a floe. After floating 25 miles they were sighted by the keeper of Long Point lighthouse, who rescued them. Both boys were badly frost-bitten, but they have now *fully* recovered.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box.

Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other as all Mixtures, pills and imitations are dangerous. Price, No. 1, $1 per box; No. 2, 10 degrees stronger, $3 per box. No. 1 or 2 mailed on receipt of price and two 3-cent stamps. The Cook Company Windsor, Ont. Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada.

No. 1 and No. 2 Sold in Peterborough by John Nugent Druggist.

STUMPING IN W. HURON

Sir Charles Tupper Hurls Defiance at the Liberal Party.

LIBERAL MEETING AT KINTAIL.

Claims of the "Bouncer" Order Made for the Conservatives by the Opposition Leader—He Says the Government Has Done Absolutely Nothing—History of the Old N. P.

Kintail, Feb. 16.—Last evening an immense gathering of the electors of this portion of the west riding of Huron assembled in Macdonald Hall in this village to hear addresses in the interest of Robert Holmes, the Liberal candidate for the representative of the constituency. The hall was crowded to the doors, and the utmost enthusiasm prevailed. The chair was occupied by Mr. John McKenzie, reeve of Ashfield, and with him on the platform were the Hon. Charles Fitzpatrick, Solicitor-General of Canada; Mr. McCallum, Paisley; Mr. Robert Holmes, the candidate, and Mr. M. G. Cameron, Goderich. Speeches on the questions of the day were delivered by the Solicitor-General, Mr. Holmes, Mr. A. B. McCallum and Mr. Cameron. In rising to address the meeting Mr. Fitzpatrick received a rousing greeting, and throughout his magnificent speech he enlisted the attention and repeated applause of the large audience. He prefaced his speech by stating that Canada is to-day more prosperous than during any period of her history, and quoted figures to show the advance made by the exports of the country, claiming a large share of the credit for this to the present Government. He closed by an eloquent appeal to those present to stand by the Government in West Huron by electing Mr. Holmes, the Liberal candidate.

SIR CHARLES DEFIANT.

Extravagant Claims Made by the Leader of the Opposition.

Clinton, Feb. 16.—The bye-election in West Huron, which takes place on Tuesday next, between Robert Holmes of Clinton, the Reform candidate, and Robert McLean of Goderich, the Conservative candidate, promises to be the most exciting and closest contest in the history of the riding. Both men are very popular. At the Town Hall, after Mr. McLean had spoken, Sir Charles Tupper, commencing from Confederation, reviewed the political history of Canada up to the present time, and he said Canada's prosperity to-day was due to the work of the Liberal-Conservative party, which for 18 years by the N.P. built the country up to the prosperous state it is now in, in spite of the 18 years of continuous opposition by the Reform party. He spoke of the great wave of depression that swept the country in 1893, and, while 600 banks failed in the United States, and business generally was paralyzed, Canada's credit in the London money market stood high. He referred to the great C.P.R. as the work of the Conservative party, the work that was scoffed at by the Liberals, which to-day is the admiration of the world. He asked what had the Reform party done to make Canada what it is to-day. In reference to The Globe's challenge of why the electors of West Huron should elect a Conservative member, he replied by saying that the present prosperous state of the country was wholly due to the honest government of the Liberal-Conservative party, and that not by one jot or tittle had the Liberals contributed to that prosperity, and after 18 years of opposition, and they are now in power, what have they done? They have swallowed themselves and stolen our clothes.

ONE HAPPY WOMEN.

Got Health and Happiness From Dodd's Kidney Pills.

London, Feb. 6.—This city can claim one of the happiest, healthiest women in Canada.

Her name is Mrs. J. Osborne. She lives at 524 Grey street, and she has this to say to her sisters throughout Canada.

"For eight years my life was made miserable by Female Weakness. I used many different medicines, but none did me any good till I started to take Dodd's Kidney Pills.

"The first dose of this wonderful remedy gave me relief. I grew better with every dose, till, when I had taken three boxes, I was totally cured."

Dodd's Kidney Pills are the only medicine on which women can confidently rely for a positive cure.

All Got Three Years.

Berlin, Ont., Feb 16.—At 10 o'clock yesterday morning George and Reuben Hilker and Louis Umbach, all of this town, were placed on trial before Judge Chisholm on the charge of having stolen wheat from Carl Mondag, a Wilmot farmer. Umbach, who has served three years before, pleaded guilty, while the Hilker brothers declared their innocence. The judge, however, after taking the evidence of several witnesses, sentenced the prisoners to three years each in the Kingston Penitentiary.

Hon. J. H. Hume Elected.

Victoria, B.C., Feb. 16.—In the Provincial Legislature yesterday great excitement was manifested in the result of the election in Nelson, where Provincial Secretary Hume was the candidate. The result was a surprise to both sides, the majority for Hume being 187. At the general election it was 15. Mr. Farwell was the opposing candidate each time. This gives the Government a majority of five votes in the House, 31 to 16, with the Speaker in the chair.

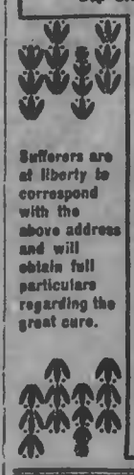
A Criminal Libel Suit.

St. John, N.B., Feb. 16.—W. J. Dean, the Opposition candidate for the County of St. John, swore to affidavits charging certain things against Hon. T. Dunn, his opponent. Mr. Dunn had him arrested and his trial for criminal libel was begun yesterday, but was not finished.

The words of praise bestowed upon Hood's Sarsaparilla by those who have taken it prove the merit of the medicine.

Rev. J. N. Vanatter, of Albion, Wis.

WRITES A LETTER ON DR. CHASE'S OINTMENT.



Sufferers are at liberty to correspond with the above address and will obtain full particulars regarding the great cure.

He says: My wife was most terribly afflicted with protruding piles, and contemplated a surgical operation. A friend of ours recommended the use of Dr. Chase's Ointment, and less than one box effected a complete cure. We were so pleased with the ointment that I tried it *myself*, as I have been troubled with an unsightly skin affliction which covered the lower part of my face.

For 25 years I suffered untold agony, and was treated by the best medical skill in the United States. I consider Dr. Chase's Ointment worth its weight in gold for piles and skin disease.

Dr. Chase's large-size recipe book, cloth-bound, sent to any address on receipt of 50 cents, by addressing Dr. Chase's Company, Toronto or Buffalo, N.Y.

MARKET REPORTS.

Wheat at Liverpool Was Heavy, and Chicago at First Responded to the Decline—The Latest Prices.

Liverpool, Feb. 16.—The wheat futures declined yesterday, the March option closing ½d and the May delivery 1d per cental below the day before's close.

Chicago, Feb. 16.—The easier cables weakened the market yesterday and May wheat sold down 7-8c per bushel to 79c. Later there was buying by foreigners and commission houses of damage reports. This brought about a recovery and the market closed exactly at the day before's final figures.

Kidney-Bladder Trouble.

There is no more serious menaces to good health in the present age than kidney disorders, and it's appaling fact, but a true one, that four-fifths of the country's people have the taint of this insidious disease with them. Dr. Chase's Kidney-Liver Pills cure all kidney diseases.

Old Love Letters.

Martha—Helen and Harry act as though they were heartily sick of one another, and they haven't been married more than a year.

Bertha—Well, I don't wonder. Not long ago they took to reading the love letters they wrote when they were courting. Of course after that it was impossible for either to have much respect for the other.—Boston Transcript.

The largest flower in the world grows in Sumatra. It is called the Rafflesia arnoldi, and some of the specimens are 39 inches in diameter. The central cup will hold six quarts of water.

Children Cry for CASTORIA.

FALL FAIRS.

The Men Who Manage Them Meet in Annual Session in Toronto.

Toronto Feb. 16.—The annual meeting of the Canadian Association of Fairs and Exhibitions was held yesterday afternoon in the Council Chamber, City Hall. There was a good representation.

Papers were read on "The Best Way to Manage an Agricultural Show," by J. Thomas Murphy, Simcoe, and on "The Advantages of a Closed Township Show in Preference to an Unlimited One," by James Kirkwood, Ospringe.

Mr. H. J. Hill, manager of the Toronto Industrial Fair, in the absence of Mr. Mitchell, Goderich, took up the question of "Special Attractions." He said he thoroughly believed in special attractions. The Toronto management spent $18,000 for special attractions; the grand stand receipts were $24,000; so special attractions well paid here. He believed in special attractions for all fairs so long as they were kept within proper limits.

The election of officers resulted as follows: President, T. F. Wallace; first vice-president, James Reeth; second vice-president, G. R. Vanzant; secretary-treasurer, Alex. McFarlane, Otterville; executive committee, Dr. Clark, S. Birdsall, T. McConnell, James Kirkwood, George Elliott, T. Crawford, S. McClune; auditors, G. W. Fitzgerald, T. J. Wallace.

In the evening much practical information was edused as to the successful running of district fairs.

Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down-feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me more strength and good appetite than anything I could take. I can now eat anything and have a new lease on life. Only 50 cents at any Drug Store. Every bottle guaranteed.

14 Men Missing.

Savannah, Ga., Feb. 15.—One of the three missing boats belonging to the steamship William Lawrence, wrecked near Port Royal Bar, South Carolina, on Sunday night last, was picked up by a pilot boat Monday morning. The seven men in the boat had had a terrible experience, and their condition when rescued was pitiable. After striving in vain to reach land, they on Sunday night located the sea buoy off the bar, made fast to it, and remained there until the pilot boat found them. The other boats with 14 men are still missing. Tugs will go in search of them. The Lawrence is a total loss.

"Probably no single drug is employed in nervous diseases with effects so markedly beneficial as those of cod-liver oil."

These are the words of an eminent medical teacher.

Another says: "The hypophosphites are generally acknowledged as valuable nerve tonics."

Both these remedies are combined in Scott's Emulsion. Therefore, take it for nervousness, neuralgia, sciatica, insomnia and brain exhaustion.

50c. and $1.00, all druggists.

THE ODORLESS CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,
JAMES CONWAY.

Shedden, February 22th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long felt want and I believe it will become very popular especially in rural districts, towns and villages where wells are so frequently contaminated by the ordinary closets. I am, yours, etc.
W. H. MORRISON

Medical Superintendent's Office, Sept. 30th, 1897
Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 20 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once, before it has a chance to vitiate the surrounding atmosphere.
Yours truly. JAMES RUSSELL, M.D.

Binbrook, Sept. 30th, 1897.

Dear Sirs—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country homes. Yours truly,
M. J. MULLOCK.

ADAM HALL.

A NEW INVENTION

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Upright and Square Pianos of the various makes taken in part exchange for the famous **NEWCOMBE PIANOS.** Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Don't fail to hear the Lecture by Rev. A. P. McDiarmid, on "India's Needs," beautifully illustrated by lime light views, in the Murray Street Baptist Church, on Monday evening next Feb. 20th. Silver collection.

Extensive Consignment.

Indications of spring activity and hopefulness of merchants are already apparent. Among recent arrivals of new goods for spring at the Peterborough Bookstore is an unusually large consignment of ten cases of window shades (2,600 shades). These were purchased at a special price for a large quantity, and will justify the public in looking for specially good value in shades. A very extensive shipment of wall paper is also expected to arrive in a few days at the Peterborough Bookstore, consisting of ten tons of newest designs for 1899. This consignment will arrive in three shipments from the three best factories on the continent.

FROM MAKER TO WEARER

Do you catch the meaning of it?—"From maker"—that's us—we are Wholesale Tailors—"To wearer"—that's you—no middleman in the transaction—the most perfected clothing made to-day—building business on a high quality, selling direct to our customers. GRAFTON & CO., Clothing Manufacturers.

Have You Had La Grippe?

If so, nature wants a helping hand out of the trouble. Convalescing men and women need a suitable stimulant or tonic to put back the snap that has been taken out of them. For some, a good bodied ale or porter, like Copeland's, is highly recommended. Others are advised to use a fine rich port or sherry wine. While for elderly men pure whiskey is the best. Messrs. Henry & Co, Wine and Liquor Merchants, can supply any of these in well matured condition for medical purposes at moderate rates. HENRY & CO.

EARLY MORNING WEDDING.

Nuptials of Miss Florence Nimmo and Mr. H. C. F. Post, in All Saint's.

A quiet wedding took place in All Saint's church at a quarter after seven o'clock this morning, when the marriage ceremony was performed uniting Miss Florence Nimmo to Mr. H. C. F. Post, of Brighton, who was formerly a student at the Canadian General Electric Works here, but is now residing in Prescott, where he accepted a position with the Light and Power Company of that place some months ago.

The bride looked charming in a travelling suit of Cuban grey with large picture hat to match. She was assisted by her sister Miss Roxie, who also looked most attractive in grey. The groomsman was Mr. W. H. Collier.

Rev. W. L. Armitage performed the ceremony in the presence of only a few of the most intimate friends of the bride and groom.

Mr. and Mrs. Post left for Prescott on the 10 a. m. G. T. R. Express, followed by the good wishes of their many friends in Peterboro.

In Miss Nimmo All Saints' church loses an active worker in the Sunday school and other departments.

PERSONAL

Mr. A. H. Stratton is in Guelph on a business trip to-day.

Mr. W. J. McComb was up from Havelock on business to-day.

Miss Amie Carveth of Millbrook, is the guest of Mrs. H. C. Winch.

Mr. Norman Bell, youngest son of Dr. Bell, has entered the Ontario Bank.

Miss Eva Humber, Water street, is visiting friends in Keene and vicinity.

Mr. Dickson Davidson has recovered from a recent severe attack of pleurisy.

Miss Annie Hanlon, of Otonabee, left Tuesday for Erie, Pa., to visit friends.

Mr. George Greer of Orillia, father of Detective Greer, is visiting with his nephew, Mr. J. Greer, 14 Inverlea street.

Mr. Harry E. Bradley, of Toronto, who has secured an engagement as cutter with A. Mercer & Co., arrived in town last night.

Miss Clara Bellegham left this morning to spend several weeks visiting her uncle T. J. Moore of Toronto, also friends in Markham, Ont.

Mr. D. W. Dumble is in Toronto attending the annual meeting of the Ancient Order of United Workmen, which is now in session in that city.

Mr. Wm. Johnston, inspector of weights and measures, is in town on an official visit. He inspected a number of electric light meters last night.

Dr. Wightman has been confined to his room at the Grand Central Hotel since Monday with an attack of inflammation. This afternoon he was removed to the Nicholls Hospital.

At the annual meeting of the Canadian Association of Fairs, in Toronto yesterday, Mr. Geo. E. Elliott and Mr. Birdsall were elected members of the Executive Committee, and Mr. G. W. Fitzgerald received the appointment of auditor.

Messrs. Walter English, W. Bunton and C. LeBrun witnessed the Varsity-Queen's match in Toronto last night. They say if Peterborough gets the chance to go up against Queen's our boys will have bright prospects of winning the championship.

Rev. G. F. Davidson left this morning for Ottawa, where he is engaged to take several courses of sermons during Lent, in addition to his work for Trinity University. He will address the business men of Ottawa at the noon-day services.

Mr. S. W. Bradley has been in town for the last few days procuring new armature and other fixtures from the Canadian General Electric Co. for the Cornwall street railway. Mr. Starr has lost control of the line, which is now operated by the Sun Life Insurance Co. Mr. Starr, it will be remembered was anxious to secure the Peterborough franchise at one time.

EXTRA SPECIAL

Just received at China Hall a special lot of "30 only" 7 piece Chamber Sets, in flown blue and other nice colours, worth $4.00 to $4.50 per set, while they last your choice for $2.00. Finer Sets worth $6.00 and $6.50 this week for $3.00. 2d 36

"THE SOURCES OF ENGLISH CHRISTIANITY."

FIRST OF THE LENTEN ADDRESSES IN ST. JOHN'S.

Lecture on the Above Subject by Rev G. F. Davidson, M. A., of Trinity University, Toronto.

The course of Lenten lectures at St. John's, which has been a feature in years past, opened again, under most auspicious circumstances for 1899, last night. A large congregation was present and much interest was evinced.

Rev. G. F. Davidson, M. A., proved to be thoroughly master of his subject, and illuminated the facts of history with many present day applications and touches of dry humour. Mr. Davidson is a fluent and pleasing speaker and is well qualified to deal with historical subjects. His subject was "Sources of English Christianity." He began by referring to the advantages of the study of Church history as inculcating a proper reverence for the past, wisdom and courage for the present and hope for the future. If dark clouds seemed at times to loom over the ecclesiastical horizon, any forebodings would be quickly dispersed by the study of the past history, showing how by Divine power the Church had triumphantly come through greater complications and dangers with renewed life and power. Furthermore the study of history was necessary at this particular time, as in our desire for unity it was necessary for us to know the

TRUE DIVINE HERITAGE

which had been entrusted to us and which it was not ours to barter away.

In early English history a distinction had to be drawn between the British and English church. The former had not contributed directly towards the church of England but gradually became merged in England's church.

Dealing first with the British church, the lecturer proceeded to narrate the different accounts of its origin. If they were uncertain there was no uncertainty as to the early existence of the church. The church certainly existed at the beginning of the fourth century and probably before it.

Accounts were then given of the early martyrs, especially St. Alban. At the Council of Aries in France 304 A.D., the British Church was represented by three bishops, (of York, London and Caerleone) one priest and one deacon. These were evidently representatives from great divisions of the country, and if the Church was so fully organized then, it must have must have been so for some time previous.

The Liturgy of the early British Church was that of the Church of Ephesus, ascribed to St. John, which was also the Liturgy of the church in France, and seemed to indicate an Eastern origin for the British Church, but whatever its origin, the Church had a character and independence of its own and very early sent forth its missionaries to Ireland with great success. Then came the invasion of the Angles and the Saxons, who drove the Britons, and with them the church,

INTO CORNWALL AND WALES,

and the greater part of England became heathen again.

The lecturer then went on to give the well-known story of the re-conversion of Anglo-Saxon England from Rome, referring to St. Gregory being attracted by the English slaves in the Roman market. Not being allowed to go to England himself he sent St. Augustine with forty monks in 596. They converted the Kingdom of Kent and several other kingdoms, which were afterwards lost to Christianity. These other kingdoms were permanently converted from a third source—the missionaries who had come from Ireland and taken up residence in the Island of Iona. Led by St. Columba and St. Aidan, they began their successful work in the north of England. These were the three great sources of English Christianity—the British church, the Roman mission and the Celtic mission, and to each a proportionate credit must be given. Let it be remembered, however, that the Roman church of that day was very different from the Roman church of to-day and was not marred by the comparatively modern developments which separated it from Protestantism.

The next great stage was that of the extending of the different elements of the church. Then, as now, trifling religious differences kept men apart. The great council was convened at Whitley in 664, when these differences, and different races were reconciled. Soon afterwards two Welsh bishops assisted at the consecration of St. Chad, so each of the early factors became welded with the church of England.

The lecturer then showed the independence of the early English Church by reference to the case of Wilfred Bishop of York and others. While entertaining a high respect for the Roman Church, the line was still drawn beyond which interference was not tolerated. The Protestantism of England took its rise in these early days, and ever since has been a prominent and healthy feature. In after centuries, the church did by ill-considered actions endanger its independence, but in the age of the reformation, these mistakes were rectified, and the church again asserted the position as an independent and reformed Branch of the Catholic Church.

The complete organization of the church of England was perfected by the great Archbishop Theodore, a native of Tarsus, in the city of St. Paul, who introduced the parochial system. And this consolidation unity of the Church of England, under her new archbishops and bishops, was effected some 150 years before the different kingdoms of England were organized into the state. As Freeman and other historians have pointed out the organization of the Church paved the way for the organization of the State.

The lecturer concluded a most interesting address by drawing a few practical thoughts about history, pointing out the importance of foreign mission work, which used to be carried out by whole bands of men instead of a few lonely missionaries. Lastly, looking back at the past, let all see how God had brought harmony out of chaos and was guiding from age to age the destines of His Holy Church.

The next lecture of the series will be "The Church in the Middle Ages" by Rev. C. B. Kenrick.

SPECIAL TO LADIES

THE NEW STORE, 385 George Street

Daily Examiner.

THURSDAY, FEBRUARY 16, 1899.

THE THIRD EXAMINATION

Was Successfully Passed by the Officers of the 57th Last Night.

Lieut. Lister, Acting Adjutant of the Royal School of Infantry, Toronto, examined the officers last evening who have been attending the local Provisional School of Instruction.

The class has already passed the practical examinations in squadron and arm drill and last night the members were found to be proficient in company drill.

In a couple of weeks the class will be examined in battalion drill, and will then be subjected to a written examination on the various subjects.

The class is composed of fourteen officers who are instructed by Sergt.-Major Peters, the latter being employed by the Department for this purpose, he being fully qualified, having been instructor of the Royal School of Infantry for over ten years. Since the school was inaugurated here an officer from the Toronto school has been coming to Peterborough twice a week for the purpose of delivering lectures to the class.

KILLED BY A TREE.

A Resident of Westwood Meets Death Suddenly at Rat Portage.

Word was received in Westwood yesterday by the relatives of Mr. Wm. Slade that he had been killed by a falling tree whilst engaged in lumbering near Rat Portage.

The deceased leaves a wife and four children, who reside in Westwood. He was a brother-in-law of Mr. Arthur Elmhirst of Otonabee, and was well known in Peterboro. Last summer he was fire ranging for Mr. Wm. Irwin, but in the fall went out to Rat Portage.

—Miss L. Bell, of Keene, late pupil of Herr Klingenfeld, has re-opened her violin classes in town. Pupils wishing instruction may inquire at the Peterborough Music Store, 404 George street. Engagements accepted for parties and receptions. Miss M. McCabe, accompanist. 6ws

ROSEMATH.

From a Correspondent.

The "angel of death" has once more made his presence felt in our midst, this time claiming for a victim, Lizzie, eldest daughter of Mr. T. Douglas, who lives about three miles from here. The deceased young lady had enjoyed good health throughout the winter until Monday, Jan. 30th, when she was taken suddenly ill with inflamation, and despite kind and careful attention, gradually grew worse until Tuesday, February 5th, when, as she was fast failing, she called those who were dearest on earth to her into the room and gave them her final farewell, exhorting them to walk in the "straight and narrow way that leadeth unto life" then trusting in Him who said, "Come unto me, and I will give you rest," she calmly breathed her last. The funeral, which was unusually large, took place on Thursday, 9th inst., when her remains were interred in Merrill's cemetery. The bereaved family have the sincere sympathy of the entire community.

THE LENTEN SEASON BEGAN YESTERDAY.

Entertainments Unfashionable and Church-Going is the Thing.

ANGLICANS AND CATHOLICS FAST.

For Forty Days They Will Celebrate the Great Church Festival by Special Daily Service.

Yesterday was Ash Wednesday, which is popularly supposed to usher in a season of fasting and prayer, a period of self-discipline that will be of mental, spiritual, not to say physical, benefit. Formal entertainments are not fashionable, dances are in exceedingly bad form, theatre-going is tabooed, while church-going and plenty of it, is the motto not only from the social but from the religious point of view.

In countries like Canada, in which Protestants form the majority of the population, Lent does not fill anything like so large a space in the life of the people as in Roman Catholic countries. The carnivals which in some of these latter countries precede the sackcloth and ashes, the abstinence and fasting of the Lenten season, are celebrated the world over. Everyone has read descriptions of the saturnalia of gaiety with which in Italian cities Shrove Tuesday is ushered out. There are really in Canada only two religious communities that can be said to observe Lent, the Anglicans and the Roman Catholics. The Anglicans always celebrate the season by daily service in all the churches, and they will do so this year, but the observance of the fast is left to the discretion of each individual. In the Roman Catholic Church fasting is obligatory on all days within Lent, Sundays excepted, for those who are bound by the law of fasting; but owing to the prevalence of la grippe this year the rule has be re'axed and the fast will be restricted to Wednesdays and Fridays, with the exception of Ember week and Holy Saturday. Persons under 21, and those who by reason of ill-health, advanced age, hard work or other legitimate cause could not observe the law without detriment to their health, are, however, exempt from fasting.

HISTORY OF LENT.

A brief history of the institution of Lent may not be uninteresting. The word itself is derived from an Anglo-Saxon word, meaning "spring." The custom of keeping a fast before Easter appears to have sprung up in the earliest days of Christianity, but at first the fast lasted for only a day or two at the most. Irenæus, who lived at the close of the second century, mentions the custom as old then, and says that in some churches it was celebrated for a single day, in others for two days. By the time of Constantine the Great, 300 A. D., the fast was regarded as binding on all Christians, but it still seems to have been confined to the period between Good Friday and Easter Sunday, the time in which "the bridegroom was taken away from them." The period of its observance was gradually extended. Socrates, the ecclesiastical historian, who flourished about 400 A.D., tells us that in his time the custom at Rome was to fast three continuous weeks before, Easter Saturdays and Sundays not being included, but that in Illyria, Greece and Alexandria the period of abstinence extended over six weeks. By the time of Pope Gregory the Great, however, two hundred years later, the precise number of days had been fixed at 36, one-tenth of the year. Shortly before the year 800 Pope Gregory's computation was increased by taking in as fasts the four days preceding Quadragesima Sunday, so that Lent henceforth began on Ash Wednesday and included 40 days, to correspond with the number of days our Lord fasted in the wilderness. At that number it has ever since remained. The computation was adopted in the Canon Law, the great legal system which the Church of Rome built up during the ages of her supremacy, and was thus made part of the religious observances of western Christendom.

Go to-night and witness the brilliant illummation by ACETYLENE GAS at Mr. Noble's Plumbing and Gas Fitting Store, Simcoe street. The Forsythe Acetylene Machine will be on exhibition and explained by Mr. Bryant an expert representative.

OBITUARY.

Demise of the Late Robert Metcalfe, of Asphodel.

On Sunday, 12th inst., at his home in Norwood, another of Asphodel's old landmarks in the person of Robert Metcalfe, passed to his reward. He was one of the pioneers of Asphodel, and through economy and industry succeeded in redeeming from the forest a beautiful home, and added several other farms, besides considerable property in the village of Norwood. He was a man of honest, sober, industrious habits, a brick layer by trade and when not employed on the farm worked at his trade. He leave a wife, three sons and two daughters, to mourn his loss, viz., James and William of Asphodel, Phillip of Norwood and Mrs. Hughes of Dummer.

Red Hot From The Gun.

Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth, 25 cents a box. Cure guaranteed. Sold by all Druggists.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Doing on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

CURLIANA.

Lindsay won out from both Fenelon Falls and Beaverton in the Midland Colts series yesterday and will now play Peterborough.

Three rinks of Thistles went up to Lakefield yesterday afternoon and succeeded in winning a victory by three shots. The rinks were composed as follows:

Peterborough.	*Lakefield,*
RINK NO. 1.	
Geo Morrow,	R Graham,
W G Thompson,	W R Strickland,
C N Brown,	J M Ridpath,
W G Ferguson, sk..17	R Strickland, sk.....15
RINK NO. 2.	
Dr Neil,	
G Boucher,	J C Craig,
A McNeil,	
S Ray, sk..... 13	M Strickland, sk.. ..18
RINK NO. 3.	
W McCallum,	R Munroe,
Geo Kerr,	— Madill,
G L Hay,	L Payne,
D Belleghem, sk....20	Geo Hilliard, sk.....14
—	—
50	47

Majority for Peterborough, 3 shots.

In a Granite inter-rink match yesterday afternoon Skip R. S. Davidson won from Skip Weller by the appended score:

J Salisbury,	R E Wood,
H J Grassett,	Geo Edmison,
Geo Giroux,	T E Bradburn,
R S Davidson, sk ..20	Judge Weller, sk.... 6

The contest for the Kendry cup now rests between the rinks of Skip Connal and Skip Rutherford, as the latter won from Skip Knapman last night by the following score:

Robt Kerr,	F H Dixon,
Alf Terrill,	J H Hall,
C Rutherford,	T Ferguson,
T Rutherford, sk..18	J S Knapman, sk....13

HOCKEY.

Mr. A. H. Beaton has called a full meeting of the O.H.A. Executive for Saturday afternoon, at 2.30, to decide the application of the Peterborough team. The general opinion in Toronto is that Peterborough is fully entitled to play in the finals.

A full practice is called for to-night at 7 o'clock. Every player is urgently requested to be on hand early.

The Wellingtons may play an exhibition game here on Saturday.

The Montreal Victorias defeated the Winnipeg Victorias last night by 2 goals to 1 in the first of the three championship games.

From all accounts Waterloo hadn't a very pleasant time in Stratford Monday night. Eddie Seagram had his head badly cut by one of the opposite side, also his arm and right thumb badly battered. One who saw the game says it was very rough, and that the Stratford team went in to lay Waterloo out. As Eddie Seagram went down the side of the rink his stick was grabbed out of his hand by a spectator, who didn't want to give it up. Westwick and Joe Seagram came in for Stratford's roughness, and were generally knocked about whenever an opportunity occurred. Stratford is getting so that no team cares to go there, claiming they don't get fair-play. Certainly T. R. C. won't go up there, or at least some of the team. They remember what happened last year and will profit by the lesson. Truly the Classic City is becoming famous and gaining a name for itself, but a very undesirable name at that.

QUEEN'S BEAT VARSITY.

The Globe says: The unexpected did happen last night, and the backers of Queen's are jubilant. The collegians from Kingston demonstrated their superior excellence in hockey playing by defeating Varsity at the Victoria rink in the first game of the senior O.H.A. finals by 9 to 3. The half time score was 4 to 3. The largest crowd of the year in Toronto squeezed into the rink. On the lower floor the crowd stood two and three feet deep, and twice during the night portions of the fence were pushed down. The scene at the entrance to the rink resembled a rush at a bargain counter. Ladies were rushed and tossed around, and many a pretty hat and jacket were damaged. The excessive charge for the gallery, 25 cents extra, did not deter the crowd, although there was much grumbling. It was sufficiently hard to get a good position to see the game, but it was doubly difficult to retain it after it had been secured, and the long wait for the start did not improve matters. The Queen's team were first out. Great big, strapping fellows, they were, with one exception, that being Dalton, their diminutive centre-forward. The Varsity team did not put in an appearance for some minutes after their opponents, and they had no sooner stepped on the ice than Queen's retired to their room for some reason. There was another delay, and when both teams came out a second time, delay was caused by the referee's inability to locate the timekeepers.

Queen's won on their merits. They were faster, more skilful stick handlers and better shots than Varsity. The combination of the winners was simply dazzling and whenever they got away the whole forward line swung down the ice with the grace and precision of a company of regulars. Their passing was well-timed and had it not been for Darling's magnificent playing at cover point, and in fact the really good work of the whole Varsity defence, the score would have been much larger. Darling's lifting could not have been improved upon, but in this respect he had a worthy rival in Merrill, the Queen's cover. The latter effectually broke up Varsity's combination, and whenever they did get away from him Guy Curtis, the "old Roman," was on hand to repel boarders. Harty and Dalton were very effective and were easily the best forwards on the ice. Carr-Harris was brilliant at times, but Newlands seemed to be in too fast company. Snell did the bulk of the work for Varsity. Sheppard was away off colour. Misses of his in the first half were directly responsible for two scores made by Queen's. Wright showed up well in the first half but he tired badly in the second. Isbister did not seem to be in condition for a gruelling contest. The game in the first half was as fast and as exciting a contest as one could wish to see, but in the latter part it degenerated into a mere scramble, and except for occasional rushes by the Queen's forwards, which were like lightning flashes athwart a dark sky, the second half was anything but pleasing.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this morning, as well as the highest and lowest yesterday—shade temperature:—

	Highest.	*Lowest.*
To-day, 7 a. m.....	16° above zero

What is It?

Catarrhozone is a liquid, fragrant and cleansing, which rapidly volatilizes when inhaled. What is it for? It is an absolute, never-failing cure for catarrh of the throat or nasal passages. Is this true? We are so sure that it will cure you that we will send you, prepaid, a free sample of Catarrhozone and an inhaler if you send your address within one week. Write us.

N. C. Polson & Co., Kingston, Ont.

INSANITY STEADILY INCREASING

One of the most lamentable features in connection with modern civilization is the fact that insanity is steadily increasing. The average number of persons cared for by Ontario in the seven insane asylums in this Province increased from 2098 in 1878 to 5,005 in 1898. Ontario is not, however, more unfortunate in the way than other States on the continent. The number of insane for each thousand of the population in Ontario is 2.11; in Pennsylvania 2.25; and in New York 2.42. In England it is much higher than it is here—3.20 per thousand.

Catarrh Can Be Cured.

Japanese Catarrh Cure

has successfully coped with this most dangerous disease, and cured to stay cured.

Miss A. Knott, of Beachville, Ont., writes: "If we had only known of Japanese Catarrh Cure years ago, my father would have been saved from spending hundreds of dollars, and I would have been free from the constant pain and annoyance of this most disgusting disease. I have had catarrh for years. My head was stuffed up so that I could not breathe through my nostrils. My breath was very impure. I had almost a constant pain in my head and over the eyes. Nothing I could get gave me any permanent relief, until using Japanese Catarrh Cure. From the very first it gave relief, and in a short time had removed the accumulation so that I could breathe freely through the nostrils. The pain left my head and eyes. Its effect upon my breath was truly wonderful, purifying and removing every vestige of the unpleasant odor, and during the past year since using this remedy have not left the least sign of my former trouble. I can highly recommend it, and I know of several others in our neighborhood whom it has cured."

Sold by Ormond & Walsh, druggists, Peterborough, 50 cents. Six boxes, with cure guaranteed, for $2.50. A free sample sent to any address. Inclose 1c. stamp. Address, The Griffiths & Macpherson Co., 121 Church street, Toronto.

NOTICE IS HEREBY GIVEN THAT APplication will be made to the Parliament of Canada at its next session by THE DOMINION PERMANENT LOAN COMPANY, for an Act to amend its Acts already obtained (55 Victoria, chapter 95, and 61 Victoria, chapter 101) to define the Capital Stock of the Company, and to consolidate, define, declare and enlarge its powers of lending, purchasing, borrowing and investing, and for other purposes.

Dated at Toronto this 12th December, 1898.

VALUABLE

Residential Properties

FOR SALE

In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Containing ten rooms. House is good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containg seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 108 feet square.

Parcel No. 4. Brick residence, corner Wellesley and Benson streets. Two storeys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 108 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases.

Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

LUMBER

Shingles, Joists and Scantling and all kinds of Building Material at lowest Prices.

A. McDONALD,

Point St. Charles Mill, Peterborough.

Have You Met . . .

TWO QUEER ANIMALS

THE MARABOU AND THE HYENA OF CENTRAL AFRICA.

Both Feed on Carrion, and the Bird and Beast Often Battle For Their Food—Fairylike Plumes That Are Light as Air.

The ugliest storks in the world are found in southern Asia and central Africa. Their flesh colored heads are only partially covered with stiff, wiry feathers, and hanging on the breast they bear a disgusting pouch, which answers the purpose of a crop. One of the largest of these storks is the marabou. It stalks about the great sandy plains of central Africa with a composure and lordly grandeur, as if it were the most beautiful bird in the world. Its body feathers are of a dull metallic green color and its wings and tail are dingy black. Looking at the awkward creature, no one would suspect that under its ungainly wings it carried the most exquisite and fairylike little plumes, so airy that it takes basketfuls of them to weigh an ounce. They are pure white, and so much desired for trimming that the bird is vigorously hunted by the natives, who sell these dainty feathers to traders for a very large price.

Hunting the marabou is attended with great difficulty, as the bird possesses wonderful cunning, and often contrives to outwit the most skillful hunter. With laughable dignity it measures the ground between itself and its pursuer and takes very good care not to exhaust itself by too rapid flight. If the hunter moves slowly, the bird at once adopts an equally easy pace, but if the hunter quickens his steps, the bird is off like an arrow. It is very difficult to get within gun range of this calculating creature, but the natives adopt a novel means of capturing it, which the bird, with all its astuteness, is unable to comprehend and falls an easy victim. A tempting morsel of meat is tied to the end of a long stout cord, which the skillful hunter flings to a great distance, as he would a lasso, the bait falling as near the fleeing bird as he can aim it. He then conceals himself hastily behind a bush or crouches low on the sand. The marabou, which always keeps its eye on the hunter, seeing him vanish, quietly stops and devours the bait, when it is easily secured by the hunter, who runs toward it, coiling the rope as he goes.

The marabou feeds on carrion, like the vulture. Its throat is very large, and it will greedily eat everything that comes in its way. In the swamps and plains around Khartum on the Nile are immense flocks of marabous, and they are so daring as to come to the slaughter houses on the outskirts of the city in search of food, and whole ox ears and shin bones with hoof attached have been found in the crops of specimens which have been killed.

This bird is a very skillful fisher. It haunts the low, marshy islands in the rivers and lakes of central Africa, with elephants, monkeys, flamingoes and many varieties of birds for its companions, and gains its principal food from the water. They often go in companies of 10 to 12 to fish. Wading in the water, the birds form a circle, which they gradually draw together, gathering the frightened fish in the center of the net, when with their long bills and quick movements they speedily provide themselves with a hearty meal.

Although marabou mammas have been seen proudly parading round with a brood of diminutive downy young ones, so shy and retiring is this bird in its domestic habits that naturalists have been unable to determine when and how it builds its nest. The natives assert that it nests in high trees, but their statement is not confirmed.

In captivity the marabou is lord of the inclosure, and in zoological gardens, where specimens have been confined, no other birds, nor even small beasts, dare approach the feeding trough until the hunger of this impudent bird is satisfied and it has retired to the warmest corner for a nap. The immense strength of its bill makes it a formidable enemy, and when fighting for food it will often overcome the largest vultures, and wage successful battles with beasts of prey.

The hyena inhabits the same portions of Asia and Africa as the marabou, and travelers give accounts of terrible contests between these two singular members of the animal kingdom. The hyena is called the vulture among beasts, as it prefers carrion for its food, and as long as it can find dead animals to devour it leaves the flocks and herds in peace. Cowardly by nature, it rarely attacks man or beast unless driven to desperation by hunger.

The striped hyena inhabits the northern latitudes of Africa, Persia and Syria, while the spotted species, which is easily tamed, and is sometimes called hyena dog, is found in large numbers in the vast plains of South Africa.

The hyena is a strange looking beast. It has a big head and a heavy, shaggy mane. The hind part of its body is much lower than its shoulders and its hind legs are short. This odd formation gives it an awkward, shambling manner of walking, which is both ludicrous and hideous.

This creature rarely shows itself by day, but when the shadows of night fall on the plains and forests it comes out from its home among the rocks and caverns in search of food. African travelers are much annoyed by it. When the camp is silent and all are sleeping, the hyena comes prowling round, uttering hoarse human cries, and should it fail to find sufficient camp refuse to satisfy its hunger, some poor donkey is sure to be torn in pieces by its terribly strong jaws.

Few animals have been the subject of so much superstition. In ancient times it was believed that a dog went mad if a hyena turned its evil eye upon it, and the beast was believed by many to be a wicked sorcerer, who went about in human form by day and at night assumed the shape of a hyena. The poor and ignorant peasantry of Arabia, even at the present day, believe in the evil eye of this beast and are afraid to shoot it lest they should incur the wrath of the wicked spirit which they imagine walks the earth in this ugly form.

The poor hyena, however, far from being an evil spirit, is a real blessing to the regions it inhabits, as it is a natural scavenger, provided by the kind wisdom of nature to clear the ground of much loathsome and decaying matter, thereby rendering the air sweeter and purer and more healthful.—Exchange.

JEWELS FOR MERMAIDS.

Gold and Diamonds at the Bottom of the Sea.

On the Cornish coast, about five miles from the Lizard, it is quite common to pick up Spanish dollars which have been washed ashore from the wreck of a galleon that went down in 1784 with a large amount of bullion on board.

It is surprising that with all the modern appliances for diving, systematic attempts are not more frequently made to recover treasure from the deep.

As early as 1598 a great deal of treasure was recovered, including the historical golden cup which once belonged to Frederick, king of Sicily, from the wreck of one of the ships of the "invincible armada."

In 1680 an American named William Phipps came over from Virginia to this country and craved for the assistance of Charles II toward recovering some wrecked treasures on the coast of Hispaniola. Charles provided him with a ship and the necessary funds, but the first attempt proved unsuccessful.

In a second effort he was financed by the Duke of Albemarle, and this time he succeeded in recovering specie to the value of £300,000, and after paying all expenses he was able to give the duke the sum of £80,000 as his share in the venture.

The specie on board H. M. S. Lutine, wrecked in 1799 off the coast of Holland, amounted to £1,200,000, and the whole of this still remains at the bottom of the sea, with the exception of £99,859 recovered in the year 1859. Attempts to recover the remainder are still being made.

Diving operations resulted in the recovery of £80,000 in gold from the wreck of the ill fated Royal Charter, which took place close to Moelfra, off the Angelsea coast, but a vast number of diamonds are still lying about the wreck.

Forty thousand pounds in specie was recovered from the wreck of the Hamilla Mitchell, in the Chinese sea, after lying in 28 fathoms of water for upward of 20 years, and £90,000 in gold was saved from the wreck of the Alfonso XII, which was sunk in 26½ fathoms of water off the Canary islands in 1885.

Some of the French ships sunk at Trafalgar contained vast treasure. Five tons of silver plate, including the famous silver gates of St. John's cathedral, Malta, and a ton and a half of gold plate, mostly studded with jewels, the plunder of the Maltese churches, were on board one of these ships.

Not an ounce of this treasure has been recovered.—London Mail.

A PLANK FRAME BARN.

Method by Which Large Timbers May Be Dispensed With and the Expense Lessened.

During the last few years, there has been a decided change in the methods and materials used in barn building. The increase in the cost of the large timbers used in framing called for methods by which the same results of strength and rigidity of frame could be obtained with less expense. Methods, by which the smaller timbers could be woven together and so take the place of the more excessive square timbers, have been in use in bridge building for *some time*, but the application of such methods to barn building is only recent. Such plank frame barns have been used with great success in central Ohio. They are both cheap and strong and easily erected by a small force of men. They will probably have an extended use. The cuts and description given herewith are from The Rural New Yorker:

In regard to the manner of construction, Mr. Woodward says that in building this kind of barn, there are no "steps" in the work of erection; it is rather a weaving together continuously, one plank at a time.

There is no such thing as putting a bent together and then raising it as under the old square-timber system. In Fig. 1 the outside plank of the corner

A CORNER OF THE PLANK FRAME BARN. FIG. 1.

post may be set up in place, toenailed at the bottom to the sill, and stay-lathed. Then a single plank of each of the other parts in that end of the building may be set up in the same way, and one or two of the nailgirts (the horizontal pieces) may be nailed on. After that any half-finished mechanic can see how to proceed, one plank at a time, to the finish, stay-lathing each part until one or more tie-planks have been put in place to hold the thing together. It will be seen at the left of Fig. 1 that the several planks of the post, the brace, and both the upper and lower ties are all interspaced, and these are nailed at each and every joint or crossing, and thus all the numbers are woven together, and the frame grows increasingly rigid. With each added plank the nails should correspondingly increase in length. Bolts are usually recommended and, he believes, used, but he prefers the wire nails and spikes.

Mr. Gilcrest's Experience.

Last November I built a barn with a frame after the plan of Mr. John L. Shawver. This frame is made entirely of planks—2x4, 2x6, 2x8, 2x10 and 2x12 inches, but very few of the latter size, only the collar beams. The posts are 2x8, the joist beams 2x10, and the braces are of the lighter timbers. This barn is 40x80 feet, with 24-foot posts. There is a basement 8 feet high throughout the entire building, with a 12-foot driveway through the center, the short way. This basement is used exclusively for live stock, all the space above is for hay, and there is no timber, from the floor to the comb, in the way of handling it.

AN ADDITION TO THE PLANK FRAME BARN. FIG. 2.

I consider that I saved nearly 40 per cent. in the timber. I paid for sawing about 20,000 feet of timber for this frame, including roof sheathing and mow floors. It required the labor of four carpenters almost exactly three days to complete the frame ready for raising. All was framed and raised from Tuesday evening till Saturday evening of the same week. After raising, it requires a little more time and labor to prepare it for siding, as the nail ties and side braces have to be put on after raising.

Whether this frame is as strong at all points as some of the mammoth timber frames (much of which is used) we have seen in barns, would be difficult to decide; but I am convinced that the Shawver frame is abundantly strong for all purposes for which a barn is used. My barn is now nearly full of hay; I observed it pretty closely, and I cannot see any

LOOKING THROUGH THE PLANK FRAME BARN. FIG. 3.

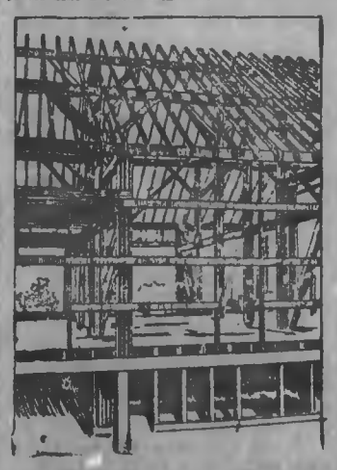
place where there is any lack of strength or symmetry. It stands as straight and trim as any building; in fact, there is no chance for it to do otherwise, as it is so well braced and supported wherever needed.

Would I advise a farmer who wants to build a barn to use this plan? I think he cannot afford, if he is going to build a large barn, to put into it a lot of timber and labor that are unnecessary. If I were going to build a large barn again, I would certainly use the plank frame. I would put a good foundation under it, and would have nothing to fear but fire and lightning. I would make a driveway 14 feet wide instead of 12.—S. G. Gilcrest.

The Pennsylvania College Barn.

This barn was built at the Pennsylvania State College in place of one destroyed by fire, and as a member of the executive committee of the board of trustees, I was made chairman of the building committee. We secured a model best of the plank frame, with explicit directions from Mr. John L. Shawver, and then inspected, under guidance of the builder, a large tannery, just approaching completion, in Clearfield County, Penn., built upon precisely the same plan. This convinced us of its great value, and we adopted it, after considerable difficulty in overcoming the objections of both architect and builder. Though it was the first experience of the contractor with this plan of frame, he has assured me that he saved at least 45 per cent. on the cost of a timber frame of the same size, and that with this experience he can, hereafter, save fully 50 per cent. on the cost of any timber frame.

Square timber is very hard to find and very costly. Plank may be picked up by the 10,000 feet in any well-conducted lumber yard, in stock, and at low figures. Skilled labor is not needed in framing; any apprentice or day laborer who can handle a saw and a square and drive spikes, is a good hand. We used spikes instead of bolts. It is the strongest frame of its size I ever saw, very much stronger



BROADSIDE OF THE PLANK FRAME BARN. FIG. 4.

than any square timber frame of the same size. I have examined the barn in company with the superintendent of our college farms, and though our crops have been immense, and the barn is filled to its utmost capacity (it is 98x108 feet in size), there is no sign of strain or yield about it. My opinion of the plank frame is so favorable that I shall use it exclusively in any building in which I may hereafter be interested.—J. A. Woodward.

SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

Substitution

The Way to be Well.

If you are ill it is not you alone who suffer, but those who depend upon you, those to whom you are dear—whether you are a man or a woman. The worst diseases in the world are slight ailments at first. If you are feeling weak, nervous or run down—if you are at all unwell, take

DR. WILLIAMS' PINK PILLS for PALE PEOPLE

and be made bright, active and strong. Recommended by the liberal minded doctor and the trained nurse. But you must get the genuine—substitutes never cured anyone.

CONSTANT FEELING OF LASSITUDE.

From Parrsboro, N.S., Leader.

There is scarcely a man, woman or child in the busy mining town of Springhill, N. S., who does not know Mr. Moses Y. Boss, the trusty agent of A. R. Fulton, dealer in carriages and farm implements. Two years ago the writer first met Mr. Boss, and was struck with the extreme pallor of his countenance. He seemed, in fact, like one in the deadly grip of consumption. Recently business again brought him to the home of the writer, but a remarkable change for the better had taken place in the interval. Upon enquiry it was learned that failing health first induced Mr. Boss to go upon the road as salesman in the hope that a change of scene would be beneficial. The result, however, did not meet with his expectations. The food he ate distressed him, and the weakness and feeling of lassitude became intensified. To use his own words, he was so weak and nervous, and used up, that he felt that he "could have dropped down and gone to sleep anywhere." Driving tired him and when at home the slightest labor about his farm was irksome. He was in this hopeless and discouraged condition when a friend recommended Dr. Williams' Pink Pills. He decided to try one box, and before they were gone he found some benefit from them. He then bought four boxes more, and each week found an improvement in his condition. His stomach ceased to trouble him, the feeling of lassitude troubled him no more, and his labors were no longer irksome. By the time he had finished his fifth box, his health was fully restored, and has since continued to be excellent, and he is not backward in telling his friends the sterling worth of Dr. Williams' Pink Pills.

The Genuine are sold only in Packages like the engraving. WRAPPER PRINTED IN RED.

At all dealers, or direct from the Dr. Williams' Medicine Co., Brockville, Ont., at 50 cents a box or six boxes for $2.50.

The Pathos of It.

"I saw a most remarkable occurrence on the street the other day," said a professional man, "and it made a deep impression on me. A lady came down Euclid avenue and stopped at the corner of Bond street. She evidently wanted to cross to the other side of the avenue. She was not a young woman and she did not look strong. There was quite a jam of vehicles in the street, motor cars, wagons and bicycles, and she seemed a little timid about risking the passage. As she hesitated a man came up Bond street and paused beside her. He was a well dressed man and carried a heavy cane, which I noticed he used constantly as if he might be a little lame.

"'Sir,' said the lady to him, 'can I ask you to offer me the protection of your arm in crossing the street?'

"She said this in a very sweet and ladylike way and the man with the cane touched his hat.

"'Certainly, madam,' he replied, and offered his arm. As they crossed the street I followed close behind them. The man with the cane was very careful. He halted several times, but they reached the other side without mishap. As the lady let go of his arm she said:

"'Thank you, sir, for your courtesy and protection.'

"'You are quite welcome, madam,' he replied. 'But I fear you overvalue my protection—because I am blind!'

"And touching his hat again he turned and picked his way up the crowded sidewalk."

Knew What He Wanted.

"Johnny," said his mother, "this is the sixth time you've asked me to let you play with Willie Tuffly. Now, how many times do you wish me to say no?"

"None," replied Johnny. "I'm huntin for a yes."—Harper's Bazar.

MRS. GEO. SMALL, MT. FOREST, ONT.,

Considers Laxa-Liver Pills the best remedy for Billiousness.

One after another is coming forward and speaking a word in favor of the new family medicine—Laxa-Liver Pills.

Mrs. Geo. Small, Sligo Road, Mount Forest, after giving these pills a thorough trial, thus expresses herself:—"Laxa-Liver Pills are the best remedy I ever took for billiousness; and as a general family cathartic, they are far superior to anything in the market for that purpose."

Laxa-Liver Pills are mild in action, harmless in effect, and do not weaken the system.

They act promptly on the Liver, tone up the digestive organs, remove unhealthy accumulations and cut short the progress of disease.

Price 25c. a bottle or 5 for $1.00, at all druggists, or sent by mail. T. MILBURN & Co., Toronto, Ont.

AN ELECTRICAL EXPERT'S STORY.

What a change has come over the industrial world since the advent of electricity! Telephones, Telegraphs, Trolleys, lights—all adding to the comfort and convenience of society. Not less marvellous the change that has come over the world of medicine since the introduction of

DOAN'S KIDNEY PILLS.

Day by day they're lifting the burden from aching backs and curing kidney diseases, hitherto considered incurable.

But the Electrical Expert—his name is Mr. Geo. Fox, employed with the Trenton Electric Light Co., Trenton, Ont.

This is what he has to say:

"Some months ago I had Typhoid Fever which left me with badly disorganized kidneys. I had pain in the small of my back, also severe pain over the eyes and was very dizzy. Sometimes I got up in the morning as tired as when I went to bed. I became quite dropsical and bloated and had much pain in the bladder. I have taken two boxes of Doan's Kidney Pills and I am surprised at their marvellous power in curing kidney trouble. The dropsical symptoms are all gone as also the pain in my back and side. The pains in my eyes and dizziness have left, and I am completely cured."

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR,—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000 which matured on the 6th inst. Of the various options you have given me viz.:

Cash value	$1,564 96
Paid-up Policy, payable at my death, for	2,560 00
Yearly Income for life of	166 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4½ per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the lowering rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,

A THRILLING STORY OF LOVE AND ADVENTURE.

By LAWRENCE M. LYNCH.

Author of "John Arthur's Week," "The Diamond Colonist," "Against Odds," Etc., Etc.

CHAPTER LIV.

AT LAST.

When the chase is over, the tempest passed, the billows tranquil, the ship in safe harbour, and the sails furled, we desert the decks, to rest and make ready for a new voyage.

Our story is done; we have brought the actors in our drama into safe ports—if there be a safe port on this side the viewless line that bounds eternity. There is nothing left unsaid that the reader cannt guess as well.

We might tell how, one day, two months after the glad tidings that his heiress was found crossed the ocean to Sir Hillary Massinger, a tall, spare form appeared at the door of the Ruthvens, and demanded his grandchild, Lady Lenore Massinger; and how Francis Ferrars, still confined to an invalid's couch, acted as mediaton between the haughty but penitent old man, and the still more haughty young lady, who would only "be a Massinger on her own terms." We might tell how Lenore, in spite of her stubborn will, learned first to pity and then to love this old man, whose pride had wrecked, first his son's life, and then his own; and how, again and again, her republican sentiments and republican friendship shocked the old nobleman, until his love for her, and her arguments, that were a shrewd mingling of bravely-spoken common sense and pretty ,weedling nonsense, gained the day, and he extended the hand of friendship, not of patronage, to all who had been the friends of Lady Lenore in her time of need.

Like many an imperious and strong-willed one, Sir Hillary had journeyed through life, bending and swaying and ruling all about him, until, at last, he had encountered a pride as obstinate and a will (albeit, it was the will of a young girl) stronger than his own. What he could not master he submitted to, and, as Rob Jocelyn expressed it, "put his blue blood in his pocket."

Rob had delayed his journey as much as he could, because of the uncertainty of life or death that for a little time hung over Francis Ferrars. But justice must have her dues, and the captured murderess was an uncomfortable prisoner to have on hand, so at last he sailed away, declaring, publicly, that is, to Neil, Lenore, and the others, that he went reluctantly, because of "poor Ferrars"; and whispering privately in the ear of Kate Seaton another reason why he was loaf to leave America—a reason that brought blushes to Kate's fair cheek, and a glad light to her eyes. At last he sailed, taking the soft-voiced, fair-faced, tigress-hearted Elise Schwartz back to England, and to the doom that awaited her there. Those were dangerous days that were passed by Neil and Lenore beside the couch of Francis Ferrars, dangerous to their peace of mind, and Kate Seaton looked on, rejoiced, and secretly informed Mrs. Ruthven that another triumph was in store for republicanism, and another downfall for Sir Hillary.

Mr. Durand, after all, had little room for gloomy reflections. His wife returned to him restored to health, and to find, installed as guests in her house, Neil Bathurst, whom she admired exceedingly, and Francis Ferrars, who proved a godsend to her, giving her the opportunity that her soul loved, of fussing about a sick room, and of preparing more dainties and delicacies to tempt the appetite than would have sufficed for a dozen sick men.

When Sir Hillary came, he, too, after a week's sojourn at a hotel, became the guest of Mr. and Mrs. Durand, and Lenore and Kate were often at their dinner table.

Mrs. Arteveldt was finally convinced, very much against her will, that she had no just case to harbour enmity against Lenore. It was a terrible shock to her, to learn that Aura, who had been her pet and favourite, in private and public, was an adventuress and a doubly-dyed murderess; but having convinced her of this—at the expense of a terrific strain upon his own equanimity—Mr. Hale found it comparatively easy to persuade her that it were best to let Elise Schwartz go, to be punished in England, and to let the memory of Clarence Arteveldt rest, and not drag to light his faults and foibles that might by unprejudiced ones be called by harsher names still. The reward offered for the finding of the murderess was promptly paid; but Mrs. Arteveldt never renewed the subject of making Neil Bathurst her sole heir. However, her attachment to Kate Seaton survived her chagrin at losing her, and when, not long after the arrest of Elize Schwartz, she summoned Mr. Hale to draw up her will, in which she bequeathed the larger portion of her wealth to divers charities, she reserved a handsome sum to be given Kate, as a marriage portion; and another handsome sum to revert to this same young lady at her death.

Doctor Austin was the most jovial of men in these days; he never tired of telling how he had rushed in hot haste to Doctor Burton's private asylum, to find Lenore gone; and when, one fine spring day, Lenore, Kate, Neil and Doctor Austin drove out to Doctor Burton's to dine with him, that worthy custodian of the mentally afflicted exclaimed in high glee:—

"Bless my soul! but this is the jolliest day I ever experienced. To think that Miss Lee is a lady of rank, and that she was not insane at all! Bless—my—soul!"

To which Doctor Ausin responded "And to think that this young dog," meaning Neil, "tried to claim relationship, and studied my musty old books for three months. And he warned me to beware of detectives, or any other sort of confidence men; ha! ha! ha!"

George Fordham recovered from his pistol wound, and, together with his gentlemanly gang, went to learn some useful and legitimate trade, in safe seclusion. Nina Annin shared their fate; but, doubtless, she will be at large in a few years, at the most, for she is a handsome woman, and believed to have been led into dark ways through her love for Fordham. For it is only known to Ferrars and Bathurst that she is Mrs. Pomeroy, the wife and accomplice of a notorious English burglar and counterfeiter, who was shot while resisting the officers of the law, and that she, herself, wounded two officers in making her escape at the time of her husband's death. The opals, and the diamond ring, given her by Aura, or Elise, and which were a part of the booty brought by Elise from the old Jew's coffers, she returned to the collection which Rob took with him to England, and restored to the Crown.

Mrs. Richards never resumed her old life; after a time, she confided her story, a sad, but very common one, to Mrs. Durand; and that good woman, who had given a daughter's place to a far greater sinner, bade her remain, acting as her housekeeper, as before, and so, surrounded by safeguards, and very grateful to Neil Bathurst, Mrs. Richards remains, protected and happy.

Down at the Morgue, on the day after the stabbing of Francis Ferrars, a tall, dark-faced form lay stretched out; the head was disfigured and blood-stained, and the face scarce recognizable. No one came to claim it, and it was given a pauper burial; yet this man had aspired to be a peer of England. So ended, and justly, too, the career of the villain Jason Bradwerdine.

Mrs. Harris would not have been Mrs. Harris had she not contrived to discover the identity and whereabouts of Lenore, and to present herself as an object for favourable consideration forthwith. But not feeling especially indebted to the lady, and not considering her a desirable acquaintance, Lenore speedily settled her claims, by bestowing upon her a generous gift of money, and then assuring her that henceforth they were strangers.

Gentleman Jeff is a gambler still; but he still numbers Lenore, Kate, the three detectives, Mr. Durand, Dr. Austin, Mr. Hale, and even Sir Hillary, among his friends, and he still possesses those qualities that are lacking in many men who boast of an honourable calling, chivalry, generosity, high courtesy, and a profound respect for all good women.

Mr. Durand is wihtuot hair, but it is whispered that the quondam Charles Durand, the man who saved his wife from the prisoner, and who drove the serpent from his threshold, will one day inherit his wealth. But Neil thinks not, cares not, for this. He is absorbed in a brighter, better dream.

And so let us leave them. Let us leave Kate Seaton looking forward with joyful anticipation to the return of her lover, the gallant Rob.

Let us leave Francis Ferrars coming back to health and strength, surrounded my friends, and rejoicing in the regard of Lenore and his brother detectives.

Let us leave Neil and Lenore absorbed in their dream of happiness; a dream that we, knowing Lenore, feel well assured will not be shattered as was the love dream of her parents, by the hand of a Judas or the pride of birth.

The spring wears on to summer, the summer of nature, and the summer of their lives, and, sometimes, in these days, when Lenore hears, or reads, of the gallant deeds of brave detectives, she thinks, with a sigh and a smile, of the time when she was one of the principal actors in "A Woman's Crime."

THE END.

When you dream that somebody is pushing you over a precipice it's time

you looked after your stomach and liver. You may not believe in dreams but that particular sort of dream is likely to come true if you don't take prompt measures to prevent it. If you neglect the warning you may find that you are actually pushing yourself over the precipice of disease into the abyss of death.

Don't forget that your heart and lungs and brain and nerves are supplied with blood and nutriment through your stomach, liver and bowels. If they do not do their work properly—if the blood is full of poisonous matter your whole body will soon be full of impurity and disease, and it is small wonder you dream of disaster.

Dr. Pierce's Golden Medical Discovery purifies and enriches the blood. It cleanses the whole digestive system and is an antidote for poison in the blood. It is a blood-maker and flesh-builder and is good for the nerves. It brings restful sleep and a clear head. It contains no alcohol, whisky, sugar, syrup, or dangerous opiates.

"I used Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for what I did suffered so much and it seemed as if the doctors could do me no good. I was down in weight to 125 pounds, and was not able to work. Now I weigh nearly 160 and can do a good day's work on the farm."

POLITICAL QUIPS.

Every politician believes he is good enough for any office.—Atchison Globe.

And now the measurements of the earth are to be taken. We hope this is not in the interests of some political party.—Philadelphia North American.

The voting machine at Rochester told the result in 37 minutes after the polls closed. The next thing in line will be a voting machine that hands out a $3 bill when the voter hits it the right way.—Minnesota Journal.

PRACTICAL SEED TEST.

A Very Simple and Satisfactory Operation Which Requires Absolutely No Expenditure of Money.

Testing seeds on the farm is such a highly satisfactory practice that, having tried it once by a good method, it is likely to become an established feature. Nothing can be more vexatious than to carefully manure and prepare a piece of ground for some particular crop, plant the seed just at the right time and in the right manner, and then, after waiting a reasonable time, finally discover that poor seed has been procured in the beginning and that only a part of it has come up. Experience like this can be avoided by seed testing, which is in reality a very simple thing, and requires absolutely no outlay of money.

In the first place, seed should be procured early in the season, to allow plenty of time to return it and procure other seed, in case it is found to be poor. All the apparatus necessary for ordinary testing of the germinating powers of seeds is a tin pan, like a cake pan or bread pan, a little cotton cloth or sheeting and a dozen or so sticks, long enough to reach across the short way of the pan, as shown in the accompanying cuts. A couple of little headless brads can be driven into each stick, which latter should have square edges so as to rest steadily on the pan, and on these pins pieces of the cloth can be hooked at the four corners. These cloths or bags should have a strip sewed at the bottom which will reach to the bottom of the pan, while the bag itself, in the bottom of which are placed the seeds, is midway the depth of the pan. Water should be placed in the pan, but not enough to reach the seeds; they will be moistened by water drawn up by the lower strip or wick. See Figs. 1 and 2. The pan should be kept in a temperature as even as possible, ranging from 60 to 85 degrees. Only one kind of seed should be placed in each bag, and a certain number of these seeds should be counted out when so placed and a record kept on an accompanying slip. After the seeds have been given sufficient time to sprout, they should be counted and the percentage of the good seed reckoned. The work takes comparatively little time, and will be found very interesting. For instance, take a test of clover seed; in extracting a sample, the seed should be thoroughly mixed and stirred and then a pinch taken at random and, say, 50 or 100 seeds counted out and placed in the bag, where they may remain for ten days. Many of them, however, will sprout before the expiration of that period and these should be removed and a record kept of them. Some seeds of course start more easily than other kinds. The following periods may be stated as the limits required for the germination of good seed of the kinds named: For cereals, peas, beans, vetches, sunflower, buckwheat, clover, corn and sow peas, ten days; for serradella, beet balls, rye grasses, timothy, tobacco, lespedeza and other field and vegetable seeds not named, 14 days; grass seeds are slow to start, and for all grasses except rye grass and timothy, from 20 to 28 days may be required. Kentucky bluegrass and Bermuda grass are very slow to start. The periods recommended are those adopted by the Department of Agriculture in its seed tests. If the seeds are good and fresh, most of them will sprout in less than half the time allowed for the test. It is essential, of course, to see that there is never a lack of moisture for the seeds, and that the cloths are never allowed to become dry. It is also advisable to soak the seeds during the first ten hours by putting enough water in the pan to touch the bottoms of the bags; this will hasten the germinating process, but too much wetting will tend to spoil the seeds.

Steam Boilers Rented.

There is scarcely anything from steam yachts to shotguns but can be rented—for example, steam boilers. These are likely to be rented for some temporary purpose, as was done, for instance, in the case of an establishment putting in a new boiler and in need of a continuous supply of steam meantime. In this instance a large second-hand boiler was rented of a dealer in boilers and machinery and set up in the street and the supply of steam kept unbroken until the new boiler was ready for use.—New York Sun.

How it Hurts

Rheumatism, with its sharp twinges, ache and pains. Do you know the cause? Acid in the blood has accumulated in your joints. The cure is found in Hood's Sarsaparilla, which neutralizes this acid. Thousands write that they have been completely cured of rheumatism by Hood's Sarsaparilla.

Hood's Pills cure nausea, sick headache, biliousness, indigestion. Price 25 cents.

A Word About Pianos.

It is only a question of price that arises when selecting the best piano.

Sixty years of experience tells us that the public more than ever, is tired of the common thump box and wants musical quality in piano tone.

Whilst the NORDHEIMER is the highest grade piano manufactured in Canada, remember it is the cheapest in the long run. Its tone is the sweetest, retaining always that peculiar vocal quality combined with great endurance, which strong reasons have made it the choice of all lovers of the beautiful in music.

Easy terms arranged.

Illustrated booklet mailed free on application.

TORONTO.

CANADIAN GENERAL ELECTRIC COMPANY.

THE LARGE AMOUNT OF WORK WHICH IS BEING TURNED OUT.

Some of the Orders Which Have Been Filled From Peterborough During the Last Month—Work Ahead.

The following items from the Canadian Engineer, referring to the work of the Canadian General Electric Co, will prove interesting, as showing the amount of work now being turned out:

The Department of Railways and Canals has placed an order with the Canadian General Electric Co. for additional apparatus to be used at the Sault Ste. Marie Canal.

The Canadian General Electric Co. is installing for H. A. Lozier & Co., Toronto Junction, one of their 200-light dynamos, with marble panel, and wiring up some 200 incandescent lights, in their new factory.

The Watson Mafg. Co., St. Catharines, Ont. is removing to its new factory at Paris, Ont., and has placed an order with the Canadian General Electric Co. for the wiring up of the factory, and installing a plant to furnish some 250-16 c.p. lamps.

The Canadian General Electric Co. has just received another order from the Montreal Railway Co. for 12 standard G.E. 1,000 railway motors.

The Stanstead Electric Light Co., Stanstead, Que., has recently purchased a 2,000-light single-phase alternator from the Canadian General Electric Co.

The Canadian General Electric Co. has closed a contract with A. S. & W. H. Masterman, Montreal, for a new type multi-polar 300 light generator.

A. Gagnon & Co. Arthabaskaville, Que., have recently installed a new 2000-light single-phase alternator of the Canadian General Electric Co's new type.

The Ottawa Electric Co., Ottawa, has recently added to its arc lighting equipment, one No. 12 125-light Brush arc dynamo, purchased from the Canadian General Electric Co.

The Guelph Light & Power Co. has recently purchased a new 1000 light single-phase alternator from the Canadian General Electric Co., together with marble switchboard panels for the control of two machines.

The R. & O. Navigation Co. has placed an order with the Canadian General Electric Co. for a standard 30-k.w. direct-current generator, to be direct connected to an "Ideal" engine, manufactured by the Goldie & McCulloch Co, of Galt.

The town of Essex, Ont., is to have an incandescent system of electric lighting, C. E. Naylor, of that place, having undertaken the operation of the system, has purchased from the Canadian General Electric Co., a 750-light machine for the purpose.

The Canadian General Electric Co has recently installed for Robertson, Rowland & Co., Walkerton, Ont., a 2,000 light single phase alternator. The company has been operating a 60-k.w. machine of a similar type for the past five years, and has met with great success in the electric lighting.

The corporation of the town of Bothwell, Ont., has awarded a contract to the Canadian General Electric Co. for a 500-light plant to be used for commercial and street lighting purposes. The lighting on the streets will be done by 15 enclosed arc lamps, of the latest type, which will be operated from the same machine.

Corley & Collins, Mount Forest, Ont., have experienced such an increased demand for lighting during the past two months that they were compelled to increase their facilities and have purchased from the Canadian General Electric Co. a standard 1,000 light single-phase alternator, with marble panel switchboard and exciter, to meet these requirements.

N. P. Tanguay, Esq., of Weedon, Quebec, has contracted with the Canadian General Electric Co. for a standard 55-k.w. new type multi-polar generator, and a 35 h.p. motor, together with marble panels and all line material and supplies required for carrying out the transmission of the above power.

The London Electric Co. has placed an order with the Canadian General Electric Co. for another No. 12 4-circuit 125-light Brush arc dynamo, and an additional 300-k.w. revolving field single-phase alternator. When these are installed this company will have one of the most complete lighting stations in Canada.

The steamer "Pro Patria," of Halifax, N. S., is being equipped electrically and for the purpose of lighting the steamer and operating searchlights, an order has been placed with the Canadian General Electric Co. for the complete outfit, which will consist of a standard C. G. E. direct connected equipment, including engine, dynamo, switchboard, searchlight and wiring complete.

Jas. Madden, jr., formerly of Welland, Ont., who recently graduated from the Peterboro works of the Canadian General Electrical works, has been appointed to a position with the Lachine Rapids Hydraulic and Land Company of Montreal, where he has been temporarily located since graduation. His duties are the charge of the switch board of the company and the supervision of the repairs in the company's electrical lines.

The Canadian General Electric Co., has been awarded, by the Department of Railways and Canals, the contract for the erection of a power house, and the complete equipment of the Soulanges canal with electrical apparatus, for operating the locks by means of electric motors. The entire canal, covering a distance of 14 miles, will be illuminated by arc lamps. Owing to the success met with by the Department in the operation of electricity of the canal at Sault St. Marie, Ont., as applied to the locks, it has decided to make a more extensive application of the use of electricity, in the illumination and electrical operation of the locks of the Soulange Canal.

The Canadian General Electric Co. has recently sold to Evans & Hastings, printers, Vancouver, B. C., a 6 k. w. Edison dynamo; to Braid & Co., of Vancouver, B. C., a 10-h.p. motor for use in their spice mills; a 50 light dynamo to be installed in the premises of a customer at Edmonton, N.W.T.; to the Savoy Theatre at Vancouver, a 250 light incandescent lighting dynamo of the multipolar slow speed type; to McKenzie Bros., of Victoria, B. C., a 6-k.w. Edison motor; to the British Columbia Electric Railway Co., to be used in driving the blower apparatus in the power house, a 12-k.w. Edison motor; to Hoffmeister Bros., Vancouver, B. C., a 25-light incandescent lighting dynamo; to J. C. Woodrow, Vancouver, B. C., a 3-k.w. Edison motor, and to Hinton & Co., Vancouver, B. C., to be installed on a steamer navigating Lake Bennett, a 25-light incandescent dynamo.

Gaspesia Drifting Among Ice.

Halifax, N.S., Feb. 15.—A special from Mont Cove, C.B., states that at dark yesterday the steamer Gaspesia had drifted about three miles west from the position in which she was reported early in the day, when she was lying fast in the ice ten miles off Etang du Nord, Magdalene Islands. Before dark yesterday she was showing a three-flag signal, thought to indicate the condition of the ice, as this signal means "general communication." A danger signal would be made with two flags

A CARD.

Mr. Ed. Heintzman, 268 Monroe Ave., N. J., advises all men who are weak and who desire a speedy and perfect cure to write to Dr. Gustav E. Boberts, 263 Woodward Ave., Detroit, Mich.

Brown Immured for Life.

Winnipeg, Feb. 15.—Paul Brown, the negro murderer, was taken to the Manitoba Penitentiary on Thursday by Sheriff Inkster and Mr. John Bell, who has acted as death-watch since Nov. 8. Before Brown's sentence was commuted he gave Mr. Bell his photograph as a mark of his esteem, on the back of which he had written: "Paul Brown, U.S.A.; borned Nov. 8, 1868; going to die Dec. 23, 1898." Brown continues just as happy as ever, and did not seem to at all dislike going back to the penitentiary.

Wants to Abolish Electrocution.

Albany, N.Y., Feb. 15.—Senator Sullivan has introduced a bill amending the penal code by abolishing the death sentence for murder, and providing that a person convicted of murder in the first degree shall be imprisoned for life, and that the sentence for murder in the second degree shall be 10 years.

Silver Plating.

Silver plating neatly, promptly and cheaply done by the Peterborough Lock Manufacturing Company. Ladies' look over your silverware and when you have forks, knives, spoons or any pieces of silverware tarnished or plate worn off, bring it to us and have it nicely done over and made as good as new.—The Peterborough Lock Company. d

THEY ASK EQUAL RIGHTS.

Ontario Cities Demand the Right to Assess Corporations on the Same Basis as All Others.

Toronto, Feb. 16.—The members of the Ontario Cabinet were waited upon yesterday afternoon by a large deputation representing the principal cities and towns in Ontario to urge that legislation be adopted to overcome the present difficulty in assessing the plants of telephone, electric light and street railway companies.

All the members of the Government were present and the deputation was as follows:

Toronto—J. Fullerton, Q.C., R. J. Fleming, Thomas W. White.

Hamilton—Mayor J. B. Testzel, City Solicitor Mackelcan, Ald. Ten Eyck, Ald. Kerr, Ald. Hobson, J. T. Hall, S. H. Kent.

Ottawa—Mayor Payment, Ald. Fipp, Ald. Black, City Solicitor McVity, Assessment Commissioner Pratt.

London—Mayor Wilson, Ald. Hunbull, Ald. Garratt, City Solicitor T. G. Meredith. Ald. O'Meara, Assessment Commissioner Grant.

Kingston—Mayor Dr. Ryan, City Solicitor D. W. McIntyre.

Brantford — Mayor Raymond, Ald. Cockshutt.

St. Catharines—Mayor M. Y. Keating.

Guelph—Mayor Wilson, Ald. Kennedy.

Belleville—Mayor J. W. Johnson.

St. Thomas — Mayor Meehan, R. McCully, W. B. Dougherty.

Stratford—Mayor Hodd, Dr. Eyat.

Barrie—Mayor Wells, W. A. Boys, N. J. Fraleigh.

The following resolution had been adopted at the Queen's Hotel by the deputation before it waited upon the Government:

That in the opinion of this meeting the substructions, poles, wires, rails, cottles, tracks and other property of street railway, telephone, electric light and power, water, gas, telegraph and other such companies should be assessed as real estate, as part of a going concern and that the basis of value thereof should be the same as any real estate owned by a private owner.

That the personal property of all such companies mentioned in the preceding resolution should be subject to assessment the same as personal property of private individuals.

City Solicitor Mackelcan, Hamilton; Mr. Meredith, London; Dr. Ryan, Kingston; Mr. Pratt, Ottawa; Messrs. Fullerton and White, Toronto, and Mayor Johnson, Belleville, all spoke to the resolution, urging that there was no reason why corporations should not be assessed on the same basis as a private individual or a partnership.

In answer to questions by Hon. Mr. Gibson, as to a method of arriving at the basis of valuation for assessment purposes proposed by the deputation, several speakers explained that the value would be estimated on the basis of the original cost, making a due allowance for depreciation in value. Mr. Gibson enquired if the value conferred upon the plant by the charter of a company was to be an element of its assessed value, and Mr. Fullerton and others replied that such was not the intention, but that the value be conferred upon the plants as part of the business in which their owners were engaged—really as part of a going concern.

Hon. Mr. Gibson said the companies would likely advance an argument that the assessment of plant was now greatly in excess of what had been contemplated when they had entered into their agreements with the municipalities. At the time they made such agreements this taxation was not anticipated.

As far as Toronto was concerned, Mr. Fullerton said that, with the exception of a clause providing that the school taxes be paid by the Street Railway Company shall all go to the public schools, there was not one item in any agreement with any of the companies under consideration referring to taxation. He pointed out that no municipality could grant exemption from taxes without special legislation.

The deputation claimed that street cars now exempt as personalty were not so in accordance with the intention of the act and that they should be assessed. In showing the effect of the "scrap iron" decision of the courts, Mr. Fullerton pointed out that prior to the decision the Toronto Railway Company had accepted $6,300 per mile as a fair assessment of its tracks, but by the decision the value had been cut to $900 a mile. Mr. White said the corporations were at present escaping with a seventh or an eighth of what their assessment ought to be. The desire of the deputation was simply that corporations should be assessed the same as anyone else.

Dr. Ryan, Kingston, pointed out the fact that every city in the province was anxious to have the law changed.

Mayor Johnson, Belleville, said it was easy to get at a proper assessment on the property of the Bell Telephone Company, because this company, in its statement, had put the value of its plant and patents at something over $4,000,000. The way would be to assess that and give each municipality its share.

The Premier's Reply.

Hon. Mr. Hardy said he had listened with much interest to the arguments so clearly and lucidly set forth. The Government had promised to hear representatives of the corporations and could not, therefore, give any definite answer today. The points advanced would be carefully considered. In his opinion the present condition of affairs was due, not through any original defect in the law, but from the development of changed conditions.

After the interview with the Government, the deputation held another meeting and a committee consisting of the mayors of each place represented was appointed to follow up the matter. Mayor Raymond of Brantford was appointed chairman and Mr. White secretary. Some other matters of general municipal interest were lightly discussed and a proposition to hold a municipal convention to consider some of the suggestions made was received with favor.

STOCK-TAKING HAS COMMENCED

Will take About Two Weeks to Complete.

As our stock is still heavy in certain lines of Fur Goods, we have decided to **CONTINUE SALE DURING STOCK-TAKING TIME.** This store will be open and help provided to show stock as usual. Prices on these "odd" and "heavy" lines of Furs will be reduced so as to ensure their certain disposal at once.

These are the Furs we find too much of—

Astrachan and Bocharen Lamb Jackets and Coon Coats.
Ladies' Fur Gauntlets.
Men's Fur Caps.
Ladies' Seal and Persian Lamb Caps.
Ladies' Shoulder Capes.
Ladies' Collarettes.
Ladies' Muffs.
A Number of Sable and Mink Scarfs.
Heavy Fur Sleigh Robes.

If you have need of any of the above Fur Goods call on us inside the next two weeks, you will find something of advantage as goods Must be Sold.

WINTER'S RAVAGES ON VITALITY.

Weakens the Body and Invites Various Diseases.

Dodd's Dyspepsia Tablets Make New, Rich Blood, Fresh Strength, and Endurance—They Thus Fortify all Weak Places and Prevent the Entrance of Diseases.

During winter the blood becomes thick, sluggish and weak. It cannot afford sufficient nourishment for the various organs; it circulates much more slowly than it does in the summer, and the body becomes weak, and the health is more easily impaired.

The fatty, heat producing foods we consume during the long winter months tend to increase this condition. They are much more difficult to digest than are the foods we use in summer, and the formation of new rich blood is necessarily much slower.

This is why people are so liable to contract diseases in winter, and require "tonic medicine" in the spring.

By assisting the digestive organs to perform their work promptly, we can hasten the digestion of food, ensure the provision of a full supply of fresh, rich, nourishing blood, and so keep all the organs in perfect health, and the body in perfect strength.

Dodd's Dyspepsia Tablets are the best, most reliable, and most thorough digestive agents known.

They digest the food without the aid of the stomach. They ensure the formation of a full supply of new, rich and nourishing blood.

Every organ thus receives all the nourishment it requires, and is fully capable of doing thoroughly all the work that falls to it share.

Dodd's Dyspepsia Tablets thus keep the body in perfect health and strength. New and healthy tissues are formed just as rapidly as the wear and tear of the system wears out the old ones, and every weak spot is strengthened against the attacks of disease.

Dodd's Dyspepsia Tablets are sold by all druggists at 50 cents a box, six boxes $2.50 or sent on receipt of price, by the Dodd's Medicine Co., Limited, Toronto.

Washing Prints and Ginghams at 5c. yard.

Good Hosery at 15c pair.

TRADING STAMPS GIVEN.

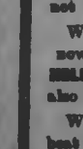
MAJOR RUNDLE'S

Grocery, Provision,

AND FRUIT STORE.

Has removed to no. 448 George street, two doors north of Craigs' Furniture Store.

Everything new, Fresh, Reliable and Cheap. We can afford to make prices very close as our rent and expenses are light. Give me a trial and be convinced. "Rule Britainna".



Lewis Major,

261 Rubidge St. Peterborough.

Painter, Glazier and Kalsominer,

Grainer, Paperhanger, Tinter, Etc.

Estimates furnished. Satisfaction guaranteed. Motto:—Good work at reasonable prices.

A Sudden Drop.

This the time of year to look for a sudden drop in the price of Furs at ALEX MELVILLE & CO'S.

It is not because we have charged too much, here-to-before or because our Furs are out-of-date or any less stylish, but because we are willing to let the remainder of our stock go for less than they are really worth. The end of the season approaches.

At the prices we name they are an investment—none better for your spare money.

Melville & Co.

Successors to Mills Bros.

SPECIAL THIS WEEK.

We are selling the balance of our Children's Hoods and Caps regardless of cost. Also Fur Goods in Children's Ruffs, Collarettes and Muffs below cost.

New Goods just arrived in Corsets—a special line of Corsets at 50c.

New Belt Pins and Belts, hemstitched Initial Handkerchiefs, at 5c.

THE LEGISLATURE

Important Improvements in the Education Law Proposed.

A NEW SUBJECT TO BE ADDED.

Provisions for Instructions in Agriculture in the Public Schools—Mr. Stratton Considers an Able and Effective Speech on the Budget—Discusses a Proposal to Tax Companies.

Toronto, Feb. 17.—The Minister of Education yesterday afternoon introduced his bill to improve the Education Act, which proposes to make several important amendments to the present law. Perhaps the clause of most general interest is that which makes provision for the employment of special instructors who possess the necessary qualifications to give instruction in agriculture in the separate, public and high schools of the province. This course of instruction, which is not to supersede the instruction of the teacher in charge of the school, is to be as far as practicable during the last school period of each afternoon, and shall be open to all residents of the school section or municipality. The law respecting continuation classes is also amended with a view to improving this useful branch of the educational system and making the classes more effective.

The Budget Debate.

Mr. Stratton resumed the debate on the budget, and further discussed the remarks of Mr. Hoyle dealing with education, stating that the ideal advisory board consisted of the Minister of Education, responsible to the House for his actions. Regarding agriculture, the great average was the nearest specific return that could be made. The Minister was doing his duty and farmers still ranked as the foremost producers on the North American continent. The provincial executive compared very favorably regarding cost with New York and other States. The speaker quoted the salary list of the State of New York, as compared with Ontario. The speaker then said the Treasurer was looking about for means to make up the loss of revenue caused by timber regulations. Speaking of raising revenue by succession dues, he said banks, street railways, telegraph, loan companies and corporations should all pay into the revenue of the province, helping to maintain the Government, instead of the municipality. As it was, they endeavored to escape by one means or another even the municipal tax. On their paid-up capital and "rest," financial corporations should be taxed. Dividends would not be interfered with, remaining as at present in the municipalities. The States of the Union also received a direct municipal tax. He went fully into details of revenue of a great many of the States, describing the many different taxes levied; on telephones, banks, telegraphs, insurance, express, occupation tax, and even on lawyers in Texas. Ontario should rejoice that her natural resources rendered her free from these methods. However, the timber policy was one that had met with the approval of everyone throughout the province; it had resulted in a great loss of revenue, which must be made up. He would like to see a little cessation of the bitter party spirit, to consider the development of Ontario's resources. He did not consider the Engledue contract had been discussed on its merits; it promised, as promoted by the Minister of Crown Lands, to be of great benefit to the province; the importance of forestry and reforestry also had been underestimated, and was not discussed on its merits by the Opposition; the same also might be said of the appeal for a small sum of money by the Minister of Agriculture to boom Wabigoon. The appointment of a road commissioner had not been considered seriously enough. The policy should be bigger and greater for the people than formerly, especially on the transportation problem.

No one had any idea of the value of spruce in Ontario. The policy he would adopt, from the pulp to the newspaper, was to manufacture it all in the Province of Ontario. Regarding pulp, England imported 333,404 tons of pulp, costing $9,444,000, of which Canada sent only 28,873 tons. Norway sent to England the greater supply, and there was no reason why we shouldn't supply the British market with pulp as well as cheese. Transportation to the pulp centers would result in manufacturing establishments being run up. Speaking for himself, he would not allow one stick of timber or one pound of pulp to go out of the country unmanufactured. The nickel-steel industry in Canada is booming; England wants out iron; corundum warranted new and extensive steps being taken for development. He should like to see all these interests discussed and settled, not in a party spirit, but from a higher standpoint, in the interests of the people, and the future would surprise not only the House but Canada as well.

Mr. W. A. Kribs, South Waterloo, said he had never heard from the Opposition a more Conservative speech than that uttered by Mr. Stratton. If his ideas were carried out, Conservative principles would be triumphant. He would like to know, however, how the Crown lands deficit was to be made up. The proposed tax on banks and loan companies was a tax on every man in the province, for the companies would not lose. There was $100,000 each year given to incapable registrars which might go for the good of the country, and help make up the deficit. He advised that the Ministers decrease their own salaries.

Mr. Ross' School Bill.

Hon. Mr. Ross' bill for an act to improve the laws respecting public schools passed its first reading. It amends the law with regard to continuation classes by enabling the school corporation to charge fees to all persons attending continuation classes who have completed the course of study prescribed for the fifth form of public schools. The bill also provides that in urban municipalities, where wards have been abolished, the school board may reduce the number of trustees to six, three of whom must retire annually. Other clauses provide for competitive plans for school buildings.

Read a First Time.

Other bills which received their first reading were:

Mr. Kribs—To amend the Registry Act and provide that registrars shall be appointed by the municipal council of the county or city who must hold a certificate equal to a second-class non-professional certificate, receive a salary and make weekly returns of the fees to the municipal treasurer for the fees of the municipality.

Mr. Joynt—To amend the Assessment Act and provide that when there is an appeal from the Court of Revision to the county judge, the appellant shall deposit $20 as security for costs.

Mr. McNish—To amend the Assessment Act by raising the exemption on personal earnings to an income of $1,000 and to lower the qualifications for municipal councillor to owners of property assessed at $1,000 encumbered or not.

License Report.

The provincial license report published yesterday shows a decrease in licenses for sale of all liquors and an increase of wine and beer privileges. The comparison with last year is as follows: Ordinary licenses, 1897, 2,679; 1898, 2,673; beer and wine, 1897, 50; 1898, 53; shop licenses, 1897, 323; 1898, 317; wholesale, 1897, 26; 1898, 22; total, 1897, 3,160; 1898, 3,123. The revenue to the Government in 1897 was $270,906; in 1898, $268,247.40. The fines collected during the year amounted to $15,006.50. Municipalities were given $259,878 of the revenue collected. There were 1,707 commitments for drunkenness, against 1,716 last year, and 1,907 in 1896. The cost of enforcing the law amounted to $63,595.

Horses Drowned—Owner Frozen.

Kingston, Feb. 17.—William Compton, farmer, and a laborer went to cut hay on the Kingston Mills marsh. While there the horse broke through the ice and was drowned. In trying to save the animal Mr. Compton had his hands and feet frozen. He may lose a hand and a foot. He was rescued in a semi-unconscious state and taken to a neighboring farmhouse.

Grip Made Him Crazy.

Kingston, Feb. 17.—A week ago Charles Jordan, aged 30, a barber by trade, was taken to the General Hospital suffering from the effects of la grippe. The disease affected his reason and the hospital authorities were unable to control him. He was yesterday removed to Rockwood Insane Asylum. Jordan has a wife and family and an aged mother who depended upon him for support.

Saved by the Milkman.

Brampton, Feb. 17.—Mr. and Mrs. John Asher were found yesterday morning almost dead from coal gas. As they did not appear in the morning as usual when the milkman came, the neighbors forced an entrance and found the aged couple lying in bed almost at the last gasp. Dr. Moore's efforts at resuscitation availed.

Gorge Road in Trouble.

Buffalo, N.Y., Feb. 17.—The Niagara Falls & Lewiston Railroad Company, otherwise known as the Gorge Road, went into the hands of a receiver yesterday afternoon.

A Sole Leather Pool.

New York, Feb. 17.—All the sole leather interests in the U. S. are to be consolidated with a capital of $30,000,000.

HER PRESIDENT DEAD

France Mourns the Sudden Passing of Her Chief Officer.

STRICKEN DOWN BY APOPLEXY.

The Sudden Summons Came While M. Faure Was at Work in His Study—Last Hours of the Dying President of the French Republic—Anxiety in London Over the Probable Effect.

Paris, Feb. 17.—M. Felix Faure, President of the Republic of France, died at 10 o'clock last night, after an illness of three hours. Apoplexy was the malady.

It had been known for some time that his heart was weak, but the first intimation that he was sick was given at 6.30 yesterday afternoon, when a message was despatched to the Premier, M. Dupuy, announcing that the President was ill. M. Dupuy immediately proceeded to the Elysee. All medical efforts proved futile, and the President died on the stroke of 10.

The flag over the Elysee was immediately lowered to half-mast and the news was despatched to all the officials and the members of the Cabinet. Gen. Zurlinden, Military Governor of Paris, the Grand Chancellor of the Legion of Honor, the prefect of the Seine, the prefect of the police of Paris, and the presidents of the Senate and Chamber of Deputies, promptly arrived at the Elysee. The report spread rapidly through the city and large crowds soon assembled in the vicinity of the palace.

About 6 o'clock M. Faure, who was then in his study, went to the door of the room of M. Le Gall, his private secretary, which is contiguous to the study, and said: "I do not feel well. Come to me."

M. Le Gall immediately went to the President's aid, led him to a sofa and called Gen. Bailloud, general secretary of the President's household; M. Blondel, under private secretary, and Dr. Humbert, who happened to be at the Elysee attending a relative.

The President's condition did not appear dangerous, but Dr. Humbert, on perceiving that he was rapidly getting worse, telephoned for Dr. Lanne-Longue and Dr. Chourlet, who arrived with M. Dupuy and were joined later by M. Bergeroy.

A Touching Scene.

The President was apparently aware of the seriousness of the attack, for he said, "I feel my sense failing me; I am gone, all gone;" and he expressed a desire to see his wife and children.

When Madame Faure and Mademoiselle Lucie Faure entered the room the President exclaimed: "Je suis bien souffrant. Je suis perdu." ("I am suffering greatly. I am lost.")

Meanwhile M. Faure remained on the sofa, repeating that he had no illusions as to the issue of his seizure. His wife came to him and he bade her an affectionate farewell. It was a touching scene. He thanked her for the affection and devotion she had constantly shown him; and then he bade farewell to his daughters, the doctors and his personal attendants, thanking all for their care and devotion and asking them to pardon any hasty words he might ever have uttered.

Though M. Faure still retained consciousness, the doctors soon recognized that the case was hopeless, but it was not until nearly 8 o'clock that the members of the family were informed of the real state of affairs. They then came to the sofa, where the President lay upon a hastily improvised bed. Soon after he began to lose consciousness and, despite all efforts, expired at 10 in the presence of the family and M. Dupuy.

M. Dupuy communicated the sad intelligence to M. Loubet, president of the Senate, M. Paul Deschanel, president of the Chamber of Deputies, the members of the Cabinet and to other high functionaries, after which he addressed the following despatch to all prefects and sub-prefects in France:

"I have the sad task to announce to you the death of the President, which occurred at 10 o'clock this evening as the result of an apoplectic stroke. Kindly take the necessary measures to inform the population immediately of the cause of mourning that has fallen upon the Republic. The Government counts upon your active vigilance at this painful juncture."

It was not until 11 o'clock that the news began to become known to the general public in Paris. From that time began a continuous arrival of public men.

Sketch of His Life.

Felix Francois Faure, President of France, was born in Paris, Jan. 20, 1841, and was quite a self made man. He was a journeyman currier in Touraine for some time, but eventually became a merchant and ship owner at Havre, with which town he specially identified himself. He was deputy mayor there during the Franco-Prussian War, and as captain of the Mobiles of the Seine-Inferieure gained the rank of the Legion of Honor. Elected to the Chamber in '81, he was appointed Under Secretary of State for the Colonies in the Gambetta Administration, formed in November of that year, and held the same office in the Ministries of M. Jules Ferry, '83, M. Brisson, '85, and M. Tirad, '87. In May, '94, he became Minister of Marine in M. Dupuy's Cabinet, and was appointed Vice-President of the Chamber. Naturally his business position at Havre made him an authority on shipping, commercial and colonial questions. On the retirement of M. Casimir Perier in January, '95, he was chosen President by 430 votes as against 361 given to M. Brisson. His popularity had continually increased since then, and the success he gained in his exalted position is undeniable. He went to St. Petersburg in September, '97, to return the visit of the Czar, and while there the definite announcement of the treaty of alliance between France and Russia was made.

RHODES GOING UP.

When Lord Kitchener, after the fall of Khartoum, sent the question to Cecil Rhodes, "When are you coming up?" it was looked upon as a pretty good joke. But it turns out that the idea was not only a mere pleasantry, for Mr. Rhodes is giving his answer. He is going up—by rail—just as soon as he can complete his arrangements.

Mr. Rhodes is now in England in the interest of his scheme to connect Cape Town with Cairo by a line of railroad 5,644 miles. Ten years ago the project would have been laughed at as a dream, just as the scheme to connect the Indian Ocean with Victoria Nyanza by rail was derided. But the Mombasa-Uganda railroad is already far advanced and 2,534 miles of the railroad through Africa from north to south is now in operation. In other words the gap to be filled between the railroad now rapidly pushing south along the line to Omdurman and the completed line from Cape Town to Buluwayo is 3,330 miles. Mr. Rhodes is therefore able to say that about two fifths of the continental railroads is in operation. Furthermore the British Government has sanctioned the extension of the Omdurman line to the Sobat River, 490 miles further south, and the line to Buluwayo is to be pushed north to the Zambesi River as rapidly as possible. The completion of about one half of the proposed railroad is therefore already assured.

Mr. Rhodes' railroad map, which appears in the London Daily Mail, shows that he proposes to extend the line along the Central African plateau, in the main avoiding all tropical forests and mountains, the prevailing character of the country to the Nile Valley being that of a savanna except in the hilly region to the south of Lake Tanganyika, and between Victoria Nyanza and Lake Albert Edward. The line is expected to tap the coal region of the middle Zambesi, the coal and iron districts of the British Central African protectorate further north, pass to the east of Lake Bangweolo and make straight for the south end of Tanganyika. From this point the road must pass for about 700 miles through the Congo State to the west, or German East Africa to the east of the lake, but navigation on the lake is free, and a steamer may for a time form the connecting link between the railroad lines at the south and north ends of the lake. North of Tanganyika the route passes to the east of lakes Kivu, Albert Edward and Albert, and then follows the Nile to the Mediterranean, only leaving the river to cut off the big bends at the Sobat and Abu Hamed. Except in the Tanganyika region the route is wholly in British or Egyptian territory.

Mr. Rhodes' theory is that while the earnings of the road will necessarily be small for the first ten years of its existence, still the resources of the country are very great and the line cannot fail to be a financial success if its existence be assured during the first critical years. No part of the route lies in regions that are not now under effective European control, except in a portion of the Egyptian Soudan to which civilized government is again rapidly extending. The route will therefore be amply protected. Rhodes says he does not need Government funds to build the railroad, but he asks the British Government to guarantee the capital required to make the first extension northward of of 250 miles to enable him to raise money advantageously.

All of Mr. Rhodes business schemes, says the New York Sun, have been on a very large scale, but their results, which have made him the wealthiest and most influential man in Africa, have justified his judgment and faith in the potentialities of the continent. The prospects are that the Cape Town and Cairo Railroad will be built.

It is announced that Cardinal Vaughan has asked for the appointment of a bishop coadjutor, as he finds his duties too heavy for his advancing years. And he has sent the name of an army chaplain to Rome for the approval of the Pope. The spirit of the old war horse is still unbroken and he evidently thinks that a training in the army is a good one for the ministers of the church militant. Cardinal Vaughan, it may not be generally known, was formerly in the army. He entered the 68th regiment as an ensign in 1851, attaining his captaincy in 1855. He sold out in 1859. It is a co. incidence curious or ordinary, according to opinion, that the Archbishop of York, Dr. Maclagan, is also a retired officer of the old Madras Native Army.

RRITAIN'S FOOD SUPPLY.

The British House of Commons Discusses the Question and Incidentally Evinces Much Interest in the Colonies.

London, Feb. 17.—The president of the Board of Trade, the Right Hon. C. T. Ritchie, speaking in the House of Commons yesterday on the amendment proposed by Mr. Henry Seton-Karr, Conservative, to the address to the Queen in reply to the speech from the throne at the opening of Parliament relative to the dependence of Great Britain on foreign imports for food supply, and the danger therefrom in the event of war, said Her Majesty's Government had fully inquired into the existing conditions, and did not believe the fears expressed in some quarters were justified. The Government, however, would be glad if some arrangement could be made by which a large supply of food from the colonies might be received. But, if anything in the nature of protection was necessary in order to obtain this desired effect, he feared that it was not likely to be fulfilled.

Mr. Ritchie added that if a foreign power attempted to prevent the transhipment of grain in time of war, or declared it contraband of war, it would arouse the hostility of the United States and possibly of others. As 50 to 60 per cent. of the grain exports of the United States entered Great Britain, it was not to be supposed for a moment that the United States would "remain quiescent if our enemy declared grain to be contraband of war."

Therefore, according to the president of the Board of Trade, there was no chance of starvation as long as grain can be introduced as freely in war times as in times of peace. The system of bounties upon home-grown grain, he added, was not within the range of practical politics.

News From Manila.

Manila, Feb. 17.—Four companies of volunteers, which had been clearing the country in the vicinity of Pateros, ten miles southeast of Manila, and which had been recalled, were followed by the enemy yesterday as they retired.

On reaching San Pedro Macati, the Americans made a stand near the churchyard, and the rebels were driven back. A gunboat near Pasig is clearing the jungle.

A large body of the enemy, presumably reconnoitering, was discovered on the right of Brigadier-General King's position, near San Pedro Macati, yesterday morning. The entire brigade turned out, and, after an exchange of volleys, the rebels retreated into the jungle and disappeared.

Standard Oil in Germany.

Berlin, Feb. 17.—It is understood that there is now a perfect understanding between the Standard and Russian oil companies. The Russian tankship La Hesbaye has just reached Rotterdam from Batoum, Russia, and the Jenny Reith has arrived at Antwerp, both loaded with oil for the account of the Standard Oil Company. The cargoes will be shipped to Manheim for distribution by the German-American Petroleum Company, a branch of the Ohio concern.

Rios Has Stepped Down.

Madrid, Feb. 17.—Senor Montero Rios, who was president of the Spanish peace commission, has resigned the presidency of the Senate, owing to the popular outcry against his defence of the commission.

All the surviving captains of Spanish warships destroyed in the naval battles of Santiago de Cuba and in Manila Bay by the American fleets will be court-martialled.

British Ultimatum Presented.

Bombay, Feb. 17.—The Persian Gulf mail steamer, which has just arrived here, brings news that a British ultimatum was presented to the Sultan of Oman on Saturday, owing to his having leased to France a coaling station on the coast of Oman, which is a semi-independent state in southeastern Arabia. Oman is considered to be under British protection, as the Sultan has been receiving a subsidy from Great Britain.

Freedom of Trade in Russia.

Moscow, Russia, Feb. 17.—The Government has rejected the petition of the Moscow Board of Trade asking that Governmental restrictions be placed on the operation of foreign investment concerns in Russia.

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring use Dr. Kings New Life Pills. They develop every power of the brain and body. Only 25 cents at any Drug Store.

WHO WANTS A HOME

The undersigned has some Building Lots in a desirable location, within 100 yards of the South Central School; near churches and close to the Canadian General Electric Works He is prepared to build a house and sell it on the monthly payment principle. Call on or address R. SHERRY, 229 Perry St. dw

THE KINETOSCOPE.

The chrysanthemum is utterly beautiful, but it isn't worth a scent.—St. Louis Republic.

Although the people of Paris eat over 14,000 horses every year, they acquire horse sense very slowly, after all.—Baltimore News.

Whenever a Chinese statesman begins to know too much, they chop off the end of him that he uses for knowing purposes.—Denver Post.

A new telegraphic idea transmits 3,000 words a minute. Talking like a streak of lightning is nothing like this.—Philadelphia Times.

The powers are now practically agreed on disarmament. The only detail to be settled is who is to be disarmed.—Baltimore American.

Many steamers are reported lost in the Yukon, but it isn't stated that any of them sank by being overloaded with gold.—Nashville Banner.

The bicycle is almost a solecism in Paris now, and the petroleum tricycle or landau whirs in and out the traffic at 20 miles an hour.—London Mail.

It's 10 to 1 that that barbed wire concern that has consolidated with one or two other plants in the west won't sit on its product when it wants to rest.—Philadelphia Inquirer.

Boston is to have in due time a woman's clubhouse on Beacon Hill. The promoters of the new building have got so far along as to vote to buy a site in that quarter of the city.

Civilization is spreading rapidly in Japan. Peoria has just shipped to that country a trainload of alcohol to be used in the manufacture of smokeless powder and bombs.

The movement "to prevent drafts in theaters" is commendable. Let us also have one to prevent thirsts. Perhaps one to prevent frosts would also be appreciated—by the managers.—New York Tribune.

PHILADELPHIA.

The following are a few facts which would seem to prove that Philadelphia's "slowness" is a matter of recent development, for it was surely in the vanguard of civilization at one time, judging from these statements:

The first law school in America opened in Philadelphia in 1790.

The first American flag was made at 239 Arch street, Philadelphia.

The first American volunteer fire company was organized in Philadelphia in 1736.

Philadelphia is the leading manufacturing city in the United States and the world.

The first medical school in the United States was inaugurated in Philadelphia in 1751.

The mariners' quadrant was invented by Thomas Godfrey in Germantown, Philadelphia, in 1730.

The first coins made in the United States were struck at 29 North Seventh street, Philadelphia.

The Philadelphia waterworks, the first of the kind in the country, were commenced on May 2, 1799.

The first public library in the United States was the Philadelphia, founded by Benjamin Franklin in 1731.

The first expedition fitted out in North America for arctic exploration sailed from Philadelphia on March 4, 1753.

The first school of anatomy in North America was opened by Dr. William Shippen in Philadelphia on Nov. 26, 1762.

The Pennsylvania hospital, the first established in America devoted to the relief of the sick, was chartered by the assembly.

The first lightning rod used in the world was set up by Benjamin Franklin at his dwelling house, on the southeast corner of Second and Race streets, in September, 1752.

THE PAINTERS.

Holman Hunt, the English painter, now 70 years old, has just been elected an honorary member of the Royal Society of British Artists.

Puvis de Chavannes, the dead French painter, received from 7 till 9, walked for an hour, had breakfast and worked the rest of the day without further food.

W. H. Coffin, the artist, has finished for the capitol at Washington his picture of the signing of the treaty between J. Sterling Morton and the Nebraska Indians.

George Hitchcock, the painter, is a graduate of Brown university and a direct descendant of Roger Williams. When he left to study water coloring in England, his parting words were, "If I succeed, I shall not return."

Max Beerbohm, who was one of Aubrey Beardsley's most intimate friends, says that the morbidness in the artist's work reflected only one side of his nature. "With all his affectation," says Beerbohm, "he had that inborn kindliness which is the beginning of all good manners."

So much depends on the purity of the blood that by taking Hood's Sarsaparilla many different diseases are cured.

WAS A NOTED CANADIAN.

The Author of "Chitty on Contracts" Passes Away in London.

London, Feb 16.—The Hon. Joseph William Chitty, a Lord Justice of the Court of Appeal, is dead.

Sir Joseph William Chitty, K.B., one of the Lord Justices of the Court of Appeal, was born in 1828 and educated at Eton and at Oxford. He became a barrister in 1856, Queen's counsel in 1874, and judge in the chancery division of the High Court of Justice in 1881. Since 1897 he has been a Lord Justice of the Court of Appeal. He was three times stroke of the Oxford boat, and married a daughter of Sir Frederick Pollock, first baronet of that name.

THE AMENDMENT DEFEATED.

The Guinea-Pig Motion in the Imperial House Was Defeated.

London, Feb. 16.—In the House of Commons yesterday the debate on the address to the Queen in reply to the speech from the throne at the opening of Parliament, on February 7, was resumed. The amendment introduced by Mr J. Swift MacNeil, Nationalist member for the South Division of Donegal, on the subject of "Guinea pigs in Government" (referring to Ministers who are directors in public companies), was defeated by a vote of 247 to 143.

DON'T TELL ANYBODY.

If no one should tell you about it, you would hardly know there was cod-liver oil in Scott's Emulsion, the taste is so nicely covered. Children like it, and parents don't object.

NEWS IN A NUTSHELL.

Parito, believed to be the last Yaqui Indian in California, is dead at Salinas. He was 108 years old.

Mrs. Wilson, an old lady living near Manitowaning, went to a spring to draw water, accidentally fell, could not rise and was frozen to death.

Thursday fire broke out in the Palace Skating Rink in Paris, Ont., and in a short time reduced the entire building to ashes. The building was insured for $1,100.

Mr. J. B. Saumier of Hull, Que., has just received the sad intelligence that his son Alfred, aged 20, had been frozen to death in the Lake Superior district last week.

Henry Jones, aged 98, one of the best known authorities on whist and other card games, is dead, in London, Eng. He was known as "Cavendish," and was editor of the Card Department of Field.

Sevier Forcier, 100 years of age, and the pioneer settler of northern Wisconsin, is dead at Chippewa Falls, that State. Mr. Forcier went to Chippewa Falls 70 years ago and engaged in lumbering for a number of years. He was born in Montreal in 1799.

VALUABLE Residential Properties FOR SALE In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Containing ten rooms. House in good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containg seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 102 feet square.

Parcel No. 4. Brick residence, corner Wolseley and Benson streets. Two storeys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 102 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases. Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

Medical Advice Free.

We have the exclusive services of some of the most eminent physicians in the United States. Unusual opportunities and long experience eminently fit them for giving you medical advice. Write freely all the particulars in your case. You will receive a prompt reply, without cost.

Address, DR. J. C. AYER, Lowell, Mass.

GRAHAM IS GRAND MASTER.

The A. O. U. W. Grand Lodge Has Finished Its Annual Business.

Toronto, Feb. 17.—The A. O. U. W. Grand Lodge finished business yesterday. G. P. Graham, M.P.P., is Grand Master. District deputies will not be called together for two weeks before grand lodge. Women will not be admitted to membership. Social members were approved of. The grand trustees will be elected annually. Agents of old line insurance companies may retain official positions in grand lodge. In future certificates for $2,000 are not to be issued, and members attaining the age of 70 years are not to be exempt from assessment. Officers of local lodges are requested to file bonds with the grand recorder. Toronto was chosen as the next meeting place.

PECULIAR POISONS

GENERATED IN THE HUMAN BODY.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of death (called by scientists Ptomaines.) are usually the result of imperfect digestion of food, the result of indigestion or dyspepsia.

The stomach, from abuse, weakens, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay), poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain, causing headaches, and pain in the eyes.

Bad digestion weakens the heart, causing palpitation, and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's Disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

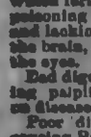
The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and pepsogenic products: the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure any form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized packages or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first. A little book on stomach disease mailed free. Address Stuart Co., Marshall, Mich.

Advertising in THE DAILY EXAMINER brings the best results.



Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other as all Mixtures, pills and imitations are dangerous. Price, No. 1, $1 per box; No. 2, 10 degrees stronger, $3 per box. No. 1 or 2, mailed on receipt of price and two 3-cent stamps. The Cook Company Windsor, Ont. For Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada.

No. and No. 2 Sold in Peterborough by Johnson Hugens Druggists.

NOT ASKING FAVORS.

Position of the Canadian Commissioners Misrepresented.

OUR NORTHWESTERN BOUNDARY

The Main Subject of Discussion at Washington—A Pacific Port—Brighter Prospects for a Settlement—The Question Amenable to Arbitration—Serious Accident to Lord Herschell.

Washington, Feb. 17.—It is an open secret that the northwestern boundary has been the main subject of discussion between the commissioners this week. In fact the American papers have been commenting on the matter as fully as if the discussion had taken place in Congress. Some of them, however, speak as if the Canadian commissioners were asking for a port on the Pacific coast as a concession. The New York Sun yesterday had a despatch referring to the anxiety of Great Britain to obtain such a port. The attitude of the Canadian and British commissioners is not that of persons asking for favors of any kind. On the boundary question they have a well-defined contention, which is so far from that of the American commissioners as to cause a delay in the proceedings of the commission and to give rise to a great crop of reports as to the breaking off of the negotiations. It may be that the matter cannot be settled on a basis of concessions to be agreed upon at the present meeting, and that an arbitration will be necessary. If it be true that the American commissioners want to frame the reference in such a way that the Lynn Canal will not be submitted as an open question, but that American ownership would be regarded as a settled matter, then it is certain that the British and Canadian commissioners will not agree to those terms.

The Canadian Position.

It is only necessary to be on the ground to realize the utter absurdity of the report which represents the Canadian commissioners as running about asking for this concession or the other, or offering to give away Canadian rights. The boundary is not a question like reciprocity. It must be definitely settled at some time or other, and the commissioners are bound to exhaust every reasonable means of settling it at the present meeting or having it referred to arbitration on fair and equitable terms. Yesterday the prospects of such a settlement were said to be brighter, and that means an improvement in the prospect of a treaty of any kind.

Lord Herschell Had a Fall.

Washington, Feb. 17.—Lord Herschell of the joint American-Canadian commission sustained a quite painful injury to his left hip yesterday through a fall on the ice on K street. He was carried to his apartments at the Shoreham Hotel by a passing carriage and has since been confined to his bed. His attending physician does not fear any serious consequences of the fall. The joint high commission was in session yesterday as usual. The members expressed themselves as not discouraged by the outlook.

A GREAT RALLY.

West Huron Politically Alive Just Now—Telling Speeches by Messrs. Tarte and Mulock—The Opposition.

Clinton, Feb. 17.—A grand rally in the interest of Mr. Robert Holmes, the Reform candidate for the West Huron bye-election, was held at the Town Hall here last night. The attendance was very large, every seat being occupied long before the meeting commenced. Many persons were obliged to stand throughout, and quite a number could not gain admittance. The principal speakers were Hon. J. I. Tarte, Hon. William Mulock and Dr. Landerkin, M.P. Every address was carefully followed, and the hearty enthusiasm and applause which greeted the telling arguments of the speakers expressed the approval of the gathering.

The Conservative Meeting.

Goderich, Feb. 17.—Conservative meetings were held last night at the Town Hall here, and at Dungannon and Auburn. The principal speakers were Sir Charles Tupper, Dr. Montague and Mr. Bennett, M.P.

Mr. Robert McLean, the Conservative candidate, also spoke.

A Norther in Jamaica.

Kingston, Jamaica, Feb. 17.—A terrific norther, accompanied by an incessant rain storm, has been causing numerous local floods. The storm swept the northern coast of the island from Annotto Bay to Montego Bay, from Monday to yesterday, doing widespread damage to shipping, wharves, railroads, cattle and cultivation, etc. No fatalities have been reported.

Ottawa University.

Ottawa, Feb. 17.—The construction of a new science building in connection with the University of Ottawa will be commenced as soon as the spring opens. The hall will be fitted up with apparatus, and will be available to any society that may wish to use it.

Killed by a Falling Tree.

Duntroon, Ont., Feb. 18.—About two miles from here on Saturday morning, Mr. Nathan Devine of this village while engaged in chopping wood was instantly killed by a falling tree. The deceased leaves a wife and three children.

Beats the Klondike.

Mr. A. C. Thomas, of Maryaville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any Drug Store. Regular size 50 cents and $1. Guaranteed to Cure or price refunded.

MUNYON'S

I will guarantee that my Rheumatism Cure will relieve lumbago, sciatica and all rheumatic pains in two or three hours, and cure in a few days.

MUNYON.

RHEUMATISM

MARKET REPORTS.

Liverpool Wheat Was Dull, and Chicago May Option Declined to Price for July Delivery—Prices.

Liverpool, Feb. 17.—Wheat futures opened yesterday at a good fractional advance over night, but eased off and closed at about the day before's final figures.

Chicago, Feb. 17.—May wheat opened easy yesterday, recovered half a cent and then broke 1⅛c, closing ⅝c below Wednesday's final figures. The feature of the market was the almost entire disappearance of the premium of May wheat over the July option. The expected crop damage news has not materialized to any extent.

Leading Wheat Markets.

Toronto St. Lawrence Market.

Toronto, Feb. 17.—There was a fairly good market in grain yesterday, with an advance of one cent all round. Straw sold a dollar better than Wednesday. Many more farmers were here than on any day since the cold snap set in, but the demand for first-class produce continues. Sixteen hundred bushels of grain were sold.

Liverpool Markets.

Liverpool, Feb. 17.—The close of the markets yesterday showed the following figures: Spot wheat, dull; red winter, 6s; No. 1 Northern, 5s 11d; No. 1 Cal., 6s 7d; futures, red winter, 5s 7¾d for March and 5s 7½d for May. Maize, steady, 3s 6¾d for new, and 3s 8d for old; futures, quiet, 3s 5½d for March and 3s 5 3-8d for May. Flour, 18s 9d.

A Lean Year in Australia.

Ottawa, Feb. 17.—The Department of Trade and Commerce is in receipt of a discouraging report from Mr. J. S. Larke, commercial agent in Australia. In New South Wales, he says, last year was one of disappointment and another lean year. The wool output will be about the same as last year, but with better prices and a larger area to contribute.

Victoria and South Australia show a wheat surplus of about 15,000,000 bushels. There will probably be no expansion of trade with New South Wales, and South Australian wheat and flour are taking the place of Manitoba.

Kidney-Bladder Trouble.

There is no more serious menaces to good health in the present age than kidney disorders, and it's appaling fact, but a true one, that four-fifths of the country's people have the taint of this insidious disease with them. Dr. Chase's Kidney-Liver Pills cure all kidney diseases.

The Gaspesia Steaming Away.

Halifax, Feb. 16.—Telegraphic advices from Meat Cove, C.B., say the steamer Gaspesia could be seen yesterday morning steaming around the west end of the Magdalene Islands, apparently in loose ice and making good headway. The ice is apt to be more open on the south side of the Magdalene.

He Cut His Throat.

Revelstoke, B.C., Feb. 16.—A man named Cornell, who had a position as chef on the dining car Holyrood, committed suicide yesterday afternoon by cutting his throat with a razor. His home is in Quebec, where his wife and family reside.

"Probably no single drug is employed in nervous diseases with effects so markedly beneficial as those of cod-liver oil."

These are the words of an eminent medical teacher.

Another says: "The hypophosphites are generally acknowledged as valuable nerve tonics."

Both these remedies are combined in Scott's Emulsion. Therefore, take it for nervousness, neuralgia, sciatica, insomnia and brain exhaustion.

50c. and $1.00, all druggists.

Insurance in force		10,000,000

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR.—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000, which matured on the 6th inst. Of the various options you have given me viz.:

Cash value	$1,564 90
Paid-up Policy, payable at my death, for	2,560 00
Yearly Income for life of	166 20

"I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4½ per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the lower ing rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,
(REV.) J. THOMPSON, D. D.
Sarnia, Ont.

J. W. GARVIN,
Manager, Central Ontario.

THE ODORLESS CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

"I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,
JAMES CONWAY.

Shedden, February 28th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long felt want and I believe it will become very popular especially in rural districts, towns and villages where wells are so frequently contaminated by the ordinary closets. I am, yours, etc.
W. H. MORRISON

Medical Superintendent's Office, Sept. 20th, 1897
Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 20 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once, before it has a chance to vitiate the surrounding atmosphere.
Yours truly. JAMES RUSSELL, M.D.

Binbrook, Sept. 30th, 1897.

Dear Sir—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country homes. Yours truly,
M. J. MULLOCK,

ADAM HALL.

A NEW INVENTION

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used, Upright and Square Pianos of the various makes taken in part exchange for the famous **NEWCOMBE PIANOS.** Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

Octavius Newcombe & Co., Toronto.

—THE—

IMPERIAL LIFE INSURANCE CO. OF CANADA.

Seven Cardinal Reasons for Insuring in the Imperial:

1. **It Affords Unquestionable Security** to policy-holders, by its large Capital Stock of $1,000,000, and its Dominion Government Deposit of $250,000, being the largest Government Deposit of any Canadian life insurance company.
2. **Its Policy Reserves** are held on the most stringent basis used in Canadian Actuarial calculation.
3. **Its Policies do not Restrict** the assured in respect to residence, travel or occupation, and are payable immediately on receipt of satisfactory proof of death.
4. **Its Policies cannot be Forfeited** after three annual premiums have been paid, but provide for surrender values by way of cash or paid-up insurance.
5. **The Premium Rates Compare** favorably with those of other insurance companies, and a grace of month is allowed in payment hereof, during which time the policy remains in full force and effect.
6. **Its Policies are Automatically Continued** in force after three years' premiums have been paid, for such time as the whole reserve is sufficient to pay premiums.
7. **Liberal Cash Loans** are granted under policies after three annual premiums have been paid.

McAll Missionary Society.

The annual meeting of the Peterborough Auxiliary of the McAll Missionary Society will be held at the residence of Mr. Jas. Kendry, M. P., on Monday evening, February 20th, at 7.45. Rev. Mr. Symonds will address the meeting and a good musical programme will be provided. The public is cordially invited.

Fortnightly Club.

The next meeting of the Fortnightly Club will be held on Tuesday evening, Feb. 21st. Mr. J. McCaig of the Peterborough Collegiate Institute, will read a very interesting paper on "The Relation of Education to Economic Conditions." A short discussion of the paper will take place after reading. A large attendance of the members of the Club and their friends is looked for. Sheriff Hall will take the chair at eight o'clock.

Don't fail to hear the Lecture by Rev. A. P. McDiarmid, on "India's Needs," beautifully illustrated by lime light views, in the Murray Street Baptist Church, on Monday evening next Feb. 20th. Silver collection.

Got On the Wrong Train.

The Kingston Whig says:—Yesterday D. O. LeGendre, the popular agent of the Crompton corset company, went down to the Peterboro railway station to board a train for Renfrew. Two trains were standing there and by mistake he embarked on the wrong one, with the result that he got off at Kingston instead of Renfrew. Finding himself here, however, though a little surprised at visiting Kingston again so soon, he applied himself to the circumstances and to-day sent in several orders to his firm. Mr. Legendre intends to make another start for Renfrew, but whether he will turn up at that town or some other wayside inn he cannot say. His friends wish him bon voyage.

FROM MAKER TO WEARER

Do you catch the meaning of it?—"From maker"—that's us—we are Wholesale Tailors—"To wearer"—that's you—no middleman in the transaction—the most perfected clothing made to-day—building business on a high quality, selling direct to our customers. CRAFTON & CO., Clothing Manufacturers.

The Financial Secretary, Deputy Marshall and Guard were not installed on account of absence.

PERSONAL

Miss Edith McKee is visiting Miss O'Brien in Millbrook.

Mr. H. S. Greenwood, C. E., is spending a few days in Toronto.

Mr. A. E. Fish, of Belleville, has been in town on business for the last few days.

Miss A. Barlow, of town, took the fancy dress prize at the Campbellford carnival.

Dr. Nimmo is in Toronto attending a meeting of the Ontario Dental Association.

Mr. F. J. Bell, Division Court Clerk, is convalescent after an illness of about ten days.

Mr. Timothy Cavanagh's many friends in town are delighted to see him out again after his serious illness.

Mr. L. Houedry, of Bretagne, France, the well known pea buyer, arrived in Peterborough last night after a stormy sixteen days' passage across the Atlantic. He is quartered, as usual, with mine Host Laroque, at the Montreal House.

Peterborough friends of Mr. Artie Hall, of Orillia, will regret to learn of his recent death. He had many friends amongst the lacrosse boys and always treated them with the greatest courtesy when they registered at the Orillia House.

Rev. Mr. Peer, of Norwood, who was in town yesterday to assist in the welcome to Rev. J. Bastow, the new pastor of the Murray street Baptist church, was practically the representative of the Baptist people of East Peterborough, where as pastor of Norwood, Havelock and Dummer Rev. Mr. Peer has had a large experience and met with great success.

CARD OF THANKS.

To the Editor of the Examiner:

I wish to acknowledge through the Examiner the receipt of $75.00 from the Metropolitan Life Assurance Co., through their Assistant Manager, Mr. Smith in settlement of claim through the death of my daughter.

The amount was paid with a promptitude that is commendable.

Yours truly,
JOHN CRONIN.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Board of trade to-night.

—Young Raymond, the Ottawa bootblack, who was arrested on a charge of vagrancy on Tuesday, was sent on his way rejoicing this morning.

Extensive Consignment.

Indications of spring activity and hopefulness of merchants are already apparent. Among recent arrivals of new goods for spring at the Peterborough Bookstore is an unusually large consignment of ten cases of window shades (2,600 shades). These were purchased at a special price for a large quantity, and will justify the public in looking for specially good value in shades. A very extensive shipment of wall paper is also expected to arrive in a few days at the Peterborough Bookstore, consisting of ten tons of newest designs for 1899. This consignment will arrive in three shipments from the three best factories on the continent.

Have You Had La Grippe?

If so, nature wants a helping hand out of the trouble. Convalescing men and women need a suitable stimulant or tonic to put back the snap that has been taken out of them. For some, a good bodied ale or porter, like Copeland's, is highly recommended. Others are advised to use a fine pink port or sherry wine. While for elderly men pure whiskey is the best. Messrs. Henry & Co, Wine and Liquor Merchants, can supply any of these in well matured condition for medical purposes at moderate prices. Henry & Co.

A WELCOME EXTENDED

To the New Pastor of the Murray Street Baptist Church and his Wife.

An informal reception was held last evening in the Murray street Baptist church, when the members of the congregation were given an opportunity of meeting and welcoming Rev. J. E. Bastow, the new pastor, and Mrs. Bastow.

The preliminary arrangements were taken in hand by the young people and by them the large class room was transformed into a tastefully furnished drawing room for the occasion. Cut flowers and palms were not wanting to lend their pleasing effect to the apartment, which presented a most home-like appearance.

Mrs. (Dr.) Scott introduced every member of the congregation present to Mr. and Mrs. Bastow, personally, and at the conclusion of this ceremony tea was served, the tables being beautifully decorated with cut glass, silver and flowers.

Afterwards the chair was taken by Dr. Scott and Elder Benjamin Matthews welcomed Mr. and Mrs. Bastow not only to the church, but to the homes and hearts of the people. Short addresses of welcome were also delivered by Rev. Mr. Peer, of Norwood; Rev. Mr. Gunton, of Gilmour Memorial Baptist church; Rev. O. C. Elliott, of Park street Baptist church; Mr. John Garbutt, of Smith; Mr. A. J. Baddoo, Mr. G. K. Martin and others.

An informal musical programme of much excellence followed. The choir sang two anthems—"Praise ye the Father" and "Who are these in White Arrayed?" Mrs. Hunter and Miss Hutchinson gave that pretty duet, "In the Tender Gloaming," and Mr. Geo. Matthews rendered the "Viking" in good voice. Mr. G. K. Martin closed the programme with that ever-welcome solo, "The Children's Home." The Doxology brought the reception to a close.

OBITUARY.

The Late John Steele.

The death took place this morning of John Steele, aged 79 years, who was one of Asphodel's first settlers. The deceased was born in Scotland, but came to Canada, and with his parents settled in Asphodel at the age of 14 years, living in that township until four years ago, when he moved to Otonabee to take up residence with his son-in-law Mr. and Mrs. Shearer, Lot 26, Con. 3. For the last year or so he has been ailing, and consequently when he contracted la grippe, he was unable to withstand the insidious attack, and succumbed this morning. Eight children survive, viz., Mrs. Andrew Shearer, Otonabee; Mrs. John Brockey, Jackson, Mich.; Mrs. John Peters, Nebraska; James, of Montana; John of Asphodel; Richard, of Otonabee; Robert, of Montana; and Joseph, of Otonabee. Two children who died previously were Mrs. James Stewart, and Mrs. Thos. Blake of Asphodel.

The funeral takes place on Sunday at 1.30 p. m. from the residence of Mr. Andrew Shearer, Otonabee, to the Westwood Cemetery.

Go to-night and witness the brilliant illumination by ACETYLENE GAS at Mr. Noble's Plumbing and Gas Fitting Store, Simcoe street. The Forsythe Acetylene Machine will be on exhibition and explained by Mr. Bryant as expert representative.

ALL IN WHITE

Was A. W. Cressman's Handsome Store Last Evening.

Something entirely new in the way of openings was conducted by A. W. Cressman last evening, when he invited the ladies of Peterborough to visit his handsome store and view a special display of whitewear.

The store was crowded during the evening, and that the innovation was a complete success was proven by the number of orders which were booked.

A genuine surprise awaited those who visited the premises, as the entire first floor was a symphony in white. The counters, the shelves and the fixtures, the pillars and the gaseliers were all draped in snowy white, and the effect was indescribably pretty.

Lace curtains were tastefully hung above the stair case, and also charmingly arranged around the alcove in the rear, which has been transformed into a ladies' whitewear and corset department.

There seems an unlimited stock to chose from. Not only is there a large number of lines of goods but each line has its different varieties and the range of prices more than suit the times.

In skirts 10 lines are shown with prices from 25c, to $3. Night robes, 18 lines, from 38c, to $3. Corset covers, 14 lines, from 9c, to 1.35. Drawers, 18 lines, from 15c, to $1.50, etc. In every line an effort has been successfully made to have prices that will suit all buyers.

The Ladies' White Wear and Corset Department in the rear of the store has been recently fitted up, and about the 1st of March a still further change will be made in this successful store, when the third story will be handsomely fitted up as a department for carpets, lace curtains, curtain poles, blinds, etc. With his usual care for the comfort of his patrons, Mr. Cressman will have an elevator running to this floor.

The present White Goods Sale will last for 14 days, and all are welcome to visit the store and look around for themselves without the slightest fear of any forced sales being made.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this morning, as well as the highest and lowest yesterday—shade temperature:—

	Highest.	Lowest.
To-day, 7 a. m....		15° above zero
Yesterday.....	40° above	16° above

Is Your Piano in Tune?

Daily Examiner.

FRIDAY, FEBRUARY 17, 1899.

ASHBURNHAM PUBLIC SCHOOL.

Report of the Standing of the Pupils for the Month of January, 1899.

Senior Fourth Class—465 marks.—Ethel Record (honours), 408; May Pollock (passed), 399; Claude Rogers (honours), 391; Helen Stethem (honours), 385; Harry Rogers (honours) 364; Effie Fowler (honours), 357; Alex Gillespie (honours) 357; Gordon Logan (honours), 344; Bruce Gillespie (passed) 343; Howard Bennett, 325; Sid Globs, 296.

Junior Fourth Class—465 marks.—Bertha Telford (honours), 354; Ernest Wylie (honours) 334; Ella Distin (honours), 333; Carl Russell (passed), 308; Carrie Doupe, 303; Carrie Whittaker, 302; Madeleine Stone, 300; Hugh Graham, 295; Alice Revoy, 284; Ida Russell, 277; Emma Williams, 276; Ivan Law (passed), 253; Edna Rogers, 253; Oswald Graham, 250; Luella Armstrong, 249; Clara Craig, 231; Greta Symonds, 216

In the fourth classes "honours" means 70 per cent. of the total and at least one-half marks in each subject. "Pass" means at least 50 per cent. of the total and one-third in each subject. Those not marked as either "honours" or "pass" have failed in one or more subjects.

At the promotion examinations next June the work done by a pupil each month will be taken into account, as well as the marks on the promotion examination. Those who neglect their work until near the end of the term cannot expect to be promoted. This rules applies to all classes in the school.

Sr. 3rd class—Annie Pollock and Willie Distin (equal), John Smith.

Jr. 3rd class—Flossie Wyatt, Hattie Williams, Edna Dobbin.

Sr. 2nd class—Laura Smithson, Hazel Straine, Ethel Pakenham and Gertie Hamilton (equal).

Jr. 2nd class—Ruby Quartermaine, Elsie Pollock, Guy Quartermaine.

Senior Part Second—Fred Wyatt, Annie Hind-, May McCubbin.

Junior Part Second—Percy Hartley, Bert Gillespie, Clara Dodds.

Third Tablet—Arthur Pakenham, Eddie Paterson, Ernest Delaire.

Second Tablet—Pearl Graham, Alex. Hawthorn, John Kerr.

Parents and guardians are urged to see that pupils in their charge attend regularly. Otherwise they have little chance to success.

When a pupil is absent for part of a day or longer, he is expected to bring a note when he returns, stating the cause of absence when he returns, and mentioning exactly for what day or days the note is intended as an excuse.

Any person who knows of any pupils of school age who should be at school, but are absent, will please report their names to any of the teachers or to Mr. Alex. Fitzgerald, truant officer.

What is It?

Catarrhozone is a liquid, fragrant and cleansing, which rapidly volatilizes when inhaled. What is it for? It is an absolute, never-failing cure for catarrh of the throat or nasal passages. Is this true? We are so sure that it will cure you that we will send you, prepaid, a free sample of Catarrhozone and an inhaler if you send your address within one week. Write us.

Our Spring Stock of New Suitings, Trouserings, Overcoatings and Fancy Vestings is now ready for your inspection.

A. Mercer & Co.

OUR COLUMN OF SPORTS.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Going on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

HOCKEY.

The Wellingtons and T. R. C. played a tie game in Toronto last night, each side scoring two goals.

The Guelph Nationals beat out Listowel last night by 7 goals to 3 in the race for the intermediate championship.

Capt. W. Ackerman, on behalf of the Echo Camp hockey club, accepts the challenge of the drug clerks to play a game of hockey at a date to be arranged. Manager Geo. Armstrong had the following in training last night in anticipation of the above game. Jack Gemmell, W Bletcher, W Comstock W Ackerman, (capt) Cline Lelean and others, and they will be in good condition for the game.

We were right in our surmise that the Lindsay players would see nothing of the Frontenacs after the game in Kingston. The Lindsay Post says:—One thing was particularly noticeable—that the Frontenacs, as soon as the game was over slipped away and left the visitors to shift for themselves. One consolation Lindsay rather enjoyed is that the Frontenacs are unpopular in their own city, and especially with the Queen's College boys.

This is the way in which the Telegram describes the Queen—Varsity game. Play started somewhere around 8.45, and Varsity was fighting for a championship. Away they went on their journey, faster and faster, till Curtis placed himself in position and saved his goalkeeper from possible trouble. 'Varsity would not brook resistance, and started down again. Wright had the puck. Two thousand voices called to him to score, while four thousand eyes were working overtime. He didn't score but gave the rubber to Snell, and perhaps he didn't shoot—Like a ball coming out of a cannon, that's all.

But our luck wasn't lasting, and soon after play was resumed Queen's put one in which caught the umpire's eye. Score 1—1 "Things are coming my way," said Waldie when a minute later Carr-Harris came through with the puck and scored. Then Isbister, with a hundred and sixty-five pounds to the good, tied the game and the populace cut loose once more. The puck had hardly been faced before the score stood 3—2 in Queen's favour. It was simply two or three passes and up went the umpire's hand. Hard luck clung to the sweaters of the locals and Queen's got another game, Varsity taking the last before half-time was called.

Men, women and children wept at 5-minute intervals throughout the second half, and the ice was a sea of tears. Try as they might, 'Varsity could not score, while Queen's with the agility of seven Thomas cats, tallied five games. It was U P for Varsity, while Queen's continued to play on velvet, as it were, and did business in from one to ten minutes. Varsity fought hard and were about to score on several different occasions, but the wily Calvinists were too many for them. The match throughout was free from roughness, and both teams were friendly. Varsity hadn't much chance to win the round, and the return match in Kingston is rather doubtful. Queen's has a cracking fine seven, hard to beat, and as fine a looking lot as ever strapped on a skate.

It is not likely that Peterborough will push their protest now that Queen's won out by such a good margin. Varsity beat them on, according to the eastern view, got a draw. Queen's defeated Varsity easily, so it doesn't look as if Peterborough would make a howling success of their game with the Presbyterians.

The Telegram is in error in the last paragraph. Peterborough won from Varsity in Toronto by a score of six goals to one, by rights. This is a better score than nine to three, and Peterborough is going to push that protest, or petition, or whatever you like to call it, just as hard as it knows how.

CAPTAIN CURTIS TALKS.

When seen after the great game at the Rossin House, Captain Curtis told a coterie of admiring friends that Wednesday night's contest would be his last appearance in public competition. He has been playing hockey eight seasons now and football much longer at all times in support of Queen's magic tri-color. Hockey is a hard game and playing in senior company constitutes a rather severe strain. Curtis may possibly play the return match against Varsity or against McGill, but never after that. Talking about hockey, the hero of a hundred fights said the great seven of 1898 finds an equal in last night's line out. Harty is just as good a player as Canada can boast of, according to Curtis' idea. Merrill is the best cover-point in the O.H.A., and though he lacks the stick technique of "Randy" McLennan, is far faster and more accurate in his general work. No one shoots as well as did McKay, but Dalton is always right on the spot for a centre from the sides. Harris is a better man than Brock ever was. This year's forwards get away with snap and play a perfect combination. Of course, said Captain Curtis, weight is essential and and Varsity has always been deficient in this respect. "Darling would do better by breaking through the oncoming forwards starting up the ice than lifting so much, and you will notice Merrill's lifts generally alight where a group of Queen's forwards are ready to prevent a return," affirmed the handsome Queen's captain.

CURLIANA.

All three of the curling ices were occupied last night and some close and exciting games were played. Skip Billy Allen and Skip Whiten had a battle royal. Skip Allen had a lead of five with two more ends to play, and looked a sure winner, but Skip Whiten got four in the next end and one in the last, tieing the score. Another end was played to decide the winner and Skip Whiten was the lucky man. Messrs. H. J. Grassett and L. M. Hayes assayed their first attempt at skipping, and an exciting game resulted, the latter winning out by one point. Skips Dr. Boucher and J. Jeffries had a close game until the doctor secured a five end towards the finish, which gave him the match. The scores were as follows:

RINK NO. 1.

J A Aylmer,	K Hall,
H A Morrow,	J H Burnham,
Geo Giroux,	Dr Burnham, jr
W L Allen, skip 14	G E Whiten, skip....15

RINK NO. 2.

F C Napier,	H R H Kenner,
A G Parker,	Geo Edmison,
Geo Morrow,	Judge Weller,
H J Grassett, skip...13	L M Hayes, skip.....12

RINK NO. 3.

W J McCallum,	J Salisbury,
Alf Terrill,	E H D Hall,
A McNeil,	D Bellegham,
Dr Boucher, skip...13	J Jeffries, skip.....8

ICE RACES.

The annual winter races of the Lindsay Driving Club will be held on Wednesday and Thursday, February 22 and 23. The bill is: First day—3 minute class, purse $100; 2.30 class, purse $100. Second day—Fast named race, purse $100; free-for-all, purse $100. All events open to starters and pacers, and entries close next Monday.

A LAY OF THE LINKS.

It's up and away from our work to-day,
For the brown sweeps over the down;
And it's hey for a game where the gorse blossoms flame,
And the bracken is browning to brown.
With the turf 'neath our tread and the blue overhead,
And the song of the lark in the whin;
Here's the flag and the green, with the bunkers between—
Now, will you be over or in?

The doctor may come, and we'll teach him to know
A lie where no tannin can lurk;
The soldier may come and we'll promise to show
Some hazards a soldier may shirk;
The statesman may joke as he tops every stroke,
That at last he is high in his aims,
And the clubman will stand with a club in his hand
That is worth every club in St. James'.

The palm and the leather come rarely together,
Gripping the driver's haft,
And it's good to feel the jar of the steel
And the spring of the hickory shaft.
Why trouble or seek for the praise of a clique—
A cleek here is common to all;
And the lie that might sting is a very small thing
When compared with the lie of the ball.

Come youth and come age, from the study or stage,
From bar and from bench—high and low!
A green you must use as a cure for the blues..
You drive them away as you go.
We're outward bound, on a long, long round,
And it's time to be up and away.
If worry and sorrow come back with the morrow.
At least we'll be happy to-day.

—A. Conan Doyle's "Songs of Action."

NEW INDUSTRIES.

To the Editor of The Examiner:

Dear Sir,—Having heard a good deal about manufacturers coming to Peterborough, the Rubber Co., the Stanley Piano Co., and others, and being interested in seeing our town expanding and growing, having a number of houses the income from which through low rent and vacancy is now very small, I felt inquisitive enough to make inquiries as to the chances of these companies locating here.

I find that the Rubber Company has not yet decided, but that Peterborough's chances are fair. As to the Piano Company, I am pleased to have the assurance of the President of the company, Mr. A. L. Davis, that it has definitely decided to come to Peterborough, and as soon as the frost is out of the ground a modern factory will be erected by the company.

Now that the Stanley Piano is going to be a Peterborough industry, giving employment to a large number of hands, and circulating its money here, I am sure that the good sense of our citizens will be so exercised as to help as far as possible and make more rapid the success which this company has, I believe, already achieved. If any of our citizens are thinking of buying a piano, why not wait until they see the Stanley? If they are visiting friends in another town let them talk up the Stanley and do their part as citizens of Peterborough in assisting to build up an industry that has proven so valuable in other towns were similar factories are located, and I have no doubt that in a comparatively short time the Stanley Piano Works will be a hive of industry, employing hundred of hands and a manufacturing establishment of which we shall all feel proud.

CITIZEN.

We have much pleasure in printing the above letter. It is an indication that the conditions Peterborough so earnestly desires, and so far as facilities are concerned, deserves, is beginning to be realized. It is to be hoped that the citizens will heed the request of the letter and stand by and uphold a local concern by following the principle of encouraging home industries. The Mayor and Council have been active in promoting the town's interest as represented by their efforts to secure new industries and it is to be hoped that the success will meet the attempts to get available power. With power to offer to manufacturing establishments desiring a first class location, the chief problem would be solved. Our railway facilities are unsurpassed and if this one condition were added there is no doubt that with a continuation of the energy shown by the council our manufacturing industries will receive important additions.]—EDITOR EXAMINER.

Worth Trying If Sick

A verified record—1,016 cured in one month by Dr. Chase's Family Remedies. All dealers sell and recommend them.

ENGLAND IN EGYPT.

There was a good attendance and a lively interest manifested in the debating club at the Y.M.C.A. last evening. Mr. Fred Ray presided.

Mr. G. H. Bell presented a very comprehensive and well written paper on "England in Egypt." The discussion of the same was sustained by a number of brief addresses. These, together with a number of questions ably announced, brought forward much information regarding Egypt and British occupation of it. The programme for the next two evenings is as follows:

February 23—Debate, "Is war justifiable?" Affirmative, Messrs. W. H. Collier and J. Brumwell; negative, Messrs. W H Hill and C Anderson.

March 5—Lecture by Rev. H. Symonds. Subject—"Civic Ideals."

His Life Was Saved

M. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1.00, at any Drug Store, every bottle guaranteed.

NEW GOODS.

China Hall has received this week heavy shipments of New Goods direct from the best makers, which will be placed in stock at prices that defy Competition. Visit the Store often and see the new goods as they arrive. No one asked to buy.

THE OWL

Ain't much of a talker, but he is a dence of a thinker. He is wondering now how we make Collars and Cuffs with smooth edges.

PETERBORO' STEAM LAUNDRY

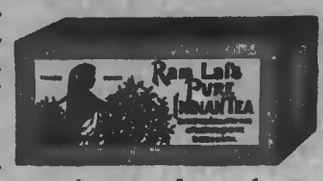
A. PARKER.

Good Value in Tea

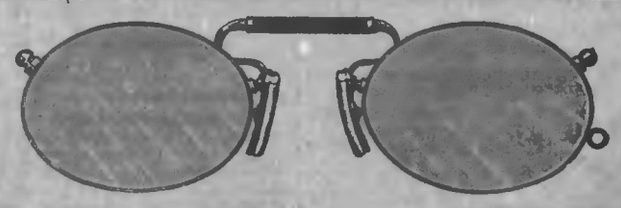
is measured by

Strength and Quality.

Where is the economy in buying a 25 cent tea and then using three times the quantity that would be required of Ram Lal's Pure Indian Tea. You can't get a good quality of liquor out of a cheap tea no matter how much of it you use. You may get a strong bitter taste but not the delicate flavor and fragrant aroma that comes only from the tender leaves. Ram Lal's Tea is grown under European supervision. The tea is manufactured on the gardens in India and comes in sealed packets with all the strength and freshness retained.



Ram Lal's Tea is a Pure Indian Blend and does not "go off" in quality.



Perfect-Fitting EYE-GLASSES SPECTACLES.

The importance of Perfect-Fitting Spectacles and Eye Glasses is seldom realized until after an experience with a badly-fitting pair.

Your lenses should be carefully tested and selected and mounted in a frame that is especially adapted to your eyes and the shape of the face.

We give particular attention to this important part of the Optician's business.

YOUR HEALTH AND YOUR EYES.

Madill's Emulsion of Cod Liver Oil is recommended as a safe remedy for failing health. It increases flesh and weight, makes richer blood, brings colour to the cheeks and stronger muscles to the limbs. 40c. and 75c. a Bottle. Prepared only by—

WM. MADILL, CHEMIST AND OPTICIAN.

CHANDOS COUNCIL.

Minutes of Meeting Held at Foster's School House.

Council met on Jan. 31st, 1899, the reeve and all the councillors present. Minutes of last meeting read and approved.

Moved by Messrs D. Campbell and John Hales, that Bylaw No. 23 be and is hereby rescided, and that the running at large of all animals be governed by act contained in R.S.O., 1897.—Carried.

Moved by J. Hales and John Bullied, that Mr. John Young's application for money on road be referred to Roads and Committee.—Carried.

Moved by D. Campbell and W. Rosebush, that Mr. Hoard's application for change of road across his lot be laid over until next meeting, to give council an opportunity to correspond with Mr. Andersen re crossing his lot.—Carried.

It was moved by John Hales, seconded by W. Rosebush, that Mr. John Young be given his statute labour for the years 1899, 1900, 1901 for the purpose of building a road for himself to lot No. 5, con. 10.

Moved by Messrs. Campbell and Bullied that the collector's time be extended to June 1st, 1899, and that he be paid a further sum of $20, also $2.50 postage, for the collection of the balance of taxes due the municipality.—Carried.

Committee of Finance beg leave to advise payment of accounts as follows:—R. Steen, rebate of taxes, 30c; Dr. Caldwell, salary for quarter ending March 31st, $10. H. Trickey, roadwork, $1. On motion of Messrs. Campbell and Rosebush, the report was adopted.

Moved by Messrs. Hales and Campbell that the council memoralize the C. P. R. Co. re extending railway from Norwood via. Warsaw northwards through Methuen and Chandos townships.—Carried.

Moved by Messrs. Hales and Campbell that the report of the Committee on Appointments be adopted and that a bylaw be passed in accordance with the same.—Carried.

Meeting adjourned to meet at Post's school house at call of reeve.

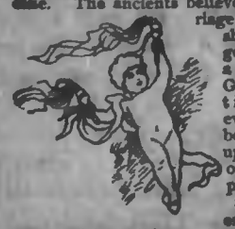
D. BELLEGHEM

ISSUER OF MARRIAGE LICENSES

Hunter Street, Peterborough.

OPPER—FURNITURE WAREROOM

In the mythology of Ancient Greece Hymen, the god of marriage, was the half brother of Esculapius, the god of medicine. The ancients believed that marriage and health should go together, and as a result the Greeks of that time have ever since been looked upon as types of physical perfection.



Sickly mothers cannot bear healthy children. The prospective mother should use every precaution to preserve and foster her health. Not alone for the sake of the little one to come but for her own sake. A perfectly healthy woman is in no danger and in very little pain at her time of trial.

There must be due preparation for this time. Nature makes the preparatory period three-fourths of a year and women who take the hint from nature and use the time properly need have no fears of the outcome. Dr. Pierce's Favorite Prescription is a medicine designed to cure all distinctly feminine ailments and taken during the period of gestation it renders childbirth easy, safe and comparatively painless.

It is the invention of Dr. R. V. Pierce, of Buffalo, N. Y., a regularly graduated physician and skilled specialist in the cure of all diseases of woman.

Mrs. Orrin Silles, of Downing, Dunn Co., Wis., writes: "I cannot praise your 'Favorite Prescription' enough, for I have not been as well for five years as I now am. In July last I had a baby boy, weight 11 lbs. I was only sick a short time, and since I got up have not had one sick day."

Sick women can consult Dr. Pierce by letter free of charge. Every letter is held strictly private and sacredly confidential.

Designing *men* work on women's feelings, by advising women to "write to a woman who understands woman's needs." It is useless to seek advice about disease of any woman who is not a physician. So far as known no qualified woman physician is connected with any proprietary medicine establishment.

THE COUNTING HABIT.

Why the Man Wanted a Clock That Did Not Strike.

"Does it strike?" asked the man who was buying a clock.

"Certainly," replied the salesman. "It"—

"Take it away," broke in the intending purchaser.

"It has a very soft, musical tone," urged the salesman. "Nothing loud or brassy about it, you know."

"Can't help it. I don't want anything that strikes."

"Nearly all the handsome parlor clocks are made to strike," persisted the salesman, "but of course you needn't wind up the striking part."

"Ah! That's different," said the intending purchaser. "Let me look at it again. You see, the trouble with me is that I have acquired the counting habit. Did you ever acquire the counting habit?"

The salesman didn't think he had, but as he didn't know just what the counting habit was he wasn't sure.

"I don't know just how I acquired it," explained the intending purchaser, "but I presume at some time that I don't recall distinctly how I had to rely upon a clock striking the hour to know the time. It takes very little to fasten a habit upon one, and in a short time I found myself doing it mechanically. No matter where I was or what I was doing, the moment a clock began to strike I would begin to count the strokes. In fact, I would have counted three or four before I became conscious of what I was doing, and I would have to keep it up to the end. I tried to break myself of it, but it was no use. I would wake up in the night counting the strokes. When in conversation, I would stop in the middle of a sentence, if the clock began to strike. It would even interfere with my thoughts if I were alone in the room. So long as a clock is striking it claims my attention, and I can break away from it only by a supreme and most apparent effort. It's not that I want to know the time—it's merely habit. That's why I want a clock that doesn't strike."

A Substantial Gain.

"I was very weak and hardly able to walk. My blood was thin and I was as pale as death.

Being told about Hood's Sarsaparilla I began taking it and in a few months I had gained twenty pounds in weight. I kept on with it until I was as well as ever." Arthur Mills, Dresden, Ontario.

Hood's Pills cure nausea, headache.

Bill Blue of Engine Two.

William *Blue* was an engineer in the employ of one of the trunk railway lines in this state. One of his duties was to haul the through freight over the western division, and his pet engine was No. 2. One night he had an accident. One of the flues in the boiler of his pet blew out, and he was stalled, blocking the main line. He reported the matter to the division superintendent, unwittingly, as follows:

Engine two blew out a flue. What'll I do?
BILL BLUE.

Then he sat down to await instructions. This is what came over the wires from the superintendent's office about 20 minutes later:

BILL BLUE—You plug that flue in engine two and pull her through in time to get out of the way of twenty-two.

This order is stuck up in the cab of engine two.

Red Hot From The Gun.

Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment help ed for 35 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25 cents a box. Cures guaranteed. Sold by all druggists.

LETTERS THAT NEVER CAME.

They Changed the Currents of Two Happy Lives.

The miscarrying of mail has been a convenient peg to hang romances on since the mails began. Most of them, like all other romances, of course, have their foundation on facts—facts like the following, for instance:

They met in the west one summer. Conditions were favorable, and they saw a deal of each other. The unconventionalities of travel brought them very near together and propinquity did the usual thing. They loved easily, for they were young, and both were well worth loving. When they parted, no vows had been exchanged, but they understood each other and felt that the vows would come naturally. They said goodby unsuspectingly, trustfully, with promises to write and to exchange photographs. That was all, but it was enough to build two lives on.

She went her way, he went his. One, two, three, four years passed. Then she heard he was married. Many years after they met, quite by chance, as we say, in a distant city. She had kept up with his life, with his work in the world, with the growth of his family. She had done this, being a woman. He knew nothing of her, but the meeting was very dear to both. They met as old friends meet and talked of old days as friends talk. At last, when he was leaving, she, being the braver, said to him:

"Our lives are settled now—you are happy in your family. I am happy in my work. The past can mean very little to either of us, so will you mind telling me why you never wrote; why you never sent your photograph?"

He looked into her eyes a long time without speaking; then he said:

"Will you mind telling me why you never sent yours?"

"I did send it," she said.

"And I sent mine, and a letter."

"I never got them," she said.

"Nor I yours." He paused a moment. "You know I loved you."

"And I you," she said gently. "Goodby."

"Goodby."

And in that moment was almost the wrong of fate righted.

But how many there are which may not be righted!

IN THE HOUSE OF COMMONS.

Distinctions Between Words Parliamentary and Unparliamentary.

Probably the most difficult and unpleasant of the duties which the speaker of the house of commons is called upon to discharge is that of deciding whether an offensive personal allusion to a member, in the course of debate, is or is not a breach of parliamentary decorum. There is no definite rule or order to guide the speaker in this delicate matter. The decision is left entirely to his own taste and discretion. But there has always been a rather curious distinction drawn between remarks that reflect adversely on a member as a man and on a member as a politician. According to well established precedents, the former are in all cases considered unparliamentary, while the latter rarely meet with a reprimand from the speaker.

Illustrations of both categories of personal allusions and the light in which they are regarded by the occupant of the chair were afforded one night in the session of 1896, during the debate on the new rule of procedure in regard to supply. The expressions were applied to a prominent member of the opposition and to the leader of the house. It was said of the former that he had been "a monumental instance of inconsistency throughout his political life."

Here we have an allusion to a member as a politician. It was met with cries of "Order, order!" and "Withdraw, withdraw!" from the occupants of the opposition benches, but Mr. Speaker Gully stopped the interruption by saying, "The honorable member has not used any unparliamentary language." Later on in the debate the leader of the house was told that "by a subterfuge" he was "going to palm upon the house a resolution." "That," said the speaker, "is hardly proper language to use." The word "subterfuge" was withdrawn by the offending member, and amid laughter "misapprehension" was substituted in its place.—Nineteenth Century

MR. HOUSE, OF BERLIN

Cured of Lumbago by Dodd's Kidney Pills.

Berlin Feb. 13.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past. Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Back ache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

NEW YORK AND CHICAGO.

Greater New York has a population of about 3,000,000, or only half as many more as Chicago.

Greater New York's budget for 1899 allows $98,590,059 for all departments.

Chicago's budget for 1898-9 allows $15,999,557 for all departments.

Greater New York appropriates $11,797,596 for police.

Chicago appropriates $3,950,000 for police.

Greater New York appropriates $4,575,000 for street cleaning.

Chicago appropriates less than $1,500,000 for its entire public works department.

Greater New York appropriates $4,448,884 for its fire department.

Chicago appropriates less than $1,450,000 for the most efficient fire department on earth, in which alone of all our city departments the merit system rules supreme.

Greater New York will have to raise $68,320,000 by taxation next year.

For municipal and school purposes Chicago will raise only $13,165,817. By taxation for civic purposes exclusively we can easily raise $4,501,817.—Chicago Post.

Children Cry for
CASTORIA.

Dr. A. W. CHASE

COMES TO THE AID OF

Catarrh Sufferers

SUCCESS in life is almost impossible for a man with bad breath. Nobody wants to do business with him. Nobody wants to associate with him. He is handicapped everywhere. Offensive breath comes from Catarrh; sometimes from Catarrh of the Stomach, sometimes of the lungs, sometimes of the head, nose, and throat. It is from Catarrh somewhere, and Catarrh is another name for uncleanness.

Many men understand this, and make every effort to cure it, but it is beyond the reach of ordinary practice.

No self-respecting man can ignore Catarrh. If he has it in any form he makes constant effort to be rid of it.

There is something about the manner of life and the climate of Canada that seems to breed diseases of the mucous membrane. Medical science ordinarily doesn't try to cure Catarrh; it "relieves" it; but Dr. Chase has been curing Catarrh for over thirty years, and his name is blessed by thousands who have shaken off the grasp of this insidious disease.

Sold by all dealers, price 25 cents per box, blower free.

OVERCOATS AT SANTIAGO.

Temperature of 55 Degrees Made People Fear Being Frozen.

Santiago de Cuba, Feb. 16.—A heavy northern wind began blowing yesterday, rain ceased falling, the thermometer registered 55 degrees and overcoats were worn on the streets during the early morning, practically an unknown sight in Santiago.

Colon Suffers Also.

Colon, Colombia, Feb. 16.—A norther is blowing, high seas are running and all the steamers have left their wharves. The shipping business is temporarily suspended.

Coal Famine in Virginia.

Charlestown, Jefferson County, Virginia, Feb. 16.—A coal famine exists here. Families are moving together to keep from freezing. The snow is three feet deep on the level.

The Ontario Dentists.

Toronto, Feb. 16.—The feature of yesterday's meeting of the Ontario Dental Society was the talk on "Orthodontia and Development of Esthetic Facial Contours," by Dr. Calvin S. Case of Chicago. Dr. Case illustrated his lecture by maps and plaster paris casts of faces and teeth. He stated that the treatment must be regulated by the relation of the teeth to the features, and explained the characteristics of each of his cases and the cure.

In the afternoon Dr. A. E. Webster of Collingwood read a paper on "The Technique of Cavity Preparation."

Dr. Mark Mollhinney of Ottawa read a paper on "Incidents in Office Practice."

The election of officers for the ensuing year resulted as follows:

President, Dr. J. M. Brimacombe, Bowmanville; vice-president, Dr. W. Cecil Trotter, Toronto; secretary, Dr. J. E. Wilkinson, Toronto; treasurer, Dr. C. E. Klotz, St. Catharines; superintendent of clinics, Dr. H. R. Abbott, London. An executive committee of one man from each district.

General as Napoleon.

In the late thirties and early forties a favorite spectacular play at Astley's in London was "The Battle of Waterloo," in which an actor named Gomersal gained renown as Napoleon Bonaparte. His imitation of the emperor was so lifelike that the great Duke of Wellington invited him to Apsley House, and the interview affords an amusing illustration of the actor's close conscientiousness in attention to the most minute detail. After complimenting his guest the duke remarked:

"I observe, Mr. Gomersal, that you do not use a snuffbox in the part, but make the emperor take his snuff loose from his waistcoat pocket. Permit me to enable you to supply the omission." And his grace presented the actor with a very handsome silver "tabatiere."

Gomersal pocketed the casket and stomached the criticism in silence, but when he reached home he wrote to the conqueror of Waterloo and respectfully pointed out that the omission was of set purpose and absolutely true to history, "Boney" being in the habit of dispensing with a snuffbox and taking the powder loose from his waistcoat pocket, which he had made lined with chamois leather for that purpose.—New York Times.

Grand Trunk Engineer Swears by Dr. Chase's Kidney-Liver Pills.

Mr. Geo. Cummings, for over twenty years engineer on Grand Trunk running between Toronto and Allandale, says:—"The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommend by my fireman, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me an I feel to-day a better man than ever. I recommend them to all my friends.

No Customs Annoyances

If you purchase your ticket via the CANADIAN PACIFIC to the Canadian North-West, Kootenay, Cariboo and British Columbia points, you will avoid the trouble of bonding your baggage and customs house annoyances.

First-Class and Tourist Sleeper run through to the Pacific Coast.

C. E. McPHERSON,
A.G.P.A., Toronto.

BRITAIN PROTESTS.

Salisbury Takes Exception to Italy's African Cession to France.

London, Feb. 16.—Lord Salisbury has sent a formal protest to the French and Italian Governments against the agreement whereby Italy ceded a part of the Raheita coast in East Africa to France.

Under the Anglo-Egyptian convention of 1888, Italy was forbidden to fortify that part of the African coast. France asserts that she is not bound by the terms of this convention, and now proposes to raise earthworks and fortifications to counter-check the British forts on the Island of Perim.

A Shot From Tolstoi.

London, Feb. 16.—The Daily Chronicle publishes a letter yesterday from Count Leo Tolstoi, the celebrated Russian philosopher and reformer, condemning the conference proposed by Emperor Nicholas for the limitation of armaments as "only worthy of contempt and derision."

Count Tolstoi says: "It will be impossible to reduce armaments while nations not only persist in acquiring new possessions like the Philippines, Port Arthur and the rest, but also keep what they have acquired, like Poland, India, Alsace-Lorraine and the rest."

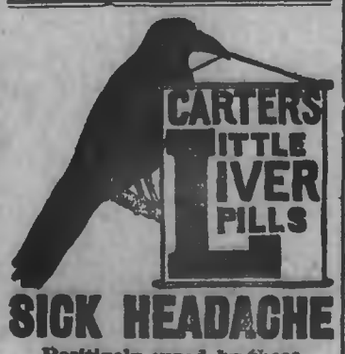
Prince Alfred Was a Suicide.

London, Feb. 16.—It is now definitely known that Prince Alfred of Saxe-Cobourg, grandson of Queen Victoria and son of the Duke of Edinburgh, committed suicide at Meran, Austria, whither he had been taken from Berlin, and placed in a private sanitarium. The cause of the Prince's removal from Berlin was a gambling scandal, compromising him gravely. He shot himself in the head, the wound proving fatal after several days. It was given out by his family that the Prince was suffering from brain trouble.

Grand A.O.U.W. Meeting.

Toronto, Feb. 16.—Four hundred delegates attended the 21st annual meeting of the Grand Lodge of the A.O.U.W. yesterday. George P. Graham, M.P.P. of Brockville, G.M.W., assisted by F. W. Unitt, P.M.W., conferred the Grand Lodge degree on about 250 delegates.

The stand taken by the Grand Lodge of Ontario regarding provincial and foreign jurisprudence was approved, and Messrs. George P. Graham, M. D. Casder, Fred. W. Unitt, F. G. Inwood and T. A. Hastings were appointed to procure a new charter for Ontario.



SICK HEADACHE

Positively cured by these Little Pills.

AFRAID SHE WOULD LOSE HER BOY.

He was wasting away with a terrible Cough. Dr. Wood's Norway Pine Syrup cured the Cough and restored his health.

It takes the life out of a mother to see her child—the idol of her heart—slipping away, succumbing to a cruel Cough that all the remedies she has tried won't cure.

Mrs. Jasper Singer of Burgessville, Ont., went through a trying experience and gladly gives an account of it for the benefit of Canadian mothers. This is what she says: "My little boy of a year and four months old took down with a heavy cold last fall. I tried different medicines but they did no good. He got so thin he was nothing but bones and hardly ate anything.

"I thought quite a few times I would lose him, till I tried Dr. Wood's Norway Pine Syrup. The first bottle helped him wonderfully and the third bottle completed the cure.

"I would advise all mothers to give their little ones Dr. Wood's Norway Pine Syrup as it is so pleasant to take and so effectual." Price 25c. All dealers.

INCALCULABLE GOOD,

AN EXPRESSION OF FAITH.

Dr. Ward's Blood and Nerve Pills have done me an incalculable amount of good. I think they are the best, surest and quickest acting cure for nervousness, unhealthy action of the heart, insomnia or sleeplessness, anemia or impoverished blood, loss of appetite, general debility and ill-health. For nine years, before I commenced taking Dr. Ward's Blood and Nerve Pills, my heart was weak and in an unhealthy state. Its action was so much impaired that I could not walk across the street without suffering great distress, my heart fluttering and beating so rapidly that I could scarcely breathe, causing faintness, loss of strength, and leaving my nerves all unstrung. My sleep was very much disturbed, I had no appetite and there was little strength or vitality in my blood; I was always excessively nervous.

I have now taken three boxes of Dr. Ward's Blood and Nerve Pills and since taking them I have not been away from my business an hour. Before taking these pills it was a frequent occurrence for me to be away from business. As a result of taking Dr. Ward's Pills my heart is perfectly healthy and strong and gives me no distress or trouble whatever. They removed all nerve trouble, made my nerves strong and gave me healthy sleep. These pills also made my blood rich and strong and gave me a healthy appetite. Dr. Ward's Pills have given me perfect health, restoring my lost strength, in place of continual ill-health, weakness, heart trouble and nervousness. In justice I cannot speak too highly of this wonderful medicine. Signed, Miss N. Millward, Walton St., Port Hope, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00 at druggists, or mailed on receipt of price by THE DOCTOR WARD CO. Limited, 71 Victoria Street, Toronto. Book of information free.

THE SIERRA BEAR.

He Eats Everything From an Insect to a Mountaineer's Bed.

In this happy land no famine comes nigh the sierra bear, says John Muir in The Atlantic. All the year round his bread is sure, for some of the thousand kinds that he likes are always in season and accessible, ranged on the shelves of the mountains like stores in a pantry. From one to the other, from climate to climate, up and down he climbs, feasting on each in turn, enjoying as great variety as if he traveled to faroff countries north and south. To him, almost everything is food except granite. Every tree helps to feed him and every bush and herb, with fruits and flowers, leaves and bark and almost everything living or dead within reach, animals and insects—badgers, gophers, ground squirrels, lizards, snakes, etc., and ants, bees, wasps, old and young, together with their eggs and larvæ and their moss, grass and paper nests. Crunched and hashed, down all go to his marvelous stomach, and vanish as if cast into a fire.

What digestion! A sheep or wounded deer or a pig he eats warm about as quickly as a boy eats a buttered muffin, or, should the meat be a month old, it still is welcomed with tremendous relish. After so gross a meal as this perhaps the next will be strawberries and clover or raspberries, with mushrooms and nuts or puckery acorns and choke cherries. And, as if fearing that anything eatable in all his dominions should escape being eaten, he breaks into cabins to look after sugar, dried apples, bacon, etc., and if still hungry he eats the mountaineer's bed, but when he has had a full meal of more tempting dainties he usually leaves it undisturbed, though he has been known to drag it up through a hole in the roof, carry it to the foot of a tree and lie down on it to enjoy a siesta.

Eating everything, never is he himself eaten except by man, and man alone is an enemy to be feared. "B'ar meat," said a hunter from whom I was seeking information—"b'ar meat is the best meat in the mountains. Their skins make the best beds and their grease the best butter. Biscuit shortened with b'ar grease goes as far as beans; a man will walk all day on a couple of them biscuits."

All forms of scrofula, sores, boils, pimples and eruptions, are quickly and permanently cured by Hood's Sarsaparilla.

WANDERING WILLIE.

We believe Emperor William has done everything now but walk a tight rope.—Philadelphia North American.

Emperor William is receiving a lot of easy advice from American editors that have their stove wood in, and don't care whether he stops his paper or not.—Detroit Tribune.

Owing to pressing business in Berlin the kaiser had to forego the pleasure of a reception in Paris. Besides, he is not sure that he would live through it.—Kansas City Times.

D-O-D-D-'S

DODD'S KIDNEY PILLS, the only positive, never-failing cure, on earth, for all Kidney diseases.

Take No Other.
Get the Genuine.
Refuse Imitations.
There's Only One Dodd's.

SNAKES AND NOTHING ELSE.

The Sole Product of Linkville, a Town in Oregon.

Linkville, or Klamath Falls, is situated in an obscure corner over the California border line in Oregon and may be reached in 24 hours' travel from San Francisco. You have only to take the northern bound train for Ager; thence a stage line of about 20 miles conducts you to your destination.

There is a bridge in Linkville that spans Klamath river. From this bridge, which is a vantage point as far as view is concerned, a most extraordinary sight meets the eyes. Along the river banks, at irregular intervals of a few yards, are seen dark balls ranging from a foot to three feet in diameter. They are stationary and as passive as a bowlder, which they resemble in color. But if a stone is hurled at any of these strange spheres, to your horror snakes will crawl off in every direction, and the ball will melt away as lard melts in a frying pan. The repulsive creatures that have thus been coiled up in a perfect sphere glide away under rocks, and one minute later not a snake is to be seen in that particular spot. But the other balls of snakes in the vicinity are little disturbed by the stone. A close inspection will reveal only a moving head or twitching tail in the mass that before looked like an immovable bowlder. Those that were scattered, however, may later seek the neighboring spheres or in a few minutes slink out of their hiding places and reassemble themselves in balls.

Linkville is in a very barren district. Nothing whatever grows upon the rocky soil, not even sagebrush. And so the river banks, which are a mass of driftwood and rocks, seem a befitting place for snakes. But it is surprising that they should develop in such great numbers. When not rolled in balls, they may be seen slipping in and out among the rubbish, and the ground for yards will be a squirming, wriggling mass.

These snakes are perfectly harmless. Indeed, if it were not for this fact, Linkville would not be habitable, for, while the immediate neighborhood of the river is their favorite haunt, they roam for many hundreds of yards away and may be seen along the roadways and around the houses and creeping over the porches. They possess a marked degree of tameness. You may pick them up with impunity, and children play with them on the doorsteps.

The Linkville snakes are dark in color, with two yellowish stripes on their backs. The average size is about 1½ inches in diameter and a yard in length, though many are smaller, and some attain much greater proportions. — San Francisco Chronicle.

ONE HAPPY WOMEN.

Got Health and Happiness From Dodd's Kidney Pills.

London, Feb. 6.—This city can claim one of the happiest, healthiest women in Canada.

Her name is Mrs. J. Osborne. She lives at 534 Grey street, and she has this to say to her sisters throughout Canada.

"For eight years my life was made miserable by Female Weakness. I used many different medicines, but none did me any good till I started to take Dodd's Kidney Pills.

"The first dose of this wonderful remedy gave me relief. I grew better with every dose, till, when I had taken three boxes, I was totally cured."

Dodd's Kidney Pills are the only medicine on which women can confidently rely for a positive cure.

Dream and Reality.

There is this real distinction between the dream and the waking state—that when awake I know there is another condition, while in the dream I take no thought of the waking state.

Awake, I know that I have been living the fantastic dream life, and have come out of it into a real life completely distinct from the other. I am in a first state and know there is a second. But when I am dreaming I have no thought of another state that I have come out of and must return to; I do not feel that there is another existence, radically separated from this one, and I never compare the visions of my dreams with my waking world, for I know nothing of it. I have the impression of having always lived the life I am in, which seems natural, and even if I ask whether I am not dreaming it is a merely verbal expression, with no accompanying sense of the meaning of it.

Another distinction, and the only absolutely clear one, is that while we always wake from the dream we never wake from the reality. This is why we believe in the reality and not in the dream.—M. Camille Melinand in Popular Science Monthly.

A "Home Body" in an Art Gallery.

A plump little woman with an absurdly infantile air despite a silver thread or two in her hair and a faint crow's foot at the corner of her round blue eyes—eyes of the color we used to call "gander" blue—went into the Corcoran gallery on the arm of a dignified gentleman in clerical garb. They stood, the two of them, a little later, among plaster casts of antique statues.

"These are very beautiful, Emily," said the clerical gentleman, "very beautiful and very famous. It is a privilege to see them, and I hope you appreciate it."

"Oh, yes, John," said Emily—you could see that her very soul was a "yes, John," echo of her husband—"they're beautiful, I think, but, oh, dear, what a work it must be to dust them!"—Washington Post.

Matter of Fact Scotch.

The lowland Scottish peasant has an extremely matter of fact way of speaking about her relatives' and friends' deaths. The Cornhill Magazine tells of a good woman who had lost her aunt remarking to a sympathising visitor: "Eh, yes, mem, aunty's deid, but she was very auld and frail. She's far better awa' and far hoopier in glory, and I got a hunner pounds o' a legacy."

He Had Been There.

Blimbus—Well, here's another housecleaning joke. This is the sixteenth housecleaning joke that I've seen in this paper within a week.

Hamby—Impossible, my boy, impossible. There is no such thing as a housecleaning joke. It's a tragedy.—Chicago News.

Those Tired Kidneys.

Dr. Chase's Kidney-Liver Pills help tired kidneys to do what they must do if you are to be a healthy man or woman.

Three Years in Bed.

From Kidney Disease—Although a Man of Three-Score and Ten, Dr. Chase's Kidney-Liver Pills gave him back perfect health.

This is to certify that I was sick in bed the most of the time for three years with kidney disease. I took several boxes of pills—different kinds—and a great many other kinds of patent medicines; besides that I was under treatment by four different doctors during the time and not able to work. I began to take Dr. Chase's Kidney-Liver Pills, and since that time have been working every day, although a man nearly 70 years of age. Dr. Chase's Kidney-Liver Pills have cured me.

JAMES SIMPSON,
Newcombe Mills, Ont.

If the Kidneys are not in a perfectly clean and healthy condition, the blood becomes impregnated with impurities, and a decay of the Kidneys soon takes place. Bright's Disease, Diabetes, Gravel, Stone in the Bladder, Inflammation of the Bladder, and a long list of Kidney diseases become seated, and sooner or later in so many instances end fatally. Dr. Chase's Kidney-Liver Pills cure all Kidney troubles. Sold by all dealers, price 25 cents per box.

GLEANINGS.

The Tartarian alphabet contains 302 letters, being the longest in the world.

Among every 1,000 bachelors there are 38 criminals. Among married men the ratio is only 18 per 1,000.

Tokyo, Japan, resembles Venice in one respect. It has 80 wooden and ten iron bridges, each exceeding a length of 75 feet.

The Pasteur institute in Paris has assumed such dimensions and importance that a second building has become necessary.

An English newspaper recently offered a prize of £5 for the best reply to the question, "Who makes the best wife?" One of the replies received was as follows: "Dear sir, mine. Yours truly, Bertram Boggs."

A few years ago a Dublin official had a kind of census taken of the city and found that 82,000 families were located in about 7,000 houses, affording 1¼ rooms per family. On the other hand, the remaining 23,000 families of the city occupied 17,000 houses.

Seven churches in Chicago are for sale, some of them having been at one time among the most prosperous in the city. One is used as an armory for cadets. A religious newspaper is printed in another, a dancing hall and a negro fortune teller occupy a third and small sects use the others for meeting places.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box.

A Doubtful Answer.

Lady—Didn't you take a vacation last summer, doctor?

Young Physician—No; my practice wouldn't allow it.—Lustige Blatter.

Promoted.

Medical Professor—In a patient, what is the first thing to find out?

Student—Find out if he can pay.—Paris Figaro.

Early Rising.

The days no longer shorter grow,
But longer now instead,
While nights get shorter, for, you know,
The sun henceforth won't be so slow.
In getting out of bed.
—L. A. W. Bulletin.

TRAVELING IN EUROPE.

Only Those Who Know the Ropes Can Secure Any Comfort.

Rich foreigners traveling on the continent subject themselves to many annoyances which strike the American first class traveler as entirely unnecessary, but they also take solid comfort in their own way and according to princely lights. Barring luxuries to which the great railway corporations here have accustomed us, the modes of getting about in European countries are not to be despised. On the other side voyagers still voyage with all their luggage in their laps or on the seats of the compartments, and because of this time honored custom a regular class of thieves ply from one end of the steel thoroughfares to the other, ever on the alert for the satchel of jewels or the unwary stranger with valuables in a hand bag.

The reason wealthy persons burden themselves with such things is there is always danger of the larger baggage being robbed in transfer. No one has ever been able to keep a strap on his or her trunks, porters on the other side coolly removing them under the very eyes of the owner. Great thefts have been committed in France and Italy on the different railway lines, either at the station where the luggage was put on board the train or by those officials in charge of it before it reached its destination. No tourist who has thus suffered has been able to get redress, and hence the native, aware of the weakness of these railway officials, carries the tempting hand bag which in its time may also disappear.

But aside from these eccentricities and also the bother of paying for baggage by weight, the wealthy man who has lived abroad long enough to know the ropes certainly travels en prince. His rugs and his cushions are a study. His elaborate dressing bag, his books, his facilities for taking something nourishing en route, are marvels of entertaining completeness to the American who bounds from New York to San Francisco and is cared for by a road that ministers to every want.—Boston Herald.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

Jamaica English.

The negroes of Jamaica speak a very queer sort of English. A correspondent of the Philadelphia Record says: "I singled out a coal black fellow in a clean white suit, because he looked the most intelligent, and in reply to my question what he would charge to convey a trunk, two handbags and a camera to the custom house he said, 'Marmlady, I dat quick quickie fe quattie fe lil tings an tanner fe tunk.'

"What on earth he meant I had no idea until after several repetitions, each yelled louder than before, as if by that means to arouse my dull understanding, an obliging bystander familiar with what is known as 'quashie English,' translated the porter's words to signify that he would do the job very quickly for 'quattie,' or one-quarter of an English sixpence (8 cents in our money), for carrying each of the small pieces, and a 'tanner' (a sixpence) for the trunk."

The Nice Play of Spanish Children.

At Fuenterrabia the place was en fete for four days in honor of the patron saint. The mornings were divided by the natives between long services in the cathedral and letting off rockets in the streets; the afternoons were entirely devoted to bullfights, four bulls being generously provided each day. Somehow we did not go. In the market place were a group of tiny children playing the only game they knew. That was a mimic bullfight. Every stage was faithfully reproduced. Only a few small boys and girls were not taking part in the game. They had managed to capture a live sparrow and were enjoying the more fascinating pleasure of twisting off its legs and wings.—Chambers' Journal.

WE WILL SEND OUR

MEDICINES AND APPLIANCES

FREE TO ANY HONEST MAN, WHO MAY TRY THEM A REASONABLE TIME.

A National Reputation Back of Our Claims.

IF HE is pleased with the result, he is to keep and pay for them. If he is dissatisfied, he has simply to return the appliances and medicine to us, and that ends the transaction without any expense whatsoever. There is no C. O. D. fraud, no deception of any nature.

Our treatment is so sure to to give bodily strength, to remove impediments to marriage, to stop unhealthy losses, to bring natural development and tone to every portion and organ, to restore to weak men the feelings and buoyancy of youth, that we gladly make this offer in good faith.

Our new medical book will be mailed without charge in plain sealed envelope.

VERSATILE LI.

It does not look as if Li Hung Chang will even land anything "equally as good."—Toledo Blade.

If Li Hung Chang continues to slide down the scale, he will eventually land in a fourth class postoffice.—Washington Post.

Li Hung Chang has had another of his somewhat celebrated removals from power. The main trouble about them is that they do not keep him removed.—Baltimore American.

Li Hung Chang shows a disposition to refuse his assignment as official dredger of the Yellow river. Evidently Li doesn't realize what is to be made out of the average dredging contract.

COLLINGWOOD, ONT.

People of this town greatly stirred up over the many cases of recovery from severe Heart and Nerve Troubles.

The cure of Mr. J. Currie, the well-known blacksmith causing a great deal of comment.

AN ARNPRIOR ALDERMAN

Has a Word of Welcome for the Little Life Savers.

Alderman W. M. Howe From Personal Experience Gives Them Public Endorsation.

From every town and village in the Dominion comes the same story.

Prominent people everywhere testing the merits of the little life savers and publicly endorsing them.

This time the attraction centres in Arnprior, Ont.

People in that town having weak, palpitating, throbbing hearts.

Troubled with faint and dizzy spells, nervousness, sleeplessness or weakness.

Suffering from anæmia, pale and sallow complexion, partial paralysis, St. Vitus' Dance or general debility—

Are being cured thoroughly and completely.

Are gladly making known for the public benefit the way in which they were restored to health.

Mr. W. M. Howe, the well-known alderman and business man, made the following important statement:

"For a long time I have been troubled with nervousness, sleeplessness and a debilitated condition of the system.

I have used Milburn's Heart and Nerve Pills with very beneficial results and from my own personal experience can recommend them very highly."

Everywhere Milburn's Heart and Nerve Pills are receiving the highest endorsation from the best people.

Everywhere they're curing the severest diseases of the heart and nerves and saving many lives.

If your heart is weak, nerves unstrung, blood thin and watery, don't hesitate to get the little life savers—Milburn's Heart and Nerve Pills, they'll cure you. Price 50c. a box or 3 boxes for $1.25, at all druggists. T. MILBURN & Co., Toronto, Ont.

Muskrats.

Rare old Captain John Smith in his quaint "History of New England and the Summer Isles," published in London in 1624, gives probably the first written account of the muskrat. He says that "the mussascus is a beast of the form and nature of our (English) water rat;" and he adds, "some of them smell exceedingly strong of musk." These animals may be caught in almost any sort of a trap baited with sweet apples or parsnips. Muskrats have very strong teeth and can use them on wood effectively, so it is wise to protect all corners and cracks in your wooden traps with pieces of tin or sheet iron. They have good noses, and can smell an apple a long distance off. Place your traps in the shallow water at the edge of the mill pond or stream inhabited by these rats and they will doubtless find it without difficulty.

Young muskrats are very gentle and playful, and may be handled without fear. They do not grow fierce with age if reared in captivity and accustomed to gentle treatment.—Harper's Round Table.

Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down-feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me more strength and good appetite than anything I could take. I can now eat anything and have a new lease on life. Only 50 cents at any Drug Store. Every bottle guaranteed.

TO CURE TOOTHACHE IN A MINUTE Use NERVOL. One application cures; if not, your money back. Equally good for Neuralgia and Headache. 25c, at all Druggists.

STILL IN BUSINESS

AT THE OLD STAND.

A Word About Pianos.

It is only a question of price that arises when selecting the best piano.

Sixty years of experience tells us that the public more than ever, is tired of the common thump box and wants musical quality in piano tone.

Whilst the NORDHEIMER is the highest grade piano manufactured in Canada, remember it is the cheapest in the long run. Its tone is the sweetest, retaining always that peculiar vocal quality combined with great endurance, which strong reasons have made it the choice of all lovers of the beautiful in music.

Easy terms arranged.

Illustrated booklet mailed free on application.

FACTORY AND WARE-ROOMS—Six storeys, King St., East, extending through the entire block to Colborne St.

Nordheimer Piano AND MUSIC CO., Limited.

TORONTO.

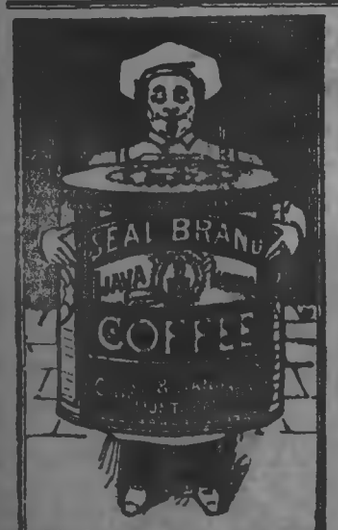
"LEAD KINDLY LIGHT."

It Was the Production of Rev. John Henry Newman.

"Lead, Kindly Light' was written by the Rev. John Henry Newman, at that time a clergyman in the Church of England. The hymn is by many supposed to refer to the author's contemplated subscription to Roman Catholic dogmas, and his consequent doubts and fears. This supposition, however, is erroneous, as it will appear from his own account of his thoughts and feelings at the time. He was indeed in great perplexity of mind at the time of his composition of this hymn, but had no thought of affiliation with Rome. Between pages 94 and 100 of the work "Apologia pro sua Vita," he writes: "While I was engaged in writing my book on the Arians (1833), great events were happening at home and abroad, which brought into form and passionate expression the various beliefs which had been so gradually winning their way into my mind. Shortly before there had been a revolution in France, the Bourbons had been dismissed, and I believed that it was unchristian for nations to cast off their governors, and much more, sovereigns who had the divine right of inheritance. Again, the great reform agitation was going on around me as I wrote. Lord Grey had told the bishops to set their house in order.' . . . . 'At this time I was disengaged from college duties, and my health had suffered from the labors involved in the composition of my volume. I was easily persuaded to join Hurrell Froude and his father, who were going to the south of Europe for the health of the former. We set out in December, 1832. It was during this expedition that my verses, which are in the 'Lyra Apostolica' were written.' . . . . 'The strangeness of foreign life threw me back into myself I found pleasure in historical sites, and beautiful scenes, not in men and manners. We kept clear of Catholics throughout our tour.' . . . 'The bill for the suppression of the Irish Sees was in progress and filled my mind. I had fierce thought against the liberals. It was the success of the liberal cause which freed me inwardly. Especially when I was left to myself the thought came upon me that deliverance is wrought not by bodies but by persons. I began to think I had a mission. I said (to cardinal Wileman): We have work to do in England. I went down at once to Sicily and the presentment grew stronger. I struck into the middle of the island and fell ill of a fever at Leonforte. My servant thought I was dying.....but I said I shall not die. I shall not die for I have not sinned against the light.....At last I got off in an orange boat, bound for Marseilles. We were becalmed for a whole week in the Straits of Bonifacio. There it was that I wrote the lines "Lead, Kindly Light," (June 16th, 1833), which have since become well-known.....At last I got off again and I did not stop night or day till I reached England and my mother house.....On the following July 14th, 1833, Sunday, Mr. Keble preached the assize sermon in the university pulpit. It was published under the title "National Apostacy." I have ever considered and kept the day as the start of the religious movement of 1833, i.e., the Oxford or tractarian movement in the Church of England. Again, at page 312 of the "Apologa," Newman writes: "And first I will say, whatever comes of saying it.....that for years I must have had (previous to June, 1833), something of a habitual notion .....that my mind had not found its ultimate rest, and that in some sense I was on a journey. During the same passage across the Mediterranean in which I wrote 'Lead, Kindly Light,' I also wrote verses which are found in the 'Lyra' under the the head of 'Providence,' beginning, 'When I look back.' I have found a memorandum of September 7th, 1829, in which I speak of myself as now in my room at Oriel college, slowly advancing, etc., and led on by God's hand, blindly, not knowing whither he is taking me.' Many discussions have arisen as to the meaning of the last to lines of this hymn.

"'And with the morn those angel faces smile,
Which I have loved long since and lost awhile.'

"Five principal interpretations are given. 1. That the angel faces signify not not only the youthful dreams of the writer now vanished, but even the consciousness of divine faith and assurance now also wanting; 2, that angel faces refers to the faces of those spirits sent to minister to those who shall be heirs of salvation; 3, that the lines indicate the existence of a hope of re-union in heaven with loved ones gone before; 4, that when wearied with the turmoils of the world the heart seeks divine aid and then catches sight of the angel faces when the period of depression has passed away; 5, that these words refer to the communion of the world of spirits, which some believe infants to have, and which sense of communion is often lost in later years." "Lead, Kindly Light," was first published in the British Magazine of March, 1834. The Rev. J. H. Newman was born on February 21st, 1801, and died in 1890. The foregoing quotations show how opposed he was to modern ideas, both of civil and ecclesiastical government. He was for some time a professor of Oriel college, Oxford. He did not become a member of the Church of Rome until twelve years had elapsed from the time of the writing of "Lead, Kindly Light." At length he was received as a convert by Father Dominic on October 9th, 1845. His formal reception took place at his house at Littermore, he having previously recanted everything he had written against Rome. Dr. Newman pursued a distinguished career in the church of his adoption, and attained to the rank of Cardinal.



He knows,
His patron knows,
and everybody knows that this can contains the purest, best, and most delicious Coffee that expert buyers can procure. It's

Chase & Sanborn's Seal Brand Coffee,

that's the reason.

Squared the Circle.

Arithmeticians have been vainly trying for centuries to solve the problem known as the "squaring of the circle." It has remained for the little city of Aiken, S. C., to accomplish what the mathematicians have failed to do, for no better term than "squaring the circle" could be found to exactly describe what it has done in the matter of fixing its boundaries.

Aiken became a city in 1890, and its charter specifies that "its corporate limits shall include all the area embraced in a circle whose center is the intersection of Park avenue and Union street, and whose radius is one mile." So here we have a circular city, the only one in modern times I have ever known. But in 1891 the city charter was amended by special act of the legislature, and here follows the exact language of the amended article: "The limits of said city shall be held and deemed to be in the form of a circle and a square upon that circle, with the sides of the square touching the circumference of that circle north, east, south and west, the said circle to describe a circumference one mile in all directions from the central point of the intersection of Park avenue and Union street, as the center of said city."

If this isn't "squaring the circle," what is it?—Boston Transcript.

Revenge of a Snake and Its Mate.

A gentleman riding along a plantation path, followed by a negro on a mule, struck a large cotton mouth with his whiplash as it glided across the road. As soon as under cover and out of reach of the whip the snake raised its head above the bushes, standing almost upright on its tail and glaring at him with flashing eyes, at the same time hissing fiercely and exposing its fangs.

"Yo' ort'n ter 'a' done dat, Maws Joe!" exclaimed the negro.

"Why not, Pomp?"

"'Cause dat spec'll lay fuh yo' sho', an some time ernother'll hit yo' back."

"Pshaw, Pomp! I don't take any stock in such nonsense. More likely he'll take care to keep out of reach of my whip. I wish, though, I had killed the beast!"

"Dat would 'a' bin er sight wusser, Maws Joe, 'case de mate would jes' foller tel hit cotch't yo, an when er cotton mouf's mate hits yo' goes dead powerful quick."

"All nonsense, Pomp! There isn't any mate, or if there is it doesn't know more than other dumb creatures. A man may be bit, of course, but not more often by the mate of a snake he has killed than by some other that just happens in striking distance."

"Leastways, Maws Joe," urged Pomp, "yo'd better not happen erlong dis pat any more dis year, 'ceptin on hossback!"

This good advice fell on heedless ears. The next afternoon Maws Joe followed the path on foot, probably without any thought of what had occurred the day before, and when passing the spot where he had lashed the snake the day before he was struck at the same instant by two cotton mouths, one from each side of the path. He managed to get home, but died soon after.

The negroes in that neighborhood, and many white people, too, are firm believers in the cotton mouth's mate and its vicious intelligence.—Galveston News.

News For Nothing.

"No," said the editor as he gazed abstractedly at the ceiling of the sanctum, "it's no use. What's the use of anybody subscribing for the paper while old Mrs. Tattler is in town?" And the next day he packed his traps and went.—Cleveland Plain Dealer.

A New Method.

Hardup—I've got a new way to get rid of creditors.

Hashly—How do you do it?

Hardup—Pay 'em.

"Ingratitude is the world's reward" is the favorite motto of those who do not wish to do good.—Fliegende Blatter.

An African fat used for domestic purposes is the oil of a species of beetle. It resembles hardened cocoanut oil.

Good health is worth more than anything else to you, and every bottle of Hood's Sarsaparilla contains good health.

A THRILLING EXPERIENCE.

The Toronto C.P.R. Express Due at Montreal at 7.50 a.m. Meets With an Accident—The Injured.

Montreal, Feb. 17.—The Toronto C.P.R express due here at 7.50 o'clock yesterday morning ran off the track three miles west of Green Valley, a small station in Glengarry County. There were no fatalities, but eight passengers and two train hands received injuries more or less severe. The other passengers had a thrilling experience, and, incidentally, a severe shaking up.

The injured, according to the official report, are: Miss F. Macdougall, Toronto, slight cut on chin; Mr. D. Boismann, Montreal, slightly shaken up; Mr. Frank Murphy of Her Majesty's Theatre, leg badly cut; Mrs. Frank Murphy, slightly injured; Mr. A. Jack, Westmount, slightly hurt on leg and arm; Mr. John Kerr, Perth, Ont., spine seriously injured and nose cut; Mr. R. Rogers, Queen's Hotel, Toronto, badly shaken up; Walter Snell, Montreal, chef of the buffet car, wrist bruised and badly shaken up; H. Miron, brakeman, Montreal, slightly hurt on leg.

The express left the Queen City last night in charge of Conductor Lucy, an experienced employe. It was hauled by engine 635, the engineer being H. Dutil, Montreal. At 6.15 the train jumped the track. Five cars, including the sleeper, turned a somersault and landed on the north side of the rails. Above the noise of the crash of glass could be heard the shrieks of the lady passengers. One lurch after leaving the road and the train came to a standstill. The ladies were assisted through the broken windows and their hysterical fears were calmed.

PERIL OF THE STR. GASPESIA.

The Vessel Jammed in the Ice North of Deadman Island—Other Boats in Trouble.

Meat Cove, C.B., Feb. 17.—Snow is falling and nothing can be seen for any distance from the Magdalenes. The steamer Gaspesia, when last seen yesterday evening, was jammed in the ice five miles north of Deadman Island.

Other Vessels in Trouble.

Halifax, N.S., Feb. 17.—The steamer Grand Lake, from St. John's, Newfoundland, for Halifax, had a narrow escape from foundering on the passage. She ran into the ice floes and took water rapidly. About 80 tons of the cargo was jettisoned. When the steamer reached here she had 15 feet of water in the forehold.

A special from Barrington, N.S., says that the American schooner Mabel Leighton arrived at Shelburne yesterday with the entire crew of the schooner Sarah, the latter vessel having foundered in the late gales. The schooner H. M. Burkett also arrived with the loss of one man, two disabled, and the vessel damaged. The schooner Nelson McFarland also had one man disabled.

Home the Mother's Place.

Washington, Feb. 17.—Mrs. Theodore W. Birney, president of the National Congress of Mothers, yesterday delivered an address of welcome. She spoke of the home influence, saying that there lay the only solution to problems that confront the world. Mothers should not seek to make a career in the world, for their highest duty lay at the fireside, and those with comfortable means should not compete with women working for a living.

Dr. G. Stanley Hall delivered an address in which he pointed to the fact that children should not be forced into maturity. "All history," he said, "teaches that precocity leads to the fall of all empires."

Short Over a Million.

New York, Feb. 17.—A London special says: A sensation has been created by the disappearance of G. R. Birt, chairman and managing director of the Millwall Dock Company, who has not been seen for a week. The accounts of the Milwall Dock Company are found to be grossly manipulated. The crookedness was discovered and Birt promptly vanished, taking with him only a handbag. Investigation shows that his speculations date far back, and as far as examination has gone reveals a shortage of $1,200,000. Birt, who is nearly 70 years old, has 18 children.

Won His Own Medal.

Waukegan, Ill., Feb. 17.—Mayor William W. Pearce has just captured the $50 gold medal, which, years ago, while president of the Wankegan Bachelors' Club, he offered to the first member of the club to become the father of twins.

His Method.

Charles—I don't see how Blank can make any money out of that tobacconist's business of his. He's always smoking the best cigars himself.

Fred—Oh, that's his method of advertising.

Charles—How so?

Fred—Puffing his goods.—London Fun.

Silent Korean Brides.

During the first day of her married life a Korean bride must not speak, not even to her husband. It is considered a very reprehensive breach of etiquette. But the next morning she is permitted to give free rein to her tongue and may jabber thereafter to her heart's content.

The shooting fish is a native of the East Indies. It has a hollow cylindrical beak. When it spies a fly sitting on the plants that grow in shallow water, with remarkable dexterity it ejects out of a tubular mouth a single drop of water, which seldom misses its aim, and, striking the fly into the water, the fish makes it its prey.

They Cleanse the System Thoroughly.

Parmelee's Vegetable Pills clear the stomach and bowels of bilious matter, cause the excretory vessels to throw off impurities from the blood into the bowels and expel the deleterious mass from the body. They do this without pain or inconvenience to the patient, who speedily realizes their good offices as soon as they begin to take effect. They have strong recommendations from all kinds of people.

VOL. XXVII, NO. 41. PETERBOROUGH, SATURDAY, FEBRUARY 18, 1899. PRICE TWO CENTS

A Sight Worth Seeing!

GRAND OPENING PRESENTATION

OF STANDARD GRADES OF

UNDERMUSLINS AND LINGERIE

...AT THE...

GOLDEN LION

On the morning of TUESDAY, FEBRUARY 21st, our Exposition of New Whitewear will be presented to the Ladies. In greater array than ever, these snowy fabrics will be shown just in time to join the brisk movement of February Sales.

The TELLING values which we are in a position to offer is attributable to the fact that these standard goods were purchased just in the nick of time—When Prices for Cottons and Embroideries had Touched their Lowest Point.

That the Ladies of this town appreciate worthy fabrics, conscientious needlework and elegant trimming—allied to economical prices—is proven by the unprecedented patronage which our White Wear has commanded.

Don't miss the Whitewear Opening Event of the season, TUESDAY, February 21st, inst., at

Robt Fair & Co.

M. Loubet and M. Meline Running for French Presidency.

DOINGS OF THE PRETENDERS.

The Comments of French Newspapers Are Not Alarmingly Flattering to the Dead President—Sympathy of Foreign Nations, Especially Germany—The Funeral Obsequies to Be on Thursday Next.

Paris, Feb. 18.—The official certificate sets forth that the death of the President was caused by congestion and hemorrhage of the brain. After the remains had been embalmed, the body was dressed in evening dress, with white waistcoat, crossed by the Grand Cordon of the Legion of Honor. It was then laid on a white mattress in the study. The remains will be in state in the ball room of the Palace, which is already draped in black.

A mass for the repose of the soul of President Faure was celebrated in the chapel of the Elysee Palace yesterday morning. The family of the deceased was present.

The body of the late President, Felix Faure, lay in state in the palace from 8 o'clock until 4 o'clock yesterday afternoon. Only Ministers, members of the diplomatic corps and high public functionaries were allowed to view the remains. But the public will be admitted to the palace from 9 o'clock on Saturday morning until 6 o'clock Tuesday. The obsequies will take place next Thursday in the Cathedral of Notre Dame, and the interment will occur in the cemetery of Pere-Lachaise.

Discussing Candidates.

The lobbies of the Chamber of Deputies were crowded yesterday with members engaged in discussing the chances of the various candidates. MM. Loubet, Meline and Dupuy were chiefly mentioned. The Socialists and Radicals favored M. Loubet. All the sovereigns have sent condolences on the death of President Faure.

This city and the provinces are calm.

Date of Election Fixed.

The Premier, M. Dupuy, has fixed the meeting of the National Assembly, or Congress, in which the Senators and Deputies unite in voting for a President of France, for 1 o'clock this afternoon at Versailles.

In the Chamber of Deputies and in the Senate eulogies were pronounced and the two bodies adjourned as a token of mourning.

Leftists Nominate Loubet.

At a meeting of the Leftist Senators yesterday M. Loubet, the president of the Senate and former Premier, was unanimously nominated for the Presidency of France, in succession to the late President Faure. The Senators consider M. Loubet's election assured.

M. Emile Loubet, who is about 61 years of age, was born in the Department of Drome, and began his political career in 1876. In 1892 he formed a Ministry, became Minister of the Interior, but was overthrown on account of the Panama revelations. He was re-elected President of the Senate on Jan. 19 last.

The Pretenders.

Telegrams from Turin, where the Duc d'Orleans is staying, and from Brussels, the headquarters of Prince Victor Napoleon, report considerable activity on the part of the adherents of the pretenders. This, however, is not likely to develop anything beyond manifestos and, altogether, the indications are against any abnormal developments in the situation.

They Are After Loubet Already.

Paris, Feb. 18.—The Duc d'Orleans, addressing the Royalists at Turin yesterday, delivered a violent speech, expressing his hope to be able to re-establish the monarchy. The Echo de Paris this morning (Saturday), will contain an article by M. Quesnay de Beaurepaire, violently attacking M. Loubet and accusing him of equivocal conduct in the Panama affair.

Shortly before midnight it was announced that M. Meline had definitely accepted candidature for the Presidency.

FRENCH COMMENTS.

Many of Them Are Brutally Candid Concerning the Dead President of the French Republic.

Paris, Feb. 18.—All the morning newspapers contain comments upon the sudden death of President Faure. They are apparently dictated by their own peculiar views of the political situation than owing to other considerations. Few of them find time to dwell upon the best points of the character of the deceased, and many of them do not hesitate to call attention to his weaknesses.

The Echo de Paris, in the course of a eulogistic obituary, points out that, while President Faure's love of ceremony caused smiles, his attitude was always constitutional. It adds: "The French people will render to the dead Chief of State a tribute of homage and respect, and will express sincere regrets at his tomb."

The Journal says: "The judgment will be 'honor to his memory.'"

The Gaulois remarks: "Those who knew M. Faure will mourn him. He was a worthy man, obliging and charitable. It was no small surprise for Europe to see this former workman bear himself at the court of Russia as if he had always lived on the steps of a throne."

The Eclair pays homage to the deceased President, who, it asserts, "was always absolutely correct and remained within the strict limits assigned to him by the constitution."

The Radical reproaches the late President with not being a sincere Republican. The Gil-Blas says: "Fortune was faithful to him, and will assure him the regrets of the masses."

The Siecle remarks: "He represented the laboring democracy, and unfortunately failed to understand the greatness of the task which fell to him. He only regarded the Presidency as the means of making display."

The Petit Journal believes the President succumbed to the "weight of moral sorrows and responsibilities accompanying the lamentable crisis we are traversing."

The Petit Parisien believes the disappearance of M. Faure will be all the more cruelly felt, "as it will complicate a situation already difficult."

The Petit Republique says: "He did much harm. Though he did not become intentionally reactionary, by egotistical complaisance to all the retrograds forces he was one of those who brought the Republic to this dangerous crisis."

The Matin says: "If fortune, success and grandeur affected him to the point of making him forget his old friends, the fault was due more to others than to himself. This sudden end, in destroying the success, effaces the miserable details."

The Intransigeant accuses President Faure of allowing his head to be turned by pride, says it considers the election of his successor to be a life-and-death question for France, and adds: "It is important, above all, that his successor should be a sincere patriot, free from all Dreyfusism."

The Figaro attributes the death of President Faure to violently sudden angina pectoris (neuralgia of the heart).

FOREIGN SYMPATHY.

The Lords of the Imperial Talk of France as an "Ally."

London, Feb. 18.—In the House of Lords yesterday Lord Salisbury expressed deep sympathy with "our great neighbor and ally across the channel in the terrible bereavement which has deprived her of her most valuable and estimable President, especially at a time when difficult external and internal problems have to be solved." He hoped the successor of President Faure would show "the same passionless justice and high impartiality and the same friendliness toward this country as always distinguished him."

The Earl of Kimberley expressed his sympathy with France in similar terms.

In the House of Commons the Government leader, Mr. A. J. Balfour, First Lord of the Treasury, expressed deep sympathy with France at the death of President Faure.

The Liberal leader, Sir Henry Campbell-Bannerman, concurred in Mr. Balfour's remarks in behalf of the Opposition.

The Pope Informed.

Rome, Feb. 18.—Cardinal Rampolla, the Papal Secretary of State, communicated the death of President Faure to the Pope. The Pontiff, who was deeply impressed, said: "Poor France suffers one misfortune after another. What terrible consequences may follow."

German Sympathy.

Berlin, Feb. 18.—The Imperial Chancellor, Prince Hohenlohe, at the opening of the Reichstag yesterday, expressed the sympathy of the German people and Emperor with France, "which," he added, "was lamenting the demise of a man who, as chief magistrate, had unswervingly promoted the great interests of peace and concern and the welfare of nations, mindful of the common tie uniting all civilized nations."

The members of the Reichstag listened standing to the remarks of the Chancellor and applauded them.

Mr. McKinley's Sympathy.

Washington, Feb. 18.—The President of the United States and the Senate by resolution expressed their sympathy with the family of the late President Faure yesterday.

Advertising in THE DAILY EXAMINER brings the best results.

THE LEGISLATURE

Ministers Reply to Questions by Enquiring Members.

ENGELDUE LEASE STATEMENT.

Barren Results of the Company's Operations—Some Dominion Fisheries Overseers Will Be Retained—The Common School Fund—Petitions Presented—The Gravenhurst Consumptive Sanitorium.

Toronto, Feb. 18.—Private members had the entire session of the Legislature yesterday afternoon at their disposal, and took advantage of the opportunity to bombard the Government with questions, to all of which replies were vouchsafed. Mr. Tucker's inquiry, which occupied first place upon the list, was perhaps of the greatest interest, and elicited the following information:

Hon. Mr. Gibson, Minister of Crown Lands, said in reply that $46,000 had been expended during 1897 and 1898, $24,979 being expended on Block B. He regretted to say that the prospecting and explorations had not, so far as he had learned, resulted in the discovery of anything specially valuable. As to the larger of the two locations, it was said that nothing was discovered that would warrant any development, and, as to the Shoal Lake location, he was not aware that, after very thorough prospecting, development work would be warranted by any discovery made.

Fisheries Matters.

Mr. Powell put a series of questions relating to the Fishery Department, and Hon. Mr. Hardy answered that he was not in a position to say that all the Dominion fishery officers appointed in Ontario had been dismissed. The Government had selected a number of overseers, but had not appointed any. Arrangements were being made for appointments, and districts were being set apart. Some of the Dominion overseers would be retained, but he was not able to say how many.

Normal School Sidewalks.

Mr. Powell asked if the Government had paid for all or any portion of the side walks surrounding Toronto Normal and Model Schools. The answer was that no payment had been made.

That Common School Fund.

Col. Matheson asked: "Was the $68,691.76 of Common School fund, transferred to the Dominion during the past year, paid in cash? If not, what was the date of the order-in-council authorizing the Dominion to charge the sum as a debt owing by the province to the Dominion; or, if no such order-in-council was passed, what authority was given to the Dominion authorities to charge the sum as a debt owing by the province to the Dominion?

Hon. Mr. Harcourt replied that the collections on account of Common School fund for the years 1890 to 1898, inclusive, of $63,812.67, was not paid in cash, but was charged by the Dominion Government to the province in the open unadjusted accounts between the province and the Dominion, and placed to the credit of the school fund.

The House was adjourned until 8 p.m. Monday.

Yesterday's Petitions.

London Y.M.C.A. is petitioning for incorporation.

The Town of Cobourg wants power to exempt from taxes summer hotels, also that such hotels should have liquor licenses granted to them for the summer season.

Whitby is applying for permission to loan $10,000 to a tannery company.

Mr. Foy has handed in a petition from the Incorporated Synod of the Diocese of Toronto praying that an act may pass empowering the bishops of the diocese to suspend or remove an incumbent of any rectory, parish or mission when the interests of the church require such removal, and for other purposes.

ASSEMBLY NOTES.

Mr. S. T. Bastedo left last night to arrange difficulties among fishermen in the Essex Peninsula. He will also investigate international conditions.

A large deputation representing the Gravenhurst Sanitorium waited on the Hon. Messrs. Dryden and Davis yesterday urging that the Government make an annual grant of $1,000 to the bacteriological laboratory which Mr. Massey has established for the investigation of tuberculosis in connection with the sanitorium. The deputation also asked that the grant per patient to the institution be increased.

The Provincial Board of Health was notified yesterday that a new case of smallpox had broken out in Irish Creek.

A Dream and Its Sequel.

Galt, Ont., Feb. 18.—A strange coincidence occurred here yesterday morning. Rev. R. E. Knowles, pastor of Knox Church, while narrating a dream which he had the night before that he would have to go to Newburne, North Carolina, on account of the death of a relative, was handed a telegram conveying the news that a relative of his had just died in that place. Accompanied by his mother-in-law, Mrs. Ellis, he left in the afternoon on his dream mission, which turned out to be a sad reality.

Uncle Sam's Pacific Cable.

Washington, Feb. 18.—Senator Frye yesterday introduced an amendment to the sundry civil appropriation for the encouragement of a Pacific cable. It provides for the payment of a subsidy not exceeding $100,000 a year for 20 years for a cable from some point in the United States on the Pacific coast to Hawaii, Guam and the Philippine Islands.

The People's Faith

Firmly Grounded Upon Real Merit—They Know Hood's Sarsaparilla Absolutely and Permanently Cures When All Others Fail.

Hood's Sarsaparilla is not merely a simple preparation of Sarsaparilla, Dock, Stillingia and a little Iodide of Potassium.

Besides these excellent alteratives, it also contains those great anti-bilious and liver remedies, Mandrake and Dandelion. It also contains those great kidney remedies, Uva Ursi, Juniper Berries, and Pipsissewa.

Nor are these all. Other very valuable curative agents are harmoniously combined in Hood's Sarsaparilla and it is carefully prepared under the personal supervision of a regularly educated pharmacist.

Knowing these facts, is the abiding faith the people have in Hood's Sarsaparilla a matter of surprise? You can see why Hood's Sarsaparilla cures, when other medicines totally, absolutely fail.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1; six for $5.

Hood's Pills are the best after-dinner pills, aid digestion. 25c.

TO ALL WHOM IT MAY CONCERN TAKE NOTICE.

Daily Examiner.

SATURDAY, FEBRUARY, 18, 1899.

EDITORIAL NOTES.

In the present volcanically eruptive condition of France, it does not seem improbable that the sudden death of M. Faure, President of the French Republic, may be a precursor of the sudden ending of the republic. There will be a bitter squabble for the Presidency, and good authorities state that it is probable that one of the rival pretenders, Prince Victor Napoleon, or the Duke of Orleans, may take advantage of the circumstances and make a coup for the restoration of monarchical institutions, which might be an improvement, as at present France is perilously near anarchical conditions.

It is now proposed to make the Maple Leaf the Canadian national emblem, the badge of the Conservative party, of which Sir Charles Tupper is leader. Sir Charles Tupper is largely responsible for the slur upon the loyalty of Liberals which his party orators and organs have in the past so busily uttered. At the Fishmongers' banquet in London, England, shortly after Sir John Macdonald's victory in the Federal elections of 1890, Sir Charles, the Canadian High Commissioner, said at this banquet, in effect, that the British ought to also rejoice at this victory of the Conservative party, for the Liberal party in Canada was honey-combed with disloyalty and ready at the first opportunity to drag down the old flag. Now, though this was a monstrous and wicked libel, yet the British, receiving such an assurance from a man in Sir Charles' official position, credited the statement and held an idea of the disloyalty of the Liberal party till it was magnificently dispelled by the visit of the great Liberal leader, Laurier, to England in 1896. Sir Charles' slander of a great party produced great injury to Canada in the position she held in British regard, but when its falsity was demonstrated the reaction set in, and now Canada, through the action and attitude of the Liberal leader, lies closer to the heart of the imperial mother than at any time in her history. Sir Charles Tupper is more of a partizan than a patriot, and is, one must suppose,—for he has never recanted—as ready now as ever to make slander of the larger half of the Canadian people a stepping stone to power.

TECHNICAL TRAINING.

The subject of technical education received some attention at the meeting of the Brantford Board of Trade a few evenings ago. Technical education is of all kinds, and, in the very nature of things, uniformity cannot be looked for. Local conditions must determine in each case the correct course to adopt, but of the main fact that the technical school has come to stay and must largely increase in usefulness, there can be no question. There is at present but one school of the kind in Ontario, that conducted in Toronto at the cost of the city corporation. At the last session of the Ontario Legislature a bill was passed placing these schools on the same footing as High Schools, so that they will henceforth receive some measure of Government aid. The success of the Toronto school has been phenomenal and all classes are availing themselves of its benefits. On the attendance roll for 1897-98, we find among employments represented, the followin:

Electricians	23
Machinists	17
Dressmakers	19
Lithographers	10
Nurses	13
Office boys	16
Painters	13
Printers	10
Salesmen	15
School boys	24
School girls	14
Servants	10
Stenographers	21
Students	56
Teachers	43
No occupation given	331

Every conceivable trade is represented, apprentices, journeymen and employers all studying together. When the school was established in 1891 there was an anticipated attendance of 150 pupils, but in 1892 the registered attendance reached 231. In 1894 the number of pupils registered had grown to 631, in 1895 to 759, in 1896 to 1,406, with a staff of ten teachers. In view of this extraordinary expansion, it is not surprising that the City Council is now applying to the Legislature for permission to expend the sum of $75,000 on a suitable building. The departments of study are:—1, Physical Science; 2, machine construction; 3, architecture and building construction; 4, chemistry; 5, freehand drawing, design and decoration. There are also special courses, as follows: Domestic science, mineralogy, geology and metallurgy; electricity, steam and gas engines.

The lines that are being followed in other places do not necessarily afford any indication as to what is best for Brantford. The wants of this city are probably distinctive, and something financially and otherwise suitable would have to be found. The Toronto experiment is chiefly of interest as showing the extensive patronage such schools are likely to receive, and they indicate the existence of a want that in this manufacturing centre is not at present being supplied.—*Brantford Expositor.*

Life Was a Burden

TILL MRS. LAMPMAN USED PAINE'S CELERY COMPOUND.

The Only Medicine that Gives True Strength and Keeps the Body Nourished.

A Letter that Tells of Trials and Sufferings.

A New and Joyous Existence Experienced After Use of the Wonderful Medicine.

Mrs. M. E. Lampman, of Woodstock, Ont., writes as follows regarding her rescue from suffering and agony:

"After serious consideration I think it my duty to acknowledge the great good I have derived from Paine's Celery Compound. No living mortal can imagine the sufferings I endured for four months. The demon, 'La Grippe' got a fast hold of me: I became nervous and was so prostrated that I could not sleep night or day.

"I was reduced to a mere skeleton, and life became a burden. My appetite was very poor, and I was so extremely nervous that I could not bear to have any person in the room with me.

"One Sabbath afternoon I read one of your books, and found that Paine's Celery Compound had cured many people. I thought I would try a bottle, and bought one that afternoon and commenced to take it according to directions. The relief was almost instant. I continued using the Compound, with the result that I can now sleep well at night and feel rested when morning comes. My appetite is good, I am gaining in flesh, and feel like a new person.

"I cannot find words to express my gratitude for your great Paine's Celery Compound, and for the wonderful cure it has brought about. I am 73 years of age and can now walk five miles without feeling very tired. I am telling my friends and neighbours who are sleepless and nervous and suffering as I was. I wish you unbounded success, and hope this may be read by some one who is afflicted and anxious for relief."

Primary Colors.

"Rafferty," said Mr. Dolan, "what's thim primary colors Oi hear me dau'ther Ann tellin of since she tuck to shtudyin art?"

"Wull," was the answer, "judgin be all the primaries Oi wor iver to Oi should say they wor black an blue."—Washington Star.

THE BANISHMENT OF INDIGESTION.

Is Certain if Dodd's Dyspepsia Tablets are Used.

Dodd's Dyspepsia Tablets Remove the Cause of Indigestion and Prevent its Return—Their Effect is Positive, Permanent, Powerful, But Gentle.

Indigestion is the curse of hundreds of thousands of lives.

Yet Indigestion is curable as easily as is the mildest cold.

There never yet was a case of Indigestion that Dodd's Dyspepsia Tablets could not cure quickly and permanently.

Dodd's Dyspepsia Tablets digest the food in the stomach.

Directly one of Dodd's Dyspepsia Tablets is swallowed it melts and mingles with the mass of hard, partly digested food in the stomach and reduces it to a thin milky liquid.

This liquid is then passed out of the stomach into other digestive organs, where the waste or worthless portions are separated from it. The remainder is sent to the lungs, where it receives the air taken into those organs, and becomes blood.

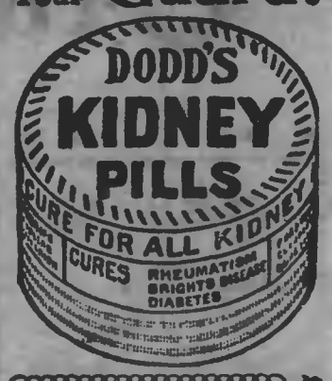
On this fresh, rich blood every organ, nerve, muscle and bone in the body is fed and strengthened.

Meanwhile the stomach, liver and other organs of the digestive system are rested, stimulated and given fresh strength and vigour, so that after a short use of Dodd's Dyspepsia Tablets, they are able to digest the food thoroughly themselves.

This is the whole secret of the success of Dodd's Dyspepsia Tablets. They remove the cause of Indigestion, and prevent it from returning. Dodd's Dyspepsia Tablets never fail. They cannot fail if given a fair chance.

Dodd's Dyspepsia Tablets are sold by all druggists at 50 cents a box, six boxes $2.50 or sent on receipt of price, by the Dodd's Medicine Co., Limited, Toronto.

Be on Your Guard!



THE BEST is always imitated. Dodd's Kidney Pills, sold only in boxes like this, are widely imitated, because they are the best Kidney cure. Take none but

D-O-D-D-'S

NEWS IN A NUTSHELL.

The reindeer herd which left the coast in May last reached Dawson in January. There are 125 in the herd.

It is estimated that 9,800 people have been thrown out of employment in New York by the present coal famine.

Dr. G. B. Bradley, chief of the Hansard staff of the Canadian House of Commons, died at Buffalo on Sunday last.

John Hopkins, a Nova Scotia convict, was found dead in his cell in the Penitentiary at Dorchester, N.B., on Friday.

John W. Keller, the New York commissioner of charities, relieved 1,800 families on Thursday who were thrown into immediate want by the storm.

The British Columbia Legislature has just elected a man who was until recently a coal miner to be its next Speaker. He is Thomas Forster, a Northumbrian by birth.

A bill has been introduced in the Legislature at Albany, N.Y., that permits the legal smashing up of slot machines used for gambling purposes, whenever they are seized by the police.

Reports from Sofia state that the health of the infant Princess Nadeshda, the fourth child of Prince Ferdinand and Princess Marie Louise, who died the day after the child was born, is excellent.

It is likely that a proposition from the united Canadian and American telegraph companies will be before Parliament next session to construct a 1,500-mile line from Quesnelle and Dawson City.

The Queen's Bench at London has granted an order in the Druce case which means that the vault cannot be opened without the sanction of the Secretary of State, whose attitude in the question is not known.

John Harrison, the Grand Trunk brakeman who had his legs terribly crushed by a train at Newcastle on Thursday at noon, died from the effects of his injuries in St. Michael's Hospital, Toronto, on Friday.

The steamer Amur brought the news to Victoria, B.C., of the discovery of a rich coal mine by William Joel, who was on the steamer en route to Ottawa to apply for a grant. The mine is nine miles from Dawson.

The steamer Lake Superior, which has been in quarantine with 2,000 Doukhobors for the past three weeks at Halifax, sailed on Friday afternoon for St. John, where her passengers will be landed and despatched to the west.

The scheme for a direct cable between Germany and the United States is being pushed. Many prominent Germans are interested in the project, and capitalists in Cologne are organizing a company to lay the cable, with a capital of 20,000,000 marks.

Major-General Hutton, in the general order issued on Friday, states it to be his opinion that it is essential that all officers who now hold or aspire to hold in the future responsible positions on the staff should be able to convey their instructions to the French-Canadian troops in their own language.

The G.N.W. sent out a despatch from Windsor on Feb. 13, stating that a petition was being signed for the release of Nicholas Bott of Walkerville, who was sentenced last September to 18 months in the Central for embezzling $900 from Walker & Sons. It was stated that his family had been in destitute circumstances since his incarceration. Mrs. Bott emphatically denies that her husband's family are in destitute circumstances.

The German newspapers take exception in their discussion of the Samoan question to the spirit and statements of the letter of Chief Justice William L. Chambers of the Supreme Court of Samoa, to his brother in New York. They denounce the letter as "proof that Chief Justice Chambers is at the bottom of the present trouble," declaring him guilty of wilful misrepresentation, and of showing his real animous in the phrase, "Germany must be removed from Samoa."

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any Drug Store. Regular size 50 cents and $1. Guaranteed to Cure or price refunded.

REMORSE.

Arthur J. Stringer in Harper's Monthly.

Red lips that dumbly quiver for his kiss,
And now but fondly touch his graveyard stone,—
Ah! lips he loved of old, remember this:
He had not died, if he had only known.

Children Cry for
CASTORIA.

NON-COMBATANTS FLITTING.

Affairs in the Philippines—The U. S. Will Extend Its Jurisdiction.

Manila, Feb. 18.—Mr. O. F. Williams, the former U.S. consul here, is in receipt of an application from a member of the rebel Congress at Malolos for a pass to enable his family, consisting of 19 persons, who are desirous of taking refuge in Manila, to enter the American line. This is regarded as significant. Most of the intelligent rebels realize that their families are only safe inside the territory controlled by the Americans.

Except for a few shots fired at a small body of rebels who were attempting to destroy the railroad bridge near Caloocan, all was quiet along the line last night.

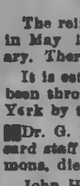
Will Extend Jurisdiction.

Washington, Feb. 17.—The Administration has determined rapidly to extend the jurisdiction of the United States over the whole of the Philippine group.

Soon Left Her.

"I was taken with swelling in my feet and limbs. I was not able to walk for four months. I read about Hood's Sarsaparilla and procured a bottle. Before I had taken it all the swelling left me. I took three bottles of Hood's and have not been troubled with swelling since." Rebecca Seevers, Chatham, Ont.

Hood's Pills cure all liver ills. Easy to take, easy to operate; reliable, sure. 25c.



Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other, as all Mixtures, pills and imitations are dangerous. VALUABLE
Residential Properties
FOR SALE
In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Charlotte and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Contains ten rooms. House is good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containing seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 100 feet square.

Parcel No. 4. Brick residence, corner Wolseley and Benson streets. Two storeys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 100 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases. Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

Broken Prices
—FOR CHOICE—
...Broken Lots.
o o o

AFTER STOCK-TAKING is the time for thrifty buyers. In going over our Winter Stock, we have laid out many Special Lots for Sacrifice.

For the next two weeks we make a general clean-up of Winter Clothing, Men's and Boys' Overcoats, Suits, Odd Pants, Odd Vests, Remnants and choice Ends of Tweeds and other Cloths.

Now's your chance—old probs predicts plenty of Overcoat weather, yet and you will find the best money's worth here:

A Lot of Boys' Overcoats for $2.00.
A Lot of Men's and Youth's Overcoats at Half Price.
A Lot of $1.00 and $1.50 Boys' Suits for $1.00.
A Lot of $3.50 and $4.00 Boys' Suits for $1.50, all solid goods, not a shoddy garment in any of the lots.
A Lot of $1.50 Pants for $1.00.
A Lot of 35c. Shirts and Drawers for 25c.

Do You Want Consumption?

We are sure you do not. Nobody wants it. But it comes to many thousands every year. It comes to those who have had coughs and colds until the throat is raw, and the lining membranes of the lungs are inflamed. Stop your cough when it first appears, and you remove the great danger of future trouble.

Ayer's Cherry Pectoral

stops coughs of all kinds. It does so because it is a soothing and healing remedy of great power. This makes it the greatest preventive to consumption.

Put one of Ayer's Cherry Pectoral Plasters over your lungs

A whole Medical Library Free.

For four cents in stamps to pay postage, we will send you fifteen medical books.

Medical Advice Free.

We have the exclusive services of some of the most eminent physicians in the United States. Unusual opportunities and long experience enable them for giving you medical advice. Write freely all the particulars in your case. You will receive a prompt reply, without cost.

Address, DR. J. C. AYER, Lowell, Mass.

Czar Called on Dr. Schenck.

Vienna, Feb. 18.—The latest inquirer into the secret of sex discovery of Dr. Schenck is no less distinguished a personage than the Czar of Russia.

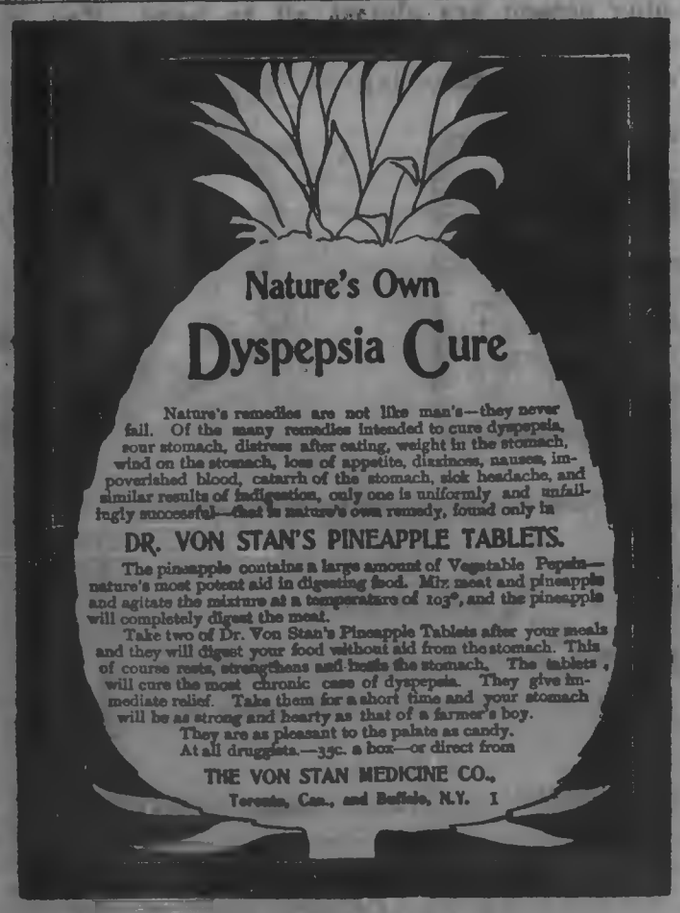
There is at present great stir in the Imperial household of St. Petersburg, in anticipation of a probable heir to the throne, who is expected to make his appearance some time in May. The Czar has expressed the hope that his next child shall be a boy, and for this purpose he has consulted Dr. Schenck lately. Both of the children of the Czar are girls.

Volunteers in Trouble.

Kingston, Ont., Feb. 18.—Eleven volunteers of No. 2 Company, 7th Battalion, quit Fort Henry yesterday morning. They claim they were not properly clothed, fed and quartered. They went to bed hungry and spent sleepless nights trying to keep warm. The men belong to Kingston, though joining the Sydenham Company. They say they were not sworn in and had not signed the roll. They will likely be court-martialed.

Kidney-Bladder Trouble.

There is no more serious menaces to good health in the present age than kidney disorders, and it's appalling fact, but a true one, that four-fifths of the country's people have the taint of this insidious disease with them. Dr. Chase's Kidney-Liver Pills cure all kidney diseases.



Sold by H. S. Macdonald and Ormond & Walsh.

ALASKAN BOUNDARY.

Outcome of Negotiations All Depends on That Question.

CANADA'S RIGHTS ASSURED.

The Canadian Commissioners Strongly Maintaining Their Position That the Word "Ocean" Means More Than Such an Outlet as the Lynn Canal—Messrs. Fielding and Sifton Summoned.

Washington, Feb. 18.—There is reason to believe that everything now depends on the settlement of the Alaskan-Canadian boundary. No progress can be made on any other matter until this is settled and until the Canadian commissioners have obtained from the Americans either a fair compromise or a reference to judicial arbitration. If the matter is arbitrated the arbitrators must have before them as an open question the full extent of what the British commissioners claim to be the rights of Canada. The question is a complicated one, arising out of the interpretation of the treaty made between England and Russia, but the point of immediate importance is the manner in which the line dividing the American strip of coast from our possessions shall be traced. The Americans claim that it shall follow every winding and inlet of the coast, thus giving them control of the shore of the Lynn Canal. The Canadian position is that the word ocean is not properly applicable to such a body as the Lynn Canal, and that the boundary line should cross the canal, thus giving Canada control of the upper shores of the canal and of its ports. From this it will be seen that the Canadian commissioners have not been prolonging their stay in Washington in the hope of obtaining further concessions in regard to reciprocity or any other matter, but have been trying to settle grave and delicate questions. The commissioners have two clear duties before them, one to see that the rights of Canada are not abandoned or imperilled, and the other to exhaust every honorable means of settling the question. The very delay which is causing so much comment is an evidence that these duties are being loyally and faithfully performed. The settlement in this case is not a matter of convenience or of possible advantage, but of necessity, and it is ill to ask the commissioners to abandon their task out of mere impatience.

Lord Herschell's Injuries.

The surgeons have discovered that Lord Herschell has fractured one of the bones of his hip. No danger is apprehended, but it will be necessary for him to keep to his bed for four weeks. The general opinion is that this alone would not necessitate adjournment, but it may combine with other causes to bring about such a result.

Ottawa, Feb. 18.—It looks as if the negotiations at Washington had reached an acute stage, and that something decisive is impending. Messrs. Fielding and Sifton left for the American capital yesterday, in response to a summons from Sir Wilfrid Laurier.

THE CLOSING MEETING.

Mr. Robert Holmes' Supporters Hopeful That He Will Win Tuesday.

Goderich, Feb. 18.—A mass meeting in the interests of Mr. Robert Holmes, the Reform candidate in the West Huron bye-election, was held at the Opera House here last night. The meeting practically closed the campaign, and all are now eagerly awaiting the coming of Tuesday next, when the voters of the riding will by their ballots decide which of the two Bobs shall represent them in the House of Commons. The supporters of Mr. Holmes are very hopeful, and state that the telling addresses of the Cabinet Ministers and the abilities of the candidate cannot but result in victory. Mr. McLean, the Conservative candidate, and his friends are not now so certain of their chances, and admit that the abilities of Mr. Holmes as a platform speaker and his comprehensive armor of the great questions at issue have told against Mr. McLean, who, although a man of good business ability, is a poor platform speaker, and has on no occasion since the series of meetings commenced publicly discussed the political situation or expressed any opinion on the merits or demerits of the present Government. The audience at last night's gathering was a very large one, and the meeting throughout was enthusiastic. Mr. W. Proudfoot, president of the Reform Association of West Huron, occupied the chair, and the speakers were Hon. J. I. Tarte, Hon. William Paterson and Mr. Holmes.

THEY WANT TO DO AS DONE TO.

The Lumbermen's Association Favors an Import Duty on Lumber.

Toronto, Feb. 18.—The annual meeting of the Lumbermen's Association was held yesterday afternoon in the Board of Trade building.

The following resolution was unanimously adopted: That this association reiterates its opinion formerly expressed, that, in the absence of reciprocity in timber between the United States and Canada, the Dominion Government should impose an import duty on lumber corresponding to the duty imposed by the United States, and thereby remove an injustice which at present exists to Canada and Canadian lumbermen, and that the management committee be authorized to press these views upon the Government in the event of the reciprocity negotiations at Washington failing.

The officers elected were: President, John Bertram; vice-presidents, James Scott and J. E. Murphy; secretary, W. B. Tindall.

MR. COLE ENDORSES.

The Report of his Cure of Rheumatism.

By Dodd's Kidney Pills When Every Other tried Remedy had Failed—His Case was Exceptionally Severe but Quickly Yielded to Dodd's Kidney Pills.

Windsor Feb. 17.—Mr. F. H. Cole whose case was reported in the Canadian newspapers, last week, was met by a friend on the street, a couple of evenings ago.

Hello! Is this true that I have been reading about you being cured of Rheumatism, by Dodd's Kidney Pills? asked his friend.

"Why certainly it's true. Otherwise I should never have permitted it to be published," answered Mr. Cole.

"And did Dodd's Kidney Pills really cure you, or was it your doctor's medicine?"

"I wasn't taking no doctor's medicine. I wasn't using anything except Dodd's Kidney Pills. Therefore it could be nothing else but Dodd's Kidney Pills that cured me."

"Was it a mild case of Rheumatism?"

"Not by any means! It was, on the contrary, an exceptionally severe one. I suffered more than I can describe. I tried several of the remedies that were recommended as being "sure to cure" me. But though one or two of them gave me a little temporary relief, none went anywhere near curing me.

"When a friend urged me to try Dodd's Kidney Pills, I demurred. I believed they were no better than the other remedies I had used. However, I bought a box, and began to use them.

"I soon began to feel easier. My sleep came back; the terrible pains vanished, and four boxes of Dodd's Kidney Pills made my cure complete and thorough. I cannot speak too highly of them, and I shall recommend every sufferer from Rheumatism to use them, knowing they will positively cure."

Joseph Weston Shot Himself.

Windsor, Ont., Feb. 17.—Yesterday afternoon at 3 o'clock Joseph Weston shot himself dead at the house of Mrs. Judson Wright. The unfortunate man, who is about 26 years of age, belonged to Sarnia. The act was due to despondency, brought on by illness. The deceased, who just came to Mrs. Wright's house the day before, had been in Detroit looking for work. He had been in ill-health for a long time, and this preyed on his mind.

Marie Wainwright Broke.

New York, Feb. 17.—Marie Wainwright Slaughter, known as Marie Wainwright, the actress, has filed a petition in bankruptcy, with liabilities $11,059, and assets $100 on clothing, which she claims is exempt.

Prepare for Spring.

Don't let this season overtake you before you have attended to the important duty of purifying your blood with Hood's Sarsaparilla. By taking this medicine now you may save sickness that will mean time and money as well as suffering later on. Hood's Sarsaparilla will give you rich, red blood, good appetite, good digestion and a sound healthy body. It is the greatest and best spring medicine because it is the One True Blood Purifier. Its unequalled record of marvelous cures have won for it the confidence of the whole people.

Duels Are Always Dangerous.

Youngstown, Ohio, Feb. 18.—A burlesque duel almost proved fatal at the Waite Opera Company's "Said Pasha" matinee yesterday. Claude Amsden fired at Frank Wooley at close range. The wad from the cartridge pierced Wooley's left breast. He dropped unconscious. It is a serious wound, but not fatal.

$150,000 for Kitchener.

London, Feb. 18.—The Chancellor of the Exchequer, Sir Michael Hicks-Beach, announced in the Commons yesterday that the House would be asked to vote $150,000 for Gen. Lord Kitchener of Khartoum, which sum would probably be invested for his benefit.

His Life Was Saved

M. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1.00, at any Drug Store, every bottle guaranteed.

THE ODORLESS

CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully, JAMES CONWAY.

Shedden, February 28th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long felt want and I believe it will become very popular especially in rural districts, towns and villages where wells are so frequently contaminated by the ordinary closets. I am, yours, etc. W. H. MORRISON

Medical Superintendent's Office, Sept. 20th, 1897 Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 20 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once, before it has a chance to vitiate the surrounding atmosphere. Yours truly, JAMES RUSSELL, M.D.

Binbrook, Sept. 20th, 1897.

Dear Sirs—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country homes. Yours truly, M. J. MULLOCK.

ROBERT McWHINNIE, George Street

A NEW INVENTION!

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. *In addition to* the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Upright and Square Pianos of the various makes taken in part exchange for the famous NEWCOMBE PIANOS. Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

" Thos Brown.....Outside Herald
" Sidney B Weir..... } Auditors
" J Hetherington..... }

At a meeting of the Chapter on Tuesday evening last two candidates were advanced to the Royal Scarlet.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

Evangelist Jenkins, of Keswick, is holding revival services at Warsaw.

A Carnival was held at Keene last evening, and quite a number of young people from town attended.

—Mr. Dick Martin was busily engaged yesterday in thawing out the mains of the Ashburnham waterworks.

The Hunter street bridge is entirely bare of snow, and farmers with heavy loads experience great difficulty in crossing it.

Mr. Paul Casseneuve, who appeared here a few months ago in the "Three Guardsmen," is touring the Dominion in "Faust."

—A concert was held at Zion, Otonabee, Thursday night by the Zion Court, C. O. F. A number from Peterborough took part.

—A large number of wild ducks have been noticed during the past few days in the vicinity of the Hunter street bridge.

—The town had a number of men engaged to day cutting trenches on the different streets in anticipation of the usual spring thaw.

Through the kindness of Mr. A. E. Mosley, the choir of All Saint's Church enjoyed a very pleasant drive last evening. Afterwards they were entertained at the home of Mr. Arnott, in Monaghan.

—In referring to the present change in the weather, the Bobcaygeon Independent says:—Don't let this spring-like touch fool you into laying away your fur coat. Our muskrat says there is a ripping old blizzard not far off—early next week. He feels it in his tail.

—Miss L. Bell, of Keene, late pupil of Herr Klingenfeld, has re-opened her violin classes in town. Pupils wishing instruction may inquire at the Peterborough Music Store, 404 George street. Engagements accepted for parties and receptions. Miss M. McCabe, accompanist. 6ws

To-days Market.

The market this morning was slimly attended, many farmers being prevented from attending with their produce, owing to the poor sleighing, which in some portions of the country has entirely disappeared. There were several loads of wood on the square, and upstairs in the market hall very little produce was being offered. There was very little change in the prices of last Wednesdays market.

A CARD.

Mr. Ed. Heintzman, 266 Monroe Ave., N. J., advises all men who are weak and who desire a speedy and perfect cure to write to Dr. Gustav E. Roberts, 266 Woodward Ave., Detroit, Mich.

Annual Subscriptions.

The Board of Management of the Children's Aid Society, desires publicly to acknowledge the following membership fees for 1899:—Dr. Burnham, $1; Mrs. Geo. Burnham, $1; Miss Code, $1; Mr. J. H. Burnham, $1. They would also convey their thanks to Mr. J. J. McBain for picture books and boys clothing; Miss Edwards, girls' clothing; Mrs. Cooney, Ashburnham, clothing. Miss Pousette, clothing.

Extensive Consignment.

Indications of spring activity and hopefulness of merchants are already apparent. Among recent arrivals of new goods for spring at the Peterborough Bookstore is an unusually large consignment of ten cases of window shades (2,600 shades). These were purchased at a special price for a large quantity, and will justify the public in looking for specially good values in shades. A very extensive shipment of wall paper is also expected to arrive in a few days at the Peterborough Bookstore, consisting of ten tons of newest designs for 1899. This consignment will arrive in three shipments from the three best factories on the continent.

BOARD OF TRADE'S HEARTY ENDORSATION

Of a Deputation's Mission to Montreal Next Week.

TO STRENGTHEN THEIR HANDS.

A Strong Effort to be Made to Enlist the Interest of the Members of Montreal's Board of Trade and Chamber of Commerce.

At a special meeting of the Board of Trade held last evening in the Council Chamber, Mr. Robert Fair was asked to preside and stated in calling the meeting to order that the members had been called together for the purpose of passing such a resolution, embodying the sentiments of the Board, which would tend to strengthen the hands of a deputation which would appear next week before the members of the Montreal Board of Trade and Chamber of Commerce, for the purpose of enlisting the sympathy of the business men of Montreal.

Mr. D. W. Dumble stated that as the Government was not taking the steps considered necessary towards completing the Trent Valley Canal system, it had been thought advisable to urge upon Parliament the necessity of continuing the work. As the influence of Montreal would more than offset the opposition of Toronto, an effort was being made to interest the business men of that city, hence the deputation which would go there next week. On behalf of Mayor Davis, seconded by Mr. J. B. Oke, he moved the following resolution:

"Whereas the wondrous development of lands west of the Great Lakes is but a forecast of a greater growth in the immediate future, and it is now generally recognized that greater facilities for transport of Western products must be had in order that the producer may get adequate returns for his labour, and to induce a more speedy settlement of our boundless Western plains. And whereas the cry of Toronto for the expenditure of the nation's money to deepen Toronto and Collingwood harbours and to construct an air line railway between the ports is but a recognition of the inevitable necessity for greater facilities for transporting produce to the seaboard and a wish to toll it by the way.

And whereas it is recognized that the route to the seaboard via Buffalo holds its trade—against immense disadvantages in distance—by reason of the Erie Canal.

And whereas the route to Montreal by way of the Trent waters is the natural outlet, having a vastly greater capacity than the Erie and is a much shorter route, this board re-affirms its faith in the Trent navigation as the cheapest and most effective mode of transport from the Great Lakes to the sea port at Montreal.

The distance from Duluth to Liverpool by way of the Trent and St. Lawrence is 730 miles shorter than via Buffalo and New York. The capacity of the Trent water route at its most restricted points will be greater than the Erie after the expenditure of $17,000,000, now appropriated for deepening and improving the latter.

The Trent waters are for the most part wide, open waters, where a tug may haul a dozen barges—the shores will stand the use of steam power at every point. Nature destined it as a through route, and completed two-thirds of the way, and the people look to this Government for the speedy completion of the other third.

The completion of this water route, supplemented with the competing railway lines from the magnificent deep harbours at Parry Sound and Midland make a system wholly superior to that of the Erie and its competing railways, and form the ideal route with which Canada with a tithe of the energy of our American neighbours, can command the greater share of the grain trade of the West.

This Board recognises that every dollar added to the value of western produce by cheapening freights is a dollar to be expended in trade with the East.

This Board, therefore, submits that the greatest energy should be exerted by the Dominion Government to complete the Trent canal, and thus give to our country all the advantages which her geography and natural facilities proclaim to be hers by natural law.

This Board strongly urges that, irrespective of all local considerations, the entire country should advocate the claims of a route which it is vain to oppose, and which, once properly recognized and developed, will make Canada and Canadian ports the great highway by which the boundless trade of the West will seek its way to Europe to the enrichment and glory of our country."

The resolution was unanimously carried, and on motion copies of it will be struck off and forwarded immediately to the members of the Montreal Board of Trade and the Chamber of Commerce, as well as to the Mayor and Aldermen of the city and others whom it is desirable to interest.

PERSONAL

Mrs. Robt. Herron, of Burnley, is visiting friends in town.

Mrs. (Dr.) Perry Goldsmith, of Belleville, the Sun says, is visiting her father, Mr. A. L. Davis, Mayor of Peterborough.

Mr Howard Stuchbury, of Toronto, will sing "One Sweetly Solemn Thought" in St. Andrew's church to-morrow morning.

A jolly sleighing party, composed of Miss Clark, of Wicklow, Miss Louise Fowler, Colborne, and Mr. Rupert Clarke arrived in town from Colborne yesterday with a team and Gladstone sleigh on a short visit to relatives.

A letter from Miss Katherine Middleton, who spent the summer in Peterborough, dated from Mobile, Ala., states that on Sunday Feb'y 6th, the temperature sank to five degrees below zero, destroying flowers, foliage and etc., and creating a famine in vegetables. Serious consequences may attend such an unprecedented occurence.

What is It?

Catarrhozone is a liquid, fragrant and cleansing, which rapidly volatilizes when inhaled. What is it for? It is an absolute, never-failing cure for catarrh of the throat or nasal passages. *Is this true?* We are so sure that it will cure you that we will send you, prepaid, a free sample of Catarrhozone and an inhaler if you send your address within one week. Write us.

OBITUARY.

THE LATE ANDREW TULLY.

One Friday evening one of the oldest residents of Smith, in the person of Andrew Tully, Esq., passed away in his 72nd year. Mr. Tully had been ailing for the past two or three years, but had not been confined to his room for more than six weeks.

The deceased leaves a wife and five children—four daughters and a son.

Mr. Tully when a boy came to this country with his father, and has resided in this locality for the past 68 years, and watched the growth of the Province, town and county with satisfaction and pleasure, as he was an enthusiastic Liberal of progressive views. In religion he was a Presbyterian, and a member of the Lakefield church. He was of a retiring disposition, and never sought office. Highly esteemed by his neighbours and friends his loss will be deeply felt by the community.

The funeral will take place from the family residence lot 2, in the 3rd concession of Smith, at one o'clock on Sunday afternoon.

THE LATE GAVIN BROWN.

Mr. Gavin Brown of Water street, died to-day at noon, in his 55th year, the immediate cause of death being congestion of the lungs. Mr. Brown was only a few days in bed, and some hope was entertained that he would rally, but early this morning it was apparent that death was near. He was a native of Berwickshire, Scotland, and has been a resident in Canada for 26 years, 14 of which have been spent in town.

The deceased leaves a wife and nephew and neice, Mr. H. Bathgate and Miss H. Bathgate, besides a large circle of relatives, to mourn his loss.

The funeral will take place on Monday, from his late residence, at 2 o'clock.

THE LATE TIMOTHY SULLIVAN.

Mr. Timothy Sullivan, an old and highly respected resident of Ennismore, died at St. Joseph's Hospital to-day, where he had been confined for some days. The funeral will take place from the hospital on Monday morning at ten o'clock and proceed to the Ennismore cemetery.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this morning, as well as the highest and lowest yesterday—shade temperature :—

MR. STRATTON'S SPEECH IN THE BUDGET DEBATE.

Press Opinions in Regard to it—Commendation Expressed.

The following excerpts from Toronto papers dealing with Mr. Stratton's speech in the budget debate in the Ontario Legislature, will be of interest :

The Toronto Star (Independent) says :—In dealing yesterday with the address made by Mr. Stratton, delivered the day before, I said that he had little to tell which was really new, and that the merit of the message which he delivered was that he told the story well, and put a new light on what had already been told, had been told years ago. Yesterday Mr. Stratton did say much that was new, and much that was interesting, and it was more interesting, too, because it came from Mr. Stratton. He dealt extensively with the proposed bill to supplement provincial revenues, and though Mr. Stratton stated definitely that he was speaking for himself, yet he is so very near the Cabinet that his ideas are probably not so very different from those of the Ministers, who are framing the new bill, especially as Mr. Stratton is an authority on financial questions.

"I believe," said Mr. Stratton, "that all financial companies should contribute to the maintenance of government and the development of the Provinces of Ontario. I believe that trust companies should pay, that banks should pay, that insurance companies, both fire and life, that telephone companies, and that telegraph companies should pay throughout the Province of Ontario, and that it should all come into the treasury of the province, and not into the treasuries of the municipalities."

So much for loan companies, but Mr. Stratton's address was interesting for another and almost more important reason. It is in connection with his very strong remarks on the prohibition of the exportation of pulp that I refer. He maintained that from the stump to the newspaper office the pulp should be manufactured in Ontario. Canadian pulp, like Canadian cheese, should, and would, control the British market. He advocated the encouraging of our nickel and corrundum industries, and in this way wound up a very excellent speech.

The Toronto World "Conservative" says :—

The speech of Mr. Stratton on Thursday during the debate on the address, or the latter part of it at any rate, was a noteworthy one. It was a triumph call to the Legislature to rise to something higher than mere party squabbling, and address itself to the task of developing the natural resources of New Ontario, of the agricultural, mineral and forest wealth, which which there awaits the awakening touch of industry. In dealing with this subject, Mr. Stratton showed the grasp of a statesman, combined with the careful attention to details of the level-headed business man. Upon the developement of the Lake Temiscaming, James Bay and Rainy countries, he held that the future welfare of Old Ontario depends. But he did not stop when he had said this. He showed how this vast territory could be developed and how this development could be made to enrich and build up Canada and particularly Ontario.

In these days trade and population follow rather than precede transportation development, and Mr. Stratton rightly urged that the first step must be to build the needed railways, construct and develop available waterways and open up all necessary means of communication. He dealt with this branch of his subject in no narrow, parochial way. The Ontario and Georgian Bay Railway, the Ottawa and Georgian Bay Canal, railways to open up the James Bay and Rainy River country ; the Trent Valley waterway, would all be for the benefit, not of New Ontario alone, but the whole Dominion, and he invited the new Legislature to consider the question of their construction in a broad national spirit. He warned the members that while they were discussing such questions as whether a certain sixty thousand dollars should be called "interest" or "subsidy," and while small matters and mere party politics were engaging the attention of our public men, the people of Quebec were moving to enter upon and secure the trade of the vast territory which is naturally ours. As to the cost of the needed transportation lines he showed that it would be paid many times over by the natural wealth they would render available.

Evidently Mr. Stratton has closely studied the question of how Ontario's latent wealth can be best developed for the benefit of her people. His declaration that our pulp wood and our minerals should never be exported in the raw or semi-manufactured, but always in the manufactured, state, was a wise, national economic platform in epitome. He did not, however, content himself with laying down this principle, but showed that in the matter of pulp wood and nickel, at any rate, we have, as The World has so often pointed out, what amounts to a practical monopoly. The figures he gave the House regarding pulp must have been something in the nature of a revelation to some of the members on the front as well as on the back benches. England's annual consumption of pulp is $9,700,000, or a clear nine million more than the value of Canada's entire export. Startlingly suggestive figures these, and rendered all the more so by the fact of which Mr. Stratton informed the House, that the fibre of Canadian spruce is so much superior that its greater economic value is sufficient to fully counterbalance the lower freight from Norway, from which country England now gets most of her pulp. At the present rate of consumption in the United States, running up into the billions, that country's supply of pulp wood cannot last above ten years, and then, if Mr. Stratton's advice be taken, our neighbours will have to come to us as suppliants, and the conditions we now blush for at Washington will be reversed.

Along the lines mapped out by Mr. Stratton must Ontario's iron mines be developed and, in connection with the nickel policy he advocates, that development would give to Canada a manufacturing pre-eminence, the contemplation of which should inspire our public men to be not mere politicians, but the statesmen he invites them to be.

Everything Up-to-date at MRS. APPLEBY'S FANCY GOODS STORE, 426 Water Street.

Children's Aid Society.

The Children's Aid Society has for adoption five children : A girl eleven years of age, active and intelligent ; a girl of nine years of age, willing and obedient ; two little girls, one five and one six years of age ; and one child aged three, also a girl. The foster parents in each case must be of the Roman Catholic faith.

Go to-night and witness the brilliant illumination by ACETYLENE GAS at Mr. Noble's Plumbing and Gas Fitting Store, Simcoe street. The Forsythe Acetylene Machine will be on exhibition and explained by Mr. Bryant an expert representative.

Announcement.

To those who are interested in buying or thinking of buying Furs, we will from the present to the end of the season quote prices that we will guarantee cannot be beaten for lowness in town.

This assurance with the fact that we have the reputation of manufacturing Superior Goods to others in the trade, should make a strong inducement for you to buy.

We cordially invite your inspection of our Furs. It will pay you well to purchase now.

VANDERBILT.

CLUXTON.

SIR,—We will now consider some of the greatest and boldest speculators and describe their operations in stocks.

Vanderbilt was born on Staten Island. He started life a penniless lad, pushing his ferry boat from Staten Island, rowing his passengers to New York. He began life poor, and died worth one hundred millions of dollars. He adopted the cash principle, on which he ever afterwards transacted his gigantic business. In his heaviest transactions he paid cash for everything. If he wished a rise in prices he bought up all that was offered ; if he wished to break the market he threw his stock upon it and the work was done. He took up the Harlem railway when it was a byword and derision, and made it a road of value. He wanted to consolidate the Harlem Railroad with the Hudson Railroad. Enough of the Legislature was supposed to have been secured to carry the measure. The parties who had agreed to pass the bill intended to play foul. Besides, they thought they would indulge in a little speculation. They sold Harlem, to be delivered at a future day, right and left. They let their friends into the secret, and allowed them to speculate. Clear on to Chicago there was scarcely a railway man who was not selling Harlem "short." The expected consolidation ran the stock up. The failure of the project would of course, run it down. A few days before the vote was taken, some friends called upon Vanderbilt, and gave him proof that a conspiracy existed to ruin him in the matter of the consolidation, and, with the aid of friends, he bought all the Harlem stock that could be found, and locked it up in his safe. True to the report, the bill was rejected. The men who had pledged themselves for it voted against it. They waited anxiously for the next morning, when they expected their fortune would be made by the fall. To the surprise of everybody, the first day it remained stationary, then it began to rise steadily, to the consternation and terror of the speculators. Then there was no stock to be had at any price. Men were ruined right and left. Fortunes were swept away, and the cries of the wounded were heard up and down the Central Railroad. One man who expected to make fifty thousand dollars by the operation, became penniless. Another operator in New York lost two hundred thousand dollars. Very many were ruined. But Vanderbilt made money enough out of the attempt to ruin him, to pay for all the stock he owned in the Harlem Road.

Vanderbilt was never thrown in his stock speculations. Combinations and conspiracies were formed to slaughter him. In every case his gain was a decided victory, and he slaughtered his enemies. Vanderbilt built a fine ocean steamship. The Collin's line was then in its glory. Collins was subsidized, haughty and imperious. One of the steamers on his line was disabled. Vanderbilt wanted to try his hand at carrying the mails. He visited Collins and made an offer to put his ship, all ready, in the place of the disabled steamship. He would charge Collins nothing for the use and would take the vessel off as soon as Collins' steamer was ready. The owner of the line was afraid if Vanderbilt got in at all it would be difficult to get him out. He treated the Commodore cavalierly, peremptorily declined the proposal and turned to his business. Vanderbilt looked at him from head to foot and thus told Collins that the time would come when he would be glad to come to him and beg for assistance. Personally, and through his friends, he assailed Congress on the subsidy—he offered to convey the mail without a bonus and at a cheap rate. He pursued his purpose till he drove the Collins' line from the ocean.

A large house on the street was carrying with Vanderbilt a great quantity of stocks. The house attempted to play a little sharp practice on Vanderbilt. He instantly threw the whole of his Lake Shore property on the market, which carried the house down, creating a disastrous failure.

A man who could ride down town in the morning, visit a dozen banks and say to each, "I shall want some money in a week or two, how much can I have? Here are my securities. I will take it now. I don't know when I shall want it," and in that way lock up ten or twenty millions, was not a man to be trifled with.

For years Vanderbilt and Drew moved together. If money was wanted for any operation Drew furnished one-half, Vanderbilt the other. Drew broke with Vanderbilt and tried a little financiering of his own, to the damage of the Commodore. Vanderbilt instantly went on the street, tied everything up, produced a panic, and made his enemies suffer by hundreds of thousands of dollars. When Vanderbilt was eighty years of age he was as erect as a warrior. His flowing hair, snow white, the simple white cravat of the olden time, plain black dress, and a clerical build, gave him the appearance of a University professor. His great passion was for horse-flesh. He spent an hour every morning in his stables before he went to his offices. Every afternoon he could be seen at Central Park and on the road where fast horses were put to their mettle. At one time he invited a friend to ride with him. He proposed to cross Harlem railroad, the express train being in sight. In spite of remonstrances he gave the well-known word, and his steeds started with the fleetness of deers. The wheels had scarcely left the track when whiz went the locomotive by as on the wings of the wind, lifting the hats o Vanderbilt and his friend by the current which it created. "There is not another man in New York that could do that!" the Commodore said. "And you will never do it again with me in your wagon!" the friend replied. He was a hard driver, pushing his teams as he pushed his business.

A CARD.

We, the undersigned, do hereby agree to refund the money on a twenty five-cent bottle of Dr. Wills' English Pills, if, after using three-fourths of contents of bottle, they do not relieve Constipation and Headache. We also warrant that four bottles will permanently cure the most obstinate case of constipation. Satisfaction or no pay when Wills' English Pills are used.

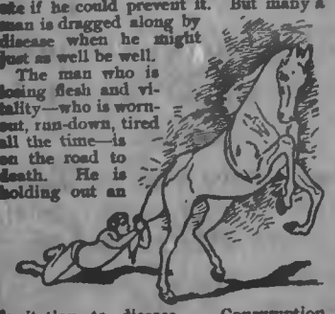
Fruit and Commission Merchants, 415 George St. 'Phone 204.

A man dragged by a wild horse would cut himself loose if he could. He would not

have his flesh bruised and torn for a minute if he could prevent it. But many a man is dragged along by disease when he might just as well be well.



The man who is losing flesh and vitality—who is worn-out, run-down, tired all the time—is on the road to death. He is holding out an invitation to disease. Consumption comes by neglect. Heart disease is a growth from other disorders. Nervous prostration doesn't come in a day.

Take Dr. Pierce's Golden Medical Discovery at the first sign of failing health and you will seldom be very sick. The "Golden Medical Discovery" is the best blood-maker—flesh-builder—nerve-vitalizer. It frees the body from all disease germs. It invigorates the whole digestive system and strengthens heart, lungs and brain. Hundreds of thousands of grateful patients have testified to its value.

George H. Belcher, Esq., of Dorton, Pike Co., Ky., writes: "Thirteen years ago I was wounded by a ball passing through my lung. I had a bad cough almost ever since with shortness of breath; the slightest change of weather would cause the cough to be so bad I would have to sit up in bed all night. A few months ago I began using Dr. Pierce's Golden Medical Discovery, and now can eat, sleep and work, and I feel like a new man."

Dr. Pierce's Medical Adviser sent for 31 one-cent stamps to cover customs and mailing *only*. Cloth binding 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

WHEN THE STARS FELL.

The Shower of 1833 Worked the Negroes Into a Frenzy.

"I remember," said an old man in a high back chair, "when the stars fell in November, 1833. We spoke of it in that way then. Now you call it a meteoric shower or flight of aerolites. When I saw them in 1833, I was with a colony of emigrants. We were going from the south to the west. We had camped on a bank of the Cumberland river in Tennessee. We had our negroes with us, nearly 200.

"About 2 o'clock in the morning we were aroused from our wagons, for we were camping in them, by the wailings, shouting and lamentations of the negroes. They were in pitiful frenzy. They were so frantic that they were unable at first to explain their actions. We first discovered the cause by their repeated upward gestures, and then we saw the stars falling. In truth, it was an awe inspiring sight. They seemed to fall from the zenith to every point on the horizon. It was not the shooting motion I have seen since and which I had seen before. It was a gradual, graceful, symmetrical fall, as you may have seen in a fall of snow where the flakes were large and there was no wind. The light was peculiar, about like that which creeps over the earth when there is total eclipse of the sun.

"The whites were so busy quieting the negroes that I do not remember the length of the exhibition. I think it must have died away gradually. But I do remember that during the shower one meteor seemed to fall from the zenith perpendicularly and assumed before it vanished a wriggling motion, so that the negroes said it was the serpent that had done the mischief in Eden.

"I remember that our journey on the day following was postponed on account of the religious frenzy which took possession of the negroes. All who were old enough 'got religion,' some of them a second time, and they all insisted upon being baptized in the Cumberland river, and my father, who was a minister, administered the rite until his arms gave out, and then he delegated his authority to one of the muscular converts, who exhorted as he plunged and pulled the saved into and from the waters. But it takes something more than a shower of stars now to convert a man, whether he is white or black." —New York Sun.

Red Hot From The Gun.

Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth, 25 cents a box. Cure guaranteed. Sold by all Druggists.

"By Your Leave."

When Miss Ellen Terry was to appear at a theater in Bradford one season, the place was crowded hours before the commencement of the play. Just before the advertised time to begin a workman, a regular Yorkshire type, with a hammer in his hand, was seen at the back of the gallery, trying to get down to the front.

Thinking he was on business, the "gods" responded readily to his, "By your leave," and after great trouble he worked his way to the front seat. All eyes were upon him to see what he was going to do, when amid great laughter, applause and groans he calmly crushed into a seat, and all efforts to remove him were fruitless.

Doing His Best.

"Do you know, Paul," said Ethel tremblingly, "I sometimes fear that you don't love me any more?"

"Right you are," said Paul, embracing her. "I couldn't."

And Ethel heaved a sigh and settled down contentedly.

THE CHINESE JEWS.

A Synagogue In Kae-Fung-Foo—Mystery of the Origin of the People.

Among the most remote colonies are the Jews of China, who have aroused interesting inquiry and been the theme of many French writers. Early in the seventeenth century and shortly after the Italian missionaries had come to Peking one of them, Matthew Ricci, received a morning call. His visitor wore the gorgeous Chinese dress, including the cue, but the figure and face were not Mongolian, and the smiling countenance was not in keeping with the dignified solemnity of a Chinaman. The gentleman's name was Ngai, and he had heard of the arrival of some foreigners who worshiped one Lord of heaven and earth and who yet were not Mohammedans. He belonged to the same religion, he explained, and had called to make their acquaintance. Now, Master Ngai made it clear that he was an Israelite, a native of Kae-Fung-Foo, the capital of Honan. He had come to Peking to pass an examination for a mandarin degree, and had been led by curiosity and brotherly feeling to call at the mission house.

In his native city, he said, there were 10 or 12 families of Israelites, and a synagogue which they had recently restored at the expense of 10,000 crowns, and they had a roll of the law 400 or 500 years old. The missionary's letters described this synagogue. It occupied a space between 300 or 400 feet in length by about 150 in breadth, and was divided into four courts. It had borrowed some decorative splendor from China. The inscription in Hebrew, "Hear, O Israel! The Lord our God is one Lord, blessed be the name of the glory of his kingdom forever and ever," and the Ten Commandments were emblazoned in gold. Silken curtains inclosed the "Bethel" which enshrined the sacred books and which only the rabbi might enter during the time of prayer. Every detail of this place, with its incense, its furniture and all its types of good things yet to come, is interesting. There in the last century the children of Israel at Kae-Fung-Foo worshiped the God of their fathers with the rites that pointed to the Messiah, of whose advent, as far as it can be ascertained, they never heard until the arrival of the Italian missionaries.

Learned men have entered into discussions as to whether these people were Jews or Israelites, whether they came to China from the Assyrian captivity or the Roman dispersion. They themselves say that their forefathers came from the west, and it is probable that the settlers arrived by way of Khorassan and Samarkand. They must have been numerous in the ninth century, for two Mohammedan travelers of that period describe a rebel named Bae-Choo taking Canton by storm in A. D. 877 and slaughtering 120,000 Jews, Mohammedans, Christians and Parsees. More than one Jew of Kae-Fung-Foo is known to have gained the right to wear the little round button on the top of his cap so dear to the ambition of a Chinaman. The Taiping rebellion dispersed the settlement, and the remnant which remains faithful to the memory of old traditions is chiefly poor and distressed.—London Quiver.

Surest of All.

Diamond Dyes Excel All Other Dyestuffs.

FAST TO SOAP AND LIGHT.

These World Famed Dyes Are Home Favourites.

We have tried to use other dyes, but they did not give us satisfaction. Bought eight packages of your Diamond Dyes to dye our Woollen Yarns; the work was perfect.

For dyeing Carpets and Cotton Goods, Diamond Dyes are unequalled.

Windsor, Ont.

Best of the Lot.

"I tell you, sir, that the coexistence of mnemonic survivals with sensorial excitations is the only conceivable definition of temporal apprehension!"

"And I tell you that the invocation of mnemonics is extradatal and that sensorial continuity is the datum. The juxtaposition of mnemonic survival with sensorial impression discloses no warrant for sequential and coexistential discrimination!"—Pick Me Up.

Rivalry.

Yoh is walkin mighty scrumptious,
Yoh pickaninny boy;
Yoh's gittin dreffful bumptious
In yoh self assumin joy.
Yoh hyah yoh mammy talkin—
It ain't no use to frown.
She'll stop dishere cake walkin—
She's gwineter call yoh down!

De white folks, dey been pettin
An a-coaxin yoh to learn
Till yoh's mebber, mos' fohgettin
How yoh better min' yoh turn.
Yoh wants ter watch, I'se statin,
An be kyahful what yoh do,
'Case dar's Filipiners waitin,
An dey's mos' as black as yoh!
—Washington Star.

How It Happened.

Booker—Did you ever read a poem that put you to sleep?

Penman—Yes. One of my own did that same thing.

"Impossible!"

"No, it's not impossible. I offered it to the editor, and the editor put me to sleep."

Variable Sentiment.

"What is your opinion of municipal ownership of [illegible] railways?"

"Well," answered Senator Sorghum, after much thought, "my opinion on that point depends."

"On what?"

"On who happens to be owning the municipality."—Exchange.

DON'T TELL ANYBODY.

If no one should tell you about it, you would hardly know there was cod-liver oil in Scott's Emulsion, the taste is so nicely covered. Children like it, and parents don't object.

Children Cry for **CASTORIA.**

Cures Catarrh, Hay Fever, Rose Fever and all Head Colds. Give one blow with the Blower and the Powder is diffused, making a Sure and Permanent Cure.

PRICE WITH BLOWER 25 CENTS

LOVELY WOMAN.

One of New York's "finest," in a suit for separation, accuses his wife of having pawned his only trousers. This is an even worse offense than wearing them.—Boston Post.

It makes a man turn cold at the manner in which a woman puts his hard earned money into a pocketbook, carries it loosely in her hand and leaves it on the first counter she reaches.

A New York girl has had a man arrested, and she says, "He kissed me six times and then stopped." The account fails to state whether the man was arrested for kissing her six times or for stopping.—Louisville Post.

MR. HOUSE, OF BERLIN

Cured of Lumbago by Dodd's Kidney Pills.

Berlin Feb. 13.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past, Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Back-ache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

POULTRY POINTERS.

The evening rations should be of grain, supplied generously.

To lay well in winter hens should be well fed, but not made too fat.

The color of the eggshell has nothing to do with the quality of the egg.

If a chicken is strong and vigorous, it will come out of the shell all right.

Never confine fowls any more than is necessary unless being fattened for market.

It is important, even in winter, that there should be no overcrowding on the roosts.

Potatoes thickened with bran and meal, with milk added, make a good fattening ration.

With turkeys the stock may be greatly improved if the tom turkey is two years old and both the tom and hen are of good size, avoiding in all cases close inbreeding.

If you buy an incubator, study the directions for running it and then follow them closely. Don't imagine you know more about it than the man that made it. —St. Louis Republic.

THE ROYAL BOX.

As Duke of Rothesay the Prince of Wales is the holder of the first dukedom created in Scotland, just 500 years ago.

Emperor William is having made for his friend, the "sick man," a faithful imitation of the historic walking stick of Frederick the Great. It is to be surmounted with a knot of massive gold and to be studded with diamonds.

The shah of Persia is styled the "red king" because he wears a red turban. There have been three European rulers upon whom that title has been bestowed —namely, Amadeus VII of Savoy, Otto II of Germany and William II (Rufus) of England.

The Princess of Wales possesses a "sacred cross," which is supposed to always bring good luck to its owner. It was formerly the property of the king of Denmark, having been discovered years ago in the grave of the beautiful Queen Dagmar. Besides its superstitious interest, it is a fine work of art, and was given by the king to the princess on her marriage.

Howards' Heart Relief Cures Heart Disease and Weak Circulation

by its peculiar influence on the heart, arteries and nerves.

It also makes good healthy blood—so as to make the cure permanent.

This prescription is in daily use in the great hospitals of England, America and Germany. The great heart specialists say it has no equal for heart derangement or sluggish circulation.

Mr. John Mcnish, Garnet P. O. was recently cured of heart disease of eight years standing.

Mrs. Mary Procter, Dundas, Ont. cured of dizziness, loss of appetite and weakness. Is now the smartest lady we know at such an advanced age.

Joseph Mercure's child, Hagersville, 11 years old—born with defective circulation through the brain—was nervous and intellectually dull. Has been made bright like other children.

May be had at drug stores or by mail at 50c. per box or 5 boxes for $2.00.

S. W. HOWARD, 71 Victoria St., Toronto.

GOING! GOING! GONE.

JINGLES AND JESTS.

What I Would Be.

Oh, I would be the solitaire
That trembles in her ear,
That I might whisper love words there
That none but her could hear!

And I would be the sleeve close pressed
Upon her wonder hand,
Upon her rounded cheek to rest
Or wave a fairy wand.

And I would be the rose that rides
The billows of her breast,
That I might know its flowing tides,
Its quiet or unrest.

And I would be the looking glass
That hangs upon her wall,
Where beauties of the lovely lass
In sweet reflection fall.

Yes, I would be the looking glass,
With longing eyes to see,
For then I'd know she could not pass
Without a smile for me.
—Boston Globe.

Possibly Provoking.

Johnny—Pa, why does the man run across the street so rapidly? Is it to escape being run over by the electric?

Papa—No, Johnny. The man is trying to get around in front of the car in order to be hit by the bicycle that is laying for him on the other side.

Johnny—Will it hurt the man?

Pa—Oh, yes! But let us hope it will not throw the other man off his wheel. That would be very provoking.—Boston Transcript.

Grand Trunk Engineer Swears by Dr. Chase's Kidney-Liver Pills.

Mr. Geo. Cummings, for over twenty years engineer on Grand Trunk running between Toronto and Allandale, says:—"The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommend by my fireman, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me an I feel to-day a better man than ever. I recommend them to all my friends.

Not on a Bet.

She—I wonder why you ever married me!

He—Because I thought I loved you, of course. Did you get the notion that it was to pay a bet?—Indianapolis Journal.

The Proofreader Is a Type Righter.

Diggs—Did you employ a typewriter to copy your manuscript?

Biggs—I thought I did, but on looking over the work I discovered that I had employed a type wronger.

The Yule Log.

Bring in the merry Yule log,
And while its sparkles fly
We'll have gay cheer and jolly mirth,
As in the years gone by!

We'll sing and sup with gladness,
Let joy flood every soul,
Although the merry Yule log be
A whacking hod of coal!
—Chicago Record.

PERMANENT CURE OF CANCER.

Burdock Blood Bitters cured Mrs. Gilhula, of Buxton, Ont., 12 years ago, and she has had no return of the disease since.

SOME 12 years ago, Mrs. Elizabeth Gilhula, wife of the well-known postmaster at Buxton, Ont., was taken ill with an obscure stomach trouble that baffled for a time the skill of the leading local physicians. At last, after a careful examination, they pronounced it cancer of the stomach, and informed Mrs. Gilhula that in the nature of things her lease of life would be short, as they knew of no remedy that could possibly cure her.

On advice of friends she commenced taking Burdock Blood Bitters. The results that followed were very little short of the marvellous.

Every day she improved in health, her strength and vigor returned and in a short time she was completely cured.

Best of all, though, Mrs. Gilhula is to-day in the full enjoyment of good health, and in all these long years there has not been the slightest return of the trouble, which goes to prove how complete and permanent is the cure B.B.B. always makes.

Here is the letter Mrs. Gilhula wrote at the time of her cure:

"I wish to bear testimony to the good which I have received from the use of Burdock Blood Bitters.

"About four years ago I was taken sick with stomach trouble and consulted several of the leading physicians here, all of whom pronounced the disease to be cancer of the stomach of an incurable nature, and told me it was hardly to be expected that I could live long. Afterward the two doctors who were attending me gave me up to die.

"Through reading your advertisement and by the advice of some of my friends who knew of the virtues of Burdock Blood Bitters, I was induced to try it, and I am now happy to say that after using part of the first bottle I felt so much better I was able to get up out of my bed, which I had not been out of for a long time. I am thankful to state that I am completely cured of the disease by the use of B. B. B., although it had baffled the doctors for a long time. I am firmly convinced that Burdock Blood Bitters saved my life."

Yours truly,
ELIZABETH GILHULA.

MRS. ELIZABETH GILHULA.

Here is a letter received from her, dated March 27th, 1898:

"I am still in good health. I thank Burdock Blood Bitters for saving my life twelve years ago, and highly recommend it to other sufferers from stomach troubles of any kind."

Yours truly,
ELIZABETH GILHULA.

Could anything be more conclusive as to the permanent curative powers of B.B.B.?

The secret of its wonderful success lies in the fact that it goes to the very source and origin of disease and clears it out of the system, root and branch, so that not a trace remains to again cause trouble.

In severe and malignant diseases, such as cancers and cancerous growths, tumors, scrofulous sores, large ulcers, even if to the bone, B.B.B. applied externally and taken internally according to directions never fails to give relief, and in most cases to effect a cure.

A SOLDIER'S SWEETHEART.

You went the way that the summer went—
On the wings of autumn weather;
A flash of red and a roll of drums,
My heart and "the strength" together,
"Bound east." but since that, and the sea between,
Are England's still, and hers only,
There is a home at the other side of the world—
Shall the hearts that you leave be lonely?

And when it is summer the whole year round,
Where the blue's never failing above you
You will never forget, were it twice as bright,
True blue of the eyes that love you.
For the soldier's sweetheart follows the drum
That beats round the world like thunder.
There was never a call to arms, my dear,
That could tear true souls asunder!

And when Captain Death on the last parade
The last word of command shall have spoken
Our hearts shall follow your muffled drums,
Nor deem that the links are broken.
For you go the way that all heroes went,
In the track of their deathless muster.
Sword sheathed, sweetheart, and the day's march done,
You shall rest where God's campfires cluster
—E. M. Hewitt in Sketch.

Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down-feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me more strength and good appetite than anything I could take. I can now eat anything and have a new lease on life. Only 50 cents at any Drug Store. Every bottle guaranteed.

Mixing His Drinks.

There is a story told of Mr. Gladstone which would show that the true meaning of the old saying, "Do not mix your drinks," was unknown to the great statesman. It is said to have been his habit to let the wines which were served in the course of dinner mobilise at his elbow and during a pause in the conversation seize the glass that happened to be nearest. On one occasion Mr. Gladstone, who had refreshed himself as usual in this haphazard way, inveighed against the practice of mixing wines. It was respectfully pointed out to him that he had been guilty of this very act; but he explained to his own satisfaction that to mix wines was to fill up half a glass of champagne from the port decanter!—Cornhill Magazine.

Too Much.

"Saw a man undertake to eat four pounds of sponge cake on a wager."

"Did he succeed?"

"No. When he had eaten about half of it, he was compelled to throw up the sponge."

The spread of "realism" is marked by the case of a man, recorded in a New York newspaper, who "walked in his sleep because he dreamed that he had no car fare."

D-O-D-D-'S

CHINESE DOCTORS.

An English Physician's Experience Among the Oriental Medical Men.

In an illustrated interview in The Young Man with Dr. Charles Wenyon, the famous medical missionary in China, we are told that medical science in China is not as advanced as it was in Rome 2,000 years ago. The so called doctors cannot tie an artery, open an abscess or reduce a dislocated limb. Every Chinaman has got something real or imaginary the matter with him, and there was great curiosity to see the methods of the foreigner. Therefore, when Dr. Wenyon arrived there was no lack of patients. They came daily by the hundred from far and near—from an area three or four times that of England. In 17 years they numbered many thousands, and some of them, as Dr. Wenyon says, became the center of an influence more or less favorable to western thought and western men.

Dr. Wenyon has many curious stories to tell in connection with the medical work. The litterati, who are the great instigators of riot and murder in China, declared that they ought to open a rival hospital, and they did open one. A staff of native "doctors" was found, and the building was called "The Hall of Ten Thousand Virtues." It was a splendid building, but somehow that did not assist the cures.

Two afflicted friends came to Fatshan, and they decided one to go to Dr. Wenyon's hospital and the other to the rival place. In three weeks Dr. Wenyon's patient was well, and on going for his friend to the other hospital he found that he was dead. The doctor tried to console him by saying that they had buried him in a splendid coffin. "In fact, coffins were a great necessity at that hospital," says Dr. Wenyon. "When I went there, I found that they had laid in a good stock. So the people came to us. It was a question of coming to our hospital for a cure or going to 'The Hall of Ten Thousand Virtues' for a coffin.

"One day there came a stately gentleman, a learned man belonging to the upper classes, having a painful disorder needing surgical treatment. He hired a private room, and I operated on him, and in a fortnight he was well. He had not told me who he was, but before he went away he said: 'You might like to know who I am, and I want to tell you, because I am so grateful for being cured of this terrible disease. I am the head doctor of 'The Hall of Ten Thousand Virtues.'"

ONE HAPPY WOMEN.

Got Health and Happiness From Dodd's Kidney Pills.

London, Feb. 6.—This city can claim one of the happiest, healthiest women in Canada.

Her name is Mrs. J. Osborne. She lives at 524 Grey street, and she has this to say to her sisters throughout Canada.

"For eight years my life was made miserable by Female Weakness. I used many different medicines, but none did me any good till I started to take Dodd's Kidney Pills.

"The first dose of this wonderful remedy gave me relief. I grew better with every dose, till, when I had taken three boxes, I was totally cured."

Dodd's Kidney Pills are the only medicine on which women can confidently rely for a positive cure.

The Earth's Rotation.

Owing to the rotation of the earth, rivers flowing in a northerly and southerly direction manifest a tendency to crowd to the right, with the effect that the right bank of such a river is apt to wear away slightly faster than the left, while the channels also are apt to be deeper toward that side. A locomotive moving north and south would experience the same tendency, and the amount of excess pressure on the right rail has been computed by a German scientist.

With a locomotive weighing 88,000 pounds, and running at a speed of 45 miles per hour, it was found that there was an excessive side pressure to the right of 150 pounds. This, however, is balanced by the friction of the engine on the rails, as there is there a resistance of 18,000 pounds to any side movement. Practical railway men, however, do not find any greater difference in the wear of one rail over the other from this cause, while on a single track road, the traffic being in both directions, it could not be detected in any case. —New York Post.

A Large Family.

A single young man heard the banns called in church one day. Perhaps he had not always been very attentive to the service or perhaps marriages were more frequent than usual that season, for the ordinary announcement seemed to make an impression on him. At dinner that day he observed thoughtfully as if communing with himself:

"They must be a large family!"

"Who?" asked the company, for the speaker was a silent man and one whose remarks were few and far between.

"Why, those Spinsters," he answered gravely. "There was another of them called in church today."

He thought it was a proper name. But he was right. The spinsters are a large family.—Pearson's Weekly.

A Winner.

Old Bullion—So, sir, you want to marry my daughter? Wasn't that your name I saw signed to a poem in one of the magazines the other day?

Reginald Ricksley—Yes, sir. I have written a great deal of magazine poetry, but indeed I assure you, sir, I do not depend upon it for a livelihood. I have a regular job as timekeeper in a machine shop.

Old Bullion—Oh, in that case I suppose I ought to let you have her.—Chicago News.

Roadmaking in Ontario.

The Province of Ontario is doing more than any of our States in the way of good roadmaking, says the American Agriculturist. It confirms what we have learned from New Jersey and some of our other States, that the old road system if properly worked can be made to give us at least decent roads. First of all, we must have ditches for draining the subsoil. Surface drainage will not suffice. These ditches should be four feet deep on each side of the road and well tiled or stoned up. A road that is once made dry to the depth of three or four feet can be kept in order with a very slight outlay. To throw good material into a road which has never been dry more than six inches deep is to throw it away.

PERT PERSONALS.

Young Mr. Poe of Princeton may be a hero, but the kissing records do not show it.—

A cruel blow has fallen upon the young czar of Russia. William T. Stead has indorsed him.

Lillian Russell might contract with some reliable wrecking company and have some of her sunken husbands raised.—Washington Post.

That little bill the sultan owes Uncle Sam will have to wait. He has just spent all his money on William Hohenzollern.—Springfield Republican.

Prince Louis Napoleon has been negotiating a loan in Switzerland. It is suspected that he wants to take his winter overcoat out of pawn.

The interesting Mr. Hooley lived at the rate of $50,000 a year, gave almost $200,000 to charity and presented $5,000 gold communion plates to cathedrals. All this is in addition to his purchase of lords and dukes. If Mr. Hooley keeps on, he will yet be on the lecture platform.—Baltimore American.

It is altogether likely that William of Wied, the second son of an almost totally obscure princeling of Rhenish Prussia, the youth picked out for her husband by Queen Wilhelmina of Holland, is pulling himself by the ears in the endeavor to convince himself that he is really awake and asking himself how in the mischief it ever happened.

If you have catarrh, don't daily with local remedies, but purify and enrich your blood with Hood's Sarsaparilla.

CURTAIN RAISERS.

It is expected that Julia Marlowe will have a new play by Clyde Fitch for use next season.

Ada Rehan has added Portia to her repertory, and will shortly appear in that role at Daly's theater.

It is asserted that Maude Adams will play Juliet to the Romeo of William Faversham next season.

The Duke of Manchester is to become an actor. He used to act with Lord Rosslyn in an amateur company.

Of Shakespeare's famous characters it is said that Hamlet speaks 1,569 lines, Iago 1,067, Othello 850 and Lear 770.

"Shaft No. 2," one of the most successful and popular electric dramas of recent years, is shortly to have an elaborate revival.

Sally Williams, a sister of Frits Williams, has quit the light opera stage and gone into the millinery business in New York.

Meissonier's painting, "The Battle of Friedland," is said to have originated the idea of Julia Marlowe's new play, "The Countess Valeska."

Henry Irving and Beerbohm Tree are fighting hard for theatrical supremacy in London. The advantage is with Tree just now, as Irving is ill.

"The Yoshiwara" is the startling title of the new pantomimic play which Russ Whytal has written for Lole Fuller, soon to be produced in Paris.

Heinrich Vogl of the Royal Opera, Munich, one of the oldest singers before the public, has composed an opera, for which Felix Dahn has written the libretto.

Edmond Rostand, the author of "Cyrano de Bergerac," is writing a poetical drama based on the life of the Duke de Reichstadt, the son of Napoleon and Marie Louise, for Sarah Bernhardt.

Duse may never act again in America, it being understood that she will have a regular season in Paris, and she still sticks to her original determination to appear no more than three times in seven days.

To Cure a Coldin One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

Courageous Animals.

In North America one of the largest of the weasel family is the "fisher," a very large, long furred polecat, living mainly by the waterside, and, like many others of the tribe, very partial to fish. It weighs about 16 pounds, and its long, richly colored fur is exported in great quantities to different parts of Europe, though not often used in this country. A trapped "fisher" will attack any one who comes within reach of the trap chain, and when free will beat off any dog of twice its size. But perhaps the most striking example of the courage of the smaller species yet recorded is that shown by a small variety of jungle cat known as the fishing cat, which, though no relation to the Canadian "fisher," is quite as courageous. One of these, which was kept in a menagerie, broke through into the next cage, and there attacked and killed a leopard which was three times its own size.

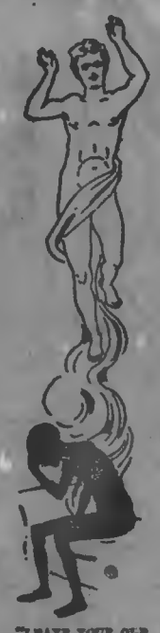
The Indian mongoose possesses all the courage of the polecat, together with amiability and a "regulated" mind. It turns its pluck and prowess to good ends, and we imagine it to stand at the head of the list of the smaller animals if quality as well as quantity is demanded as a mark of intrepidity. There is no doubt that the mongoose realizes the deadly nature of the cobra's bite. Its intense excitement is strong evidence of this. But a mongoose has been known to fight just as bravely against other foes. One was seen to attack and drive off a large greyhound which it fancied was hostile to it.—Spectator.

Every Man Who Would Know

The Grands Truths, the Plain Facts, the New Discoveries of Medical Science

AS APPLIED TO MARRIED LIFE, WHO WOULD ATONE FOR PAST ERRORS AND AVOID FUTURE PITFALLS SHOULD STUDY OUR SYSTEM.

NO MONEY IN ADVANCE—TREATMENT ON APPROVAL.



"LEAVE YOUR OLD SELF BEHIND."

A DESPAIRING man who had applied to us, soon after wrote: "Well, the first day I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday, and my new self was born."

And another thus: "If you dumped a cart load of gold at my feet it would not bring such gladness into my life as your method has done."

Here is information from a high medical source that must work wonders with this generation of men.

Our system gives full vigor and manly power.

Cures nervousness, lack of self control, despondency, etc.

Cures forever effects of excesses, overwork, worry, etc.

Gives full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible.

Write for little book, sent free, sealed in plain cover. It is purely medical and scientific, useless to curiosity seekers, invaluable to men who need it.

ERIE MEDICAL CO.,
64 Niagara St., Buffalo, N.Y.

Remember, we send Appliance and Remedies on trial and approval. Use them a reasonable time, then pay if satisfied—or return them at our expense.

Any Man With a Bad Back

SHOULD APPRECIATE HOW HE CAN GET A GOOD ONE.

A bad back is a common ailment. Find it in every household. Old and young alike have backache; comes in many forms. A bad back may be a tired, a lame, a weak or an aching one. Makes no difference which it is. Nine times out of ten the back is bad from one cause. Most backache pains come from disordered kidneys, that's why DOAN'S KIDNEY PILLS cure a bad back. DOAN'S KIDNEY PILLS are made for Kidneys only. Not a drug in them for anything else. No effort to cure all the ills of humanity. A specialist for a special purpose. We say they cure backache, weariness, too frequent urination and all symptomatic indications of Kidney Disorders; Cure Urinary disorders and every Kidney Ill. You don't have to take our word for it, we have plenty of proof. Good indorsement from good people.

MONCTON, N.B.

MR. L. J. MELANSON, an I.C.R. employee, living on Robinson St., Moncton, N.B., made the following statement:

"My kidney troubles were fast developing into more serious forms. Beginning with a backache the troubles gradually got worse until I feared that dreadful disease —diabetes. I lost no time experimenting with remedies, but acting on the advice of friends who had tested Doan's Kidney Pills, I procured a box. Inside of two weeks my back was free from pain and I felt like a new man.

"The trouble arose from a strain, and I have ever since been bothered with a pain in the small of my back. I am glad to testify to the effectiveness of Doan's Kidney Pills, for before I took them I could not stoop to lace my shoes, so intense was the pain and stiffness. I am now quite supple and consider Doan's Kidney Pills have cured me completely."

OTTAWA, ONT.

MR. THOS. McBRIDE, the well-known lithographer, 299 Sparks Street, Ottawa, Ont., says:

"I have been a sufferer for some years with pains across my back and in my side. I suffered from tired feeling almost continuously, and was so bad that at times I could hardly attend to business.

"I have taken numerous patent medicines but got no permanent relief. Latterly a friend of mine who had been cured by Doan's Kidney Pills told me to try them, and I got a box at MacCarthy's drug store.

"From the first I experienced great relief, and although it is only four weeks since I commenced taking them I have now not an ache or pain, and am feeling bright and vigorous. I can recommend them very highly to anyone suffering as I did."

Doan's Kidney Pills are for sale at all drug stores, 50 cents a box or 3 boxes for $1.25
The Doan Kidney Pill Co., Toronto, Ont.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box.

The Name Bismarck.

Few people know how Bismarck and his ancestors got their name. Bismarck is the name of one of those ancient castles a short distance from Stendal, on the road from Cologne to Berlin, in the center of the old marquisate of Brandenburg. The castle had this name because it defended the "marca," or the line where the river Biese formed a boundary in former times or mark of defense against intruders; hence the name of Bismarck.

A Word About Pianos.

It is only a question of price that arises when selecting the best piano.

Sixty years of experience tells us that the public more than ever, is tired of the common thump box and wants musical quality in piano tone.

Whilst the NORDHEIMER is the highest grade piano manufactured in Canada, remember it is the cheapest in the long run. Its tone is the sweetest, retaining always that peculiar vocal quality combined with great endurance, which strong reasons have made it the choice of all lovers of the beautiful in music.

Easy terms arranged.

Illustrated booklet mailed free on application.

Nordheimer Piano AND MUSIC CO., Limited.

TORONTO.

OUR COLUMN OF SPORTS.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Going on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

HOCKEY.

Secretary Kerr is in Toronto to-day appearing before the executive of the O.H.A. to urge Peterborough's claims to contesting the championship with Queen's. It is hardly likely that the petition will be refused, as some very strong evidence has been procured regarding the disputed goal in the Varsity match.

St. George's won the junior championship from Upper Canada College last night, in Toronto, by seven goals to two, which goes to show that the Peterborough Colts were very close to the championship when they played the St. Georges such a close game. The U.C.C. boys intend pushing their protest to the last wall against some of the St. George players for being over age. If they succeed in establishing their contention to this effect, it would have the effect of nullifying St. George's victory over the local Colts and the Junior Peterboroughs would still be in the championship race. It behooves the boys, therefore, to keep in shape, as they may be "in it" yet. Chris. Graham could easily get into shape and would materially strengthen the Colts forward line.

Wiley, the fleet little right wing of the Lindsay team, the Kingston Whig says, has one thing in his favour which will stand him in good stead on the ice and that is his diminutive size. Frontenac showed him every consideration and he enjoyed greater latitude than any other member of the Lindsay team because he was so small they feared to check him for fear of doing him injury. He is the making of a brilliant player.

The following from the Kingston Whig will prove interesting to local friends of the valiant "Chic." McRae: "General surprise is expressed in sporting circles at the steady, sure playing of "Chic." McRae, Frontenacs' point. He is as long at the game as Guy Curtis, and, like that player, seems not to grow old but rather to improve with the lapse of time. His defence work is brilliant, and when he takes a notion he can spurt and evade checking with the best of them. His long lifts are features of every game he enters, and he can plunk the puck from his own goal between the poles of the opposing team nine times out of every ten. Years ago "Chic" had the reputation of being a very rough player, body checking entering largely into his work, but he has lived that down and is to-day one of the cleanest players engaged in the game. There is not a team that has gone up against Frontenac this winter able to say that McRae resorted to anything but straightforward hockey tactics. His good, clean work this winter has won him a host of friends and hearty commendation."

Collingwood won from Parkdale in the Intermediate Series last night by 8 goals to 0. L. A. McWilliams, formerly of Peterborough, played with Parkdale, and is stated by the Globe to have shared the honours of the evening with Labatt of the Collingwoods. Lionel King refereed the game.

Belleville has won the Corby Cup for the third term in the Bay of Quinte League.

A young lady of Orillia, a warm Collingwood supporter, has written a very clever poem on the Collingwood-Midland game, entitled, "Just Break the News to Midland."

English, the player who was fined in Barrie over a hundred dollars for hitting Labatt in a previous game, witnessed the match from the side of the Orillia rink. He roasted the Collingwood team throughout the game, so the Bulletin says, as he naturally would do considering the circumstances. One of the verses relating to the player is as follows:—

They broke the news to "English"—
He saw the victory won;
This hockey season broke him,
(It's costly kind of fun.)

CURLIANA.

Skips Counsel and Rutherford were to have played the final match in the Keudry Cup competition last night, but as Skip Rutherford could not get his rink together, the match was postponed. A scratch game was played resulting as follows:

W J McCallum,		Dr Greer,	
F H Dixon,		J S Knapman,	
T Ferguson,		C Rutherford,	
J Counsel, sk	13	T Rutherford, sk	21

Skips Bellegham and McNeil played a close game, but the former pulled away and when the last end but two had been played he led by six shots. Skip McNeil, however, made a garrison finish and by scoring a five and a four end was able to win the game. The rinks were composed as follows:

J D Collins,		W E Loch,	
Geo Kerr,		R Kerr,	
Gus Hay,		Jas McClelland,	
D Bellegham, sk	16	A McNeil, sk	19

Messrs. W. J. Thompson and Gus Hay will skip two rinks for the oysters next week.

No one has as yet offered to donate a trophy for the seconds and firsts to compete for.

It is about time that the points competition was played off.

Genial Angus McIntosh is having his own troubles at the rink this week, as the water pipes have become frozen.

Messrs. Robt. Kerr and C. N. Brown, acting as skips, played a tie game last week and, it is said that the two rinks will come together again to play for the oysters.

LACROSSE.

St. Catharines is sounding a number of the clubs on the advisability of organising a new lacrosse league formed of the following teams: Seaforth, Tecumsehs, Orangeville, Brampton, Orillia, Peterborough, Stratford, Galt, Berlin-Waterloo and St. Catharines. The following circular has been received in connection with the matter by Alf Terrill, the secretary of the Peterboroughs:

Hon. Secy. Lacrosse Club, Peterboro, Ont.

DEAR SIR,—While it may be somewhat early to talk Lacrosse, still what we have in mind may take some little while to work out.

Our club was thinking that it would be a good scheme to increase the number of teams in the series, and make up a series composed of the following teams:—Seaforth, Tecumsehs, Orangeville, Brampton, Orillia, Peterboro, Stratford, Galt, Berlin-Waterloo and St. Catharines.

This undoubtedly would make an excellent series, starting from May 24th, and finishing the season about Sept. 15th, the schedule to be so arranged that every team will be playing one week at home and the next week away. Our idea was that all of the teams subscribe say $10 each toward a suitable gift for the winning team, and to have three or four qualified men to act as referee. By qualified men, we mean men who understand the game and rules of the C. L. A.

We wish you would bring the matter before your team at an early date and advise the writer what you think.

We will cheerfully correspond with any of the different secretaries of the above teams. If you have any suggestions to make, let us hear from you.

Thanking you in advance for your favors
We are yours truly
Jos. F. Simmons,
Sec'y. Athletic Lac. Club.
St. Catharines. Feb. 15th, 1899.

On the face of it the scheme appears an excellent one, the only difficulty appearing to be the long jumps the teams would have to make. This might be overcome by dividing the league into two divisions as follows:—

Peterboro, Orillia, Tecumsehs, St. Catharines and Brampton.

Galt, Orangeville, Stratford, Berlin-Waterloo and Seaforth.

A conference in reference to the new league will doubtless take place in Toronto next month.

THE RING

Public sentiment, which is so greatly with Bob Fitzsimmons in his contention with Tom Sharky about championship honours, has stirred Tom O'Rourke, the sailor's manager, to further action. Despatches from New York state that O'Rourke has deposited a certified cheque for $7 500, which added to his $2 500 now already up, makes $10,000 in all that Sharkey has posted as forfeit for a match with Fitzsimmons. O'Rourke, however, does not recede from his former propositios, which is that the fight take place after November 1st.

LINES

Written by John Snelgrove, brother-in-law to Mr. Frederick Edwards, Peterborough, after the death of his wife:

(*Published by request.*)

My dear companion's dead and gone.
Her face I'll see no more,
Till I shall pass the veil of death,
And meet on Jordan's shore.

She was a loving, dear companion,
Imbued with mother's love,
And now we cannot see her
Until we meet above.

We hope to meet in heaven above,
Dear children meet us there;
And to surround the throne of God,
Try friends and meet us there.

We hope to meet in heaven above,
We hope to meet in heaven,
Where all is joy and peace and love
And all our sins forgiven.

I feel quite lonely here below
And sorrow now is mine,
And never expect any better now
While on the shores of time.

But yet I hope to meet again
On the celestial shore,
Where death and sorrow no'er can come,
And parting is no more.

I feel quite lonely here below,
Bitch many griefs and fears,
But God can sweeten every groan,
And wipe away our tears.

Good health is worth more than anything else to you, and every bottle of Hood's Sarsaparilla contains good health.

HALF BLIND FROM ECZEMA

Three Children Afflicted. Whole Bodies and Faces Sore, Raw and Bloody Mass.

Tried Doctor after Doctor for 20 Months Without Slightest Relief. Crying Constantly.

Couldn't Sleep. Tried CUTICURA. First Application Gave Relief. Cured in Fourteen Days.

My second child got eczema when seven months old. Three months later my first child got it, and following him, the last one, two years old, fell a victim. For twenty months they suffered fearful agony. Their whole bodies, especially their faces, were so sore and raw that the little ones were blind half the time. No words can describe the suffering of my second child, whose whole body was one bloody mass. He was constantly crying, could get no sleep, and he actually did not look human. I tried doctor after doctor, but none afforded the slightest relief. I decided to try CUTICURA. The first application brought relief in each case, and after fourteen days' treatment with CUTICURA SOAP and CUTICURA (ointment), the worst case was cured, and the whole neighborhood is surprised at the wonderful effect of CUTICURA. I continue the use of CUTICURA SOAP for the children, because it makes the little ones look splendid.

Nov. 28, 1898. MRS. ANNIE RING,
625 E. 12th St., New York City.

In all the world there is no other treatment so pure, so sweet, as speedily effective the distressing skin diseases of infants and children as CUTICURA, greatest of skin cures, blood purifiers, and humor remedies. A warm bath with CUTICURA SOAP, and gentle anointing with CUTICURA, purest of emollients, will afford immediate relief in the most distressing forms of skin and blood diseases, with loss of hair, from infancy to age, when all else fails.

Sold throughout the world. Potter D. & C. Corp., Sole Props., Boston. How to Cure Skin Diseases, mailed free. Pimples, blackheads, chapped and oily skin prevented by CUTICURA SOAP.

WORST IN THIRTY YEARS.

GREAT SCARCITY IN THE SUPPLY OF COAL.

Price Has Gone up Twice Since the New Year—Dealers Have Difficulty Keeping up Their Stock—The Storms and Cold Weather Responsible.

There is a great scarcity of coal in Peterborough that threatens to develop into a famine. The price has advanced at the mines considerably since January 1st, and there is a prospect of it going still higher. A reporter interviewed the local dealers upon the subject to-day, and gleaned some information as to the causes and present condition of the famine.

HOW IT COMES ABOUT.

In the first place there is a scarcity of hard coal, and especially chestnut. The very heavy snow in December disorganised the traffic, more especially east of Buffalo the effect of which has been felt all through the season. This has been followed by severe snow storms and cold weather to such an extent that the frost has affected the machinery of the breakers, at some of the mines, thus causing a scarcity of the smaller size of anthracite coal.

Coal was remarkably low during the past summer and was sold without a profit to either the producer or the retailer. We are dependent upon the State of Pennsylvania for our hard coal supply, and this being confined to a small district severe snow storms and cold weather have made a scarcity, and the large carrying companies have been pressed for the last two months to their utmost capacity, and the stocks laid in last fall were not heavy owing to the unsettled condition of the market. The demand throughout the cold weather has been greatly increased and the producers of other commodities have naturally taken advantage of the position of affairs to advance the price. The severe cold weather also makes it expensive in the hauling of trains, as there is a greater difficulty to keep the steam power up. In consequence blocks will occur at junctions, where several railroads come together in the exchange of freight. This has occurred at Black Rock, and the movement of coal is therefore slower than it otherwise would be.

THE SCARCITY IN BUFFALO.

Some of the dealers say that for thirty years there has not been such a scarcity. One who was in Buffalo on Friday last stated that it was almost an impossibility to secure chestnut coal, and that the American dealers considered a serious coal famine in Canada imminent. Chestnut coal in Peterborough is selling at $5.75 a ton, and egg coal the same. It is anticipated that the price will go up to $6 shortly, as it has done in Toronto and other places, for the scarcity is general throughout Canada.

CHURCH CHIMES.

ST. PETER'S CATHEDRAL.—At St. Peter's Cathedral, Sunday, Feb. 19th, there will be three masses celebrated—at 8 a.m.; children's mass at 9.15, high mass at 10.30. Vespers and sermon at 7 p.m.

ASTHMA PERMANENTLY CURED

A Well-Known Canadian Notary Public Suffered for 35 Years—Permanently Cured by Clarke's Kola Compound.

R. D. Pitt, Esq., Kamloops, writes: "I had suffered for at least 35 years from that great oppressiveness of asthma and shortness of breath. I had during these years consulted many physicians and tried all the remedies, until the doctor told me I might get temporary relief, but I would be always troubled. I tried Dr. Clarke's Kola Compound, and after taking the first bottle I became greatly relieved, and three bottles have completely cured me. I can now breathe as naturally as ever, and asthma does not trouble me in the least. I feel it my duty to bear testimony to the marvellous effect of this remedy has had in my case, and would urge all suffering from this disease to try Clarke's Kola Compound, as only those who have suffered these years as I have can appreciate what a blessing this remedy must prove to sufferers from asthma." Three bottles of Clarke's Kola Compound are guaranteed to cure. A free sample will be sent any person troubled with Asthma. Address, The Griffiths & Macpherson Co., 121 Church Street, Toronto, and Vancouver, B. C., sole Canadian agents. Sold by Ormond & Walsh, druggists, Peterborough. When writing for sample mention this paper.

Clarke's Kola Compound is the only permanent cure for Asthma; is now successfully used throughout the leading hospitals in England and Canada.

TO CURE TOOTHACHE IN A MINUTE Use NERVOL. One application cures; if not, your money back. Equally good for Neuralgia and Headache. 25c, at all Druggists.

LOUBET WAS ELECTED

President of France by a Very Large Majority on Saturday.

CHOICE OF FRANCE ASSAILED.

Rioting in Paris by the Enemies of French Republicanism—Two Days of Vicious Work on the Streets of the Gay Capital—Troops Under Arms—100 Rioters Arrested.

Paris, Feb. 20.—M. Loubet, president of the Senate and presiding officer, arrived at Versailles in a carriage at 10 o'clock a.m. on Saturday. Friends surrounded him when he entered the Gallery of Busts, and he said: 'If you love me, I hope you won't vote for me."

The National Assembly met at 1 o'clock. M. Loubet declared the sitting open amid the applause of the Leftists, during which M. Loubet proceeded to draw for tellers.

The voting began with the letter "D." M. Dansette, moderate Republican, cast the first ballot.

Patriots Make Trouble.

When M. Paul Deroulede, organizer of the League of Patriots, voted, he attempted to speak from the tribune, but M. Loubet forbade him to do so. This called forth protests from the Rightists and applause from the Leftists.

M. Deroulede, however, persisted in speaking and resisted the ushers and others who rushed up to expel him from the tribune, which he finally left. While in the tribune, M. Deroulede shouted: "The President of the Republic ought to be elected by the people. I will not vote here."

M. Drumont, anti-Semite, also attempted to speak and a great commotion followed, during which cries of "Down with anarchy!" were raised.

The Ballot Completed.

In the meantime the voting continued, and at 2.40 p.m. the ballot was completed. While the checking was in progress the members of the assembly left the hall and assembled in the galleries and corridors, where they discussed the chances of the election.

M. Meline loudly announced that he had voted for M. Loubet.

The Progressists insisted on voting for M. Meline, although he had withdrawn his candidature in favor of M. Loubet, which explains the vote cast for him. The votes not given to M. Loubet or M. Meline were divided between M. Cavaignac, General Saussier and others. M. Meline received an ovation when he voted.

The official count showed that 812 votes were cast and that M. Loubet received 483, M. Meline 274 and that 50 were scattered.

Congratulations.

After the announcement of the result M. Loubet received his friends in an adjoining salon, and he was tendered their congratulations. The Premier, M. Dupuy, then formally transferred the executive power to M. Loubet, and congratulated him upon his election.

The President, in thanking M. Dupuy, expressed the hope of having the support of the Cabinet, and he asked M. Dupuy to retain the Premiership and the present Cabinet.

After the Senators and Deputies had shaken hands with the President, accompanied by M. Dupuy, he left the Palace in a carriage, and by 5 o'clock Versailles had resumed its normal aspect. President Loubet arrived back here from Versailles at 5.08 p.m., and was received with military honors.

Loubet's Career.

Emile Loubet, who until his election to the Presidency was the president of the French Senate, was born at Marzanne on the 31st of December, 1838. was educated for the bar, and began his practice at Montelimar. He entered political life in the general election of 1876, when he professed himself a Republican, and opposed to general and complete amnesty. He was elected by a great majority, and at once associated himself in the Assembly with the Republican left. He was one of the Deputies who refused a vote of confidence to the De Broglie Ministry in 1877. After having been twice re-elected to the Assembly, he became a candidate for the Senate, in his old department, and was elected in 1885. He became a member of the first Tirard Ministry, which only survived for three months, holding the position of Minister of Public Works. When M. de Freycinet declined to undertake the presidency of the Council, he was intrusted with the reconstruction of the Ministry, and took the position of Minister of the Interior, from which M. Constans had retired in 1892.

RIOTING IN PARIS.

President Loubet's Election Received in Paris With Violent Demonstrations.

As this despatch was sent on Saturday evening anti-Loubet demonstrations were commencing in the streets, and cries of "Down with the Panamaists!" were prominent. The agitaton was caused by MM. Deroulede and Drumont and their party. The authorities say measures have been taken to maintain order. The Nationalists gathered about the statue of Jean of Arc, and M. Deroulede made a fiery address to them. While M. Millevoye waved the tri-colored flag above M. Deroulede, the latter harranged the crowd. He said: "Listen, now, to what I was prevented from saying at the Versailles election. The President belongs to the people. I rejoice at this manifestation, but to-day we cannot go the Elysee and spit upon him whom we have no wish to recognize as chief of state. We must allow to rest in peace, such as it is, the man who is still lying there, and return home. But on Thursday we shall not fail to attend the funeral ceremony. You will find among the followers of the coffin the judges of the criminal section of the Court of Cassation and the base Deputies who elected this President whom we do not recognize. You know your duty; down with this republic and long live a republic of the people."

Troops Under Arms.

The Central Brigade, 5,000 strong, is on special duty, and the troops are still under arms in the barracks, but bands of brawlers are, however, suffered to march through the city shouting "Down with Loubet!" and singing Deroulede's Chauvinist songs and breaking windows.

Boulevards Are Battlefields.

London, Feb. 20.—The Paris correspondent of The Daily Mail describes the scenes at the Versailles election as a "Donny Brook Fair, with a touch of tragedy therein, tragedy of a newly chosen ruler attempting to ignore his own unpopularity and smilingly returning thanks for congratulations."

"I believe," says the correspondent, "that the riotous scenes in Paris are only a foretaste of what is coming. Last night the boulevards were battlefields, and nowhere was a voice to glorify the new President. To-day the press is uncommonly rancorous."

One Hundred Arrested.

Paris, Feb. 20.—Altogether 100 arrests have been made in connection with the disturbances.

There is every sign of a campaign against President Loubet, similar to that which drove M. Casimir-Perier to resign. Clearly La Patrie Francais will leave no stone unturned to achieve this object, its chief ground of objection being that the President was a Dreyfusard.

IMPORTANT EVENT IN BERLIN.

Fraulien Neumann Made a Doctor of Philosophy—A Triumph.

London, Feb. 20.—A despatch to The Observer from Berlin says that an event of epoch-making importance in the academical world took place in Berlin on Saturday. The Prussian Government and the Senate of the Berlin University have at last given way to the importunity of women students and on Saturday Fraulein Elsa Neumann was with due ceremony incorporated as Magister Artium Liberalium et Doctor Philosophiae. The dean of the university, in awarding the diploma, said that while the most dignified position of a woman was that of high priestess of home, that position did not exclude her from participation in the scientific work of men.

Dr. Fraulein Neumann's diploma bears the flattering endorsement "Cum Laude." She is 27 years of age and has studied at Gottingen and Berlin, her principal branch being natural sciences.

FLAMES ARE SPREADING.

Port Washington, Wisconsin, in Process of Being Swept by Fire.

Port Washington, Wis., Feb. 20.—Fire, which started at 9.30 o'clock last night in the large plant of the Wisconsin Chair Company, threatens to destroy the whole town. Help was summoned from Milwaukee and Cheboygan. At 11.30 the chair factory was a total loss. This plant alone was valued at $200,000, and employs 600 hands. A large lumber yard adjoins the plant and the flames are spreading with great rapidity. A second engine started from Milwaukee at 11.30 o'clock.

Prince's Bike Race Finished.

San Francisco, Feb. 20.—The six days' race was ended at 10.15 last night, 30 minutes ahead of time. At the end of the 143rd hour at 9.54, all the riders retired for a few minutes and returned long enough only to make a showing. The final was as follows:

Miller 2192 miles; Aaronson, 2146; Fredericks 2090, Hale 2062, Gimm 2060, Nawn 2012, Asberts 1828 2; Barnaby, 1792, 7; Pillington 1729, Lawson 1625, 4; Julius 1501, 4; Ashinger 1500, 6.

ON THE POINT OF BREAKING UP.

Canadian Commissioners Firmly Upholding Dominion Rights.

THE ALASKAN BOUNDARIES

The Great Point at Issue—Canadian Situation Impregnable—American Commissioners Wish Certain Ports Declared Indisputably Theirs and Withheld From Arbitration—Feeling at Ottawa.

Washington, Feb. 20.—After the meeting of the commissioners on Saturday the story in general circulation was that the commission was on the point of breaking up because of disagreement on the boundary question. It is not improbable that this result may take place, but it is felt that the position taken by the Canadian commissioners is so fair and reasonable that it must prevail, whether at this conference or in the future. At all events it is certain that they will not recede from it. The negotiations for a compromise having failed, the Canadians offer to arbitrate the question of the boundary, but only on condition that the whole question of the ownership of the shores and ports of the Lynn Canal be submitted to the arbitrators.

There is a difference of opinion as to the composition of the arbitration tribunal, but the main difficulty is the desire of the American commissioners to reserve certain questions and to have certain ports declared to be indisputably American and withheld from the arbitration.

The Canadians will consent to nothing less than the arbitration of the whole question. They feel the utmost confidence in the rightfulness of their position, and therefore are not anxious about the turn affairs may take.

The Feeling at Ottawa.

Ottawa, Feb. 20.—It is believed that the visit of Hon. Messrs. Sifton and Fielding to Washington, at the invitation of Sir Wilfrid Laurier, indicates a crisis in the negotiations. The Canadian Commissioners, before presenting an ultimatum to the Americans, desire to confer with their colleagues, not only to have the benefit of their advice, but to ascertain more fully the opinion of the members of the Government at Ottawa, in view of recent developments.

The Imperial Government has brought strong pressure to bear to avert a suspension of the conference without an agreement upon a treaty, and it is not improbable that a modification of some of Canada's demands has been suggested in the interest of international comity. Messrs. Fielding and Sifton will doubtless represent the inadvisability of agreeing to concessions, even at the request of the British Government, that might involve too great a sacrifice, and will point out that such a course might have an injurious effect upon the happy relations now existing between Canada and the mother land. The feeling in Canada seems to be universal that if the Americans persist in their unreasonable demands Canada can get along without a treaty, however anxious she is to promote friendship between Great Britain and the United States.

DR. GUAY IS DEAD.

Member for Levis Has Passed Away After a Long Illness.

Quebec, Feb. 20.—Dr. Guay, M.P. for Levis, died last night at the Hotel Dieu, after a prolonged illness.

Dr. Pierre Malcolm Guay's ancestors came from Saint Onge, France, and were among the first settlers of Pointe Levis. He was the son of Francois Xavier Guay, by the late Marie Adelaide Cote; was born at St. Romuald d'Etchemin, March 26, 1848; educated at the Quebec Seminary and at Laval University, where he graduated A.B. in 1868 and M.D. in 1873. On May 12, 1874, he married Marie Louise Antoinette, daughter of T. E. Roy, formerly sergeant-at-arms of the Quebec Legislative Council. Mme. Guay died May 24, 1892. Dr. Guay was a governor of the Quebec College of Physicians and Surgeons, and served as a councillor and mayor of St. Romuald d'Etchemin. He was first returned to Parliament in 1885 at a bye-election, and was re-elected in 1887, 1891 and 1896. In politics he was a Liberal.

LEGISLATION AGAINST JAPS.

British Columbia Legislature Declines to Make a Change.

Victoria, B.C., Feb. 20.—The Minister of Justice at Ottawa requested the British Columbia Government several days ago to say whether they would modify recent legislation in the direction desired by the Imperial Government in respect to the Japanese. The British Columbia Government has prepared an answer to the Minister, declining to take any action. Mr. Cotter, the Finance Minister of the British Columbia House, brought down the returns of the correspondence between the two Governments. The estimates for the year were also presented on Saturday.

COTTON WORKERS WILL STRIKE

Unless Their Demand for More Wages Is Conceded.

Manchester, Eng., Feb. 20.—The cotton operatives in South Lancashire have unanimously resolved to give a month's notice of their intention to go on strike unless an advance of 7d in the pound in their compensation is conceded by the masters. Eighty thousand persons are affected.

Perfectly Cured

Weak and Low Spirited—Nervous Prostration—Appetite Poor and Could Not Rest.

"I take great pleasure in recommending Hood's Sarsaparilla to others. It has been the means of restoring my wife to good health. She was stricken down with an attack of nervous prostration. She suffered with headaches and her nerves were under severe strain. She became very low spirited and so weak she could only do a little work without resting. Her appetite was poor, and being so weak she could not get the proper rest at night. She decided to try Hood's Sarsaparilla, as we had heard it highly praised, and I am glad to state that Hood's Sarsaparilla has perfectly cured all her ailments." G. BELLAMY, 221 Hannah St., West, Hamilton, Ontario. Remember

DRUCE VAULT TO OPEN

As Soon as Mrs. Druce Presents a Formal Application.

BERLIN BOY NEARLY SCALPED.

Michigan Potato Crop Thought to Be Nine-Thirds Frozen—Blenheim Bank Safe Blown to Atoms—A Peterboro Man Buys Dead Man's Island—Swimming in London Schools.

The Toronto school cadets arrived back from Tampa, Fla., on Saturday.

A despatch from Ottawa says Parliament may open April 6, having been formally prorogued until April 8.

London, England, firms wish to open correspondence with exporters of Canadian turkeys, wild rice and caviare.

North Carolina has adopted the constitutional amendment limiting the negro vote by educative, poll tax and property qualifications.

Charles Sommers, the oldest letter carrier in Philadelphia, was frozen to death while going his rounds in that city in the storm last week.

Fred. Gunn, who was run over by a G.T.R. train at Toronto Junction on Friday, had both arms amputated at the Toronto General Hospital on Saturday.

Sir R. Lambert Playfair, formerly British consul-general for the territory of Algeria and the author of several books of travel, is dead. He was born in 1828.

John Jackson of Galt had a narrow escape from death on Friday, the wheels of his loaded wagon passing over his neck. He was unconscious for hours, but may recover.

Dead Man's Island, in Burrard Inlet, close to Stanley Park, has been sold to a Mr. Ludgate of Peterboro, Ont. The island is a part of the Imperial Government reserve.

Fire broke out in the building occupied by Todhunter & Mitchell, spice manufacturers, Toronto, and did damage to the amount of $10,000, which is fully covered by insurance.

Swimming lessons are now a part of the ordinary instruction given in many London, Eng., schools, and it has thus far proved an admirable and useful exercise for boys and girls.

John Alexander Gilmour, who fled from Parry Sound last month and was arrested at the Canadian Soo, has pleaded guilty to forgery and has been sentenced to one year in the Central Prison.

R. J. Powell's private bank in Blenheim was entered by burglars at an early hour Saturday morning. The safe was blown to atoms. The robbers secured $3,000 and a package of notes valued at about $600.

Commission men and farmers who have been investigating the potato crop report that more than two-thirds of the entire stock in Michigan is rained. Thousands of bushels buried in mounds at the usual depth have been frozen.

Kincardine, Ont., is moving in an effort to have a first-class fleet of steamers ply on the Canadian coast of Lake Huron. Since the wreck of the Cambria and the withdrawal of the Carmona the Windsor-Soo route is vacant.

A farewell dinner was given at the Union League Club on Friday night in New York to Joseph H. Choate, the newly appointed ambassador to England. He made a strong appeal for better Anglo-American friendship.

M. Osiris has completed his task of restoring the cisterns of Malmaison, residence of the Empress Josephine, in Paris, to its original shape and condition. His purpose in doing this is to have it serve as a museum of imperial souvenirs.

The inmates of the Mercer Reformatory at Toronto will in future be divided into three classes, according to their different stages of depravity. The Government has decided to make the necessary changes in the building at a cost of $3,000.

J. W. Jorgenson, or "Jack the Hair Clipper," was arrested in Chicago on Saturday while in the act of cutting a braid from the head of Erna Fransky. Jorgenson has confessed that he had cut the hair from the heads of 300 girls and women.

On Saturday the express train from Calais for Brussels collided with a train which was at a standstill at Feret, near the latter place. Twenty-one passengers were killed, and over 100 were injured. There were no English or Americans among them.

A statement prepared at the U.S. Treasury Department shows that the quantity of American goods hauled by Canadian railroads was about seven times greater than the quantity of Canadian goods hauled by American roads during 1898.

At the J. Y. Shantz & Sons' button works, Berlin, a boy named Pollakowski narrowly escaped instant death. While ascending to the third flat in the elevator his head came in contact with a protruding timber. He was nearly scalped by the collision.

"Esperanto" is the name given to a new universal language by its inventor, Dr. Zamenhof, a Russian. Count Tolstoi is said to have investigated this latest *form of speech* and to have declared that any person of average intelligence can learn it in two hours.

Rev. D. C. Hossack of Parkdale Presbyterian Church, who went there from Orangeville six years ago, has resigned his charge on account of ill-health. While resting he will make a tour of America and the Old World for the purpose of study. Mr. Hossack is a graduate of Knox College.

The famous Druce case bids fair to be settled in the near future. The solicitor of the Imperial Home Office announced on Saturday that the Secretary of State for Home Affairs will grant permission for the opening of the Druce vault in Highgate Cemetery as soon as Mrs. Druce presents a formal application.

Lord Charles Beresford was on Saturday night the guest of honor at a banquet given by the Commercial Club of Chicago. In the morning Lord Charles paid a visit to the Board of Trade. Business was suspended on the floor, and he was escorted by President Lyon to the visitors' gallery between two lines of cheering and shouting brokers. His speeches in response dealt with his plan to have a commercial understanding for an open door in China between Great Britain, Japan, Germany and the United States.

PECULIAR POISONS

GENERATED IN THE HUMAN BODY.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of death (called by scientists Ptomaines.) are usually the result of imperfect digestion of food, the result of indigestion or dyspepsia.

The stomach, from abuse, weakens, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay), poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain, causing headaches, and pain in the eyes.

Bad digestion weakens the heart, causing palpitation, and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's Disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products: the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure any form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first. A little book on stomach disease mailed free. Address Stuart Co., Marshall, Mich.

China Contract for 81 Locomotives.

Philadelphia, Feb. 18.—The Baldwin Locomotive Works have just closed a contract for the building of 81 locomotives, the largest single order ever received by that company. The locomotives are for use on new railroads now under construction in China.

Young Edison Marries Opera Singer.

New York, Feb. 18.—The World announces the wedding of Thomas A. Edison, jr., son of the inventor, and Miss Marie Louise Tuohey, a member of the Casino Opera Company.

Soon Left Her.

"I was taken with swelling in my feet and limbs. I was not able to walk for four months. I read about Hood's Sarsaparilla and procured a bottle. Before I had taken it all the swelling left me. I took three bottles of Hood's and have not been troubled with swelling since." Rebecca Seevers, Chatham, Ont.

Hood's Pills cure all liver ills. Easy to take, easy to operate; reliable, sure. 25c.

Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other as all Mixtures, pills and imitations are dangerous. Price, No. 1, $1 per box; No. 2, 10 degrees stronger, $3 per box. No. 1 or 2, mailed on receipt of price and two 3-cent stamps. The Cook Company, Windsor, Ont. Agents. No. 1 and 2 sold and recommended by all responsible druggists in Canada.

No. and No. 2 Sold in Peterborough by John Nugent Druggist.

MUNYON'S

I will guarantee that my Kidney Cure will cure 90 per cent. of all forms of kidney complaint and in many instances the most serious forms of Bright's disease. If the disease is complicated send a four-ounce vial of urine. We will analyze it and advise you free what to do.

MUNYON.

At all druggists. 25c. a vial. Guide to Health and medical advice free. 1505 Arch St., Phila.

KIDNEY CURE

OPPOSITION WIPED OUT.

The New Brunswick Opposition Was Practically Wiped Out by the Voting on Saturday.

St. John, Feb. 20.—Saturday was a regular Bull's Run for the Opposition, and rank and file went down in the terrible onslaught. When the smoke of the battle cleared away and the roll was called there were only three throughout the whole province able to show that their constituencies had faith in them. It was the worst sweep that ever took place in a New Brunswick provincial election. In St. John City, where the leader of the Opposition was confident he would be elected with his three colleagues, the surprise was something wonderful when the returns showed all had received a clear knock-out. The elections went off quietly, and each side did all they could to bring the electors to the polls. As the day progressed, however, it was quite apparent that the Opposition was disheartened, while the Government workers wore an air of confidence, and kept running in the straggling voters who held off up to the minute the polls closed. The Opposition carried the west side by a good majority, but the east side and the north end completely wiped it out and added a majority. The following are the members returned:

Restigouche County — Labillois and Mott, both Government.

Gloucester — Vautot, Burns, Poirier, Government.

Northumberland—Tweedie, Fish, Burchill, O'Brien, Government.

Kent—Johnson, Legere, Barnes, Government.

Westmoreland—Robson, Wells, Government; Mahon, Humphrey, Opposition.

Albert—Emmerson, Osman, Government.

King's—White, Scovill, Pugsley, Government.

St. John County — Dunn, McLeod, Government.

St. John City — Robertson, Pardy, McKeown, Reynolds, Government.

Charlotte—Todd, Hill, O'Brien, Russell, Government.

Queen's—Carpenter, Ferris, Government.

Sunbury — Harrison, Government; Gunter, Opposition.

York—Thompson, Whitehead, Gibson, Campbell, Government.

Carleton—Carvell, Smith, McCain, Government.

Victoria—Lawson, Porter, Government; Carter, Opposition.

Madawaska—La Forest, Gagnon, Independents.

ALMOST STARVED TO DEATH.

A Shocking Case of Cruelty Reported From Parry Sound.

Parry Sound, Feb. 20.—Before Judge McCurry on Saturday was tried a charge of cruelty to an orphan boy who lived with a family named Stacey, near Sundridge. Freddy Stacey, the boy, about 12 years of age, lived with his uncle, John Stacey, on a farm, and was made to do work around the place. The evidence revealed the fact that the boy was starved almost to the point of death. He became literally a living skeleton. Gangrene had set in on his fingers and toes from the effects of which he will suffer for life, having lost some of his toes at the first joint. When Dr. Carmichael of Sundridge was finally called in he found the boy unconscious, and in a dreadfully emaciated condition. No other restorative than food was administered, and by good treatment and a liberal diet during the last month the boy is fully restored, except from the effects of the gangrenous sores, which still affect his hands and feet.

The lad stated that he got nothing else to eat than one or two potatoes and a small morsel of dry bread. At one time he fed on raw peas, oats and chop stuff that he got from the barn, and sometimes raw turnips. For a time he managed to steal eggs from the fowl house. He ran away once, but was brought back.

The case is certainly one which for utter heartlessness is hard to parallel. Stacey was sentenced to six months' imprisonment and his wife was made to enter a bond of $200 to appear later on for sentence, presumably to be given when her husband is liberated.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any Drug Store. Regular size 50 cents and $1. Guaranteed to Cure or price refunded.

END NOT YET IN SIGHT.

Saturday Proved to Be Another Very Dilly-Dallying Day.

Washington, D.C., Feb. 20. — The Anglo-American commission held several sessions on Saturday, going over a variety of subjects without final action on any of them. The full commission was in joint session during the forenoon, and reassembled later in the day and spent until after 5 o'clock in the afternoon arguing over several points of issue. In the absence of any result of a conclusive nature a definite statement is withheld. Both the English and the American commissioners during the day held separate sessions.

There were no indications on Saturday of a definite break in the negotiations, and the reports that they were practically at an end, based on the assumption that there is no agreement in sight, are given positive denial. At the same time, it is said, such progress has not been made in the adjustment of the important problems before the commission as would warrant a definite statement of the probable outcome, and the termination of the negotiations is not yet in sight.

MR. HOUSE, OF BERLIN

Cured of Lumbago by Dodd's Kidney Pills.

Berlin Feb. 13.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past, Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Backache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

Uxbridge's Town Clerk Dead.

Uxbridge, Ont., Feb. 19.—The Town of Uxbridge yesterday suffered the loss of one of its best known and respected citizens in the person of its town clerk, A. D. Williams. For the past 40 years he has been most closely identified with all its municipal and business interests, being the first and only clerk the corporation has had. Deceased was in his usual health till Monday last, when he was seized with an attack of apoplexy.

Grand Trunk Engineer Swears by Dr. Chase's Kidney-Liver Pills.

Mr. Geo. Cummings, for over twenty years engineer on Grand Trunk running between Toronto and Allandale, says:—"The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommend by my fireman, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me an I feel to-day a better man than ever. I recommend them to all my friends.

VALUABLE

Residential Properties FOR SALE

In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Containing ten rooms. House in good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containg seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 108 feet square.

Parcel No. 4. Brick residence, corner Wolfesley and Benson streets. Two storys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 108 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases.

Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

Broken Prices

—FOR CHOICE—

...Broken Lots.

o o o

AFTER STOCK-TAKING is the time for thrifty buyers. In going over our Winter Stock, we have laid out many Special Lots for Sacrifice.

MARKET REPORTS.

Wheat Continued Heavy on Saturday and There Were Further Fractional Declines at Chicago and Liverpool.

Liverpool, Feb. 20.—Wheat futures were weak on Saturday and closed dull at 2-3d per cental below Friday's final figures.

Chicago, Feb. 20.—The lower cables, selling by foreigners and lack of crop damage news kept this wheat market on the down grade again on Saturday. There was a partial recovery towards the close from the low point, but the final figures were ¼c to ⅛c per bushel beneath those of Friday.

QUEBEC'S SOCIAL SCANDAL.

Dean Norman Resigns Offices and Emoluments and Leaves the City Under a Cloud.

Quebec, Feb. 20. — (Toronto Globe Correspondence.)—The authorities here can no longer conceal the details of the greatest social scandal that Quebec has ever known, sinister rumors respecting which have been in circulation for several days past. From a high public functionary last night I learned the following facts which will be made public here today or Tuesday in an official manner: The Very Rev. Dr. Norman, Dean of the Cathedral Chapter and Rector of Quebec, has resigned all his offices and emoluments at the instant demand of His Lordship Bishop Dunn, and has hurriedly left the city under a cloud. He is supposed to have gone to Toronto, and denies any wrongdoing. The expose arises out of a sensational murder case, the victim of which, George Pepin, died in the Hotel Dieu Hospital yesterday. Pepin was a youth of 22, employed in a tannery, who was shot by one John Dixon last Sunday afternoon while the latter was aiming at a companion of the murdered man named Tanguay. Tanguay had spoken to a girl of ill-repute who was driving with Dixon, and hence the shooting. When Dixon and a companion of his named O'Brien were arrested over $3,000 was found in their possession. Asked by the detectives where they got it, they declared Dean Norman had given it to them as hush money, and several [thousands more besides. The Dean was spoken to and admitted that he had paid the boys $6,500, but denied any wrongdoing. When the matter was reported to the Bishop he declined to hear any explanation of the story beyond the admission of the payment of the money, and the resignation was promptly given and accepted. The inquest on the body of the murdered man goes on to-day, and Judge Chauveau will subsequently continue the investigation into the circumstances connected with the acquiring of the money from Dean Norman. The Dean is 70 years of age and unmarried. He was formerly canon of Christ Church Cathedral, Montreal. He was born in England, and is a fellow of Exeter College, Oxford.

BI-METALLISM THE ISSUE.

Democratic Chairman Jones Says That Will Be the Question.

Washington, Feb. 20.—Senator James K. Jones, chairman of the Democratic national committee, is not in accord with Mr. Croker of New York and Mr. Wall of Wisconsin, regarding the paramount issue in the next Presidential campaign. He said on Saturday:

"To say that the next Democratic national convention will re-affirm the position taken by the convention of 1896 is to assert what every candid man, even slightly familiar with existing facts, knows to be true. It is as certain as anything human can be that the question of bimetallism will be the leading issue in the campaign next year."

ONE HAPPY WOMEN.

Got Health and Happiness From Dodd's Kidney Pills.

London, Feb. 6.—This city can claim one of the happiest, healthiest women in Canada.

Her name is Mrs. J. Osborne. She lives at 534 Grey street, and she has this to say to her sisters throughout Canada.

"For eight years my life was made miserable by Female Weakness. I used many different medicines, but none did me any good till I started to take Dodd's Kidney Pills.

"The first dose of this wonderful remedy gave me relief. I grew better with every dose, till, when I had taken three boxes, I was totally cured."

Dodd's Kidney Pills are the only medicine on which women can confidently rely for a positive cure.

BIG BLAZE AT ALMONTE.

Furniture Warehouse of Mr. John Donaldson Completely Destroyed.

Almonte, Ont., Feb. 20.—At 8.50 p.m. Saturday the fire alarm sounded for a fire which originated in a three-storey frame building owned by Thomas White, and occupied by John Donaldson as a retail furniture warehouse and undertaking establishment, which was filled from floor to garret with furniture, mattresses and coffins. The building and stock are a total loss. White's loss on building $1,500, no insurance; Donaldson's loss on stock $6,000, insured for $3,000 in the Perth Mutual. The plate glass windows in the stores across the street and nearly every window in the postoffice on the west side were destroyed by the intense heat.

Man Killed at Waterloo.

Waterloo, Ont., Feb. 20.—On Saturday at Huether's Lion Brewery Dan. Kalbfleisch, William Hoffman and two others were at work shovelling malt on the second floor, when the floor suddenly gave away at the south end with a mighty crash, and went through the first flat to the cellar, burying the two mentioned under four or five feet of malt. Hoffman was lucky enough to escape with his life, but Kalbfleisch was unable to extricate himself, life being extinct when assistance arrived a few minutes later. He leaves a widow and a family of five young children.

His Life Was Saved

M. J. B. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1.00, at any Drug Store, every bottle guaranteed.

If you have catarrh, don't dally with local remedies, but purify and enrich your blood with Hood's Sarsaparilla.

Children Cry for **CASTORIA.**

STILL FURTHER DELAY.

An American Report About 14-Foot St. Lawrence Navigation.

Ogdensburg, N.Y., Feb. 20.—Fourteen-foot navigation through the St. Lawrence system of canals for 1899 is now regarded as an impossibility. The contractors, who are unable to push the Galoup Rapids Canal, have laid the causes of delay before the Canadian Government, and are now granted an extension of time until the spring of 1900, to complete the work. The deep water steamboat line between Upper Lakes and seaboard must transfer to barges at Ogdensburg, Kingston and Prescott as formerly.

To Guard Esquimalt.

Vancouver, B. C., Feb. 20.—Esquimalt is to have a guardship. The third-class battleship Temeraire is now being fitted out at Devonport for her voyage to Esquimalt, to which station she has been appointed as port guardian. The Temeraire carries eight guns. Her displacement is 8,340 tons and she carries about 400 men.

Kidney-Bladder Trouble.

There is no more serious menaces to good health in the present age than kidney disorders, and it's appaling fact, but a true one, that four-fifths of the country's people have the taint of this insidious disease with them. Dr Chase's Kidney-Liver Pills cure all kidney diseases.

FIGHT AT TALIENWAN.

Russians and Chinese Had a Serious Conflict—Mongolians Whipped.

Pekin, Feb. 2.—A serious conflict has taken place between the Russians and Chinese at Talienwan, 300 of the latter being killed. It is said to have originated in a question of taxes.

Guadaloupe "Abandoned."

Manila, Feb. 20.—The California Volunteers abandoned Guadaloupe Church at 5 o'clock yesterday morning—which has since been set on fire—and retired to San Pedro Macati. The rebels still hold the country in the vicinity of Guadaloupe, Pasig and Patere, despite the efforts of the gunboats to dislodge them from the jungle on both sides of the river.

The heat yesterday was intense and is increasing perceptibly. Under present conditions it is impossible to provide shade for the troops in certain parts of the line, particularly McArthur's Division. King's Brigade is also exposed from San Pedro Macati to Culiouli, where it joins Ovenshine's Brigade.

Your Best Interest

Will be served by making sure of health. It will be a loss of time and money to be stricken with serious illness. Take Hood's Sarsaparilla and purify your blood. In this way all germs of disease will be expelled, sickness and suffering will be avoided, and your health will be preserved. Isn't this a wise course?

Hood's Pills are the only pills to take with Hood's Sarsaparilla. Price 25 cents.

The Grocer's Books.

"That's the way I've kept my accounts all my life, and my aunt before me," said an illiterate grocer to a county court judge recently, while holding up a slate, upon which were chalk marks which conjured up memories of our earliest school-days, with naughts and crosses. "The circles are shillings, and a stroke is sixpence. When the money is paid, I rub the marks out." "It looks," remarked the judge, "like an Egyptian inscription. And in this way you have kept your accounts on the door?" "Yes," promptly replied the litigant, "and I have never before had a dispute over a sixpence." In giving judgment for the plaintiff the judge remarked that people should deal at shops where accounts were kept in a more orthodox fashion and then disputes would not arise.—Chambers' Journal.

National Gardens.

There are two gardens of England—namely, Kent and Worcestershire. That of Ireland is usually said to be Carlow, in Leinster. Italy and Belgium are both called the garden of Europe, while that of France is Amboise, in the department of Indre-et-Loire. The garden of Italy is Sicily, and of Spain Andalusia. In the east Ceylon and Burma have both received the title, and the district of India so honored is Oude. In America Illinois and Kansas divide the claim, while to the region of the Mississippi the title "garden of the world" has been given. Glamorganshire is often spoken of as the garden of South Wales.

When we have practiced good actions awhile, they become easy. When they are easy, we take pleasure in them. When they please us, we do them frequently, and then by frequency of act they grow into a habit.—Tillotson.

The statue of George Washington is one of the objects of interest at the capital of Venezuela.

Those Tired Kidneys.

Dr. Chase's Kidney-Liver Pills help tired kidneys to do what they must do if you are to be a healthy man or woman.

A NEW INVENTION!

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Upright and Square Pianos of the various makes taken in part exchange for the famous **NEWCOMBE PIANOS.** Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our *Direct Representative.* Easy Prices. Liberal Terms.

Octavius Newcombe & Co., Toronto.

THE ODORLESS CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest oder from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,
JAMES CONWAY.

Shedden, February 28th, 1898

I have used it for sometime and find it perfectly odorless. It is a long left want and I believe it will become very popular especially in rural districts, towns and villages where wells are so frequently contaminated by the ordinary closets. I am, Yours, etc.
W. H. MORRISON

Medical Superintendent's Office, Sept. 30th, 1897
Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 20 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once, before it has a chance to vitiate the surrounding atmosphere.
Yours truly. JAMES HUSSELLE, M.D.

Blahrook, Sept. 30th, 1897.

Dear Sirs—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country houses. Yours truly,
M. J. MULLOCK.

McAll Missionary Society.

The annual meeting of the Peterborough Auxiliary of the McAll Missionary Society will be held at the residence of Mr. Jas. Kendry, M. P., on Monday evening, Feb. 20th, at 7.45. Rev. Mr. Symonds will address the meeting on "The Principles of the McAll Mission in France," and a good musical programme will be provided. The public is cordially invited.

A Vocal Class.

Two Spanish artists, who have lately arrived in Canada, will be in Peterborough during the week in the endeavour to form a class in vocal music here. Some of the best known local singers are taking the matter up and an endeavour is being made to have as many as possible meet in the Oriental Hotel parlours on Wednesday evening.

In Murray Street Baptist Church this evening at 8 o'clock.

Runaway at Young's Point.

An exciting runaway occurred at Young's Point on Friday. While Mrs. J. Reid was driving past Mr. W. J. Young's store, the horse took fright, and bolted and threw Mrs. Reid out. Then the frightened animal crossed the street at a 2.40 gait and collided with one of the posts at the Lakeview, leaving the cutter in a very dilapidated state.

Crowded houses have greeted him in other parts of the Province.

Have You Had La Grippe?

If so, nature wants a helping hand out of the trouble. Convalescing men and women need a suitable stimulant or tonic to put back the snap that has been taken out of them. For some, a good bodied ale or porter, like Copeland's, is highly recommended. Others are advised to use a fine rich port or sherry wine. While for elderly men pure whiskey is the best. Messrs. Henry & Co, Wine and Liquor Merchants, can supply any of these in well matured condition for medical purposes at moderate rates. Henry & Co.

Fortnightly Club.

The next meeting of the Fortnightly Club will be held on Tuesday evening, Feb. 21st. Mr. J. McCaig of the Peterborough Collegiate Institute, will read a very interesting paper on "The Relation of Education to Economic Conditions." A short discussion of the paper will take place after reading. A large attendance of the members of the Club and their friends is looked for. Sheriff Hall will take the chair at eight o'clock.

Extensive Consignment.

Indications of spring activity and hopefulness of merchants are already apparent. Among recent arrivals of new goods for spring at the Peterborough Bookstore is an unusually large consignment of ten cases of window shades (2,000 shades). These were purchased at a special price for a large quantity, and will justify the public in looking for specially good value in shades. A very extensive shipment of wall paper is also expected to arrive in a few days at the Peterborough Bookstore, consisting of ten tons of newest designs for 1899. This consignment will arrive in three shipments from the three best factories on the continent.

Grafton & Co's Men's Suits are correctly cut and made by skilled tailors, under expert supervision, are sure to fit perfectly. We have all sizes and shapes, made from handsome designs in medium and dark shades of tweed and are showing superior value at $8.50 and $10. Grafton & Co., Clothing Manufacturers

THE CHEESE BOARD'S ANNUAL MEETING.

Mr. J. M. Drummond was Again Re-elected President.

INTERESTING TOPICS DISCUSSED.

Several Speakers Urge the Appointment of a Local Man as Instructor and Advance Strong Arguments in Support of Their Contention.

The annual meeting of the Peterborough Cheese Board was held on Saturday afternoon in the Town Council Chamber, and was largely attended by the salesmen. A great deal of interests was manifested in the various questions which came up for discussion, particularly in the matter of the selection of an Inspector from amongst the local makers. This is a new idea and has many advantages over the system of bringing in an outside man, whose services cannot be obtained at certain times when his advice is most needed. Mr. Wm. Cluxton's words of advice were also given the attention which they demanded.

After the minutes of the last annual meeting had been read and confirmed, officers for the ensuing year were elected as follows:—

THE OFFICERS.

President,—J. M. Drummond.
Vice-President,—Geo. Stewart.
Secretary,—John Riddell.
Treasurer,—G. J. Galvin.
Inspector and Arbitrator,—W.H. Wrighton.

Mr. Leahy, salesman of the Maple Leaf Factory, called the Board's attention to the fact that during the past season the Instructor, Mr. Kerr, had levied a fine of $20 on a patron of the factory for adulterating milk. The patron gave an order for the amount on the maker at the factory with instructions to pay the fine and keep the twenty dollars out of the amount due for milk previously sent in to the factory. A question arising as to the power of the Instructor to levy this fine, the patron notified the maker not to pay the amount of the order. Mr. Kerr has since been writing about the matter, and Mr. Leahy asked the Board to deal with the question.

The members, however, decided not to interfere, but to allow the parties concerned to settle it amongst themselves.

Mr. Wm. Cluxton then addressed the members, concerning the quality of last year's cheese, which he stated had not been up to the high standard of former years. Complaints to this effect had been received by him from England, and he regarded the circumstances as a most regrettable fact, attributing it to the excessive heating of the milk previous to making and also to the high temperature in the curing rooms, effecting the cheese after it was made. He strongly advised that the greatest care should be taken in keeping the curing rooms at

THE RIGHT TEMPERATURE

and urged that apartments better suited for this purpose be fitted up in connection with the factories. The matter of weekly sales was also referred to by Mr. Cluxton who urged that no change be made from the heretofore satisfactory plan of holding the sales only once a fortnight. Any change in this respect, he thought, would be detrimental to the best interests of the factories.

The expense attending the procuring of an Instructor, was the next subject to receive the attention of the members.

Mr. W. H. Wrighton advocated the employing, for this purpose, of one of the more experienced of the local makers, pointing out, in support of his suggestion, that such a man was always available, so that if the cheese from a certain factory began to go wrong, it could be reported immediately, as soon as noticed, with the result that the Instructor would immediately repair to the factory, and considerable money saving would be effected by having the wrong rectified at once, instead of having to wait until the Instructor visited the factory on his regular rounds, as was now the case. Many of the more experienced of the makers, Mr. Wrighton pointed out, were fully

CAPABLE OF TAKING

this work, and could be induced to undertake it at probably half the amount paid to a regular Instructor.

Messrs J. M. Drummond, P. J. Galvin and others spoke along the same line, the concourse of opinion seeming to be that as an Instructor only paid two visits a year to the factories, his services were not worth $200, and as a local man would not have to visit all the factories, but only those which were employing new makers, or were in trouble, he could easily be induced to undertake the work for half the money. A strong argument in support of such a change was the fact that if anything went wrong in a factory, a local Instructor could be on the scene in the course of a few hours.

It was decided to leave the matter in the hands of a committee composed of the officers of the Board.

Mr. Robertson, President of the Lindsay Cheese Board, who was present, addressed the members, and after complimenting the Board on the result of the season's make, explained the reasons for the withdrawal of the Lindsay section by stating that as Lindsay was the best point of shipment for these factories, they had thought that a Board in that town would be an advantage, and had consequently established one with successful results.

The meeting adjourned after arranging for the first sale of the year to be held at 11 a.m. Tuesday, May 23rd.

CORSETS!

Our CORSET DEPARTMENT is now complete for the spring of 1899. Everything desirable in CORSETS can be secured here, all the best makes both FOREIGN and DOMESTIC at modern Dry Goods prices.

CORSETS FOR THE MASSES
CORSETS FOR THE CLASSES
CORSETS FOR EVERYBOBY.

At 50c. Our aim is to give you the best 50c. Corset in Peterborough, and that we have succeeded wonderfully well will be admitted by everyone who sees our great 50c. corset for this season. It is long waist, extra closely steel filled, made of very heavy Coutille, double-busk, with 5-claps and equal to any 75c. Corset in Peterborough.

At 75c. We show an unusually large assortment, one line worth special mention is a good weighty French Corset. It is well corded and steel filled, spoon busk, and flexible hip Embroidered with silk, a particularly nice Corset for the price 75 cents.

At 75c. We also show a line of odd numbers in Corset goods that are worth from $1.00 to $1.25, but on account of their being only certain sizes, we are offering them at 75c. each. The sizes are 18 19 25 and 26.

At $1.00 Dollar Corsets are quite a different corset to-day to what they were even one year ago. We are prepared to give you by long odds the best Dollar Corset in Peterborough. We ask you to investigate and if we cant give you the best value in Dollar Corsets, why don't buy them here. Call and see our wonderful showing at $1.00.

High Grade Corsets In the higher grade of Corsets you will find our assortant up-to-date. We particularly call your attention to the Celebrated French Corset, A LaSiren or better known as C. P. Corset which we can confidently recommend to anyone wishing a particularly nice Corset for either fit or finish.

Everything in Corsets.

RICHARD HALL & SON, DIRECT IMPORTERS, 130-134 SIMCOE ST

MR. STRATTON'S ADDRESS

During the Budget Debate in the Legislature.

(Delivered February 15th and 16th, 1899.)

The following is a more extended report of the speech delivered by Mr. Stratton in the budget debate in the Ontario Legislature :

Mr. Stratton, on rising to continue the budget debate, was heartily applauded. He said that in entering upon his contribution to the budget debate, he desired to offer his congratulations first to the Provincial Treasurer, for the clear and favourable financial statement he had so ably presented, and to the Government, to whose judicious and careful management of our affairs the possibility of such a grand showing was due. He also wished to congratulate the House and the country upon so magnificent a showing. It must be exceedingly gratifying to both the House and to the country that, after thirty years of Liberal administration, after most liberal expenditures upon necessary services, it was possible to present so exceedingly favourable a balance sheet. It must be concluded that the expenditures, while they had been sufficient, had not been excessive considering the undertakings that had to be, and have been, accomplished.

Referring to the previous speaker on the Opposition side, Mr. Mathieson, it was remarked that the history of the past had furnished great financiers and great financial critics, but none of the peculiar calibre of the hon. member for South Lanark, who for patient and persistent ingenuity, for sinuous adaptability to burrowing among figures, seemed to be without a peer. (Laughter). It was said that figures would not lie, but under the manipulation of the financial figure-head of the Opposition—at a wave of the sword of the gallant colonel—a whole regiment of figurative Ananiases stood on parade. It was difficult to decide which to admire most,

THE FINANCIAL ABILITY

of the honourable gentleman or, to quote the language of the leader of the Opposition, used in an address at Whitby, the "colossal cheek and monumental gall" that permitted him to arrive at the wonderful conclusions he arrived at. Mr. E. Stone Wiggins, the great scientist and sage, had a good deal of the honourable member's sanguine trust in the adaptability of figures to meet any demand that might be made upon them. Mr. Wiggins had demonstrated not long since, beyond doubt, that he had performed the wonderful mathematical feat of squaring the circle, but competent mathematicians had easily shown that Mr. Wiggins' figures were fallacious. The financial critic of the Opposition had been engaged in squaring the provincial financial circle for a great many years. He had been hammering away with commendable diligence upon financial statements and provincial finances and, according to his claim, has demonstrated the fact that, financially, the province was going to the dogs. By wonderful juggling with figures, with pathetic self-delusion he had piled up deficits and plunged the province into a hopeless quagmire of bankruptcy, and if the condition of the country had been anything like he sought to show, if his splendid deficits had been anything but airy financial phantoms, the province would have been sunk under a load of debt that would have covered it several fathoms as the waters covered the face of the great deep. It was doubtless the military side of the hon. gentleman, which led him to sympathize with the great Napoleon who accounted for his Waterloo by the fact that he had on that occasion defeated the English three times, but they

DID NOT KNOW ENOUGH

to know it. In a similar way, according to the showing of the honourable member for South Lanark, the province had been repeatedly ruined, but the province, under the efficient management of the Government that had ruled it for the past thirty years, had marched serenely along painfully unconscious of its ruined condition. The province goes on paying its way, handsomely attending to every public need, developing the resources of the country, caring for the helpless and afflicted, educating the young and stiffening the backbone of the country, agriculture, and yet we still had "a shot in the locker." (Applause) Yet the honourable gentleman figures out what he calls deficits, that we were half a million short in the current year's operations, while as a matter of fact we had half a million to our credit in the bank. The honourable gentleman might air his delusions in the House, but let him take his stand before the bank vault where our money is deposited, and he would find that he could not talk away $450,000 in cash, charm he never so wisely. (Applause). Mr. Stratton went on to point out that what we wanted in the conduct of the affairs of the province, on the part of both Opposition and Government members, was practical politics, not fine-spun theorizing. As the honourable the Provincial Treasurer remarked in his budget speech, the country did not take Mr. Mathieson seriously. He had been preaching the dreary gospel of despair for years, he had been evolving theories in the face of facts and if a hundredth part of what he had from time to time declared had been true, the sheriff would long ago have been

ADMINISTERING THE AFFAIRS

of the Province. What the honourable gentleman hoped to gain by such a course was as difficult to understand as his financial philosophy. The honourable gentleman had another Napoleonic trait. The great general beat his enemies in detail and the honourable gentleman pours in a great deal of hot shot in the way of detail. His versatility was admirable—he could split a hair or fell a pine with equal facility. He could jump from the discussion of fractions of dollars to millions of dollars with surprising agility. He was not satisfied with cramming the public accounts with unnecessary details, but must have the noses counted in the public institutions to see if the employees were there that were mentioned in the public accounts. This suspicious spirit was unworthy of the honourable gentleman. Into all business transactions the element of trust entered largely—everything could not be reduced to record. We could not consider every Government employee a thief and set a guard over him. The desire of the honourable gentleman was without doubt to reach this side of the House. Then his financial criticisms would be justified, for instead of imaginary deficits we should then have real, live, tangible deficits. And his desire to reach this side of the House was evident from the concluding portions of his speech, in which in some respects he struck high ground for a minute or two. But with all the fine sentiment he uttered, his real desire to cross the House cropped out. It was very natural that he should feel such a desire. The children of Israel, after wandering for forty long years in the wilderness, were anxious to

SETTLE DOWN TO A REGULAR DIET

of milk and honey. So the honourable gentlemen opposite, after wandering for 30 years in the wild jungles of Opposition, amid blasted pines and blasted hopes, are naturally becoming hungry and developing ravenous appetites for the sweets of office and longing for the day of entering the promised land. If those on the Government side of the House had the honourable gentleman's facilities for dreaming and raising ghostly deficits, they might imagine they saw the Opposition grouped on some mount—say Mount Plagah—gazing with longing eyes upon the promised land, flowing with the milk and honey of office, and by a little further stretch of imagination they might see the financial critic of the Opposition, waving his baton and leading his colleagues in chorus in the lusty singing of the good old Methodist hymn :—"O, how I long to be there!" (Laughter.)

Mr. Stratton said he did not propose examining in detail the financial criticisms of the honourable gentleman from South Lanark. These had been effectively and forcibly dealt with by the honourable gentleman from Algoma. But there were one or two points which he wished to refer to more fully than had been done. Not only in the House but in the country the statement was made that the province has millions of debt, yet we are in the comfortable position of receiving this year $272,414.48 as interest on moneys due Ontario held by the Dominion and $31,646.37 interest on other investments. On Thursday the honorable member for South Lanark stated that "of the $272,000 referred to there was at least some $140,000 odd that

WAS NOT PAID AS INTEREST,

but was increased subsidy granted by the Dominion in 1884. The money, he said, was called subsidy in the act of 1884 and it could not therefore be interest." Mr. Stratton went on to point out that when Sir William Meredith was leader of the Opposition he discussed this subject more intelligently, and said that the sum of $2,848,000 was an act of generosity by Sir Leonard Tilley and his friends, but it was rather an unusual proceeding for the Dominion Government to give Ontario a grant of $2,848,000 unless it was a settlement of some claim—which in point of fact it was. As to a name it was immaterial what the money was called, but in reality it was a settlement of Ontario's claims of sums due the Province by the Dominion. Now, how did we get this $140,000? Was it not in the old way? Was it not a payment of interest in respect of "capital owing"? That was what the Act passed by Sir Leonard Tilley in 1884 says it was the principal yielding the $142,400. (Hear, hear.) No one says that one dollar of the principal has come to us—stronger still, Mr. Mathieson says we cannot get it, but in the same breath he asserts that we get in some way or other $140,000 odd, the $2,848,000 being mysteriously connected with it. Could not the hon. gentleman find the missing link? Had it never dawned on his mind that 5 per cent. on $2,848,000 is $142,400? Therefore "the $140,000 odd" is interest on amounts due Ontario by the Dominion, as this side of the house has all along claimed. (Hear, hear.)

Col. Mathieson—It is subsidy all the same.

Mr. Stratton—My hon. friend cannot be prevented from calling it what he chooses, but

INTEREST IS NOT SUBSIDY

and subsidy is not interest, but what is of most importance to the people of the province is, that they get the interest half-yearly, and if my honourable friend will turn up the blue books he will see that the province receives from the Dominion $71,200, half yearly, as the interest on this sum." Mr. Stratton continuing said that Mr. Mathieson claimed that we owed the Dominion $2,000,000, but it was, in fact, a much less sum. The statement, however, showed it as deducted, leaving the provincial surplus at $5,001,613.19. But if the honourable gentleman would not accept the $2,000,000 as paid, when it was already credited, he must admit that the surplus should be seven millions instead of five millions. Now he wishes to borrow money to pay off two millions, which, from the fact of its being credited to the Dominion, the province in reality does not owe. The treasurer's statement showed that the province had already deducted this from the amount due the province by the Dominion, which being already paid, why should we borrow money on sixty years debentures, bearing 3 per cent. interest, as the honourable gentleman suggested. We did not, Mr Stratton pointed out, require to borrow money. We had $450,000 in the banks, and we had our old Parliament buildings site, and the proceeds of uncollected Crown Land balances, which

WOULD MORE THAN PAY OFF

Mr. Matheson's amazing $2,000,000 liability, leaving our $2,848,289 intact, which at the rate of five per cent. payable half yearly, would in forty years amount to $5,696,000, or at 3½ per cent, $3,702,400, or a difference in forty years of $1,993,000 It was always thought that the wise men came from the east, but in the case of the honourable gentleman for South Lanark, in regard to financial matters, this opinion would have to be revised. Every dollar received by the province was trust money, and there was no difference between the trust funds at Ottawa and the funds controlled by the Executive at Toronto—they were trust funds administered for the benefit of the people. (Hear, hear.) The total expenditure for last year was $3,803,081.35, and was $343,000 less than anticipated, so that the Legislature knew a year ago, when the money was appropriated, that the income would fall short of the estimated expenditure. At the same time it was known that the Province had $605,850 cash in the bank, and that it would be necessary to draw upon that to meet the expenditure, and the receipts being short $150,000 the bank balance was reduced by that amount to meet the expenditure of the year. Both sides of the House were responsible for this course of action. The estimates deliberately asked $209 000 more than anticipated receipts, yet hon. gentlemen claim a deficit for the year, when the excess of expenditure over receipts

SIMPLY MEANT A REDUCTION

of the cash on hand. The hon. member for South Lanark in condemning the Government was condemning himself and his colleagues, (Hear, hear) for, with the exception of $47,000, they approved of the whole expenditure, and the condemnation of one member meant the condemnation of all, as upon full deliberation the estimates were adopted by the House. (Applause.) Then if they desired to discuss matters from a fair standpoint they would take into consideration any extraordinary expenditure during the year, and they would find that such unusual expenditure would include the Consolidation of the Statutes, $44,000; the grant to the Russell fire sufferers, $5,000; a similar grant to the British Columbia fire sufferers, $2,500, and the general elections $100,000, making in all a sufficient sum to account for the difference complained of. (Hear, hear.) Where did the bad financing come in? The best financiers bring their receipts and expenditures as close as possible, and the foregoing was about as close as these could be brought in financial operations involving such large sums of money. The placing of $128,000 of annuities was complained of, but these assisted in the retirement of $250,000 of railway certificates and annuities, and that was the policy decided upon by the House several years ago, and there was nothing extraordinary about it. The Opposition had been talking buncombe with regard to our finances. They did not themselves believe what they say. Their supposed facts were fancies, and the railway obligation they complained of was incurred

UNANIMOUSLY BY THE HOUSE

for the benefit of the people. Who had reason to complain? Nobody was complaining, but honourable gentlemen opposite, who wanted a theme for fault-finding. The public want economy, but they don't want parsimony. They want liberal aid granted to develop the resources of the country. They don't want buncombe resolutions condemning expenditures that are absolutely necessary. A number of resolutions were moved in concurrence last year by some honourable gentlemen opposite, that attacked necessary and proper expenditures, and could only be justified by the fact that a general election was approaching. As a result of these resolutions, where are the gentlemen who moved them? We miss the genial presence of Messrs. Willoughby and Kerns, of Messrs. Magwood and Meacham, of Messrs. St. John and Langford and of others who might be mentioned. They were "talking to the gallery," and the gallery "turned them down." (Laughter.) Speaking in reference to the receipts in relation to the total expenditure of $3,803,081, Mr. Mathieson had ingenuously argued that if we deducted the amount of drainage debentures, the $60,000 "borrowed" from the Dominion, the receipts from Common School lands, the amount of annuities, the bonus on timber, amount of sale of Toronto Asylum lands, etc., last year's deficit would be swollen to over $500,000. To show the fallacy of such a line of argument, Mr. Stratton more extensively applied Col. Mathieson's style of reasoning. He pointed out

IF WE DEDUCTED THE SUBSIDY

and special grant of last year, $1,196,872.80; if we deducted last year's receipts of interest on investments, $304,060.89; if we deducted Crown Lands receipts, $1 112,588.16; if we deducted the receipts for Algoma taxes, law stamps, licenses, education department, sale of lands, $440,040.97; if we deducted casual revenue, $116,563.96; if we deducted succession duties and drainage works assessments, $214,306.91; if we deducted drainage debentures, tile, sale of annuities and Agricultural College refund, $168,807.16; if we deducted all these we should have a deficit equal to the total amount of the expenditures, which was an absurdly misleading way of argument. (Laughter and applause.) The real question to consider was, were the estimates now before the House prepared with a proper regard to economy. He (Mr. Stratton) believed they were. There was a decrease in every department but four. If honourable gentlemen opposite wanted consistent grounds of complaint they should complain of this reduction of expenditures. It was natural for them to complain, for where was the evidence that any Conservative government under the canopy of heaven had ever reduced expenditure? (Applause.) Mr. Stratton pointed out that the estimates showed decreases in civil government, legislation, public institutions, immigration, hospitals and charities, maintenance and repairs of public buildings, charges on Crown lands and miscellaneous expenditure, aggregating $138,495. The increases were education, agriculture and public works. Mr. Stratton indicated how we spent our moneys in 1898. We spent upon public institutions $815,744, or $2,235 per day; on education $735,998, or

OVER $2,000 PER DAY;

in hospitals and charities, $184,402 or $500 per day; on Agriculture, $206,698 or $540 per day; on Administration of Justice, $426,276 or $1,110 per day; on Colonization Roads, $107,450 or $300 per day. There was no evidence to show that these amounts were not honestly and economically expended. If the sums proposed to be expended were too much it was the

DUTY OF EVERY REPRESENTATIVE

in the House to state his views and work for their reduction. But it was impossible to please honourable gentlemen opposite. If the expenditure was increased they complained and complaint was made if they were decreased. The country believed that the expenditures of the province were honestly and economically made and the return of the Government to power was to be regarded as evidence that the people were well satisfied and that they had practically said to the Government "Well done, good and faithful servants,—you have done well in the past; we will trust you in the future." (Applause.) Turning his attention to Mr. Hoyle, the member for North Ontario, Mr. Stratton congratulated him upon the fluency of his address, which he had begun by congratulating the financial critic of the Opposition upon the fair, candid and general character of his criticism. It was indeed very general, so general in fact that he jumped at conclusions, ignoring facts in support of his conclusions The honourable member from North Ontario had continued his address with an interesting chapter on "fiction," impressing in the beginning of his speech a character, which he consistently maintained to the close. In his fictitious explanation of the trust funds, the honourable gentleman said that Mr. Conmee had much to learn, but Mr. Stratton feared that if he depended upon Mr. Hoyle for enlightenment on the subject, he was doomed to remain in ignorance. (Hear, hear!) The honourable gentleman from North Ontario, in discussing the Common School fund left the House a liberal choice in the matter of name—it was first called a "fiction," then a "fund," then an "obligation."—a specimen of hair-splitting that would make even Mr. Mathieson himself look to his laurels. (Hear, hear). Mr. Hoyle might deny that he called this fund a "fiction" and put the responsibility upon Mr. Blake, who, as counsel, was doing a little special pleading, but Mr. Stratton assumed that Mr. Hoyle

WAS IN SYMPATHY WITH

Mr. Blake's contention, and should accept the responsibility. If this fund was a "fiction" it was a fiction of the right description, for who had even heard before of an interest-bearing fiction! (Hear, hear and applause.) A fiction that yielded to the Province $70,000 a year was the kind of fiction we wanted; "and Mr. Speaker," said Mr. Stratton, "if you can load the shelves of the parliamentary library with works of fiction of this sort you will be conferring an inestimable benefit upon the Province. (Applause.) The hon. gentleman also objects to the $10,000 appropriated for arbitration expenses. In a matter of this kind where millions of dollars are involved, the best interests of the Province demanded that only the best available counsel should be selected. In no other connection could economy be more emphatically misplaced—a moment of weakness or slackness on the part of a cheap and inefficient counsel might represent incalculable loss to the Province. If the Hon. Mr. Blake had not been employed on the occasion referred to by the hon. gentleman for South Ontario, he would not have made the remark quoted, and Mr. Hoyle would have been robbed of his subject for a speech.

Mr. Stratton said that he or any other business man would adopt the course of going to an expense for counsel and advice in proportion to the magnitude of the interests at stake. He, or any other business man, would do the same in their private affairs, and the same reasons

JUSTIFIED THE PROVINCE IN GOING

to the expense of $10,000 in securing several of the best counsel for a most important and protracted arbitration. It had been fortunate for the province in the past that we had Provincial Treasurers who had estimated these matters at their true value and had employed competent counsel, with results that compensated for the expenditure involved a thousand fold. (Hear, hear.) The honourable gentleman had apparently worked off part, at least, of an election campaign speech. In a burst of eloquence he had depicted the terrible burdens Ontario was labouring under. The bonded municipal indebtedness he placed at fifty-one millions, the cost of legislation at three and a half millions, municipal taxation, annually, twelve millions, and Ontario contributed to customs fifteen millions annually, and the fee system was responsible for a million Mr. Stratton

JAPANESE CATARRH CURE CURES.

The following testimonial is only one of the hundreds daily received by the Proprietors of Japanese Catarrh Cure. Coming from British Columbia, where, owing to extreme dampness of the climate, catarrh is more prevalent and more difficult to cure than in any other parts, makes it more valuable. Mr. James Farr, Chilliwhack, B.C., writes: "I have been very badly troubled with catarrh for years, and tried all the advertised remedies and many Doctors, but in every case the catarrh came back. One year ago I purchased six boxes of Japanese Catarrh Cure, and since finishing the treatment with this remedy, have not felt the least sign of catarrh. My nephew, William Beatty, was also so bad with catarrh that it was unpleasant to go near him; he has also been cured by Japanese Catarrh Cure. We keep it for sale in our store, and know that many others similarly afflicted who have been cured." Japanese Catarrh Cure is guaranteed to cure any case of catarrh. Sold by Ormond & Walsh, druggists, Peterborough. A free sample will be sent to any person suffering with this disease. Enclose 5 cent stamp. Address, The Griffiths & Macpherson Co., Toronto.

NOTICE TO CREDITORS.

IN THE MATTER OF THE ESTATE OF Frances Dugan, late of the Town of Peterborough, in the County of Peterborough, deceased. Notice is hereby given pursuant to R.S.O. 1897, chapter 129, that all persons having claims against the estate of Frances Dugan, who died on or about the thirtieth day of January, 1899 are required to send by post prepaid, or to deliver to Hall & Hayes, of the said town of Peterborough, solicitors for Charles McGill and Richard Hall, the executors of the will of the said deceased, on or before the 28th Day of March, 1899, their names, addresses and descriptions, and a full statement and particulars of their claims, and the nature of the security (if any) held by them duly verified, and that after the said day the executors will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice.

Dated this 20th day of February, 1899

HALL & HAYES,
Solicitors for said Executors.

Application to Parliament.

NOTICE IS HEREBY GIVEN THAT THE Corporation of the Town of Peterborough will apply to the Legislature of the Province of Ontario at the next session thereof for an Act to confirm the bylaws of the said Corporation relating to the William Hamilton Manufacturing Company, Limited, and to enable the Corporation to acquire and develop water power on the waters of the Otonabee River and to transmit and supply electric light, heat and power and to authorize the issue of debentures for the purpose aforesaid, and for the purchase of waterworks and for other purposes.

E. B. EDWARDS,
Solicitor for the Town of Peterborough.
Dated January 12th, 1899. 3d

THE NEW STORE, 385 George Street

MRS. ANDERSON'S BABY.

You couldn't convince Mrs. Anderson that Cupid ever was as pretty as her little girl.

Mrs. H. C. Anderson is well known in South Britain, Conn., where she lives. She is very enthusiastic about Dr. Pierce's Favorite Prescription although no more so than thousands of other women who have been similarly benefited. She writes:

"During the first month of the period of gestation I could not keep anything on my stomach. I went to bed the 28th of June and never got up till the first of August. I tried different doctors, but with little benefit. I began to take your 'Favorite Prescription' in November and I had a nice little baby girl in February following. I was only in hard labor about one hour and was up and dressed on the eighth day. I never had the doctor with me at all; just the nurse and two friends. This makes my second child; with the first one I did not take the 'Favorite Prescription,' and the little one was sick all the time and lived just about two months. This last baby is as plump and healthy as any mother could wish. She is about three weeks old now and is gaining in flesh every day."

Mothers who suffer undue pain prior to or succeeding the baby's birth are invited to consult Dr. R. V. Pierce, by letter, absolutely without charge. The great success which has attended the careful methods pursued by Dr. Pierce, has caused imitators to spring up, who make offers of free advice, which they are not competent to give, not being physicians. When you are invited to "write to a woman," ask the simple question, "Is this woman a physician?" You will find that she is not, and does not, and dares not claim to be, a physician. To offer such advice is deceitful. To receive it is dangerous.

Prospective mothers should send for a free copy of Dr. Pierce's great 1,000 page book the "Common Sense Medical Adviser." A copy in paper-covers will be sent on receipt of 21 one-cent stamps to pay cost of customs and mailing *only*; in cloth-binding 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

AN ADMIRER OF WOMEN.

But His Standard of Excellence Rises Every Time.

I was riding along the road leading across Hurricane gap, in the Pine mountain range, thinking of the peculiar people who lived in these fastnesses, when I was startled by a voice up the hillside calling to me to come up and give somebody a lift. I had no idea who owned the voice, but whoever it was was in trouble, and I responded and found a man of 60 or more caught by the foot under a fallen tree and unable to get away. He wasn't hurt, and I soon had him on his feet, and he insisted on my stopping farther down the mountain and taking dinner with him. He lived in a well kept cabin with his daughter, and after dinner we sat in the shade of a tree in the yard and he told me about himself.

"Air you married?" he asked after he told me he was a widower.

"No, but I hope to be some day," I answered quite sincerely.

"You ought to be. Every man ought to be. A man that ain't ain't showin a right feelin to'rds what the Lord's done for him. Thar ain't nothin on the face uv God's green earth that is a patchin to a woman. I don't keer what kind she is."

"You're hale and hearty yet," I said, "and I don't see why you don't take some of your own advice."

"Don't crowd the mourners, mister," he said, waving his hand as if warding off my attack. "Don't you crowd the mourners. I'm figgerin on sever'l this very minute, and I ain't quite shore yit which one to pick. I've been married four times, and every time my notions uv women has got so much higher that I'll be derned of I don't kinder look forrerd to losin a wife jist fer the satisfaction uv gittin another one."

The idea was so entirely new that I was overcome by it

Montreal Methodists See Agoncillo.

Montreal, Feb. 18.—A remarkable interview took place yesterday at the Windsor Hotel between Rev. Dr. Shaw, principal of the Wesleyan College, Rev. T. G. Williams, pastor of St. James' Methodist congregation, and Senor Agoncillo, the Philippine representative, in this city. It was the desire of the clergymen in question to talk over the missionary question and ask Agoncillo's opinion on the outlook. Of course the meeting was informal and the Filipino could not speak officially. He, however, very kindly received the representatives of the Methodist Church, and gave them a good deal of information regarding the condition of his countrymen in the islands.

B. C. Salmon Canners Excited.

Vancouver, Feb. 18.—Local salmon cannery men are intensely interested in a big Chicago deal, whereby capital of magnitude is got together and the whole of the salmon traps on Puget Sound are bought out for a sum exceeding $1,500,000. It is the Pacific American Packing Company of Chicago (of which Mr. John Cudahy, the great pork-packer of that city, is vice-president and leading financial backer) that has acquired the fish traps. They disclaim all idea of this being a trust, declaring that the profits in Puget Sound fishing have alone attracted them.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box.

Advertise in THE EXAMINER.

Mailed on receipt of price, one package $1, six, $5. Our will please, six will cure. Pamphlet free to any address. The Weed Company, Windsor, Ont.

Weed's Phosphodine is sold in Peterborough by John Nugent, druggist

MARKET REPORTS.

Wheat at Liverpool Was Firmer, But Chicago Was Heavy and Closed Low for the Day—The Prices.

Liverpool, Feb. 18.—The wheat market showed a better tone yesterday and futures closed ½d per cental above Thursday's last quotations.

Chicago, Feb. 18.—The wheat market yesterday was heavy, almost from the opening. The volume of trading was light and mostly on the selling side, as reports from several States failed to show much damage to crops from the recent cold weather. Both the May and July options closed at near the low point for the day and something like a cent below Thursday's final figures.

Liverpool Markets.

Liverpool, Feb. 18.—The markets closed yesterday at these figures: Spot wheat steady; India, 6s 4½d; No. 1 Northern, 6s; Walla, 5s 1½d; futures, red winter, 5s 8¼d for March and 5s 8d for May. Maize, steady, 3s 6¾d for new, and 3s 8d for old; futures, quiet, 3s 5¾d for March and 3s 5½d for May. Flour, 18s 9d.

The Rosmore Abandoned.

New York, Feb. 18.—The Holland Line oil tank steamer Rotterdam, which arrived yesterday morning from the port of the same name, brought 42 members of the crew of the steamer Rosmore, Liverpool for Baltimore, who were rescued in mid-ocean. The Rosmore was abandoned in a sinking condition. The nine other members of the crew had been taken off two days before by the steamer Trojan, Newport News for Glasgow. The Rosmore, which belonged to the Johnstone Line, left Liverpool Jan. 28 for Baltimore with a small cargo of salt and China clay.

Red Hot From The Gun.

Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25 cents a box. Cure guaranteed. Sold by all Druggists.

Children Cry for CASTORIA.

Women's Worst Enemy

Some hesitate before giving an answer, but those who know best will immediately say HEADACHE.

Thousands of women live in misery day after day, and week after week, suffering untold agony from these dreadful headaches. Husbands are disheartened, children neglected, and happy homes ruined. Most women strive to bear in patience the suffering which they consider part of life without looking into the cause or searching for relief. Food cannot digest without the bile which the liver supplies and hence the necessity of keeping the liver in good working order. To cure the headaches you must cure the liver and thus remove the cause of disease.

Dr. Chase spent years of his life in perfecting a medicine which acts directly on the kidneys and liver. Thousands of grateful women have testified during the past ten years to the effectiveness of this remedy for sick headaches. Many a home has been restored to happiness as a result.

Dr. Chase's Kidney-Liver Pills, the greatest discovery of this great scientist, are put up to sell at 25 doses for 25c. All dealers.

RECENT INVENTIONS.

Coins can be securely held in packages by an improved holder, which is formed of a strip of tin rolled into a cylinder, with scalloped ends, which are bent against the end coins after the package is filled.

Water can be distilled for household use by means of an Ohio man's device, in which a kettle is placed on the fire to generate steam, which passes through a pipe in the lid to a receptacle below, condensing before it leaves the pipe.

Bottles and other glassware can be safely packed for shipping in a new crate, which has spring pressed partitions adjustably placed inside the walls to press against the sides of the fragile articles and prevent the reception of sudden shocks.

For use in examining the mouth and throat a new mirror has the frame hinged on a handle, with a screw running through the handle and engaging the ring frame to look it in any desired position, making one glass do the work of all the glasses with fixed angle frames.

The arm, chest and back muscles can be developed by a new exercise, composed of two pieces of spring wire formed into a straight central portion, with coils at each end, the wires being then extended in a straight line and ending in handles at the outer ends, which are grasped to bend the coils.

POULTRY POINTERS.

Buckwheat is a good egg producer.

Do not stint young, growing fowls.

A dust bath cleanses the feathers and skin.

Sunflower seeds add to the luster of the plumage.

The nest must occasionally be renewed and kept clean.

If for any reason the hens stop laying now, try a complete change of feed.

Eggs stored in a damp place will often taste musty, even though the test shows clear.

The reason fowls fatten faster on cooked food than on raw is that it is more easily digested.

With good feeding a young fowl should weigh a pound when six weeks old and two pounds when ten weeks old.

As a rule, if hens have plenty of freedom, with opportunities for exercise, there will be less complaint of soft shelled eggs.

Feathers and combs are largely matters of fancy. Egg laying and chicken raising are mainly matters of business.—Exchange.

POLITICAL QUIPS.

Speaking of political snaps, what's the matter with the position of congressional delegate from Hawaii? Think of the mileage.—Omaha World-Herald.

One New York paper wants to make betting on elections a punishable offense. The idea is absurd. It's bad enough to lose a hat without losing one's head.—Philadelphia Times.

A candidate is not obliged to swear to the amount paid out to secure the nomination, which is frequently greater than the amount necessary to secure an election.—Anaconda Standard.

TIRED OF THE STATES.

Folks Leaving Uncle Sam's Domains for the Canadian Northwest.

Winnipeg, Feb. 18.—The spring rush of immigration seems to have set in earlier than usual. The authorities were somewhat puzzled to find accommodation for a number of settlers who arrived from different points. A number of English immigrants and a family from Minnesota went to Dauphin; and a deputation from Wisconsin and Missouri, composed of George Davis and George McAllister of Madison, Wis., R. Davis from Mansfield, Wis., and W. McAllister and H. McAllister of West Plains, Missouri, have left for the Swan River district. They intend entering for homesteads in that section, and have authority to make entries for a number of their friends. The present indications are that there will be a large number of immigrants from the United States to Manitoba this spring.

The Finns Are Afraid.

Helsingfors, Finland, Feb. 18.—That the new Governor of Finland intends to accelerate the Russian control of that country is shown by a new edict just issued.

Beginning next month, the Russian Government will introduce Russian coinage into Finland, and will insist that all old Finnish coins shall be returned to the mint and removed from circulation.

This measure, taken in connection with the recent rescripts of the Czar for increasing the Russian army in Finland, and with the proposal of making the Russian language obligatory in the University of Helsingfors and in the schools of the province, robs the Finns of all hope of perpetuating their nationality.

Saw Her Children Burn.

Dubois, Pa., Feb. 18.—A dwelling house at French Run, 35 miles east of Dubois, belonging to a woodman named Carlson, was burned yesterday. Carlson was away. His wife had just time to grasp a baby and jump from a second-storey window into the snow. She was then obliged to stand and witness the burning to death of her four other little ones, aged 12, 7, 5 and 2 years respectively.

The Gaspesia Still in Ice.

Mont Cove, C.B., Feb. 18.—A frosty breeze prevented seeing the steamer Gaspesia yesterday morning. The ice is close packed and stationary; the wind light, from the southwest.

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR.—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000, which matured on the 5th inst. Of the various options you have given me viz.:

Cash value	$1,564 00
Paid-up Policy, payable at my death, for	2,560 00
Yearly Income for life of—	186 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4½ per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the lowering rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,
(REV.) J. THOMPSON, D. D.

BLOOD & NERVE PILLS BLOOD & NERVE PILLS

READ THE PROOF!

GENTLEMEN,—I have for a long time needed something to make blood and build up my system. My blood was watery and thin, lacking strength and vitality. Last January a friend said to me—"Why not try Dr. Ward's Blood and Nerve Pills? They will supply the oxygen your blood needs and give you health and strength." I told him I was very skeptical as to any benefit that could be derived from any proprietary medicine and had no faith in them. There the matter rested until four months ago, when reading so much about what Dr. Ward's Blood and Nerve Pills have done for so many people with impoverished blood, I concluded to give them a trial. I have taken four boxes and my unbelief so far as Dr. Ward's Blood and Nerve Pills are concerned has been entirely removed. They are a splendid blood builder and strength restorer, and an invaluable medicine for weak, enervated people. This has been my experience, they having given me strength of body and strong healthy blood.

(Signed), PETER LAWRENCE WEYTE,
988 Queen St. West, Toronto, Ont.

THE ONLY KAISER.

That pious crusader, Emperor William, is not acting in a Christian way to the editors of Germany.

The kaiser's naval officers in the Philippines conscientiously can advise him that the Dewey treatment is excellent for that meddling feeling.

Dispatches from the east announce that the German emperor wants universal peace. It is clear, however, that he wants it on his own terms.—New York Mail and Express.

There has been nothing more cynical in recent European history than the Emperor William's fraternization with the Turk, and it shows that, much as he may have disliked Bismarck, he has taken a leaf out of his book.

The newspaper which is understood to be the sultan's personal organ says it is difficult to classify the kaiser. This no doubt will be extremely flattering to eccentric William, who is evidently aiming to be the imperial dodo of his time.—Cleveland Plain Dealer.

Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down-feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me more strength and good appetite than anything I could take. I can now eat anything and have a new lease on life. Only 50 cents at any Drug Store. Every bottle guaranteed.

Three Firemen Killed.

Philadelphia, Feb. 18. — At about o'clock yesterday, while about a dozen firemen were at work in the ruins of the store of the Emerson Shoe Company, a mass of iron and stone crashed down from the upper floors, burying the men beneath it. Three of the firemen were killed. They are: William Chance, a fireman; Hugh Duffy, George W. Stinley. The body of Chance was recovered. Five other firemen were injured, two seriously, by the falling debris.

President McKinley in Boston.

Boston, Feb. 18.—President McKinley addressed the members of the Massachusetts Legislature yesterday. He talked of the duty of carrying liberty "to oppressed people whose interest and welfare by the fortunes of war are committed to us."

It is said that the soldiers who had taken Hood's Sarsaparilla stood the long marches in Cuba much better than the others.

Couldn't Do It.

De Broke—How much is this bill going to be?

Photographer—Ten dollars. Look pleasant, please.

De Broke—Impossible.—Jewish Comment.

He Wouldn't Guess.

"Why, oh, why did I ever marry you?" she cried.

"My dear," he replied calmly, "you know I never did like these conundrum parties or puzzle symposiums."—Chicago Post.

SOFT BACON.

Some Hints That May Be of Value to Hog Raising Farmers—Prof. Day's Notes on O. A. C. Experiments.

As Canadian packers have recently had a great deal of trouble with what is known as "soft bacon," perhaps a few notes on the subject may prove of interest to many farmers, writes Prof. Day of the Ontario Agricultural College. One of our leading packing houses makes the statement that during the months of May, June and a part of July of the present year the number of soft sides ranged from 30 to 40 per cent. of the whole. This means that Canada placed upon the English market this year a large quantity of inferior bacon, and though this bacon was not misrepresented, but was sold strictly upon its merits, at the same time it was Canadian bacon, and tended to bring discredit upon Canadian bacon as a whole. It requires no argument to convince any intelligent man that the condition of affairs just described means an ultimate loss to the farmer, because when our packers meet with losses of this kind their only remedy is to pay lower prices. It is therefore a matter of great importance, not only to the packer, but more especially to the farmer, that less soft bacon should be placed upon the market; and the problem of how to produce firm bacon should be carefully studied by every man who has a pig to sell.

Soft bacon does not mean fat bacon. It means a soft condition of the fat, which develops while the bacon is in the salt, and reduces the value of a side according to its degree. An absolutely soft side is comparatively worthless, and between this condition and firmness there are all shades and degrees of tenderness. Sometimes softness is noticeable before the bacon is put into the salt, but apparently firm sides frequently come out of the salt decidedly tender or soft.

Various speculations have been indulged in regarding the cause of softness. Corn, clover and lack of exercise are perhaps the chief things which have been blamed, but there is considerable diversity of opinion regarding the matter. For some months past experiments have been in progress at the Ontario Agricultural College to ascertain, if possible, some of the causes of softness, and to study methods of producing firm bacon. In these experiments the hogs are shipped directly to the factory, slaughtered, and the different groups packed separately in salt. When the bacon comes out of the salt it is carefully examined by experts, so that there can be no mistake as to its firmness or softness. Our investigations are by no means complete, but some interesting results have been obtained. Full details of the experiments will be found in the college report of 1898, but the following are some of the principal points brought out by the work up to date:

1. Though corn has been commonly blamed for producing soft bacon, it apparently has no evil effects when used for finishing hogs that have had plenty of exercise until they reach 100 pounds live weight.

2. Neither does corn appear to cause softness when used for hogs that have had no exercise, but have been fed skim milk with a mixed grain ration until they reach 100 pounds live weight.

3. What has been said of corn may also apply to rape, when a two-thirds meal ration is fed with it.

4. Hogs confined in pens and fed wheat middlings during their early growth, and peas, barley and shorts during the finish period (without either skim milk or whey) have marked tendency to softness of fat.

5. Hogs given plenty of exercise and fed as just described produce firmer bacon than those confined in pens and fed the same ration.

6. The evil effects arising from lack of exercise can be overcome by the judicious feeding of whey or skim milk with the meal ration. From two to three pounds of whey or skim milk to a pound of meal will be satisfactory.

7. Whey and skim milk appear to have a greater influence than exercise in producing firm bacon.

8. Unthrifty hogs are more likely to produce soft bacon than growthy, well-fed hogs.

The influence of whey and skim milk in these experiments was especially marked, not only in making rapid and economical gains, but also in producing a fine quality of bacon, in spite of lack of exercise. While corn produced firm bacon when used for finishing well-grown hogs, it must not be assumed that it will not cause softness when used under other conditions. Its influence on younger animals has yet to be tested. In Danish experiments corn was found to be decidedly injurious to firmness when fed to very young animals.

It is to be hoped that feeders of hogs will carefully study this question of producing firm bacon, for it is a matter of vital importance if we are to retain our profitable English trade.

DON'T TELL ANYBODY.

If no one should tell you about it, you would hardly know there was cod-liver oil in Scott's Emulsion, the taste is so nicely covered. Children like it, and parents don't object.

THE ADMIRAL.

Admiral Dewey is perfectly content to let the score card tell the story without taking off his hat to applause from the grand stand.—Washington Star.

Dewey's desire to return to the United States shows that either he has not been kept informed as to the Hobsonizing process or that he is even a braver man than has been supposed.

Admiral Dewey's reported desire to come home on a leave of absence looks reasonable enough. Besides, his countrymen would like mighty well to get a look at their foremost hero.

If Admiral Dewey is not feeling in good health the United States is the last place he should think of coming to unless he knows how to maneuver so as to keep out of the range of dinner invitations.—Exchange.

Russians have long but beautifully shaped hands, while those of Spaniards are often spoiled by the thickness of the fingers, which are apt to round at the tips.

"Charles," said Coleridge one day to Lamb, "did you ever hear me preach?" "I never heard you do anything else," said Lamb.

Mr. M. T. Wigle

Of Kingsville, Essex Co.

CURED OF ITCHING PILES OF 23 YEARS STANDING

M. T. Wigle, better known to every one in the vicinity as "Uncle Mike," was troubled for over 23 years with itching piles. At times he was so bad he would have to quit work. The irritation became so intense with constant rubbing that they became ulcerated and would bleed. He had been treated by many physicians, but found nothing that gave him relief. Reading in the paper the cure of a friend who had suffered in a like manner, and been cured by Dr. Chase's Ointment, he procured a box. After the third application he got such relief that he had the first comfortable night's sleep he had enjoyed in years. The one box made a complete cure, and he says he would not be without it for $50 a box if it could not be replaced. Mr. Wigle is a wealthy farmer, well known in the community in which he resides. It is over two years since he was afflicted, and he has never been troubled since.

Physicians fail to make a cure when Dr. Chase's Ointment gave Immediate Relief. . .

THE LISTENER.

Senator McMillan still carries a watch given him by his father when he came of age.

There have been few men who really climbed the Matterhorn, and among them is but one American, Colonel Roosevelt.

Thomas F. Pendel, the chief doorkeeper at the White House, is the last surviving member of Abraham Lincoln's bodyguard.

Colonel Joseph Henry of Vanceburg, Ky., is the great-grandson of Patrick Henry and is said to be the only living direct descendant of the patriot.

Dr. Calmette, director of the Pasteur institute at Lille, France, has endowed that body with $50,000, the profits of one of his inventions at the distilleries of Seclin.

Rolf Moerck, a New York musical prodigy, has applied to the courts to have his name changed to Brandt Rantzau, saying his real name is too plebeian for one contemplating an artistic career.

Commodore Philip has been elected a member of the Young Men's Christian association's international committee and chairman of the subcommittee in charge of the association's work in the navy.

John H. Buckman, captain United States navy, retired, enlisted in the navy 19 years before the civil war and served with Dewey. At Fort Fisher he raced Lieutenant Bob Evans up a scaling ladder.

Colonel Thomas P. Ochiltree has just returned from his fifty-fourth transatlantic voyage. When he left for Europe some time ago, he had to be carried to his vessel on a stretcher. He now comes back in perfect health.

Joshua E. Dodge of Milwaukee, whom Governor Scofield of Wisconsin has appointed a justice of the supreme court, was born in Arlington, Mass., in 1854, and he was appointed an assistant attorney general of the United States in 1893 by President Cleveland.

James Gray, the newly elected mayor of Minneapolis, started life as a newsboy, earned money sufficient to keep him while going to the common schools, was graduated from the State university and became reporter on and then managing editor of the Minneapolis Times.

Sir John Voce Moore, the new lord mayor of London, is one of England's great tea merchants. He is 72 years old and has been in public service since 1870, when he became a member of the common council. He was sheriff in 1894 and was knighted in that year at the opening of the lower bridge.

The youngest chaplain in the navy is said to be the Rev. Frederick C. Brown, 25 years old, now on the Iowa, which is on her way to Manila. He will be the only chaplain in the fleet, since there is none on the Oregon. He was appointed to the service last April, being at that time pastor of the Unitarian church of Middleboro, Mass.

On the eve of Harvard's triumph over Yale there died at the former college a man whose death cast a gloom over the whole university. This was John Milton Kullmer, 1900, who worked by day and prepared himself for Harvard by night, worked his way east from his home in Great Falls, Mon., in 1896 and secured a position in Boston whereby he paid his college expenses.

Literal.

"He writes left handed, so you say,
But I don't see a sign of it.
Look here," she said. "This came today—
Hand righting, every line of it!"

The other said, "I'll let you be
Provided you will let me see."
And so, to make her letter B,
She held it up to letter C.

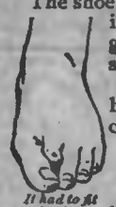
THE SLATER SHOE

Business Moods.

When a good man swears on a wet day it's more than likely the profanity comes from *his feet.*

The shoe that pinches spoils the temper, irritates the nerves, impairs digestion, and obscures the merry sunshine of life.



It had to fit the shoe.

Success or failure in life oft hinges upon a man's mood at critical moments, and the way his *feet* feel sometimes sways destiny.

A pair of "Slater Shoes" may unconsciously save a fortune, but can't cost more than $5.00.

It's cheaper to *throw away* a shoe that hurts than to *keep* it, and mark this—*new* "Slater Shoes" need no *breaking in.*

A tag on each pair tells just what leather it is made of—how it will affect the feet—and the wear it *will*, or will *not* give, according to use.

The makers name and price stamped on the sole protects against imitations of Goodyear Welt, and ensures value *every* time to the wearer. $3.00, $4.00, $5.00

A Word About Pianos.

It is only a question of price that arises when selecting the best piano.

Sixty years of experience tells us that the public more than ever, is tired of the common thump box and waste musical quality in piano tone.

Whilst the NORDHEIMER is the highest grade piano manufactured in Canada, remember it is the cheapest in the long run. Its tone is the sweetest, retaining always that peculiar vocal quality combined with great endurance, which strong reasons have made it the choice of all lovers of the beautiful in music.

Easy terms arranged.

Illustrated booklet mailed free on application.

MR. STRATTON'S ADDRESS

(Continued from Fifth Page.)

pointed out that in respect of the bonded municipal indebtedness (although there was in reality no such thing) and the municipal taxation, these were something that the Legislature could not control, except to the limited extent that was possible through the restrictions that had been placed upon the borrowing powers of municipalities. The cost of legislation, by which the honourable gentleman evidently meant the governing of the province, was not at all excessive. With regard to the customs duties imposed by the Dominion Government, that was something which this Legislature had no power to deal with, and which Mr. Hoyle and his party had forced upon the country in the shape of excessive protection duties. With regard to the fee system, that

WAS SETTLED BY THE PEOPLE

long ago. With regard to the provincial expenditure, if that was considered excessive, when the estimates were brought down that was the time for the Opposition to object. (Hear, hear.) They should put their objections in specific form and not sit silently, consenting to the expenditure adopted, and then afterwards, when it was too late, find fault for the purpose, apparently, of making party capital. (Hear, hear.) Mr. Hoyle had made it plain that it was not to the expenditures on education and agriculture that he objected, but to the results. This was a singular objection for anybody with the slightest practical knowledge of these subjects to urge. How were we going to set down a specific statement of the results in either of these branches? If a farmer sowed a certain amount of seed on an acre of ground he could get specific results—a yield of so many bushels and pounds, but if he applied a fertiliser to increase a crop how was he going to estimate the exact results, although he might have the best of evidence of beneficial effects? As to the results in education, we know that our people are educated better than the people of almost any other country in the world. (Hear, hear.) Was it not satisfactory proof of good results that the graduates of our universities who came through the Public and High Schools

WERE GIVEN PROMINENT POSITIONS

in the colleges of the United States? Was it not a proof of the benefits resulting from the administration of the Department of Agriculture that Ontario had gained the position of being the best producer of agricultural products in the world, that her cheese and other products had no superior in the British markets? (Hear, hear.) The hon. gentleman did not point out any improvements that he would like to see effected. He only vaguely complained of unsatisfactory results. He would surround the Minister of Education with an advisory board. The minister had now an excellent advisory board. He had the benefit of the opinions of educational experts, of school inspectors, etc., etc., and he had the Legislature as an advisory board, and what more did he need? As well might advisory boards be provided for the other cabinet ministers. What we wanted was a responsible minister—responsible to the House, and through the House to the people. We wanted no system whereby a Minister of Education could shirk his responsibility to Parliament and shelter himself behind an advisory board. (Applause.) Complaint, too, was made of excessive examinations, but there were but

TWO EXAMINATIONS THAT

could be regarded as compulsory—that for teachers' certificates; and the entrance examination was not compulsory except the pupil desires to reach a certificate through the High School. It was the policy of the Department to interfere as little as possible with trustees in the domestic management of their schools. Mr. Stratton said he was glad the honourable gentleman approved of something and spoke in praise of Prof. James' text book on Agriculture, which, Mr. Stratton believed, it was the intention to authorise if it had not already been done for use in the Rural Schools. This book the honourable gentleman looked to for the education of the farmers' sons and to help the farmers pay off the mortgages on their farms. While the teaching of agriculture in the schools was to be commended, the Government had taken the

MOST EFFICIENT AND MOST PROPER WAY

to help the farming industry. Public and elementary schools had long been in existence, but it was only now that technical branches were being introduced. It would be a long time before the teaching of agriculture in the schools could have any practical effect on farming operations. The system of the government was a practical one in relation to agriculture. Through the medium of the Farmers' Institutes and the similar system of lectures and the Experimental Farm the special knowledge gained was made at once available to the farmers for practical application. (Hear, hear.) Complaint was made by the Opposition critics that our graphic reports were too disappointing. We had learned the value only by the pain of being required to make the irresistible reply to the assertion that the contents of the Opposition organ that the only prosperity was such as that enjoyed by drunkards and harlots. We had no desire to make such another of those unfortunate

The Opposition objected to the sale of timber, yet the boasted Sandfield Macdonald surplus was derived chiefly from that source and if Sandfield

HAD PAID HIS OBLIGATIONS

his surplus would have been gone. This was information that was in the possession of every school boy and one would have thought that it had penetrated to North Ontario. The honourable gentleman had made comparisons of expenditure. If he wanted to continue his "comparisons" he had only to investigate, and he would find out that from 1808 to 1870 the increased percentage of expenditure was greater than in any corresponding period since, except the years in which the Parliament buildings were being erected. Severe criticism had been directed against the expense of the administration of justice, and against the increased cost. Mr. Hoyle wanted the judicial districts enlarged. Would he have an enlargement of the judicial districts of Nipissing, Algoma and Muskoka? Mr. Hoyle object to junior judges—that there was not work enough for two judges in some districts. He should recollect that when they were appointed he did not object—when his objections might have had more weight—when his political friends were in power at Ottawa. If he had objected then he would have shown some consistency in entering his protest now. If the people were not more heavily burdened with taxation than through the judges, they would not consider themselves very heavily taxed, though Mr. Hoyle complained that the people of Ontario were taxed thirty-one millions a year, a circumstance for which this House is not responsible. Mr. Hoyle laid considerable emphasis upon the anxiety of the Government supporters

TO COMPARE THE COST

of maintaining Ontario public institutions with those of the several States, greatly to the advantage of Ontario, but he asserted that a comparison of the cost of the executive in Ontario with large States would show Ontario's expense as excessive. Mr. Hoyle asserted that the cost of the executive, the cabinet ministers, in Ontario, was $35,000, while in the State of New York, the cost was only $31,000, and in Michigan $7,400. Mr. Stratton pointed out that the comparison was in every way unfair and misleading, because the respective administrative systems were totally diverse, and it was impossible to institute anything like a fair or intelligible comparison. (Hear, hear.) All that could be done was to compare the general expenses of the states in the matter of the salaries of departmental officers as against Ontario. For instance, the work done in Ontario in the Provincial Secretary's office was in New York State, divided between forty and fifty highly paid officials, very few of them drawing less salary and some of them three times as much as the corresponding Ontario officials. Mr. Stratton then submitted a list relating to the officials of New York State, of which the first seven were elected by the people. The salaries of these seven aggregated $31,000 as mentioned by Mr. Hoyle, but that gentleman did not point out that there were over twenty other highly paid officers who were

REALLY THE EXECUTIVE

officers of the State and attended to matters similar to those performed by the several executive departments of Ontario. Some of these officials have salaries as large in some cases as Cabinet Ministers and the aggregate of their salaries is $220,000, not including the salaries of a host of assistants and clerks, who receive in many cases five times the salary of the highest departmental official in Ontario. It is no wonder then that the total annual expenditure of New York State is over twenty millions of dollars. (Applause.) "We don't want that kind of expenditure in Ontario. That is not the way our economy has been practised." (Applause.) The honourable gentleman from North Ontario preached a very nice, little, moral sermon on the fair, and candid criticism of provincial questions, but in view of his misleading, unfair and utterly impossible comparison of New York state with Ontario, his high morality and his elegantly rounded periods became as "soundingg brass and a tinkling cymbal." (Hear, hear.)

To be Concluded Tomorrow.

SIX WEEKS IN PAIN DUNGEON.

A Confirmed Invalid From Acute Rheumatism—South American Rheumatic Cure Gives Him His Liberty.

Geo. England, of Chatham, N. B, is a carpenter and ship builder by trade. Through exposure to all kinds of weather he contracted a most acute form of rheumatism. His joints swelled and stiffened, and he was laid up in his bed for six weeks. After doctors had failed to relieve him he tried South American Rheumatic Cure, and to use his own words: "In 24 hours after I had commenced taking the remedy the pain all left me, the swelling subsided and to-day I am a cured man." Sold by H. S. Macdonald and Ormond & Walsh.

OUR COLUMN OF SPORTS.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Going on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

HOCKEY.

Although Peterborough's prospects of being ordered to play in the finals against Queen's for the championship were considered bright, yet when the vote was taken the application to this end was lost, those who favoured Peterborough's claims being absent from the meeting for some reason. The Globe speaks as follows of the application:

Peterborough will not be afforded an opportunity of demonstrating whether they are not a better team than Queen's this year. The O.H.A. Executive decided the matter at a meeting on Saturday, when only half-a-dozen members were present. Those in attendance were, Vice-Presidents "Cully" Robertson and A. A. Macdonald, Secretary A. H. Beaton, Treasurer J. D. McMurrich, G. N. Gauthier and Lionel King.

Peterborough's request to be allowed to play the coming champions was based on the following clause in the rules of competition: "The executive reserve the right by a two-thirds vote to allow any club to play the winner of the final tie—for the cup and championship—if they consider the circumstances warrant such action."

Peterborough was represented by Mr. F. W. Kerr, the secretary-treasurer of the club, who is also a barrister. He filed affidavits, signed by Messrs. Ferguson, E. Burns, W. A. Buchanan, Livingstone and Lionel King, in support of their contention that the last goal credited to 'Varsity did not go directly through the posts. This game gave Varsity the victory. The goal in question followed a scrimmage between Peterborough's posts, and the umpire, Mr. Gordon stated that the puck penetrated between the posts a distance of three or four inches. It was also claimed by Peterborough that they scored a game earlier in the match which the umpire did not give them. There was a long discussion. Mr. Macdonald contended that it would establish a bad precedent. Secretary Beaton held that an umpire's decision was final. The Peterborough representatives offered to play Queen's in Kingston if the executive would grant permission. A ballot was taken on the matter, but it resulted in a tie, and as the rule calls for a two-thirds vote, Peterborough's request was ruled out.

Although unsuccessful in their efforts to secure permission from the O. H. A. Executive to be allowed to meet Queen's in the championship series, the Peterborough club is out with a challenge to play Queen's home and home games. It is not likely that the champions will entertain the proposition as they have arranged an American tour. The Peterborough hockeyists are greatly displeased at the alleged unfairness of the treatment accorded them by the Executive. A member of the club said on Saturday that he thought that Peterborough was entitled to some consideration at the hands of the Association. They have always supported the O. H. A. in loyal fashion, both on and off the ice, and the fact that the town was represented by three teams, one in each series, should have had some weight with the Executive.

The Winnipegs left the ice at Montreal on Saturday night in a Stanley Cup match, stating that they were not receiving fair treatment at the hands of the referee. The match was then awarded to Montreal. Lovers of hockey will regret the unfortunate ending of the championship series. A strong effort is being made to have the Winnipegs play here as soon as the temperature goes down.

A despatch from Kingston says:—Captain Guy Curtis of Queen's hockey team, states that on no account will his team play Peterboro' if the Executive orders that this is to be done. Varsity put Peterboro out of the race, and the Executive recognized this by ordering Queen and Varsity to meet last Wednesday night. Queen's meet Varsity and McGill in Kingston this week, and leave on the 25th, for Pittsburg, Pa., so that Peterboro' could not get a game for some time, even if Queen's were willing to play. However, the Queen's will meet no fairly defeated team for the championship.

UP IN WINDSOR.

Mr. Cole Discovers the Power of Dodd's Kidney Pills.

Windsor Feb. 20.—The following statement, which Mr. F. H. Cole of this place requests us to publish, is worthy of attention from every victim of Rheumatism in Canada.

Mr. Cole's experiment fully warrants him in making this statement.

"Words cannot describe how I suffered from Rheumatism and Kidney Complaint. I tried every cure that was recommended, but got no benefit until I began using Dodd's Kidney Pills."

"Thank God I did use Dodd's Kidney Pills, for they cured me—made me sound and well, in every joint and limb."

Those who suffer the agonies of Rheumatism or Lumbago need do so no longer. Dodd's Kidney Pills will cure them.

IT IS NOT ANDREE'S BODY.

Expedition That Will Go in Search in June Has $90,000.

Christiania, Feb. 20.—The reported finding of the bodies of Andree and his companions on the coast of Northern Siberia seems, after all, to be a canard. The Finnish professor of the Christiania University has received a telegram from a friend in Krasnojarsk, who says that after thoroughly investigating the source of information he is convinced that there is no truth whatever in the reports. The Polar expedition of Prof. Nathorst, who will go in search of the Andree party early in June, meets with popular approval. Subscriptions are pouring in from all parts of Norway and Sweden, and already the amount contributed exceeds $90,000.

SALISBURY A GOLD DIGGER.

The Present Premier Handled a Pick and Shovel Long Ago.

London, Feb. 20.—Lord Salisbury's celebration of his 69th birthday has recalled numerous stories of his early struggles. Most people have heard of his journalistic experiences, but it is not generally known that he once handled a pick and shovel at Bendigo. A hovel is pointed out as the residence of the then Lord "Bob" Cecil, at the time he was a red shirted gold-digger in 1856.

Worth Trying If Sick

A verified record—1,016 cured in one month by Dr. Chase's Family Remedies. All dealers sell and recommend them.

J. W. T. Fairweather & Co.

CURTAIN RAISERS.

John Drew is to publish his mother's reminiscences.

Charles Frohman has bought the American rights to "Lord and Lady Algy."

McKee Rankin has taken Nance O'Neil and a dramatic company to Honolulu.

The first theater in the United States was built at Williamsport, Va., in the year 1752.

Next season the Liebler company will send out two organizations to play "The Christian."

Lillian Russell is talked of as Mme. Sans Gene in an operatic version of that familiar story.

Robert Taber has been delighting the Londoners by his fine performance of Laerte in "Hamlet."

Zangwill's novel, "The Children of the Ghetto," will be dramatized by him for the Liebler company.

The rumor is again current that Mrs. Patrick Campbell of London will visit America as Lady Macbeth.

George Meredith's "The Egotist" is to be dramatized. There will, of course, be a rush for the leading role.

John L. Sullivan is preparing to put on a motion picture show next season, depicting each of his big fights.

"The Little Minister" has been played in Kirriemuir ("Thrums"). It was "guyed" by the natives as a caricature.

Jacob Litt has arranged for the production of the funny English farce, "The Club's Baby," at a New York theater later in the season.

Coquelin will soon present in Paris an adaptation of Dumas' "La Dame de Montsoreau," in which he will play the part of Chicot, the jester.

No wonder that all the novelists are turning playwrights. James M. Barrie is said to have cleared $900,000 in royalties from "The Little Minister" so far.

A Word About Pianos.

It is only a question of price that arises when selecting the best piano.

Sixty years of experience tells us that the public more than ever, is tired of the common thump box and wants musical quality in piano tone.

Whilst the NORDHEIMER is the highest grade piano manufactured in Canada, remember it is the cheapest in the long run. Its tone is the sweetest, retaining always that peculiar vocal quality combined with great endurance, which strong reasons have made it the choice of all lovers of the beautiful in music.

Easy terms arranged.

Illustrated booklet mailed free on application.

WHILE TALKING WITH HIS WIFE

The Topic of Discussion Between Them Was the Danger of Carrying Firearms, and He Was Examining a Revolver at the Time—A Popular Man—His Career.

Winnipeg, Feb. 22.—Mr. R. W. Jameson, member of the Dominion House for Winnipeg, accidentally shot himself at his residence last evening. Mr. Jameson attended a Board of Trade meeting in the afternoon, at which the Kettle Valley Railway charter was under discussion. He moved a resolution, urging that the charter should be granted, and no monopoly given any railway in British Columbia. He supported the resolution in a long speech, and at the close of the meeting, shortly after 6 o'clock, went home to dinner. After the meal he read the papers and discussed with his wife the danger of carrying firearms. He said, "I have one here now," and pulled out a revolver, which he examined. His wife turned away to her household duties, and a second later the weapon was discharged, the bullet entering near the mouth and passing out through the backbone, causing instant death. The first reports were that Mr. Jameson had committed suicide, but Mrs. Jameson says that her husband was never in a more cheerful mood than last night, and during the afternoon meeting he was in splendid spirits. He had but recently returned from a southern trip for the benefit of his health. Deceased was a very popular man in Winnipeg, having occupied the position of chairman of the finance committee for several years. He was the elected Mayor by a large majority, and in 1897 he was returned as the Liberal member for Winnipeg by 117 majority, the bye-election being caused by the unseating of Hon. Hugh John Macdonald. He was 48 years of age and leaves a widow and two children.

Sketch of His Career.

Richard Willis Jameson was born at Cape Town, in the Cape of Good Hope, July 19, 1851, and was a son of the late Lieut.-General Sir George Jameson, K. C.S.I. On the return of his parents to England in 1857 they became resident at Blackheath, near London, and at the proprietary school there Mr. Jameson received his early education. Afterwards he attended King's College, London, and Trinity College, Cambridge, where he graduated B.A. He was called to the bar in England in 1876. The same year he came to Canada, where he served articles with the firm of Ross, Macdonald & Merritt of Toronto. He was admitted to the Ontario bar, and practised in Toronto in 1881. In the same year he went to Winnipeg. In 1882 he was admitted to the Manitoba bar, and served as license commissioner in 1892 and Mayor in 1894. He was elected to the House of Commons at a bye-election April 27, 1897. In politics he was a Liberal.

THE LEGISLATURE.

Debate on the Budget Resumed—Hon. J. M. Gibson on Bonuses—Bills Introduced—Notes.

Toronto, Feb. 22.—The budget debate was resumed yesterday afternoon.

Mr. John Barr (Dufferin) resumed the adjourned debate on the provincial public accounts. He criticized the speeches of Mr. Commee and Mr. Stratton in defence of the Provincial Treasurer's statement, asserting, amidst laughter, that "the Ananias of figures is not on this side of the House." He thought our educational machinery was in the wrong direction; there are too many frills—extra subjects, and the result is that the rising generation is suffering with weak bodies and diseased minds. He argued that the Ontario College of Agriculture is too expensively conducted, and stated it to be a fact that young men who graduate there afterwards revolted against ordinary farm life. He condemned the timber policy of the Government, and said the time had come for greater mineral development.

Mr. H. J. Pettypiece (East Lambton) replied to Mr. Barr. He found satisfaction in the present state of the finances of the province, and gloried in the fact that no other country has such magnificent timber resources as Ontario. He thought, with both sides of the House, that the time had come for a still more vigorous policy in regard to the development of New Ontario. In conclusion, Mr. Pettypiece insisted on the necessity of better railway communication for the development of the country.

Dr. Jessop (Lincoln) spoke on economical lines. Efficiency of the public service could be kept up, he argued, and economy practised at the same time. He instanced the educational and agricultural departments. He was applauded when he said that no unworked ores—gold, silver, iron, nickel—should be allowed to be exported from Ontario.

Mr. Eilber (South Huron) moved the adjournment of the debate.

ASSEMBLY NOTES.

The report of the provincial municipal auditor shows that during 1898 deficits in municipal accounts amounted to $19,000, while in 1897 the amount was about $100,000. The decrease is attributed to the new system of bookkeeping introduced by the department.

Hon. G. W. Ross introduced a bill yesterday, providing the change of date for electing the boards of management for township libraries from the first Monday in May to the second Monday in January.

The Trades and Labor Council deputation that waited on Hon. Mr. Davis to urge that boys and girls be sent from industrial schools to private homes, learned from the Provincial Secretary that it was not true that the Government did not favor putting the boys out in private homes, but it preferred putting them in Ontario homes instead of sending them out of the province. If homes could not be found for them here they would send them elsewhere, rather than hold them in the reformatories.

Bonus Bylaws.

The municipalities that are asking the Legislature for power to grant bonuses to manufacturers are very numerous and in the private bills committee yesterday Hon. Mr. Gibson made some strong comments regarding the state of affairs. He said that the law of 1892, instead of discouraging the practice, had resulted in encouraging it. There were three kinds of bonus bylaws, each of which had objectionable features. There was the grant outright, the loaning of money and security and the exemption of taxation. Mr. Gibson remarked that matters had come to such a pass that municipalities thought they could pass a bylaw and send it down here in the belief that the Legislature was bound to put stamp of legislation on it. This was vicious and should be forbidden. He hoped the feeling of the Legislature would be strongly expressed against the bonus system. The municipalities were not anxious to bonus, but competition was so strong they were forced into it. Mr. Pattullo's motion discouraging bonuses was considered by him favorably, and the discussion of all bonus bills in the committee will be laid over until after the discussion of Mr. Pattullo's motion in the House, notwithstanding the fact that this motion does not affect pending bills.

To Lay Rails to James Bay.

The proposal to build a railway from Missanabie on the C.P.R. to Long Portage at the mouth of Moose River, as a means of communicating Ontario with Hudson Bay and the reasons why Ontario should deal generously with the promoters of such railway were very fully set forth before Hon. Messrs. Ross, Dryden and Davis in the private bills committee room at the Parliament Buildings yesterday afternoon. There was a large attendance of members to hear the views of the deputation. Hon. Mr. Ross thanked the gentlemen for the instructive addresses, and said he would report what he had learned to the Premier, who would take the matter into consideration at once.

Hyderman Shot Graham.

Picton, Ont., Feb. 22.—About three weeks ago two men named John Hyderman and Charles Graham of Greenpoint got into a quarrel over a dog, and Graham fired at Hyderman, but did not injure him. Hyderman went home and got his shotgun and shot Graham in the back, which proved serious, but not fatal, and Graham is in a fair way to recover. The hearing came off yesterday before Chief Magistrate Curry, and Graham was brought in from Greenpoint to give evidence. Hyderman was committed for trial and Graham will be taken home in a few days. Hyderman was admitted to bail for $900.

A Big Leather Combine.

Chicago, Feb. 22.—A new leather combine, capitalized at $60,000,000, is being organized to take over the tanneries outside of the United States Leather Company. The name of the new organization will be the American Hide & Leather Company. The company will not be antagonistic to the United States Company.

Hotel Proprietors Liable.

Chicago, Feb. 22.—E. D. Morgan Rowland, the wealthy young clubman of New York who suffered the loss of a $500 bill which he handed to a waiter in the Grand Pacific Hotel to pay for a meal, the waiter decamping with the money, was awarded a verdict yesterday against the proprietors of the hotel for the amount lost.

HOLMES IS ELECTED.

West Huron Gives the Liberal a Substantial Majority.

ENTHUSIASM AT GODERICH.

Nearly All the Returns Are In—Goderich Township Strongly for McLean—All Others for Holmes—A Jubilation Meeting Held at Clinton After the Result Was Known.

Clinton, Feb. 22.—One of the most enthusiastic stormeetings was held in the Town Hall here on the evening of polling day on hearing the news of the return of the front Bob, namely Robert Holmes of Clinton, member-elect for the West Riding of Huron by a handsome majority of about 190. The Town Hall was crowded to the doors by the electors. Mr. William Robb, being moved to the chair, called upon James Scott, barrister, R. Holmes and Alex. Armstrong of Clinton, and D. McGillicuddy, editor of The Goderich Signal, the old standby of West Huron, and the member-elect. All the speakers spoke in glowing terms of the noble work done on behalf of Mr. Holmes, paying a tribute to the many Conservatives who threw in their support for Laurier and good government. Mr. Holmes, the elected member, was then called upon, and heartily thanked all his supporters for this grand victory. On adjourning, the large assemblage, headed by the band, proceeded to the depot and took train for Goderich, where a great reception was given them.

Enthusiasm at Goderich.

Goderich, Feb. 22.—In honor of the election of the Liberal candidate, Mr. R. Holmes of Clinton, there was a jubilee at the Temperance Hall, which lasted well towards midnight. The 10.50 p.m. train last night from Clinton brought in Mr. Holmes with a contingent of over 100 of his townsmen, who were met at the station by a torchlight procession and escorted to the Liberal meeting place. The hall was crowded to its utmost capacity.

Mr. Holmes was received with three cheers and a tiger. He said he was glad the campaign was over, and he had not spared himself since the day the contest opened to the present time. He thanked Goderich and the outside constituencies for the manner in which they had stood by him and gave a meed of praise to his own town. He had endeavored to run a clean campaign, and regretted that his opponents had not tried to do the same. A number of efforts had been made to sully his reputation, but he was pleased to know that they had been of no effect with the electors. Now that he was elected he looked upon himself not as the member for the Liberal party alone, but would be happy to be of service to Liberal and Conservative alike.

The great gathering was brought to a close with cheers for the Queen, Sir Wilfrid Laurier and Mr. Holmes.

The Returns.

Goderich—	McLean.	Holmes.
No. 1	77	52
No 2	65	54
No. 3	40	72
No. 4	47	65
No. 5	49	48

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

FRIENDS PREVAILED

A Nervous Toronto Woman Walked the Floor During the Night for Hours at a Time—She Makes a Statement.

TORONTO, ONT.—"I was troubled with nervousness. It was impossible for me to keep still and if the spells came over me during the night I had to get up and walk the floor for hours at a time. My blood was very poor and I was subject to bilious attacks. My feet would swell and I was not able to do my own housework. I treated with two of the best physicians here but only received relief for a time. I became discouraged. One day a friend called and advised me to try Hood's Sarsaparilla. I laughed at the advice but I was prevailed upon and procured one bottle. Before I used it all I began to feel better. I took several bottles and also several boxes of Hood's Pills. Now I can eat and drink heartily and sleep soundly. Hood's Sarsaparilla has entirely cured me and also strengthened me so that I now do all my own work. I cheerfully recommend Hood's Sarsaparilla to all sufferers from nervousness, weakness or general debility." MRS. H. F. FARM, Degrassi Street.

Hood's Pills cure Liver Ills; easy to take, easy to operate. 25 cents.

TO ALL WHOM IT MAY CONCERN TAKE NOTICE.

KEENE.

From Our Own Correspondent.

The carnival of Friday night was the largest and most successful one ever held here. Quite a number from Peterborough, Norwood, Hastings, Hiawatha and Roseneath were in attendance.

The Norwood Curling Club came up two rinks strong on Friday and lost to the locals by one shot.

Our hockey boys drove to Millbrook on Tuesday of last week and played the team of that town a game, resulting in 2 to 0 in favour of the latter. The return match may be looked for as the match of the season.

Miss Clara Faist, of Ashburnham, was the guest of Miss Plunkett for a few days this week.

Those who attended the Forester's supper at Zion express themselves as highly pleased with the entertainment. Special mention might be made of Mr. Dave Moore's rousing coon song, which he gave in the very best style. He will not be asked to render it again as they fear that the walls and windows cannot stand such an enthusiastic recall from the audience.

Tuesday, 22nd inst., was the golden anniversary of Mr. and Mrs. John Greer's wedding. The happy event occurred in Cobourg just fifty years ago. His many friends will be pleased to learn that "Uncle Jonnny" is steadily recovering from an acute attack of la grippe, which at one time caused despair of his recovery.

How about fishing? Thousands of bass are being caught through the ice daily. This is not sport and the Government should be asked to stop it, as the fish are full of spawn.

PUBLIC SCHOOL REPORT.

Junior 4th class—Marks obtainable, 400—Stanley Mather, 358; Duncan McGregor, 353; Jennie Weir, 348; Molly Baker, 315.

Third class—Marks obtainable, 350—Leslie Kemp, 287; Willie Laing, 269; Ethel Rennie, 239; Mamie McNeil, 221.

Number on roll, 80; average attendance, 40.

Junior room—Number on roll, 30; average attendance, 22.

HAVELOCK.

From Our Own Correspondent.

The Hustler Hockey Team of Havelock went to Norwood on Monday night last to play the return match with the Shamrocks of that town, but were defeated by 2 goals to 0.

Mr. Thompson, our new merchant, has opened out a full stock of goods in the store recently occupied by John Maldeas. The store is now lighted by acytelene gas.

The Willing Workers of the Methodist church purpose having an at home in the basement of the church on Monday night next. A good programme is being prepared.

Mr. and Mrs. Irwin entertained a large number of their friends on Thursday evening. The evening was spent in social games. Mr. and Mrs. Irwin provided an oyster supper.

The wife of Mr. A. Copp presented that gentleman with a daughter on Sunday, the 12th inst.

Mr. W. Coulter, of Toronto Junction, is on a business trip to Havelock.

Monday was pay day among the C. P. R. employees here.

Do not forget the band concert in Belmont town hall on Friday next. Conveyances will be run from Havelock to the hall and return.

Something for Nothing.

A trial bottle of Catarrhozone and inhaler, prepaid, sent free to anyone who sends his address within one week. Catarrhozone is a sure cure for catarrh, bronchitis, irritable throat, fetid breath, and hindred diseases. how can we offer to do this? Because we knew a trial of this pleasant and efficacious remedy never fails. Washes, snuffs and ointments have proved unavailing, but catarrhozone will cure you. Write

Children Cry for
CASTORIA.

YOUNG'S POINT.

From Our Own Correspondent.

Mr. F. J. Young, of Selwyn, has gone to Chicago to attend his aunt's funeral, Mrs. John Young.

Mrs. Robert Pennuit is very ill at present.

Mr. E. Young was confined to the house last week with la grippe.

Apples are very scarce this season on account of the caterpillar last summer. Orchard owners should provide against this pest next season.

Miss E. Braden, of Peterborough, has been lecturing in the hall here the past week on the "Viavi" treatment.

Mr. and Mrs. P. P. Young, with their son, Master Robert, went up to Toronto on Monday. They are having an operation performed on one of Robert's feet.

Mr. Will Young is home from Peterborough for a few holidays.

Miss Minnie Weir, of Peterborough, is visiting friends here.

The present fine weather is hard on the sleighing.

Mr. Michael Corkery, of Harwood, is going to run a butcher shop here next summer. He expects to open up his business about the first of April.

OMEMEE.

(From Our Own Correspondent.

La grippe has about disappeared.

Dr. J. N. Thompson has had charge of Dr. Cornwall's practice, together with his own.

Wm. J. Lamb has sold out his butcher business to Wm. Earl.

Messrs. Taylor and Thornton, agent for the Karn and Evans Pianos, high class instruments, have lately disposed of several.

Adams Bros., of this village, have purchased the stock of Mr. Lane, grocer, Hunter street, Peterborough.

Miss Neill of Peterborough is spending a few days with her sister, Mrs. Graham, wife of Jas. Graham.

Mr. R. B. Rogers, Government Engineer and Geo. McHugh, M. P., with William Adams Reed of the township, visited and inspected Cowan's Bridge, five miles north and will place a new swing.

Mr. Potter, father or the Rev. Mr. Potter of St. Audrew's church, Peterborough, who has been acting for some years as Missionary amongst our Canadian sailors and lumbermen, spoke of this mission work, and has received good support.

Mr. Andrew Tully, a respected member of the Lakevale branch of the Omemee Presbyterian church, was buried last Sunday after a lingering illness. Mr. Potter and the Rev. J. W. Tanner, conducted services at the home.

UP IN WINDSOR.

Mr. Cole Discovers the Power of Dodd's Kidney Pills.

Windsor Feb. 20.—The following statement, which Mr. F. H. Cole of this place requests us to publish, is worthy of attention from every victim of Rheumatism in Canada.

Mr. Cole's experiment fully warrants him in making this statement.

"Words cannot describe how I suffered from Rheumatism and Kidney Complaint. I tried every cure that was recommended, but got no benefit until I began using Dodd's Kidney Pills."

"Thank God I did use Dodd's Kidney Pills, for they cured me—made me sound and well, in every joint and limb."

Those who suffer the agonies of Rheumatism or Lumbago need do so no longer. Dodd's Kidney Pills will cure them.

NEWS IN A NUTSHELL.

The Education bill passed its third reading in the Quebec Legislature on Tuesday evening.

Lord Charles Beresford reached Washington on Tuesday, and will remain there until Thursday.

Smallpox has broken out in the parish of St. Agathe, County of Lotbiniere, about 45 miles from Quebec.

One of the smallpox suspects who escaped from Farren's Point is down with the disease at Waltham, Que.

Lord Charles Beresford cannot come to Canada at this time, but will "do" the Dominion at his earliest opportunity.

It is rumored that the Grand Trunk will lease the Hamilton Canada Life offices when the company move to Toronto.

After an illness extending over several weeks, Dr. Mullin, one of Hamilton's oldest medical men, died on Tuesday. He was born in New York on June 10, 1825.

The Canada Life Insurance policyholders resident in Hamilton met on Tuesday evening and passed a constitution and a resolution to seek legislation in their interests at Ottawa.

British Columbia's Budget.

Victoria, B.C., Feb. 22.—Mr. Carter Cotton, Minister of Finance for British Columbia, delivered his budget speech in the Legislature yesterday afternoon. The budget shows a deficit last year of $647,738, and estimates that the new Government has to start with a balance on the wrong side of about $160,000. The estimates show a considerable cutting in the salary list, which has caused criticism in some interested quarters. He intimated that a new loan will be negotiated for $1,750,000. Public works will not be neglected in any way. No more large tracts of land will be sold for speculative purposes, but leases granted instead. The loss of revenue by the abolition of the obnexious mortgages will be made by an increase on the income tax.

Grand Trunk Engineer Swears by Dr. Chase's Kidney-Liver Pills.

Mr. Geo. Cummings, for over twenty years engineer on Grand Trunk running between Toronto and Allandale, says:—"The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommend by my fireman, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me an I feel to-day a better man than ever. I recommend them to all my friends.

WHO WANTS A HOME

The undersigned has some Building Lots in a desirable location, within 100 yards of the South Central School; near churches and close to the Canadian General Electric Works He is prepared to build a house and sell it on the monthly pay ment principle. Call on or address R. SHERRY, 223 Perry St. dw

MARKET REPORTS.

Wheat Is Not Very Active and There Was Little Movement in Chicago—Liverpool Opened Higher But Declined.

Liverpool, Feb. 22.—Wheat futures yesterday opened steady, at an advance over night, but eased off later and closed 1-8d to ¼d per cental lower than the day before.

Chicago, Feb. 22.—The speculative wheat market was not very active yesterday, and despite the recent good-sized slump, little evidence of a likely recovery was noticeable. Argentina and other foreign news continues bearish. The May option yesterday morning opened 3-8c per bushel below the day before's close, advancing ⅜c during the session, and then receded 3-8c, closing at the same figure as it did Monday. There will be no session of the Chicago exchange today.

Toronto Live Stock.

Toronto, Feb. 22.—The run of live stock at the cattle market here yesterday was large, 77 car loads, consisting of 1,000 cattle, 2,900 hogs, 450 sheep and about 25 calves.

The quality of fat cattle generally was only medium, not enough of first-class, either in butchers' or exporters (especially the latter) coming forward. A few straight loads of exporters came in, but the bulk of fat cattle as mixed loads.

Trade was fair. All first-class fat cattle found a ready market, at firm prices, but medium to common butchers' stuff was inclined to be easy, as the bulk of deliveries was of this class.

Total receipts for last week were: Cattle 1,883, sheep 426, hogs 4,955. Weigh scale receipts $109.08.

Export cattle, choice	$4 50	to	$4 75

Liverpool Markets.

Liverpool, Feb. 22.—Yesterday at the close prices were: Spot wheat firm; No. 1 Northern, 6s ½d; futures, red winter, 5s 7⅜d for March and 5s 7 5-8d for May. Maize steady, 5s 7⅛d for old; 5s 6¼d for new; futures quiet; 5s 5 3-8d for March and 5s 5⅛d for May. Flour, 18s 6d.

Royal Templars at Stratford.

Stratford, Ont., Feb. 22.—The Grand Council of the Royal Templars of Temperance of Ontario opened its annual session here at 10 o'clock yesterday morning. The attendance was very large for the opening session, extending as far east as Pieson. Grand Councillor Frank Buchanan, Toronto, presided. The reports of the Grand Councillor, Grand Secretary, Grand Auditor and Grand Medical Referee were presented, showing every branch of the Grand Council's work to be in a flourishing condition.

Monteith and Stock Only.

St. Mary's, Feb. 22.—At the nominations for South Perth yesterday for the Local Legislature W. C. Mosscrip, the late member, declined to stand, leaving the contest between Messrs. Stock and Monteith, who will contest the Grit and Tory side, respectively.

AFTER LAGRIPPE

The Heart and Nerves are Often Left in a Very Weak and Debilitated Condition.

Mrs. John O'Brien of Peterborough tells how Milburn's Heart and Nerve Pills Restore the Health Which has been Broken Down by this Disease.

LaGrippe is responible for more weak hearts, shattered nerves and broken-down health than any other disease of modern times. People who are recovering from an attack should not fail to fortify their system by taking a few boxes of Milburn's Heart and Nerve Pills. The timely use of this remedy may be the means of preventing serious complications later on.

Mrs. John O'Brien, 390 Downey Street, Peterborough, Ont., says that LaGrippe was the starting point of her trouble.

"I had a very severe attack of LaGrippe, said she, which left my head and heart both in a very bad state. So intense were the pains that I often could not work. My nervous system was shattered, and I felt completely run down. My blood was impoverished so much that I became very weak and debilitated.

"Although I tried many remedies, I received no benefit from them, and dispaired of a cure, until I got Milburn's Heart and Nerve Pills. They put new life in me From the very first their splendid renovating power were manifested. My nerves became steady, the distressing symptoms disappeared; and to put the matter shorter I was completely restored to first rate health in a short time by the use of Milburn's Heart and Nerve Pills."

For sale by all Druggists at 50c. a box or 3 for $1.25. T. Milburn & Co. Toronto, Ont.

A NEW INVENTION!

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier on the piano. In addition to the above, the NEWCOOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1899 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Upright and Square Pianos of the various makes taken in part exchange for the famous NEWCOMBE PIANOS. Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

THE ODORLESS CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,

JAMES CONWAY.

Sheddon, February 25th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long left want and I believe it will become very popular especially in rural districts, towns and villages where wells are so frequently contaminated by the ordinary closets. I am, yours, etc.

W. H. MORRISON

Medical Superintendent's Office, Sept. 20th, 1897
Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 20 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the fire seems to carry off all odor at once, before it has a chance to vitiate the surrounding atmosphere.

Yours truly. JAMES RUSSELL, M.D.

Elmbrook, Sept. 20th, 1897.

Dear Sirs—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country homes. Yours truly,

M. J. MULLOCK.

ADAM HALL.

WANTS

More wants are supplied, and supplied more quickly by means of THE EXAMINER want columns than in all other ways combined. THE EXAMINER is the popular paper read by all. It is the recognized medium for the supply of wants.

It Hangs On

If it was only health, we might let it cling.

But it is a cough. One cold no sooner passes off before another comes. But it's the same old cough all the time.

And it's the same old story, too. There is first the cold, then the cough, then pneumonia or consumption with the long sickness, and life trembling in the balance.

Ayer's Cherry Pectoral

loosens the grasp of your cough. The congestion of the throat and lungs is removed; all inflammation is subdued; the parts are put perfectly at rest and the cough drops away. It has no diseased tissues on which to hang.

Dr. Ayer's Cherry Pectoral Plaster

draws out inflammation of the lungs.

Advice Free.

Remember we have a Medical Department. If you have any complaint whatever and desire the best medical advice you can possibly obtain, write the doctor freely. You will receive a prompt reply, without charge.

Address, DR. J. C. AYER, Lowell, Mass.

THE FRENCH MESSAGE

The New President Takes a Conciliatory Position.

FRANCE TRUE TO THE REPUBLIC

Receives Great the Message in the Chamber of Deputies and in the Senate—British Admiral's Threats, Backed by Warships, Brought the Sultan of Oman to Time—Cable News.

Paris, Feb. 22.—President Loubet, in his message, submitted to both Houses yesterday afternoon, said the regular transmission of power to the new President proved France's fidelity to the Republic, at a time when certain misguided persons were seeking to shake the confidence of the country in its institutions. The President dwelt upon the necessity of appeasement, union and respect for the essential organs of society, Parliament, the magistrature, government and the national army. He concluded with recalling the work of the republic, which, he asserted, assured liberty and peace; had founded a great colonial empire and had concluded alliances and precious friendships.

The Chamber of Deputies was crowded when M. Loubet's message was read. It was greeted with bravos. The House adjourned until Friday.

The Senate received the message with similar approval, and passed the credits demanded to defray the expenses of the funeral of the late President Faure.

SULTAN BROUGHT TO TIME.

British Warships Have Made Him Call Off the Grant to France.

Bombay, Feb. 22.—The Sultan of Oman has revoked the grant of a coaling station to the French, under the British admiral's threats of bombardment, and the fact that the British warships Eclipse, Sphinx and Red Breast are lying off the port of Muscat.

The Sultan has issued a proclamation to the foregoing effect, and he will make a similar announcement in open Durbar. The French consul has entered a protest.

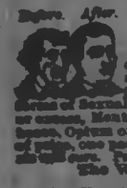
Oman is considered to be under British protection and the Sultan has been receiving a subsidy from Great Britain.

THE DISPUTE ABOUT SAMOA.

Joint Protest to Be Made by Great Britain and the States.

London, Feb. 22.—Despite the many assertions that the Samoan difficulty is under peaceable diplomatic settlement, it is learned by special inquiry at Her Majesty's Foreign Office that a very different course is being pursued.

It was stated by one of the responsible officials of the Government that a joint protest by the United States and Great Britain to Germany is under preparation.



Before. After. **Wood's Phosphodine,**

The Great English Remedy. Sold and recommended by all druggists in Canada. Only reliable medicine discovered. Six packages guaranteed to cure all forms of Sexual Weakness, all effects of abuse or excesses, Mental Worry, Excessive use of Tobacco, Opium or Stimulants. Mailed on receipt of price, one package $1, six, $5. One will please, six will cure. Pamphlets free to any address. The Wood Company, Windsor, Ont.

Wood's Phosphodine is sold in Peterborough by John Nugent, druggist.

This protest will show plainly the disapproval of the two English-speaking nations of the conduct of German officials at Samoa during the recent revolution, and will ask that such conduct be disapproved.

Crime in Great Britain.

London, Feb. 22.—Parliament has just issued a blue book giving the statistics of crime for 1898. The total number of proceedings at Assizes and Quarter Sessions during the year was 11,215, less than in any year, except 1896, since 1857.

The record shows that minor offences are tending to increase, but serious crime is steadily diminishing. The blue book sums up the situation by declaring that penal servitude does not serve to deter the habitual offenders from reverting to crime.

Treachery of Gen. Otis.

Hongkong, Feb. 22. — The Filipino Junta has issued a statement showing that the first shipments to Aguinaldo were made by order of the American Government through United States Consul Wildman; hence the shipment per the Wingfoo. The American Government subsequently telegraphed to cease this, coinciding with the change of policy to annexation. The promises made by Wildman and Dewey were violated by the recent treachery of General Otis.

The Pacific Cable Needed.

London, Feb. 22.—The Times yesterday had an article on the proposed Pacific cable and says that as an instrument designed to further the unity and prosperity of the Empire, the utility of the cable will many times outweigh the trifling cost to the taxpayers. The scheme only waits the sanction of the Imperial Government to be at once put in operation.

Recruiting in Canada.

London, Feb. 22.—In the House of Commons yesterday, Mr. Arnold Foster, replying to a question submitted by Mr. Wyndham, member for Dover, said that the matters of recruiting in Canada for the regular army and the repatriation of the Hundredth Regiment were still under consideration.

Dowager Duchess Dies.

Vienna, Feb. 22—The Dowager Archduchess Maria Immaculata, only daughter of King Ferdinand II. of the Two Sicilies and widow of Archduke Charles Salvator of Tuscany, died yesterday at the age of 55 at her palace in Vienna. The Austrian court goes into mourning for 16 days.

Editors Fight a Fatal Duel.

Buda Pesth, Feb. 22.—Political polemics in two rival Buda Pesth newspapers culminated Friday in a fatal pistol duel. Martin Dienes, editor of Egyetertes, and Francis Csajthay, editor of the Budapesti Hirlap, met in the cavalry riding school. At the first shot Csajthay fell mortally wounded.

Englishmen Indignant.

London, Feb. 22.—English statesmen are indignant because the United States has refused to make concessions in the matter of the Alaskan boundary, and they declare that England must stand on the letter of the Clayton-Bulwer treaty as a quid pro quo.

British Statesman Dead.

London, Feb. 22.—Sir George Ferguson Bowen, Privy Councillor, former Governor of Hongkong, of New Zealand and of Queensland respectively, and author of "Thirty Years of Colonial Government," died at Brighton last evening.

Mr. Coste Resigns.

London, Feb. 22.—It is reported that Mr. Louis Coste, chief engineer of the Public Works Department, has forwarded his resignation to the Minister. His purpose is understood to be to take the management of the Dominion Yukon Mining Company, which is registered in England. The capital has been privately subscribed, and £1 shares are quoted on the Stock Exchange at £7.

Influenza Epidemic in London.

London, Feb. 22.—An epidemic of influenza has prevailed in the greater part of Europe for some time past. In this city a mild type of influenza is very prevalent. The celebration of Washington's birthday by the American colony here has been abandoned in consequence of the epidemic.

Guns to Defend British Channel.

London, Feb. 22.—In the House of Commons yesterday Mr. George Wyndham, on behalf of the War Office, announced that under the revised coast defence plans, guns of the later type would be provided for the defence of the British Channel.

The Lily's Brother After a Divorce.

London, Feb. 22.—Mr. Clement Martin Le Breton, barrister, brother of Mrs. Langtry, is suing for a divorce from his wife, naming Lord Grantley as co-respondent. The suit is not being defended.

The Proposal Rejected.

London, Feb. 22.—By a vote of 200 to 199 the House rejected a motion to remove the bishops from the House of Lords, on the ground that their presence there is incompatible with their religious duties.

The Radical Wen.

London, Feb. 22.—The result of the Parliamentary bye-election in Northwest Lanarkshire yesterday was: Dr. Douglas (Liberal and Radical), 5,732; Mr. Whitelaw (Unionist and Conservative), 5,364. Liberal and Radical majority, 359.

The Address Adopted.

London, Feb. 22.—The address to the Queen in reply to the speech from the throne, at the opening of Parliament on Feb. 7, was adopted in the House of Commons yesterday without a division.

German Warship for Samoa.

Shanghai, Feb. 22.—The German warship Cormoran has left Kiaochow for Hongkong and Apia, Samoa.

Life insurance is a good thing but health insurance, by keeping the blood pure with Hood's Sarsaparilla, is still better.

PECULIAR POISONS

GENERATED IN THE HUMAN BODY.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of death (called by scientists Ptomaines.) are usually the result of imperfect digestion of food, the result of indigestion or dyspepsia.

The stomach, from abuse, weakens, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay), poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain, causing headaches, and pain in the eyes.

Bad digestion weakens the heart, causing palpitation, and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's Disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products: the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure any form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first. A little book on stomach disease mailed free. Address Stuart Co., Marshall, Mich.

The Douks Go Through.

Ottawa, Feb. 21.—The Doukhobors passed through here during the night and early yesterday morning, on their way to their future homes in the Canadian west. There were five special trains in all, and 1,955 passengers.

A Group of Ayrshire Cattle.

The Ayrshire cattle in the illustration are the property of Mr. A. Terrill, Wooler, Ont. Their description is:

The cow to the left is Wooler Lass 888, now 14 years old, while the one to the right is her daughter, Maggie 1116, 12 years old; they are both rich, deep milk-

A GROUP OF AYRSHIRE CATTLE.

ers, and also have been very successful in the show rings.

The bull is Dominion Lad, 1802; sire, Dominion Chief, 1214; dam, Amy 1861, by Earl of Fife 584. He won first prize in 1895, and second in 1896, at the Toronto Industrial Exhibition. At the local shows he has been very successful at capturing red tickets. He has proved himself a fine stock getter.

Feed for Eggs or for Meat.

There is no advantage in keeping the laying hens along with those you wish to market. The food suited to the two classes is altogether different.

THE NAME.

Thou giv'st me no new name, and yet to me
Upon thy lips my old, old name is new;
Many have called me thus, yet none who drew
The color to my cheek, save only thee,
Calling my name. Speak it but tenderly
And, lo, unsummoned tears o'ercloud the blue
Thou praisest in mine eyes. Can it be true
In simple names there lurks deep sorcery,
Or steals my name its glory from thy lips?
Or hast thou in the old a new one sealed,
As in a shrine for my blest gaze alone?
So to the chosen in th' Apocalypse
Was given a name hid in a pure white stone,
To him alone by grace to be revealed!
—Kathleen H. Green in New York Tribune.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box.

Jarvis Man Sandbagged.

Hamilton, Feb. 21.—A man named Bamberton, from Jarvis, was sandbagged on the Market Square last night by two men. He was drunk at the time, but he yelled "Murder," and the highwaymen ran before they reached his roll, in his inside pocket. His head was cut.

A Blaze at Southampton.

Southampton, Ont., Feb. 21.—The fine residence of Mr. B. A. Belyea was totally destroyed by fire about 2 o'clock yesterday morning, together with most of the contents. Loss on house, $5,000; insurance on house, $2,000.

POINTED PARAGRAPHS.

A retriever is the most fetching thing in the world.

Comparisons are odious when they shadow us.

The medicine bottle usually has a bad taste in its mouth.

The path of ambition leads to a great many political graves.

It is impossible to convince a spider that there is honey in a rose.

The man who tells you the faults of others will tell others of your faults.

It's pretty hard for some men to keep their wants down to their incomes.

Indolence often assumes the mask of patience and gathers in her rewards.

This world is a dangerous place to live in. People seldom get out of it alive.

That man never lived who didn't expect to invent something that would make him rich.

Horse racing is a peculiar thing. The majority of the horses in a race are not in it.

His Life Was Saved

M. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1.00, at any Drug Store, every bottle guaranteed.

VALUABLE Residential Properties FOR SALE In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, wall built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchens. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Containing ten rooms. House in good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containing seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 108 feet square.

Parcel No. 4. Brick residence, corner Wellesley and Benson streets. Two storeys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 103 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases. Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

MRS. G. VINETTE'S HAIR PREPARATION

Cures Baldness, Grey Hair, Irritation of Scalp, Eczema, Removes Dandruff, Restores Grey Hair to Natural Color, Stops Falling Out, &c. Guarantee in all cases. References if required.

Residence—460 Reid St., north of Wm. Hamilton Mfg Co's Works, Peterborough.

DEADLY CATARRH

has fastened its relentless grip upon some member of nearly every family in the land. Competent authorities estimate that from eighty to ninety per cent. of the entire population of this continent suffer from some form of this repulsive and dangerous malady. If you or any of your family suffer either from recognized catarrh or from the lingering colds which mark its early stages—don't trifle with it. It is the precursor of consumption and death.

Dr. Agnew's Catarrhal Powder

never fails. It is the remedy of all remedies, endorsed by the most experienced and eminent nose and throat specialists of the day, and having a record of a multitude of radical, permanent cures of chronic cases which had been declared incurable. It also cures cold in the head, influenza, hay fever, loss of smell, deafness, sore throat, tonsilitis, asthma and all similar diseases. It is delightful to use.

"I have had chronic catarrh ever since the war," says J. C. Taylor, of 210 N. Clinton Ave., Trenton, N. J. "I had despaired of ever being cured. I used three bottles of Dr. Agnew's Catarrhal Powder and my catarrh has entirely left me." Rev. C. E. Whitcombe, rector of St. Matthew's Episcopal Church, Hamilton, Ont., was a great sufferer. He used Dr. Agnew's Catarrhal Powder, and now proclaims it a safe, simple and certain cure. The Lord Bishop of Toronto, Can., recommends the remedy over his own signature. Sold by druggists.

Dr. Agnew's Cure for the Heart relieves heart disease in 30 minutes. Dr. Agnew's Liver Pills—20c. for 40 doses—are the best. Dr. Agnew's Ointment relieves in a day eczema, tetter and all skin diseases. Cures piles in 3 to 5 nights. 35c. 3

Sold by H. S. Macdonald and Ormond & Walsh.

Nearing the End.

You have only till March 1st to double your money on what you buy at Gough Bros' Great Mid-Winter Clearing Sale.

New Spring Stocks are crowding out winter goods. Money now is better than stock.

A Mass Meeting.

Rev. Mr. Vining, Superintendent of Manitoba Missions, will address a mass meeting in the Murray street Baptist Church this evening.

Upset in the Ditch.

On the return trip from the Springville church concert Monday evening a sleigh load of members of St. Paul's choir were upset in the ditch. No one was hurt, but as the ditch was filled with water, some wet feet resulted.

A Handsome Bequest.

The Committee of Management of the Peterborough Protestant Home very gratefully acknowledge the sum of $50, received from the estate of the late Miss Caroline Fair.

Special Bargains in Clothing for Thursday, Bargain Day, at Grafton & Co.

Park Street Sunday School.

The annual festival of the Park street Sunday School will be held to-morrow evening. The scholars of the school will be given a tea at 6 o'clock, and a programme consisting of music, recitations and missionary exercises will be given, commencing at 8 o'clock.

Close at 8.30.

Beginning on Monday evening next, February 27th, the Peterborough Bookstore will close at 8.30 every evening, except Saturday. Customers for the evening papers, postage stamps, stationery, etc., will please bear this in mind and prevent disappointment.—A. H. STRATTON & Co.

Will be Interesting.

A lecture will be given in St. Paul's church on "The Haunts and Home of Sir Walter Scott," by Rev. A. McMillan, of Toronto, on Monday, Feb'y 27th, at 8 p.m. Tickets may be obtained at the stores of Ormond & Walsh, H. S. Macdonald, Peter Conrad and A. G. Dickson. Price of admission 25 cents. 4d-1w

Local Copper Mines.

The fact that copper wire has advanced in price from nine to twenty-one cents a foot, will have a considerable bearing on the local mines. Mr. J. B. McWilliams has been asked to set a price on his mine near Stony Lake, and it will be visited by the representative of some capitalists in near future.

The Cash Buyers Stamp Co.

We call the attention of our readers to the announcement of the Cash Buyers Stamp Co. which appears in this paper. "The Cash Buyers Stamp Envelope" is a new and novel way of advertising, and should meet with favor by our enterprising merchants. One very important feature of this system is that the people who collect these stamps receive their money every day. They don't have to wait. One merchant in each town is chosen to pay the people, this makes it safe for all concerned.

A SPECIAL MEETING

Of the Ashburnham Village Fathers Held Last Evening to Consider Electric Lighting.

A special meeting of the Ashburnham council was held last evening for the purpose of considering the matter of the electric light contract.

The Peterborough Light and Power Co. submitted a contract for lighting the village, in which they agreed to furnish power and light for the 11 arc lights, now in use, for a term of five years, commencing January 1st, 1899, at a rental of $50 for each light per year; said lights to be kept burning from half an hour before dark till midnight, for at least 300 nights in the year. Provided always that during the life of said contract no charge shall be made against the company for placing and maintaining poles and wires on the public streets for lighting purposes; nor shall any municipal tax be levied on any of the company's property, excepting electric light station and contents thereof.

As a number of the present lights do not give the desired service, being poorly placed, the matter was left over until the proposed change of location could be discussed.

The clerk was authorized to ask for an improved watering cart and report to the next meeting of the council in March.

PERSONAL

Mrs. Dr. Kempt is visiting friends in Lindsay.

Miss Minnie Weir is visiting friends at Young's Point.

Miss Kempt is visiting Miss Ethel Neelands, in Lindsay.

Mrs. J. Jayes left this morning to visit friends in Toronto.

Miss Rose Brady, of Lindsay, spent Sunday in town with relatives.

Miss Donaldson, of Parry Sound, is visiting friends in Peterborough.

Miss Clara Faint has been visiting Miss Plunkett, in Keene, during the week.

Miss Brisbin is visiting her aunt, Mrs. G. J. Stephens, Chapel street, Cobourg.

Miss Gillbard, of Minden, is in town visiting her aunt, Mrs. Angus McIntosh.

Mr. Fred. Burritt, of Toronto, formerly of Peterborough, is in town for a few days.

Rev. A. H. Ranton is at present conducting services in the First Church, Hamilton.

Mr. Fred Weir, formerly employed with Warde & Co., town, left for Uxbridge Monday.

Mrs. James Hall has returned home from Lindsay, where she was visiting Mrs. John Crawford.

Mr. H. Boultbee, of the Toronto Globe staff, is in town to-day in the interests of that journal.

Miss Ethel Harkin, of Toronto, is in town attending the convent branch of the Separate School.

The Misses Clarke left Monday for San Jose, California, where they spend the next few months.

Mr. and Mrs. Jas. Galvin have returned from Lindsay, where they were attending the funeral of the late Robt. Eagan.

Mrs. Capt. Eden and family of town have taken up residence in Cobourg and will make their home there in the future.

Mr. Harold Nelles, formerly connected with the office staff of the Auburn Woollen Mills, is in town renewing old acquaintances.

Miss Lizzie Beatty, Ashburnham, left Monday for Clifton Springs, N. Y., where she intends taking a course as a nurse in the sanitarium.

Saturday's Toronto Globe had an excellent picture of the Ontario Dental College banquet committee, and in the group could be noticed Mr. Geo. Halpin, of town.

Mr. Jos. Walton, of Lakefield, who is well known in Peterborough, has recovered from a severe attack of grip and is feeling better than he has done for some time.

Mrs. A. L. Davis leaves to-morrow to join Mrs. Geo. A. Cox and Mrs. A. E. Ames at Toronto, whence they will go for a month's stay at Kirkwood, N. J., a popular winter resort.

Mrs. Burnham, of Uxbridge, was in town this week, making enquiries as to the likelihood of a class in elocution succeeding in Peterborough. She may possibly locate here if impressed favourably.

Mr. Wm. White, Inspector of Separate Schools, is in town, and is inspecting the local schools. On the authority of one of the pupils of the Fourth Form of the Convent School, Mr. White is reported as saying that the girls in that form were the best in arithmetic of any he had ever seen in that grade.

FORTNIGHTLY CLUB.

Mr. J. McCaig's Paper on "The Relation of Education to Economic Condition."

At the regular meeting of the Fortnightly Club last evening the speaker of the evening was Mr. Jas. McCaig, of the Collegiate Institute staff, who read a paper on the "Relation of Education to Economic Conditions." The subject although an obstruse one, was handled in such a manner as to make it interesting for all. The subsequent discussion was participated in by Messrs. D. W. Dumble, J. Covle Brown and J. W. Garvin.

OBITUARY.

Demise of Mrs. Bartholomew Welsh This Morning.

The death occurred this morning of Bridget Nevin, aged 88 years, widow of the late Bartholomew Welsh.

The deceased contracted a severe cold a few days ago, developing into an attack of la grippe, from which she was unable to ally. She was a sister of Mr. Jas. Nevin nd had been married twice. Her first husband was Mr. P. McAvela. Three children were born to this union, all of whom survive, being Messrs. Patrick, James and William. Her second husband, Mr. Bartholomew Welsh, died some four years ago.

The funeral will take place from the family residence, corner of Reid and Edinburgh streets, at nine o'clock Friday morning, interment being in the Roman Catholic Cemetery.

The Late John Steele, of Otonabee.

Mr. John Steele, of Otonabee, whose death took place on Feb. 17th, was a native of Paisley, Scotland, and came to Canada with his father and settled on Lot 5, Con. 3, Asphodel. He was married in 1842 to Mary Anne Elmhurst, of Otonabee, and to this union were born eleven children, of whom eight survive, Mrs. Andrew Shearer, Otonabee; Mrs. John Brackin, Jackson; Michigan; Mrs. Peters, of Nebraska; Mr. James and Robert Steele, of Montana; Mr. John Steele, of Asphodel, and Mr. Joseph and Richard Steele, of Otonabee. Mr. Steele was a resident of Asphodel from the time of his arrival in this country, until six years ago when he went to reside with his daughter, Mrs. Shearer of Otonabee, where he resided till his death. His wife passed away sixteen years ago. One brother and one sister survive Mr. Steele, they are Mr. James Steele, of Peterborough, and Mrs. John Hope of Otonabee.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets All druggists refund the money if it fails to cure. 25c.

Debating Club.

The subject for debate and open discussion at the Y. M. C. A. Debating Club on Thursday evening will be "Is War Justifiable." Affirmative leaders—Messrs W. H. Cullen, and W. Brummell—negative—Messrs Fred Ray and C. Anderson. All the sessions of the club are deeply interesting and helpful.

St. Patrick's Day.

Posters will be issued in a few days announcing the annual St. Patrick's Day concert, under the auspices of the Catholic Association. The comedy drama, "Daddy's Darling," will be presented under the direction of Miss Lily Simons, and sparkling and catchy specialties introduced by local talent.

ANOTHER VICTORY.

West Huron has joined the procession of Liberal victories, Mr. Robert Holmes, the Liberal candidate in the bye-election of yesterday, being returned by a substantial majority. Never before was the Liberal party from sea to sea in a stronger, more healthy, or more aggressive condition, a strong contrast to the Conservative party, which is simply disorganized and floundering about under a leadership it cannot shake off—a leadership that fails to command the cohesion or excite the enthusiasm of the party. The outward and visible sign of weakness in the party come from both the east and the west. In the recent provincial general elections in New Brunswick, Hon. Mr. Foster, the deputy leader of the Conservative party, distinctly and explicitly made the Dominion issue the issue of the provincial contest. But he was disappointed in the result. The Opposition candidates, endorsed and adopted by Mr. Foster, were almost literally wiped out in those constituences where Mr. Foster challenged combat on Dominion lines. In the West Huron election Sir Charles Tupper couched his lance, with the result that it shivered harmlessly against the shield of his Liberal adversary.

Bible Society Annual Meeting.

The annual meeting of the Bible Society will be held on Wednesday evening, March 1st. The speaker of the evening will be Rev. Mr. Knowles, of Galt, formerly of Ottawa.

Asthma Gasps.

The wheezing and strangling of those who are victims of asthma are promptly relieved by a few doses of Dr. Chase's Syrup of Linseed and Turpentine.

It's A Matter of Necessity.

We have just finished Stock-taking, which has taken us longer this year, owing to our very large stock. This we must reduce at once, We have looked up anything and everything that will interest close buyers and intend offering all odd lots and small quantites at prices that will clear them quick.

Wall Paper Chances.

It is not too early to talk of Wall Paper. We must make room for 12 tons of brand new Wall Paper, so if you feel like papering now, here is your chance.

We have some Old Lots of Glimmer and Gilt Paper, with match borders and ceilings in 9 roll lots, 11 roll lots, 13 roll lots, 15 roll lots, ranging in price from 10c., 12c. and 15c., will clear them this week at 8c, 7c. and 6c. per roll.

A Pull-Down in Window Blinds.

We must have room in our Window Shade Department to stock 1500 new Shades. To do this some of our present stock must go. If low price and good quality combined will sell them, we will give you the combination. Come and see the Window Blind we will give you for 49c. and 38c.

Spring is Coming

So are our New Baby Carriages. We will not be bested by the biggest firm in Canada. You have just to see our $8, $9, and $10 Carriages to be convinced that our cash brings us as good value as any other house.

Pictures and Picture Framing

Is fast becoming a leading line with us. See line of $1.25 Pictures, framed with 3 inch heavy frame, going fast at 80c.

Cornice Poles

Are a necessity in every household. We are prepared for you in this line—we have a few small lots to clear. One specially fine line of wood trimmings, cherry finish with 5-foot polished cherry pole, brackets and pins complete, worth 50c. for 33c.

Bargains in Books Continued.

In the place of Books we want the shelf room and therefore will continue to offer you very special inducements to complete your library. We never had and never will have such values to offer in books. Our 50c. Books in fancy bindings are a marvel at 24c.

No store in Canada selling same line as cheap. Our big discounts in quantities for Sunday School and Public Libraries, increase our sales bigger than ever.

We Have the Stock

To lower the value. We intend giving you more for your money. We are out for the biggest spring trade.

Peterborough's Modern Store

CORSETS!

Our CORSET DEPARTMENT is now complete for the spring of 1899. Everything desirable in CORSETS can be secured here, all the best makes both FOREIGN and DOMESTIC at modern Dry Goods prices.

CORSETS FOR THE MASSES
CORSETS FOR THE CLASSES
CORSETS FOR EVERYBOBY.

At 50c. Our aim is to give you the best 50c. Corset in Peterborough, and that we have succeeded wonderfully well will be admitted by everyone who sees our great 50c. corset for this season. It is long waist, extra closely steel filled, made of very heavy Coutille, double-busk, with 5-claspsand equal to any 75c. Corset in Peterborough.

At 75c. We show an unusually large assortment, one line worth special mention is a good weighty French Corset. It is well corded and steel filled, spoon busk, and flexible hip Embroidered with silk, a particularly nice Corset for the price 75 cents.

At 75c. We also show a line of odd numbers in Corset goods that are worth from $1.00 to $1.25, but on account of their being only certain sizes, we are offering them at 75c. each. The sizes are 18 19 25 and 26.

At $1.00 Dollar Corsets are quite a different corset to-day to what they were even one year ago. We are prepared to give you by long odds the best Dollar Corset in Peterborough. We ask you to investigate and if we cant give you the best value in Dollar Corsets, why don't buy them here. Call and see our wonderful showing at $1.00.

High Grade Corsets In the higher grade of Corsets you will find our assortant up-to-date. We particularly call your attention to the Celebrated French Corset, A LaSiren or better known as C. P. Corset which we can confidently recommend to anyone wishing a particularly nice Corset for either fit or finish.

Everything in Corsets.

Our New Imported Black Dress Goods at Special Prices.

Cressman,

THE NEW STORE, 385 George Street

Daily Examiner.

WEDNESDAY, FEBRUARY 22, 1899.

STAND BY THE TOWN.

To the Editor of The Examiner:

DEAR SIR,—I notice your remarks about sticking up for Peterborough manufacturers, and doing what we can to help local industries.

There are a number of philanthropic gentlemen in town who are joining other gentlemen of like ilk throughout the province in the establishing of a large book concern in Hogtown, (Toronto.) The capital stock of the joint stock concern is limited only by the number of people who can be induced to subscribe to one share of stock at $10.50 a share. There is no dividend to be given, but each shareholder is allowed to buy what books he wants at 25 to 30 per cent. reduction off list prices. At the end of three years or so the capital is wiped out and a new deal is made. This is a great scheme. If five thousand people subscribe ten dollars each as capital for me, I would be quite willing to give them all the privileges of buying goods at reduced rates—for at the end of the period their individual ten dollar pieces would become mine. 'Tis a great scheme, Mr. Editor, and there are 20 or 30 members of this association in town, who with their individual ten dollar shares have bonused this Toronto concern to the extent of two or three hundred dollars.

Yours,
OBSERVER.

Peterborough, Feb. 21st.

What is It?

Catarrhozone is a liquid, fragrant and cleansing, which rapidly volatilizes when inhaled. What is it for? It is an absolute, never-failing cure for catarrh of the throat or nasal passages. Is this true? We are so sure that it will cure you that we will send you, prepaid, a free sample of Catarrhozone and an inhaler if you send your address within one week. Write us.

N. C. Polson & Co., Kingston, Ont.

FOR THE MUSEUM.

Books Containing the Names of Those Who Settled Here in 1825.

The following letter, which speaks for itself, has just been received by Mr. T. A. Hay, of the Peterborough Historical Society.

T. A. Hay, Esq., Secretary Peterborough Historical Society.

DEAR SIR:—It gives me great pleasure to inform you that I have to-day received from Mr. Christopher Robinson, Q. C., a letter from which the following is an extract, "I have your letter, and am very glad indeed that the books have been so much appreciated and found so interesting. Upon reflection I do not think that I can do better than leave them with your society as you suggest. It seems to me that Peterborough is their proper resting place, as there, much more than elsewhere, people may be found having a personal interest in their contents, and I shall be glad therefore to let them remain."

The books referred to are the original records containing the names of all the persons who came out in the emigration of 1825, the names and ages of the members of each family being given, the name of the ship in which they came out, and the Township in which they were settled. The allowance of provisions to each person is also shown. It is safe to say that there is no such accurate record in existence, with regard to any other early body of immigrants in this neighborhood. The townships in which they were settled are Douro, Ennismore, Smith, Otonabee and Emily.

In looking over these books may be seen the names of many whose descendents have occupied honored positions in the community. To the descendents of these pioneers, and to every student of the early history of our country, these records cannot fail to be of the greatest interest and importance.

Yours truly,
E. B. Edwards.

The books are now in the hands of the Secretary of the Historical Society, who will be glad to allow anyone interested a perusal of them.

Buy direct from Grafton & Co., the Clothing Manufacturers.

Nobby Cravats

IN ELEGANT TWO-TONED EFFECTS.

Now open for inspection, combining the swellest shapes and shades in New Neckwear for spring, representing the very "latest out" in fashionable patterns of modified London, Paris and American ideas.

Prominence is given to dressy stripe and plaid designs in two-toned effects—green and white, blue and white, grey and white, red and black, and light material silks with disc figures.

Among the reigning shapes, Ascots, Flowing Ends, Four-in-Hands, Puffs and Soft Wide-end Bows are favourites.

The exclusive local sale of these Swell Novelties has been retained for this store. See our greatly admired window display.

ENTERTAINMENT AT AUBURN.

A Substantial Fund Realized for the Assistance of the Needy.

The entertainment which was given last night in the Auburn Hall, was even more largely attended than was expected and, consequently, the object of raising money for a case of destitution was happily realized. Mr. Mallet exhibited a number of lantern views, including some interesting ones of Canadian scenery, local celebrities and scenery in Formosa. Rev. J. G. Potter managed the gramaphone, a number of pleasing selections being given. At the close of the entertainment a cordial vote of thanks was passed to Mr. Mallet and Mr. Potter, on motion of Messrs. Reid and Downing.

ANNIVERSARY SERVICES

And Annual Entertainment of the Springville Church.

The anniversary services of the Springville Presbyterian church were held on Sunday last, the sermons being preached by Rev. Mr. Hunter, of Baltimore and Cold Springs.

On Monday evening the annual tea and concert was held, proving a great success. A large number were present from town, town, including St. Paul's church choir, thirty strong. Several choruses were sung by the choir, solos being given by Mr. Jas. Dawson and Mrs. (Rev.) McMullen, recitation and readings by Misses Rutherford, Lilliico, Bradburn, McIntosh and Mr. C. N. Brown. Addresses were delivered by Rev. Mr. Steele, Rev. Mr. McIntosh and Rev. Hunter.

Tea was served from five until eight o'clock, previous to the presentation of the musical programme.

FATHER O'LEARY TRANSFERRED.

From Sturgeon Falls to Fenelon Falls—One of Douro's Sons.

Rev. Father O'Leary, who was ordained at St. Joseph's church, Douro, and has been stationed for some time at Sturgeon Falls as assistant priest, has been given charge of the parish of Fenelon Falls.

The Sturgeon Falls Colonization speaks as follows concerning the change: "The announcement was made at high mass on Sunday last that His Lordship the Bishop of the Diocese had appointed Rev. Father O'Leary, assistant priest to Rev. Father Gingras, to the charge of a parish near the Cathedral city of Peterborough. The announcement came as a surprise to the parishioners of the Sacred Heart, who had long since learned to respect and esteem the reverend gentleman for those fine qualities of head and heart which make him a credit and an honour to the priesthood; but while we shall regret Father O'Leary's departure from amongst us, all will be delighted to know that he is receiving a promotion which his abilities as a labourer in the vineyard of Christ have duly earned for him. Father O'Leary will leave for his new charge on Sunday night next, and with him he will carry the very best wishes for future happiness and prosperity of a host of true, admiring friends."

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—A citizen informed a reporter to-day that he heard the sweet notes of a robin yesterday morning near his residence. Next!

—McAllister's flouring mills is experiencing a busy season at present. They are running night and day in order to keep up with the demand.

—Messrs. Farquharson and Robinson, of Port Hope, are renting the opera house in that town from Mr. T. E. Bradburn and will manage it in the future.

—Fox hunters are taking advantage of the soft weather and the music of the hounds can be heard far and near.

—Cheap fares are announced on the Grand Trunk for the Lindsay ice races, good going on Wednesday or Thursday and returning on Friday.

—Miss L. Bell, of Keene, late pupil of Herr Klingenfeld, has re-opened her violin classes in town. Pupils wishing instruction may inquire at the Peterborough Music Store, 404 George street. Engagements accepted for parties and receptions. Miss M. McCabe, accompanist. 6ws

Yesterday.....	45° above	30° above

MARK STREET CHURCH NOTES.

Sunday was marked by unusually interesting services in the Mark street church. At the morning service the pastor, Rev. J. E. Moore, Ph.B., delivered a very strong sermon on "Elijah." The special condition of the celebrated prophet brought out in the discourse was: Elijah feeling for his life, unnerved, because of the oath of the wicked Jesebel, and as he sat under a juniper tree he requested for himself that he might die. In the evening Mr. Moore's subject was "Firebrands," from the text, Amos iv., 11: "And ye were as a firebrand plucked out of the burning," and in words of burning earnestness he drew the analogy between fire and sin. Fire cannot be weighed in the scales or rated by so many horse power, yet we feel its withering, burning influence. Fire is like sin, because of its attractiveness. A child loves to play with fire, careless and unconscious of its danger. So man delights to toy with sin, because it has indulgences for the appetite, mirth for the gay, amusements to gratify, splendor for pride and revelry for the careless. The speaker likened Christians to God's firemen, and said, "put out the fires of sin" is a nobler motto than any ever emblazoned on the symbols of art or commerce. The singing by the choir was excellent. The union evangelistic services will be continued this week in Mark street church.

NATURE'S DIMPLES.

Disappear, and Beauty Fades Under the Shadow of Tormenting Skin Troubles But Dr. Agnew's Ointment is a Quick and Safe Healer.

The unceasing torment of an itching skin, which is the natural consequence and outcome of such skin diseases as tetter salt rheum, ring worm, eczema, ulcers, blotches and other skin eruptions is allayed in an instant with one application of Dr. Agnew's Ointment, and in a very few days the most stubborn cases give way to its magic healing power and leave the skin whole, perfect, clear and soft as a baby's. It will cure piles in from three to five nights.

Dr. Agnew's Liver Pills are the cheapest made, 30 cents for forty doses. Sold by H. S. Macdonald and Ormond & Walsh.

OUR COLUMN OF SPORTS.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Going on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

HOCKEY.

"Putty" Connal and his septette of hardware hockeyists are undergoing a system of training in order to be in the pink of condition for the return match with Lakefield. They are hard at work reading up the rules governing the game, and are thoroughly satisfied that the goal umpire at the return match will not become hypnotized.

The following team plays in Fenelon Falls next week:—Goal, J. Comstock; point, H. Reynolds; cover point, R. M. Glover; forwards, B. Bellegham, W. Crossley, H. King and R. Watt. Such a team should be able to take care of themselves in any company.

The Y. M. C. A. hockey team has organized for the season and is out after the scalps of the Grocers and Clothiers. Communications may be addressed to Kennedy Gray, captain, or to Mr. McLeod, Physical Instructor.

The Toronto Telegram refers to the Peterborough protest as follows:—

Peterborough asked nothing more than the executive of the O. H. A. could have safely granted. There will always be a doubt as to whether official mistakes did not give 'Varsity the position which Peterborough fairly one as against Queen's. It would have been no hardship to require Queen's to justify against Peterborough the honour which the Calvinists will probably win from 'Varsity. It would have been different if the O. H. A. had been called upon to displace 'Varsity, but Peterborough offered to take the hardships of playing Queen's at Kingston, and in view of what Peterborough suffered by the mistakes of the officials, the O. H. A. could have safely allowed the two eastern teams to come together.

Peterborough is becoming quite famous in the States, thanks to the New York Journal and "Lem" Fetcher, who is at present in the American metropolis. Saturday's Journal gives a large cut of the Peterborough senior seven, and with it several foot-notes. The Journal says:—"Canada is the home of hockey, and the Peterborough hockey team is regarded by Canucks as the most scientific exponents of the best game on ice yet devised. In the province of Ontario team after team has been forced to admit the superior prowess of the Peterborough players. Every man on the team has been a player for years, and by long practice the men have brought team work to that stage where it is practically invincible."

The Journal, in conclusion, says, "The Peterborough Club has a junior team, made up of sons of the best families in the aristocratic Canadian town, which, for the age of the players, is pronounced the best hockey team on the continent."

The Winnipeg team has returned home from Montreal, after having received most shameful treatment at the hands of the Eastern players. Hockey has received a set back, as the result of the usage to which the Winnipeg and Peterborough teams have received.

The Kingston Whig says:—"The Peterborough senior hockey team is very anxious to run up against big game. Queen's team is singled out. If the northerners want a good hot match why do they not accept the invitation of Frontenacs and come down here? If the Peterborough senior team can win from Frontenacs they can defeat Queen's."

Here is another of the Whig's stories:—"Yesterday a gentleman from the west, discussing sports in a local hardware store, offered to wager the sum of $500 that Peterborough senior hockey team could defeat either Queen's or the Frontenacs on a Kingston rink. Two supporters of the latter team overheard the offer made and immediately signified their intention of covering the amount. The readiness with which the wager was taken up rather disheartened the westerner and he wished to modify his statement by having the contest on any rink outside the city. That privilege was granted, but after beating about the bush for some time he finally backed down. The local men then volunteered to stake $500 that Queen's team could outplay any other seven men selected from all other teams in Ontario. The offer was not accepted.

Y.M.C.A. ATHLETICS.

Twenty-one Intermediates contested in their first athletic contest in the Y.M.C.A. gymnasium Monday night. This is the first of a series of four athletic contests, which will consist of eight events. Four events will be contested at each contest, and each contest will be repeated. The events last night were fence vault, running broad jump, potato race (120 yards) and running broad jump.

On March 6th the events will be:—Standing broad jump, rope climb, quarter mile run on the track and running hop, step and jump. Monday night's contest will be repeated on March 20th. The contestants made a very good showing considering it their first attempt.

THE KENNEL.

Mr. 'Chilis Turner has imported from Toronto a high-bred Irish setter, which will likely have something to say about the distribution of prizes at the next bench show.

CURLIANA.

At the rink Monday night Messrs. Gus Hay and W. J. Thompson skipped rinks against each other for the oysters with the following result:

W E Lech,	F H Dixon,
Robt Kerr,	Geo Kerr.
S Ray,	T Ferguson,
W J Thompson, sk'..9	Gus Hay, skip.....14

Billy is anxious to have another crack at his opponents on keener ice.

Oshawa curlers defeated two Bowmanville rinks 42 to 2 on heavy ice at Oshawa last week.

This Week at 12½c.

PURE SOAP.

That is the name of it. Chemically pure Soap—the best value on the market at 5c. a bar. Everybody knows this Soap, if they don't know they should.

This Week 7 Bars for 25c.

There may be goods as good as ours, but there are none better.

E. F. MASON & CO.

MANY will heartily appreciate the appetizing changes in their daily Bill of Fare which the Lenten Season brings to their tables.

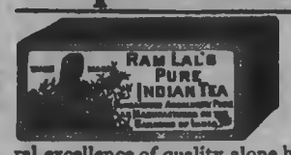
Lenten Dainties

In the Special Lines of Delicacies which our Grocery Department supplies, our policy is to offer the very choicest which the market affords. We can confidently recommend our Ale and Porter—being kept in prime condition and thoroughly matured. Gentlemen who wish to replenish their wine cellars should sample our stock.

M. L. HENRY & CO

Family Grocers and Liquor Merchants.

83 per Cent. of the...



TOTAL CONSUMPTION

of tea in England is Indian Tea. In 1864 it was only three per cent. Purity, flavor, strength and general excellence of quality alone have won this advance. **Ram Lal's Pure Indian Tea** is grown in the finest district in India, under European supervision, for the exacting English market, and comes to us in sealed packets as pure and strong as it left the gardens in India.

Spring Circular.

Gentlemen will be specially interested to know that spring stocks are nearly complete at H. LeBRUN'S CITY CLOTHING STORE, and that from this highly tasteful and personally selected stock, the public will have the privilege of obtaining the newest goods of the season. Every day new lines of the latest patterns of Canadian, Scotch and English Tweeds, English and French Worsteds, Trouserings and Light Spring Overcoatings have been coming in. These will command the attention of well-dressed men.

The Ready-Made Clothing Department is stocked ready for a big trade in Men's, Youth's and Boys' Suits, richer in high-grade qualities of material and workmanship than ever. There are also many grades of Light Spring Overcoats that feel and look better than they are priced. The stock was personally selected by Mr. LeBrun in Montreal and bought right from the makers.

Among the new Gentlemen's Furnishings are Men's French Cambric Shirts, White Shirts, Light Spring Neckwear, Collars, Cuffs, Nobby Ties, Cashmere Socks, Gloves, Etc., in fact everything in Gentlemen's Furnishings of the latest design.

The whole Stock is Bright with New Spring Novelties and Bedding with Bargains in every Department.

H. LeBRUN & CO.

Application to Parliament.

NOTICE IS HEREBY GIVEN THAT THE Corporation of the Town of Peterborough will apply to the Legislature of the Province of Ontario at the next session thereof for an Act to confirm the bylaws of the said Corporation relating to the William Hamilton Manufacturing Company, Limited, and to enable the Corporation to acquire and develop water power on the waters of the Otonabee River and to transmit and supply electric light, heat and power and to authorize the issue of debentures for the purpose aforesaid, and for the purchase of waterworks and for other purposes.

E. B. EDWARDS,
Solicitor for the Town of Peterborough.

Dr. A. W. CHASE

COMES TO THE AID OF

Catarrh Sufferers

SUCCESS in life is almost impossible for a man with bad breath. Nobody wants to do business with him. Nobody wants to associate with him. He is handicapped everywhere. Offensive breath comes from Catarrh; sometimes from Catarrh of the Stomach, sometimes of the lungs, sometimes of the head, nose, and throat. It is from Catarrh somewhere, and Catarrh is another name for uncleanness.

Many men understand this, and make every effort to cure it, but it is beyond the reach of ordinary practice.

No self-respecting man can ignore Catarrh. If he has it in any form he makes constant effort to be rid of it.

There is something about the manner of life and the climate of Canada that seems to breed diseases of the mucous membrane. Medical science ordinarily doesn't try to cure Catarrh; it "relieves" it; but Dr. Chase has been curing Catarrh for over thirty years, and his name is blessed by thousands who have shaken off the grasp of this insidious disease.

Sold by all dealers, price 25 cents per box, blower free.

LOUBET'S SEAT SAFE.

Demonstrations Over the Presidency Have Ceased.

LA PATRIE'S MILD MANIFESTO.

A Stormy Session of the Spanish Cortes on Monday—British Royalty in the Soudan—Inquiry About Menier and Anticosti—Editors Who Glorified Murder Sentenced—Austria's Cabinet.

Paris, Feb. 21.—The demonstrations over the Presidency have entirely ceased, perhaps only till after the funeral of M. Faure; but the aspect is altogether more hopeful, and President Loubet's seat seems permanent. He is credited with the declaration that he will resist strongly any attempt at disturbance, and has reaffirmed his intention to retain the Dupuy Cabinet, a step which tends to remove the suspicion that he is a Dreyfusard. During the month of mourning he will not attend any public ceremony. He has followed the custom of giving holiday remission of punishments in the army and navy, and has made large donations to the poor in Paris and Montalimar, his native town.

The fiery Patrie Francaise has issued an unexpectedly mild manifesto, briefly expressing the wish that the new President shall extricate himself from all compromising connections, and have a clear consciousness of his duty toward the fatherland and the army. The manifesto is signed by Cavaignac, Coppe, Forain, Lemaitre and others. The inference is that the agitation against President Loubet is artificial, and is already dying, both in the streets and the newspapers.

The latter are now concerned in a prosaic but piquant investigation of M. Loubet's domestic connections. Reporters have visited the Montelimar districts and interviewed all his relatives, including his mother, who is over 80 years of age, a bronzed, cheery farmer's widow of the peasant class, in snug circumstances, who has never seen Paris, and who regrets her son's election, because, she says, she would now see him more seldom than ever

President Loubet's brother-in-law, a well-to-do iron monger, said he was delighted at the news of the result of the election, but complained that he would be besieged by office hunters, who would want to be recommended to M. Loubet. He added that President Loubet was not a rich man, and would not be able to spend much beyond his official income and allowance; and he thought that the sudden plunge into President duties, taking him from his beloved books and music, might not prove a happy change.

Stormy Session of the Cortes.

Madrid, Feb. 21.—The Spanish Cortes met here yesterday, and there was a full representation in both Houses and great crowds in the galleries. The principal interest centered in the charges of Count de Almenas, who complained that Generals Prima de Rivera, Weyler and Blanco, Admiral Cervera and General Linares, had proved failures. He said the Spanish army was an army of lions led by asses, and asked why the generals who capitulated had not been executed. General Prima de Rivera denounced Almenas as a calumniator. Senor Annix added fuel to the flame by asserting that Premier Sagasta and Lieut.-General Correa had ordered Blanco to surrender Cuba, when Blanco was opposed to such a course. The session was very stormy, and nothing was accomplished.

Connaught at Omdurman.

Omdurman, Egypt, Feb. 21. — The Duke and Duchess of Connaught arrived here yesterday evening, and met with an enthusiastic reception from the natives. The Duke reviewed 9,000 troops, commanded by the Sirdar, General Lord Kitchener of Khartoum, and afterwards held a levee, at which the officers and notabilities were present. The Duke and Duchess visited the tomb of the Mahdi, the Khalifa's house and gardens and the palace at Khartoum. There was a display of fireworks during the evening.

Menier and Anticosti.

London, Feb. 21.—In answer to a question in the House of Commons yesterday, put by Mr. James Francis Hogan, anti-Parnellite, respecting a Frenchman's purchase of an "important strategical position at the gateway of Canada" and the alleged evictions of the previous occupiers, the Government leader, Mr. A. J. Balfour, First Lord of the Treasury, said the Island of Anticosti had been purchased by M. Menier, but he had no official information regarding the evictions. A report on the situation had been asked for, but had not yet arrived.

Editors Who Glorified Murder.

Grenoble, France, Feb. 21. — Max Regis, the former Mayor of Algiers, notorious Jew baiter and editor of The Anti-Juif, has been sentenced in default to three years' imprisonment and to pay a fine of 1,000 francs for "press offences and glorifying murder and pillage at meetings in Algiers and Paris."

M. Philippe, managing editor of the same paper, has been sentenced to eight years' imprisonment, and to pay a fine of 1,000 francs on the same charge.

Old Canadian Stamps Worth Money.

London, Feb. 21.—At a stamp auction sale in London yesterday the sixpence Canada perforated sold at 14 shillings, the New Brunswick Connell at 360 shillings, and the Nova Scotia shilling violet at 280 shillings.

The Pavonia Is Safe.

Ponta del Gada, Azore Islands, Feb. 21.—The weather has become calm, and the Cunard Line steamer Pavonia, which became disabled while on the passage from Liverpool for Boston, and was towed into St. Michael's on Saturday by the steamer Wolviston, is now free of danger.

Cretan Chambers Opened.

Canea, Island of Crete, Feb. 21.—The Cretan Chambers were opened yesterday by Prince George, the high commissioner of the powers, who received a warm greeting. A bill embodying the Cretan constitution was submitted.

The Khedive Is Happy.

Alexandria, Feb. 21.—The Khedivah has given birth to a son at Montazet. There are general great rejoicings at the fact that the Khedive now has an heir to the throne.

MATTERS IN MANILA.

Attempt to Burn the Quarters of the Washington Volunteers.

Manila, Feb. 21.—The natives of the village of Paco made a bold attempt last night to burn the quarters of the 1st Washington volunteers by setting fire to the huts adjoining the quarters in the rear. Fortunately the wind changed at the moment the fire was discovered, and, fanned by a stiff breeze, the flames spread in the opposite direction, destroying fully 20 shacks and houses opposite the ruins of the church. The incendiaries escaped.

Mysterious signals were frequently made along the enemy's lines during the night, and this led to the belief that an attack had been arranged, but nothing happened.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any Drug Store. Regular size 50 cents and $1. Guaranteed to Cure or price refunded.

Tobacco in England, 1845.

When I was a lad, fully half the population of both sexes, rich as well as poor, the banker equally with the workingman, were snufftakers. My first schoolmaster always carried his snuff loose in his waistcoat pocket, and innumerable were his dips into it with two fingers and a thumb in the course of the day, while the big gauffered frill which protruded from the bosom of his shirt was always thickly sprinkled with it. We used to notice that he never seemed to relish one of his huge pinches so much as immediately after having administered a sound castigation to some recalcitrant pupil.

On the other hand, there was little or no open air smoking, except in the case of laboring men going to or from their work. In this respect lucifer matches have something to answer for; but for them the practice of outdoor smoking would never have grown to its present enormous proportions. — Chambers' Journal.

An Unexpected Call.

"You are just going out, I see"—

"Yes, an important engagement. What was it you wanted?"

"It was about that little debt I owe you."

"Ah, yes! Take a seat."

"I was going to ask you for a little delay"—

"Oh—excuse me, but I'm already late."

"I say, I was going to ask you for a little delay when I met a fellow who paid up what he owed me, and"—

"Why on earth don't you sit down? Will you take a glass of wine?"

WORKING WOMEN.

Women are women after all. Mistress and maid are alike in physical make-up. Both are women. Both are subject to the ills and ailments peculiar to their sex. But the servant seldom gets any consideration. She is expected to do her work even if her head does throb and a dreary, dragging, bearing-down feeling makes her wish that each step might be her last.

Dr. Pierce's Favorite Prescription is made for maid as well as mistress. It makes weak women strong and sick women well, no matter what their station in life. It gives the poor working woman an equal chance with her richer sister and at exactly the same price.

The servant who uses "Favorite Prescription" at a moderate price per bottle is much more likely to get well than her mistress who calls in an expensive, local physician. If she will write plainly to Dr. R. V. Pierce, at Buffalo, N. Y., her case will have the attention of a physician who has cured more women than any one hundred other doctors and who has a record of over thirty years' successful practice. Her letter will be considered strictly confidential, will be promptly answered in a plain envelope, so that prying eyes of others may not get even a hint, and she will have the benefit of the very best medical skill without a cent of charge for it. Thousands of women have written and been cured. And by this method they have avoided the "examinations" and "local treatment" so invariably insisted upon by local practitioners and so abhorrent to every modest woman.

JEWELRY JOTTINGS.

Enameled brooches and belt clasps are much in favor.

The long chain in its newest form is shortened so as to reach only to the bend of the figure.

In ladies' rings, along with all sorts of fanciful conceits, the split head with two stones and the three stones obliquely set remains extremely popular.

One of the newest little touches of elegance added to the various silver pocket cases for men is a precious stone forming the head of the spring which is pressed to open the case.

A narrow shell comb, of which the head is set with a design of forgetmenots in turquoises and diamonds, represents a coiffure ornament which certainly breathes forth the Christmas spirit.

Something unique for either sex is furnished in sleeve links of the new silver alloy, which the possessor may wear with the pleasant consciousness that another pair exactly like it does not exist.

The procession of new and charming pins, brooches and rings never ends. In conventional style for a pin nothing could be more artistic than a simple gold bar bearing two trefoils in whole pearls, while the designs of animals, such as horses, lions, dogs, foxes, lizards, tortoises, etc., have not lost a whit of their popularity.—Jewelers' Circular.

MAXIMS ON LOVE.

With true love there is trust.—Regnier.

To love is only in the power of the wise.—Epictetus.

If passion drives, let reason hold the reins.—Benjamin Franklin.

Love and religion are both stronger than friendship.—Benjamin Disraeli.

Who has loved well will never seek the loved one's ill.—Calderon de la Barca.

A mother alone knows what it is to love and be happy.—Adalbert von Chamisso.

There is nothing in love but what we imagine. — Charles Augustin Sainte-Beuve.

Love and death are the two great sympathies on which all human sympathies turn.—B. R. Haydon.

Love, like fire, cannot subsist without continual motion, and ceases to exist as soon as it ceases to hope and fear.—Francois de la Rochefoucauld.

THE NIGHT CLERK'S STORY.

A FACE LIKE CHALK.

A very bad attack of the Grippe one year ago last winter left my system in a very weak state and my nervous system completely unstrung. After getting over the dangerous stage of the disease I naturally expected to gain strength, but, unfortunately, did not do so. On the contrary, my blood became weaker. I daily lost strength and vitality, and my nervous system became so weak that it was a constant source of suffering both day and night. I lost appetite, the sight of food nauseated me, the weak state of my system caused shortness of breath and unnatural action of the heart, such as fluttering and violent palpitation, and my face was like chalk. I was in this condition and constantly getting weaker when I began taking Dr. Ward's Blood and Nerve Pills. I had read the books they distributed and their advertisements in the papers, and thought, "Well, I have taken so much medicine without benefit it is useless to spend any more money. However, I finally made up my mind. It is a forlorn hope; I can but try. If I am not benefited I will not be hurt. So I bought one box and received great benefit therefrom, so continued their use, and to-day am a well man in consequence; my blood is strong, my face has the ruddy hue of health, my appetite has returned, I sleep well, I have not the slightest indications of nervousness or heart trouble, and from a sick, weak, nervous man Dr. Ward's Blood and Nerve Pills have transformed me in six weeks to full health and strength." I am yours very truly,

(Signed) WILLIAM WILLARD,
Night Clerk Grand Central Hotel,
Peterboro.

Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00 at druggists, or mailed on receipt of price by THE DOCTOR WARD CO., Limited, 71 Victoria Street, Toronto. Book of information free.

SCOTCH SIMPLICITY.

The Mason, the Budding Architect and a Conscience Stricken Lad.

The Scotch are fond of telling stories which illustrate the peculiar simplicity of mind of their country people. This simplicity at least saves them from wicked guile.

One of these stories relates that an honest mason once had a contract to build a small house of stone. He came early and began from the inside to lay the stone, working very fast. At noon his young son brought him his dinner, peeping over the wall as he handed the basket to his father. With honest pride in his eye, the mason looked over to the boy.

"Weel, Jock, heo d'ye think I'm gettin on?" he asked.

"Ye're getting on famous, feyther," answered Jock, looking at the solid wall, in which there was no break. "But hoo d'ye get oot?"

The mason looked around. It was true. He had provided the house with no door at all, and he was on the inside. He looked kindly and very admiringly at the boy.

"Mon, Jock, ye've a grand heid on ye!" he exclaimed. "Ye'll be an architect yet, as sure as yer feyther's a mason!"

Another story shows how unsuccessful as a thief the rustic Scot may be. Two young plowmen went into a garden at night to steal gooseberries. The bushes surrounded a plot of potatoes, and as one of the lads groped about he got a handful of potato plums, which he quickly put into his mouth. Then he gasped to his comrade:

"Oh, Jock, I'm poisoned! For ony sake, shove me through the hedge again, for I wandna like to dee i' the auld man's gairden!"—Youth's Companion.

Wide Versus Narrow Tires.

Experiments made at the agricultural experiment station in Utah have demonstrated that a 1½ inch tired wagon drew about 40 per cent heavier than one with 3 inch tires and weighing with its load the same as the other. At the Ohio State university it was shown that a wagon with 3 inch tires and loaded with 4,480 pounds could easily be hauled by two horses over an ordinary dirt road in good condition and with a hard surface, while with a narrow tire half as much was a full load for a double team.

SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Boils Kept Coming

But after B. B. B. was used they permanently disappeared.

From the days of Job to the present boils have been one of the great afflictions of the human race.

Very few people escape having them at some time.

All the poulticing and lancing you may do won't cure them and stop more coming.

Boils are bad blood bursting out.

And the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters is the greatest blood purifier known.

It cleanses the system and removes every particle of foul material from the blood.

Then never another boil comes and health and strength are permanently restored.

Mrs. Roland B. Keith, Butternut Ridge, Kings Co., N.B., made the following statement with reference to her brother's cure of boils by B. B. B.:

"My brother was terribly afflicted with boils for a considerable time. They were of large size, and when one went away another came. I attended him, and poulticed with different things, and he had a doctor attending him, but still the boils kept coming. At last we got a couple of bottles of Burdock Blood Bitters, and started giving it to him. There was soon a change for the better, and the boils stopped coming in a week's time, and by the time he had used 3 bottles of B. B. B. his blood was purified, **all the boils went away and he has never had one to trouble him since.**"

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR,—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000, which matured on the 5th inst. Of the various options you have given me viz.:

Cash value	$1,504 90
Paid-up Policy, payable at my death, for	2,589 00
Yearly Income for life of	166 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4½ per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the low ing rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,
(Rev.) J. THOMPSON, D. D.

Three Years in Bed.

From Kidney Disease—Although a Man of Three-Score and Ten, Dr. Chase's Kidney-Liver Pills gave him back perfect health.

This is to certify that I was sick in bed the most of the time for three years with kidney disease. I took several boxes of pills—different kinds—and a great many other kinds of patent medicines; besides that I was under treatment by four different doctors during the time and not able to work. I began to take Dr. Chase's Kidney-Liver Pills, and since that time have been working every day, although a man nearly 70 years of age. Dr. Chase's Kidney-Liver Pills have cured me.

JAMES SIMPSON,
Newcombe Mills, Ont.

If the Kidneys are not in a perfectly clean and healthy condition, the blood becomes impregnated with impurities, and a decay of the Kidneys soon takes place. Bright's Disease, Diabetes, Gravel, Stone in the Bladder, Inflammation of the Bladder, and a long list of Kidney diseases become seated, and sooner or later is so many instances end fatally. Dr. Chase's Kidney-Liver Pills cure all Kidney troubles. Sold by all dealers, price 25 cents per box.

FASHION AND FABRIC.

White broadcloth is much used for bridesmaids' gowns this season.

Gray fox fur shoulder capes and muffs are exceedingly stylish and will this year be worn with any and every color of gown.

Never have fur and velvet been more elegantly or effectively combined upon winter wraps than upon the models designed for the coming winter.

Heavy satins in violet, nasturtium yellow, burned orange and a superb shade of Italian red are used for linings on fur pelerines, coats, jackets and muffs.

Never before were so many cold weather jackets, blouses and coats made with open cutaway fronts, showing waistcoats, plastrons, etc., of airy summerlike textiles.

Muffs of velvet to match the hat and pelerine will be very fashionably worn with any stylish street costume, and these are made round or flat as one prefers, but each shape is moderately large.

Crepuscule (twilight) is the French name of one of the most fashionable shades in gray. It has a faint pinkish tint, like the beautiful color called "dawn," and is even prettier than the opal hues of the last summer.

Among the winter petticoats recommended for [illegible] are those of American surah lined with watered percaline, with one deep ruffle of the silk merely finished with a 2 inch hem and five narrow tucks above.

The new short fur pelerines are considered the particularly stylish thing to wear with the tailor gown. The long stole ends are trimmed with innumerable tails, with usually a drooping cluster under the chin, and the effect is graceful.

One of the very fashionable models for an elegant tailor costume is of the finest, lightest French broadcloth, the color jet black, the lining black or violet silk, the trimming special designs in silk cord passementerie en applique placed upon the skirt, coat and sleeves.

Success comes to those who persevere. If you take Hood's Sarsaparilla faithfully and persistently you will surely be benefitted.

English Penny Novels.

Penny novelettes differ from one another in externals rather than in internals. The get up of the better sort is neat and attractive. The type is clear, and the covers might even be called "artistic" in the catholic sense of the term. The inferior kinds are indifferently printed "on gray paper with blunt type," and there are many degrees of excellence between the two extremes. All except one have illustrations ranging from the rudest of woodcuts to the smudgiest of "process" plates. Of course the artist selects the most sensational incidents for his pencil to adorn. The stabbing of the heroine's father by the villain disguised as the hero, the kidnaping of the heroine by Black Tom and his gang of gypsies at the instigation of her jealous rival, the horsewhipping of the villain by the hero in "faultless" evening dress—these and their like naturally present themselves as thoroughly suitable and congenial subjects.—Blackwood's Magazine.

Malicious Interference.

"I'll get even with that printer," said the editor of the Plunkville Bugle, "if it takes me the rest of my life."

"What printer?" asked his friend.

"That tramp I took on while my wife was visiting her mother. I got a $10 write up out of old Hiker, who is laying his pipes for the senatorship, and I said that some day his little son would make as big a mark as his father, and that villain fixed it that the young 'un would 'be' as big a mark, etc."—Indianapolis Journal.

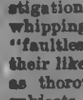
A Useless Wish.

"Oh," sighed the poetic lady, "had I the wings of a bird!"

"Don't!" protested her husband. "Don't wish for the wings of a bird. If you had them, some other woman would probably be wearing them on her hat before the season is over."—Washington Star.

Who Built The Pyramids.

Hard to tell in some instances. But we know who are the great nerve builders. They are Scott & Bowne. Their Scott's Emulsion feeds and strengthens brain and nerves.



Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cooks Cotton Root Compound. Take no other, as all Mixtures, pills and imitations are dangerous. Price, No. 1, $1 per box; No. 2, 10 degrees stronger, $3 per box. No. 1 or 2, mailed on receipt of price and two 3-cent stamps. The Cook Company, Windsor, Ont. Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada.

No. and No. 2 Sold in Peterborough by John Nugent Druggist.

JUST A CURTAIN FIRE.

It Was In a Girls' Boarding School and Did Complicated Damage.

A fire in a skyscraper may be thrilling, but for dramatic episodes and unexpected complications a fire in a girls' boarding school surpasses it. The boarding school fire is usually what is known among insurance men as a curtain fire, but a curtain fire in a girls' school is more exciting and causes more casualties than an ordinary blaze anywhere else.

One evening last week two girls, who occupy a microscopic hall bedroom in a swell up town school, took the globes off the gas fixtures for hair curling purposes and left them off, because it was easier to do that than to put them on again. Then the girls raised the window a trifle in order to cool the room and dutifully sat down to write home letters. The inevitable happened, and when girl number one poised her pen in the air and glanced around the room in search of inspiration she saw the curtains in a blaze. She screamed. Girl number two looked around and echoed the scream. Then, with promptitude and discretion, both girls fainted. The screams had attracted the attention of the other girls, who rushed to the scene and then did various and sundry stunts, according to their several dispositions. One fainted, several wept, a few ran out of the house, and the rest shouted for the one man on the premises.

When he arrived, things looked rather hopeless. Curtains and woodwork were blazing finely. The floor was littered with prostrate forms, and when three girls have fainted on the floor of a hall bedroom there isn't much space in the room for promenading. The man picked his way across the prostrate forms and ordered all the girls who were not in a dead faint to leave the room, but they didn't go until he lost his temper and spoke with a force which isn't common in boarding school circles. Then they fled; but, unluckily, there was an enemy in the rear. A vigorous and practical woman from Texas had been inspired to go after some water. Returning in mad haste with a large pitcherful of water borne triumphantly aloft, she collided with the retreating forces at the door. The pitcher struck the leader of the retreat squarely in the face and knocked out two of her front teeth, whereupon the injured girl made the fainting trio a quartet and the water carrier dropped her pitcher and went into violent hysterics.

Hysteria, as boarding school teachers know to their sorrow, is contagious, and the one case touched off the crowd. By the time teachers arrived upon the scene the fire was out, but the survivors were in a bad way. It was necessary to put nine-tenths of the school to bed and order wholesale doses of bromide. Even now the girls insist that they haven't recovered from the shock sufficiently to do hard studying, and the victims of the water pitcher are both under the care of trained nurses. As for the man, he gave up his place the next day and confided to the cook that he was going to look for a job in a lunatic asylum, where his boarding school experience would be of value to him.—New York Sun.

Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down-feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me more strength and good appetite than anything I could take. I can now eat anything and have a new lease on life. Only 50 cents at any Drug Store. Every bottle guaranteed.

Hints for Stockmen.

Feed some chopped feed, with meal, to the hogs.

The work horse should have plenty of good grooming.

The whole science of butter making seems to revolve around the question of cleanliness.

Very much is said about feeding warm water to cows. The same principle applies to swine. Cooked or steamed feed does the hog an immense amount of good.

As pigs increase in age it may be well to increase slightly the proportion of corn in order to make the rations a little more carbonaceous toward the finishing period.

With a good dry bed and a good dry feeding-room that is warm and light and kept clean, the pigs will do well to be confined to these two compartments until they are six months old, when they should weigh not less than 150 pounds each.

No Faith In Anything.

"Aunt Josephine is a thorough skeptic."

"She is?"

"Yes; she puts mucilage on the back of every postage stamp she uses."—Chicago Record.

Elephants' Teeth.

Elephants have only eight teeth—two above and two below on each side. All elephants' "baby teeth" fall out when the animal is about 14 years old, and a new set grows.

When Beauty Fades.

In response to repeated inquiries from ladies with whom Dr. Chase's Ointment has become so popular for skin diseases, asking if face powders are injurious and can be used while using the ointment, we state that while the majority of face powders are injurious we can recommend the recipes given in Dr. Chase's supplementary recipe book page 45, which will be sent on receipt of 5 cts. in stamps. Dr. Chase's Ointment is the ladies' friend for all skin diseases. Address Dr. A. W. Chase Co., Toronto.

DYSPEPSIA CURE

THE HORSE SHOW.

Gracie Onward won the 2-year-old trot at Lexington barefooted.

Star Pointer is credited with having paced 14 miles in 2:02 or better, nine of them averaging precisely 2:00.

Jefferson Wilkes, 2:14¼, by Alcone, is to be campaigned next season and his owners expect him to enter the 2:10 list.

A 2-year-old colt named Electric Wilkes, sired by Expedition, is credited with having shown a mile in 2:21¾ at Lexington, Ky., lately.

It is said that Split Silk, 2:09¼, absolutely refused to score at Lexington, having apparently become tired of trying to beat those who beat her.

Bowerman Bros., Lexington, Ky., traded Sternberg, 2:15¼, and several horses for the 2-year-old colt Blennerhasset, a full brother to Rex Americus, 2:11¼, by Onward, dam Gleam, by Dictator.

Drex, 2:16¼, pacer, by Black Day, who has won a number of races this season, was protested in Pennsylvania as being Patchen Boy, 2:10¾. There is probably no fact to substantiate the protest.

A. H. Waddell, writing in The American Stock Farm, says of Kremlin, 2:07¾, "I know him to be a horse of the finest temper and, furthermore, a horse that a Pennsylvania miner could not kill with a pickax."

The Cleveland Driving club has awarded its challenge cups for 1898. That for trotters was won by W. M. Cummer's bay mare Temper, by Elyria, time, 2:18½, and that for pacers by H. K. Devereux's Ripper, time 2:16¼.

There is said to be a great 2-year-old diminutive pacer, standing only 13¼ hands, owned by E. J. Davis, Woodbury, N. J. He is by the great pony trotter, Sea King, 2:21¼, dam Soda Water, by Brown Hal, and is credited with 2:20 speed already.—Turf, Field and Farm.

THE CYNIC.

It is fortunate for the people that few doctors are genius.

Every time you look at a 12-year-old boy he needs a new pair of shoes.

If you must be a liar, be a statistical one, and you will never be caught at it.

Being caught in a lie is a good deal more uncomfortable than the original offense.

A man's clothes never appear as soiled to him as to others. It is a good deal the same with his record.

The discouragement in mending one's ways is that there is always some one who will call attention to the patches.

The funniest thing in the world to men is a woman's reception. The funniest thing in the world to women is the way men keep their socks up without garters.—Atchison Globe.

A well known professor says that over a large area of central Russia the magnetic needle does not point north or south. It is in one part deflected to the west, and at another part to the east, and at one place it points due east and west.

The eggs of a bluebottle fly, if placed in the sun, will hatch in two or three hours.

MR. HOUSE, OF BERLIN

Cured of Lumbago by Dodd's Kidney Pills.

Berlin Feb. 13.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Backache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

SUMMER DIED LAST NIGHT.

Summer died last night,
Lady of Delight—
Summer died last night.
Look for her no more.

In the early gray
Of this golden day,
In the early gray
By the mirrored shore,

I saw leaves of red—
So I knew her dead—
I saw leaves of red
Wreathed upon her door.
—Maude Caldwell Perry in Atlantic.

A LETTER FROM GENIAL FLORIDA.

A Former Resident of Peterborough Writes Home.

PLEASURES OF BLUE FISH TRAWLING

An Interesting Communication Relative to the Way Time is Put in Down Amongst the Orange Groves of Florida.

To the Editor of The Examiner:

DEAR SIR,—When I was a raw recruit in the newspaper ranks I recollect very well being assigned one cold blustering day in March to "write up" a returned tourist from Florida. I also recollect how greedily my youthful inexperience and enthusiasm took in the fanciful tales of Florida's countless charms, its changeless summer climate, its soft skies and softer breezes, its perennial flowers and foliage and fruits. That was the Florida that I pictured to myself and endeavoured to outline in print. But there has been so much said and written and so many lies told about this land of sunshine and romance that in the iconoclastic wisdom of a maturer age, I came here fully prepared to be disappointed; and I was—but, disdisappointed pleasantly. My first impressions are exceeded, my greatest expectations outdone.

The transition from zero weather to summer heat, from an ice-bound country to a land fresh with a radiant bloom of nature, is enough to delight and satisfy the soul of any reasonable mortal who has not become utterly blase. When you add to this the surf bathing, boating, fishing, shooting, golfing, bicycling and other outdoor recreations that are provided for the guests here, one's book of pleasure is complete and there seems to be nothing left to wish for.

Of course it takes lots of money to live at Palm Beach. The mathematician of our party figured that every breath of the balmy sea breeze or the perfume-laden zephyr from landward (notice the classification!) cost about 3½ cents. He refused to state

BY WHAT METHOD

he arrived at this result, and, to my mind, he must have omitted a number of respirations from his count. As a matter of fact the large hotels charge from $5 to $10 per day, and accommodations can be secured at the smaller hotels or private homes for from $2 to $3 per day. When one considers the vast fortune that has been spent in converting the natural dense jungle and sandy waste into the beauty spot that one now beholds, and the shortness of the season when any return can be expected on the investment, the hotel rates do not seem exorbitant. Just now every place is crowded with guests, and the season is at its height.

But Florida is a hackneyed subject, if ever there was one, and I will not attempt a categorical description of the State, nor of the Gulf Stream, which passes within a few miles of here, nor of the quaint old town of St. Augustine, famous for its historical associations, its relics of Spanish ascendancy, and its magnificent modern hotels, the finest in the world, nor still of Palm Beach, or Miami, or Tampa, or any of the well known resorts. These have become stale from repetition. What then is there left to write about?

Perhaps a brief resume of one day's doings would not be uninteresting. Well, you wake in the morning with the song of the surf in your ears, and the soft scented air sifting in through the sunbeams at your window, and you yawn lazily and then frown as the recollection flashes across you that you MUST get up or the yachting party is liable to start on its fishing trip without you. By a mighty effort you shake off that don't-want-to-do-anything feeling and dress hastily, then have breakfast and proceed to the rendezvous on the pier, where you find that your haste has been unnecessary and that "there are others" lazier than yourself. By nine o'clock, however, we are all comfortably settled in the trim little sloop we have selected for the trip, and away we speed over the dancing waters of Lake Worth, bound for a forenoon's fishing at the Inlet, where the lake joins the sea. The lines go out and we begin to clear a space for the fish. Our skipper tells us that the day before a party of ladies and gentlemen had captured eighty-nine pounds of bluefish, groupers, pompano, etc., dressed weight, in about two hours' time. False encouragement! Our only reward for two hours' trawling is sunburnt noses and a vigourous appetite, for of fish we got nary a bite. Everyone tells us how unlucky we were, and that there are lots of fish there to be caught. If that is the case we conclude they must have seen us coming and escaped. Our post, however, maintains that a fish is gifted with intelligence enough to know when it has easy marks to deal with, and quoted as proof his experience of the day before, when he was fishing with rod and reel off the pier. Big red snappers, he asserted, would swim up and smell his bait, and then with a sardonic wink of the left eye and a scornful flip of the tail, would whisk away again, while he, poor fisherman, could only hurl swear words after them, which the fish could not understand. This had led him to compose an ode, which he entitled

THE SOLILOQUY OF A FISH.

I am
What I am—
That's what I am.
A fish!
A poor, measly little thing to angle for.
But I'm onto you,
See!
You think you're smart,
And the whole thing,
Because you bait a hook for me to catch.
But you are too light
For heavy work.
I've weighed you on my scales.
And your way needs mending—
Ha-ha! See the joke!
Say!
Just drop me a line
When you come across anything
As good as that.
I see you have the line out now—
But you can't get a line on me—
Not to-day.
You're the biggest guy I've seen
For many a tide.
Don't you fool around too long
Or I'll get my friend, the shark,
To swallow you—
And you can't Jonah him.
What!
Getting mad?
Don't go so soon!
Well, ta-ta! and au revoir—
Come again—I'll be glad to see you—
Nit!

We all voted this very silly and quite unworthy O. P.

After lunch some of us play golf, some attend the orchestra concert under the palms in front of the hotel, some go surf-bathing, or swim in the salt water pool in the casino, while others write letters to their friends. We all go out and

LOOK AT THE SHARK

that has been caught off the end of the pier. There is a wreck on the beach a few miles below. The morning papers, two days old, come in and we read of the weather being 15 and 20 below zero up north, with a cold wave threatened in the Gulf region. These are the little daily incidents outside of the hotel life that are talked about. At the hotels there are lawn parties, golf contests and different social affairs. In the evening we sit in the porch or in the spacious rotunda and listen to the orchestra. There is a great chatter of voices, the faint sighing of the ocean swell and the rustling of the palms in the night breeze. These sounds linger in the ear until sweet slumber has taken possession of the senses and all is blank.

Here is where you can obtain that complete repose which is the great restorative of strength. The tropical climate at first has an enervating effect upon the northern visitor accustomed to cold weather, but within a few days one's system becomes adjusted to the change and then you are capable of thoroughly enjoying life in this American Riviera. One ceases to know that he has any nervous system or that there is such a thing as la grippe with its kindred compalints. The shady avennues, which lead from lake to ocean, the lovely grounds where rare tropical fruits and flowers, with tossing graceful palms, abound, the deliciously warm days and voluptuous nights are a source of endless enchantment to the Yankee or Canadian who breaks away from mid-winter in the north, and he never tires of talking or writing about it. So before I run further risk of wearing out your patience with reiterations of the charms and fascinations of this seductive spot, I will write "finis" to my communication with the hope that it may be the good fortune of all your readers to have an opportunity of visiting Florida during the winter season and seeing for themselves; for seeing is believing.

The only point to remember is, get as far south as you can. Northern Florida is subject to cold snaps and even at Miami and Palm Creek the thermometer falls to about 40 degrees two or three times during a severe winter. These spells last for only a day or two, however, when summer quickly resumes her sway and nature rejoices again.

C. H. A.

Palm Beach, Florida, Feb. 14th.

So much depends on the purity of the blood that by taking Hood's Sarsaparilla many different diseases are cured.

PASTORAL ADDRESS

By the Rev. J. E. Moore, Pa.E., President of the Young People's Affiliated Societies for the County of Peterborough, Ontario.

MY DEAR YOUNG FRIENDS,—I write especially to call your attention to the approaching convention of our societies, which is to be held in the Y.M.C.A. building, Peterborough, on Easter Monday, April the 3rd. The time—Easter-tide—bringing to our memories and hearts the resurrection of our blessed Lord. I trust the year has been marked by consecration to the Master's work and development in the different departments of Christian labour. Allow me a few words, as follows:

1. Christian Endeavour.—When God called us into His vineyard it was to work. Attendance at the church prayer meeting and the sympathetic co-operation of each member with the pastor in spreading Scriptural holiness and sustaining all the services in connection with your own church, is of vast importance. The cause of God can only be built up when there is hearty co-operation of His followers, "so built we the wall and the wall was joined together unto the half thereof, for the people had a mind to work."

2. Missionary Work.—Ever since the command given by Jesus Christ—"Go ye and disciple all nations"—the missionary problem has had a prominent place in the activities of the Christian church. Our aim should be "The world for Christ and Christ for the world," during the twentieth century.

Remembering that the mission field is world-wide and is bounded on the north by the north pole, on south by the southern cross, on the east by the rising sun and on the west by the day of judgment. We have much to be thankful for in connection with the plebiscite campaign. The handsome majority given in Ontario in favour of prohibition is indicative of the ultimate overthrow of old king alcohol in our fair Dominion. Let us all continue untiring in our efforts until sobriety and social purity shall reign supremely in our land. This is distinctively the young people's age and the world expects Christian Endeavourers to become leaders in this movement.

Literary Work.—This department must not be forgotten. A public meeting once a month, to which all are invited, will have a stimulating effect upon your organization, and a reading course has been found to be very helpful.

Social.—Do we frequently under-estimate the importance of extending a hearty welcome to strangers. A good hand-shake putting your soul into your hand and the introduction of a stranger to the Society, has in many instances yielded quick and good returns. Let all be made to feel comfortable and at home.

Financial Matters—Has your society taken hold of the finances of your church, and have you personally rendered material assistance? Have you enquired of the officials of your church re your minister's salary? And has your society sent a contribution to assist our County Union? If no', please try. At a meeting of the executive committee held February 18th the following was decided upon: 1. Each society may send three delegates. 2. The election of officers is to be by ballot without nomination, from 4 to 4.30 p.m. 3. The names of the delegates appointed and who promise (D.V.) to attend, are to be sent to the secretary, Mr. Bruce Anderson, box 772, Peterborough, not later than March 15th. 4. Each delegate is requested to come prepared to discuss the pledge. 5. Each society is requested to send the name of an essayist and the subject of the essay. The committee to use its best judgment in selecting therefrom for the convention programme, notice to be given at once to those selected. Questions to be decided at the convention: (a) Where shall the next convention be held? (b) Should the convention itinerate? All delegates to come prepared to offer suggestions relative to C.E. work. All of which is respectfully submitted.

I am, yours in the work,
J. E. MOORE,

Peterborough, Feb. 21st, 1899.

Asthma Cured

After Twelve Years' Suffering—Toronto Physicians Advised Leaving Her Home to go to Manitoba—Clarke's Kola Compound Cured.

Mrs. McTaggart, 98 Vanauley st., Toronto, writes: "I have been troubled with asthma and bronchitis for twelve years, which gradually grew worse each year in spite of the hundreds of dollars my husband has spent with several doctors, and almost every remedy we could procure, which only afforded temporary relief. For the past two years I could not lie on my left side, and during the past year previous to taking Clarke's Kola Compound the asthma became so severe that I had not had a full night's sleep, and during the most of that time we had a doctor in attendance. We gave up several doctors, as I was becoming no better, and the last doctor, after two months' treatment, told me he could do nothing for me, and advised me to go to Manitoba or some dry climate. We heard of Clarke's Kola Compound being a cure for asthma, and before taking this remedy made several inquiries from those who had taken it, and in each case found the result so satisfactory that we resolved to try it. After taking the first bottle I became much better, and began to sleep at nights. Since taking the third bottle I have not felt the slightest symptoms of my former trouble. I have during the past six months gained nearly 20 pound in flesh and feel perfectly healthy in every way. I can assure you that I will do all in my power to induce any sufferer from this terrible disease to try it."

Certified correct by Peter McTaggart. Proprietor of Toronto Dairy Co. Sold by Ormond & Walsh, druggists, Peterborough. The Griffith & Macpherson Co., sole Canadian Importers, 121 Church street, Toronto.

DREYFUS INNOCENT.

Conviction May Be Utterly Quashed by the Court.

FORECAST OF COURT'S REPORT.

Loubet Is Brave and Will Attend the Faure Funeral—Orleans Medals—Britain Will Remain Firm in the Sultan of Oman Affair—Filipinos Apply the Torch—Cable News.

Paris, Feb. 23.—The Soir announces that M. Manau, the Procurateur-General, will submit his report in the Dreyfus affair next week. The report will ask the Court of Cassation, it is said, to annul the conviction without a retrial. If this be correct, it shows that the evidence before the court not only proves Dreyfus innocent, but that the crime for which he was punished never existed, as the French law only allows the Court of Cassation to quash a sentence without retrial when there is proof that the offence alleged was never perpetrated.

Loubet Has Pluck.

Paris, Feb. 23.—President Loubet has notified M. Dupuy of his intention to accompany the funeral procession from the beginning to the end of the route, though his friends have vainly tried to dissuade him by pointing out the danger of a hostile manifestation. The League of Patriots has been refused a place in the procession by Premier Dupuy.

Troops have been pouring into the city for the ceremony, and it is estimated that no fewer than 100,000 are already in the city.

What Is Behind This?

Paris, Feb. 23.—The police yesterday seized in this city 10,000 medals bearing the head of the Duke of Orleans, and five moulds for striking them. In view of possible demonstrations to-day, upon the occasion of the funeral of the late President Faure, the prefect of police has ordered the seizure of all seditious emblems, the arrest of their wearers, the dispersal of all street gatherings, and the arrest of anybody raising insulting cries against the President, members of Parliament or other state officers.

THE MUSCAT AFFAIR.

Great Britain Will Maintain a Firm Policy Thereanent.

London, Feb. 23.—The last meeting of the French Cabinet held by President Faure on the day of his death, decided on a rather strong policy of opposition to England in connection with the dispute about the coaling station near Muscat, on the Persian Gulf. Foreign Minister Delcasse submitted to the Cabinet the draft of a protest against England's claim of suzerainty over the Province of Oman and her consequent right to forbid the Sultan to cede to France a coaling station. It was argued that Russia should join in a similar protest. President Faure agreed to the matter and the Minister of Foreign Affairs went back to the Quay d'Orsay to prepare his note to send to the British Foreign Office. This protest was delivered to Lord Salisbury on Monday, the death of the French President not interfering with the policy decided upon.

Great Britain in the meantime had been proceeding in an active manner at the seat of trouble. The commandant of the Bombay naval station had been ordered to notify the Sultan of Oman that he had no right to grant France a station on his coast, and the commandant had gone about enforcing his instructions in a rather unexpectedly effectual manner.

When Her Majesty's Cabinet assembled yesterday in Downing street to consider the Muscat question and France's note of protest, despatches came from the Bombay naval officer saying that the Sultan had concluded it best to withdraw his grant to France. Just how this was effected is not yet known, but the English emissary undoubtedly was more vigorous than diplomatic, and settled matters himself.

The Cabinet decided to maintain a firm policy in connection with the Oman affair, whatever the cost.

THE KHALIFA ONCE MORE.

Said to Be Marching on Omdurman With a Large Army.

London, Feb. 23.—The Daily News publishes the following despatch from Cairo: "The Khalifa is advancing upon Omdurman with 15,000 or 20,000 men. Preparations are urgently proceeding to meet him."

A foot note to the despatch says: "The facts are that Col. Kitchener's scouts came in touch with the Khalifa, strongly entrenched, with 16,000 men, and the British officer having only a small force, he found it necessary to retire on Omdurman. This retirement the Khalifa regarded as a sign of weakness and it led him to rally his forces to the advance. Lord Kitchener has 9,000 men at Omdurman."

British Officers Recalled.

Cairo, Feb. 23.—The Khalifa has left Sber Kella, and is moving northwards with a considerable force. He has been fiercely riding the Arabs along the route he is following, and the latter have become panic-stricken.

Major Macdonald, the head of the British expedition which has been exploring East Africa, has started for Omdurman, and Major-General Hunter, the recently appointed Governor of Omdurman, and other British officers on furlough have been recalled.

The Slaughter of the Dervishes.

London, Feb. 23.—Replying to a question by Mr. Labouchere in the House of Commons yesterday, Mr. George Wyndham, Parliamentary Secretary to the War Office, said that Gen. Kitchener's officers reported that 10,000 Dervishes had been killed at Omdurman, and 16,000 wounded, besides the 400 killed in taking the town. No official returns existed, he said, of the number of wounded treated in the hospitals.

Baron Reuter at Death's Door.

London, Feb. 23.—Baron Paul Julius de Reuter, founder of Reuter's Telegraph Company, who is over 80 years old, is lying at the point of death at his villa at Nice.

Collapse of an Old Castle.

Strasburg, Feb. 23.—The old castle of Rathsamhausen, in lower Alsace, which recently was partly renovated, and which always has been in high favor as a place for picnics, fell in yesterday. Three persons were injured.

RUSKIN HALL.

A Place of Learning in Old Oxford Where Labor Leaders Will Have a Chance.

Oxford, Feb. 23.—The Labor College, or College for Labor Leaders, called Ruskin Hall, and founded by two young Americans, Messrs. W. Vrooman and C. A. Baird, was formally inaugurated last evening at the Oxford Town Hall, at a largely-attended meeting, presided over by Mr. Y. York Powell, regis professor of modern history in the University of Oxford. Representatives of trades and labor were present from various parts of the Kingdom. Mr. Vrooman delivered the inaugural address. Ruskin Hall will accommodate about 40 men. The promoters have leased the Stobbs House, an old mansion built in 1649, near Christ Church College. There will be no ordinary servants, but among the students will be cooks and other servants, who will get their board free in return for four hours' daily work. The remainder of their time will be available for study. The entire expense of the students for board, lodging and tuition will be £1 a week. The funds for the scheme are provided by American admirers of John Ruskin, the famous art critic and author.

FIRE AND FIGHTING.

Outbreak of Incendiarism at Manila—Property Loss Enormous.

Manila, Feb. 23.—(7.30 a.m.)—There was an outbreak of incendiarism, accompanied by fighting, in Manila last evening. The casualties were few, but the property loss is enormous.

Requiem Mass in London.

London, Feb. 23.—A requiem mass for the repose of the soul of President Faure was celebrated here yesterday. The services were of a most impressive character. Pere Charrier, rector of the church, conducted the services, and Cardinal Vaughan pronounced the absolution.

The Prince of Wales, The Duke of York, Lord Salisbury, Lord Rosebery, the foreign ambassadors and ministers, many members of Queen's Privy Council, and a large number of other distinguished persons were present. Most of these were in court dress, making a brilliant display.

A Convict Millionaire.

Moscow, Feb. 23.—Count Sollogub, a Siberian convict, who was sentenced to the mines for forgery and fraud in 1894, has just inherited the fortune and estates of his brother. The convict's holdings amount to about 5,000 acres, and his personal estate to about 2,000,000 rubles ($1,470,000).

The Avalanche Again.

Silver Plume, Col., Feb. 23.—A snow slide occurred yesterday, carrying away all the buildings of the Seven-Thirty mine, together with several miners' cabins, and burying four men. Two of them have been rescued alive. The other two have not been found, and are supposed to be dead.

VERY WARM TO GOMEZ

Sir Wilfrid Laurier and Sir Louis Davies Back in Ottawa.

AMBASSADOR CHOATE SAILS.

Dr. Saunders of the Ottawa Experimental Farm Asked for Canadian Grain for Russia and Other European Countries—The U. S. Army Beef Controversy—$10,000 Asked for Alleged Libel.

Sir Wilfrid Laurier and Sir Louis Davies have returned to Ottawa from Washington.

Rev. T. N. Merricot, of the Church of Epiphany, Chicago, has been consecrated Bishop of Iowa.

General Gomez is having a warm reception in Cuba, and the warmth is increasing as he nears Havana.

Ex-Mayor Beatty of Toronto the other day suffered a stroke of paralysis and has not been able since to talk.

Dr. Montisambert has been appointed in an advisory capacity to the Government as director of public health in Canada.

The building known as the Green Block, Port Rowan, owned by Mrs. S. P. Mabee, was totally destroyed by fire on Wednesday night.

Joseph H. Choate, the new ambassador to the court of St. James, sailed on Wednesday from New York on the American liner St. Paul for London.

Rudyard Kipling is ill in New York of inflammation of the right lung, but the doctors are hopeful that he will pull through all right, as he has a good constitution.

Samuel Darry was arrested at Cornwall on Wednesday by an officer of the Dominion police, on the charge of having stolen a mail bag at Campbellville, Halton County. He was taken to Milton for trial.

Dr. Saunders of the Central Experimental Farm at Ottawa has received letters from St. Petersburg, Russia; Brisbane, Australia, and several German cities, for samples of seed grain of Canadian varieties.

W. W. Moore, a young man taking a science course at Queen's University, Kingston, was notified on Wednesday that by the death of an aunt in Kamloops, B.C., he has fallen heir to one-third of $750,000.

The inquiry into the beef controversy in Washington is proceeding. The evidence goes to show that the canned roast beef served to the army was unsatisfactory, but refrigerated beef was all right. Gen. Eagan is expected to testify.

The Crescent Athletic Club on Wednesday completed its program of 40 rounds of boxing for the Auditorium in Toronto on Saturday night: Jack Smith vs. Jack Daly five rounds, Joe Youngs vs. Andy Ward 15 rounds and Ed. Lenny vs. Luke Burke 20 rounds.

A very large meeting of the Grand Council of the Royal Templars of Temperance at Stratford on Wednesday voted to approach the Ontario Government, and, in view of the recent plebiscite vote in this province, ask that every barroom in Ontario be closed.

Frank S. Taggart of Vancouver, B.C., formerly a jeweler in Toronto, who was the proprietor of the defunct Mining Critic, has entered suit against The British Columbia Mining Record of Victoria, and against the editor, H. Mortimer Lamb, for libel. The writ asks for $10,000 damages.

Prohibition in the U. S. Navy.

Washington, Feb. 23.—The following order, signed by Secretary of the Navy John D. Long, has been sent to the commanders of all navy yards and war vessels:

"After mature deliberation the department has decided that it is for the best interests of the service that the sale or issue to enlisted men of malt or other alcoholic liquors on board ships of the navy, or within the limits of naval stations, be prohibited. Therefore, after the receipt of this order, commanding officers and commandants are forbidden to allow any malt or alcoholic liquor to be sold or issued to enlisted men on board ships or within the limits of navy yards, naval stations and marine barracks, except in the medical corps department."

Lord Beresford's China Predictions.

Washington, Feb. 23.—Lord Charles Beresford, in an interview yesterday afternoon, predicted that China would be bankrupt in four years, and said that what England had done for Egypt the four nations controlling China trade could do for China.

"Save for its strategic advantages," he added, "Egypt has not been worth a shilling to England. She sacrificed lives and money to make Egypt safe and secure, and she put the Egyptian army and police in order."

Cross-Petition in North Hastings.

Toronto, Feb. 23.—A cross-petition was filed yesterday at Osgoode Hall in the North Hastings election. The Conservative candidate, W. J. Allen, M.P.P., is petitioner, and Byron O. Lost, the defeated candidate, is respondent.

The charges allege corruption.

Backed by $200,000,000.

New York, Feb. 23.—John D. Rockefeller, jr., started in business life yesterday. He was elected a director of the Delaware, Lackawanna & Western Railroad. At 23 years of age he thus starts upon his active career with practical training and backed by $200,000,000.

Well Made and Makes Well

Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It entirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1; six for $5.

Hood's Pills cure all Liver Ills and Sick Headache. 25c.

1st Regt'd WALTER'S TRUE BRAND CUTLERY
IS MADE OF WARRANTED BEST STEEL.
LEADING DEALERS SELL IT.

Daily Examiner.

THURSDAY, FEBRUARY 23, 1899.

A CREDITABLE FAILURE.

The Conservative leaders and organs will find, says the Toronto Star,(Independent), little party capital to be made out of sneers at the Government's failure to secure a treaty with the United States.

The Government could have secured a treaty had Sir Wilfrid and his colleagues been prepared to sacrifice Canada's rights. But they are not so stupid as to pay that price. They have certainly been at greater pains to impress upon the United States the advantage of a fair treaty and the settlement of all disputes, and the negotiations have not been for political effect, but have been extensive, thorough and business-like.

The more the Conservatives jeer at the failure the more do they advertise the sincerity of the Government in the negotiations, and advertise its patriotism in upholding Canada's rights even against strong pressure from Britain. The great majority of the people, irrespective of party, will applaud the Government's earnestness, and acquit it of blame for the "failure."

EDITORIAL NOTES.

West Huron is the thirty-third bye election since the general elections of 1896. Of these the Liberals have won thirty.

Mr. Sifton's vigorous immigration policy says the Brandon Times, shows itself in the records of homesteads taken up. In 1896, 1,857; in 1897, 2,398; In 1898, 5,000.

Mr. Foster failed in New Brunswick, Sir Charles Tupper failed in West Huron. We now want a bye-election in Winnipeg, which, owing to the death of Mr. Jameson, we may shortly have, to show what Hugh John Macdonald can accomplish in the way of leadership.

According to a return compiled by Mr. Willis Chipman,C.E., there are in Ontario seventy-five systems of waterworks. Of these fifty were built by municipalities, nine were built by private companies and subsequently acquired by corporations, and ten systems built by private companies are under negotiation for purchase by municipalities.

The tragic death of Mr. Jameson of Winnipeg creates another vacancy in the House of Commons, and at the same time removes a valuable member of that body. The deceased was born of English parentage, at the Cape, and received a high class education in England, passing as a Bachelor of Arts at Cambridge University. For nearly twenty years he has occupied a prominent position in Manitoban affairs.

The Toronto Star (Independent) commends Hon. J. M. Gibson's vigourous speech in denunciation of the evils of the bonus system, and it calls upon both parties to unite in providing a remedy. The idea is spreading that on great public questions, where there enters little or no reason for divergence of opinion on party lines, there should be unanimity of action. It is time that legislators came to the point by fighting more uncertain great questions, for the benefit of the country than for the advancement of party.

The Mail and Empire is trying to explain away the Conservative defeat in West Huron, but it can't talk Mr. Holmes out of his seat. According to the organ the success of the Liberal candidate is "an inglorious victory"—in fact it is almost a "moral victory" for the Conservatives. It bases its contention upon the decrease of majority compared with that obtained by the Liberal candidate at the last election. The large majority on that occasion was accounted for largely by the great popularity of the Liberal candidate, Mr. M. C. Cameron. The explanation is simple. If the Mail and Empire can get any comfort for itself or party out of the situation it should make as much as possible of it.

NORWOOD.

From Our Own Correspondent.

Miss Anderson, of Warsaw, has been spending the last few days visiting at the residence of Mr. W. E. Roxburgh. She returns to her home on Wednesday.

J. G. Keefer, of the Norwood Register, was in Fleshertan this week attending the funeral of his father.

The Norwood junior hockey team played a friendly game with Marmora hockey team on the Marmora ice and were defeated by a score of 6 to 5.

Rev. A. W. Craw, of Warkworth, will preach the anniversary sermon in the Presbyterian church here on Sunday next.

The Christian Endeavour Society of the Presbyterian church will hold a social in the basement of the church on Friday evening.

Wm. S. Hall, D, D. S., was in Peterborough this week on business.

Miss M. Campbell, of Dundalk, formerly language teacher in the High School here, is in town visiting at the residence of Mr. J. B. Pearce.

The Hustlers of Havelock visited Norwood Monday night and played the Shamrocks a game of hockay for the championship of East Peterborough. The game was a fast one, the Hustlers being defeated by 2 goals to 0. Mr. B. Hendren refereed in a very satisfactory manner. The only off-side during the game was when Havelock scored. The teams lined up as follows:

Shamrocks.		*Hustlers.*
E Rountree	goal	D Wilson
G Sherry	point	F Lancaster
B McGregor	cover point	V J Boyce
J Thompson	forwards	A Carey
J Chandler		C Williams
T G Spike		W Hart
W A Eaton		

A fowl supper was afterwards enjoyed by the players at McKelvie' resturant.

Mr. R. J. Stuart, organizer for the Canadian Order of Foresters, returned from the Eastern Provinces on Saturday.

The management of the Norwood skating rink has engaged Mr. J. H. McCullough, the champion skater of the world, to give an exhibition of fast and fancy skating in the rink here on Monday evening, the 27th inst.

Skips McGregor and McKelvie have been chosen to represent the Norwood Curling Club at the Campbellford bonspiel, to be held there next week.

On Friday last two rinks of the Norwood curlers journeyed to Keene and were beaten by one shot.

Norwood hockey team play Campbellford in that town on Thursday evening, weather permitting.

Mrs. M. L. Gale is making a prolonged visit at the home of Mr. George J. Sherry.

Mr. and Mrs. W. A. Eaton visited friends in Keene on Friday last.

Miss Roxburgh was the guest of Miss Fowlds of Hastings last week.

Mr. Jas. Cunning was at Stony Lake last week, superintending the erection of an ice house in connection with his summer cottage.

Mr. and Mrs. Moffatt visited friends in Keene on Friday last.

Eight rinks are tied for first place in the single rink competition, in Norwood Curling Club.

D. Phillips of Havelock, was in town on Thursday and Friday.

Geo. J. Sherry was in Peterborough on Monday last, on business.

Mr. W. Clancy returned home on Monday, after making a stay with friends in Peterborough for the past couple of weeks.

MR. JOS. NICHOLSON.

Cured of Rheumatism by Dodd's Kidney Pills.

His Doctor Said he Would Always be a Cripple—Friends Persuaded Him to Try Dodd's Kidney Pills—Now he is Strong and Well.

Montreal, Feb. 23.—The linemen in the employ of the Bell Telephone Co. are obliged to endure the hardships of the cold, wet and changeable weather, in the pursuit of their occupation.

It is not to be wondered at that, therefore, that these men suffer greatly from Rheumatism.

But there is pleasure in the knowledge that their sufferings are not nearly so great now, as they formerly were, and that every day they are becoming less and less.

This result is due to the use of Dodd's Kidney Pills by the men. Many of them have discovered that Rheumatism cannot exist in the system that is strengthened by this popular remedy.

The experience of Mr. Joseph Nicholson is typical and is the following statement he voices the sentiments of a majority of his fellow employees.

Mr. Nicholson says:—"I suffered with Rheumatism for more than six years. At times I was laid up in bed—couldn't touch my foot to the floor, unless I had help. My doctor told me I would always be a cripple. "One day a fellow-workman advised me to use Dodd's Kidney Pills. I disregarded his advice, till some time later on Mr. R., of St. Dennis St., told me Dodd's Kidney Pills would cure me, and that he would pay for all I used if they didn't cure me. I bought a box, began to use them, and in a few days felt their good effect. Three boxes cured me. I now walk without my cane, which I'll send to you if you wish. I am strong and well, and never have a pain or an ache, thanks to Dodd's Kidney Pills."

What Dodd's Kidney Pills did for Mr. Nicholson they will do for you.

He Was a Canadian.

Seattle, Wash., Feb. 23.—J. R. Thompson, chaplain of the First Washington volunteers, whose death at Manila is reported, was of Scottish parentage and was born in England about 70 years ago. He was educated for the ministry at Queen's College, Kingston. He was ordained at Halfax. N.S., in 1858.

Agoncillo Leaves Canada.

Halifax, N.S., Feb. 23.—Among the names on the list of passengers leaving on the Labrador yesterday morning for Liverpool was that of F. Agoncillo.

The Gaspesia Still Fast.

Quebec, Feb. 23.—From Etang du Nord, Magdalene Islands, Feb. 21, 3 p.m.: "Steamer Gaspesia still fast in the ice; same position as yesterday."

Grand Trunk Engineer Swears by Dr. Chase's Kidney-Liver Pills.

Mr. Geo. Cummings, for over twenty years engineer on Grand Trunk running between Toronto and Allandale, says:—"The constant duty with my work gave me excessive pains in my back, rushing my kidneys. I tried several remedies until I was recommend by my fireman, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me, so I feel to-day a better man than ever. I recommend them to all my friends.

Is the baby too thin?

Does he increase too slowly in weight?

Are you in constant fear he will be ill?

Then give him more flesh. Give him more power to resist disease. He certainly needs a fat-forming food.

Scott's Emulsion is just that food. It will make the baby plump; increase the weight; bring color to the cheeks, and prosperity to the whole body. Thin children take to it as naturally as they do to their milk.

50c. and $1.00, all druggists.

Red Hot From The Gun.

Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth, 25 cents a box. Cure guaranteed. Sold by all Druggists.

POLITICAL QUIPS.

The citizen who can explain the exact significance of the election now has the floor.—Memphis Commercial-Appeal.

By an ingenious arrangement a clock in Brussels winds itself up by wind. There are many statesmen in this country who are fashioned after that clock.—Chicago News.

No one is treated with more charity than the political prophet. If he hits it, his friends regard him as a sage; if he misses, no one thinks any more about it.—Baltimore Herald.

About Catarrh.

"I was weak and hardly able to walk. My blood was thin and I was as pale as death. Being told about Hood's Sarsaparilla I began taking it and in a few months I had gained twenty pounds in weight. I kept on with it until I was as well as ever" Arthur Mills, Dresden, Ontario.

Hood's Pills cure nausea, headache.

TUPPER TALKS.

Sir Charles, in Toronto, States the Policy of the Conservative Party—He Wants Canada to Retaliate.

Toronto, Feb. 23.—At a crowded smoking concert held by the Conservatives of the Third Ward in the Pavilion last night Sir Charles Tupper, Mr. N. Clarke Wallace, M.P., and Mr. J. P. Whitney, M.P.P., discussed the Washington negotiations and indicated the policy that the Conservative party will pursue. Sir Charles spoke for over an hour with astonishing vigor. He took the position that the British commissioner should have broken off all negotiations as soon as the Americans announced their position on the Alaskan boundary, which he characterized as a monstrous insult. In the same spirit that Lord Rosebery came to the support of Lord Salisbury during the friction with France, Sir Charles advised the Government to pursue a policy of retaliation toward the United States and promised to support the Government in such a policy. Mr. N. Clarke Wallace, whose appearance on the same platform as Sir Charles Tupper was in the nature of a surprise, endorsed what Sir Charles had said about the return of the commissioners to Canada, and blamed them for tying the hands of Parliament during the coming session by adjourning the conference. The Pavilion was well filled with hard-smoking men. Dr. Beatty Nesbitt, president of the association, presided, and on the platform were Sir Charles Tupper, Messrs. N. Clarke Wallace, M.P., E. B. Osler, M.P., E. F. Clarke, M.P., T. Dixon Craig, M.P., J. P. Whitney, M.P.P., and many members of the Provincial Opposition.

What is It?

Catarrhosine is a liquid, fragrant and cleansing, which rapidly volatilises when inhaled. What is it for? It is an absolute, never-failing cure for catarrh of the throat or nasal passages. Is this true? We are so sure that it will cure you that we will send you, prepaid, a free sample of Catarrhosine and an inhaler if you send your address within one week. Write us.

N. C. Polson & Co., Kingston, Ont.

POPULAR SCIENCE.

Professor Proctor asserts that 100,000,000 people lived and died in America before Columbus' discovery.

Experiments now show that during profound sleep a noise not sufficient to awaken the sleeper produces a perceptible rise in the temperature of the brain.

It has been calculated that ordinary gunpowder on exploding expands about 9,000 times or fills a space this much larger as a gas than when in a solid form.

Bright red spectacles accompanied by internal doses of calomel form a new German specific against seasickness. It is deduced from Epstein's investigations on the influence of color on the blood vessels in the brain. Seasickness is due to lack of blood in the brain, while red sends blood to the brain with a rush. By looking at one point for some time through the red glasses the patient is cured radically.

MRS. JOS. WOODWORTH, OHIO, N.S.,

Troubled with Sick Headaches, for over a year—Laxa-Liver Pills have cured her.

Those terrible sick headaches.

How they take out every bit of life and ambition.

Bring on depression—and often end in complete mental and physical prostration.

But how to get rid of them? that's the question.

Here's the way.

Take a Laxa-Liver Pill at night before retiring.

'Twill work while you sleep without gripe or pain.

Make you feel better in the morning. Head will be clear, and that heavy feeling about the eyes will be gone.

Mrs. Joseph Woodworth, Ohio, N.S., endorses what we say:

This is her statement:

"I have been troubled with sick headache for over a year. Lately I commenced to take Laxa-Liver Pills and find they do me more good than any other medicine. They are an excellent pill, causing no pain or griping and leaving no bad after-effects."

Every Laxa-Liver Pill is guaranteed perfect and to act without any griping, weakening or sickening effects, or your money back. Price 25c., all druggists. T. Milburn & Co., Toronto, Ont.

VALUABLE Residential Properties FOR SALE In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Stanley. Containing ten rooms. House in good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containing seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 108 feet square.

Parcel No. 4. Brick residence, corner Wellesley and Benson streets. Two storeys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 108 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases.

Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

A NEW INVENTION!

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier o the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practicing; they like it if they have a NEWCOMBE PIANO. 1898 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Uprights and Square Pianos of the various makes taken in part exchange for the famous NEWCOMBE PIANOS. Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

THE ODORLESS CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,
James Conway.

Sheddon, February 28th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long felt want and I believe it will become very popular especially in rural districts, towns and villages where wells are so frequently contaminated by the ordinary closets. I am, yours, etc.
W. H. Morrison

Medical Superintendent's Office, Sept. 20th, 1897
Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 20 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once, before it has a chance to vitiate the surrounding atmosphere.
Yours truly, James Rushbelli, M.D.

Elmbrook, Sept. 20th, 1897.

Dear Sirs—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country homes. Yours truly,
M. J. Mullock,

ADAM HALL.

WANTS

More wants are supplied, and supplied more quickly by means of The Examiner want columns than in all other ways combined. The Examiner is the popular paper read by all. It is the recognized medium for the supply of wants.

It Hangs On

If it was only health, we might let it cling.

But it is a cough. One cold no sooner passes off before another comes. But it's the same old cough all the time.

And it's the same old story, too. There is first the cold, then the cough, then pneumonia or consumption with the long sickness, and life trembling in the balance.

Ayer's Cherry Pectoral

loosens the grasp of your cough. The congestion of the throat and lungs is removed; all inflammation is subdued; the parts are put perfectly at rest and the cough drops away. It has no diseased tissues on which to hang.

Dr. Ayer's Cherry Pectoral Plaster

draws out inflammation of the lungs.

Advice Free.

Remember we have a Medical Department. If you have any complaint whatever and desire the best medical advice you can possibly obtain, write the doctor freely. You will receive a prompt reply without charge.

Address, DR. J. C. AYER, Lowell, Mass.

COUNTESS WEBENAU ON TRIAL.

Evidence for the Crown in Support of Conspiracy to Defraud.

Berlin, Ont., Feb. 23.—Countess von Webenau and her nephew appeared before Judge Chisholm yesterday, charged with having conspired to defraud the Merchants' Fire Insurance Company of Toronto. Detective John Murray and Mr. R. Coatsworth of Toronto were present. Mr. E. P. Clement stated the case for the Crown, which related to the mysterious fire of the Webenaus' house on the evening of Jan. 31, when it transpired that none of the occupants were at home on the evening in question. The household effects were insured for $3,000. It was discovered that a quantity of household goods belonging to the said Von Webenau had been carted to Waterloo Station prior to shipment to Buffalo.

Evidence was given testifying to the nearness of Berlin Station, in comparison to Waterloo Station, and directions by the nephew as to the destination.

The Crown called about 20 witnesses and finished at 6.30 p.m. The evidence showed that goods supposed to have been burnt were in the cases found at Waterloo Station by Detective Klippert. The court then adjourned till 9 o'clock this morning, when the defence will begin.

When Beauty Fades.

In response to repeated inquiries from ladies with whom Dr. Chase's Ointment has become so popular for skin diseases, asking if face powders are injurious and can be used while using the ointment, we state that while the majority of face powders are injurious we can recommend the recipes given in Dr. Chase's supplementary recipe book page 45, which will be sent on receipt of 5 cts. in stamps. Dr. Chase's Ointment is the ladies' friend for all skin diseases. Address Dr. A. W. Chase Co., Toronto.

Three Years for Stealing Letters.

London, Ont., Feb. 23.—At the Police Court yesterday morning William J. McHarg, the postoffice clerk who pleaded guilty a week ago to stealing letters containing $15 and $3 and a parcel containing a pair of gloves, was arraigned before Magistrate Parkes and sentenced to three years on each charge in Kingston Penitentiary, the terms to run concurrently.

Will Participate at Glasgow.

Washington, Feb. 23.—Secretary Hay has suggested to Congress the appropriateness of participation by the United States in the Glasgow International Exposition in 1901.

Something for Nothing.

A trial bottle of Catarrhozone and inhaler, prepaid, sent free to anyone who sends his address within one week. Catarrhozone is a sure cure for catarrh, bronchitis, irritable throat, fetid breath, and kindred diseases. How can we offer to do this? Because we know a trial of this pleasant and efficacious remedy never fails. Washes, snuffs and ointments have proved unavailing, but catarrhozone will cure you. Write N. C. Polson & Co., Kingston, Ont.

Before. After.

One will please, six will cure. Pamphlets free to any address. The Wood Company, Windsor, Ont.

Wood's Phosphodine is sold in Peterborough by John Nugent, druggist

THE LEGISLATURE

Many Private Bills Occupy the Attention of Members.

THE COUNTY COUNCILS ACT.

Its Merits Were Discussed by the Attorney-General and the Leader of the Opposition — Proposal to Give Municipalities Power to Change Mode of Assessment—The Leaders Agree.

Toronto, Feb. 23.—Several public bills of more or less general interest were given second readings and referred to committees yesterday. Mr. Smith's bill to amend the County Councils Act by abolishing the double vote afforded an opportunity for the Opposition to attack the present system, but the Attorney-General in a vigorous and effective speech, while admitting the act was not perfect, defended it as one of the most satisfactory changes that had been made in the municipal system for many years.

Second Readings.

Mr. John Smith (Peel) moved the second reading of his bill to amend the County Councils Act. The chief provision is that no voter shall give more than one vote for each candidate. After a discussion, in which the Attorney-General defended the present County Councils Act and Mr. Whitney attacked it, the second reading was carried and the bill sent to committee.

The Attorney-General said, with reference to the bill of the member for West Toronto to prevent the overcrowding of street cars, that he must consider it a private bill. Mr. Crawford consequently withdrew the bill, and it goes to the private bills committee.

Mr. C. A. Brower (East Elgin) moved the second reading of two educational bills respecting the status of teachers, but after explanations from the Minister of Education, which Mr. Brower considered satisfactory, both measures were withdrawn.

The Leaders Agree.

Mr. W. M. German (Welland) moved the second reading of his bill to amend the Assessment Act, the chief provision of which is that the council of any municipality may pass a bylaw or bylaws whereby in the case of merchants engaged in retail trade, the assessment, instead of being on the personal property of such merchants belonging to their businesses, shall be a business tax based upon the sale or turnover in the business done during the preceding year. Mr. Whitney, whilst agreeing that there should be a uniform system of assessment, objected to it going forth, in consenting to the second reading of the bill, that the House had endorsed the principle of Mr. German's bill. The Attorney-General concurred in the remarks of the leader of the Opposition, and said that as the bill was of special interest to business men, they should have an opportunity to be heard. The bill was read a second time and sent to committee.

Orders and Questions.

Mr. Hoyle (North Ontario) moved for an order of the House as to the business of the County Court of the County of Ontario for the past five years, money collected, number of Division Court cases in the same period and other particulars of these respective courts. After explanations by the Attorney-General, Mr. Hoyle withdrew his motion.

In reply to Dr. Barr, Hon. Mr. Davis said that the Government did not sell the binder twine, but the company having the contract must supply a quantity sufficient to meet the demands of the farmers' requirements on their own farms at a price not in excess of a rate agreed upon between the Government and the contractor.

Bills Introduced.

Mr. Carnegie has introduced a bill for an act respecting County Councils. It provides for the abolition of the present County Councils and the substitution of councils composed of the reeves of towns, townships and villages.

Mr. Russell has introduced a bill for "an act respecting civil engineers." The principal provision is that on and after the 1st of July next no person shall be entitled within the Province of Ontario to the title "Civil Engineer" unless he is a corporate member of the society, or unless he is entitled by some statute to use the title "Civil Engineer," or unless he has been practising as a civil engineer for one year, or is a member of the Association of Ontario Land Surveyors, and shall within one year afterwards have applied for and received a certificate to the effect that he is qualified to become a corporate member of the society, and send with the application a fee of $10 to the secretary

Deputations Heard.

A number of fishermen, mostly from the Counties of Elgin and Kent, and composing a deputation from the North Shore Fishermen's Association, waited upon Hon. Mr. Hardy yesterday and asked that the open season be from April 1 to Nov. 20 for all commercial fish They desire also that black bass be transferred from the commercial class to the sporting class, to be caught only with hook and line.

The Government was waited upon yesterday by a deputation soliciting a grant of $5,000 toward a $200,000 interprovincial steel bridge across the Ottawa River at Portage du Fort in the County of Renfrew. The Government announced its willingness to make the grant providing that Quebec gives $5,000 and the Ottawa Government $10,000.

Insane and Idiot Asylums.

The annual report of the Asylums for the Insane and Idiots presented to the Legislature yesterday shows the insane population to be 5,758, over 700 in advance of any other year. Dr. Clarke of Kingston, in his report, deprecates the impression that insanity is on the increase in the country, although the number of patients at the asylums is increasing. The average of patients cured in the last eight years is 32.06 per cent.

Life insurance is a good thing but health insurance, by keeping the blood pure with Hood's Sarsaparilla, is still better.

THE DEATH OF MR. JAMESON.

Further Particulars Concerning the Sad Fate of Winnipeg's Member.

Winnipeg, Feb. 23.—The sole topic on the streets is the tragedy of Tuesday evening, which resulted in the death of R. W. Jameson, M.P., and on every hand expressions of sympathy and regret are heard at the lamentable affair.

Mrs. Jameson stated last evening that Mr. Jameson's financial and real estate interests took up so much of his time that he had several times discussed retiring from public life to give them his full attention. His large connections in England made him the representative of a large amount of English capital, invested in Winnipeg and Manitoba property. He was a man of highly nervous temperament and the handling and investment of these large amounts of money for his clients was to him a cause of constant care and anxiety.

Mr. Jameson carried insurance to the extent of about $20,000. He had $5,000 in the Equitable Life and $10,000 in the Canada Life, the policies in both of these companies being taken out in 1882. The remaining part is carried by several other companies, being principally English stock companies.

His mother, Lady Jameson, who is living with her son Col. Hoare (Mr. Jameson's half-brother) at Lemore House, Hardley, Hereford, Eng., and who is 86 years of age, recently wrote to Mr. Jameson to take care of his health.

Canada's Purchases From the States.

Washington, Feb. 23.—Five months operation of the new Canadian tariff have not reduced American sales to the Dominion. Indeed, the exports from the United States to Canada have been during that time nearly 20 per cent. greater than in the corresponding months of the preceding year, while those from the United Kingdom and her colonies have increased less than 10 per cent. during that time, despite the advantages given to them by the new law. In spite of the discrimination under the preferential clause of the tariff, exports from the United States to Canada for the last five months of 1898 were $41,456,780, as compared with $35,578,647 in the same period of 1897, and $26,268,377 in the last five months of 1895.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets All druggists refund the money if it fails to cure. 25c.

Canadian Lumber for England.

Toronto, Feb. 23.—In an interview yesterday, C. E. Newton, the big lumber man of Midland, who has just arrived from England, said, "I have been watching the sales of Canadian lumber in England, and the sales and enquiries for Canadian pine, oak and butternut were phenomenal. I found Canadian pine bringing at least 15 per cent. higher prices than either Norway or Swedish pine, England's great source hitherto. The Scandinavian lumber is too narrow and is rapidly going out. In a number of cases the contract for English houses expressly specified Canadian pine. A condition necessary to place Canada in the lead as a lumber exporter to Europe would be to charter a vessel, a syndicated affair, and get the lumber over that way. I believe this is the way to solve the problem of cheap transportation, and it should be done right away."

Said He Was Tired of Life.

Manilla, Ont., Feb. 23.—William B. Mosbier, about 18 years of age, who resides with his father, Mr. Levi Mosbier, a wealthy farmer, living about a mile from this village, committed suicide last evening. About the middle of the afternoon he put Paris green into a cup of water and drank it. He then started for his brother's, about a mile distant, but when about half way went into L. Kealer's barn. Early in the evening Kealer heard a noise in the barn and going out found Mosbier staggering around. He at once took him to his brother's and a doctor was summoned, but could do nothing. Mosbier said he was tired of life, and showed no regret for his rash act.

BRANCHES: 264 QUEEN WEST, TORONTO. THE ARCADE, ST. LAWRENCE MARKET.

TAYLOURS AND SMYTHS.

They Were the Commonest Trades In the Thirteenth Century.

The manufacture of leather in the thirteenth century seems to have been important, showing that leather jerkins and breeches were commonly worn. We have 19 skynners, 40 barkars, 6 saddelers, 8 cordeweners, 167 souters, (shoemakers) and 8 glovers. The surname feuster is a trade name denoting a maker of pack saddles.

The commonest trades are taylour and smyth, since one lived in almost every village. The taylours number 407, of whom 140 are called by the Latin name of cissor. In addition to 261 smyths, several are specialized. There are two arusmyths, three lokesmyths, three goldsmyths, five fferours (shoeing smiths) and six marshalls (farriers).

The wryght wrought both in wood and metal. The number catalogued is 186, of whom 81 are called by the Latin name faber (French favre), one of the few cases in which the Latin translation of a trade name has become a common surname. The wryghts' trade, like that of the smyths, was specialized. The arkwryght made the great arks or chests in which the clothes or meal were stored, and we find a plowwryght, a wheelwryght, two shippewryghts, 11 cartwryghts and two glasswryghts (glaziers), who were probably concerned with the windows of churches. Glass windows in houses were rare, as is still the case in Sicily or Egypt.

The bakesters are few (15), suggesting that families baked their own bread. There are 26 butchers (fleshewer, bocher or carnifex), whence Labouchere, while the surname potter shows that this trade was in existence. The fysshers (43), were opulent, being taxed 12 times as much as laborers.—Notes and Queries.

The Tuna.

My introduction to this prince of the Pacific was on this wise: My brother and I were trolling for yellowtail off the island of Santa Catalina. Suddenly out of the summer sea a flying fish—the humming bird of ocean—flashed athwart our bows and then, not a dozen yards distant, the waters parted and a huge tuna, in its resplendent livery of blue and silver, swooped with indescribable strength and rapidity upon its quarry, catching it, mirabile dictu, in midair. In a fraction of a second the deed was done. The ocean, recording the splash of the leviathan, rippled applause, and our questions pattered like hail upon the somewhat hard understanding of our boatman, a son of Alsace.

"Yes," he said, his white teeth in curious contrast to a lean, bronzed face —"yes, messieurs, that is a tuna, a 200 pounder, at least!"—Pall Mall Gazette.

Buy direct from Grafton & Co., the Clothing Manufacturers.

Close at 8.30.

Beginning on Monday evening next, February 27th, the Peterborough Bookstore will close at 8.30 every evening, except Saturday. Customers for the evening papers, postage stamps, stationery, etc., will please bear this in mind and prevent disappointment.—A. H. STRATTON & Co.

A Golden Wedding.

Mr. and Mrs. John Harcourt, of Port Hope, celebrated the fiftieth anniversary of their wedding yesterday. One of the most interesting incidents in connection with the occasion was the presence of Mr. Chas. Gilchrist, who acted as violinist at the wedding celebration fifty years ago, and made the old violin ring again yesterday.

Mr. Crossley's Work.

Mr. H. T. Crossley, the well-known evangelist, is conducting services in St. John's, Nfld, and reports that he is meeting with the greatest success. The Gower street Methodist church, in which the services are being held, cannot accommodate the crowds who wish to attend. From 50 to 100 converts are received into the fold, and the whole city is stirred by the enthusiasm of the great religious revival.

Silver Plating.

Silver plating neatly, promptly and cheaply done by the Peterborough Lock Manufacturing Company. Ladies' look over your silverware and when you have forks, knives, spoons or any pieces of silverware tarnished or plate worn off, bring it to us and have it nicely done over and made as good as new.—The Peterborough Lock Company.

Our new style Spring Top Coats are attracting the attention they deserve—Those for men $7.95 to $13.00 including the most desirable styles in Coverts and Whipcords. GRAFTON & CO., the well known Clothing Manufacturer.

CENTRAL EXHIBITION.

Meeting of the Directors on Wednesday Afternoon.

The first meeting of the Board of Directors of the Central Exhibitions since the annual meeting, was held at the council chamber yesterday. Mr. G. W. Fitzgerald, president, occupied the chair, and there were present besides: Messrs. Bennett, Elliott, Hunter, Stothart and Davidson.

Messrs. Fitzgerald, Bennett and Elliott were appointed a Finance Committee.

On motion of Mr. Hunter, seconded by Mr. Bennett, it was decided to withhold from prize moneys won by an exhibitor, over $10 and less than $20, five per cent., and on sums over $20, ten per cent., after deducting the usual one dollar, representing membership fee.

The date for the annual spring show was set for April 29th, and a committee consisting of the president, and Messrs. Stothart, Elliott, Hunter, Kennedy and Davidson was appointed to arrange details.

The date of the annual Central Exhibition was fixed for Monday, Tuesday and Wednesday, Sept. 18th, 19th and 20th.

THE BATTALION BAND.

The Annual Meeting — Election of Officers—Other Matters of Interest.

On Tuesday evening the Fifty-seventh Battalion Band held its annual meeting and elected the following officers:

President—Jos. Crowe.
Vice-President—F. C. Miller.
Secretary—J. A. Harper.
Treasurer—R. Beach.
Executive Committee—Geo. Grange, Chairman, and Messrs. R. Brown and W. G. Green.

The decision has been arrived at to place, if possible, the band under the care of a manager outside the organization. This is in accordance with the practice followed by large musical organizations of a similar character in the cities.

Within the past three or four months ten instruments have been added to the band, and in this way and in repairs to the hall about $600 have been expended, and the band is now in a first-rate condition of equipment and efficiency. There are, however, two other instruments needed to complete the perfect equipment of the band, and measures are being taken to procure them.

We may expect the splendid organization represented by the band to give an excellent account of itself the coming season. The members are earnest and painstaking, and under the present excellent leadership will, it is quite safe to predict, make rapid improvement and do effective musical work.

PERSONAL.

Mr. and Mrs. W. C. Tully are visiting Omemee friends.

Mr. Charles McGuire, jr., of Barrie, is at the Oriental visiting Mr. Chris. Graham.

Miss Mabel Metherall, who has been in the Nicholls Hospital for the last few days, is convalescing.

Mr. Will McGibbon, of Port Hope, was in town yesterday, being called here by the death of his sister, Mrs. Geo. Coburn.

Miss E. Braden, representative for the Canadian Viavi Co., has returned to town and is making her home with Mrs. M. A. Turner, 143 London street.

The Port Hope Guide says:—"Mr. and Mrs. H. A. Walker, Peterborough, left here for Winnipeg yesterday morning. Mrs. Walker is a daughter of Mr. and Mrs. F. Sainsbury, 43 Ridout street. Mr. Walker has secured a good position with the Brantford Bicycle Co. in that city. We wish him every success.

BAPTIST MISSION WORK OUT IN MANITOBA.

REV. A. J. VINING'S ADDRESS ON THE SUBJECT.

A Congress of Baptists to be held in Winnipeg next September to Discuss the Situation.

There was a fairly good attendance at the meeting in the Murray street Baptist church last evening, when Rev. A. J. Vining, of Winnipeg, Manitoba, superintendent of Missions, gave an address on behalf of the mission work of the Baptists in Manitoba, British Columbia and the Northwest Territories.

After the usual devotional exercises conducted by the pastor, assisted by Rev. W. A. Gunton of the Gilmour Memorial Church, Mr. Bastow in a few well chosen words, introduced the speaker of the evening.

Mr. Vining spoke of the pleasant memories he carried of his visit to Peterborough about a year ago, and of the many kindnesses shown him. He then took Nehemiah ii, 17, 18, and pointed out the similarity of the situation then and that now existing in the northwestern portion of Canada. He described, in a most graphic manner, the circumstances which led Nehemiah to inquire into the condition of the Jews at Jerusalem. He believed that there were two reasons why Nehemiah was interested in the Jews. First, they were his own people and he loved them, and in the second place they lived in his own country. If missions in the Northwest were to be what they ought to be, the Baptists of Ontario would have to get

MORE DEEPLY INTERESTED

in their own people and in their own land. Many spent more money on a hat than they gave to missions in a year. The interest should be one of continuity rather than of spasmodic nature. Only those who were really interested would pray, and no one could pray without giving of their means. He believed if they could see the country and the people, they would easily be interested, and he was glad that an opportunity would be given this year for so doing. A congress of Baptists from the north, south, east and west was to be held during the month of September in the city of Winnipeg. The C. P. R. Company were going to give a cheap rate, and for one ticket a person would be able to see the larger part of the country. He hoped that a large number would try to go. The work out there was in distress for lack of men and means. What was wanted were young unmarried men who would be willing to give four or five years of their lives to the cause of Christ up yonder, and endure hard work. They wanted the very best men that could be had. Error was rampant and must be met and refuted. Money was needed and if it only were realized how rapidly the population is increasing, the money

WOULD BE FORTHCOMING.

Last year 35,000 new settlers had moved in and this year 50,000 were expected. The change of environment renders these more susceptible to religious influences and the Gospel should go in with them. In one public school in Winnipeg scholars representing seventeen different races were present. These were studying the English language, and he believed that the result would be a new Canadian. It was his conviction that God was going to influence the world through Canada. Again the fact that God is raising up men among the new nationalities, who are capable of doing missionary work, coupled with the fact that the people were intelligent, thrifty, and liberal according to their means, should be an incentive to us to endeavour to reach them with the Gospel. Love for Jesus, love for our fellowmen and love for our country should cause us to pray for and give to missions in the Northwest, and if this were done, in ten years the mission would be self supporting. He closed with an eloquent appeal for increased liberality, so that the new work could be undertaken and the old continued.

A QUIET WEDDING.

Celebrated by Rev. O. C. Elliott This Morning.

This morning at 10 30 o'clock a quiet wedding ceremony was solemnized by Rev. O. C. Elliott, pastor of the Park street Baptist church, at his residence, No. 3, Wescott street. The occasion was the union of Dr. W. S. Hall of Norwood, and Miss Louise Antiet Palmer, daughter of Mrs. A. W. Palmer of New York City. The occasion was a very quiet one, the bride's mother being the only one present, besides the principals.

ENNISMORE WEDDING.

Nuptials of Miss Nellie Leonard and Mr. Bernard Flood.

A very pretty and interesting event took place at St. Martin's church, Feb. 7th, when Miss Nellie, eldest daughter of Mr. Martin Leonard, was united in the holy bonds of matrimony to Mr. Bernard Flood, youngest son of Mr. John Flood, both of Ennismore.

Promptly at ten o'clock the bridal party arrived at the church, where the ceremony was performed by Rev. W. J. McColl, of Ennismore, assisted by Rev. J. O'Brien, of Emily. The bride was attended by her sister Miss May Leonard, while Mr. J. O. Donoghue assisted the groom. Both young ladies were becomingly attired, the bride looking very handsome in a suit of Cuban blue cloth with trimmings of white satin and garniture of pearls, and wearing a hat to match, while the bridesmaid looked charming in a dainty suit of blue gray amazon cloth and picture hat.

After the ceremony the happy couple, with a large number of friends, drove to the residence of the bride's father, where all did ample justice to the abundance of good things which was spread before them.

The bride was the recipient of many beautiful and costly presents, among which we note three beautiful suits for dining room, parlor and bed room, given by the bride's father; also a china tea and dinner set, complete, given by the bride's mother; a handsome silver set, given by the bridesmaid and silver crumb tray and brush by the groomsman; a chandelier given by Mr. and Mrs. J. K. Galvin; picture and easel, Mr. and Mrs. J. C. Sullivan, Peterborough; silk drape, Miss F. Sullivan; a costly cheese dish from Miss Kate C. Sullivan, Peterborough; a very pretty tea set, given by the bride's brother, J. J. Leonard; set linen doylies, Misses Lou and May Sullivan, Peterborough; a linen centre piece, embroidered in carnations, Miss Maud McKenna; a pretty embroidered drape, Mrs. H. Moher; a set of linen fancy drawn work stand covers, Mrs. M. Halpin, Peterborough; a magnificent library lamp, from Mr. and Mrs. G. Crowley, Emily, and other costly presents too numberous to mention.

Everything Up-to-date at MRS. APPLEBY'S FANCY GOODS STORE, 426 Water Street.

It's A Matter of Necessity.

We have just finished Stock-taking, which has taken us longer this year, owing to our very large stock. This we must reduce at once, We have looked up anything and everything that will interest close buyers and intend offering all odd lots and small quantites at prices that will clear them quick.

Wall Paper Chances.

It is not too early to talk of Wall Paper. We must make room for 12 tons of brand new Wall Paper, so if you feel like papering now, here is your chance.

We have some Old Lots of Glimmer and Gilt Paper, with match borders and ceilings in 9 roll lots, 11 roll lots, 13 roll lots, 15 roll lots, ranging in price from 10c., 12c. and 15c., will clear them this week at 8c, 7c. and 6c. per roll.

A Pull-Down in Window Blinds.

We must have room in our Window Shade Department to stock 1500 new Shades. To do this some of our present stock must go. If low price and good quality combined will sell them, we will give you the combination. Come and see the Window Blind we will give you for 49c. and 38c.

Spring is Coming

So are our New Baby Carriages. We will not be bested by the biggest firm in Canada. You have just to see our $8, $9, and $10 Carriages to be convinced that our cash brings us as good value as any other house.

Pictures and Picture Framing

Is fast becoming a leading line with us. See line of $1.25 Pictures, framed with 3 inch heavy frame, going fast at 80c.

Cornice Poles

Are a necessity in every household. We are prepared for you in this line—we have a few small lots to clear. One specially fine line of wood trimmings, cherry finish with 5-foot polished cherry pole, brackets and pins complete, worth 50c. for 33c.

Bargains in Books Continued.

In the place of Books we want the shelf room and therefore will continue to offer you very special inducements to complete your library. We never had and never will have such values to offer in books. Our 50c. Books in fancy bindings are a marvel at 24c.

No store in Canada selling same line as cheap. Our big discounts in quantities for Sunday School and Public Libraries, increase our sales bigger than ever.

We Have the Stock

To lower the value. We intend giving you more for your money. We are out for the biggest spring trade.

CORSETS!

Our CORSET DEPARTMENT is now complete for the spring of 1899. Everything desirable in CORSETS can be secured here, all the best makes both FOREIGN and DOMESTIC at modern Dry Goods prices.

CORSETS FOR THE MASSES
CORSETS FOR THE CLASSES
CORSETS FOR EVERYBOBY.

At 50c. Our aim is to give you the best 50c. Corset in Peterborough, and that we have succeeded wonderfully well will be admitted by everyone who sees our great 50c. corset for this season. It is long waist, extra closely steel filled, made of very heavy Coutille, double-busk, with 5-clasps and equal to any 75c. Corset in Peterborough.

At 75c. We show an unusually large assortment, one line worth special mention is a good weighty French Corset. It is well corded and steel filled, spoon busk, and flexible hip Embroidered with silk, a particularly nice Corset for the price 75 cents.

At 75c. We also show a line of odd numbers in Corset goods that are worth from $1.00 to $1.25, but on account of their being only certain sizes, we are offering them at 75c. each. The sizes are 18 19 25 and 26.

At $1.00 Dollar Corsets are quite a different corset to-day to what they were even one year ago. We are prepared to give you by long odds the best Dollar Corset in Peterborough. We ask you to investigate and if we cant give you the best value in Dollar Corsets, why don't buy them here. Call and see our wonderful showing at $1.00.

High Grade Corsets In the higher grade of Corsets you will find our assortant up-to-date. We particularly call your attention to the Celebrated French Corset, A LaSiren or better known as C. P. Corset which we can confidently recommend to anyone wishing a particularly nice Corset for either fit or finish.

Everything in Corsets.

THE SONS OF ENGLAND

FRATERNAL VISIT OF PETERBOROUGH DEGREE TEAM.

A Pleasant Time Spent by the Members of Westminster Lodge Tuesday Evening—A Number of Initiations and an Oyster Supper.

(Lindsay Post.)

A regular meeting of Westminster Lodge, Sons of England, Lindsay, was held in the rooms in Blaskwell's block Tuesday evening and there was a very large turnout of members. The proceedings were invested with unusual interest owing to the presence of the well-trained degree team of Lansdowne Lodge, Peterborough, composed as follows:—H. L. Beale, President; F. Shepherd, Past Pres.; A. Kingscote, Chaplain; F. Turner, Vice-Pres.; L. L. Lloyd, Inner Guard; J. Simons, 1st Committeeman; H. Dark, 2nd; G. Chambers, 3rd; F. L. Stanton, 4th; H. Starr, 5th; M. Roberts, 6th; J. Hetherington, 7th; J. Williams, pianist.

The Red and White Rose degrees were conferred upon nine candidates, and the beautiful precision of the floor work executed by the visiting team excited the admiration of all present.

After the business of the lodge had been completed the members and their guests adjourned to Bro. Thos. McConnell's hotel, where an appetising oyster and fruit supper awaited them. The dining room had been suitably decorated and presented a very attractive appearance.

When the inner man had been appeased the following toast list was duly honoured, Mayor and Bro. Thos. Walters occupying the chair, and Bro. Stenson, president of Lansdowne Lodge the vice-chair:—"The Queen," by Bro. Walters, responded to by all singing "God Save thy Queen"; "Grand Lodge Officers," responded to by Bro. Boxall, Supreme Grand Lodge Trustee; "The Mayor and Corporation," replied to by Bro. Thos. Walters; "Army and Navy and Volunteers," responded to by Sergt.-Major Martin; "Our Visiting Brethren," by Bros. Shepherd and Stenton; "Westminster Lodge," by Bro Frampton; "Our Host and Hostess," suitably acknowledged by Bro. McConnell. A number of pleasing songs and instrumental selections were contributed by Bros. Shepherd, Kingscote, Walters, McConnell, Williams, Robinson, Sharpe and others. It was after 12 o'clock when the proceedings came to a close, the visitors expressing themselves delighted with their visit to Lindsay lodge.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The Board of Works meets to-night.

—Has the farmer put you off his sleigh yet?

—On account of the water pipes being frozen at the rink there is no ice.

—Our dry goods merchants are being kept busy opening up and marking new spring goods.

—George street choir rehearsal to-night at 8 o'clock in Class Room "A." A full attendance is requested.

—Tons of trout are being caught through the ice in Lake Simcoe, and are being peddled about among the farmers.

—A man who considers himself an authority on grippe wrote to a New York paper saying it was almost invariably due to failure to keep the feet dry. Thereupon a man sent in a communication saying he knew a man who has had the grippe for five years in succession and he has two wooden legs.

REV. C. B. KENRICK IN ST. JOHN'S CHURCH.

THE SECOND OF THE LENTEN ADDRESSES.

He Speaks of the Church From the Time of William the Conqueror Until the Reformation.

The second lecture on, the subject of Epochs in Church History, was delivered in St. John's church last evening by Rev. C. B. Kenrick, of Port Hope. Prior to the address the rector welcomed the speaker back to his old parish, where his work had not been forgotten, and his many friends remained after the sermon to exchange greetings with him.

Mr. Kenrick began by saying that in the religious world if a person desired to say anything derogatory or unkind, he might call a man a mediævalist. Many people used this term without any clear understanding as to what it involved. The speaker's object was to give some information regarding the period referred to. He might take the period as beginning with William the Conqueror and ending with the Reformation. As pointed out last week the Church of England was already well rooted in the land as a fully organized and equipped body. The clergy were in close contact with the people and farmed their own glebes.

In William's reign, again, came the influx of another type of clergy—the Monks and Friers who built

GREAT RELIGIOUS HOUSES,

and from them made missionary expeditions through the land, often interfering with the regular clergy. These Abbey's were great centres of hospitality and relief for the strangers and poor.

There was much devotion in the church which found expression in the foundation of Alms houses, and of the charities, and especially in the erection of the great cathedral and parish churches which had been called "creeds in stone" telling of the lofty religious faith of those who built them. Though the mass of the people could not read, printing being unknown, yet they were trained artistically by sculpture, stained glass windows and other ecclesiastical art. One great feature of this period was the increasing power of the Pope, which was fostered by many political as well as religious influences, but only in the reign of King John was the church entirely humiliated and then the barons had risen in their right and settled in Magna Charta "that the Church of England should be free."

By many historical references the speaker exposed the popular fallacy that the church then was the Roman church. Nevertheless, during this period the corruptions of doctrine were gradually introduced, as examples of which were mentioned the invocation of Saints, the worship of the Virgin Mary and the doctrine

OF TRANS-SUBSTANTIATION,

all of which were afterwards expunged at the Reformation.

Another great feature of the Church in the Middle Ages was this: she was everywhere the champion of the poor and oppressed. She preached the equality of man, and stood up for it, and it was only through the Church that multitudes of poor men were educated and advanced to high positions in the State as well as in the Church. Indeed it was largely through her resistance to the greed and ambitions of sovereigns that the Church had fallen back on the Pope for support.

Finally the speaker referred to the spirit of true worship, which had animated men in the Middle Ages—which was worthy of all imitation. This spirit of worship had gone hand in hand with one of chivalrous conduct, which was also admirable. If the people were ignorant they had made an honest effort to live up to their light, with the result that there was a religious loftiness and beauty and romance of life that was enshrined in the noble architectural, artistic and literary movements which were still the admiration of the world.

The next address will be on "Wycliffe and the Bible," by Rev. W. H. A. French, of Grafton.

TO CLOSE EVERY BAR ROOM.

Grand Council of the Royal Templars Will Ask the Ontario Government For a Sweeping Measure.

Stratford Feb 22.—The Grand Council of the Royal Templars of Temperance met at 10 o'clock this morning. F. S. Spence, Secretary of the Dominion Alliance, wrote urging the Grand Council to take a firm stand in demanding the enactment of prohibition by Sir Wilfrid Laurier as the result of the plebiscite. W. H. Early, Secretary, read the report of the Political Action Committee, which pronounced in favor of appointing a deputation from the Grand Council to wait on Mr. Hardy at once urging that the Government's pledge as to enacting such a prohibitory law as the decision of the Privy Council allows the Province to pass, be redeemed during the present session of the Legislature. After an extended discussion, Rev. Wm. Kettlewell moved that the report be amended, so as to strike out that part of the clause referring to Sir Oliver Mowatt's pledges, and that the Committee ask the Government to abolish every bar-room in the Province of Ontario, which power, he alleged, is clearly within the rights of the Province, as indicated by the opinion of the Minister of Justice. While he would await the decision of the Dominion Government, he believed that the Provincial Grand Council should try to exercise as much influence as possible upon Provincial legislation. The vote showed a large majority in favor of Rev. Mr. Kettlewell's substitute clause.

At the afternoon session invitations were read from Picton, Belleville, Port Hope, Toronto, Hamilton, and London, to hold the Grand Council meeting for 1900 in their respective towns. The Committee on the State and Extension of the Order, reported that the suspensions among the insured had decreased since 1896, and that the local councils are looking closely after members. The Committee on Literature and Publications, brought in a report commending The Royal Templar Advocate as an official organ.

Asthma Gasps.

The wheezing and strangling of those who are victims of asthma are promptly relieved by a few doses of Dr. Chase's Syrup of Linseed and Turpentine.

HOCKEY.

The Winnipeg Tribune says editorially: "Reports to hand from the east regarding Saturday's hockey match leave little room to doubt that the game, so far as Montreal Victorias are concerned, was characterized by brutality seldom heard of outside the professional prize ring. There is nothing in the telegraphic reports to show there was any provocation for inexcusable assault, particularly on one of the Winnipeg players, Gingras, save in the fact that he and the other boys from the west were playing at a superb and winning gait. They went to Montreal to play hockey, to do their level best, and failing in winning the coveted championship, they would return bearing with them the honour that has always marked their career. Winnipeggers did not imagine for a moment that brutal slugging with shinney sticks was one of the qualifications of the eastern hockeyist, else our team would never have left itself open to such brutal treatment as it has received. The boys have played a magnificent, clean game, they are returning home with an honourable record, and we sincerely hope that their many injuries will not prove of permanent character. The easterners are welcome to the cup, which this year carries with it the slugging as well as the hockey championship."

A POPULAR COMPANY.

"East Lynne" Was Well Produced—May A. Bell a Clever Actress.

The city hall was crowded to the doors last evening by an audience eager to see the production of the dramatized version of Mrs. Woods' touching and pathetic story "East Lynne." The popularity of the Marks Bros. was fully established and those who went expecting to see something of a high order were not disappointed. May A. Bell, as Lady Isabel and Madam Vine, the mother and nurse displayed rare emotional powers. She portrayed admirably the workings of the passions of jealously within her, and her deep anguish when the wages of sin were being paid. Her costumes last night were very pretty, as were also those of Jennie Platt, who assumed the role of Barbara Hare.

Knox Garvin, as Archibald Carlyle, is an almost faultless actor. He is the possessor of a fine voice and a commanding stage appearance, and these fitted well to the noble, manly character of Archibald Carlyle, the prosperous lawyer and owner of East Lynne. The other members gave good support. Petite Grace and Baby George, in their specialities, brought down the house, and Baby George merited the fine bouquet with which he was presented. The audience cheered lustily when Mr. Gavin announced that the company would continue their engagement next week.—Kingston Daily Whig, Dec. 10th, 1898. At Bradburn's Opera House Feb. 27th, to March 4th.—10 and 15 cents.

A PRESENTATION

To Rev. W. P. Rogers, by the Congregation of the South Dummer Methodist Church.

At the regular Official Board Meeting South Dummer an unanimous invitation was extended the Rev. P. W. Rogers to remain with the congregation a second year.

Three weeks of special services have just closed at this appointment. Friday evening 15 inst., being the last evening of the series of services the congregation embraced the opportunity of manifesting their appreciation of the pastor's services by presenting him with a beautiful fur coat and purse accompanied with the following address:—

Rev. W. P. Rogers:—

Dear Sir and Brother,—The members of your congregation at the South Dummer appointment are desirous of manifesting their appreciation of your faithful services both as a pastor, and as a preacher, in some more tangible way than by regularly paying your salary and attending your ministrations. Your conduct among us has ever been above reproach. Your intercourse with us from day to day has been of such a nature as to convince us that you are a true friend of each one of us. Your preaching led us to a more serious consideration of our duty to God, and to each other, and has inspired us to better service in the Master's cause than we have ever given before, while your earnest prayers have lifted us up to Heaven and brough Heaven's blessings down upon us. We rejoice with you in the success which has attended the recent revival services in our midst. Many of us though your efforts, and the efforts of those assisting you, have been lifted to a higher plane of Christain life, many have been helped to a deeper consecration to God, while many others have experienced for the first time the joys of redeeming love.

In presenting you with this fur coat and purse, we desire to say that we do so with hearts overflowing with gratitude to Almighty God for the success that has marked your ministry among us and with the sincere and earnest prayer that you may long be spared to preach the unsearchable riches of Christ to your perishing fellowmen and that your ministry may be even more successful in the future than in the past.

Signed on behalf on the congregation,

JAS. BLAKLEY.
MATTHEW KNOX.
RICHARD PATTERSON.
JOHN PATTERSON.

MANY will heartily appreciate the appetizing changes in their daily Bill of Fare which the Lenten Season brings to their tables.

Lenten Dainties

In the Special Lines of Delicacies which our Grocery Department supplies, our policy is to offer the very choicest which the market affords. We can confidently recommend our Ale and Porter—being kept in prime condition and thoroughly matured. Gentlemen who wish to repleniah their wine cellars should sample our stock.

Women's Worst Enemy

Some hesitate before giving an answer, but those who know best will immediately say HEADACHE.

Thousands of women live in misery day after day, and week after week, suffering untold agony from these dreadful headaches. Husbands are disheartened, children neglected, and happy homes ruined. Most women strive to bear in patience the suffering which they consider part of life without looking into the cause or searching for relief. Food cannot digest without the bile which the liver supplies and hence the necessity of keeping the liver in good working order. To cure the headaches you must cure the liver and thus remove the cause of disease.

Dr. Chase spent years of his life in perfecting a medicine which acts directly on the kidneys and liver. Thousands of grateful women have testified during the past ten years to the effectiveness of this remedy for sick headaches. Many a home has been restored to happiness as a result.

Dr. Chase's Kidney-Liver Pills, the greatest discovery of this great scientist, are put up to sell at 25c. a box or 5 for 25c. All dealers.

VERDICT AGAINST THE C.P.R.

The Finding of the Coroner's Jury at Medicine Hat, N.W.T.

Medicine Hat, N.W.T., Feb. 22.—The following is the verdict brought in by the jury appointed to enquire into the deaths of William Muir, Robert Lang and Benjamin French, who were killed in the railway accident here on Feb. 8. Fifth signed: Dr. Calder, coroner; James Rae, foreman, and William Cousins, James Mitchell, B. P. Lewis, Warren Shoebottom, Christopher Lean and H. C. Yuill, jurymen. John Hawk, Thomas Hutchison and L. B. Cochran did not sign the finding:

"We, your jury, appointed to enquire into the dealings of William Muir, Benjamin French and Robert Long, find that they came to their death as the result of an accident on the C.P.R. Co.'s bridge here, through one freight train running into the rear end of another. From the evidence given we cannot attach any blame to any of the men composing the crews of the two trains, but feel that some provision should have been made by the C.P.R. Company to prevent such an accident from occurring, either by having an operator at Stair or a safety switch west of the bridge, as the hill, under certain circumstances, is certainly dangerous."

UP IN WINDSOR.

Mr. Cole Discovers the Power of Dodd's Kidney Pills.

Windsor Feb. 20.—The following statement, which Mr. F. H. Cole of this place requests us to publish, is worthy of attention from every victim of Rheumatism in Canada.

Mr. Cole's experiment fully warrants him in making this statement.

"Words cannot describe how I suffered from Rheumatism and Kidney Complaint. I tried every cure that was recommended, but got no benefit until I began using Dodd's Kidney Pills."

"Thank God I did use Dodd's Kidney Pills, for they cured me—made me sound and well, in every joint and limb."

Those who suffer the agonies of Rheumatism or Lumbago need do so no longer. Dodd's Kidney Pills will cure them.

Presbyterianism in the Lead.

Vancouver, Feb. 23.—Advices from Dawson City say: At the first annual meeting of the congregation of the First Presbyterian Church, Dawson, they passed unanimously a resolution to become self-supporting from Jan. 1, 1899. This is one congregation, the first and only one, of any denomination in the Yukon, to become self-supporting. They are prepared to call a minister, and steps will be taken to secure a settlement. They will require to apply to some Presbytery for recognition. At a larger and more interesting congregational meeting they presented Rev. Mr. Grant with an address expressive of the appreciation of his work, and a gold nugget for Mrs. Grant with the inscription, "Token of love to Mrs. Grant on the occasion of our first annual meeting. First Presbyterian Church, Dawson." Over 50 communicants were added at the first service.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any Drug Store. Regular size 50 cents and $1. Guaranteed to Cure or price refunded.

The Industrial Fair Board.

Toronto, Feb. 23.—Yesterday the representatives again elected the old board of directors for the Industrial Fair, as follows: J. J. Withrow, A. Smith, W. B. Hamilton, R. Davies, Hon. John Dryden, J. K. Leslie, P. C. Close, W. E. Wellington, James Crocker, George Booth, S. E. Briggs, Ald. B. Saunders, Dr. J. O. Orr, R. W. Elliott, George Vair, Ald. R. J. Score, W. K. McNaught, Ald. John Hallam, Ald. O. B. Sheppard and H. N. Crossley. The old officers were also re-elected.

A Toronto Delegation.

Ottawa, Feb. 23.—The deputation from Toronto to urge upon Hon. Mr. Tarte certain improvements in Toronto Harbor had an interview with the Minister of Public Works and Mr. Mulock yesterday morning. The deputation asked that Toronto Harbor be raised to the 14-foot standard of the new St. Lawrence canals. In reply Hon. Mr. Tarte, without committing the Government, said he was almost certain that something would be done, as the case was one of truly national importance.

Children Cry for **CASTORIA.**

A TRAPPED BURGLAR

THE NICELY PREPARED BAIT WAS EAGERLY TAKEN.

It Cost the Ingenious Man Who Devised the Scheme $400 or $500, and It Cost the Burglar Four Years' Time.

"Of course," said the retired burglar, "a man in my business is always on the lookout for traps and most of 'em he can circumvent without much trouble. But men go to a lot of trouble and expense to lay traps, and sometimes they get up something that is new and effective. I suppose that any man going into a dwelling house would be sure to look over the bureaus and dressing tables in the sleeping rooms. It was this well known professional habit no doubt that had suggested the idea of a trap I came across once, which a man had had built with a view to catching anybody that might stand in front of the bureau in his room.

"I imagine that this man must have been visited before and been very much irritated by it, because he never could have gone to all the trouble and expense he did just for mere protection—there was clearly some feeling in it. It was a handsome room, promising looking from its richness, and when I turned my light on the bureau, where I went, naturally enough, to begin, I was not disappointed. There was a glitter of glass and silver in the bullseye, and as I swept the light along it struck a pocketbook that didn't glitter much, but that looked fat and comfortable, and a watch that did shine, and, take it altogether, it made me think that here was the home of a man that didn't have to work nights to make both ends meet. And so I set my lamp down on one end of the bureau—it made me laugh, actually, to think that there was so much good stuff there that I had to shove something one side to make room for it—and put my bag down on a chair that was there and began cleaning the things off.

"I'd just put the silver hairbrushes in the bag and had turned around to the bureau again to pick up the pocketbook and the watch when I heard, or it seemed as though I felt, a little click, and just the faintest touch of a jarring or yielding under my feet, and the next instant, a long time before I could jump or do anything whatever, a piece of the floor under my feet about three feet square dropped out from under me, and down I went.

"But I didn't give up, by a long shot. I was an ablebodied man, and my hands were free—my lamp being then on the corner of the bureau and my bag on the chair—and I wasn't going to give it up yet, if I was going down a trap. The trapdoor was hung on hinges on the side farthest from the bureau, and I laughed to myself as I put up my hands and thought how easy it was to grab on to the edge of the solid floor running along just in front of the bureau and haul myself up. Truly it seemed like a waste of money, all the expense this man had been to to put in the trap without guarding against the chance of escape from it by just this means, and I already imagined myself climbing out as I threw up my hands, which I did before I'd dropped much more'n half of my length below the level of the floor, gripping that firm edge very tightly. I was going to make sure of that.

"And I got it all right, but in about a millionth part of a second I became conscious of the fact that it wasn't stopping me at all; I was carrying it down with me. It was the front edge of another trap cut in the floor under the bureau, hinged at the back and held up in place by a spring just strong enough to keep it in position. I held on as hard as I could, but if I had had iron fingers and steel muscles I couldn't have held on after the trap had swung down straight. I went down like a ton of lead, and the next minute I found myself sliding through a smooth board tunnel not much bigger'n enough to let me slide comfortably, and the next minute I'd been shot into a box or room about seven feet square through another trap in the top of it that closed flush after I came through.

"Now, there was a situation for you. Me in a square box of hard pine, apparently in the cellar of the house, no opening in it anywhere and my bag with all my tools in it up there on the chair by the bureau and me down there with nothing, not a blessed thing, to work with. But while there's life there's hope, and I never should have thought of such a thing as giving up if I could have had a chance. But I didn't. I hadn't been in the box two minutes before there was a slide pushed back up near the top on one side, and a man looked in. It was the boss of the shanty. And in five minutes the police were there, and then I found they had a door in this box big enough to get a man out of.

"I have seen other traps as elaborate, but none more costly. He had to cut his carpet, to begin with, around the traps in this room. Of course that didn't cost anything much, but it spoiled his carpet, and then the cost of the traps and the time contrivance, whatever it was, that was attached to the main trap that let me stand on it for a minute or two before it dropped, and then the shoot and the box and the whole business couldn't have cost a cent less than $400 or $500. It cost me four years' time."—New York Sun.

Who Built The Pyramids.

Hard to tell in some instances. But we know who are the great nerve builders. They are Scott & Bowne. Their Scott's Emulsion feeds and strengthens brain and nerves.

A man just in the act of lifting a barrel of flour felt a hand laid on his shoulder. "Stop!" said the stranger. "You can't lift that." "How do you know I can't?" said the man. "Because I am a physician, and know it's impossible." "That may be," said the man, "but I know I can," and he stooped and lifted the barrel to his shoulder. "What made you so sure you could do it?" asked the astonished physician. "Because I've been doing it every day for years," said the man.

There are physicians who say in good faith to those whose lungs are worn by disease "It is impossible to help you." And yet thousands of these impossibles have been helped and healed by Dr. R. V. Pierce whose "Golden Medical Discovery" has cured them, when the hollow cheek, the rasping cough, the burning flush, and night-sweats have all pointed to consumption.

Ninety-eight out of every hundred such impossible cases can be cured says Dr. Pierce. What makes him so sure? Because he has b[illegible] just such cases for more than th[illegible]. "Golden Medical Discovery" is strength to the stomach, life to the lungs, nourishment to the nerves. It makes new blood and the new blood builds a new body—a fit temple of health.

There is nothing just as good as "Golden Medical Discovery," so let no one deceive you into accepting a substitute.

"I beg to state that I have used three bottles of Dr. Pierce's Golden Medical Discovery since my correspondence with you and find great improvement in my case," writes Mr. A. F. Novotny, of New York, N. Y., (Box 1437). "I feel that I am in need of no more medical assistance. When I started to take your medicine I had a regular consumptive cough, of which I was afraid, and every body cautioned and warned me concerning it. I was losing weight rapidly, was very pale and had no appetite whatever. Now my condition is changed entirely. I do not cough at all, have gained eight pounds in weight, have recovered my healthy color, and my appetite is enormous. I can recommend your medicine, as it is a sure cure, no humbug, as are most other patent medicines."

Dr. Pierce's Pellets cure biliousness.

OVER THE OCEAN.

Russia has practically captured Manchuria. While the czar talks peace his troops take possession.—Seattle Post-Intelligencer.

The kaiser approves the suggestion of the czar for an international peace conference—and adds more battalions to his army.

Norway objects to lying in the same bed with Sweden. If they come to blows and Russia takes a hand in, it may result in Norway and Sweden lying in the same grave.—London (Ont.) Advertiser.

With the renewal of swatting in the Swat valley we may soon know more of the Mad Mollah and the Nawab of Dir. How fortunate it is that we have ocean cables enabling us to learn so much of these illustrious swatters.—St. Louis Post-Dispatch.

Dervish skeletons are selling in London as relics of the British triumph in Egypt. It is a ghastly turn of popular fancy, recalling the days after the Franco-Prussian war, when French skeletons were offered as souvenirs. It is like adding insult to injury.

CURIOUS CULLINGS.

In Chinese cities streets are never built straight from a superstitious fear that processions of evil spirits might otherwise enter the city and remain.

A medical journal states that in some parts of Mexico the schoolmasters have a peculiar way of rewarding their pupils. The pupil that excels in behavior and scholarship receives a cigar, which he is permitted to smoke during the recitations of the day.

When a great nobleman of the time of the pharaohs gave a feast, his guests arrived at midday in chariots and palanquins, were met at the door by slaves, their hands and feet washed in perfumed water in golden vessels, and their heads anointed with ointment.

Died From Poisoning.

Herning's Mills, Ont., Feb. 22.—The coroner's jury in the case of Margaret Ann Williamson last night, after hearing all the evidence presented, brought in a verdict of death from arsenical poisoning, and recommended that further investigation be undertaken by the Crown.

It will be remembered that on Jan. 9 Mrs. Williamson was taken with violent pains, dying during the night. Coroner Morton held a post-mortem examination and the presence of arsenic was discovered.

Annual Meeting O.A.A.

Toronto, Feb. 23.—The thirteenth annual meeting and election of officers of the Ontario Artillery Association was held here yesterday in the Military Institute. The following are the officers elected for the ensuing year: President, Major J. Davidson, Guelph; vice-presidents, Major MacLachlan, Cobourg; Lieut.-Col. A. H. Macdonald, Guelph; Major Hurdman, Ottawa; E. Wyly Grier, Toronto; executive committee, Lieut.-Col. F. King, St. Catharines; Lieut.-Col. J. H. Mead, Toronto; Major J. S. Hendrie, Hamilton; Lieut.-Col. Van Wagner, Hamilton; Lieut.-Col. C. O. Fairbank, London; secretary, L. H. Irving; treasurer, Capt. Myles; auditor, R. Strachan Cox.

A Verdict of Murder.

Quebec, Feb. 22.—The Rev. Dean Norman, whose resignation has just been accepted by the Bishop of Quebec, has admitted having given the boys Dickson and O'Brien, who are implicated in the Pepin tragedy, the sum of $6,500, but denies that he has been guilty of any wrongdoing.

The jury in the case of Pepin brought in a verdict of murder in the first degree against Dickson.

Boston Up to Date.

Boston, Feb. 22.—Mayor Quincy proposes that the city shall build a municipal crematory, in which to incinerate the bodies of paupers, criminals and others whose burial devolves upon the city. The idea is to do away altogether with the Potter's Field.

SICK HEADACHE

Positively cured by these Little Pills.

TERRIBLE BACK PAIN

A HAMILTON LADY, FOUR YEARS A SUFFERER, FINDS RELIEF IN

DOAN'S KIDNEY PILLS.

Sum up the ills to which women are subject, and the major part find expression in the backache—the bane of thousands of women's lives. But back of the backache are the disordered kidneys. They are often the true seat of ill health and misery. The mission of Doan's Kidney Pills is to make the kidneys perform their proper functions; then good health is sure to follow.

Mrs. Stevenson, 211 Mary Street, Hamilton, Ont., says that she was afflicted with pain in the back and kidneys for over four years. Sometimes it was so great that she could not attend to her household duties. She was sleepless, nervous, and at times troubled with a numbness of the hands and arms.

She started taking Doan's Kidney Pills. From the very first they relieved the pain in her back and made her feel better. Mrs. Stevenson is thankful she took Doan's Kidney Pills. They've wrought a wonderful change in her. She couldn't bear to stand on her feet on account of the dreadful pain in her back, but that's all gone now. Doan's Kidney Pills have effected a complete cure.

Insurance in force		10,000,000

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR,—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $1,000, which matured on the 5th inst. Of the various options you have given me viz.:

Cash value	$1,564 00
Paid-up Policy, payable at my death, for	2,560 00
Yearly Income for life of	166 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4½ per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the low rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,
(REV.) J. THOMPSON, D. D.
Sarnia, Ont

PRICE WITH BLOWER 25 CENTS

FIRST TO GROW ORANGES.

Jesuits Introduced Them Into the Pelican State.

The orange of Louisiana is an exceptionally fine variety of that fruit, and commands a good price in the market. The orange was first introduced into colonial Louisiana by the Jesuits, having been first grown by the members of the society on their grounds, which formerly comprised that part of the city of New Orleans which constitutes the lower part of the first district, down to Dommon street.

While St. Bernard and Plaquemines parishes are the chief centers of the orange culture of Louisiana, the fruit also grows well in the parishes of Orleans, Jefferson, St. James, St. John Baptist, St. Charles, Assumption, St. Mary, Terrebonne, Lafourche, Vermillion, Cameron, Iberia and Sabine. The orange tree begins to bear at about the seventh year, although it is not reckoned to have reached its full growth until its twelfth or fifteenth year.

The orange culture in Louisiana is probably the most profitable industry of the state under favorable conditions, a full grown tree producing from 3,000 to 5,000 oranges, the fruit on the tree generally selling for $10 a thousand, and as some of the largest orchards in the state yield as many as 3,000,000 oranges their market value gives a princely income to the owners of the trees. Comparatively a very small acreage of the state is devoted to the growth of oranges—possibly not more than 2,000 acres.

The sweetness, delicacy and juiciness of the Louisiana orange, the best of which are regarded in the markets outside of Louisiana as superior to even the oranges of Cuba, to which island the fruit is indigenous, render the Louisiana oranges highly prized in the north and west of the United States, so much so that the supply is not by any means equal to the demand.—New Orleans Picayune.

You Should Know

What Hood's Sarsaparilla has power to do for those who have impure and impoverished blood. It makes rich blood rich and pure, and cures scrofula, salt rheum, dyspepsia, catarrh, rheumatism, nervousness. If you are troubled with any ailment caused or promoted by impure blood, take Hood's Sarsaparilla at once.

Hood's Pills are prompt and efficient, easy to take, easy to operate.

DON'TS.

Don't judge the railway by the cigars sold on its trains.

Don't look for fruit on the tree that never bore a blossom.

Don't forget that despair is one of the gateways to insanity.

Don't forget that abuse is sometimes an inverted compliment.

Don't think because a man has a price that he always gets it.

Don't borrow from a man who runs after you till you pay back.

Don't bother about putting a "Hands Off" notice on a buckeaw.

Don't think that tact removes difficulties; it simply goes around them.

Don't doubt the man who says "everything goes." It usually does with him.

Don't neglect to sympathize with the under dog in the fight; but be sure to bet your money on the top one.—Chicago News.

Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down-feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me more strength and good appetite than anything I could take. I can now eat anything and have a new lease on life. Only 50 cents at any Drug Store. Every bottle guaranteed.

Substance in a Skull.

The Czar is very fond of eggs and eats large quantities of them. He thinks poison could not be secreted in them without detection, though he is startled to find that by pricking them with poisoned needles aconite could be placed in them.

A Horse Census.

Horses in the world presumably number about 75,000,000 head, of which 17 millions are credited to North America.

Children Cry for

CASTORIA.

MEXICAN POLITENESS

IT IS SO PROFUSE AS TO BE ALMOST LUDICROUS.

Even if Painfully Hurt by Another Through a Stupid or Bungling Accident Words of Courtesy Bubble From the Lips of the Victim.

"Oh, how deliciously polite!" is a phrase we hear every day from the lips of foreign ladies when they enjoy the not unusual sight of two natives, ragged beyond all description perhaps, who stop a horse car in the street and keep it standing while each insists with elegant bows and flowing compliments that the other precede him in going up the steps.

"After you, sir."

"Not at all. I am unworthy of such a high honor."

"I dare not take precedence, sir."

"It is only what is due your superiority. Walk up, please."

"Not for all the world. You are entitled to that preference."

This goes on for some time until the car begins to move and both fling themselves at once on the steps, smashing the corns of another man standing on the platform, an accident that gives rise to more effusions of good breeding.

"Oh, sir, how sorry I am to have trod on your feet! I sincerely entreat you to excuse my oversight."

"Never mind," says the victim, gritting his teeth and with tears in his eyes, "it is an honor to be trod on by you."

"Thanks for your kindness."

"I am myself in duty bound to thank you."

In fact, dudes from over the sea or from across the Rio Grande may boast of their wealth and their Parisian made trousers, belles of other lands of their golden tresses and charming personalities, but no other nation equals the stately dignity of Mexican courtesy.

If it is a great luxury to be taught how to bow and what to do under all circumstances by a gentleman who knows these things because he belongs to the European aristocracy and has behind him a line of ancestors who behaved as well as they could in such matters, it is surprising to observe in a whole nation, even in the humblest of classes, courtesy not produced by artificial means, but gradually and refinedly practiced as a special endowment of nature.

Persons in other countries are rarely treated to such scenes as those we have attempted to describe, and to many they might appear exaggerated, but let those that doubt come and judge for themselves.

I will cite a few authentic experiences in illustration of the subject:

An American young lady was once talking with an old Mexican gentleman, and she laughingly said something about having some literary work to do.

It was good to see the old fellow's impressive manner and air of perfect sincerity as he exclaimed: "Work! Miss, such lips as yours should never mention work. You should be a queen and wear pearls as beautiful as those incased in your lovely mouth."

Another young woman was overheard to say in English to her mother in the theater:

"Look at that Mexican girl. Do you like her? I think her nose is too long and her features are too sharp."

Whereupon the Mexican girl said in her most endearing tone in broken English:

"Miss, as God bestowed on you all the attributes of perfect beauty, very little was left for me. Believe me, you are the sweetest creature I ever laid my eyes on, and I never get tired of looking at your charming face."

A young man who happened to be accidentally struck in one of his eyes by a pretty 16-year-old damsel with her parasol said appealingly while the blood flowed from the wound:

"Lovely one, be not cruel, seeing that cruelty and beauty cannot dwell together!"

Nowhere will the stranger find more genuine civility and kindness than among the Mexicans.

Their houses, their families, their horses, their flowers, their time, even their lives, are placed, figuratively at least, "at your disposition."

"A los pies de V., senora" (My lady, I am at your feet) is the prescribed form of salutation from a gentleman who meets a lady; where, if two gentlemen meet, they address one another as follows: "Beso a V. la mano" (I kiss your hand).

The same applies to written correspondence. A note from a gentleman to a lady ends in this wise: "Soy de V., senora, atento servidor, Q. SS. PP. B." The initials are for "que sus pies besa," and the whole phrase stands for, "I am, my lady, your attentive servant, who kisses your feet."

If a gentleman is addressed in writing, only his hands are kissed, not his feet.

These formulas are followed not only by the richer but by all classes. As to the poorest, their courtesy toward one another is widely different from the gruff, boorish intercourse of the plebeians of other nations.

The poor of Mexico cannot frame a sentence without employing one or more terms of endearment.

"Como estas, mi alma?" (How are you, my soul?) The words they address each other speak of the gentle consideration for the feelings of their neighbors, which characterizes the race and emanates from spontaneous courtesy.

A Mexican gentleman will never permit a lady to descend the stairs unaccompanied. He takes her softly by the hand or offers his arm to assist her in going down the steps, and only takes leave of her at the street door, when he does not insist on leaving the lady at her own home.

Love is more the business of life in Mexico than in northern climes, perhaps because other people have more diversion than we have. The ladylove is ardently styled "the very eyes of me," but that does not prevent the Mexican beau, when stung by jealousy, from denouncing love as treacherous.

"Since there is no help, I bow before you, kiss your feet and depart," is the beginning way in which the unrequited lover takes leave of the girl that has given him the cold shoulder.

All hope is over, love is stretched upon his bier, but the Mexican whom a beauty despises, although naturally angered at the slight, pretends to feel more keenly than anything else the annoyance he has given her with his unremitting attentions. "Excuse me, fair lady, for having put you to the trouble of repelling the audacious revelation of the feeling you have awakened in my bosom." Such is the mild form in which he gives vent to his rage and despair.—Two Republics, City of Mexico.

Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other as all Mixtures, pills and imitations are dangerous. THE BEST is always imitated. Dodd's Kidney Pills, sold only in boxes like this, are widely imitated, because they are the best Kidney cure. Take none but

D-O-D-D-'S

JOHNNY BULL.

This air of military preparation in Mr. Bull's domains is reminiscent of "Johnny Get Your Gun."—Philadelphia Times.

Great Britain is making such magnificent preparations for immediate trouble that there probably won't be any.—Boston Globe.

John Bull seems to think the time has come for a general muster day and that he will try to get there about sunrise.—Kansas City Times.

John Bull feels that he can afford to be quite spunky since he has gone to the expense of making a demonstration for the benefit of France.

It is true that the British lion's tail has stood a great deal of twisting in his path, but France must bear in mind that the circumstances were very different.—Washington Star.

Great Britain is giving ample indication that she is not only willing that the czar shall disarm, but that she is willing, if necessary, to help him.—Louisville Courier-Journal.

ANIMAL ODDITIES.

The weight of a queen ant is equal to that of 50,000 working ants. She is always attended by one or more servants to carry off her eggs, of which she lays from 5,000 to 10,000 a year.

The cheese mite is more tenacious of life than any other insect. Leuwenhoeck glued one to a pin in order to make a microscopical examination, and in this situation it lived 11 weeks.

There is a fish found in Hudson bay which builds a nest. This it does by picking up pebbles in its mouth and placing them in a regular way in a selected spot on the bottom of the bay, where the water is not very deep.

The slime secreted by ducts along the side of a fish keeps the scales from harm, increases the speed of the fish and makes it difficult to hold by its enemies. Probably the smell of it is also repugnant to other fishes. Moreover, it protects the fish against the attacks of a fungus.

MR. HOUSE, OF BERLIN

Cured of Lumbago by Dodd's Kidney Pills.

Berlin Feb. 18.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Back-ache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

Before and After.

He craved
And raved,
Then swore
Before
His dinner he could find;
Reviled,
Then smiled
And laughed
And chaffed;
Was sweet
To meet;
Would lend
A friend
No end,
Because he'd dined.

WORD FROM THE NORTHERN ZONE.

The "A. B. C." Party From Peterborough.

LETTER WAS MAILED IN NOVEMBER.

The Boys Are All Hopeful and Expect to Strike Pay Dirt in the Spring — The Roller is Working Well.

Yesterday THE EXAMINER published a letter from Florida and to-day one comes to hand from the Northern Zone, being one written from the Klondyke by Mr. W. T. P. Ayres, one of the Peterborough party. "Jack," as he is familiarly known amongst his friends, writes to an old comrade in Dakota as follows:

16 GOLD BOTTOM.
Dawson City, Nov. 6th, 1898.

J. B. Hookridge, Hunter, N. D.

DEAR JIM:—Well, how are you getting along? You will be through work for another season and have a long dreary winter ahead, but then you are in reach of any place and at any time, except when there is a raging blizzard on. Think of us once in awhile. We are now about two months from any place and that over a cold hard trail, nearly six hundred miles from Dyea, our nearest seaport. It must be a hard trip to tramp over the ice, but some people do it. I don't think I'll try it though, and you know I like work—in fact could almost sleep beside it. Well, Jim, it is sometime since I wrote you, but a little longer since I heard from you. The last letter was dated May 30th and received about a month afterwards at Tagish as we came down the stream. I did not hear from anyone for nearly three months after, but finally some letters came through, but not many. Some got lost in the shuffle and haven't turned up yet, but may later on. The latest I have had was dated the latter part of August. I am in hopes of receiving others by Xmas if they get here; if not, why I can't read them until later.

I have been here on this claim for nearly three weeks. I may go to Sulphur soon. I was sick for a few days, but not very bad, as Dr. would only give me salts. He did not consider my case dangerous. * * * * * I am feeling good now; ready for anything there is gold in. This is a creek claim that we bought; then we have a half interest in another on Friday, a tributary of Sulphur, and we are representing two on Sulphur. We get one hundred feet, take all we find and also retain one-tenth interest in each claim. H. C. and two of the boys have been over building a cabin on Friday, and they think it is all right. They came back last Friday and are gone to Dawson. They will be back here in a day or two. We are just starting to sink, so don't know what we have got yet, but from reports we expect a little, and when it begins to come our way we will try and keep it coming. Anyone coming in here deserves to get gold. It is hard work and dangerous (though not so great if a person is careful) and hardships entitle anyone to a rich gold mine, but they all don't get them. We are not sure we have got it yet.

This is Sunday afternoon and we are all taking thing easy. We don't work on Sunday—we get enough through the week to satisfy us. There is a great change in the weather since I last wrote you. We now have about 16 inches of snow and below zero all the time, but no wind. The days also have changed; in July and August we had no darkness. Now it gets dark about four, and daylight about half-past six in the morning. Down in the creek here we don't see the sun until 9 30, and it disappears again over the hills a little after one, and still growing shorter. A little over a month and we will have our shortest days, they say from 3 to 5 hours, but not very dark only when snowy or cloudy weather. Yes, it's a little cold. I don't think it's much short of twenty below to-day, but pleasant; the sun is gone now, 3 p.m., but was shining for a while bright and clear. The weather here is much like with you, only colder, and we don't have any wind—its all hill and mountains. Down in the valleys of the creeks it can't blow; but on the hill, well, yes, just a little. I came across the divide from Sulphur three weeks ago. We then followed the divide about six miles and it was snowing and blowing, but wasn't cold. Now we go up the creek, up the hill and drop right down into Sulphur. It's only about a mile from one creek to the other, but quite a steep climb. We are getting used to that and can climb like mountain sheep. We do our packing on sleds since the snow came. It is much easier and a man can take three or four times as much, but still it is playing horse. Anyone looking for snaps had better stay away from here, but a strong man, with a good constitution, may make a stake. There is lots of gold—no question about that—but it is hard to get, from ten to forty feet under ice, frozen muck, sand and gravel. The only way to reach it is by burning our way through. As they say here, it is a hard proposition; but still men are making fortunes, and some of them are spending it as fast as they can make it. It comes easy after they strike a rich claim, and it goes quick and easy. Wine and women soon melt the pile away, but such is life in Dawson. I have not taken a drink in the town, and if I get a million I will leave without trying their wet goods. I don't want any Dawson booze in mine. Well it is getting rather dusk in the cabin, and as we don't expect there will be any mail go out for two or three weeks, I will close for the present, and finish it some other day. Wish I could drop in and see you.

Nov. 24th.—Thursday evening, 7 p. m.—I will try and finish your letter to-night. I might have sent it to town to-day, but forgot it. Some of the boys came over from Sulphur yesterday and went on to Dawson this morning. I have not been down town for six weeks—nothing to go for. Mail is not in yet, but is expected daily now. I hope it comes soon, but I am getting used to this three months' mail now. It's hard, but we must try and stand it. Mail once in three months, or sometimes longer, how would you like that? When it does come they take ten days to sort it before they are ready to deliver it to us, but they are getting things fixed better, and now it only takes a few days. We are trying our thawing machine, which I think I told you about, a small pipe boiler, weighing 900 pounds. We have about fifty feet of hose and thaw with steam. We have a piece of pipe six feet long and handles to lean on, and this connected to the hose, we then push it along, but it is slow work. We may get used to it so we will get along faster than by burning. We will give it a good trial anyway, and hope to make it useful, as it cost us three hundred dollars to get it here. There are four of us here. H. C. came back two weeks ago, and has been here since, but we change around soon. It's not a continual round of pleasure, it being very lonesome sometimes, but the time passes quickly. Sometimes in the summer I felt pretty blue. Couldn't hear from anyone—no mail. I thought it hard lines, the boys all got mail but me, but mine came at last—at least some of it did and I expect more soon. The officials say by Dec. 1st they will have mail from the outside and surely I'll be in it, for I have one dear friend who hasn't forgotten me, though I am so far away, and I hear from the children once in awhile. Some of their letters are side-tracked along with the others, but may come later. They are doing well at school, beating the young Canadians in good shape. These, with one letter from Batson, are all I have received since last June, where, oh where, are the others? We have had a couple of weeks of very cold weather—from forty to fifty below. Some say fifty-seven, but calm and pleasant. But say its cold to-day, is, or has been, much finer and is snowing gently, now somewhere about zero. Our days are getting very short, from eight to four, and in the cabin, when the window gets about an inch of frost on it, from ten to two. Our window has eight lights, 8x12. The sun only shows for about two hours and then goes behind the hills again.

The boys on the next claim are going into town to-morrow so I will send this with them. This is Saturday night. I am cook and have just got through. We cook two days each turn about, to-day and to-morrow are my days.

I wish you all a Merry Xmas and a Happy New Year. It may be late in getting in, but you will know my heart is right. We are all well, but haven't struck the pay streak yet, but are living in hopes.

Remember me to all and take a day off and write to me. With best wishes, I am as ever,

Yours,
JACK.

At Last!

A Remedy has been Discovered that will Permanently Cure Catarrh.

JAPANESE CATARRH CURE CURES.

This is not merely the words of the makers of this remedy, but the assertion is backed up by leading physicians and the honorable testimonies of hundreds of cured cases. And more, there is an absolute guarantee to cure in every package, or money will be refunded. We will also send a two weeks' trial quantity free to any person suffering from this dangerous disease. Japanese Catarrh Cure is a new discovery, being a prescription perfected by one of America's most successful specialists in treating this disease. It is a soothing, penetrating and healing remedy, prepared from stainless compounds of Iodine and Eucalyptol oils, to be inserted up the nostrils. The heat of the body melts it, and the very act of breathing carries it to the diseased parts. It reaches, soothes and heals every part of the mucous membrane, curing invariably all forms of catarrh of the nose and throat, and all forms of catarrhal deafness. Mr. Joseph Little, the well known mill owner of Port Essington, B.C., writes: "Japanese Catarrh Cure completely cured me of catarrh which had troubled me for 25 years, during which time I had spent over $1,000 on remedies and specialists in Toronto and San Francisco. About two years ago I procured six boxes of Japanese Catarrh Cure, and since completing this treatment have not felt the slightest symptoms of my former trouble. I can highly recommend it. Relief came from the first application." We also are keep a supply in the mill for sale and burns, and consider it superior to any other remedy for healing.

Sold by Osmond & Walsh, druggists, Peterborough. 50 cents. Sample free. Enclose 2 cent stamp. Address, the Griffiths & Macpherson Co., 121 Church Street, Toronto.

A CARD.

Mr. Ed. Heintzman, 238 Monroe Ave., Hoboken N. J., advises all men who are weak and who desire a speedy and perfect cure to write to Dr. Gustav H. Roberts, 263 Woodward Ave., Detroit, Mich.

COLD SPRINGS LITERARY.

The regular meeting of the Society was held on Monday evening, Feb. 20th, with a large attendance. The following was the programme:

Recitation	Leo Shaughnessy
Reading	D Kennedy
Recitation	Miss De. ell
Reading	M Duffus

Mock Parliament Debate—Resolved "That no money be spent on Trent Valley Canal for as a year on account of loss of revenue by penny postage." Affirmative—Miss M Doyle and Mr H Kindred. Negative—Messrs Kennedy and Munro. Debate was decided in favour of the negative.

Song ..... Miss E Hanbridge

The election of officers for the next month then took place, the following being elected:

Hon. Pres.—Mr. D. Kennedy.
Pres.—Mr. Geo. Stewart.
Vice.-Pres.—Mr. A. Huston.
Sec.—Miss A. Guthrie.
Editor—Mr. M. Duffus.
Organist—Miss C. Hanbridge.

The old programme committee was retained. There will be no meeting next week as our society intend going to Centreville.

Dr. Green's Specific.

Catarrh, Catarrhal Deafness, Asthma, Hay Fever, Pulmonary Tuberculosis, Liver or Kidney Trouble, Female Weakness, etc. We guarantee and send guarantee with each order. Address C. E. GREEN, room E Confederation Life Building, Toronto, Ont.

IMPERIALISM.

To the Editor of the Examiner:

SIR,—I enclose a clipping from the Montreal Star of Feb. 17th. Please publish it. The sentiments are the sentiments of many loyal Americans and many loyal Britishers.

YOURS,
HUMANITY.

A writer in the Evening Post says: "It is interesting to note the progress we are making in our newly adopted role of 'me too' to England in her colonial policy and imperialism. The first requirement of this policy is a powerful navy and a big standing army, and in our haste to provide these we are whistling down the wind all our ancient doctrines and fears. Incident to these are swollen and ever-swelling expenditures, and your true Jingo makes it a test of patriotism to regard huge appropriations as proof of national greatness. In England those who object to this programme of swagger, bluster and extravagance are sneered at as 'Little Englanders'; the Jingo term for them here is 'anties.'

"But observation of the various phases of the mania as developed in England shows that one of the most urgent needs of 'imperialism' is a newspaper press that will magnify an unresisted march into 'a glorious campaign,' describe a butchery as a battle, and acclaim as heroism deeds at which in all ages humanity has shuddered. During the recent 'Afridi campaign' in India it was almost a daily experience to read in the English newspapers—even in the sober and serious Times—glowing accounts of how the Second Highlanders, supported by the Fifty-Ninth Foot and the Twenty-Fourth Sepoys, charged desperately upon the enemy and swept them out of their positions; loss in this 'desperate' and 'glorious' charge one killed and three wounded! At the battle of Omdurman less than ten of General Kitchener's force was killed, the Dervishes being simply butchered in thousands by the Maxim and Gatling machine guns before they get within range of the far-shooting Lee Metfords. In this 'battle' General Kitchener's soldiers were in rather less peril than are the butchers who do their work in the cattle pens of Chicago and Kansas City; yet for the sickening slaughter—partly of wounded Dervishes as they lay upon the battlefield or crawled into Omdurman—General Kitchener was given the equivalent of a Roman triumph in London; hundreds of promotions were 'gazetted,' Victoria crosses were distributed by the score, the British press chanted a choral paean of glorification, and Kipling chimed in with the sonorous note of the International Pharisee!

"And all that is essential, in fact an indispensable part of the equipment for a programme of imperialism, such as England has been carrying out for a hundred years, and as we are now venturing upon under her tutelage. Men reared under the conditions of modern civilized life would not engage in the butchery of helpless savages whose offence is usually the defence of their homes, unless ther judgment was confused and their consciences were doped with the seductive acclaiming of them as heroes. And their people at home would shrink back from their deeds with horror and shame were they not glossed over with the verbal pageantry of glorious war.

"The plain truth is that never since the shot was fired at Lexington, have men wearing the uniform of the United States, and standing under its flag, been engaged in such sorry and shameful business as that which has recently occupied our troops at Manila. If here, as in England, the masses can be blinded and misled by the newspapers and political jingoes, then it is difficult to contemplate hopefully the future of the Republic. In fact, the Republic, as we have known it, will have no future."

THE BROWN MAN'S BURDEN.

An Address to the United States by a Jingo Stripling.

The verses in Labouchere's Truth paraphrasing Kipling's "The White Man's Burden," are as follows:

Pile on the brown man's burden
To gratify your greed;
Go clear away the "niggers,"
Who progress would impede;
Be very stern, for truly
'Tis useless to be mild
With new caught sullen people,
Half devil and half child.

Pile on the brown man's burden,
And if ye rouse his hate
Meet his old-fashioned reasons
With Maxims up to date.
With shells and dumdum bullets
A hundred times make plain
The brown man's loss must ever
Imply the white man's gain.

Pile on the brown man's burden,
Compel him to be free;
Let all your manifestoes
Reek with philanthropy.
And if with heathen folly
He dares your will dispute,
Then in the name of freedom
Don't hesitate to shoot.

Pile on the brown man's burden,
And if his cry be sore,
That surely need not trouble you—
Ye've driven slaves before.
Seize on his ports and pastures
The fields his people tread;
Go make from them your living,
And mark them with his dead.

Pile on the brown man's burden,
Nor do not deem it hard
If you should earn the rancour
Of those ye yearn to guard.
The screaming of your eagle
Will drown the victim's sob—
Go on through fire and slaughter,
There's dollars in the job.

Pile on the brown man's burden,
And through the world proclaim
That ye are freedom's agents—
There's no more paying game!
And should your own past history
Be slight in your teeth be thrown,
Retort that independence
Is good for whites alone.

Pile on the brown man's burden,
With equity have done;
Weak, antiquated scruples
Their squeamish course have run.
And though 'tis freedom's banner
You're waving in the van,
Reserve for home consumption
The sacred "rights of man."

And if by chance ye falter,
Or lag along the course,
If, as the blood flows freely,
Ye feel some slight remorse,
Hie ye to Rudyard Kipling,
Imperialism's prop,
And bid him, for your comfort,
Turn on his jingo stop.

BENSFORT.

From Our Own Correspondent.

Mrs. Jos. McLauren is very ill at present. Dr. McKee, of Bailieboro, is in attendance.

Mr. Moncrief is drawing material for his new residence.

Mr. A. Finale is going to remodel his barns.

The Indians, of Hiawatha, have been catching a number of fine fish in what is known as Fisher's Bay, Rice Lake.

Mr. P. Rutherford, proprietor of the Bensfort cheese factory, is busy preparing for next season. He is taking out a quantity of ice for use in the factory.

A number of young men from this vicinity are talking of going to Manitoba in March.

The Last Week of Stock-taking

WM. MADILL, CHEMIST AND OPTICIAN.

SHIPPING TO AMERICAN MARKETS.

The American Agriculturist says that during the 17 months ending November 30th last, 517,201 sheep and lambs from Ontario and Quebec entered the United States, no less than 312,512 being entered at Buffalo alone. And all these shipments were made despite a stiff duty. Free access for lambs at Buffalo alone would be a greater boon to Ontario than free access of lumber to all ports of the Union.

In Buffalo yesterday lambs, choice to extra, were quotable at $5 to $5.05; good to choice, $4 90 to $5; fair to good, $4.75 to $4 90; sheep, choice to extra, $4 25 to $4.45; good to choice, $4 $4.25; common to good, $2 75 to $3.75.

Out of 9,338 sheep and lambs received in Boston last week, 1,800 were sent from Canada. The price of the lambs ranged, according to the New England Farmer, from 5c to 5½c per pound, and the sheep sold at 5½c.

His Life Was Saved

M. J. B. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1.00, at any Drug Store; every bottle guaranteed.

WHO WANTS A HOME

The undersigned has some Building Lots in a desirable location, within 100 yards of the South Central School; near churches and close to the Canadian General Electric Works He is prepared to build a house and sell it on the monthly payment principle. Call on or address R. SHERRY, 223 Perry St. dw

MONTREAL LIVE STOCK MARKETS

In Montreal yesterday sheep sold at about 3½c per lb, with lambs at 3½c to 4½c. One spring lamb was bought at $6. Fat hogs sold for $4 50 off the cars.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box.

CZAR'S USELESS CRY.

The Vatican Takes New Ground About the Peace Congress.

THE RUSSIAN SHIP OF FOOLS.

Prelate Says It Will Be Wrecked on the Rock of St. Peter—Czar's Profession Does Not Agree With His Performance in Finland—Scandinavian Countries Out—Cable News.

Rome, Feb. 24.—The Vatican officials are taking a new position in regard to the Czar's peace congress. They say it is useless to cry "Peace" when there is no peace. It was the theft of the Pope's domain in Italy which drove the Government into the triple alliance and made such a ruinous attack on the church.

The Vatican does not think it wise to sanction an effort toward universal peace until the church has come into her own again.

One prelate said yesterday: "Whether we are invited to the peace congress or not, the Russian ship of fools will be wrecked on the rock of St. Peter."

The Finns Are Indignant.

Christiana, Feb. 24.—There is great indignation among the Scandinavian Governments at the Czar's efforts to Russianize the Duchy of Finland. The study of Finnish and Swedish in parts of Russia has been forbidden and oppressive measures have been taken against the Lutherans in the Duchy. The Czar's orders have practically abrogated the Finnish constitution. As a protest against these measures Norway and Sweden are likely to refuse to take part in the Czar's peace conference.

Germany's Persian Consuls.

Berlin, Feb. 24.—Much importance is attached in diplomatic circles here to the sudden decision of the German Foreign Office to recall several of the German consuls from Persia. The incumbents will be replaced by military men of high standing. The Kaiser, it is said, is responsible for this new and interesting departure, which is obviously inspired at the alarm felt at the immense spread of Russian influence in Persia, thanks to the activity and ability of the Czar's representatives.

NAVAL DIPLOMACY.

Admiral Drummond's Rough and Ready Method of Dealing With the Recalcitrant Sultan of Oman.

Bombay, Feb. 24.—Important details regarding the action of the British authorities at Muscat, the capital of the Sultanate of Oman, have just become public. It appears that the news of the lease by the Sultan of Oman of a coaling station to France on the coast of Oman leaked out while the British political agent at Muscat, Major Fagan, was absent. He promptly returned to his post, but the Sultan refused to furnish him with any information. The commander of the British gunboat Sphinx thereupon despatched a lieutenant and an armed party to Bandar-Jissih, but the Sultan, hoping to receive aid from the French, continued to be recalcitrant. The arrival of the second-class cruiser Eclipse, flagship of the East Indian station, with Rear-Admiral Edmund C. Drummond on board, threw the Sultan's subjects into a panic, though the Sultan himself still remained obdurate. During the morning of Feb. 16 Admiral Drummond sent word ashore that unless the Sultan attended a durbar on board the Eclipse at 2 o'clock that afternoon he would bombard the forts at 2.30 p.m.

Notice of the Admiral's intention was sent to the foreign consuls and the town was speedily in confusion. The advisers of the Sultan entreated him to submit and the Eclipse took up a position broadside to the town, while the other British warships cleared for action. The Sultan thereupon posted a notification at the custom house and on the gates of the town that the agreement with the French was cancelled.

At noon the Sultan sent his brother on board the Eclipse, but the British Admiral refused to receive him as a substitute.

Just before 2 o'clock the Sultan of Oman, almost unattended, arrived on board the flagship and remained there for three hours, while the whole population lined the beach and anxiously awaited the outcome.

The Sultan, it appears, completely acquiesced to the British demand and handed over to Admiral Drummond the treaty with France. On the following day the Admiral went to the palace, where a great durbar was held, and the Sultan publicly repudiated his agreement with France.

LONDON'S 15 MUNICIPALITIES.

Mr. A. J. Balfour Introduced the Measure in the Imperial House.

London, Feb. 24.—In the House of Commons yesterday Mr. Arthur J. Balfour, First Lord of the Treasury and Government leader in the House, introduced the London Municipalities bill, the principal measure of the session. The bill divides the metropolis of London into 15 municipalities, each electing a mayor, councillors and aldermen, with full local power. The area of the metropolis known as the City of London, under the jurisdiction of the Lord Mayor and Common Council, is not touched by the measure, which deals exclusively with the territory embraced by the administrative County of London.

The new bodies will have the same powers as are now possessed by the great provincial municipalities of England, and will not be connected with the London County Council, the governing body of the administrative county. The Council in future will deal only with matters of meneral metropolitan concern.

Mr. Balfour, in presenting the measure, said the Government was convinced that the plan proposed was the only one for dealing effectively with such an enormous aggregate of humanity as the population of the metropolis. It was hoped by the Government, he added, that the new bodies might be launched in November of next year.

A Very Ambiguous Answer.

London, Feb. 24.—The Parliamentary Secretary of the Foreign Office, Right Hon. William St. John Broderick, in the House of Commons yesterday, replying to a question on the subject, said that on certain questions the Anglo-American joint commission has made progress towards their settlement, and he added that Her Majesty's Government hoped further negotiations would solve the questions which were still in dispute. The Parliamentary Secretary said that the papers could not be laid on the table, as two commissioners had requested that the proceedings be kept confidential.

THE FAURE OBSEQUIES.

Parisians Attended in Thousands—President Loubet Honored—Trouble at Night, Followed by Many Arrests.

Paris, Feb. 24.—At the funeral of the late President Faure yesterday thousands upon thousands of people thronged the streets and boulevards, and the different societies were fully represented. Members of the Government and army officials were in evidence, and President Loubet attended, wearing the grand cordon of the Legion of Honor and escorted by a squadron of cuirassiers. The new President was greeted with enthusiasm.

Madame and Mademoiselle Faure, who had been praying the greater part of the night beside the remains, attended mass at 8 o'clock in the chapel of the palace. They then retired to their apartments and did not take part in the procession or in the funeral ceremonies.

The hearse, drawn by six horses, each led by a footman, entered the court yard of the palace at 9 o'clock. It was a magnificent car with large black plumes and having a dome decorated with silver stars.

The procession proceeded slowly toward the cathedral, the crowds reverently standing with bared heads as it passed. Nothing was said to President Loubet, who, bare headed, escorted by policemen, was the object of much interest.

Trouble at Night—Many Arrests.

At about 6.30 last evening a crowd of people assembled in front of the offices of The Libre Parole and started shouting "Panama" and "Down with Loubet." Several of these persons were promptly arrested, and Deputy Millevoye (Nationalist Republican), who attempted to rescue them, was also placed under arrest. The rioters then became more violent and factional fights ensued, whereupon the police charged the mob and dispersed it. In the course of the evening a crowd of demonstrators broke the windows of The Petit Journal with stones. This precipitated a fight, in which several persons were wounded, the police making many arrests.

M. Paul Deroulede, chief of the League of Patriots, and M. Marcel-Habert, member of the Chamber of Deputies for Rambouillet, were placed under arrest for refusing to quit the barracks at Reuilly, where they had entered with a returning regiment. Up to midnight about 200 arrests had been made, most of the demonstrators being anti-Semites.

President Loubet gave a diplomatic dinner last evening to the foreign delegates who attended the funeral.

Perished in the Storm.

Cape Mabou, Feb. 24.—Mary McInnis, daughter of James McInnis of Cape Mabou, perished in last Monday night's storm on her way coming home from a neighbor's house. She missed her course and next morning her frozen corpse was discovered quite handy to her home.

GASPESIA MAY CLEAR

Another Transportation Company With Capital $25,000,000.

A FAURE SERVICE IN MONTREAL.

White Star Liner Germanic Successfully Raised—Alleged Robbers Captured and Sent to Guelph and Thamesville—Woman Lives 14 Days With a Bullet in Her Heart.

Madame Evanturel, wife of Speaker Evanturel, is seriously ill.

Mr. W. T. R. Preston sails from Boston for England next Wednesday.

Hon. J. D. Cameron, Attorney-General of Manitoba, left Toronto for Winnipeg on Thursday.

The total assets of the Niagara Gorge Route are about $1,125,000 and the liabilities about $1,140,000.

Mr. Petersen of fast Atlantic fame is staying with Mr. William McKenzie of the Street Railway, Toronto.

The Germanic was successfully raised on Wednesday. The White Star Liner had been sunk at her New York dock for about ten days.

The steamship Gaspesia of the new Canadian line has moved since last reports and it is now thought she may get clear of the ice.

A requiem service in memory of President Faure was held in Notre Dame Church at Montreal on Thursday morning, and the edifice was crowded.

W. R. Dick, secretary of the Kingston Reform Association, has been appointed bursar of Rockwood Hospital for the Insane, vice William Anglin, retired.

William Clark, Joseph Thompson and John McFarlane, suspected of being the Hillsburg robbers, have been captured in Toronto and sent to Guelph for trial.

Mme. Patti is spending her third honeymoon in Rome. There was a tremendous rush for tickets for the charitable concert at which she sang last night.

John C. Swackhammer of Hamilton and Thomas Burns and Arthur Walmsley of Toronto have been taken to Thamesford as suspects in a recent robbery there.

The investigation into the Manitoba Hotel fire at Winnipeg discloses that the fire started under the lavatory in the fourth flat, and worked its way for some time before being discovered.

By playing "Yankee Doodle" three times at the Kansas City great new auditorium, Sousa's band saved a panic in the 25,000 audience that had been frightened by an imaginary cry of fire.

Thursday morning Driver Delagran of St. Catharines, a member of the Welland Field Battery, taking a short course in "A" Field Battery, had the misfortune to break an arm by falling off a horse in the riding school.

Mrs. Augustine Croteau, over 80 years of age, slept her life away at Sherbrooke, Quebec. She fell asleep a week ago and never fully awoke. The case is remarkable. The old lady retired as usual, and no illness was apparent at the time.

A Toronto revenue officer seized a large quantity of smuggled cigars and tobacco in a house in the Township of Nepean on Wednesday afternoon. It is said three noted smugglers are interested, the business having been carried on for six or eight months.

Edward E. Harris, general manager of the Standard Gas & Oil Company of Essex County, died on Thursday morning at the age of 38, at Kingsville, from paralysis of body and brain, caused by a violent attack of la grippe. He leaves a wife, five sons and one daughter.

As shown by the autopsy, Mrs. Sarah Tefft, who shot herself in her home in Fordham, N.Y., on Feb. 5 and died Tuesday morning, lived over 14 days with a bullet practically in her heart. The prize fighter, "Bill" Poole, who was shot in 1856, lived nine days with a similar wound.

Articles of incorporation have been filed by the New York Electric Vehicle Transportation Co., with authorised capital of $35,000,000. The company is empowered to acquire and manufacture, buy and sell vehicles of all kinds to be operated by electricity, compressed air, gas, oil and other means of motive power, also to acquire franchises for the operating of these vehicles to carry passengers and freight of all descriptions.

JAMES HALLY MURDERED.

A Young Torontonian Shot Down in Spokane, Washington Territory.

Toronto, Feb. 24.—News has just been received in the city that James Hally, son of Mr. John Hally, 58 Grove avenue, Toronto, was shot dead by William Albi at Spokane, Wash., on Saturday last. The murder was one of the most cold-blooded ever committed in that city. The victim was shot in the back by his assassin. Albi deliberately waited for him. After young Hally fell from the first shot the murderer fired two other shots, but the first bullet had done its work. Albi then tried to shoot himself, but was prevented by the crowd, as some person struck his arm as he fired the shot at his own head, and the bullet entered the wall. The murderer afterward made good his escape.

Tons of Tobacco Burned.

Leamington, Feb. 24.—The old roundhouse of the Lake Erie & Detroit River Railroad Company, at this place, was totally destroyed by fire last night. Conover & Westcott's entire crop of tobacco was also entirely destroyed. The origin of the fire is unknown, but is supposed to be the work of a tramp. The building contained about 30 tons of tobacco, which was insured for $1,500.

Left Prostrate

Weak and Run Down, With Heart and Kidneys in Bad Condition—Restored by Hood's Sarsaparilla.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have severe spells of coughing that would leave me prostrate. I was told that my lungs were affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done and my brother advised me to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. I continued its use and it has made me a new woman. I cannot praise it too highly." MRS. SUMMERVILLE, 217 Ossington Avenue, Toronto, Ontario. Get only Hood's, because

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1, SIX for $5.

Hood's Pills are purely vegetable, reliable, beneficial. 25c.

If you want good reliable Knives or Scissors buy WALTER'S POPULAR TRUE BRAND CUTLERY. Every blade warranted best steel. Leading dealers sell them.

Daily Examiner.

FRIDAY, FEBRUARY 24, 1899.

THE PULP QUESTION.

(The Globe.)

The close of the negotiations at Washington will bring a number of questions up for solution, but perhaps no one of them is so pressing as the pulpwood question. As matters now are, Canada stands to get the least possible benefit from the possession of its large tracts of spruce timber. The imposition by the United States of a duty on pulp while the logs are admitted free, exerts a depressing influence on the pulp business in Canada, while at the same time a tribute that is constantly growing greater is laid on the spruce forests. We have the evils, therefore, of depletion with the least possible return of benefit therefrom.

It becomes an important question, then, as to what is to be done under the circumstances. If by any act of ours we could secure the conversion of our spruce logs into pulp within our own country, while at the same time not inflicting injury on any class of citizens, we would be abundantly justified in taking the step.

There are two ways by which the object could be reached, namely, by a Federal export duty or by a Provincial decree forbidding the export of logs cut on Crown lands. The export duty is perhaps objectionable, for the reason that it would hit a class whose labour should not be interfered with. Many settlers in new districts make considerable ready money by selling the pulpwood on their farms, and are thereby enabled to tide over the first couple of years that are the most critical that the settler puts in. An export duty would hit this class, and hit it hard, whereas a regulation forbidding the export from Crown lands would not interfere with the business of the settler at all. On the other hand, it would be a positive advantage to him, for the immediate effect of such a step would be a hardening of prices in the United States which would redound to his benefit.

Those most familiar with the trade are convinced that the passage of such a regulation in the various provinces where there are spruce lands would give a sharp impetus to the production of pulp in Canada. It is thought, indeed, that within a very short time but few of the settlers' logs would find their way out of the country as they would be consumed at the pulp mills that would arise at various points throughout the Provinces. Nor would the American market be by any means lost. Every owner of spruce in the United States would put up his prices the moment the supply from Canada was impaired or cut off altogether, so that if the American manufacturer had the advantage of the duty, the Canadian manufacturer would have the advantage of greater proximity to the source of supply. At the worst, however, we would know that we were at least checking the inordinate thinning out of, a forest product that must grow more valuable as time goes on.

DOMINION CATTLE, SHEEP AND SWINE BREEDERS' ASSOCIATIONS.

Very successful meetings of the Dominion Cattle, Sheep and Swine Breeders' Association were held in Toronto from February 7th to 10th inclusive. The memberships of the associations are at least twenty-five per cent. greater than at any previous period. The efforts of the associations during the past year have been along the line of cheaper transportation. At present between local points in Ontario thoroughbred stock in less than car load lots is shipped at one-half the regular tariff rate. Between Ontario, and Manitoba and British Columbia the rates are now to Winnipeg, $72, and to New Westminster, $196, where formerly they were to Winnipeg $120, and to New Westminster $251. The privilege has been granted of allowing thoroughbred calves, sheep or swine in less than car load lots of over three, to be penned off in one end of the car without being crated. For a long time this has been a standing grievance of the live stock men throughout the province.

Inter-provincial trade in pure bred stock from Ontario westward to Manitoba and the Northwest and British Columbia, and eastward to the Maritime Provinces and Newfoundland, has been very large. This trade has been greatly assisted by the associations, both by reduced rates and also by making up carloads of shipments already sold, thus obtaining for the small shipper a card load rate. It is estimated by those who are in a position to speak advisedly that the interprovincial trade in pure bread stock has increased five fold during the past year. For the past two years the Associations have been advertising in the Ontario Agricultural Gazette, the names of the members of the Live Stock Associations, giving a list of the stock each has for sale. These lists have been placed in the hands of breeders throughout all Canada, and it has been to a great extent owing to these lists of stock for sale, that the interprovincial trade has been so large. If possible, during the coming year, these lists will be so extended that they will be published in the maritime provinces and throughout Manitoba and the Northwest. The Associations have already done good work along the lines of transportation, and by advertising the Ontario stock throughout Canada, it is felt that considerably more work along this line can yet be done, which will result in the ultimate benefit to this province.

The Provincial Winter Show held in Brantford in 1898 was the most successful yet held In 1891 there were 81 entries, in 1898, 760 entries. The Provincial Winter Show is not held for the purpose of paying money to prize stock. It is the intention that this Show shall be educational in its nature, from beggining to end. In all departments this object is being catered to. Exhibits in all departments are judged from the consumers' standpoint. Two years ago in the swine department prizes were offered for export bacon hogs, judges being representatives from the pork packing establishments. Last year, in addition to this, a block test was inaugurated, the above named gentlemen doing the judging. This was the first block test in Canada. At the show to be held in 1899 prizes will also be offered in the sheep department for dressed carcasses, the judges of which will be practical men of experience in this line of work. A special lecture hall will be provided at the show, where dressed carcasses of both sheep and swine will be on exhibition and lectures will be delivered by the judges, pointing out the merits and demerits of the various carcases. In all departments of the show an additional prize will be given to exhibitors, supplying data, giving full information as to how the stock exhibited by them was bred, what they were fed and the method of caring for them. This data will be published.

During the summer of 1899 co-operative experiments in swine feeding will be carried on with farmers throughout the province. The pork packers and railway companies will assist the plan.

The associations in their work should receive the hearty co-operation of all who have at heart the welfare of agriculture and the live stock industry in Ontario.

F. W. HODSON,
Secretary.

WOMEN'S DRESS IN ICELAND.

The Kiss is the Universal Form of Salutation in That Country.

The common working dress of the Icelandic women, without distinction as to social equality or wealth, consists of an undergarment of wadmel, in one piece, extending from the shoulder to the heel, fastened at the neck with a button or clasp, with petticoat of white or blue wadmel, and a blue cap, the top of which hangs down on one side and terminates in a tassel. On Sundays and festivals occasions their dress is singular. Then they wear, in addition, a bodice and two or three blue petticoats, called "fas" and in front an apron, bordered with a material resembling black velvet, which is a domestic manufacture. The petticoats are fastened immediately beneath the bodice by a girdle of this black velvet, embroidered and studded with such silver or gilt ornaments as they may possess.

The bodice is also ornamented and fastened in front with large clasps, generally gilt, and rendered more conspicuous by being fixed upon a broad border of black velvet, bound with red. Over the bodice is a jacket, called "treja," fitting close to the shape, and made of black wadmel or velvet. The stockings are of dark blue or red worsted, and the shoes which are of seal, shark or sheep skin, are made tight to the foot and fastened about the ankles and insteps with leather laces. On their fingers the women generally have many rings of gold, silver or brass, according to their means; and be it known, no present is so acceptable to an Icelandic girl as a ring. The most singular and at the same time the most beautiful part of the female costume is the head-dress, called "faldur," which is made of white linen, stiffly starched, kept in shape with an immense number of pins, and from 15 to 20 inches in height. This is the holiday and Sunday head covering.

When you visit a family in Iceland you must kiss each member according to their age or rank, beginning with the highest and descending to the lowest, not even excepting the servants. On taking leave the order is reversed; you must kiss the servants, then the children, and lastly the master and mistress. Both at meeting and parting and affectionate kiss on the mouth, without distinction of rank, age or sex, is the only mode of salutation known in Iceland.—New York Times.

Smoke One With Me.

"Do you smoke?" asked the middle aged man. "You didn't two months ago You oughtn't to smoke, my boy; you're too young and not strong looking." Then the elderly adviser started to light a cigar. "Have a cigar?" he said absentmindedly, as he scratched a match. The young man took the cigar and bit off the end.

"These are very mild," ended the speaker, presumably for the benefit of his conscience—"very mild, and won't hurt you any."—New York Commercial Advertiser.

Capacity of St. Paul's.

As many as 36,000 people have been accommodated in St. Paul's cathedral, but that has been with temporary galleries, etc., erected. On festivals only between 6,000 and 7,000 people find seats. At an ordinary service about 4,000 people will make the cathedral look quite full.

MUNYON'S GUARANTEE.

Strong Assertions as to Just What the Remedies Will Do.

Munyon guarantees that his Rheumatism Cure will cure nearly all cases of rheumatism in a few hours; that his Dyspepsia Cure will cure indigestion and all stomach troubles; that his Kidney Cure will cure 90 per cent. of all cases of kidney trouble; that his Catarrh Cure will cure catarrh no matter how long standing; that his Headache Cure will cure any kind of headache in a few minutes; that his Cold Cure will quickly break up any form of cold and go on through the entire list of remedies. At all druggists, 25 cents a vial.

If you need medical advice write Prof. Munyon, 1505 Arch st., Phila. It is absolutely free.

MARKET REPORTS.

Chicago Wheat Was Active and Advanced and Declined Again—Liverpool Market Had Better Tone—Prices.

Liverpool, Feb. 24.—The wheat market was stronger yesterday and futures closed 3-8d per cental higher than on Wednesday.

Chicago, Feb. 24.—The wheat market showed activity yesterday. There was some buying by big dealers and through commission houses early and the price of the May and July options advanced ⅝c per bushel. The rise brought out sellers.

Liverpool, Feb. 24. — Yesterday the market closed as follows: Spot wheat firm; No. 1 Northern, 6s ½d; futures, red winter, 5s 8 1-8d for March, 5s 8¼d for May and 5s 7 5-8d for July. Maize steady; 3s 6¼d for new; futures quiet; 3s 5 5-8d for March and 3s 5¼d for May. Flour, 18s 6d.

Grand Trunk Engineer Swears by Dr. Chase's Kidney-Liver Pills.

Mr. Geo. Cummings, for over twenty years engineer on Grand Trunk running between Toronto and Allandale, says:—"The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommend by my fireman, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me an I feel to-day a better man than ever. I recommend them to all my friends.

NEWFOUNDLAND'S POSITION.

Does Washington Failure Give Her the Right to Negotiate a Treaty?

St. John's, Nfld., Feb. 24.—The failure of the joint high commission to reach an agreement revives the question whether Newfoundland is not entitled to demand from the British Government the right to negotiate a fisheries treaty with the United States, independent of Canada.

The Bond-Blaine convention, negotiated in 1890, was vetoed by the Imperial authorities only until Canada should have obtained the right to attempt such an arrangement herself, the failure of which would logically involve a revision of the British Government's course.

Royal Templars Grand Officers.

Stratford, Ont., Feb. 24.—The following officers were elected by the Grand Council of Royal Templars of Temperance yesterday: Frank Buchanan, Toronto, Grand Councillor; George H. Lees, Hamilton, Grand Past Councillor; Mrs. Minnie Minns, Port Hope, Grand Vice-Councillor; Rev. J. J. Noble, Harmony, Grand Chaplain; L. C. Peake, Toronto, Grand Auditor; Dr. D. Robertson, Milton, Grand Medical Referee; J. H. Peacock, Milton, Grand Herald; Mrs. Mackenzie, Picton, Grand Deputy Herald; J. S. Green, Newmarket, Grand Guard; J. J. Mason, Bowmanville, Grand Sentinel; Grand Trustees, J. A. Austin and James Hughes, Toronto, and W. A. Wallace, Brooklin; representatives to Dominion Alliance, W. W. Buchanan, Hamilton; Rev. William Kettlewell, Galt; Frank Buchanan, Toronto, and Rev. H. S. Matthews, Newmarket.

What is It?

Catarrhozone is a liquid, fragrant and cleansing, which rapidly volatilizes when inhaled. What is it for? It is an absolute, never-failing cure for catarrh of the throat or nasal passages. Is this true? We are so sure that it will cure you that we will send you, prepaid, a free sample of Catarrhozone and an inhaler if you send your address within one week. Write us.

N. C. Polson & Co., Kingston, Ont.

No Wonder Russia Is Ignorant!

Russia, with her population of 129,000,000, has only 743 newspapers, but little more than half the number published in the state of Pennsylvania, which is 1,430. Of the 743 there are 589 printed in Russian, 69 in Polish, 44 in German, 9 in French, 5 in Armenian and 2 in Hebrew. No English newspaper appears in the list.

The earliest known mention of the pianoforte was in a playbill dated May 16, 1767. The principal attraction was given thus: "Miss Buckler will sing a song from 'Judith,' accompanied by a new instrument called pianoforte."

About 1,500 tons of iron and brass wire are yearly manufactured in Britain into pins.

VALUABLE

Residential Properties

FOR SALE

In Peterborough.

Having decided to remove to Manitoba in the spring, I have decided to sell the following valuable properties at prices that should secure ready purchasers:

Parcel No. 1. A Brick Terrace of four houses, adjoining the corner of Sherbrooke and Park streets, two storys, well built with good stone cellars full size of buildings. Each residence contains six rooms with summer kitchen. This property has always been continuously rented and pays an excellent rate of interest on the investment, and it is practically a new property, being only erected a few years, and is in good condition.

Parcel No. 2. Brick residence corner of Reid and Simcoe. Containing ten rooms. House in good condition with all modern improvements, bath, closets, heated with furnace and lighted with electricity.

Parcel No. 3. Brick dwelling corner Aberdeen and Benson streets, facing Dixon Park, containing seven rooms with summer kitchen. This property was erected last season for myself and occupied by myself. Has hard and soft water in kitchen and is a very comfortable residence. This lot is 103 feet square.

Parcel No. 4. Brick residence, corner Wolseley and Benson streets. Two storys, seven rooms with kitchen, pleasantly situated adjoining Dixon Park. Hard and soft water in kitchen. This lot is also 103 feet square and is a similar building to parcel No. 3.

Parties desiring a good paying investment or home will find any of these desirable purchases.

Particulars and terms, which are reasonable, made known on application to the undersigned.

T. J. MOORE.

TANSY PILLS (Dr. Cotes's Pill) NEVER FAIL. A safe, sure and positive ladies relief. At stores or by mail $1. E. F. COTES, Boston, Mass. "Ladies Beware" &c.

Spring Circular.

Gentlemen will be specially interested to know that spring stocks are nearly complete at H. LeBRUN'S CITY CLOTHING STORE, and that from this highly tasteful and personally selected stock, the public will have the privilege of obtaining the newest goods of the season. Every day new lines of the latest patterns of Canadian, Scotch and English Tweeds, English and French Worsteds, Trouserings and Light Spring Overcoatings have been coming in. These will command the attention of well-dressed men.

The Ready-Made Clothing Department is stocked ready for a big trade in Men's, Youth's and Boys' Suits, richer in high-grade qualities of material and workmanship than ever. There are also many grades of Light Spring Overcoats that feel and look better than they are priced. The stock was personally selected by Mr. LeBrun in Montreal and bought right from the makers.

Among the new Gentlemen's Furnishings are Men's French Cambric Shirts, White Shirts, Light Spring Neckwear, Collars, Cuffs, Nobby Ties, Cashmere Socks, Gloves, Etc., in fact everything in Gentlemen's Furnishings of the latest design.

The whole Stock is Bright with New Spring Novelties and Budding with Bargains in every Department.

H. LeBRUN & CO.

A NEW INVENTION!

The Newcombe Piano Has It.

It consists of a Patented Practice CLAVIER or STOP which diminishes the tone when required and saves wear on the Piano; it also does away with the old way of having to press down the pedal with the foot in order to soften the tone when running the scales or practicing. Oftentimes the young pupil on the piano cannot press down on the pedal without throwing themselves out of the proper position when they should sit erect. This invention in the NEWCOMBE PIANO will enable children to begin two years earlier o the piano. In addition to the above, the NEWCOMBE PIANO is the finest made in Canada. Children often complain about practising; they like it if they have a NEWCOMBE PIANO. 1899 styles are gems of art, containing every late improvement; they possess that beautiful full sweet tone which delights the singer, and so pleases every musical ear. **Organs of every description at Wholesale Prices.**

Big Bargains now on hand in slightly used. Upright and Square Pianos of the various makes taken in part exchange for the famous NEWCOMBE PIANOS. Every NEWCOMBE PIANO has a new registered scale and the warranty is cast in the plate. For correct and full information regarding the new invention and NEWCOMBE PIANOS, write to our Direct Representative. Easy Prices. Liberal Terms.

Does Your Head Ache?

Are your nerves weak? Can't you sleep well? Pain in your back? Lack energy? Appetite poor? Digestion bad? Boils or pimples? These are sure signs of poisoning.

From what poisons?

From poisons that are always found in constipated bowels.

If the contents of the bowels are not removed from the body each day, as nature intended, these poisonous substances are sure to be absorbed into the blood, always causing suffering and frequently causing severe disease.

There is a common sense cure.

AYER'S PILLS

They daily insure an easy and natural movement of the bowels.

You will find that the use of

Ayer's Sarsaparilla

with the pills will hasten recovery. It cleanses the blood from all impurities and is a great tonic to the nerves.

Write the Doctor.

Our Medical Department has one of the most eminent physicians in the United States. Tell the doctor just how you are suffering. You will receive the best medical advice without cost. Address,

Lowell, Mass.

OIL TARIFF WITHDRAWN.

G.T.R. and C.P.R. Withdraw Their Local Rates Favoring the Trust.

Ottawa, Feb. 23.—The result of the appeal against the tariffs established by the two great Canadian railway companies, to promote the interests of the Standard Oil Co. at the expense of its competitors, has resulted in a partial victory for the independent refiners and dealers. The Canadian Pacific and the Grand Trunk, through their legal representatives, agreed to an absolute and unconditional withdrawal of their local tariffs when challenged before the railway committee of the Privy Council yesterday. The importance of this capitulation is indicated by the statement that under the tariffs issued on January 6 last local rates in Ontario on American petroleum and its products were advanced over 50 per cent., while local rates on Canadian petroleum and its products, controlled wholly by the Standard Oil Co., were allowed to remain the same as formerly. The subject was brought before the railway committee yesterday upon the complaint of the Sun Oil Refining Co. of Hamilton (Limited), associated with some other local oil companies.

When Beauty Fades.

In response to repeated inquiries from ladies with whom Dr. Chase's Ointment has become so popular for skin diseases, asking if face powders are injurious and can be used while using the ointment, we state that while the majority of face powders are injurious we can recommend the recipes given in Dr. Chase's supplementary recipe book page 45, which will be sent on receipt of 5 cts. in stamps Dr. Chase's Ointment is the ladies' friend for all skin diseases. Address Dr. A. W. Chase Co., Toronto.

GRANGERS' 24TH MEET.

A Two Days' Session—Election of Officers for the Year.

Toronto, Feb. 24.—For the 24th time the Dominion Grange met in annual conclave on Wednesday and Thursday at the Albion Hotel. Addresses and resolutions pertaining to the benefit of the order were delivered. London will be the next place of meeting.

The following officers were elected: W. M., Jabel Robinson, Middlemarch; W. O., Thomas McMurchy, Thornbury; W. S. and T., Robert Wilkie, Blenheim; W. C., William Oke, Whitby; W. S., C. Shrigley, Allandale; W. A. S., D. W. Lennox, Churchill; W. G., Lyman Henry, Sombra.

Executive—H. Glendinning, F. W. Fisher, J. Robinson and R. Wilkie (W. M.).

Good of the Order—Thomas McMurchy, M. Schiltz, R. W. Southcombe.

Legislation—F. W. Fisher, William Wallace, H. Glendinning, Edward Peart.

Press—D. W. Lennox, F. Parsons, J. McDougall.

Education—J. M. Symn, C. Shrigley, G. Buck.

Agriculture and Horticulture—W. Oke, J. Ramsay, J. Follis.

Finance—A. Elder, Lyman Henry, N. Leckie.

Auditors—E. Peart and J. McDougall. The session closed at 5.30 p.m.

Something for Nothing.

A trial bottle of Catarrhozone and inhaler, prepaid, sent free to anyone who sends his address within one week. Catarrhozone is a sure cure for catarrh, bronchitis, irritable throat, fetid breath, and kindred diseases. How can we offer to do this? Because we know a trial of this pleasant and efficacious remedy never fails. Washes, snuffs and ointments have proved unavailing, but catarrhozone will cure you. Write N. C. Polson & Co., Kingston, Ont.

THE LEGISLATURE

The Budget is Still the Subject of Discussion.

CANADA FOR THE CANADIANS.

Beneficial Effect of the Restriction Upon Exportation of Logs—Mr. Farwell Makes a Canadian Speech That Pleases His Friends—He Urges a Strong Forward Policy in Ontario.

Toronto, Feb. 24.—The afternoon sitting of the Legislature was again devoted to a discussion of the budget yesterday. The speakers were Messrs. Hislop (E. Huron), and Farwell (E. Algoma) on the Government side and Messrs. Duff (W. Simcoe) and McLaughlin (Stormont) for the Opposition. Mr. Farwell's stirring advocacy of a thoroughly Canadian policy which will secure to Canadian workmen the greatest amount of employment in developing and manufacturing our natural products was received with cheers, which also greeted the prediction that as a result of the embargo upon the exportation of logs American lumbermen contemplate the erection of mills in Ontario.

The Budget.

Mr. A. Hislop (East Huron) opened the debate in a half hour's speech, in which he maintained that Ontario had increased its expenditure in a lesser degree than any other province. He justified the augmented cost of education by the results obtained. As to the agricultural farm at Guelph, he said not only the instruction but the experiments had largely benefitted the farmers. The money expended on farmers' institutes was a good investment; in fact, all the appropriations he regarded to have been wisely and well spent for the general welfare.

Mr. J. S. Duff (West Simcoe) launched out with the statement that the Government's surplus was a myth. There was a deficit instead of excess in the receipts compared with the expenditure for the past year. Strenuously he condemned the Government's educational policy, alleging that boys and girls on leaving the public schools are not as well fitted for the battle of life as when there were no advanced subjects taught. He charged extravagance in regard to the Guelph Agricultural College, and said bad management was responsible for the non-paying of this provincial farm. It should be put on a paying basis. Mr. Duff deprecated the export of ore or raw materials from Ontario. He hoped the Government would move in this direction, and that speedily.

Mr. C. F. Farwell (East Algoma) defied the Opposition to instance one dollar of illegal expenditure in East Algoma. On the colonization roads the Government got full value for every dollar expended. He heartily endorsed the proposition that the Government should allow no export of ore or raw material. He favored an export duty on sawlogs, which would cause work in Ontario instead of Michigan, and prosperity would result along the shores of the Georgian Bay. A Canadian policy was wanted not only in this respect but for mineral development. This country would work out its own salvation apart from the Americans. Industrial communities ought to be built up where there was mineral wealth. Every possible encouragement should be given by the Government to this end.

Mr. John McLaughlin (Stormont) said the Provincial Treasurer must have thought hon. members were numbskulls when he told them the Government had a surplus. There must be a screw loose or the Guelph agricultural farm would pay its way, which it had never done, and, under present management, never would. It was a sinkhole for the people's money, and he maintained it had not done the wonderful things that were claimed for it. The Government ran that farm in a rut, and they would continue in that rut till they were turned out of office. After a reference to the Educational Department, he said he objected to the Government putting up to auction valuable timber and putting the proceeds down as receipts of the year, so as to try and equalize expenditure. At 6 o'clock he moved the adjournment of the debate.

Bills Introduced.

Mr. Miscampbell has introduced a private bill to authorize the sale of Knox Church, Toronto.

Dr. Pyne has introduced a bill to incorporate the Synod of Toronto Diocese.

Mr. Pattullo introduced a bill to incorporate the Ontario Historical Society, for the promotion of historical objects. The society wants a Government grant.

Mr. Graham has a bill for an act to amend the Municipal Act; for providing that the councils of townships may pass bylaws for establishing fire limits in unincorporated villages.

Mr. McLaughlin has a bill for an act to amend the Assessment Act; for exempting farming implements and vehicles, hay, grain and other farm products, the property of the owner or tenants of farm lands, from taxation.

Reports Presented.

The sixth annual report of the Department of Neglected Children shows that during the year 895 children were placed in foster-homes. Reports were received from the various societies of the province. The immigration of children from abroad was 461 boys and 357 girls.

The Commissioner of Public Works has issued his annual report, which shows that during the year the total expenditure on maintenance account for fuel, gas, water, repairs, vault fitting, furnishing and furniture was $62,494. Of this $30,736 was for the new Parliament buildings, including salaries of engineers, firemen and messengers. The statement of expenditure on capital account for 1898 was $115,689. Of this amount $72,559 was expended under the Department of Public Works and $43,330 under the inspectors. The report gives a detailed statement, showing that there are 6,691 miles of railway in the province, the total length constructed since Confederation being 4,243 miles.

Deputations Heard.

A deputation from the Guelph Fat Stock Show Club waited on the Government yesterday afternoon, asking a grant towards the Fat Stock Show, and also discussed the question of incorporation, in order that they may own property and legally receive grants from municipalities and other bodies. Col. Mutrie introduced the deputation, which was an influential one.

A deputation waited upon the Ontario Cabinet last night representing the Toronto Trades and Labor Council and the Technical School Board. The object of the visit was to ask the Government to pass the City of Toronto's bill for sanction to issue debentures for $75,000 for the building of a technical school, and also to request the Government to give an annual grant of $5,000 toward maintaining the institution. In answer to the deputation, Mr. Ross said if the revenues of the country could afford it, he had no doubt that the grant would be made.

Petitions Presented.

E. A. Macdonald, G. P. Ridler and W. J. Urquhart are petitioning for an act to amend and interpret certain conditions of sale of the street railway franchise of the City of Toronto.

Charles Miller, G. T. Mallory (by his agent, E. A. Macdonald), J. W. Moyes and G. E. Broadfield are petitioning for incorporation of the Toronto Elevated Railway Company, for the construction of railways (subject to existing rights) within a radius of 50 miles of the city.

Private Bills Committee.

The private bills committee had before them yesterday the bill sanctioning the amalgamation of the Toronto General Trusts Co. and the Trusts Corporation of Ontario. After discussion the committee was unanimous for an adjournment to enable further information to be obtained, and the bill stands.

PECULIAR POISONS

GENERATED IN THE HUMAN BODY.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of death (called by scientists Ptomaines.) are usually the result of imperfect digestion of food, the result of indigestion or dyspepsia.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay), poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain, causing headaches, and pain in the eyes.

Bad digestion weakens the heart, causing palpitation, and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's Disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products: the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure any form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first. A little book on stomach disease mailed free. Address Stuart Co., Marshall, Mich.

Gaspesia Apparently Safe.

Halifax, N.S., Feb. 23.—The steamer Gaspesia is now off West Point, Magdalen Islands, nine miles distant from the land. As a boat could be sent out from West Point without much difficulty, and as they have made no signals for assistance, it is presumed they are not suffering for want of provisions or coal.

Levis Bye-Election Right Away.

Ottawa, Feb. 23.—The bye-election in Levis, necessitated by the death of Dr. Guay, will be held before Parliament opens.

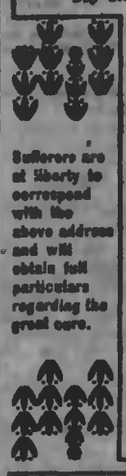
Rev. J. N. Vanatter, of Albion, Wis.

WRITES A LETTER ON DR. CHASE'S OINTMENT.



Sufferers are at liberty to correspond with the above address and will obtain full particulars regarding the great cure.

He says: My wife was most terribly afflicted with protruding piles, and contemplated a surgical operation. A friend of ours recommended the use of Dr. Chase's Ointment, and less than one box effected a complete cure. We were so pleased with the ointment that I tried it myself, as I have been troubled with an unsightly skin affliction which covered the lower part of my face.

For 25 years I suffered untold agony, and was treated by the best medical skill in the United States. I consider Dr. Chase's Ointment worth its weight in gold for piles and skin disease.

Dr. Chase's large-size recipe book, cloth-bound, sent to any address on receipt of 50 cents, by addressing Dr. Chase's Company, Toronto or Buffalo, N.Y.

RAILWAY ACCIDENTS.

Ten Cars Derailed and Fall 72 Feet Into the Irvine River—Man Burned Beyond Recognition.

Fergus, Feb. 24.—Wednesday evening about 6 o'clock, when nearing the bridge over the Irvine River, three miles west of this place, the Grand Trunk mixed train going north was derailed. The engine, tender and eight cars passed safely over the bridge, but the ten cars immediately following went down the bank, a distance of 72 feet, into the river, the second-class coach and car in front of it, although off the rails, remaining on the ties. The trainmen and passengers were unhurt. A bull and a pig went down with the wreck unhurt and when these were secured, the wreck, which was a complete one, was fired.

Yesterday morning the charred trunk of a man was found burned beyond recognition. The remains were brought here. An inquest will be held. The accident was caused by a broken rail.

Other Railway Accidents.

At Cassopolis, Mich., Francis B. Ives, fireman, was killed in a smash-up caused by spreading rails. He leaves a widow and two children.

At Portland, Ore., Harry Buchner, son of the night editor of The Toronto World, is in St. Vincent's Hospital, in that place, from the loss of a leg in a railway smash-up. He was on his way to Portland to cash a cheque in payment for his work on the road, and the train ran into a rock-slide. Harry was standing on the platform and the jolt threw him under the wheels. His right leg was so crushed that amputation was necessary below the knee.

A despatch from Cheyenne, Wyoming, says: One man was killed and seven injured by the wreck of Union Pacific train No. 2, east bound, known as the overland flyer. Mrs. M. E. Appleby of Cobourg, Ont., was one of the injured. It is not stated whether she is seriously hurt or not.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any Drug Store. Regular size 50 cents and $1. Guaranteed to Cure or price refunded.

Carried Out on His Bed.

Tilsonburg, Feb. 23.—About 2.30 yesterday morning the residence of E. Mason caught fire. The fire spread to the adjoining house, occupied by Mr. Miners. Both buildings were destroyed. Mr. Mason has been ill with the grip, and had to be carried out on his bed. He is much worse, and it is feared the shock may prove fatal.

Bob's Second Venture.

Toledo, O., Feb. 23.—The Blade announces that Robert J. Burdette, the humorist, is to marry Mrs. P. C. Baker, a very rich widow of Pasadena, Cal., who has been his lifelong friend. The ceremony will take place at Pasadena about Easter.

About Catarrh.

"I was weak and hardly able to walk. My blood was thin and I was as pale as death. Being told about Hood's Sarsaparilla I began taking it and in a few months I had gained twenty pounds in weight. I kept on with it until I was as well as ever." Arthur Mills, Dresden, Ontario.

Hood's Pills cure nausea, headache.

Imp'ting Jeweler. Practical Optician

THE ODORLESS CREMATORY CLOSET.

I have been appointed Sole Agent for the Odorless Crematory Closet manufactured by the Crematory Closet and General Heating Co., of Hamilton.

This Closet has found a place in many of the best homes in the province, and all who have used it cannot speak too highly of its merits. Medical men speak of it from a sanitary point of view, claiming that, if health is any consideration, no home should be without one. Here are some of the

TESTIMONIALS.

Alliston, March 1st, 1898.

I have had one of your "Crematory Closets" in use now for several weeks and am glad to be able to say that I have found it entirely satisfactory in every respect. I have not been able to detect the slightest odor from it at any time and would not be without it. I am sure it must prove a great convenience to people in the country and in towns where water is not obtainable. Yours respectfully,

JAMES CONWAY.

Sheddon, February 25th, 1898.

I have used it for sometime and find it perfectly odorless. It is a long felt want and I believe it will become very popular especially in rural districts, towns and villages where wells are so frequently contaminated by the ordinary closets. I am, yours, etc.

W. H. MORRISON

Medical Superintendent's Office, Sept. 20th, 1897
Asylum for the Insane, Hamilton.

Gentlemen: I had the opportunity of witnessing yesterday the operation of your Odorless Crematory Closet. It had a large accumulation of fecal matter in the pan when the fire was started, and inside of 30 minutes it was all reduced to ashes. There was no odor before or during the operation of consuming the fecal matter, as the ventilation by the flue seems to carry off all odor at once before it has a chance to vitiate the surrounding atmosphere.

Yours truly. JAMES RUSSELL, M.D.

Elmbrook, Sept. 30, 1897.

Dear Sirs—Having been present at a private test of your new patent closet yesterday afternoon, I beg to express my satisfaction with it in every way. Neither before, during or after the burning out of its contents did I detect the slightest unpleasant odor. I am satisfied it will be a boon to thousands in rural towns, villages and country homes. Yours truly,

M. J. MULLOCK.

ADAM HALL.

Fair; not much change in temperature; Saturday about the same.

Bible Society Annual Meeting.

The annual meeting of the Bible Society will be held on Wednesday evening, March 1st. The speaker of the evening will be Rev. Mr. Knowles, of Galt, formerly of Ottawa.

Close at 8.30.

Beginning on Monday evening next, February 27th, the Peterborough Bookstore will close at 8.30 every evening, except Saturday. Customers for the evening papers, postage stamps, stationery, etc., will please bear this in mind and prevent disappointment.—A. H. STRATTON & Co.

Will be Interesting.

A lecture will be given in St. Paul's church on "The Haunts and Home of Sir Walter Scott," by Rev. A. McMillan, of Toronto, on Monday, Feb'y 27th, at 8 p.m. Tickets may be obtained at the stores of Ormond & Walsh, H. S. Macdonald, Peter Connal and A. G. Dickson. Price of admission 25 cents. 4d-1w

A Pretty Souvenir

THE EXAMINER has to thank the Stearn's Bicycle Co., through their local agent, Talbot Bros., for a handsome photogravure of the Toronto Cadets, who went to Tampa at the invitation of the Governor of Florida. The picture is as up-to-date as the Stearn's wheel for '99 and is a very pretty souvenir of the trip, which will not soon be forgotten.

Dr. Green's Specific.

57TH BATTALION NON-COMS.

Their Annual Outing Last Evening an Enjoyable Affair.

The Non-commissioned officers of the 57th Battalion had a jolly time last evening in Lakefield, where their annual outing was held.

The non-coms. took the Queen's Hotel by storm, where Mine Host Monroe served an excellent spread for the boys. At the conclusion of the supper a toast list was run off and the remainder of the evening spent in a true soldierly manner by the presentation of an excellent musical programme.

The following was the toast list presented:—"The Queen," responded to by the President, Sergt. W. Edwards. "The Governor-General" was next proposed and Sergt. R. E. Layfield responded in a few well chosen remarks. "The Army and Navy" brought to his feet Corp. J. Irwin, who made a capital speech. "The 57th Battalion" proposed by Sergt. Ringer, was responded to by Sergt.-Major Peters and Corp. T. Mulligan, and Corp. R. Cotterell replied to the toast of "The Town and County of Peterborough." The important toast of "The Ladies was ably handled by Sergt. C. Campbell, Corp. Cotter and Private P. T. Starr." The last toast that of the "Host and Hostess," was responded to by Mr. Robt. Munroe, the genial proprietor of the Queen's Hotel, who stated that he never catered to a more gentlemanly lot of young men than the non-coms, who would always be assured of a warm welcome at the Queens in the future.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—A concert was held at Hiawatha last evening, and several gentlemen from town took part in the programme.

—Miss Drury, Cobourg, spilled coal oil over the outside of the lamp, when she was lighting it. This became ignited and led to an explosion. Her clothing caught fire, and but for the help of neighbors she would have perished.

—Professor Robertson reports that Canadian honey in one pound bottles is selling on the British market for over seventeen cents per bottle. Other qualities bring about nine cents per pound wholesale.

—The Omemee Mirror says:—Mr. Richard Cornwall sold two fine cows to Mr. Wilson, of Peterborough, on Monday last. One cow, Polled Angus breed, weighed 1615 pounds and the other weighed 1100 pounds. Mr. Cornwall received a handsome sum for the pair. On being asked what feed he used to raise such fine stock, Mr. Cornwall replied: Oat chop, clover hay and a daily appliance of the curry comb and brush. Mr. Geo. McQuade sold to the same gentleman two fine head of cattle; Mr. John Fee, one; and Mr. Wm. Ingram, one, each bringing a big price.

—The Marks Bros. Company are occupying the boards this week at the Opera House and their success as entertainers is evidenced by the large attendance each night, notwithstanding the very dull season of the year. The company as now constituted is a very strong one and capable of giving the plays proper representation. As of yore the feature of the entertainment is the specialties introduced, making the performance a continuous one. Miss May Bell, in the title-role, does her part justice, as in fact do all the other members of the company. The inimitable Fred Wilson, who, when last around here, had a company of his own, is again with the Marks Bros. The singing and dancing of Petite Gracie and Baby George are features of each entertainment.—Daily Citizen, Ottawa, Nov. 8th. At Bradburn's Opera House two weeks, Feb. 27 to March 4th. 10 and 15c.

GOOD TEMPLARS.

Annual Meeting of the District Lodge on March 3rd.

District Lodge No. 10, I.O.G.T., will hold its annual session at Mount Pleasant on Friday, March 3rd, at 2 o'clock p.m.

This will be a very important meeting, as the District Lodge officers will be elected for the ensuing year.

There will be an afternoon and an evening session, and as there is considerable business to be transacted, it is hoped that the delegates will be as punctual as possible.

Mount Pleasant Lodge will entertain the visiting delegates to tea.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpright, practical piano maker and tuner, with 25 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

THE SUNDAY SCHOOL ANNIVERSARY EXERCISES

HELD IN THE PARK STREET CHURCH LAST NIGHT.

Tea Served and an Interesting Programme Prepared—Presentation to Miss Mann, the Superindent of the Sunday School.

The annual entertainment in connection with the Park street Baptist church Sunday school was held last evening, when the church was crowded to the doors by the children, the members of the congregation and their friends.

Tea was served from six until eight o'clock, and afterwards a musical programme was presented, which proved most entertaining. Choruses were well rendered by the pupils, as well as a number of dialogues and recitations.

The chair was occupied by the pastor, Rev. O. C. Elliott.

THE SECRETARY'S REPORT

for the year was submitted as follows:

While the year just closed has not been marked by any events of a special character, we believe, yea, we know, the presence and power of the Holy Spirit has been manifested, and evidences of His working have appeared from time to time in the conversion of many of our scholars. Of those who gave evidence of having passed from "death unto life," seven have been baptised and added to the church. This year, more than any other in our history, has shown, during the holiday season, a decreased attendance, which somewhat lessens the average for the year. Our enrollment at present is 249; the average for the year being 155.

One scholar, Mabel Boys, from our school, passed away during the year to be with Jesus.

The receipts and expenditures have been as follows:—

Receipts.

Balance on hand from last year	$ 5 79
Ordinary Sunday collections	55 80
Missionary collections	23 94
Anniversary collection	6 60
Proceeds of excursion	33
Balance due Treasurer	2 55
	$103 06

Expenditure.

Paid for Supplies and other expenses	$ 33 12
" Foreign Missions	11 36
" Home Missions	6 24
" Grande Ligne Missions	9 18
" Manitoba Missions	2 16
" Church	12 00
	$103 06

H. R. MARTIN,
Secretary.

AN ADDRESS.

One of the most pleasant features of the evening was the presentation of a gold chain to Miss Maggie Mann, the efficient superintendent of the Sunday school. Miss Eva Elliott made the presentation and the following address was read by Mr. H. R. Martin:

To Miss Maggie Mann:

We, the officers, teachers and scholars of Park street Baptist Sunday school, take this, the occasion of our annual festival, to express to you our deep appreciation of the services you have rendered our school during the past eight or nine years as superintendent and also the high regard in which you are held by us, for the integrity of your Christian character.

We feel that the past success and present efficiency of the school is in a large measure due to your faithful and untiring efforts, while the earnest spirit of self-sacrifice manifested by you has been an example worthy of our closest imitation.

We therefore tender you the accompanying gift as a slight token of our appreciation of your "work of faith and labour of love," and also as a pledge of the esteem in which you are held by the officers, teachers and scholars of the Park street Baptist Sunday school of Peterborough. We wish you many years of life and usefulness in the service of our Lord and Saviour, Jesus Christ.

Signed on behalf of the school,
H. R. MARTIN,
EVA ELLIOTT.

The presentation was suitably acknowledged by Miss Mann.

THEY ARE DUTCH ROLLS.

A Light Weight Bread Case Dismissed by the Magistrate.

At the Police Court this morning a local merchant was charged with selling light weight bread, manufactured by a Toronto baker.

The magistrate dismissed the case, and held that the bread supplied was made into Dutch rolls, and, therefore, did not represent a loaf of bread.

A GENEROUS GIFT

To the Funds of the Children's Aid Society.

The Board of Management of the Children's Aid Society desire to express publicly their gratitude to Mr. George Read, of Keene, for his generous donation of twenty dollars to the funds of the society.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady of this country. "Disease fastened his clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz," Thus writes W. C. Hamnick & Co., of Shelby, N. C. Sold by all Druggists at 50 cents and $1.00. Every bottle guaranteed.

TO CURE TOOTHACHE IN A MINUTE

Use NERVOL. One application cures; if not, your money back. Equally good for Neuralgia and Headache. 25c, at all Druggists.

LIVERY STABLE BUSINESS
For Sale by Tender.

THE EXECUTORS OF THE LATE JAMES C. Carveth will receive tenders up to the Eighth day of March, 1899, for the purchase of the undivided half interest held by the late James C. Carveth in the Livery Business carried on at the village of Lakefield, under the name of Calder & Co. Stock can be seen at the firm's barn in Lakefield.

TERMS: Ten per cent. of the price to be paid at the time notice of the acceptance of tender is given and the balance to be paid within ten days, when possession will be given. No tender necessarily accepted. Address tenders to

W. SHERIN,
Lakefield, Ont.

M1w

It's A Matter of Necessity.

We have just finished Stock-taking, which has taken us longer this year, owing to our very large stock. This we must reduce at once. We have looked up anything and everything that will interest close buyers and intend offering all odd lots and small quantites at prices that will clear them quick.

Wall Paper Chances.

It is not too early to talk of Wall Paper. We must make room for 12 tons of brand new Wall Paper, so if you feel like papering now, here is your chance.

We have some Old Lots of Glimmer and Gilt Paper, with match borders and ceilings in 9 roll lots, 11 roll lots, 13 roll lots, 15 roll lots, ranging in price from 10c., 12c. and 15c., will clear them this week at 8c., 7c. and 6c. per roll.

A Pull-Down in Window Blinds.

We must have room in our Window Shade Department to stock 1500 new Shades. To do this some of our present stock must go. If low price and good quality combined will sell them, we will give you the combination. Come and see the Window Blind we will give you for 49c. and 38c.

Spring is Coming

So are our New Baby Carriages. We will not be bested by the biggest firm in Canada. You have just to see our $8, $9, and $10 Carriages to be convinced that our cash brings us as good value as any other house.

Pictures and Picture Framing

Is fast becoming a leading line with us. See line of $1.25 Pictures, framed with 3 inch heavy frame, going fast at 89c.

Cornice Poles

Are a necessity in every household. We are prepared for you in this line—we have a few small lots to clear. One specially fine line of wood trimmings, cherry finish with 5-foot polished cherry pole, brackets and pins complete, worth 50c. for 33c.

Bargains in Books Continued.

In the place of Books we want the shelf room and therefore will continue to offer you very special inducements to complete your library. We never had and never will have such values to offer in books. Our 50c. Books in fancy bindings are a marvel at 24c.

No store in Canada selling same line as cheap. Our big discounts in quantities for Sunday School and Public Libraries, increase our sales bigger than ever.

We Have the Stock

To lower the value. We intend giving you more for your money. We are out for the biggest spring trade.

FRIDAY, FEBRUARY 24, 1899.

RESOLUTIONS OF CONDOLENCE.

Concerning the Death of the Late H. J Burns.

The following kindly notices of resolutions of condolence have been received by the family of the late H. J. Burns, McDonel street :

At the regular meeting of the class in Machine Drawing of the Peterborough Mechanics' Institute on the evening of Thursday, February 2nd, 1899, it was moved by Mr. Peter Gillespie, seconded by Mr. John T. O'Connell and unanimously carried, that the following resolution be forwarded to the members of the family of the late Mr. H. J. Burns: "The members of the class in Machine Drawing of the Peterborough Mechanics' Institute desire to convey to the bereaved family of the late H. J. Burns their appreciation of the character and regret because of the death of their esteemed classmate. Since it was their privilege to make his acquaintance his genial disposition, punctuality, fidelity to duty and desire to excel have impressed on his fellow-workers the sterling traits in the young man's character, and they extend to the sorrowing family the hand of sympathy in the loss of a worthy son and brother, who gave promise of a useful life.

W. H. HILL,
Chairman of Class Committee.
WALTER J. FRANCIS,
Class Instructor.

At a regular meeting of the Catholic Literary Association, it was moved and unanimously carried that the following resolution be forwarded to the family of the late H. J. Burns :—

"That we the members of the C. L. A. desire to record with deep regret our heartfelt sorrow for the loss we have sustained by the death of our esteemed member, Harry Burns.

Resolved that we, the members of the C. L. A. tender to the parents and family our sincere sympathy and condole with them in their great loss and pray that God in His infinite mercy will protect and comfort them.

T. J. BRODIGAN, President. J. J. MCCANN, Rec. Sec.

The family desires to express their full appreciation of the sympathy which has thus been extended to them.

PERSONAL

Mayor Davis is in Toronto to-day.

Ven. Archdeacon Casey was in Lindsay yesterday.

Miss Ethel Moore is visiting friends in Toronto.

Miss Mills is visiting Mrs. George Leach in Millbrook for a few days.

Mr. D. A. Shaw, artist, is in town to-day on professional business.

Miss Ada McBain will spend the next few days at home, having returned from school for a short holiday.

Mr. E. S. Moyer, of the York County Loan and Savings Co., was in Norwood Tuesday on business.

Mr. George Greer, of Pine Grove, Orillia, has been visiting friends in town for the last few days.

Miss Flora Collins has entered upon a course of training in the Sick Children's Hospital at Toronto.

Mr. Jack McDonald, late foreman of the Warder office, Lindsay, is in town renewing old associations, especially among the members of the fourth estate.

Mr. L. B. Copeland of Kippewa, who has been visiting in town with his sister, Mrs. John Hart, Edinburgh street, left last night for his home. Mr. Copeland is well known by the C. P. R. staff.

The Appetite of a Goat

Is envied by all poor dyspeptics whose Stomach and Liver are out of order. All such should know that Dr. King's New Life Pills, the wonderful Stomach and Liver Remedy, gives a splendid appetite, sound digestion and a regular bodily habit that insures perfect health and great energy. Only 25 cents at any Drug Store.

PRESBYTERIAN WOMEN CONFER TOGETHER.

FOREIGN MISSIONARY SOCIETY OF THIS PRESBYTERY.

Seventeenth Annual Meeting—It was Held in Campbellford—Papers Read by Peterborough Ladies—Miss Forsythe Elected President.

The seventeenth annual meeting of the Peterborough Presbyterial W.F.M. Society was held in St. Andrew's church, Campbellford, on Tuesday and Wednesday of last week.

Four sessions were held, all of which were well attended. In the absence of the president, Mrs. Walter Roger, Miss Forsythe, first vice-president, presided at all the sessions except the Tuesday evening meeting. She was assisted in the devotional exercises by Mrs. McPherson, Mrs. McLelland, Mrs. Coleman and Miss Nicholl.

The Presbyterial report was presented by Miss Dickson, corresponding secretary. In the absence of the treasurer, Miss Craik, Mrs. (Rev.) Laird read the financial statement, which showed that while some auxiliaries and mission bands had a large increase in funds, others had fallen far behind in this respect. Miss Blanche Willman then rendered a vocal solo.

Mrs. Jeffrey, of Toronto, secretary for Indian work in the Northwest and British Columbia, gave a

VERY INTERESTING ADDRESS

on missionary work among the Indians. It contained an account of the development of the work from the time of Rev. James Nisbet, of Oakville, left in 1803 and after spending four years with Rev. John Black at Kildonan, in the Red River settlement, he started off with carts across the country, five hundred miles to Prince Albert, where the first Indian mission was started in 1866. Now there are eight missions and several schools, where Indian children are taught trades. Mrs. Jeffrey's personal acquaintance with the work made her address specially helpful.

In the evening a public meeting was held, Rev. R. Laird, the pastor presiding. After the opening exercises Mr. Laird in his usual happy and genial manner, addressed a most cordial welcome to the members of the society, speaking in high terms of the work they sought to do, and expressed the hope that they would in the near future visit Campbellford again.

Mrs. McLelland, of Toronto, was listened to with close attention while she gave a most practical and soul-stirring address. She spoke of the important part undertaken by women in missionary work, and the need for deeper interest and greater consecration among Christian women.

A PAPER ON "GIVING,"

prepared by Mrs. Hall, of Peterborough, was read by Miss Nicoll, of Norwood, presenting in concise form the Scriptural teaching on this important subject.

The last address was given by Mr. Thomson, of Hastings, who represented the Presbytery. He spoke on "The Triumphs of the Gospel," showing clearly how the history of Christianity consisted of a long succession of earnest missionary efforts.

The music rendered by the choir was of a superior character and deserves special mention. It was supplemented by a trio by Mrs. Smith, Mr. Owen and Mr. Geo. Dickson, and a solo by Mr. Stevenson.

The meeting on Wednesday morning was devoted to business. Reports were given by the Clothing Committee and the different Auxiliaries and Mission Bands. The Secretary's report showed that $1,564 was raised by the Presbyterial. The value of clothing sent to British Columbia was $298 95. There are 23 auxiliaries with 457 members, and 12 mission bands with 653 members.

Then followed the election of officers for the ensuing year :

THE OFFICERS.

President—Miss Forsyth, Peterborough,
1st Vice—Mrs. Laird, Campbellford.
2nd Vice—Mrs. Roxburgh, Norwood.
3rd Vice—Mrs. Thomson, Hastings.
4th Vice—Mrs. Hay, Cobourg.
Treasurer—Mrs. Craik, Port Hope.
Literature and Cor. Secretary—Mrs. J. Davidson, Norwood.
Cor. Secretary—Miss M. Dickson, Peterborough.

An invitation was given on behalf of the Norwood Auxiliary to hold the next annual meeting there.

On Wednesday at 2 30 the last session was held. After the devotional exercises and reading of minutes, Mrs. McPherson, of Peterborough, read an excellent paper on "Prayer and the Holy Scriptures."

Mr. George Dickson then favoured the meeting with a solo, "Nearer my God to Thee." A very interesting paper

WRITTEN BY MISS BRODOGAN,

of Peterborough, was read by Miss Ferguson of Peterborough, entitled "Why Young People should be Interested in Mission Band Work;" another by Miss Campbell, of Keene, "Privileges and Responsibilities of Mission Band Work," and a third by Mis White, Lakefield, on "Enthusiasm in Mission Band Work." A discussion followed the reading or the papers and was taken part in by several present. It is hoped the Conference will bear fruit in the way of bands being organized in many places where there are none at present.

The advisability of changing time of meeting was discussed. It was finally decided that the annual meeting be held in June.

Votes of thanks were passed to the pastor and manager of St. Andrew's church for the use of the church ; to the choir, organist and soloists who contributed so materially to the success of the meetings ; to the retiring secretary, Miss Craik, for the very efficient way in which she has discharged her duties ; to the friends who so kindly opened their homes to the delegates ; to the G. T. R. for reduced rates.

After a few appropriate closing words from the President, the good old missionary hymn "From Greenland's Icy Mountains" was sung, and a most helpful and enjoyable meeting was brought to a close. Delegates were present from Peterborough Port Hope, Norwood, Lakefield, Havelock, Hastings, Keene, Centreville, Warkworth and Vernonville.

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes : "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great sufferings for years. Terrible sores would break out on her head and face, and the best doctors could give no help ; but her cure is complete, and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidney and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by all Druggists, every bottle guaranteed.

Buy direct from Grafton & Co., the Clothing Manufacturers.

BOARD OF WORKS.

Business Transacted by the Board Last Evening.

The Board of Works met last evening in the town clerk's office and dealt with a few matters of interest.

They will recommend the council to pay the Dolan & Sheehy contract balance, which was withheld from them, if their bondsmen are willing.

Two applications for the position of town engineer were read, but nothing was done in the matter.

OUR COLUMN OF SPORTS.

SOME TIMELY REMARKS ON SEASONABLE GAMES.

What is Going on in Local and Outside Hockey Arenas—Notes From the Curling Ice.

HOCKEY.

A despatch from Kingston says :—The foregone conclusion that Queen's senior team would win the Robertson Trophy for the first time has been fully realized, though Varsity made a strong bid for the honor. With a handicap of six points against them, many thought the Varsity hockeyists would have gone on the ice merely for giving Queen's a return match, and not to make any attempt to win, but the Torontonians proved themselves dishands, and gave the Presbyterians a hard battle. The ice was in good condition.

The largest crowd of spectators that has so far graced the Kingston skating rink this season witnessed the struggle. One minute after the event opened Queen's scored. Dalton doing the trick. Two minutes later Harty scored, repeating the trick two minutes later. Dalton tallied the fourth goal, and as yet Varsity had not yet attempted a goal. McKenzie sent up Varsity stock by scoring the first point, and Harris advanced Queen's score a minute later, but almost immediately afterwards McKenzie again found an opening, and shot the puck past Carmichael, making the score 5 to 2. It took four minutes for Dalton to tally again for Queen's and shortly afterwards McKenzie added the last point Varsity scored in the first half. A minute before half time Harty scored for Queen's, making the tally 7 to 3.

In the second half Varsity pressed Queen's very hard, and succeeded in putting in five more goals, the scoring being done by Snell, McKenzie, Sheppard and Darling, who added two. Dalton scored twice and Newlands once for Queen's, the the game finishing 10 to 8 in Queen's favour. In the second half Snell and Sheppard exchanged places. Almost all of the second half was played in Queen's territory. Darling was the brilliant star of the two teams. He did yeoman work for his team, and was by far the most distinguished player on the ice. Snell and Sheppard also appeared to good advantage. Queen's played a very poor game throughout. There was very little team work indulged in by either team. The teams :—

Queen's—Goal, Carmichael ; point, Curtis ; cover-point, Merrill ; forwards, Harty Dalton, Harris, Newlands.

Varsity—goal, Waldie ; point, Isbister ; cover-point, Darling ; forwards, Snell, McKenzie, Sheppard, Brodie.

At the conclusion of the match the Queens team entertained the visitors to a Banquet in the British American Hotel, at which Principal Grant presided. Mr. J. Ross Robertson, M. P., was present, and presented the championship cup to the victorious team.

Queen's Hockey Team intend challenging for the Stanley Cup.

The William Hamilton Company's hockey team challenges the Printers to a game, notwithstanding their defeat of a year ago. The Printers are ready to play at any time, Wednesday and Thursday evenings excepted.

Waterloo defeated the T. R. C. team last night by seven goals.

The Kingston Whig says :—"Some time ago Frontenacs asked Peterborough hockey team for a game to be played here. As yet no answer has been given, and even the receipt of the invitation has not been acknowledged. Probably the Peterborough team does not care to face the possibilities of another defeat." The fact of the matter is that the Frontenacs only offered $40 for expenses, which sum would not pay the railway fares of the team. Home and home matches, however, should be arranged with the Frontenacs, as such a team should draw a big crowd here. The Frontenacs boast that they are stronger than Queen's.

The Catholic Association desires to accept the challenge of the Y. M. C. A. hockeyists to a friendly game, and would ask them to fix the date, and also to secure the ice.

The Auburn Night Hawks journey to Lakefield to-morrow, and will battle with the village hockeyists.

Y.M.C.A. ATHLETICS.

In Wednesday's daily it was stated that a Y.M.C.A. hockey club had been organized. Such is not the case.

CURLIANA.

As the ice at the rink is in good shape again, the Thistles will doubtless be out in full force to night.

A rather exciting bout at the ice took place last night between rinks skipped respectively by Mr. J. H. Burnham and Mr. T. Rutherford, the former administering to the latter the first defeat of the season in a very decisive manner. The score :

R E Wood,	Dr Maher,
Dr Greer,	W J McCallum,
T Ferguson,	Geo Kerr,
J H Burnham, sk..19	T Rutherford, skip....3

The contest created considerable excitement amongst the members of the curling guild.

BASEBALL.

A movement is on foot amongst local baseball enthusiasts, to form a league in town to be composed of nines from the different manufacturing concerns. A meeting will likely be called at an early date to discuss the scheme.

SPRINGVILLE.

From Our Own Correspondent.

Mr. Rupert and Misses Blanche and Florence Clark and Miss Fowler, of Colborne, were visiting friends in the village last week.

Miss Annie Larmer, of Centreville, spent a few days visiting friends this week.

Miss Ada Porter, of Millbrook, is visiting at the home of her uncle, Mr. Wm. Clark.

Asthma Gasps.

The wheezing and strangling of those who are victims of asthma are promptly relieved by a few doses of Dr. Chase's Syrup of Linseed and Turpentine.

PICTURES AND PICTURE MOULDING.

We always have a good assortment of Framed Pictures besides fine select Engravings in the in the sheet. Just received a new lot of Mouldings in latest designs. Get your picture Framed at CLEGGS' Furniture Ware-rooms.

MANY will heartily appreciate the appetizing changes in their daily Bill of Fare which the Lenten Season brings to their tables.

Lenten Dainties

In the Special Lines of Delicacies which our Grocery Department supplies, our policy is to offer the very choicest which the market affords. We can confidently recommend our Ale and Porter—being kept in prime condition and thoroughly matured. Gentlemen who wish to replenish their wine cellars should sample our stock.

IN ELEGANT TWO-TONED EFFECTS.

Now open for inspection, combining the swellest shapes and shades in New Neckwear for spring, representing the very "latest out" in fashionable patterns of modified London, Paris and American ideas.

Prominence is given to dressy stripe and plaid designs in two-toned effects—green and white, blue and white, grey and white, red and black, and light material silks with disc figures.

Among the reigning shapes, Ascots, Flowing Ends, Four-in-Hands, Puffs and Soft Wide-end Bows are favourites.

The exclusive local sale of these Swell Novelties has been retained for this store. See our greatly admired window display.

C. B. ROUTLEY, GEORGE ST., PETERBOROUGH.

BRANCHES : 264 QUEEN WEST, TORONTO. THE ARCADE, ST. LAWRENCE MARKET.

Energy Easily Earned,

DR. WARD'S BLOOD & NERVE PILLS

Wasted energy must be made up or the body will weaken and perhaps perish.

For a long time prior to taking Dr. Ward's Blood and Nerve Pills my nerve system was greatly deranged and I was terribly nervous, so much so that in my business (Lineman of the Kingston Electric Light Co.,) my extreme nervousness naturally made the following of my business extremely hazardous. Before taking Dr. Ward's Blood and Nerve Pills my kidneys had been affected for some time. I had constant soreness and stiffness across my loins and the small of my back. My appetite was variable and very poor, I also suffered greatly with constant headaches. I am glad to be able to inform you that Dr. Ward's Pills completely cured me of all the above ailments and made me a well man. I have found no medicine like Dr. Ward's Blood and Nerve Pills, although I have tried many different kinds. They acted quickly and effectually on my nerve system, making my nerves strong and removing all indications of nervousness. These valuable pills also removed all kidney and back trouble and restored to me a healthy vigorous appetite. I have had no headache since five months ago and feel justified in saying that they are a wonderful remedy. They not only removed nervousness, but gave me healthy kidneys, removed all soreness and stiffness from my back and loins, cured me of headache and gave me a good appetite, consequently I am highly pleased. I know of no medicine that equals Dr. Ward's Blood and Nerve Pills for nervousness, chronic headache, sore kidneys and back and loss of appetite. Yours truly, John McCutcheon, 522 Priacess St., Kingston, Ont.

All good druggists sell them. If they won't, we will supply you by mail on receipt of price, 50c. per box, or 5 boxes for $2.00. The Doctor Ward Co., Limited, Toronto, Ont.

HE FACED GREAT DANGER.

But, Not Knowing It, He Escaped Being Considered Brave.

"I noticed a couple of reminiscences as to my old branch of service," said an ex-naval official to the writer, "which reminded me of an incident in my own career. I was an assistant engineer on a cruiser bound from Norfolk to South American ports, and our ship was telling off 14 or 15 knots an hour one day, when a crank pin came out, and the next instant the crank was thrashing around in a most recklessly unsystematic fashion. Everybody in the engine room—and there were some men of considerable rank there just then, as it happened—made a dash for the deck. Meanwhile I quietly took four or five steps and shut off the steam. Of course the engines stopped, and then followed the delay caused by making the necessary repairs.

"It didn't occur to me that I had performed any act of an especial character until the chief engineer informed me that I was a confounded fool. 'Don't you know your place under such circumstances, sir?' he asked, and when I answered that I thought I had taken my proper position he continued: "No, sir; your duty was to make your way as soon as possible to the deck. With that piece of steel whirling and crashing about it was one chance in a thousand that a single soul would escape an instantaneous cooking, because if that thing had carried away the steam connections your life would have ended right then.'

"'Well, I took the chance,' I answered.

"'Yes, sir, you did, but you didn't know it, therefore it is not at all to your credit,' was the chief's answer, and it was so absolutely true that I couldn't for the life of me make any reply."

UP IN WINDSOR.

Mr. Cole Discovers the Power of Dodd's Kidney Pills.

Windsor Feb. 20.—The following statement, which Mr. F. H. Cole of this place requests us to publish, is worthy of attention from every victim of Rheumatism in Canada.

Mr. Cole's experiment fully warrants him in making this statement.

"Words cannot describe how I suffered from Rheumatism and Kidney Complaint. I tried every cure that was recommended, but got no benefit until I began using Dodd's Kidney Pills."

"Thank God I did use Dodd's Kidney Pills, for they cured me—made me sound and well, in every joint and limb."

Those who suffer the agonies of Rheumatism or Lumbago need do so no longer. Dodd's Kidney Pills will cure them.

The Honeymoon.

An early Anglo-Saxon custom, strictly followed by newly married couples, was that of drinking diluted honey for 30 days after marriage. From this custom comes the word honeymoon or honeymonth.

Persons who don't know enough to come in out of the wet are not likely to be the salt of the earth for any length of time.—Detroit Journal.

Red Hot From The Gun.

Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment help ed for 30 years. Then Bucklen's Arnica Salve cured him. Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada

No. and No. 2 Sold in Peterborough by John Hagaart Druggist.

SOLEMN JERUSALEM.

Trade and Commerce Are Confined to Life's Necessities.

Jerusalem is a city of surprises. It is, apart from its sacred associations, an intensely interesting spot, even to travelers who are already saturated with the hitherto unfamiliar and surprising charms of Cairo, Athens and Constantinople. Its size can best be expressed by the statement that the journey round the outside of its walls may be made by an ordinarily rapid walker in the space of an hour.

Its houses are small, irregular in shape, squalid and mean. Its streets, if streets they can be called, are not named or numbered; they are never cleaned, and in many instances are steep, crooked, narrow, roughly paved; and they are vaulted over by the buildings on each side of them. Never a pair of wheels traverse them, and rarely is a horse or donkey seen within the walls.

The halt, the maimed and the blind, the leprous and the wretchedly poor, form the great bulk of the population of Jerusalem, and, with the single exception of the Hebrews, they are persistent and clamorous beggars.

Trade and commerce seem to be confined to the bare necessities of life and to dealers in beads and crucifixes. There is but one hotel and one Turkish merchant, who displays in his little windowless, doorless shop a small assortment of silver charms, trinkets and bric-a-brac to the gaze of the passer-by, and is almost the only shopkeeper who sells anything like luxuries in the place. His customers, of course, are the pilgrims who come to see, and not to worship. Jerusalem is unique as a city. Everything is serious and solemn and severe.

It has no clubs, no public houses, no beer gardens, no concert halls, no theaters, no lecture rooms, no places of amusement of any kind, no street bands, no wandering musicians, no wealthy or upper classes, no newspapers, no printing presses, no book shops, except one outside the walls for the sale of Bibles, no cheerfulness, no life. No one sings, no one sports, no one laughs in Jerusalem; even the children do not play.

A Wicked-Looking Weapon.

"The designer of this weapon certainly has no moral object in view," remarked a Davis street instrument-maker yesterday as he displayed a combination six-shooter, dagger and brass knuckles. The weapon is ingenious in its construction, but the average man cannot grasp the purpose of the talent that perfected the work. The owner of the aggressive freak keeps it on exhibition, surrounded by a lot of sextants, chronometers, glasses and similar needs of navigators.

"I know very little about the weapon," he explained. "It was given to me by a sea captain, who claims to have purchased it in a Mexican port. It has few marks, but still they are sufficient to establish that a Frenchman invented it." A. L. Doine, Invur, is engraved on the barrel, and that is the extent of the marks of identification.

At first glance, and even after inspection, the freak impresses one as being the most villianous tool ever designed for a burglar, highwayman or tough. A glance at its make-up shows that it carries danger and death at three points, yet it does not exceed ten inches in length when arranged for full action.

The central portion of the piece is a six-chambered revolver, designed to use the pin-fire cartridge once so popular, but obsolete since the invention of the center-fire cartridge that may be reloaded. The handle is a sure enough brass knuckle, arranged by a joint to swing around, so that the cartridge chamber will form a cushion for the fighter's hand.

At the end of the barrel, also provided with a swinging pivot, is a four-inch double-edged dagger, sharp as a razor and long enough to do a world of mischief.

It is not unlikely that the local ordinance concerning the carrying of concealed weapons could be extended to include the possession of such a fiendish design. In the hands of an angered man or in the possession of an intending burglar it would be a miracle if one escaped injury from some point of the three-faced weapon. It is equally dangerous at a distance and close quarters. If a shot misses there remain the alternatives of closing in and using either the dagger or the brass knuckles.

It is difficult to ascertain the popularity of the weapons, as they are not on sale. There is a similar design in the window of a Washington street pawnbroker, who procured it from a seafaring man. The weapons bear no date, but it is not hard to believe that they were designed for the use of the gentlemen who work when honest people are abed. The death dealer seems quite at home when arrayed with a jimmy and other factors of a burglar's kit.—San Francisco Examiner.

Guessing Flowers.

Many people complain that they cannot drink milk without its disagreeing with them. The most common reason why milk is not readily digested is that it is taken too rapidly and it enters the stomach and becomes one solid mass difficult of digestion. If it is sipped it is so divided on reaching the stomach that when coagulated, as it must be by the gastric juice while digestion is going on, instead of being in one hard mass it is more in the form of a sponge, and in and out of the entire bulk the gastric juice can perform its duties.

Who Built The Pyramids.

Hard to tell in some instances. But we know who are the great nerve builders. They are Scott & Bowne. Their Scott's Emulsion feeds and strengthens brain and nerves.

Children Cry for
CASTORIA.

The story of love is as old as the world, and as all embracing as the universe. It furnishes the sentiment for all romances—all novels—all plays.

The novelist considers it wholly from the sentimental, intellectual side, but there is another aspect even more important—the phyaical side. Sentimental love between men and women leads to close physical association—to marriage—to the rearing of children. And so health must be considered. A weak, sickly, head-achey, back-achey woman cannot be a good, helpful wife. She cannot bear healthy, happy children. She cannot give her children the proper care and training.

A sick woman has no right to marry. A sick woman has no right to attempt motherhood.

But no woman need be sick unless afflicted with cancer. There is a sure way for her to regain her health. She need not go to a local doctor and submit to the disagreeable questionings, "examinations" and "local treatments" so invariably insisted upon, and so justly abhorrent to every modest woman.

Dr. R. V. Pierce, of Buffalo, N. Y., has cured more cases of female weakness than any hundred local practitioners. He has proved that diseases distinctly feminine can be cured right in the privacy of home.

Write to him stating your symptoms and an account of your trouble and he will give your case careful, confidential consideration and prescribe for you free of charge.

Mrs. O. N. Fisher, of 2351 Lexington Avenue, New York City, writes: "I had been a sufferer from nervousness with all its symptoms and complications. In the spring of 1897 I began to take Dr. Pierce's Favorite Prescription. Now I am not cross and irritable. I have a good color in my face and have gained ten pounds."

THE BEEHIVE.

Italian bees are proof against moths and worms.

Bees and poultry do not conflict with each other if kept in close proximity. The fowls may have the run of the apiary.

Chaff hives are protection against excessive heat as well as cold. If properly constructed, they are a great convenience.

Artificial queens are those produced from worker brood by bees under the influence of actual necessity for their own existence.

Comb honey should not be stored away in tight boxes. It should receive the light and air and should be arranged so as to be safe from insects and dust.

Heavy foundation for brood combs may run from four to six square feet to the pound. Light foundation for surplus comb honey may run from 10 to 12 square feet to the pound.

All strained or extracted honey will candy or become solid on the approach of cold weather. When desired, it can be melted for use, and then it will remain in liquid form for quite awhile before granulating again.

Modern Conveniences.

Engineer (to native, who has flagged the Alabama express)—What are you waving your shirt for? Is there a washout ahead?

Native—No, boss; no washout, t'ank de Lawd! I on'y wanted toe borrer a live coal outen yo'r engine toe light mah pipe wiv.

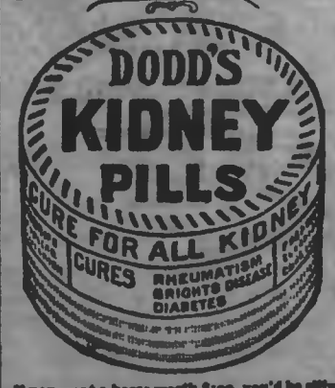
Stomach, Possibly.

"And did my predecessor not find a place in your hearts?" asked the new missionary.

"Well, the next thing to it," answered the savage, guardedly.

As if to change the subject, he solicitously inquired of the stranger if it was hot enough for him.

Substance-Shadow



If you want a horse worth $100, you'd be silly to pay $100 for his photo only. If you need DODD'S KIDNEY PILLS you'd be silly to buy an imitation.

"IT IS VERY SATISFACTORY."

To Wm. McCabe, Esq., Managing Director, North American Life Assurance Co., Toronto:

DEAR SIR.—Your official notice came duly to hand, apprising me of the results obtainable upon my 15 year endowment Policy in your Company for $..... 00, which matured on the 5th inst. Of the various options you have given me viz.:

Cash value	$1,564 20
Paid-up Policy, payable at my death, for	2,560 00
Yearly Income for life of	166 20

I have decided upon the cash value; and it gives me pleasure to testify that, as I anticipated it would be when I took out the policy, IT IS VERY SATISFACTORY. This returns me the full premiums of the 15 years and over 4½ per cent. compound interest, in addition to which you have carried the risk upon my life. In view of the low lending rates of interest which have been obtainable during the latter portion of the period, it is difficult to see how this excellent result could have been surpassed.

Yours sincerely,
(REV.) J. THOMPSON, D. D.

Mr. M. T. Wigle

Of Kingsville, Essex Co.

CURED OF ITCHING PILES OF 23 YEARS STANDING

M. T. Wigle, better known to every one in the vicinity as "Uncle Mike," was troubled for over 23 years with itching piles. At times he was so bad he would have to quit work. The irritation became so intense with constant rubbing that they became ulcerated and would bleed. He had been treated by many physicians, but found nothing that gave him relief. Reading in the paper the cure of a friend who had suffered in a like manner, and been cured by Dr. Chase's Ointment, he procured a box. After the third application he got such relief that he had the first comfortable night's sleep he had enjoyed in years. The one box made a complete cure, and he says he would not be without it for $50 a box if it could not be replaced. Mr. Wigle is a wealthy farmer, well known in the community in which he resides. It is over two years since he was afflicted, and he has never been troubled since.

Physicians fail to make a cure when Dr. Chase's Ointment gave Immediate Relief. . . .

THE POWER OF WILL.

He Wanted to Live Four Days, and He Succeeded.

It would be vain to attempt to describe the sympathy for the poor and suffering which William Stokes could throw into his voice, says his biographer. One of the stories he used to tell is of peculiar interest, not only for its revelation of human kindness, but as a proof of the power of the will in prolonging life.

An old pensioner was a patient of Stokes in the Meath hospital. His life was despaired of, and, in fact, his death was hourly expected. One morning, having many patients to care for and believing that the pensioner was unconscious and past help, Dr. Stokes passed his bed without stopping. The patient was greatly distressed and cried out:

"Don't pass me by, docther; you must keep me alive for four days."

"We will keep you as long as we can, my poor fellow," answered Stokes, "but why for four days particularly?"

"Because," was the reply, "my pension will be due then, and I want the money for my wife and children. Don't give me anything to make me sleep, for if I sleep I shall die."

On the third day after this, to the amazement of Stokes and others, the patient was still breathing. On the morning of the fourth day he was alive and conscious, and on entering the ward Stokes saw him holding in his hand the certificate which required signature. As the doctor drew near the dying man gasped:

"Sign, sign!"

The doctor quickly complied, and the man sank back exhausted and within a few minutes crossed his hands over his breast and said, "The Lord have mercy on my soul," and quietly breathed his last.

FEARED DEATH!

Heart would go into her mouth. Make her almost suffocate. Sinking feeling came over her. Dizzy spells alarmed her.

Mrs. Jas. McCaw, Oshawa, Ont., gives an account of her serious sickness and restoration to health by the use of Milburn's Heart and Nerve Pills.

Many people of Oshawa, Ont. and surrounding country are to-day thankful for health and strength brought back through the use of Milburn's Heart and Nerve Pills.

There is none, we venture to say, more grateful than Mrs Jas. McCaw, wife of the well-known shoemaker. Her's was a serious case and her account of how she was cured is well worth reading.

"I was troubled seriously for a long, long time with my heart and nerves, and had a very a severe attack of LaGrippe, which left me much worse in every way. At times the palpitation of my heart was so bad that I feared death. My heart seemed to go right up into my throat, and caused a feeling of suffocation most painful to endure. Then at other times there was a great fluttering of the heart, followed by a sinking feeling, dizziness, etc.

I was feeling extremely miserable when I got a box of Milburn's Heart and Nerve Pills from Mr. T. G. Ryley's drug store, and commenced taking them. From the first few doses I improved rapidly, and am now much better than I have been for a long time. My appetite is good and I am wonderfully better in every way. I can recommend these pills very highly, as I feel that no other remedy could have had performed such a marvellous change in so short a time, and it gives me pleasure to let others know that there is a remedy which will cure them."

Milburn's Heart and Nerve Pills are 50c. a box or 3 boxes for $1.25, at all druggists, T. MILBURN & Co., Toronto, Ont.

Ingenious.

"My wife is the most ingenious woman who ever lived," said Kipper.

"I believe you," returned Nipper politely.

"But you don't know why you believe me," intimated Kipper.

"To tell the truth, I don't," replied Nipper, looking bored.

"Well, I'll tell you. We've been married 19 years and lived in the same house all the time, and this morning she found a new place in which to hide my slippers."—London Standard.

Children Cry for CASTORIA.

A PICTURESQUE NEWSGIRL.

She Attracts Much Attention—Womanly Pride at the Age of Six Years.

Despite the occasional vigilance of the Gerry Society's agents, one of the most industrious sellers of newspapers in the neighborhood of Broadway and Twenty-third street, New York, is a shabby looking girl who probably hasn't passed her sixth birthday. She wears a red dress that was designed for a larger person, and during the warm weather she doesn't trouble herself to put on stockings. With a bundle of papers under her arm, she dodges under trucks and in front of cable cars with the skill that comes from a life spent in the streets. When business is dull and she crosses Broadway or Sixth avenue, her manner changes. She walks mincingly and holds up the ragged ends of her old red dress as carefully as if it had never dragged in the dust. Recently she has cut off the ragged bottom of her dress, thereby shortening it to her knees and thus improving it. In other little ways she has indicated that the female instinct to make the best of her personal appearance is moving in her, and yesterday afternoon she performed a toilet operation that attracted the attention of half a dozen people. When the significance of it became apparent the people who had been watching her looked at each other and smiled. She had just received her bundle of evening papers, and before offering them for sale withdrew from the crowd of newsboys that surrounded the delivery wagon and sat down on the curbstone near Thirty-second street and Sixth avenue. She carefully tore off the margins of two papers and folded them together in a long thin strip. From a pocket in her old red dress she fished out a hairpin, which she closely inspected with pride. Several people had stopped to see what she was doing, but she was unconscious of their presence. She selected a side look of hair that was about four inches long, and, after dampening it, she rolled it up in the thin strip of folded paper and fastened it with the hairpin. It was intended to be a curl if everything went well. Then she arose, straightened down her skirt, and with the single curl paper over the left ear she trotted down Sixth avenue, calling "Wextra! Wextra!" in a thin, small voice.—New York Sun.

A Bank Note Story.

To the long list of bank note stories, the Leisure Hour adds this: A traveler stayed for a night at one of the largest London hotels. In the afternoon after he had gone away, a telegram was received from him stating that he had left a £5 note on the mantelpiece. On inquiries being made no note was found, but the chambermaid remembered finding a dirty piece of paper on the floor and tearing it up, and carrying it away with the rest of the rubbish from the rooms along the corridor. The pail of rubbish was traced to the hotel dusthole, into which were shot the accumulations from the whole of the building. The manager gave orders for the dusthole to be cleared out and examined, and half a dozen people were set to work with sieves to discover some trace of the missing fragments. When nearly half the mass had been gone through one little corner of the note was found. Then another piece, sodden and dirty, was discovered, and finally, after about an hour's sifting, all the pieces were found but one, of about a square inch in size. The pieces were washed and dried, and stuck together on an elaborate network of postage stamp strips. The bank paid the note; the traveller did not even say "Thank you," but merely complained of the inconvenience to which he had been put by the chambermaid's stupidity.

MR. HOUSE, OF BERLIN

Cured of Lumbago by Dodd's Kidney Pills.

Berlin Feb. 13.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past, Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Back-ache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

Where He Repaired It.

When illicit distilling was common in the highlands, there was an old man who went about the country repairing whisky pots.

The gauger met him one day and, surmising that he had been doing repairs at no great distance, asked what he would take to inform him (the gauger) where he repaired the last whisky pot.

"Och," said the old man, "she'll shust tak' hauf a croon."

"Done!" retorted the gauger. "Here is your money, but be careful to tell me correctly."

"Och, she'll no' tell the gentleman a lee."

Getting the money, the old man quietly remarked:

"I shust mended the last whisky pot where the hole was."—London Spare Moments.

Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down-feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me more strength and good appetite than anything I could take. I can now eat anything and have a new lease on life. Only 50 cents at any Drug Store. Every bottle guaranteed.

SPANISH ECHOES.

The beast is driven out, but the people of Havana will not know the full blessings of their deliverance until the cage is cleaned.—Kansas City Journal.

What those Pacific islands need is a dash of American speed and energy. Think of a people who could waste the time of four syllables in pronouncing a six lettered word like Iloilo.—Philadelphia Times.

If it be true, as claimed in musical circles, that we stole "Yankee Doodle" from the Spaniards, we have certainly made the amende honorable by giving them "Hail Columbia."—St. Louis Globe-Democrat.

ROBERTS' THREE PAIRS.

Perhaps the reason Mr. Roberts doesn't give up two of his wives is because they won't let him.—Pittsburg News.

There doesn't seem to be a woman at the bottom of Congressman Roberts' troubles, but several of her.—St. Louis Republic.

The three wives of Congressman Roberts refuse to give him up. Rather than relinquish their claim on him they would be willing to see him thrown out of congress.—Peoria Herald.

TAPS.

There are nine kilted regiments in the British army.

The Prussian army contains only one officer raised from the ranks.

The deadliest battle on record is Waterloo, closely followed by Gettysburg. In both battles the losses were about 26 per cent of the men engaged.

MONEY IN THE DUMP.

Tin Cans Melted Up and Old Shoes Converted Into Lampblack.

On every dumping ground where the city contractors of Brooklyn place their ashes one may see constantly Italians working hard leveling the heaps, as load after load is deposited, and carefully placing the tomato cans and other cast-off pieces of tinware in piles by themselves. The contractors do not object if the householders put old cans among the ashes, for this insures a careful leveling by the Italians at the dumping grounds at no expense to the contractors.

The revenue from these cans that are collected by the hundreds of thousands is a matter of surprise to most persons. A two-horse load brings from $6 to $8. It takes several days of hard work to get a big wagon load, but the Italians don't seem to mind the labor of it, for there is money immediately in sight as the piles of tin cans grow. They watch jealously their picking grounds, and sometimes make special arrangements with the contractors for the privilege of scraping and raking the ash heaps over.

The tin cans are sold to men with furnaces, who place them in a big caldron, and under a slow fire melt the tin and solder and run that part off for future use and sale. Almost all the tin and solder is saved by this process, and is saleable for use in making more cans for preserving vegetables.

The heat is then made intense, and the iron that remains is melted and cast into sash weights. The demand for these old cans is said to be greater than the supply, and one of the most valuable of the scavenger privileges that the Italians in large cities assume is that of working over an ash dump.

The Italians also collect old bits of leather in heaps. Old shoes of a large size are always a special delight to them. A wagon load of them is always saleable for use in making lampblack. There are other sources of profit in ash heaps, but the chief sources of revenue to those who pull them to pieces are the cans and the shoes.—New York Sun.

The Martian's Mistake.

The visitor from the planet Mars looked about him in surprise.

"You are, indeed, a strange people," he said, "but what astonishes me most is that you have no women."

"But we do have women," protested the inhabitant of the earth. "The trouble is that you have landed in a bicycle school and consequently can't distinguish them."—Chicago Evening Post.

Bad as Ever.

Hopkins—There's no reform about these bloomers the women are wearing.

Brown—Why?

Hopkins—I find it just as hard as ever to find my wife's pocket.—Philadelphia American.

OBITUARY.

Demise of Thomas Cox, Sr. in Lakefield On Tuesday.

The death took place on Tuesday last, in Lakefield, of Mr. Thos. Cox, Sr., after a few weeks illness, from the prevailing malady, the grippe.

The deceased, who was 77 years of age, was one of the best known men in the section, and his familiar presence in Lakefield will be greatly missed.

He leaves a wife and family, all of whom are grown up, to mourn his loss. The funeral took place to the Lakefield cemetery on Thursday afternoon, and was well attended. The services were conducted by the Rev. T. J. Edmison, the deceased being a consistent member of his congregation.

WAR IS JUSTIFIABLE.

The question considered by the Y. M. C. A. Debating Club last night was "Is War Justifiable?" The meeting was decidedly lively and interesting. All the members present were chosen by the leaders, as following making the sides:

Affirmative — Messrs. Collier (leader), Brunwell, Dixon, Hall and Simpson.

Negative—Messrs. Ray, C. Anderson, Williamson and James.

Sheriff Hall presided and gave an able summing up, deciding in favour of the affirmative.

The event of the season in connection with the club will be the lecture on Thursday evening next by Rev. H. Symonds on "Civic Ideals." A large attendance is expected.

On the following Thursday evening the mock parliament will begin. The committee outlined the programme for the same last night.

OTONABEE.

Council Meeting.

Council met on 20th February, all the members present.

On motion of Messrs. Lancaster and Weir Duncan McFarlane, jr., was appointed assessor. On motion of Messrs. Lancaster and Doyell the treasurer's accounts were finally audited and the auditors' report adopted, and 200 copies ordered to be printed for distribution. Richard Doris was present, applying for further aid for John Doris, who continued in very poor health. On motion Messrs. Weir and Lancaster an order was given him on Jas. MaNeil for 100 lbs of flour, 25c. worth of tea and $1.00 of meat. The following communications were received:—From Dr. Bryce, secretary of the Provincial Board of Health, re vaccination of school children and adults who had not been vaccinated within seven years. The secretary of the local Board of Health was instructed to say in reply that as there were no cases of small-pox in this part of the province, or had been for years, he thought there was no necessity for taking any action at present. From M. W. Matchett, to have his name removed from the roll for part of lot 26, con 13; the assessor was instructed to leave it off. From the Employers' Liability Insurance Co., re treasurer's and collector's bonds.—Received. The clerk was instructed to write to the Rathbun Co., requesting them to remove what telegraph poles that were obstructing the winter travel and the grading of the highways that had been marked by the company last summer for removal, and holding the company liable for damages being done to vehicles catching in the poles. From the County Treasurer, stating that he paid J. M. Drummond, treasurer, $412, Government school grant. John Grady drew attention to an error in the published statement of accounts, that $51 had been expended in building a bridge at Armstrong's, whereas $31 of the sum was for a bridge at Fawcett's, near Indian River. The following accounts were passed: Daniel McCarthy, gravel, $2.52; J. M. Drummond, registering births, deaths and marriages, $25 20; express on voters lists, 25c.; Peter McFarlane, repairing roads and sidewalks, $4.75; Jas Robertson, gravel, $2.10; Daniel Kelly, $5.60; EXAMINER Printing Co., $31.75; S. T. Wedlock, repairing scraper and plough, $5.00; R. McIntyre, care of hall, $3.75; Geo. Stewart and D. P. McFarlane, auditing accounts, each $4. Council adjourned to 20th March.

A HOUSE IN LONDON.

AN AMERICAN'S EXPERIENCE IN TRYING TO RENT ONE.

Whether You Take It on Lease or Agreement or Furnished or Unfurnished You Are Certain to Get the Worst of the Transaction.

I have an American friend here who got tired of hiring furnished apartments and paying for furniture which he could never own. Houses are very much cheaper in London than in New York. One American correspondent lives beautifully in Chelsea, a part of London, at $450 a year rent, another pays $350 rent, and another lives in Earlscourt, in London, in a fine house, for which he pays $600 rent. For my part I have paid for various houses $15, $22.50 and $30 a week, but have always hired furnished houses. Whoever hires a furnished house pays no taxes, or "rates," as they call taxes over here, but if you take an unfurnished house you must pay the ward or parish rates, which are usually estimated at about one-third as much again as your rent, so that if you agree to pay $600 rent you must really part with $800, including the rates.

Well, my friend looked over many houses and at last settled upon one at a rental of $500 a year. It was very spacious and beautiful. He did not admire the gas fixtures or the old fashioned gas stoves or the gas burners that were stuck in the grates to avoid the use of coal, but he thought to put up with them, since the house itself was just what he wanted. While he was bargaining for the house he got a small education. He found that when he spoke of "leasing" the house it was taken to mean that he wanted it for seven years, with the right to renew the bargain on the same terms for another and another term of seven years—"7, 14 or 21 years" is how they express it. He also found that a lease carries with it an obligation to put the house in repair at the end of the term. One hundred and fifty pounds, or $750, was what the house agents told him he must pay for repairs on surrendering the dwelling. I mention this case because there is nothing peculiar about it. It is a typical, average case, according to English methods.

He also found that the charge for drawing up a lease is $78.75 (15 guineas). Think of it! Lawyers have to be employed, and this is their legal charge for the service. Old as the country is they have never yet learned our method of printing legal forms at a few cents each and filling them up or altering them to suit cases.

He discovered that by taking the house on an "agreement" instead of a lease he could avoid the worst of these burdensome expenses. An agreement is a lease for any term less than seven years. It does not carry the repairing clause with it, and it only costs a guinea, or about $5. So he took the house for five years in an agreement. Well, when he got in, he found that practically nothing but the bare walls went with the agreement. All the appointments that he had seen had been left in the house by the last tenant in the hope that the next comer would buy them. These included the window shutters, awnings, gas fixtures, closet shelves, gas stoves, even the handrail up the stairs; yes, even a rail on which to hang towels in the bathroom. The man said that these things were worth $100, and it suited my friend to buy them. Even strips of wood to keep the draft out of where the floors joined the walls were included in this new bargain.

That being concluded my friend looked about him and discovered that he had to buy fenders for all the fireplaces, fire tongs and pokers, hooks to put in the closets, bell ropes to work the bedroom call bells, and, really I have forgotten nine-tenths of the expenses, but they amounted to $350 before he finished with them. At the same time he was presented with an inventory of the landlord's property, and this included every window catch, doorknob, key plate, lock, hook, bell, bolt and fastening or appointment of every sort. These he was told must be left in the same order in which they were turned over to him.

I am told that in New York it is better to rent an unfurnished than a furnished house. They say that if a New Yorker tries to rent a furnished house the presumption is that he is hard up and will stand very close bargaining. Here in London there is no such feeling, because all, except the very rich, are in the habit of renting their houses furnished. These are almost a nomad people. They live in town in the season, which is the middle of summer. After that they go to the seashore or to the south of France or to their country houses for the autumn shooting and again at Christmas time. The consequence is that tens of thousands of well to do folks rent their houses for six months or nine months, if not for a whole year.

When they rent a furnished house to you, they send an agent of their own to meet your agent for the purpose of taking an inventory of the furniture. Your agent is pretty spry. He examines things as carefully as he knows how and points out the cracks and kicks and dents and scratches that he sees as he looks at each article. The landlord's agent seems very lethargic. He shows no curiosity or interest in what is going on, but loafs through the job as if his duties were perfunctory.

But, oh, dear reader, you should see that same man when your lease has expired and he is seeing what damage you have done. He rings every saucer and plate with a lead pencil, he turns every chair upside down and studies the bottoms and legs, he examines the mantelpieces, he even stares at the doors to see whether they swing evenly or not, he takes down the gas globes to see if the edges are nicked, he even makes a note of a spot of rust on a pillowcase. He who was so slow and indifferent has changed into a sleuth hound, into a microscopist, into a demon of conscientious alertness. Lord pity you if you have had careless servants or boisterous children or have not done your utmost to put things back into as good order as you found them. Your bill, which they call your "dilapidations account," will make you ill.—Providence Journal.

Sore Throat Cured in a Night.

Mr. J. Woodward, 136 Shaw-street, writes: My daughter was troubled with sore throat, which was much swollen. Griffith's Menthol Liniment was applied at night and in the morning all soreness and swelling had disappeared. We have found it a useful Household Remedy and would not be without it. Sold by Ormond & Walsh, druggists, Peterborough.

CRATER LAKE.

Picturesque Body of Pure Water in the Chimney of an Extinct Volcano.

Crater Lake, in southern Oregon, was discovered by a party of twelve prospectors in June, 1853. It had long been regarded by the Indians as the home of myriads of sea devils, called by them Limos, and it was considered death for any Indian brave to look upon it. Capt. Dutton, of the United States' army, visited the lake and surroundings in 1886. His survey and report first made known to the world one of the most interesting, grand, awe-inspiring spots on earth. W. G. Steel, fellow of the American Geographical Society, was one of Capt. Dutton's party, and has published some interesting papers on the lake, and C. B. Watson, of Ashland, a gentleman who has given much attention to local geographical studies, has delivered a few descriptive lectures, but when it is considered that it ranks along with Yosemite, the Yellowstone park and the Grand Canyon of the Colorado as one of the most interesting and unique scenic features of the world, it is astonishing that Crater Lake is known only to a very limited number of American people.

The lake is about ninety miles from Ashland, from which point it is reached by the Dead Indian road in private conveyances. The road passes over the cascades through beautiful forests, by way of Lake of the Woods, the Klamath lakes and the old historic Fort Klamath. The lake is almost egg-shaped, ranging northeast by southwest, and is seven miles long by six in width. The water's surface is 6,251 feet above sea level, and is completely surrounded by cliffs or walls from 1,000 to over 2,000 feet high, which are scantily covered with trees. To the southwest is Wizard Island, 845 feet high, circular in shape and thickly covered with timber. In the top of this is a crater—the Witches' Caldron—100 feet deep and 475 feet in diameter. It is supposed that this was the last smoking chimney of the once great volcano.

It is interesting to compare the measurements of altitudes, area and depth of Crater Lake with like measurements of some of the other most noted bodies of water. Lake Baikal, in Siberia, is 54 by 365 miles in extent, 4,080 feet deep and 1,360 feet above the sea level. The Caspian Sea is 50 by 600 miles in extent, 3,600 feet deep, and 85 feet below the level of the sea. The Dead Sea is 10 by 46 miles in extent, 1,308 feet deep and 1,907 feet below the level of the ocean. Lake Tahoe, in California, is 19 by 20 miles in extent, 1,645 feet deep.—San Francisco Chronicle.

A Sad Mistake.

Mrs. Foster was from New England, and regarded life very seriously, never shirking or turning back from the path of duty which lay before her, but she never realized that French was at all necessary until she visited Paris. Then she had to rely on a phrasebook, which relieved her mind of all care, but greatly exercised the mental powers of the natives with whom she came in contact. Her nephew, who was studying art in the French capital, secured for her an invitation to a reception given by a famous French artist. Mrs. Foster went, accompanied by her nephew (and the phrase-book). She thought she knew just where to open it and read her lines. She was introduced in French to the artist. He spoke in French, her nephew replied in French, until the dear old lady got bewildered. But she felt that she must say something, so she opened the inevitable book and read off the first sentence which met her eye, giving it the true New Hampshire twang. The artist smiled sweetly, but as Mrs. Foster saw the translation in italics after the sentence she nearly fainted. As her nephew led her away, however, he congratulated her upon her introduction and her knowledge of the language.

"But, Henry," cried his horrified aunt, "did you hear what I said? I asked him how soon could we get something to eat—that's what I asked him—in French."

Her nephew smiled; he would have liked to laugh. "Oh!" he replied. "Did you? Well, auntie, it doesn't matter, for he asked me what in thunder you said, and I told him I didn't know."

His Life Was Saved

M. J. B. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken by Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and $1 00, at any Drug Store, every bottle guaranteed.

Electricity and Cats.

Strangely enough, I once had an impression that a cat's tendency was to travel north and to face the north as a magnet does, and that this tendency had some intimate association with the electrical strength of its fur. In brief, I looked upon a cat as a lightning conductor on a small scale, and that according to its temperament, negative or positive, did it face north or south, or just as the points of its fur were attracted by the negative or positive poles of the earth. I was led to this by some observations that I had made some years previously in a London suburb. Then I noticed that the cats of that particular district had a tendency to walk in particular directions on the walls that faced the north rather than to walk on walls that ran east and west.

As to the idea that cats are good weather gauges, I do not credit that. I believe that the reason a cat washes itself over its ears or not is bound up with the particular method by which the particular animal cleans itself. Its main object in washing, to my mind, is just to complete an electrical circuit, for by so doing it generates heat and therefore a pleasing sensation in its fur.—Cassell's Magazine.

The Last Week of Stock-taking

THIS FINDS US WITH QUITE A NUMBER OF FUR ARTICLES WE WISH TO TURN INTO CASH. . .

MANUFACTURING FURRIERS.

Exquisite Flavor | **Great Strength**

These are the four corners on which this famous Indian tea has built up such an enormous trade in England, and it is on the same foundation that the trade is being built in Canada.

Ram Lal's Pure Indian Tea

This tea is grown in India, under European supervision, for the English market, the most exacting in the world. It is not an expensive tea, for though it costs a little more per pound it more than makes up the difference in strength. It is put up in sealed packets only. Ask your grocer for

Countess Webenau on the Stand.

Berlin, Ont., Feb. 24.—The Von Webenau trial was on yesterday. The defendant, Countess von Webenau, was on the stand and was put through a close cross-examination by Mr. Clement, Crown attorney. Her evidence was to the effect that goods found at Waterloo were not those insured, and such as were identical to those in the policy were duplicates. She was kept in the witness box till 1 p.m., when court adjourned till 3.

Judgment was reserved until to-day.

Brave Mary Kerr.

Chatham, Ont., Feb. 24.—Nellie Carswell, the 12-year-old daughter of W. H. Carswell, contractor, attempted to cross the River Thames on the ice. Getting part way across the ice gave way, and she was immediately in the cold water calling for help. Mary Kerr, aged 14 years, ran out and rescued the child. The act was a deed of heroism and she showed great courage, as she was herself in danger of meeting a watery grave.

He Pooled the Surgeons.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on Earth, and the best Salve in the World. 25 cents a box. Sold by all Druggists.

Another Tea Talk.

Weel, Mr. Sutherland, I've come to get anither pund o' yer guid 50c. Japan Tea, it's the best I have had yet, for do ye ken we had a marriage at our house and they dreank yer tea and praised ye up man for selling sich good tea and I'm sure it will bring you mair on stean nothing like keeping a good article and the ither things that we got frae you were guid, ye sent us fine big seun oranges and the nuts th would hae dun your heart guid to hear the laseer crackin them, we had a very happy time only there wa a thing we neglected, namely, to gie yersel an invitation when the tea was so guid we were sorry we missed yer company. I see ye've gotten anither large delivery of Teas, Sugars, Salmon, Etc., I dinna ken whaur ye sell them all, but I'm sure ye get a guid share o' what's gaen. I'll hae to hurry home now as it is near dinner time and ye hea we maun hae anither drop o' yer good tea.

CORSET COMFORT.

There are corsets and—corsets. Every lady knows that the mere appearance of a corset is no indication of its comfort. We claim for the

"D. & A." CORSET

that it is well made on a thoroughly natural principle. While supporting the chest it allows full play of the muscles, adapting itself to the form, yet adding to its grace and beauty. In addition to which it is the handsomest looking corset on the market.

PRICE: $1.00 TO $3.50 PAIR.
